PAVING THE WAY FOR WOMEN TO VOTE.

Woman Suffragists Met in This City Yesterday.

TALK BY MRS. BLACKWELL.

SAYS THAT WOMEN ARE NOW WIDENING THEIR EDUCATION.

The Union County Association Reorganized so That North Plainfield Women Can Become Members—Delegates Elected to the National Convention to be Held in Washington Next Week

Yesterday afternoon in the Unitarian church there was a meeting of the Union County Woman Suffrage Association, called for the purpose of reorganizing the local branch of the association and changing the name. The local branch includes this city and the borough, and the new name selected is "The Equal Suffrage League of Plainfield and North Plainfield." This change was made so that the boroughites can have equal representation with the Plainfield women in the county association. A committee, consisting of Mrs. Florence Howe Hall, Mrs. Isaac Miller and Mrs. Samuel Huntington, were appointed to reorganize this league and draft a new constitution.

After the above meeting, which was of short duration, there was held the second meeting for the year of the New Jersey Woman's Suffrage Association, which was held particularly for the purpose of electing delegates to attend the National convention to be held in Washington, February 8th to 14th, and more especially to hear an address by Rev. Antionette Blackwell, who was the first woman ever licensed to preach. Mrs. Blackwell is now living in New York, but she still remains a member of the New Jersey Association. She is a graduate of Oberlin College and a very interesting talker. She said that the theory was prevalent at one time that women must be kept in the background in a state of innocency as babes, and all sorts of failure was pictured about her if she entered into public life. Finally, after a great deal of effort, the colleges began to open for women, and soon she was securing some of the best prizes. This secured for her a more advanced step. When woman devoted herself entirely to her home she had a great influence, but now that influence is far greater. Women are widening their education by being members of literary clubs which furnish a means for practical work.

Mrs. Blackwell said that she did not like the use of the word equality as used in speaking of men and women, but thought the word equivalent was a better one. She believed that woman is now in a new era, and the waves of progress that are carrying her forward will not stop. She thought that men had inherited traits belonging to women. That woman is needed in every department of public life she said there is no doubt. She is to work along the lines on which she was developed, and in the social world she has a wide field. She must support the platform of the party to which she belongs. She believed that women should think more of the welfare of men than of party measures, and in matters of details woman has proved her ability to manage carefully and economically all things of importance, and she was sure that woman would be more careful in the selection of candidates if given that privilege. She expressed the opinion that woman is greatly needed in public life, for she has a quieting influence and she would not be a bothersome office seeker.

Mrs. Blackwell considered that woman is more virtuous than man, for the reason that she is not subject to the many temptations. She argued that it is popularity that carries the masses along, and this she thought would be a strong help for the coming woman. In conclusion Mrs. Blackwell urged woman to carry on her work along moral lines, and while she is not destined to be a leader in reforming the outside world, she certainly can occupy an advanced position with credit to herself and the world.

At the conclusion of Mrs. Blackwell's remarks a vote of thanks was extended to her by those present. The business remaining to be considered was then concluded. The following were chosen as delegates to go to Washington: Dr. Mary D. Hussey, of East Orange; Mrs. Susan Lippencott, of Cinnaminson; Mrs. J. M. Pullin, of Camden; Dr. Florence DeHart and Miss Mary Philbrook, of Jersey City. The alternates are Mrs. DeWitt, of Essex county; Miss Louise Watts, of Newark; Mrs. S. R. Krom,

(CONTINUED ON PAGE 8.)

AROUND THE ZERO MARK

COLD WAVE IS MAKING ITSELF FELT JUST NOW.

Thermometers Registered in Some Places as Low as 2 Degrees Below Zero — Biting Air Made Humanity Shiver.

Last night was the coldest of the season. Early this morning the mercury in different parts of the city is reported to have registered as low as 2 degrees below zero. This was the extreme, however. In most points about the city and vicinity it registered about 3 degrees above the zero notch. This is very cold weather for New Jersey.

The cold was the more intense owing to the high wind that prevailed all night. Commuters and others who were compelled to catch early morning trains faced a piercing cold north-west wind, whose cutting blasts fairly took one's breath. There was a sharp, biting frost that penetrated to the homes of the citizens, causing all humanity to shiver and think of heavy top coats and increased coal bills. However, the second cold wave of the season is cordially welcomed by the ice dealers, who had come to look upon the mild weather of the early winter months as detrimental to the annual ice harvest. The cold wave promises to be with us for several days, possibly followed by snow storm.

GOLF CLUB ELECTION.

Three Trustees Will Be Chosen at Annual Meeting Monday Evening—Two Will be Re-elected.

The annual meeting and election of trustees of the Hillside Tennis and Golf Club will be held Monday evening. There are nine trustees, three of which are elected each year for a term of three years. Two of the three trustees whose terms expire will be re-elected without opposition. Two candidates are mentioned for the other office. George A. Chapman, president of the club, and John vanHerwerden, treasurer, will be chosen to return to the board of trustees. Townsend Rushmore and Dr. F. C. Ard have both been mentioned for the other place.

R.PARIAN RIGHTS GRANTED.

Boiler Company Propose to Remove From Elizabethport to Bayonne.

The New Jersey Board of Riparian Commissioners met in the Fuller building, in Jersey City, yesterday, and granted, conditionally, a right to 635 feet on the Kill von Kull, in Bayonne, to the Babcock & Wilcox Company, of Elizabethport. The company proposes to remove its plant to Bayonne. It manufactures steam boilers, and employes 800 men. The grant for its proposed new site is between Hobart and Ingram avenues. The price is $17,000. The company several months ago asked for 800 feet. The Commission fixed the price at $30,000, or $30 a foot. The company yesterday asked for 635 feet at $20 a foot. The price awarded is at the rate of about $26 77 a foot. The condition is that within a year the company is to erect on the site works covering 50,000 square feet.

The Mutual Benefit's Statement.

Policy holders of the "Newark Mutual" will be interested in the very satisfactory financial statement that the company publishes on another page of this paper. Since 1845 this New Jersey institution has commanded the respectful attention of the insuring public but now this, the 55th annual statement, shows that the company has over one hundred thousand polices in force, an income of over a million a month and assets, on a par value basis, of over sixty-nine millions of dollars. For conservatism, economy and liberal dealing with policy holders no company stands higher. The head agent for this section of the State is Stephen S. Day, whose office is at No. 776 Broad street, Newark.

Mid-Year Examinations.

The mid-year examinations at the Plainfield High School were completed yesterday. They occupied three days. Heretofore it has been the custom to continue the examinations a week or more, holding one or two each day. The plan of devoting all the periods for three days and then having the examinations over has been found to work better.

Special Endeavor Service.

Next Monday evening, February 5th, a special Christian Endeavor Day service will be held in Trinity Reformed church, at which time Rev. Wm. B. Hamilton, of Elizabeth, will deliver an address. There will be special music, also a special offering for "Endeavor" church fund.

Old Lady Subject to Whooping Cough.

Mrs. Goodman, aged about 70 years, of Manning avenue, is a sufferer from a severe attack of whooping cough. She has been an invalid for many years, and it is feared that the malady may have serious results.

SEVERAL CITY HALL SITES ARE FAVORED.

Three Will Be Recommended to the Council.

BY A SPECIAL COMMITTEE.

ONE ON PARK AVENUE AND TWO ON EAST FRONT STREET.

Advantages and Disadvantages of the Various Locations Proposed — Special Committee Will Report to the Council at the Meeting Monday Night and Recommend Three Good Sites.

However the Councilmen may regard the project of building a new City Hall at once, they are agreed on the necessity of a new jail and that without delay. The present disgrace is too great to be allowed to be continued a day longer than can be helped. At the meeting of the Common Council Monday evening some action is expected to be taken toward the starting of the City Hall movement. The report of the special committee will then be presented.

The exact nature of the report that will be presented has not been made public. The public will be greatly interested to hear the full details concerning the choice of a proper site, and it may be that they will be included in the report. The committee will, however, report that the three sites most available at present are the one at the corner of Park avenue and East Fifth street; the Mrs. Thomas MacDonald property on the south side of East Front street, near Watchung avenue, and the Gardner property on East Front street, almost opposite. Each has its advantages and its disadvantages.

If only a City Hall, without any accompanying jail and station house, was to be erected, there would probably be no objection to its location on the Park avenue site. Psoperty owners there have expressed themselves against it now, and part of the Council favors a location nearer the business centre of the city.

The fact that the MacDonald property directly connects with the city property on East Second street and that a City Hall located there would have an entrance from Second street, makes that location quite popular. Those who advocate the immediate erection of a city jail but delay with the City Hall seem to favor this site as an L could be built in the rear of the proposed location of the City Hall and used as a jail, connection being made with the fire department headquarters to secure heat. Then the City Hall could be built at leisure and fitted into place. The objection to the property is, however, that a valuable house now stands on the property that would have to be purchased and torn down or removed.

The Gardner property has its advantages in that the property can be secured at less cost than either of the other two and it would permit the placing of the City Hall in the centre of a sort of public park backing up to the brook. Then it would be slightly nearer the centre of business.

All these considerations will be brought up when these sites are regularly considered by the Council. The Council will also have to hear the various estimates as to the cost of the City Hall and the L proposed for the jail. It is expected, however, that something will be done at the meeting of the Comman Council Monday evening that will bring the City Hall a little nearer at all events to realization.

SOMNAMBULIST KILLED.

Aged Man Fell From Roof While Walking in His Sleep.

(Special to The Daily Press.)

New Brunswick, Feb. 1st—Peter Rogers, an aged man, who has been living with his son, Wm. Rogers, at Dayton, near here, for some time past, was killed yesterday by a fall from the roof of an extension kitchen. Mr. Rogers' bedroom opened on the roof of the extension, and it is supposed he was walking in his sleep. He was over 70 years of age.

Early yesterday morning his son was awakened by hearing his father moving about in the room. He heard the window open and soon after a heavy fall. He went out and after some time found his father's body lying on the ground. The old man was still alive, but unconscious. He died in an hour, before medical aid could be summoned.

Former Mayor Saunders to Lecture

Former Mayor William L. Saunders has consented to deliver a lecture on compressed and liquid air at the Casino Tuesday evening, February 13th, under the auspices of the Monday Afternoon Club.

CHOSEN BY THE GOVERNOR.

Dr. W. H. Murray Made a Member of the State Board of Health.

Governor Voorhees has just appointed Dr. Wm. H. Murray, secretary and executive officer of the Plainfield Board of Health, to be a member of the State Board of Health of New Jersey.

The State Board has had a good opinion of the Plainfield Board for a long time, considering it an up-to-date energetic one, particularly in the matter of handling contagious diseases and ferreting out the causes of epidemics, etc.

Plainfielders will rejoice at this evidence of appreciation of their home Board, and will extend their hearty congratulations to Dr. Murray for the well-deserved honor which has come to him.

It is understood that the appointment was made at the special request of members of the present State Board.

Dr. Murray will continue as a member of the Plainfield Board, his term not expiring until next year.

UNCLE SAM'S CARRIERS

Postal Clerks Put Aside Their Mail Sacks and Enjoyed an Evening's Fun.

The letter carriers attached to the Plainfield postoffice, and known as branch No. 396 of the National Association of Letters Carriers, had a lively time last night at the monthly meeting held in an upper room in the Babcock building. The branch has recently been re-organized and is now in flourishing conditon. The principal business transacted at last night's session was the initiation of five representatives of Uncle Same into the mysteries of the order. The degree work was quite impressive and those upon whom they were conferred will not soon forget the ceremonies that attended the initiation. P. J. Reville, president of the branch, presided at the meeting. After the business and initiation the carriers and and clerks, who were present to the number of 14, enjoyed a collation and smoker.

EMERY AND WALPOLE.

Indicted by Union County Grand Jury on the Charge of Selling Liquor Illegally.

(Special to The Daily Press).

Elizabeth, Feb. 1—William S. Emery and Lewis Walpole, both of whom run hotels in Scotch Plains, were arraigned in Union county court this morning on indictments of selling liquor illegally. They both pleaded not guilty and were held in $200 bail for trial on February 7th. The indictments were secured through the evidence gathered by the Scotch Plains Citizens' League, of which Rev. Gideon M. Shott, pastor of the Baptist church, is president. The hotel keepers will bitterly contest the trial, and some exciting evidence is expected.

MADE TWO COUPLES HAPPY.

Pastor Jackson Kept Busy Last Night Tieing Nuptial Knots for Lovers

Rev. E. E. Jackson, pastor of the Mt. Olive Baptist church, was kept busy last night officiating at two weddings. The first one took place at the parsonage, when Miss Anna C. Bullock and William J. Brown was the happy couple that desired to be made one. The couple was attended by a number of guests who witnessed the ceremony. After performing the ceremony at this wedding, Pastor Jackson was driven to 56 Elm place, where he married Miss Elenora Jenkins and Thomas Banks, and made them happy. The couple will reside where they were married, which is the home of the groom.

An Illustrated Lecture.

There will be an illustrated lecture on China, India and Arabia by A. S. VanDyke in Trinity Reformed church this evening. The pictures are very fine, the lecture interesting and a cordial invitation is extended to the public. A collection will be taken at the close to defray expenses.

Will Not Lose a Foot.

At a consultation of physicians with Dr. Hedges last night it was decided that it will not be necessary to amputate the foot of Harry Park, who was injured by the cars at the Grant Avenue station Monday night. The young man is slowly improving.

To Take Charge of Home Department.

Miss Laura J. Runyon, of the First Baptist church, has been prevailed upon to take the superintendency of the Sunday-school home department, which is quite a factor in the church. She has already entered upon her duties.

A Pleasant Sociable.

A pleasant sociable was held at the Unitarian church, Park avenue, last evening, under the auspices of the women of the church. There was a very good attendance. During the evening refreshments were served.

TELEPHONE COMPANY BEATEN BY A WOMAN.

Mrs. Freeman Employed Lawyers and Secured an Injuction.

COMPANY FORCED TO TERMS

ERECTION OF POLES WAS STOPPED AFTER POLES WERE UP.

Grounds of the Injunction Were That the Company Was Proceeding Across Mrs. Freeman's Line Without First Securing Consent—Court Proceedings Effective, for the Company Paid Claims

The New York and New Jersey Telephone Company, which is erecting a telephone line through Union, Middlesex and Monmouth counties, and which passes through Middlesex county near Marconnier, was stopped from work by Emma E. Freeman, who through her attorneys, Messrs. Codington & Swackhamer, obtained an injunction out of the Court of Chancery prohibiting the continuance of the work until the further order of the court. The grounds of the injunction were that the company was proceeding to erect their line without first obtaining the consent of Mrs. Freeman. Effort was made on the part of Mrs. Freeman through her lawyers to have an adjustment of the matter made, but being unsuccessful through various excuses, it finally resulted in a race between the company and the attorneys—the company endeavoring to get their poles erected, and the attorneys endeavoring to get an injunction.

On Monday an injunction was obtained and the work stopped, after about one half of the line along her premises had been erected. Yesterday the company realizing that it was euchred, settled the matter by paying Mrs. Freeman the full amount of her demands. The company will now be permitted to proceed with the line.

A. G. O. P. SMOKER.

Politicians Will Gather in the Casino February 14th for a Social Time.

The second of the series of informal smokers, held under the auspices of the Republican county executive committee, will be held in the Casino, this city, on the evening of Wednesday, February 14th. There will be a programme and informal speeches. Invitations will be sent to Governor Voorhees, United States Senators Kean and Sewell and all the Republican Congressmen from New Jersey. All the G. O. P. leaders in Union county will be present together with a scattering of prominent Republicans from all over the state. Tickets can be secured from members of the county committee. They will cost fifty cents each.

QUAKER HISTORY.

An Interesting Paper Read to the Friends by Miss Margaret Vail.

A regular meeting of the Young Friends' Society was held last evening in the meeting house, Watchung avenue, when those present were entertained in an interesting manner by Miss Margaret Vail, who read a history of the early Quakers from 1708, when the first meeting house was erected at Woodbridge, up to 1788, when the meeting house on Watchung avenue was completed. The next paper containing further history will be of still greater interest for it will include matters of more recent date.

After the reading of the history those present were entertained by Willis W. Vail, who exhibited, with the aid of Charles E. Vail, some very fine lantern slides showing prominent places in various parts of the country. This was followed by the serving of refreshments.

A Double Surprise.

Eden L. Boice, of Central avenue and West Third street, was given a complete surprise last night when the members of Plainfield Lodge, No. 44, I. O. O. F., called at his home and presented him with a handsome arm chair in honor of the celebration of the seventy-second anniversary of his birthday. A large cake was also presented to Mrs. Boice, after which the latter surprised the Odd Fellows by giving them a bountiful supper.

Injured by a Fall.

Charles Westmark, aged 22 years, a resident of Fanwood, was taken to the hospital this morning about 10 o'clock suffering from injuries received in a fall. His trouble seemed to be in the back. As he talks very poor English those in charge have thus far been unable to ascertain exactly how Westmark was injured. It is evident, however, that he fell on his back. His condition is not serious, and he will be detained but a short time.

TAPPED TILL FOR 2 V'S.

HIMAN MINTZ'S EXPERIENCE WITH MAN WHO SAID HE WAS HANDY.

When the Proprietor of the Meat Market Turned His Back The Cash Drawer Was Rifled—Stranger Held.

A strange man about 40 years of age loitered about the meat market of Himan Mintz, on Richmond street, yesterday afternoon. The man said he was looking for work and was handy at most anything. When Mintz's back was turned the fellow slipped behind the counter and forced open the money drawer, from which he took two five dollar bills.

When the money was missed a few moments' later the strange man was suspected of having stolen it. He was found in the vicining by Roundsman Flynn, who arrested him and took him before Justice Nash. The money was found on his person. When arraigned the accused gave the name of Thomas McCoy and said his home was at Long Branch. He refused to have anything to say why he took the money. The Justice committed McCoy to await the action of the Grand Jury charged with larceny.

HOPES FOR MODIFICATION.

Westfield and Elizabeth Street Railway Company is Ready to Dicker in Elizabeth Again.

Lawyer Henry, of Elizabeth, counsel for the Westfield and Elizabeth Railway Company, says the company will petition the Elizabeth City Council for permision to extend its tracks from East Broad street, down Magnolia avenue to Division street; through Division street, under the Central Railroad, to Trumbull street; down Trumbull street to Court street, and from thence down Court street to Front street.

Mr. Henry says the company will proceed with this extension as soon as the Council grants the desired permission. In exchange for this permit the company will ask the City Council to modify the ordinance recently adopted by that body.

The company says it will be perfectly willing to adopt a five cent fare from any part of Elizabeth to Cranford as soon as Senator Kean completes his road at that point, and puts the five cent fare in operation.

PRAISE FOR NEW REAL ESTATE FIRM.

Messrs. Taylor & MacDonald Come in for Favorable Words.

William E. Taylor, prominent as a specialist in New Jersey land, is offering rare bargains in Hackensack property. His offices, 123 Liberty street, Manhattan, are filled daily by home-seekers and investors anxious to take advantage of the easy terms on which nearly all of his sales are made. Mr. Taylor is widely known all over Northern New Jersey as one of the most successful of auctioneers. Household goods, as well as town lots and houses, bring high prices at his sales, and his business in this line is of increasing proportions.

Hackensack, to which Mr. Taylor is devoting much attention just now, is becoming widely known as an ideal home site. Good roads, good water, high-grade schools, churches and pleasing social life are attractions that serve to make it agreeable for new-comers.

In order to cater to persons wishing to live along the line of the Central Railroad of New Jersey Mr. Taylor has interested J. F. MacDonald in his business. Mr. MacDonald's efforts will be made chiefly in and about Plainfield, a city known for its beauty and excellent train service.—New York Times.

Delinquents Come to Time.

It has been gratifying to the officials of the borough to see the 1899 delinquents pay up promptly under the persuasion of Chief Campbell, and thus save themselves the trouble of going to jail as provided for by law. The officer is meeting with good success in the collection of the delinquent tax, and thus the borough will be better able to meet its obligations.

Afternoon Instead of Evening Meetings.

For the present the members of the Woman's Relief Corps have decided to hold their regular meetings in the afternoon instead of the evening on the date of the meeting. They will meet tomorrow afternoon and business of great importance concerning the soldiers' home at Vineland will be considered.

Four Children All With Diphtheria

Four children in the family of Martin McCarthy, of 1207 West Sixth street, have diphtheria. There are four other children also in the family. Mr. and Mrs. McCarthy are said to be in indigent circumstances and this added affliction makes them worthy subjects for the charitable citizens of Plainfield.

BEST BOWLERS IN DAILY PRESS LEAGUE.

Average Scores of Individual Players Are Compared.

MULFORD, ROSELLE LEADS.

W. M. TOWNLEY, OF WESTFIELD, IS A CLOSE SECOND.

Standing for the Individual Prizes for Highest Average Scores and Spares Offered in The Daily Press Bowling League—Chauncey D. Smith Still Holds the Lead in Average Spare Contest.

Besides the interest shown in the winning team in The Daily Press Bowling League, the contest for the individual prizes for highest average scores and highest average spares has attracted much attention. Now that it is an assured thing that the Roselle Casino will hold The Daily Press trophy the first year, particular attention is being given to the standing of the various favorite bowlers in the competition for the individual prizes.

Mulford, Roselle's crack young bowler, stands at the head of the list for the highest average score. In the twelve games he has rolled in the league, his average is 182.7. His lowest game was 161 and his highest 203. Unless he happens to tumble down in the six remaining games that Roselle has in the tournament he is likely to win. His nearest competitor is W. M. Townley, of Westfield. Townley's average is 175.2. 209 was his best and 122 his lowest. But for the latter and a 133 score, he would have been close behind Mulford.

Sharp, Cranford's veteran, is third and Captain Charles Smith, of Roselle, is fourth. The first representative of the Park Club is H. D. Hibbard at eighth place, with an average of 163.1. Dr. Thiers is right behind with 160.3.

Only those who roll 75 per cent. of the games are eligible for the prize. The following list includes only those who have rolled the required per cent. of the games in which their club has taken part. The list is as follows:

	Games Rolled.	Ave.
Mulford, Roselle	12	182.7
W.M Townley, Westfield	13	175.2
Sharp, Cranford	12	171.2
C. Smith, Roselle	12	170.9
Bates, Cranford	15	164.4
C. D. Smith, Westfield	15	163.6
Patterson, Roselle	12	162.6
Hibbard, Park Club	12	162.1
Thiers, Park Club	12	160.3
Forster, Westfield	15	159.6
Condit, Westfield	14	159.6
F. O. Bail, Park Club	12	156.9
W. Smith, Westfield	14	156.
Johnson, Park Club	9	152.1
Dumont, Cranford	15	152.00
Shangle, Roselle	12	148.9
Barry, Cranford	12	145.7
VanBuren, Park Club	8	144.3

Chauncey D. Smith, captain of the Westfield team, stands well in front in the contest for the highest average number of spares per game. Smith, of Roselle, is second. The Plainfield contingent are bunched at the end of the list. Those having rolled the required seventy-five per cent. of the games of their club are as follows:

	No. Games Rolled.	Ave. Spares.
C. D. Smith, Westfield	15	5.06
C. Smith, Roselle	12	4.75
Forster, Westfield	15	4.60
Mulford, Roselle	12	4.58
Barry, Cranford	12	4.50
Condit, Westfield	14	4.35
W. Smith, Westfield	14	4.35
Patterson, Roselle	12	4.33
Sharp, Cranford	12	4.16
Dumont, Cranford	15	4.13
Shangle, Roselle	12	4.08
W. M. Townley, Westfield	13	4.08
Hibbard, Park Club	12	4.00
Thiers, Park Club	12	4.00
F. O. Bail, Park Club	12	3.66
Bates, Cranford	15	3.66
VanBuren, Park Club	8	3.25
Johnson, Park Club	9	2.75

Funeral of Mrs. Thomas Flynn.

The funeral services over the remains of the late Mrs. Thos. Flynn took place yesterday morning at 8:30 o'clock from the house, 303 Madison avenue, and at St. Mary's church at 9 o'clock. A large number of relatives and friends gathered at the house and later at the church, where Rev. Father Westman officiated. After the services the funeral cortege proceeded to St. Mary's cemetery, where interment was made. The pall-bearers were John Flynn, Charles Flynn, Edward Flynn, Michael Flynn, John Carney and D. J. McCarthy, nephews of the deceased.

A Chimney Fire.

Patrolman Higgins telephoned to headquarters last evening about 10 o'clock informing the firemen that there was a chimney fire at the home of Mr. Scott, Plainfield avenue, near West Third street. Chief Doane and No. 2 Hose wagon responded and quickly extinguished the flames after cleaning out the chimney and stove pipe. The damage was very slight.

Staff Captain to be Heard.

Staff Captain McDonall, of Newark, will address the meeting at the Salvation Army tonight. The public is invited to attend. There will be a stereopticon lecture Saturday, Feb. 3d, conducted by Ensign Gray. He will lead the meetings all day Sunday, special songs and music. Don't miss these meetings.

GOEBEL IS SWORN IN

Wounded Man Takes Oath as Kentucky's Governor.

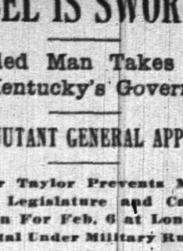
NEW ADJUTANT GENERAL APPOINTED

Governor Taylor Prevents Meeting of the Legislature and Calls a Session For Feb. 6 at London. Capital Under Military Rule.

FRANKFORT, Ky., Feb. 1.—William Goebel was shortly before 9 o'clock last night sworn in as governor of Kentucky, and J. C. W. Beckham a few minutes later took the oath as lieutenant governor. The oath was administered to both men by Chief Justice Hazelrigg of the court of appeals. The plan to make Goebel governor was set in motion early in the afternoon. A statement was prepared saying that the boards which had heard the contests for governor and lieutenant governor had decided in favor of Goebel and Beckham and that the boards intended to report their findings to the legislature, but that they had been prevented from so doing by the action of Governor Taylor in declaring the legislature adjourned.

The statement then goes on to say that the members of the legislature were driven from place to place by the militia and threatened with arrest whenever they attempted to hold a meeting. It was declared the belief of all the signers of the statement that Goebel and Beckham were the legally elected governor and lieutenant governor, and each man as he signed the paper announced that he voted for the adoption of the majority report of the contest boards, which declared Goebel and Beckham to be the men rightfully entitled to the office. It is signed by a majority of the members of both houses.

It was slow work obtaining the signatures of the members of the house and senate, and although the work was in progress all the afternoon it was not until evening that the necessary number of signatures had been obtained. As soon as the last man actually needed had affixed his signature to the statement word was sent to the residence of Chief Justice Hazelrigg of the court of appeals. He came



WILLIAM S. TAYLOR.

at once to the Capitol hotel, passed directly up stairs to the room of Mr. Goebel and administered the oath of office.

Mr. Goebel was propped up with pillows and was able to raise his hand only with the greatest difficulty as he listened to the words of Judge Hazelrigg. When the oath had been given, Mr. Goebel sank back exhausted, the effort having been almost too much for his strength. There were in the room at the time the oath was administered besides Mr. Goebel and Judge Hazelrigg Arthur Goebel, brother of the wounded man; Mrs. Welch, his sister, and Percy Haley, his campaign manager, and two or three intimate friends.

Mr. Goebel was unable to say anything regarding the matter, but the contented smile on his face bore strong witness to the pleasure he felt.

Immediately upon leaving the room where he had sworn in Mr. Goebel Judge Hazelrigg went to an adjoining room, where he swore in Mr. Beckham as lieutenant governor. This done, he returned to his home.

Judge Hazelrigg declined to make any statement concerning the manner in which the offices had been conferred upon the Democratic contestants. "A majority of both houses of the legislature declared for them," he said, "and when I was asked to swear them in there was nothing left for me to do but administer the oaths of office. The proceeding was of course entirely legal and proper. I would not have done as I did had it been otherwise."

Mr. Goebel as soon as he was assured that he was legally governor of Kentucky took prompt action regarding the military arm of the service. Two orders were quickly prepared for his signature, the first of which discharged Adjutant General Daniel Collier from office and appointed General Job B. Castleman of Louisville as his successor. The second was directed to the commanders of the militia now stationed in this city directing them to return to their homes.

Word was at once telegraphed to General Castleman of his appointment, and he is expected in the city this morning. There is a possibility of trouble in this matter of control of the state troops. The regiments of the guard have lately been reorganized and are for the most part made up of Republicans and personal followers of Governor Taylor.

Never was there a more complicated situation than that which now confronts the politicians of Kentucky, and never was there one which it seemed so difficult to form an accurate guess at the outcome.

All day the Democracy groped around to find some way in which it could seat in the gubernatorial chair its leader, William Goebel, who lay slowly dying of the wound inflicted by the bullet of an assassin.

No matter which way the Democrats turned they were confronted by the same prospect—a line of blue edged with steel, and it was fully understood by both parties that the line and steel were there for business purposes only. There was no bluff, no false alarm about it.

All day through the streets of Frankfort soldiers marched and countermarched. Drills in the street were frequently held in order that the men might be warmed by exercise after they had remained in the biting wind. Around the penitentiary was a line of troops, in the Opera House was a guard, three companies stood at rest in the open space in front of the Capitol hotel, sentries patrolled every side of the building in which ex-Governor Bradley resides, and a detachment of infantry held the courthouse against the possible coming of the members of the legislature with the intention of declaring that not the living William S. Taylor, but the dying William Goebel, was the lawful head and chief executive of the commonwealth of Kentucky.

The Republicans laid their plans well and secretly. They carried them through vigorously and triumphantly. The proclamation declaring that a state of insurrection exists in the state and warrants for the arrest of every Democratic member of the legislature were prepared Tuesday night. It was the intention of Governor Taylor and his advisers that no meeting of the legislature should be held yesterday even though it proved necessary to arrest and detain in custody all those who persisted in holding meetings. Once adopted, the policy was carried out to the letter. Compelled to retire from the capitol building, they went to the Opera House, they went to the court house. Prevented from entering the court house, they went to the Capitol hotel, only to be told that any meeting they might attempt to hold in that building would be suppressed, all found taking part in it would be arrested and the hotel itself seized by the soldiers.

There is much doubt among the members of the legislature as to whether or not they will go to London at all. Some of the Republicans left Frankfort during the day, declaring that they were going direct to London, but no Democrat so declared himself. The words "London Laurel county," are not words that please Democratic ears. In fact many of them declared that their lives would not be safe after they reached the town. It is a place of about 1,000 inhabitants, situated in what is known as the "feud county." The inhabitants are mostly mountaineers and largely of a most enthusiastic type of Republican faith. The county is one of the greatest Republican strongholds in the state. The people of Laurel county are intensely for Taylor and intensely against Goebel and all his works.

Adjutant General Collier declared that if they did not attend the legislative meeting which is called to meet on Feb 6 he would arrest them individually, provided he received the necessary orders from Governor Taylor, and convey them to London.

All day the shadow of the death of Mr. Goebel hung over the Capitol hotel. His strength began to fail him late in the morning. The bustle and excitement which despite all precautions penetrated into his quiet room had a most serious effect upon him. At noon it was declared that he could live but a short time, and at 1 o'clock it was said that death was upon him. The halls and stairways were filled with people who sat in silence to hear, at any moment that the end had come. The afternoon wore away, however, and as evening drew on he seemed to gain new strength and appeared distinctly better. He was never for a moment unconscious and never did his courage abate for an instant.

Frankfort was quiet in the extreme during the day. There was excitement sufficient for anybody, but not the slightest sign of disorder. Many of the saloons were closed, and the cold wind kept people off the streets.

Big Fire In Honolulu.

HONOLULU, Jan. 24, via San Francisco, Feb. 1.—In the burning of certain plague infected buildings in the Asiatic quarter the whole city was threatened with destruction. The entire Chinese quarter, covering 13 blocks, was burned to the ground, and 4,500 men, women and children were driven from their homes absolutely destitute save the clothing which they wore. These refugees were herded in an old church and churchyard for the night and then were sent to the detention barracks. The loss by fire will amount to over $500,000, and the cost of maintenance of this army of destitute will amount to a large sum, but it is believed that the plague is stamped out.

President's Reception.

WASHINGTON, Feb. 1.—President and Mrs. McKinley gave a reception at the White House last night in honor of congress. The attendance was much smaller than usual owing to the cold weather. The guests were received by the president and Mrs. McKinley in the blue parlor. Senator and Mrs. Frye and Speaker and Miss Henderson, besides other members of the senate and house, the justices of the supreme court, the cabinet and others, took place behind the line in the blue parlor which the guests passed. The marine band played, and the decorations were on a lavish scale.

French Editor Received by the Pope.

ROME, Feb. 1.—The pope yesterday received M. Ferdinand Brunetiere, editor of the Revue des Deux Mondes, in private audience and asked him to repeat the substance of the lecture he had delivered on Bossuet. He expressed a keen interest in the completion of Bossuet's monument in the cathedral at Meaux, France. The pope then spoke with great animation of the importance he attached to the reunion of the churches. At the close of the interview he handed M. Brunetiere the cross of commander in the order of St. Gregory the Great.

Cuba's Population.

WASHINGTON, Feb. 1.—Under General Sanger's direction the Cuban census supervisors have completed the preliminary enumeration of the population of Cuba, and the results are in the hands of Secretary Root. The population of the entire island is 1,572,840, which is between 50,000 and 60,000 less than it was when the last census was taken by the Spaniards in 1887. The population of Porto Rico is placed in the preliminary enumeration at 957,679. The last census, taken in 1887, showed a population of 806,708.

Fire In St. Louis.

ST. LOUIS, Feb. 1.—The six story building at Fourth and Spruce streets occupied by the Aroma Coffee and Spice company was partially destroyed by fire yesterday, and the entire stock is ruined. Fifteen streams that had been pouring on the building for several hours turned into ice, making it impossible to learn now just how badly the building is damaged. The loss on stock and building is estimated at $100,000, perhaps more, partially insured.

For a Court of Arbitration.

THE HAGUE, Feb. 1.—The government is about to bring forward a bill approving the conclusions reached by the peace conference regarding arbitration, with a special view to the establishment of a permanent court of arbitration here. It is believed by the government that the people of the Netherlands would appreciate such a compliment, owing to the fact that many European peace treaties were formerly concluded here.

Accidental Shooting.

CAMBRIDGE, Mass., Feb. 1.—John J. Gallagher, who accidentally shot and killed his stepsister, Nora Shannahan, last Sunday, was discharged in court. The shooting was deemed accidental, but the court emphasized the danger of keeping loaded firearms in the house.

WHY IT SUCCEEDS

Because It's For One Thing Only and Plainfield Is Learning This.

Nothing can be good for everything.

Doing one thing well brings success.

Doan's Kidney Pills do one thing only.

They're for sick kidneys

They cure backache, every kidney ill.

Here is Plainfield evidence to prove it.

Mrs. W. W. Mills of No. 86 Summit avenue says:—"I suffered at times with a severe pain across the small of my back and in my hips. If I did any lifting or stooping my back became lame and sore and though I used plasters they only helped me for the time being. I was feeling very badly when I had my attention called to Doan's Kidney Pills. They were so highly recommended for troubles like mine that I got a box at L. W. Randolph's drug store. I felt their good effects in a few days, when I had finished the treatment my back was better and stronger and I had much more energy to attend household duties."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no other.

ACCUSED OF TREASON

The Irrepressible Pettigrew Gets Hot Shot.

THE SENATE MUCH EXCITED.

Trouble Grew Out of an Attempt to Have Aguinaldo's Version of Alleged American Recognition Read—Dewey's Denial.

WASHINGTON, Feb. 1.—Debate in the senate, ordinarily calm and dignified, burst yesterday into passionate utterances and bitter recriminations.

Senators hurled denunciations at one another until the auditors quivered with excitement.

The debate grew out of a phase of the Philippine question, and no scene has been witnessed since the discussion of the war resolutions in the last congress which in sensational features compared with that of yesterday.

The discussion arose quite unexpectedly.

Mr. Pettigrew, who has precipitated nearly all of the debate upon the Philippine question during the present session, sought to have read a resolution embodying a document written by Emilio Aguinaldo upon the Filipino insurrection and containing his version of the alleged recognition of the Filipino republic by Admiral Dewey.

Senator Lodge of Massachusetts protested against printing the document in any form and read a letter from Admiral Dewey in which that portion of Aguinaldo's statement relating to the admiral was denounced as "a tissue of falsehoods."

Senators on the floor listened with eager attention, and many gallery spectators leaned far over the railings in their desire not to miss a sentence. Mr. Lodge said he preferred accepting Dewey's word to that of Aguinaldo and was satisfied the American people would also.

In a passionate reply Mr. Pettigrew declared that Admiral Dewey had recognized the Filipino republic and although afforded an opportunity heretofore to deny Aguinaldo's statements had not done so.

In an instant half a dozen senators were on their feet. Mr. Hawley, the venerable senator from Connecticut, denounced Mr. Pettigrew's action as treason.

In rapid succession Senator Pettigrew was made the target of stinging arraignments by Senators Spooner, Hawley, Sewell and Gallinger.

That the feeling was at a pitch seldom noted in the senate was evidenced by the pale faces of the men who spoke.

Mr. Jones (Dem.) of Arkansas and Mr. Teller of Colorado endeavored to stem the tide of protest and deep feeling by conciliatory speeches.

At the conclusion of the scene, which will remain memorable in the senate annals, the financial bill was taken up and discussed by Mr. Berry (Dem.) of Arkansas and Mr. Teller (Silver Rep.).

PORTO RICO'S GOVERNMENT.

Bill Will Provide For a Delegate In Congress and Low Tariff.

WASHINGTON, Feb. 1.—The senate committee on Porto Rico yesterday continued consideration of the bill to frame a government for Porto Rico, but did not conclude its labors. The committee practically decided, however, to leave in the bill the provision for a delegate in congress who shall be a resident of the island, own taxable property there and write the English language.

On the question of the tariff the committee agreed to a duty equal to 25 per cent of the rates of the Dingley law on all articles shipped from the United States to Porto Rico and also on articles shipped from Porto Rico to the United States.

A port of entry is provided for San Juan. An amendment was also agreed to providing for the establishment of quarantine stations in Porto Rico under the supervision of the surgeon general of the marine hospital service and placing the matter of regulation of the importation of disease entirely under the control of the government of the United States.

Died by His Child's Coffin.

CHICAGO, Feb. 1.—John E. Curtiss, one of the best known members of the Chicago bar, dropped dead at 6 o'clock yesterday morning while standing over the coffin of his dead child. Heart disease aggravated by despondency caused death. The body of the child had just been placed in the casket, and the father stooped to read the Scriptural promise of the meeting of loved ones in the future engraved on the coffin lid. "Who knows how soon we shall know the full truth of those words?" he remarked as he finished reading them. He then kissed the babe and fell to the floor dead.

Long Litigation Ended.

CHICAGO, Feb. 1.—Litigation involving the title to a tract of 160 acres of land bounded by Eighty-third and Eighty-seventh streets and Gates and Jeffery avenues, valued at $500,000, has been decided by Judge Tuley, who entered a decree finding the title to be with the Chicago and Calumet Canal and Dock company. The contest was made for but one-quarter interest, 600 or more defendants holding title under government patents to three-quarters interest in the property. The case has been in the courts since 1880.

A Fight With Robbers.

EDWARDSVILLE, Ills., Feb. 1.—Three robbers were arrested yesterday by Chief of Police Barnsboeck while dividing their spoils. One felled him with a revolver, and all escaped, holding a crowd at bay with their guns. Later one robber was captured. Posses and bloodhounds traced the others to the Madison mines, where they exchanged 20 or more shots without effect. The two robbers are still at large.

Roosevelt Receives Good Advice.

ALBANY, Feb. 1.—Governor Roosevelt is greatly amused at the receipt of letters from men in other states, one coming from a United States senator, advising him not to participate in a public wrestling match. This is the result of a story which stated that the governor anticipated doing this. Of course he will not participate in any such exhibition.

William a Great Hunter.

BERLIN, Feb. 1.—Since 1872 Emperor William has killed 40,822 pieces of game. The list includes 34,813 small game and 6,009 big game, besides 121 chamois, 7 elk, 3 reindeer, 3 bears and 1 whale.

THAT VEXED QUESTION.

How the Unsolved Twentieth Century Problem Got a Man Into Trouble.

The man with a face like an interrogation point bit off a huge piece of mince pie (cold), washed it down with a gulp of cold milk, and turned to the man standing alongside of him in the lunch room.

"Say, my friend," he inquired, "do you know when the twent—"

"No, you don't, stranger," said the man addressed. "Not this time. I'm in here to partake of a modest luncheon consisting of buttermilk and chocolate eclairs, and no man's going to get me on that subject while I'm eating downtown. I've got to stand it at my boarding house table; there's nothing else at that table. But I can't be drawn into the argument downtown. What's more, I don't care a darn when it begins."

The man with the face like a question mark looked puzzled, but he wasn't easily squelched.

"I don't think you understand what I was going to ask you," he said. "I wanted to know if the twent—"

But the man with the buttermilk and the chocolate eclair moved off. The man with the question pulled down a large piece of gingerbread from the counter, grabbed a cup of coffee, and tackled another man alongside of him.

"Excuse me," he began, "but I want to inquire when you think the twent—"

The man addressed smilingly interrupted:

"Nix, old man; not to-day," he said, amiably. "Too much brain fag about it. I'd be glad to accommodate you by going out and fighting a dog for you, or sawing a couple of cords of wood for you, or any little chore like that—but, nay, nay, when it comes to that question. I've passed that problem along to my two boys in school, anyhow. They've got lots of time and enthusiasm, and it'll expand their minds—that is, if it doesn't land them in the lunatic asylum. The question doesn't make much difference to me anyhow. I'll live just as long, anyhow, won't I?"

"But," expostulated the man with the questioning eye, "what I was going—"

The man he was addressing looked at his watch hurriedly and ran to pay his check, however, and the man with the interrogatory physiognomy had no recourse but to turn to another man near by.

"Look here, my dear sir," he started, "I want to ask you when the twent—"

"I don't know, and what's more, I don't care," was the testy reply. "I've got something else to do with my time than to fritter it away on such idiotic calculations as that."

"You are in error," was the interrogatory man's hasty interruption, "as to what I was—"

Again he found that he was addressing no one in particular, for the testy man had moved away.

"I wonder what ails all these people around here?" mused the man with the inquisitive countenance. "When I try to ask them a simple question they either get—"

Just then he caught sight of a friend coming away from the counter with a big slab of pie and a cupful of coffee. He elbowed through the crowd and corralled his friend.

"Ha, old man, you're just the one I'm looking for," he said, joyfully. "I wanted to ask you when the twent—"

His friend's face lengthened immediately.

"Look here, Jorkins," he said, expostulatingly, "that's a great fault of yours—picking up these confounded fads and asking questions about them. How the dickens, now, should I, a man who sells hardware for a livelihood, know when the twentieth century begins? And what the deuce is the difference to me, so long as I get three square meals—"

"Just wait a minute," interrupted the man with the inquiring mug. "I wasn't attempting to ask you anything about the beginning of the twentieth century. I don't care a hurrah about that question, one way or the other. What I wanted to ask you is, when was the 20-cent piece withdrawn from circulation? I've got a bet on the date with a friend."—Washington Star.

A Fiction About Panthers.

One of the time-honored attributes of the panther is his scream. One could not take $4,000,000 and therewith disabuse the American public of its fond belief in the womanlike wail of the panther. Yet many scientists to-day affirm that the panther is a mute animal, and does not scream at all. This latter I believe to be accurate, for my friend, "Old Bill" Hamilton, one of the few reliable and genuine old-timers of the Rocky mountains, tells me the note of the panther is a sort of hoarse, roaring noise, and he compares it rather to the roaring howl of the gray wolf than the voice of any other wild animal. He laughs at the "womanlike-wail" notion. Once when in camp in the Jicarilla mountains of New Mexico I heard at night the cry of what I supposed to be a mountain lion or panther. It was answered from beyond our camp, and the first animal passed within a few hundred yards. It might have been a wildcat, but the teamster who was with me said he thought it was a mountain lion.—Chicago Record.

An Eligible Topic.

Mrs. Stubb—John, I expect to attend the sewing circle to-night.

Mr. Stubb—Well, Maria, what is the programme?

"We are going to discuss this man Aguinaldo."

"Absurd! What has he to do with sewing?"

"A good deal. Don't the papers say he is hemmed in and his temper is ruffled?"—N. Y. World.

SWEDEN AND NORWAY.

Premier Bostrom Predicts a Settlement of Differences.

STOCKHOLM, Feb. 1.—Premier Erik Gustav Bostrom is distinctly hopeful that the differences between Sweden and Norway will soon be dispelled. In an interview yesterday he said he was fully convinced that the worst was over and that the Norwegians, both politicians and people, were beginning to realize that their demands could not be granted if the union was to be maintained. He knew from personal experiences while traveling in Norway that the Norwegians entertained the friendliest feelings for Sweden, and he was positive that if a political hothead should in the future propose anything tending toward the dissolution of the union a majority of the Norwegians would oppose it.

Sweden, the premier added, was quite willing to meet her partner half way and had already offered to settle the question of a foreign minister on equal terms.

Regarding the alleged Russian spies reported to have been seen about Swedish fortifications, the premier declared the government had thoroughly investigated the matter and found the supposed spies were only Russian workmen. Therefore there was no cause for alarm.

The premier evinced great interest in the political, social and commercial questions of the United States.

The archbishop of Sweden, whose recovery from appendicitis was doubted, is now almost well.

MR. BRYAN IN MAINE.

Democracy Gives Him a Rousing Reception In Portland.

PORTLAND, Me., Feb. 1.—The Democracy of Maine gathered in Portland last night in honor of William J. Bryan, their national leader, and the pent up enthusiasm of a year broke loose at the banquet tendered to Mr. Bryan at the city hall by the Maine Democratic club. This was the crowning feature of a busy day.

Colonel Bryan, with Congressman Lents of Ohio and ex-Governor John P. Altgeld of Illinois, left Boston early in the morning, each speaking at a mass meeting in the city hall at Lawrence at noon. Mr. Bryan appeared on the rear platform of the car at Haverhill for a short speech to about 1,000 persons and also shook hands with most of those in his immediate vicinity, receiving a bouquet in exchange.

At Dover, N. H., a large crowd was indulged to the extent of a little handshaking, and Portland was reached at 5 o'clock, the party being taken to Hotel Falmouth. After a short rest Mr. Bryan was tendered a reception in the council chamber of the city hall. Following this was the banquet in the larger hall above.

Santo Domingo Claim Settled.

SANTO DOMINGO, Feb. 1.—The government has paid over to a representative of Mr. W. F. Powell, United States minister to Haiti, who came here to arrange a settlement of the dispute, the balance of the claim of the American Bridge company, growing out of the absorption by the government of a bridge concession. In making the payment the government called attention to the fact that the sum of $2,400 had been expended for valuation and two expert inspections in order to get the bridge accepted. This amount is put forward as an offset, but left to the decision of the United States government.

Sylvia Given Up.

CONSTANTINOPLE, Feb. 1.—Owing to the refusal of the minister of justice, Abdurrahman Pasha, to hand over the 15-year-old Italian girl Sylvia Gemeli, who had been placed in the harem of a Turkish officer, the Italian embassador, Signor A. Pansa, has sent an ultimatum to the porte declaring that unless the girl is surrendered to the Italian embassy today diplomatic relations between the two governments will be ruptured. Late in the afternoon Sylvia Gemeli was conducted to the Italian embassy and handed over to her father.

No Law's Delay Here.

WEST CHESTER, Pa., Feb. 1.—Harry Wesley, a negro who was arrested ten days ago while in the act of robbing the residence of Richard D. Wiley of Whitford, was tried, convicted and sentenced within a half hour. Only three witnesses were heard, and the jury reached a verdict without leaving their seats. Judge Butler sentenced Wesley to imprisonment for 20 years and to pay a fine of $2,000.

A Boston Wedding.

BOSTON, Feb. 1.—The wedding of the Hon. Archibald Lionel Lindsay, son of the Earl of Lindsay of Kilconquhar, Fifeshire, Scotland, and Miss Ethel Tucker, daughter of Mr. and Mrs. William A. Tucker of Brookline, took place in Emmanuel church here yesterday. Rev. Leighton Parks, D. D., officiated.

Cold Run For a Fire.

STEVENS POINT, Wis., Feb. 1.—At 1 o'clock yesterday morning, with the thermometer 20 degrees below zero, Miss Amelia Stewart ran a block in her nightgown and barefooted to give the alarm for a fire in the Masonic block. The building was completely destroyed; loss, $50,000.

New York Markets.

NEW YORK, Jan. 31.—FLOUR—State and western fairly steady, but in very little demand; Minnesota patents, $3.90a4.15; winter straights, $3.40a3.50; winter extras, $2.60a2.85; winter patents, $3.55a3.80.

THAT'S THE IDEA!
You ought to see what we can do for you before doing anything for yourself. Painting depends upon the paint and the painter. Better preparations than ours were never put on by a brush. Wherever paint is put, it should be put there to stay long enough to make it worth while to do the job. The warring elements have no effect on our durable mixtures.

FISH AND GAME.

State Commission Recommends Many Changes In Present Laws.

ALBANY, Feb. 1.—The state fisheries, game and forestry commission in its annual report to the legislature, after giving statistics as to the number of fish hatched and planted during the past year, which figures have already been published, makes the following recommendations:

That the laws be so amended as to more fully protect the waters of the state against pollution.

That the game law be changed so that actions may be brought in adjoining counties as well as the county where the offense is committed or where the defendant resides if constitutional.

That uniform fish and game laws covering the whole state as to close seasons and prohibiting shooting of wild fowl from March 1 to Sept. 1.

That Sept. 15 instead of Aug. 15 open the season for deer hunting.

Assemblyman Wheeler of Cattaraugus introduced a bill in the house yesterday which provides for the creation of an office to be known as the state forester, who is to have the general supervision of the forest preserve. The bill further provides for the employment of 35 patrolmen at a salary of $500 per annum whose duties will be to guard against fires. It also gives the fish, forest and game commission the power to employ ten expert foresters to propagate the forests.

To Abolish the Death Penalty.

ALBANY, Feb. 1.—The assembly codes committee gave a hearing yesterday on Mr. Maher's bill to abolish the death penalty and substitute in its place imprisonment for life. General N. M. Curtis of St. Lawrence contended that this country under the death penalty law was credited with having the bloodiest code of any nation on the face of the globe during the years 1896-7. In support of his contention the speaker quoted statistics regarding convictions for murder and also to show that the law as it is today was both unsatisfactory and insufficient for the protection of society. He pointed out the fact that jurors were reluctant to serve on juries in cases where convictions meant death. Michigan, Wisconsin, Rhode Island, Maine and Colorado had all abolished the death penalty, continued General Curtis, and New York should do likewise.

CONDENSED DISPATCHES.

Richard Croker is gaining and hopes to be able to use his broken leg in two weeks.

Heavy snows in eastern Germany have greatly damaged telephones and telegraphs.

Both the state of Nebraska and Ethiopia, long overdue, arrived at the port of New York.

M. Zola was acquitted in Paris in the libel suit brought against him by the Petit Journal.

Ex-Minister Phelps, suffering from pneumonia at his home in New Haven, was reported much weaker.

Three negroes were whipped Sunday near Tifton, Ga., because they would not admit a theft, and two of them died as a result.

Near Ottumwa, Ia., Charles Spencer, a religious fanatic, held his naked babe in the bitter cold until it froze to death. The mother watched him do it.

Gift Surprised Mrs. Lawton.

SAN FRANCISCO, Feb. 1.—Until she reached this harbor Mrs. Lawton knew nothing of the $100,000 fund raised by the American people for her and her children. The news was taken aboard by Pilot Reed and communicated to Mrs. Lawton by Lieutenant Colonel Edwards, the dead hero's adjutant general. "Oh, how kind, how kind!" she sobbed, completely overcome. "It had always been Henry's ambition and mine," she said presently, "to have a home for the children, but I had despaired of it." Everybody in the cabin came forward and congratulated Mrs. Lawton in turn.

Toronto Talks of a Fair.

TORONTO, Feb. 1.—At the annual meeting of the Toronto board of trade it was resolved to memorialize the city council to hold a great exhibition in 1901 with a view to inducing the thousands who will attend the pan-American exposition at Buffalo to visit Toronto. The suggestion was also put forward that Canada should improve her coast defenses, contribute to the navy and establish a force of regular soldiers 10,000 strong, ready at all times for duty in any part of the empire, with the expression of a hope for the closest union of the parts of the empire.

A Ghastly Express Package.

SIOUX CITY, Ia., Feb. 1.—A corpse in a box marked "books" was found in the United States express office. The body was received on Jan. 19 from Baltimore, addressed to J. S. Bradford, but the express officials failed to find him. The dead man appears to be a German, 55 to 60 years old. The only garment on the body was a shirt. There was a frightful wound on the back of the head, apparently made by a blow from a blunt instrument. The dead man is bald, but wore a stubby beard and mustache. The face is much distorted, and everything points to murder.

To Buy Chinese Coal Lands.

VANCOUVER, B. C., Feb. 1.—A party of three mining men of Philadelphia left today by the steamer Empress of Japan with a view to purchasing large coalfields in western China. They expect to be away a year. The party consists of F. Satterlee, Sr., and his son, R. H. Parker and L. F. Garrison of Philadelphia and Louis Spitzel, a mining expert of London.

Colonial Legislature Prorogued.

ST. JOHN'S, N. F., Feb. 1.—The colonial legislature has been further prorogued by the governor, Sir Hugh McCallum, to March 8. It is understood that the negotiations between Great Britain and France regarding the French treaty shore have not been completed.

Grand Army Proceedings.

WASHINGTON, Feb. 1.—Senator Penrose has introduced a bill to make the proceedings of the Grand Army of the Republic a part of the public records of the United States, the commander in chief to make a report of the records to the secretary of the interior.

Wise Gets House Seat.

WASHINGTON, Feb. 1.—House election committee No. 3 has decided the Wise-Young contested election case for the Second Virginia district in favor of the contestant, Mr. Wise.

DEATH LIST GROWING

Latest Reports Increase the Loss at Spion Kop.

GENERAL KITCHENER GOES TO NATAL

Ladysmith Heliographs "We Can Hold On" and Reports the Garrison Healthy and Cheerful—An Attempt to Flood the Town.

LONDON, Feb. 1.—The supplemental lists fill two columns in nonpareil type in the morning papers, making 1,300 reported thus far for General Buller's operations north of the Tugela. The Daily Chronicle estimates that the total exceeds 2,000.

The 40 per cent loss at Spion kop is greater than any British force ever suffered, except possibly at Albuera.

The admiralty has warned all half pay naval officers to hold themselves in readiness for service. This, with the fact that able seamen not thoroughly experienced have been withdrawn from the channel squadron, is taken to indicate the early mobilization of the reserve fleet, especially A division.

At a meeting of the army and navy members of the house of commons yesterday a resolution expressing absolute confidence in whatever the government thought necessary commanded only two votes. Instead of this a resolution was adopted calling for the immediate formation of a home defense force.

Lord Salisbury has called another cabinet council, which will meet Friday or Saturday to consider the situation.

Public spirits are at a very low ebb.

It is reported that General Kitchener has left Cape Colony for Natal.

The war office refuses to confirm the report, but military men say it is most likely to be true. It would indicate that General Buller is now under the orders of Field Marshal Roberts and will be allowed to act only under his orders.

Sudden orders were received at Aldershot this afternoon for the immediate embarkation of the Fourth cavalry brigade for the Cape.

A dispatch from Ladysmith, dated Jan. 28, heliographed to Swartz kop, north of the Tugela river, says:

"The news of the prolongation of the siege, resulting from General Buller's failure, is received with fortitude. We can hold on. The garrison is healthier, cheery and confident. Disease is disappearing, and there is no horse sickness. The rains give plenty of grass. We can hear General Buller's guns still working, and it is rumored in camp that he is advancing along another line. The Boer laagers around are again full of men, who have returned from the upper Tugela. The Boers have also taken up a new position on the hills near Colenso, where they are in great force. Re-enforcements are apparently arriving from the Transvaal. Strong bodies of Boers are also visible between here and Potgieter's drift."

A dispatch from Cape Town, dated Jan. 30, says:

"General Buller still holds the Tugela drifts and will possibly renew his attempt to force his way through the Boer defenses before long. In any case, Ladysmith is capable of holding out for a considerable time.

The correspondent of The Times at Lourenco Marques, telegraphing yesterday, says:

"Information has been received here from the Transvaal that the war department, convinced that it would be useless to storm Ladysmith and that the bombardment will continue ineffective, has decided upon a change of tactics. Huge quantities of timber and sand bags and hundreds of Kaffirs have been sent from Johannesburg and Pretoria for the purpose of damming Kilp river some miles below Ladysmith, the idea being to flood the town and to drive the soldiers and inhabitants out of the bombproof caves, so as to expose them to shell fire."

Mr. Winston Churchill, in a further dispatch to The Morning Post which describes the recrossing of the Tugela, says:

"The army is exasperated, not defeated. General Buller will persevere, and all will come right in the end."

Reason For Heavy German Losses.

BERLIN, Feb. 1.—Dr. Leyds in the course of a conversation said: "The heavy losses the Germans have sustained in the Transvaal service are due to their rashly exposing themselves, but they have now adopted the tactics required by the topography of the land. Recently German, Dutch and Scandinavian volunteers have been merged in Boer regiments, so that such losses in the future will be impossible."

Hospital Service Perfect.

CAPE TOWN, Feb. 1.—Field Marshal Lord Roberts authorizes the statement that as a result of his inspection of the hospital service here he is perfectly satisfied that everything medical skill suggests for the benefit and comfort of the sick and wounded has been done. He is satisfied the home authorities are sending out all the nurses who will possibly be required.

Rough Treatment by Burglars.

BUFFALO, Feb. 1.—A Greenville (Pa.) special to The Express says that the home of Henry Myers at Jackson Center was entered by three masked men. Failing to find any money, the robbers took Myers out of the house and ran him around in the snow in his bare feet and later held him over a hot stove, badly blistering his body. The robbers then escaped, leaving their victim unconscious on the floor. They secured no money.

Rates For the Convention.

PHILADELPHIA, Feb. 1.—The trunk line passenger agents have accepted and approved the recommendations of the Pennsylvania, the Reading and the Baltimore and Ohio railroads relative to the national Republican convention which convenes in this city on June 19. The recommendations of the roads provide for a single fare for the round trip ticket good for ten days.

Hospital Patient Captured.

MIDDLETOWN, N. Y., Feb. 1.—Bartlett Dibble, who escaped from the state hospital here on Saturday, was brought back yesterday. While suffering from cold and exposure, Dibble set fire to a building on the farm of John P. Moore at Centerville Station and sat down to warm himself. The building was destroyed.

Weather Probabilities.

Fair and not so cold; diminishing northwesterly winds.

February 6—Meeting of Volunteer League of the Y. M. C. A.

February 8—Opening session of State convention of the Y. M. C. A. at Passaic.

The Governor Said No.

The Democrats of Paterson are in a state of mind over the conduct of Governor Voorhees when he was appealed to for permission to use the local armory for a meeting to be addressed by Col. Bryan. A word with two letters has caused the indignation of the Patefson Demceracy. That word begins with an N and ends with an O. It was brief, but to the point.

Col. Bryan had arranged to speak in Paterson the evening following his visit to Plainfield, but when the Paterson Democratic leaders started out to find a suitable place in which the Nebraskan might be heard by a vast audience, they found that every theatre and hall was engaged for that evening. As a last resort a flying trip was made to Trenton and an appeal made to Governor Voorhees to allow the armory to be opened for the use of the Democrats when Col. Bryan paid them the honor of a visit.

The decision of the Governor is recorded above. To say that the Paterson Democrats are mad expresses it mildly. Unless a theatrical troupe can be bought off for the night at one of the local theatres, so that drama will give way to politics, it is likely that Patersonians will not have an opportunity of hearing Col. Bryan. However, appreciating the strength of supply and demand, the manager of the theatrical company wants what is regarded as an extortionate sum for vacating the theatre in favor of Col. Bryan and his friends.

The present outlook for Col. Bryan's visit to Paterson seems very dubious.

Congressional Reapportionment.

The New York Tribune looks for two additional Congressmen for New Jersey after the census of 1900, and says:

Doubtless Newark will want to be a district all by itself and let East Orange go somewhere else. Jersey City may have similar longings, but it is hardly big enough for that yet. Passaic county is likely to have an ambition to travel alone and let Bergen county seek a new mate somewhere else.

The Passaic News observes that the present basis of representation is 183,000, and that "the increase in population will raise this to 200,000, unless the number of seats in Congress is proportionately increased, and unless, in addition, the south is cut down in the proportion in which the negroes are disfranchised. The population of New Jersey in 1890 was 1,444,000, showing an increase of 27.4 per cent. in ten years. A similar increase since 1890 would give a population of about 1,800,000 in 1900. If the basis remains the same, we will have those two extra Congressmen, but the basis will go up, and we shall be satisfied to get one, being entitled to one additional seat on a basis of 200,000."

The impression of the average easterner about the great west is associated with thoughts of acres of grain or grazing herds of cattle, the sizing up of the west nearly always being on an agricultural basis. But it is probable that next census returns will show a manufacturing activity and importance of the western states that will be surprising. In many branches of domestic production the west is now an aggressive competitor with the east for trade, the former's commercial traveling men contesting every inch of business territory with the drummers of trade for the east. When census returns are tabulated some great surprises will probably be in store for those who have not followed the enterprise of the west as carefully as they might to be well-informed.

The New York Sun proposes that the Democratic National ticket be Bryan and Cochran. That certainly would not be a case of the lamb and lion lying down together, but would be an instance of two lions yoked together, and each pulling in a different direction in the hope of attaining the same goal—Democratic success. We imagine that there would be but mighty little left of the platform when they got off from it under such circumstances.

A bill has been introduced in the Legislature providing that barber shops shall not be kept open later than 1 o'clock Sunday afternoons. Taking the same view that a Paterson judge has in his opinion that shaving is a necessity, and it is therefore legal and premissable for tonsorial artists to practice their avocation Sundays as well as week days, there is plenty of *room for splitting* hairs over the proposed law.

Republican leaders believe events will force Theodore Roosevelt's nomination for Vice-President. Not if the Governor has anything to say about it, and the hero of San Juan has never been one who has cried out that he was "in the hands of his friends." Teddy has always shown that he holds a tight rein over his political ambitions.

It looks as though President McKinley could use his benevolent assimilation process with good results down in Kentucky.

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

Monroe township, in Gloucester county, and Lafayette township, in Sussex county, enjoy the unique distinction of being the only townships in the State which continue the custom of paying bounties for the killing of wild birds or beasts. Monroe offers a premium for the head of every hawk destroyed within its borders, while Lafayette gives a bounty for groundhog scalps.

* * * * * * *

The family of John Corsen, in Bridgeton, is known as the "January Family," as all the members were born in January. The mother first saw light on January 1st; the father came into the world on the sixth; four-year-old Emily was born on the twelfth; little Jennie, seven years, on the twenty-fifth, and Ralph on the twenty-ninth.

* * * * * * *

"I learned an amazing thing the other day," said a man who has traveled abroad considerably. "Of course, you know what pride the average man feels in having his hand baggage plastered up with foreign hotel, express and railroad labels. He seems to regard it as a mark of distinction, and he wouldn't scrape one off for the world. Well, I met an acquaintance of mine as I was running over to New York the other day, and I noticed that his dress suit case was plentifully decorated with these labels. I knew very well he had never been abroad, and he knew I knew it. When I questioned him about it he grew red in the face and became very much confused. Had he been a ready liar he might have told me he had borrowed the case from a friend; but he only floundered around, and finally confessed that he had purchased the labels from one of the employes of a Walnut street steamship agency. It seems that this fellow makes quite a business of it. He gets the labels from abroad, and takes advantage of this peculiar form of masculine vanity to dispose of them. I understand that he makes quite a little income from it, too, for when a man wants those things he is willing to pay pretty well for them."

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

—It is a luxury to get shaved at Bamberger's parlor, 128 East Front street; cleanliness and good work guaranteed.

—A. D. R. Wilson, of Philadelphia, will lead the union Gospel meeting in the W. C. T. U. room, 100 Madison avenue, this evening at 8 o'clock.

—The members of the Swedish mission will continue their meetings in the new rooms of the W. C. T. U., 100 Madison avenue, Babcock building.

WHAT DO THE CHILDREN DRINK?

Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. The more Grain-O you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee but costs about ¼ as much. All grocers sell it. 15c. and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,

122 East Front Street.

Grand Spring Opening

OF NEW CARPETS, MATTINGS, RUGS, Etc.

OPENING DAYS— WEDNESDAY, THURSDAY and FRIDAY.

Our new Carpet Store—located at 246 Front Street, (formerly VanEmburgh's) is a room of great attractiveness, and is peculiarly well appointed for the carpet business. On the ground floor, splendidly lighted, well furnished and thoroughly stocked, we feel it is well calculated to fill a long felt want.

Now that we have the room we have felt it incumbent on us to put in a first-class stock of what is most to be desired in carpets. We have devoted a great amount of time and thought to this end and invested considerable money. The result, we believe, will meet with your approval.

A marked advance in the price of carpets has occurred. We anticipated this advance in large measure by early purchase, many patterns being still on the looms when contracted for.

WE POSITIVELY GUARANTEE OUR PRICES LESS THAN THOSE OF ANY REPUTABLE N. Y. HOUSE.

SOME PRICES:—

Savonneries, made, laid and lined,	-	$1.50 yd
Extra Axminsters " " "	- -	1.25 yd

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence to The Press.)

Dunellen, Feb. 1—The entertainment and reception to be given under the auspices of the Dunellen Banjo Club this evening at Apgar Hall is being looked forward to with pleasurable anticipation by those who enjoy good music. The Banjo Club is composed of some excellent musical talent and the members have put forth their best endeavors to make the affair a success. The entertainment given by the Banjo Club last fall in the Presbyterian church will be remembered as one of the musical events of the season, and the flattering reception given the members by way of attendance was highly gratifying to the ladies and gentlemen composing this popular musical organization. Those who will attend this evening's entertainment may feel assured of hearing an equally good selection of music as that which pleased the patrons of the first one. After the musical portion of the entertainment the members will hold an informal reception and dance. The affair promises to be marked by many pleasant features, and there is an anticipation of a large attendance. The programme follows:

Whistling Rufus.....Mills
Dunellen Banjo Club.
Vocal Solo.....Selected
Miss Marjorie Thatcher.
Accompanist, W. E. Terry.
a. That Old Sweetheart of Mine
b. The Christmas Ball .....Anon
Bertha Hurst Whitney.
What Will the Answer Be.....Barker
Violin, cello, 1st and 2d banjos, guitar, flute and piano.
Accompanist, Miss Josephine Dealaman.
Scene from Ingomar—The Barbarian.
Miss Ethel Jamison and Miss Mary Teel.
Banjo Solo—Berkeley March.
Brooks and Denton
Gilbert Hurlich.
Accompanist, Miss Josephine Dealaman.
Vocal Solo—The Last Watch".....Finsuti
Mrs. Robert Giddes.
Accompanist, Miss Emma Nelson.
Montclair Galop.....Weidt
Mandolin, guitar, 1st and 2d banjos, cello, flute and piano.
Accompanist, Mrs. Annie Abbott.
a. Money Musk
b. Selected .....Taylor
Miss Whitney.
Quartette of Banjos—Normandie March.
Armstrong
The Misses Boice, Dunham, Fulper and G. Herlich.
Accompanist, Miss Josephine Dealaman.
Reception.

The ladies of the Christian Endeavor society of the First Baptist church held a necktie sociable at the home of Miss Emma Nelson Tuesday evening that proved a pleasant affair. There was a large attendance and much fun enjoyed over the spelling match which was won by Miss Irene Day. During the evening refreshments were served. The proceeds are for the benefit of the C. E. society.

The next meeting of the literary circle will be held Saturday evening at the home of Mr. and Mrs. Lewis T. Titsworth. Among the interesting things on the menu will be papers by Mrs. E. Teel and Miss Imogene Smith on the English and Boer sides of the South African war. Miss Janie Churchill will render a piano solo, and Miss Emma Marlow a vocal solo.

The newly-organized Choral Union is making good progress. At the last meeting several new members joined.

The recent cold weather has frozen over the New Market pond and excellent skating is to be found there.

James Y. Wilson is again about to resume cutting ice on the New Market pond.

Mrs. Joseph Miers, of the Park Hotel, is reported dangerously ill.

'PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, Feb. 1.—The Grand Jury found an indictment against Wm. Lee on a charge of atrocious assault preferred by Wm. Haynes, a conductor on the Central railroad. A counter charge was made and indictment found against Haynes on the same charge. The trouble dates from the early part of October, when Haynes attempted to put Lee off his train at Westfield, Lee refused the proffered assistance and a scrimmage resulted.

The present cold snap is a joy to those in town who have not gathered their annual harvest of ice yet this winter. Thomas McIloy, of Glenside Park, expects to begin cutting in a few days. E. L. Hand and George Schick have the contract to fill the house

The Little Juniors of the Baptist church will resume their pleasant Friday afternoon meetings in the parlors of the church tomorrow afternoon at 3 o'clock.

Charles Wade, who has been detained at home for several days suffering from a severe cold, is reported as improving very nicely.

Mrs. Maria Noble, who has been the guest of her son, William B. Noble, has returned to her home in Newark.

Mr. and Mrs. Harry Christianson, of Fanwood, have returned from a stay of several months in New Orleans.

Henry Keuhn has finished his contract of painting Dr. Westcott's cottage in Fanwood.

Mrs. Ann Dobbins, of Kearney, has been visiting at the home of Mrs. John Flannery.

Miss Margaret Meecham, of New Brunswick, is the guest of Mrs. George Schick.

SOUTH PLAINFIELD.

(Special Correspondence to The Press.)

South Plainfield, Feb. 1—The people are very anxious for better stage accommodations from here to Plainfield. The Lehigh Valley stage is not running on the right time to be convenient for local travel; besides, the fare is too high.

J. Thuman, day operator at the Lehigh Valley station, has moved into the West flat in the Washington Hall building. This leaves the town without a vacant house again.

The roads through Piscataway have been unusually good so far this winter, but there is plenty of time yet for bad roads before the first of May.

Thomas Brantingham takes a spin occasionally behind "Myrtle Twig." He is keeping her in shape for the spring races.

Al. Soper has sold the milk route formerly owned by his father to F. Sedan, of Park avenue.

Edward McDonough has again taken a position with the Railroad Company.

John Dargan has gone to work at the coal chutes.

Rev. E. E. Jackson, of Liberty street, is suffering from a severe attack of neuralgia.

Drying preparations simply develop dry catarrh; they dry up the secretions which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly.

All druggists sell it at 50 cents or it will be mailed by Ely Brothers, 56 Warren St., N. Y.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World

"What Happened to Reilly" is the new Irish farce comedy that Kerrell and Cronin will present at Music Hall tonight, and if laughter can be accepted as a criterion of success it must be admitted that "What Happened to Reilly" has come to stick and stay. The plot is not so involved but that a person of average intelligence can follow it, and as the production of laughter is the principal aim of the several characters engaged in the piece, it need hardly be observed that they all work hard to acquire the desired result. Among the artists are John Kernell, Tim Cronin, Ethel Thornton, Edward Leando, Elsie Willard, Ben Leando, Rachel Barr, Will Robins, Eliza Mason, Charles Barr and Andrew McKay. High class specialties will be introduced throughout the play.

* * * * * * *

"How Smith met Jones," the comedy to be presented at Music Hall Saturday matinee and night, is said to be replete with all manner of ludicrous situations and funny climaxes and it requires a competent company to properly interpret the several roles. Great care has been taken in this respect. The people in the cast are Phil Mack, whose work with his partner Murray is pleasantly remembered; Harry Fisher, long the stage manager for Harrigan and Hart and better known as Harrigan's Dutchman. James M. Ward, an old timer, Bert Doris, late of the Hoyt and McKee forces; Adolph Phillips, formerly with the Frohman's; Clara Gale, for several years leading lady with Donnelly and Girard; Bessie Beardsly, of the Lyceum Stock; Magda Henry, Hett Tedrow and others.

* * * * * * *

America's biggest scenic success "A Guilty Mother," now playing in Newark, will be seen at Music Hall Tuesday of next week. There is no play before the public that has created the interest that this grand production has. The story of the play is interesting and the plot of the play grand. All the scenery is entirely new and with new features makes it a most complete production.

* * * * * * *

At the Fourteenth Street Theatre Chauncey Olcott, one of the most popular Irish stars who drop into New York in each year's swing around the dramatic circle, is again to be seen, in "A Romance of Athlone," which Manager Wesley Rosenquest gives with all the scenery and accessories for which it is noted. Press Agent Eddy says that Mr. Olcott is in splendid voice this year. At every performance he sings several of his most popular songs, including "Many Years Ago," "The Irish Swell," My Wild Irish Rose" and Olcott's famous "Lullaby."

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Miss Frances Thorn, of New York, will spend next Sunday with relatives in this city.

Miss Anna Fenner, of Elmwood place, has about recovered from a recent illness.

Mrs. E. E. Marshall, of Westervelt avenue, has recovered from an attack of the mumps.

Mr. and Mrs. Paul, of Central avenue, have returned after visiting with friends in Trenton.

Dr. Merrill, of North Branch, has been visiting his son, Dr. H. V. Merrill, of Central avenue.

Miss Mears, of New York, who has been stopping with Mr. and Mrs. Drake, of Orchard place, is now visiting in the borough.

Miss Grace Clark has accepted a position at the local exchange of the New York and New Jersey Telephone Company as an operator.

Mrs. S. A. Cruikshank, of Belvidere avenue, has lost one of her valuable collection of Shetland ponies. The animal died Tuesday.

Mrs. Coombs and her daughter, Mrs. Leah Marshall, of Westervelt avenue, will in the near future take up their residence in New York.

Miss Morehouse, instructor in stenography and typewriting at the Plainfield Business College, has recovered from a recent illness.

Miss Leahy, of this city, who is employed by the New York Life Insurance Company, is detained at her home with an attack of the mumps.

Miss Nettie Beeching, of Watchung, delivered an address today in the Presbyterian church at Caldwell, Essex county, on primary Sunday-school work.

Mrs. Jacque W. Bartindale, of 206 East Ninth street, leaves Thursday for a four weeks' visit in the west and to attend the marriage of her sister Miss Mamie Combs.

Miss Keppler, of the borough, has secured a position as stenographer and typewriter at the office of S. D. Drake, North avenue, and entered upon her duties this morning.

Mr. and Mrs. Stewart's young son of West Front street, is gradually recovering from an attack of blood poisoning caused by vaccination, and it is believed that no serious results will follow.

Miss Lou Crosson, of West Fourth street, who has for sometime past been employed at the local office of the New York and New Jersey Telephone Company, has resigned her position to accept one with the Guarantee Title and Trust Company, of New York.

EARLY INTELLIGENCE.

—Fred Firstbrook, grocer, 312 Liberty street, near West Fourth street, has another special sale for cash Saturday.

—There will be a meeting this week of the councilmanic street committee to talk over matters pertaining to streets.

—S. Scheuer & Co. have an interesting and money-saving advertisement in this issue. You should not fail to read it.

—The members of the W. C. T. U. are preparing to send a barrel of literature to Manila for Uncle Sam's soldiers.

—Preparatory service will be held at Warren chapel tomorrow evening. Communion will be observed Sunday morning.

—V. W. Nash is improving his property on West Second street, corner of Elmwood place, by connecting with city water and sewer.

—Next Sunday evening and every Sunday evening thereafter English services will be held at the German Lutheran church. There will also be special music.

—The monthly meeting of the Christian Endeavor Society of the Park Avenue Baptist church will be held at the home of Miss Annie Wyckoff this evening.

—Powers' Edelweiss Cream is a new remedy for roughness of the skin, chapped hands, face and lips, that is meeting with excellent approbation from persons who have used the same.

—It is a fact, not a mere boast, that the City Steam and Hand Laundry, 19 Somerset street, near Front street, do up-to-date laundry work. Give them a chance to prove it by sending them your laundry.

Lokal-Nachrichten aus der alten Heimath.

Aus der Rheinpfalz.

Speyer. Große Freude herrscht unter den pfälzischen Lehrern über die Ernennung des aus Billigheim stammenden, jetzt von einer hessischen Privatschule angestellten pfälzischen Volksschullehrers Georg Ludwig zum Lieutenant der Reserve im 2. bayerischen Infanterie-Regimente, weil damit der Beweis geliefert wird, daß man in der bayerischen Armee den Standpunkt überwunden hat, daß ein Lehrer nicht die einem Reserveoffizier entsprechende soziale Lebensstellung bekleidet. Wie man in Lehrerkreisen versichert, ist Ludwig der erste Volksschullehrer, der der Armee als Reserveoffizier angehört.

Kaiserslautern. Der königliche Major a. D. Sebastian Strauß ist hier verstorben.

Ludwigshafen. Einschließlich der beiden Vororte Friesenheim und Mundenheim zählt die Stadt nun 52,000 Seelen.

Württemberg.

Stuttgart. Nach längerem Leiden ist hier Fabrikant Karl Brandauer im Alter von 69 Jahren gestorben. Er war als hervorragender Industrieller der Stahlfedernbranche weithin bekannt.—Desgleichen starb der Maler und Dichter Heinrich von Rustige.—Mit Beginn des neuen Jahres gibt auch die württembergische Postverwaltung 30- und 40-Pfennig-Briefmarken (bronze und karminroth) aus, in Form der jetzt üblichen zweifarbigen württembergischen Briefmarke.

Backnang. Am Weihnachtsfest starb in Mettelberg der volksparteiliche Landtagsabgeordnete für Welzheim, Ellinger, im Alter von 54 Jahren.

Freudenstadt. Wie man hört, beabsichtigt eine Stuttgarter Baugesellschaft, für Luftkurzwecke am hiesigen Platze an der Straße nach Loßburg-Alpirsbach, unweit des Kurhauses Palmenwald, etwa 10 bis 12 Landhäuser zu bauen.

Gönningen. In dem von Th. Randecker aufgedeckten Tuffsteinbruch wurde eine 40 Meter lange, mit schönen Tropfsteingebilden versehene, niedrige und schmale Höhle aufgefunden.

Heilbronn. Die bürgerlichen Kollegien beschlossen, bei der Regierung um die Erlaubniß zur Wiedereinführung der im vorigen Jahre abgeschafften Fleischsteuer nachzusuchen.

Kochendorf. Mit der Inbetriebnahme des neuen Salzbergwerkes ist die völlige Einstellung des Salzbergwerkes Wilhelmsglück in Aussicht genommen.

Oberflacht. Kürzlich wurde bei auf dem sogenannten Todtenfeld vorgenommenen Ausgrabungen ein merkwürdiges 80 Centimeter langes altallemannisches Saiteninstrument gefunden. Es wurde von den Armen eines wohlerhaltenen weiblichen Skeletts gehalten, dessen blonder Haarschmuck noch völlig unversehrt war und erst bei der Berührung mit der frischen Luft zerfiel. Dieser bedeutsame Fund, an den sich noch allerhand Waffen, Schmucksachen, gut erhaltene geschnitzte Eichensärge anschließen, stammt aus dem 5. und 6. Jahrhundert n. Chr. Er ging in den Besitz des Museums für Völkerkunde in Berlin über.

Baden.

Karlsruhe. Große Heiterkeit erregte im badischen Landtag die Verlesung einer von 300 Offenburger Bürgern unterzeichneten Petition, in welcher der Landtag ersucht wird, eine Friedensvermittelung zwischen England und dem Transvaal anzubahnen.—Kammersänger Fritz Plank, der vor mehreren Wochen das Unglück hatte, bei einer Theaterprobe 30 Fuß in eine Versenkung hinabzustürzen, ist seinen Verletzungen erlegen.

Heidelberg. Die Zahl der im hiesigen Krematorium im vergangenen Jahre vorgenommenen Feuerbestattungen betrug 151, gegen 125 im Jahre 1898; 20 Leichen stammten aus Heidelberg, 35 aus Wiesbaden, 12 aus Frankfurt, 9 aus Stuttgart, 8 aus Mannheim, je 6 aus Darmstadt, Freiburg und Karlsruhe, je 5 aus Mainz und München, 4 aus Baden, 3 aus Cannstatt, je 2 aus Gießen und Offenbach, die übrigen vertheilten sich auf 28 verschiedene Orte. In Folge dieser Zunahme ist es möglich geworden, 6000 Mark an den Baukosten zurückzuzahlen, so daß nur noch eine Restschuld von 11,900 Mark besteht.

Mannheim. Der Gewerbeverein und Handwerkerverband beschloß die Gründung einer Handwerkerbank.

Pforzheim. Neulich Nachts wurde der ledige Gärtner Karl Bott von hier in Gegenwart seiner Eltern und Geschwister von dem Taglöhner Friedrich Türr aus Lienzingen nach einem Streit im Wirthshaus erstochen. Der total betrunkene Thäter, welcher übrigens von Bott gereizt worden war, wurde verhaftet.

In Chancery of New Jersey.

By virtue of an order to me directed, issued out of the Court of Chancery of New Jersey, in the cause wherein Estella A. Sebring is Complainant, and Sophia J. Lawson, Catherine L. Lawson, Florence B. Lawson and Clinton F. Lawson are Defendants, I will expose to sale at public vendue on Monday the twenty-sixth day of February, 1900, at the hour of two o'clock in the afternoon of said day, on the premises on the corner of West Seventh Street and Grant Avenue, in the city of Plainfield, County of Union, all those certain tracts or parcels of land described as follows:

First Tract.—Beginning at a point at the intersection of the center lines of Seventh Street and Grant Avenue, as now laid out and opened. Thence running along the center of said Seventh Street in a magnetic course North 46 degrees, 20 minutes East 236.95 feet to a point and corner of Mrs. J. W. Vail's land, (formerly) Thence along her line North 45 degrees 15 minutes West 384.2 feet to a point. Thence South 46 degrees 20 minutes West and parallel with Seventh Street 236.95 feet to a point in the center of Grant Avenue; Thence along the center of Grant Avenue South 45 degrees 15 minutes East 384.2 feet to a point and the place of Beginning. Containing two acres of land.

Second Tract.—Beginning at a stake being the intersection of the center lines of Fourth Street and Grant Avenue, as now laid out and opened. Thence running along the centre of said Grant Avenue in a magnetic course South 45 degrees East a distance of 715.3 feet to a stake and corner of Samuel Q. Lawson's land. Thence along said Lawson's line North 46 degrees 30 minutes East a distance of 229.74 feet to a point in line of lands of E. P. Williams. Thence along said Williams' line North 45 degrees West a distance of 705.39 feet to a stake in the center of Fourth Street aforesaid. Thence along the center of said Fourth Street South 49 degrees West a distance of 236.95 feet to a stake and place of beginning.

Dated January 25th, 1900.

CHARLES A. REED,
Special Master in Chancery of New Jersey.
MURPHY & BLATZ,
Solicitors. 1 25 5 oaw

In Chancery of New Jersey.

To Arthur F. Ducret, Jessie S. Eddison, Mrs. Arthur F. Ducret and Edwin H. Eddison:

By virtue of an Order of the Court of Chancery of New Jersey, made on the day of the date hereof, in a cause wherein J. Harper Smith is complainant and Arthur F. Ducret, et al., are defendants, you are required to appear, plead, answer or demur to the bill of said complainant on or before the Twentieth day of March, next, or the said bill will be taken as confessed against you.

The said bill is filed to foreclose a mortgage given by Hobert E. Rider and wife to J. Harper Smith, dated April Thirtieth, Eighteen hundred and ninety-nine, on land in the city of Plainfield, and you, Arthur F. Ducret and Jessie S. Eddison, are made defendants because you own said lands or some part thereof, and you, Mrs. Arthur F. Ducret are made defendant because as the wife of Arthur F. Ducret you claim an inchoate right of dower in said lands; and you, Edwin H. Eddison, are made defendant because as the husband of Jessie S. Eddison you claim an interest in said land as tenant by the curtesy.

Dated January 19, 1900.

INFANTS' CLOTHING.

Flannel Winter Dresses For Little Babies.

White is always preferable for babies' wear, both from the point of view of elegance and economy. Tinted dresses have to be laundered as often as plain white ones, but colors do not bear washing and soon look dull and shabby, whereas white looks well as long as it lasts. Lavish embroidery and lace are not essential; indeed many of the daintiest babies' outfits have very little trimming of any kind, the expense being put on fine material and delicate sewing. White nainsook and lawn and finely corded dimity are pretty for long dresses, and careful mothers are now using very thin wools for winter clothing for infants. White nun's veiling or fine Scotch flannel is admirable for delicate children who are susceptible to the slightest chill. Cotton dresses are usually made round or

GIRL'S COSTUME.

square yoke, upon which the body of the gown is plaited or gathered, but for woolens, which are thicker, the yoke is usually deepened so as to form a little, straight bodice, into which the sleeves are sewed and to the edge of which the skirt is gathered.

The cloak in which the baby takes an airing must be very warm, but light. It should have a capuchin, which may be drawn up over the head when the air is cold or the day windy. The sleeves should be long enough to cover the hands.

The girl's gown illustrated has a skirt covered with narrow, scant circular ruffles of gray velvet. The tunic of gray cloth is scalloped all around and has gold buttons and silk cords in front and down the outside of the sleeves. The yoke of gray velvet is laid in fichu plaits and covers the top of the arms. The collar also is plaited.

JUDIC CHOLLET.

THE MUFF QUESTION.

Fur Muffs Versus Those of Other Kinds.

Fur muffs have the disadvantage of demanding that all other fur used about the costume shall match them, so for a woman of moderate circumstances the less expensive fancy muffs, of which she may easily have several, are better. The muff is expected to match the collarette or the hat or at least the trimmings of the gown, but otherwise it is not necessarily troublesome nor particularly costly.

A pretty design is of black velvet, shirred in the middle, with ruffles at the end, lined with violet satin. On the side is a large cluster of violets. Another model is of beaver velvet, with bands of chinchilla at the edges. On the side is a drapery of yellow lace with a bunch of

EVENING COSTUME.

holly leaves and berries. For young girls there are muffs of velvet trimmed only with choux of baby ribbon, a cascade of loops of the ribbon falling from one side.

The skirt entirely without plaits at the back should be worn by slender women only. Those inclined to plumpness should have two plaits at least.

A picture is given of an evening gown having a semiplaited skirt of pink crepe de chine. Over this is a princess tunic of black chantilly, open at the side and having deep scallops around the base. The chantilly sleeves are unlined. The square decolletage is bordered by a drapery of pink crepe de chine, and a cluster of flowers is placed at the shoulder.

JUDIC CHOLLET.

Billy Tells of the General Interest in Pugilistic Combats

PROBLEMS of great interest to cyclists and faithful adherents of the League of American Wheelmen will be solved at the annual session of the national assembly scheduled to convene in February. Several weeks ago it was stated on the authority of some of the best posted L. A. W. men in the country that the league would throw overboard the matter of cycle racing and devote itself to a reorganization for the purpose of promoting a movement for improved highways, but the indications at this time are that the

T. J. KEENAN,
President of the L. A. W.

league politicians will not execute hari kari in that way, preferring to have some sort of a ledge on which to stand. They may elect to retain control of amateur cycle racing and relegate the control of professional cycling to the rival organization, the National Cycling association.

From a high water mark of over 100,000 several months ago, the L. A. W. membership has steadily decreased until it is doubtful whether there are 50,000 members. It is urged, and with correctness, that if the national assembly were to vote to discontinue control of cycle racing, the membership list would immediately shrink to a nominal figure. The majority of city members of the league have but a vague idea of the advantages of a propaganda of highway improvement, and would resent any plan of curtailing their benefits in the league for the express gratification of rural members. There will always be that feature of incompatibility between the urban and rural member that will keep the L. A. W. from being the power that its builders thought it would be.

So far did the anti-racing politicians proceed a short time ago that one enterprising southern leader announced himself as a candidate for the presidency on the platform: away with cycle racing; up with highway improvements. But this man overdid the thing and now finds that his scheme was loaded with "roorbacks."

President Thomas J. Keenan, the chief executive of the L. A. W., seeks renomination and election, and he will be successful, in all probability. He has shown himself to be a resourceful politician. When defeat threatened to overwhelm his plans and the delegates of the western and middle western divisions threatened to support Otto Dorner, the veteran chairman of the highway improvement committee and pioneer worker for good roads, the Pennsylvania man took time by the forelock. Drawing up a bill for the

GEORGE LOCKE,
Chief Consul, Illinois Division, L. A. W.

appropriation of $5,000,000 for the improvement of central highways, he put the measure into the hands of one of his congressional friends and urged its immediate presentation in the house. For fear that his plan would circumvent the "good roads" element, President Keenan, it is said, even made a visit to Washington to urge upon President McKinley the importance of pushing this legislation in congress. Whatever the president may have thought about the sincerity of the move or the benefit to be derived therefrom, he must have found it unwise to venture an opinion to the league man. Conservative critics think that the bill will never get farther than the pigeonhole of a house committee.

L. A. W. men have had little success coping with the politicians at state legislatures except in the Empire state in the days when the organized wheelmen's movement was formidable enough to worry the leaders of both principal parties. Some useful legislation was put through at Albany when the bicycle baggage bill became a law. But congress will be slow to take up Mr. Keenan's measure, for the simple reason that it provides for main highways, and those are not what the agricultural districts need most. No farmer in Ohio, say, will care to team his wheat or corn to New York. He is most interested in having a good pike road passing his farm over which he may reach the nearest railroad town provided with an elevator and a market.

So instead of a disastrous fight on the matter of racing at the national assembly I look for a compromise. The N. C. A.—which does not care a continental about the amateurs—will be given an opportunity to care for the professional racing and the L. A. W. will reserve to itself the control of amateur cycling. The L. A. W. made a serious mistake when it undertook to supervise professional racing. For a time the cry of "taxation without representation" threatened to undo the league. Professionals were required to register with the league, pay a fee and stand by the edicts of the racing board without having a voice in the affairs and legislation of the league. When the national assembly meets next month there will be one delegate present representing the professionals. To have entered the wedge of professionalism by even "class B" racing was a mistake. This the league men realize now. If the rival cycling body—the N. C. A.—agrees to work in harmony with the L. A. W. for this solution both organizations will dwell together in peace in the International Cycling association and the work of prosecuting the good roads movement can go hand in hand with the supervision of amateur racing.

There is one league man who has been a persistent slate former and officeseeker who will be unable to disturb the plans of the eastern delegates, simply because of his lack of western strength. He is George Locke,

OTTO DORNER,
Chairman Highways Committee, L. A. W.

the hold-over chief consul of the Illinois division. For a time it looked as if he might make a combination of the delegates of the divisions west of Ohio and dictate his own election as successor to Mr. Keenan. But when the noses of the league men were counted Locke found that he would have to be content with a minor office. Because the Illinois division is practically hopelessly bankrupt, because it has lost over 65 per cent. of its membership in two years, and because no legal election of officers could be held in 1899 because there was no opportunity to make nominations, the national assembly may decide to put Locke on the winning ticket. No one doubts the interest Locke has taken in the league—he is practically the whole Illinois division.

Strange as it may seem to those who think that they see a decline in bicycling, the representatives of the $50,000,000 trust strenuously declare that orders received up to Christmas, 1899, plainly indicate that 1900 will be a very successful year. One of the most prominent members of the board of directors of this combination told me the other day that there were two marked changes in 1900 models that would add materially to their popularity. He meant that prices would be lower than ever before, and the wheels would be lighter. In some cases the roadster is made five pounds lighter than that of last season's model. It is in the chainless model that the maximum cut in weight has been made.

This same director—himself a heavy manufacturer—thinks that the chainless will be the favorite wheel because of its advantages in speed, light running qualities and the fact that records made on it have not been disturbed by racers who rode chain mounts. Tourists as well as racers, he insists, have found that the chainless variety of wheel climbs hills easier than the sprocket kind. Here is what he said about the 1900 wheel:

"As far as present construction is concerned the 1900 wheel is without doubt the best and strongest bicycle ever built. Weight is reduced at no point where its need would be felt in any contingency. The front forks are lighter, because light, springy forks stand hard knocks better than heavy, rigid ones. A gauge of tubing, slightly reduced, has rendered an economy of weight in that direction possible also.

E. G. WESTLAKE.

The old "Second church" in Boston celebrated its two hundred and fiftieth anniversary recently.

A WOUNDED OFFICER'S STORY.

Tale of Intense Suffering on the Battle Field of Elandslaagte, South Africa.

A wounded officer sends a long letter to his mother from Pietermaritzburg hospital describing his experiences at the battle of Elandslaagte. "It was," he says, "a splendid feat of arms, and I am most awfully proud of my regiment, for we bore the brunt of the day. We had a tremendous hard time of it, and were under fire for 2½ hours (considerably longer than any other corps). But the cost was awful! We had only ten officers in action, and five of them were wounded; and of 329 men we had 11 killed and 33 wounded; two have since died of their wounds. The Gordons lost even more severely. The reasons for this were, in my opinion, as follows: First, their dark kilts were much more visible than our khakis, and consequently formed a better target; second, there were more of them. The Gordons all say that Dargai was the merest child's play compared to this.

"To return to my own doings. I lay where I fell for about three-quarters of an hour, when a doctor came and put a field dressing on my wound, gave me some brandy, put my helmet under my head as a pillow, covered me with a Boer blanket which he had taken from a dead man and then went to look after some other poor beggar. I shall never forget the horrors of that night as long as I live. In addition to the agony which my wound gave me I had two sharp stones running into my back. I was soaked to the skin and bitterly cold, but had an awful thirst; the torrents of rain never stopped. On one side of me was a Gordon highlander in raving delirium and on the other a Boer who had had his leg shattered by a shell, and who gave vent to the most heartrending cries and groans. War is a funny game, mother, and no one can realize what its grim horrors are like till they see it in all its barbarous reality.

"I lay in the rain the whole of the night, and at daybreak was put into a doolie by a doctor, and some natives carried me down to the station. The ground was awfully rough, and they dropped me twice; I fainted both times. I was sent down to Ladysmith in the hospital train; from the station I was conveyed to the chapel (officer's hospital) in a bullock cart, the jolting of which made me faint again. I was the last officer taken in. I was then put to bed, and my wound was dressed just 17 hours after I was hit. They then gave me beef tea, which was the first food I had had for 27 hours. The doctors all said at first that I had been hit by a shell, but that is impossible, for the enemy only had two guns, and we had taken them both when I was hit. So the doctors now say that it must have been a very heavy explosive bullet, and, as an elephant gun was found close to where I was hit, I expect they are right. It has made a big, jagged hole in my shoulder, which you could put your hand into. It has blown some of the muscles away, so I am afraid I shall always be a bit stiff. They say it will take another ten weeks before I am fit for duty, and I am very much afraid that most of the fighting will be over by that time, in spite of the present critical condition of affairs."—Birmingham (England) Post.

NO PLACE OF REFUGE.

No Spot on Earth Where a Fugitive Is Safe from a Man with a Warrant.

"A very interesting fact of modern life that seems to have escaped attention," remarked a New Orleans lawyer the other day, "is that the world has wiped its last city of refuge off the map. There is no longer any spot on the globe where our fugitives from justice are safe from extradition.

"When I first began to practice law an American criminal of retiring disposition had a wide range of choice in the matter of foreign residence. Spain, Turkey, Algiers, Japan, Holland, Chili, Ecuador, the Philippines, Cuba and all of Central America except British Honduras guaranteed security to assorted brands of fugitives, from murderers down, and the list of resorts open to simple embezzlers was very much larger. For years you remember every runaway bank cashier made a bee line for Canada, and the thing got to be a standing joke, like the mother-in-law gag and the merry quips about plumbers. Nevertheless, the circle kept steadily contracting, and one by one the different countries entered into mutual treaties and put up the bars, so the American crook who wanted a change of air began to find himself in the position of Dick Swiveller, when he checked off the London streets he couldn't traverse without meeting creditors. It was mighty hard work to figure out a safe itinerary. Canada clung tenaciously to the tourist trade, but at last she passed a law against bringing stolen property into the Dominion that practically excluded the flitting banker. Japan was one of the last of the distant powers to adopt a treaty covering what are called 'crimes against property,' and the new proviso was a severe blow to felonious gentlemen in delicate health. It robbed them of the balmy climate of Yokohama. Eventually things simmered down to Central America, and then by process of elimination to Spanish Honduras. That was the final stronghold of the fugitive, but in 1898 the congress of the nation approved a new treaty clause, containing the usual extradition provisions.

"So, as I said before, there is now no city of refuge on the face of the earth. The man with a warrant goes wheresoever he lists."—N. O. Times-Democrat.

HER RULING PASSION.

She Mourned the Death of Her Friend, But Couldn't Overlook Her Fine Clothes.

"There goes a woman," said the girl, "who hasn't a thought on earth except dress. I know that superior man attributes this particular weakness to all women—but it's a canard, as, of course, are nine out of ten of male estimates of women."

She conquered a refractory button on her glove before she continued: "But that woman who passed us is, without doubt, the most dress-crazy woman I have ever met. She knows no topic save dress—can speak on no other subject. She spends one-half of her time at her dressmaker's, and the other half is used in exploiting the handicraft of the modist. Goodness only knows when she manages to get anything to eat. She's dead to every feeling, I believe, except that which has to do with dress. And what do you think she said Saturday? I met her as we were going out of a house of mourning. A young woman whom we both knew had died—but the feeling of sorrow was too fresh upon me to permit anything more than a nod of recognition. For half a square we walked side by side. Then I said: 'Poor, dear Clara—alive and well one week ago, and now—now she's gone!'

"'Yes,' answered my friend, blandly—'but wasn't she dressed beautifully? Really, it was a treat to see her!'"—Philadelphia Press.

What Perfect Health Is.

Perfect health is that condition of the body when digestion is so perfect that the physiological balance between the destruction and construction that goes on unceasingly in cell life is daily kept normal.—E. B. Warman, in Ladies' Home Journal.

To Make Either a Success.

Contentment may be better than wealth, but they ought to go together.—Chicago Daily News.

To Influence a Woman.

A woman is more influenced by what she suspects than by what she is told.—Chicago Daily News.

FASHION'S MIRROR.

Some of the Pretty Things for Feminine Wear That Are Reflected There.

The most appropriate of the extensive array of hats for holiday wear are the graceful little French toques of dark moss-green velvet, trimmed with holly berries, mistletoe sprays and a cluster of shaded green ostrich plumes.

Collar bands are higher than they have ever been, but are made without the ear-like pieces at the sides and back which have been used for some time. Bands and other applications of contrasting colors at the top of the collar are much used. Soft bouillonnes in front of the collar are made sometimes of chiffon, crepe, peau de soie and peau de cygne.

Stocks are a very important factor in the success of a shirt waist. Linen collars have been losing favor for some months, and it cannot be denied that they look wintry when contrasted with flannel. A stock of ribbon the same shade as the shirt waist, finished with two white linen or mull hemstitched tabs, is the proper neckwear.

Some of the knitted waistcoats for men now shown in the smart shops are exceedingly pretty and are most serviceable for all country sports. An overcoat is heavy and cumbersome for skating or tramping, but still one must have some protection from the cold, and this is what the knitted waistcoat gives. It is more sightly than a sweater, and also more comfortable, except perhaps in very severe weather, when the heavy ribbed sweater, with high, rolled collar, is the best of all protections. For milder weather the sweater cut away at the neck so as to show the collar and tie is also very pretty and rather smart-looking. These sweaters are not commonly seen, and they cannot be found ready-made except at a few of the best shops.

The newest buttons are much less jeweled than formerly, and taken up as gown trimmings the small and medium ones are far more in demand than the larger variety. Enameled color tones are given to button surfaces with some delicate design thereon. Blister pearls form the latest novelty button in white, gray or what might be termed a black pearl, as well as in all the pale shades of evening silks.

The warmest things in skirts not flannel are made of a soft elastic silk material, a sort of matelasse cloth, and edged with embroidered silk ruffle. They are very pretty, but in the French underwear they are not inexpensive.

New are the tulle hats with crepe flowers exquisitely harmonized in pale sunset tints. It is said that these airy structures will be very modish next summer, as well as smart for dress occasions now.

A handsome gown of tan velvet has the overdress outlined with a design in cut-cloth applique, stitched on with gold thread, the design edged with a tiny gold braid. The body of the overdress is covered with a small all-over pattern of the cut cloth, each design set some distance apart and stitched on with the gold thread.—Boston Budget.

ERRORS IN SPEECH.

Some That Are Commonly Made by Those Who Know Better.

Errors in speech are not made by the uneducated alone. Many a well-educated woman allows herself to use expressions which a moment's thought will convince her are incorrect.

Among the most glaring solecisms are the use of the wrong conjunction to express one's meaning, for instance, "like she was," instead of "as she was;" the too frequent employment of contractions, "ain't I?" "aren't you?" "won't you?" etc., for "am I not?" or "am not I?" or "will not you?" etc. The use of the objective case of the pronoun for the subjective, and vice versa. "She asked Jessie and I to accompany her," instead of "She asked Jessie and me."

These are but a few of the commonest errors practiced by educated and uneducated alike, but there is in the pronunciation and clearness of diction, aside from the rules of grammar, a sure guarantee of education. The way the final syllable is pronounced, the sounding of the final letters, full and clear; thinking, extravagant, fast, for thinkin', extravagan', fas', betrays careful training or the lack of it. And in the same manner the use of superfluous words: "Whatever can it mean" for "What can it mean" indicates either lack of training in the speech of the educated world or gross carelessness in expressing one's thoughts.

"To lay" and "to set" are not equivalent to "to lie" and "to sit," yet they are often used synonymously.

"Pardon me" or "excuse me" and "thank you" are other expressions the proper use of which shows breeding.

"I am going to lay down and rest" tells the hearer much more about the speaker than his desire to lie down.

"Pardon me" or "excuse me" are expressions made use of for an unintentional intrusion upon one's rights.

"Thank you" is, or should be, a phrase made use of in reply to any friendly offer. "I don't mind" is inadequate, to say the least, and is therefore bad manners. No act of kindness, however slight, should go unnoticed. The vast majority of things that come to us come by favor or courtesy, and we should recognize this. A word of thanks is never lost, even though it appear to be lost upon the person to whom it is directed. We ourselves are benefited, and it is the small courtesies and their kindly acknowledgment that make life worth living and designate to the world refined, well-bred and educated persons.—Mrs. Mary L. Bean, in American Queen.

Carameled Sweet Potatoes.

Boil and peel the sweet potatoes, cut them in half lengthwise, roll them in sugar melted till brown, lay in a baking tin and set them in the oven for about 15 minutes.—Housewife.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders

—Sparklets—Nature's natural tonic. Pure California grape fruit juice. Wm. W. Moore, 310 Park avenue.

—Joseph, the eleven year old son of Mr. and Mrs. Dominick Duffey, of 194 Grove street, died this morning. The funeral will be held tomorrow afternoon at 3 o'clock from St. Mary's church.

—The funeral services of the late Theophilus Smith will be held from his late residence, 1266 Park avenue, Saturday morning next at 10:30 o'clock. Interment will take place in Greenwood cemetery.

—Isaac Fisher, of Tuskegee Institute, Alabama, delivered a highly-interesting address last evening at the prayer meeting at the Crescent Avenue church, telling considerable about the grand work being carried on at the Institute.

—The death of Frank E. Moore, aged one year, son of J. Frank and Rosie Moore, of 37 Chatham street, occurred this morning. The funeral will be held from the house Saturday afternoon next at 2:30 o'clock. Interment at Hillside cemetery.

—"A Wholesome Innovation" will be the subject discussed by Pastor Shaffer in his sermon Sunday evening at St. Peters Lutheran church in connection with the introduction of English preaching. The services of Mrs. Maulins have been secured to aid by teaching vocal parts and leading the singing generally.

DEATH OF MAJOR ARNOLD.

His is the First Death Among Ten Children—Contracted Illness at Dewey Parade.

Word has been received in this city of the sudden death of Major David P. Arnold, brother of Wm. F. Arnold, cashier of the City National Bank, and James K. Arnold, former borough clerk. Mr. Arnold died at his home, Port Chester, N. Y., in the sixty-second year of his age. He was born in New York and was the oldest of ten children. This is the first death among the children. There are six brothers living and three sisters. He was commissary on the staff of Brigadier General G. M. Smith, of the Fifth Brigade. His death was due to paralysis, brought about by illness contracted in the Dewey land parade. He leaves a widow and two children. The funeral will be held at Christ church, Rye, N. Y., Saturday afternoon.

STATE Y. M. C. A.

Thirty-First Annual Session To Be Held at Passaic in February.

The thirty-first annual convention of the Young Men's Christian Associations of New Jersey will be held in Passaic February 8th to 11th. The Woman's Auxiliary will hold a reception to the delegates Thursday afternoon. David Carlisle, of Passaic, will deliver an address of welcome, and Elkanah Drake, of Newark, will respond. Rev. Dr. Wilton Merle Smith, of New York city, will deliver an address at the Presbyterian church in the evening.

Among the others who will take part in the exercises of the following days are Rev. Dr. C. I. Scofield, of East Northfield, Mass.; Professor George Gunton, of New York city; Walter M. Wood, educational director of the Young Men's Christian Association at Chicago; Rev. Dr. Charles Wood, of Philadelphia; Dr. W. H. Kinnicutt, of Cleveland; H. E. Simmons, secretary of the Young Men's Christian Association of Brooklyn; Rev. Dr. Anthony H. Evans, of New York city; Rev. Dr. S. P. Cadman, of New York city; A. H. Whitford, secretary at Buffalo; A. C. Booth, secretary of religious work, Brooklyn; Charles B. Mitchell, of Albany; Henry A. Cozzens, secretary at Newark; Frederick S. Goodman, State secretary of New York; Rev. Dr. Donald Sage Mackay, of New York city; Mrs. Henry M. Humphrey, of Plainfield, and Donald MacColl, State secretary of New Jersey.

—There will be a few fine shad this week. Place your order for your Friday's sea food early. Rogers.

KENTUCKY'S CRISIS.

Key of the Political Situation in the Hands of the Militia—Violence Advocated by Some.

(Special to The Daily Press.)

Frankfort, Ky., Feb. 1—William Goebel, who, after being declared the legally elected Governor of Kentucky in a document signed by a majority of the members of the Legislaute, was sworn in as Governor last night by the Chief Justice of the Court of Appeals, and who immediately issued a proclamation ordering the militiamen to return to their homes, was worse this morning, and it was believed by his physicians that he could not live much longer. He passed a very comfortable night, but this morning his pulse had increased to 144, his temperature had risen to 101½, and his respiration to 44. Dr. Welch, who left the room just before 7 o'clock, said that he did not think there was much chance of recovery. "I give him just one chance in a thousand," said he.

PARTICULAR MENTION.

Mr. and Mrs. A. H. Atterbury, of this city, have taken up their residence in New York for a time.

While in this city yesterday, Rev. Antionette Blackwell, of New York, was the guest of Mrs. A. M. Powell, of East Sixth street.

Miss Anderson, of New York, will address the Young Women's Mission Band of Trinity Reformed church tomorrow afternoon at 3 o'clock. Visitors are cordially invited.

Mayor Drake, of Lincoln, gave an informal dinner last evening at the Kensington Hotel to a small party of friends. The affair was a pleasant one and enjoyed by all.

THOSE WHO USE THE 'PHONE.

Many New Subscribers to the Local Telephone Exchange.

There is no better evidence of the prosperity of the city than the remarkable and steady increase in the number of telephones to be found through the city in residences, stores, factories and offices. The number of subscribers to the local exchange of the New York and New Jersey Company is now well past the five hundred mark and Manager Charles W. Runyon expects to see it reach six hundred before the end of the century.

Owing to the difficulty Manager Runyon has had in securing instruments fast enough, there is still a number of would-be subscribers who are not yet connected. Among those who have just had telephones put in are Frank Curtis, residence, 93 Mercer avenue; John M. Crane, residence, West Eighth street; Stephen Cahoone, residence, 1126 Watchung avenue; James W. DeGraff, residence, 996 Central avenue; George Egel, butcher, 198 Somerset street; Edward V. French, architect, Babcock building; George W. Goddard, residence, 205 East Ninth street; L. M. Horster, wholesale liquors, 98 Somerset street; John K. Large, residence, 400 East Front street; David M. Moore, residence, 1,000 Central avenue; Dr. H.V. Merrill, residence, 420 Central avenue; Miss Grace Palmer, trained nurse, 19 Albert street; Rushton & Hansen, painters, Sycamore and Fourth streets; Miss Emilie Schipper, residence, 705 West Seventh street; William M. Stillman, lawyer, 212 West Front street; Naylor Paint, Color and Varnish Co., Rock avenue and West Front street; A. E. Park, residence, 942 West Sixth street; William M. Stillman, residence, 426 West Seventh street.

Summit Team Won.

The basket-ball team from the local Y. M. C. A. visited the Summit Association last night. The boys went by stage and though they were defeated by a score of 10 to 6 they had a jolly time. The Summit boys proved hospitable entertainers and gave the Plainfield team a fine collation and fair treatment.

District Deputy's Official Visit.

District Deputy Grand Chancellor L. L. Croom made his official visit to Goodwill Lodge, No. 8, K. of P., last evening and installed their officers for the ensuing term. During the evening four candidates received the first rank.

Miss Delaney Engaged.

A meeting of the executive board of the City Union of King's Daughters was held this morning and Miss Delaney, a graduate of the Muhlenberg Hospital training class, engaged as city nurse. She will enter upon her duties at once.

Endeavorers Went to Summit.

A stage load of Christian Endeavorers went to Summit, last evening, where they attended a union meeting held in one of the churches. The services were enjoyed as was also the ride in the stage going and coming.

—J. F. Mattlage, successor to J. F. MacDonald, has removed his family from Westfield to Plainfield, having rented the house at 120 Watchung avenue.

PAVING THE WAY FOR WOMEN TO VOTE.

[CONTINUED FROM PAGE 1.]

of Plainfield.

Dr. Mary D. Hussey was also elected a member of the State executive committee. At the National convention, which will be attended by Mrs. Florence Howe Hall, as a member ex officio, she has been asked to deliver a twenty minute address. The subject of the address will be "The Judgement of Minerva," a farce. This is an original paper by Mrs. Hall and undoubtedly will prove to be very interesting.

Before the meeting adjourned the president was instructed to send out the usual notices for the spring conference on school suffrage work.

ONDERDONK WILL HELP.

Unsuccessful Bidder for Transit Will Aid His Fortunate Rival.

Andrew Onderdonk, formerly a resident of Plainfield, the unsuccessful bidder for the rapid transit tunnel contract, in New York, has been asked to help his more fortunate rival, John B. McDonald, in carrying out the $35,000,000 job, and has consented.

This is regarded as another indication that Brooklyn rapid transit interests are being brought in to back up Mr. McDonald through the interest of August Belmont.

Mr. Onderdonk was backed in his big contract for the widening of the main ship channel of New York harbor by at least two men who have large interests in Brooklyn rapid transit.

How successful Mr. Belmont's overtures to Mr. Onderdonk have been may be judged from what Mr. Onderdonk said when asked if he would join McDonald in the rapid transit contract, and thus lend to McDonald the weight of Mr. Onderdonk's powerful backers, as he did once before in the Jerome Park reservoir job.

Mr. Onderdonk is a man of few words, which he weighs well before uttering. He paused a while before answering this question, and then said:

"All I wish to say now is that Mr. McDonald will get his bonds all right."

Woman Falls in Fit.

Lizzie McKee, an unfortunate woman who is afflicted with fits, fell on Somerset street about 6 o'clock last evening. She was assisted into Blimm's Hotel by Roundsman Flynn and Patrolman McCue and later taken to her home at 622 LaGrande avenue where she received medical attendance.

Information of William Boyer Wanted.

Information concerning the whereabouts of William Boyer, colored, who lived in Plainfield about eight years ago, is wanted by Walter Grant, of 1830 M street, Washington, D. C. Any person knowing anything about him will please communicate with Mr. Grant at once.

Instructive and Interesting.

The talk of Rev. Daniel Rapelje on mission work at Amoy, China, in Trinity Reformed church last evening was very interesting and thoroughly enjoyed by all who heard it. Mr. Rapelje spent several years as a missionary at Amoy.

To Talk of Compressed and Liquid Air.

Tuesday evening, February 13th, Former Mayor William L. Saunders, of Washington Park, will give a lecture in the Casino on compressed and liquid air. The lecture will be given under the auspices of the Monday Afternoon Club.

—In this week's issue of patents granted to American inventors, 18 were granted to residents of this State.

GETTING READY TO RECEIVE MR. BRYAN

Plans for the Big Mass-Meeting in Music Hall.

BIG CROWD IS COMING.

WILL LUNCH AT "CEDAR BROOK" BEFORE THE MEETING.

Owing to the Great Attendance and the Limited Capacity of Music Hall, it Will be Impossible to Admit Boys to the Hall—Ladies Are Invited—Mr. Bryan Will Speak in New York That Night.

Political reasons will figure but slightly in crowding Music Hall to its utmost when William J. Bryan speaks there next Wednesday afternoon. From all over this part of Jersey the requests have poured in upon James E. Martine without regard to political affiliations. A number of the best known Republicans of Union county have expressed a great desire to see and to hear Mr. Bryan. To accommodate this great crowd that is coming from far and near besides the many Plainfielders, Mr. Martine is compelled to do lots of thinking.

Mr. Martine now says that it will be necessary for all the children to stay home whether accompanied by their parents or not. There will not be room for them with such a crowd flocking to the place. The women will, however, be cordially welcomed.

As has already been stated, a limited number of stage tickets will be issued for the invited guests and the newspapermen. The boxes will also be reserved for other invited guests. All the rest of the house, including ground floor and gallery, will be free to the first comer.

The aid of the police and firemen will be invoked to keep the crowd in order and see that only the proper ones reach the stage and boxes.

Pending the arrival of a letter from Mr. Bryan stating the hour at which he will reach this city, no definite arrangements can be made. It is expected, however, that he will reach this city at about noon. He will be met by Mr. Martine and escorted to Mr. Martine's home, "Cedar Brook," and there will be given a luncheon. A few of the oldest and most important Democrats of the State will be invited to meet him at that time.

The meeting will probably be called to order at about 3 o'clock. The doors will be opened in the neighborhood of 2 o'clock, and a band will entertain the audience until the arrival of Mr. Bryan.

Mr. Bryan's speeches on his present trip have been from an hour to two hours in length. He will probably make a speech on the same lines that he has been this winter.

After the speech an effort will be made to give all those present an opportunity to shake hands with Mr. Bryan if he is not too tired for the ordeal. Then he will be escorted to the station and will take the train for New York, where he is to speak at Carnegie Hall that same evening.

Mr. Martine is particularly anxious about that question of the boys. There are so many fond parents that are very anxious that their son and heir should hear the "Boy Orator of the Platte" and expect to take him to the meeting. If the hall was only large enough Mr. Martine would be very glad to have all the youth of the city there, but, under the circumstances, the space is needed to accommodate the older ones and so he particularly requests the parents to keep the children at home that afternoon. There will be plenty of opportunity offered when Mr. Bryan is going to and from the hall to allow all the boys to catch a glimpse of him.

A meeting of the city executive committee was held last night to discuss plans for the reception to Col. Bryan. Another meeting will be held tomorrow night.

Greeting of Dr. Rush Rhees.

Dr. Rush Rhees, of Newton Centre, Mass., the newly-elected president of Rochester University, was the guest of honor at the dinner given by the New York Alumni Association of the University at the Hotel Savoy on Monday night. Dr. Rhees was greeted with enthusiastic cordiality and responded with an address calling for intelligent interest in the work of the University. Dr. Rhees spent Sunday with his relatives, the Messrs. McCutchen, of North Plainfield.

Are Woodhull & Martin Interested?

When asked about the rumor that his firm was about to assume control of a well-known dry goods establishment at Morristown, Floyd T. Woodhull, of the firm of Woodhull & Martin, declined to either deny or affirm the report.

—Use Press want ads.

MACADAM WILL BE LAID.

IMPROVED ROAD DIRECT FROM PLAINFIELD TO NEWARK.

Board of Freeholders Has Decided to Accept That Part of Mountain Avenue That Runs Through Union County.

Mountain avenue from Stansbery's corner, Scotch Plains, to the North Plainfield line, a distance of about one-half mile, has at last been accepted by the Board of Freeholders as a part of the county road system and will be graded and macadamized, making a continuous macadam road from Newark to Somerset street, North Plainfield.

Efforts have been made for several years to have the Board accept this strip which has been the only break in the good roads from Newark to Plainfield. During the past summer those interested prevailed upon the Board to inspect the proposed improvement, and the members and property owners went over the ground, but the committee reported unfavorably as they claimed it would establish a bad precedent if accepted.

Freeholder John Robison could see the necessity of having the road macadamized, and he has been working quietly, but energetically, among his fellow members ever since the committee made the unfavorable report. His efforts were at last crowned with success, and when the matter was brought before the Board of Freeholders again at their meeting yesterday the piece of roadway was accepted and plans will soon be made for improving it so that it will be a credit to the county. The improvement will take a great deal of driving away from Scotch Plains, but will open up some very desirable real estate in return.

MUSICIANS OF TALENT.

Change in the Choir of Affairs of Church of Holy Cross Expected to be Beneficial.

A very important change has taken place in the musical department of the parish of the Holy Cross. George Hosking, the former organist, has been displaced by the vestry, and a new musical regime has been inaugurated. G. Elward Stubbs, the choirmaster of St. Agnes chapel, Trinity parish, New York, has been engaged to take supreme charge of the choir. Under and associated with him in the work is Clarence Sears, late assistant organist and choirmaster at Trinity chapel, New York.

Mr. Stubbs stands at the head of his profession and is undeniably the greatest trainer of the boy voice in this country today. As a master of tone production he has no superior. He is a teacher of teachers. His method and system of voice culture is unique and is being followed largely by choirmasters in this country. Mr. Sears is a pupil of Mr. Stubbs and is an excellent organist and clever voice trainer.

With such able talent there is no reason why the music of the parish should not in time be brought to a high standard of perfection. Here is an opportunity rarely offered the boys of the city whereby they may receive free a careful and thorough musical education under an acknowledged master of the boy voice. From forty to fifty men and boys are wanted for the new choir. Mr. Stubbs will be pleased to meet all applicants in the parish house of the Church of the Holy Cross Monday afternoon next at 4:30, when he will give each one personal attention.

The regular choir rehearsals for boys will be Monday and Wednesday afternoon of each week at 4:30. The full rehearsal will be Friday evening at 7:30 o'clock.

CHRISTIAN ENCEAVOR DAY

Park Avenue Baptist Society Decide to Observe It.

The monthly meeting of the Christian Endeavor Society of the Park Avenue Baptist church, was held at the home of Miss Annie Wyckoff, Putnam avenue, last evening. There was a large attendance and much interest shown in the business transacted. The various monthly reports were submitted and acted upon. It was decided to observe Christian Endeavor Day this evening at the church, when a special programme will be rendered. It was decided to hold a sociable next Tuesday evening. After all business had been passed upon the members enjoyed the evening by playing games and with music and social intercourse.

To Debate the Boer War.

At Monday evening's public debate of the Y. M. C. A. literary society to be held in the large hall this subject will be debated: "Resolved, That the Boers are justified in their attitude toward England." C. E. Drange and C. M. Dolliver for the affirmative; H. F. Borroughs and J. H. Crane for the negative. Both men and women are invited to the debate.

LEFT WITH SIX CENTS TO PAY THE BILLS.

Disastrous Ending of Glass Eating Exhibition.

FULLER FLED WITH FUNDS.

DEACONS HOLD JOHNSON RESPONSIBLE FOR THEIR LOSS.

Entertainment at Calvary Baptist Church Was in Progress When One of the Entertainers Disappeared—Johnson Had Just Six Cents Left—Offered to Repeat—Judge Nash Would Not Issue Warrant.

The departure of Prof. J. Whitney Fuller with all the funds was a part of the entertainment at the Calvary Baptist church last evening that was not down on the programme. Furthermore Prof. Fuller left his partner, Prof. Ross Elmore Johnson, behind with an available capital of just six cents with which to settle the demands of the indignant congregation. Since then, Prof. Johnson has had a rather hard row to hoe.

Messrs. Johnson and Fuller are two young colored men who traveled about the country eating glass and fire for a living. At least, Johnson ate the glass and fire and had taken Fuller in as an assistant and the humorist of the company.

Last evening they were to give an entertainment at the Calvary Baptist church. One-half of the proceeds were to go to the church and the other half to the entertainers. Fuller occupied the box office and sold the tickets while a representative of the church collected them at the door.

The church was well-filled and some $10 was collected at the door. Prof. Johnson chewed up the glass with evident enjoyment, and took a mouthful of fire to wash it down. He washed his face and hands in broken glass.

When the time came for Prof. Fuller to take the stage, he told his partner that he was not quite ready and took the satchel off the table. The audience rose up in its excitement as Johnson performed his stunts with the broken glass while Fuller carefully departed by the back door.

Johnson was the first to call attention to the disappearance of the other and there was immediately great excitement. The police were notified and Spencer Conway with the other deacons hastened for the railway stations to head off the absconder but all in vain. Then Rev. Scott Wallace and his chief deacon, Spencer Conway, turned upon the remaining professor and declared that it was a scheme to rob them. They demanded that he should make up the loss to them.

Johnson explained that six cents would not go far in setting matters right and offered to repeat the entertainment and let them keep all the proceeds, less his expenses to Trenton where he is to give an entertainment next week. Finally he telegraphed to his mother in Savannah to send him $10 but no answer has yet been received.

Rev. Mr. Wallace and Deacon Conway would not listen to his protestations of innocence but demanded his arrest. They appeared before Justice Nash this morning but the Judge refused to entertain a complaint against Johnson and he was given his liberty, the police having taken him in charge. The Judge said that there was no evidence to show that the man arrested was implicated in the robbery.

Y. M. C. A. OFFICERS.

Board of Directors Organize by Electing Stephen Cahoone President.

The regular meeting of the Board of Directors of the Y. M. C. A. was held last evening. The following directors were present: E. R. Ackerman, A. B. Beers, Stephen Cahoone, J. H. Case, A. C. LaBoyteaux, Henry M. Maxson, W. D. Murray, H. O. Newman, Nelson Runyon, Curtis M. Thorpe. The following officers were elected for the ensuing year: President, Stephen Cahoone; vice-president, E. L. Bonny; secretary, A. B. Beers; treasurer, Curtis M. Thorpe.

Social at Mrs. Babcock's.

A social was held at the home of Mrs. George H. Babcock, of West Eighth street, Wednesday evening, by the Women's Society of Christian Work of the Seventh-Day Baptist church of which Mrs. Babcock is president. The programme included solos by Miss Katheryn Glen and Miss Nan Randolph and a reading by Miss Cornelia Miller.

Realty Changes.

The following real estate transfers have been recorded from North Plainfield during the past week: Selah Schoonmaker, sheriff, to George Weiss, $1,950; William M. Rice to Henry Hanington, Jr., $1; C P. Rider et ux. to Walter R. Lusher, $1.

THE BOROUGH ELECTION.

BUT LITTLE INTEREST IN IT HAS BEEN MANIFESTED.

The Terms of Councilmen Burtis and Coddington Expire, and it is Thought That They Will be Renominated.

A matter of interest to boroughites that has received but little attention thus far is the election which comes off in March, at which time there are to be elected two councilmen to take the places now occupied by Messrs. Burtis and Coddington. The latter was elected for one year, while Mr. Burtis has been in office three years, and is completing his first term. Just who will receive the consideration of the voters at the election is a matter, as stated, that had been thought of very little. Mr. Burtis has made a most excellent member and has attended to his duties in a thorough manner. He has been in line for that which is best for the majority. His colleague, Mr. Coddington, although a new man, has shown himself to be fitted for his position, though not much of a talker in council meetings. So far as can be learned there is no expressed dissatisfaction with either one of the retiring members, and it would not be surprising if they were returned. According to precedent Mr. Coddington should be elected for a full term.

Along this line nothing has been heard from the Democrats, and it is not known whether they will nominate candidates or not. No doubt there are many Democrats in the borough who would like to take a hand in the government if they had a chance, and they may have one next month. According to custom the boroughites always wait with considerable interest for the annual report which will probably be presented two weeks from this evening, when it is expected that the annual meeting will be held. At the meeting tonight it is expected that an adjournment to that time will be made.

The election which takes place early in March will not be a very exciting one from all accounts as there are so few persons to be elected. It is an important one and if the Democrats should elect two persons for the vacancies some interesting times may be looked forward to.

EARLY ANIMAL LIFE.

S. A KROM LECTURED TO PUPILS IN PLAINFIELD HIGH SCHOOL.

Told Them Something of "The Extinct Monsters of Prehistoric Times"—An Interesting Address and Well Illustrated.

A little glimpse at the creatures of prehistoric times was enjoyed by the pupils of the Plainfield High School yesterday afternoon. The last period of the session, from noon until 1 o'clock, was given up to an illustrated lecture by Stephen A. Krom on "The Extinct Monsters of Prehistoric Times." The lecture was given in the Assembly Hall of the Franklin school building.

Mr. Krom avoided the dull phases of the subject and kept his audience much interested in the queer reptiles, beasts and birds, the only trace of which is now to be found in a few scattered bones with here and there a fossil evidence. His views showed the latest ideas of scientists on the subject.

There was no attempt made to cover the ground comprehensively but just to give a popular view of the interesting topic. Mr. Krom had some funny things to tell about the huge monsters and brought out frequent laughs from his audience.

FROZEN TO DEATH.

Body of an Unknown Man Found in the Road With a Whiskey Bottle Nearby.

(Special to The Daily Press.)

Westfield, Feb. 2d—While W. F. Oakley, of Cranford, was driving along Springfield avenue on the way to Cranford yesterday he came across the dead body of a man. The body lay on its back, with both arms extended. It was evident the man had been frozen to death.

The body was that of a man about 50 years old, with dark hair and sandy mustache, and was poorly clad. It was evidently that of a laborer. An empty whiskey bottle was by the side of the corpse.

Nothing was found on the body by which it could be identified. Coroner's physician Westcott viewed the corpse and had it removed to the morgue.

It is supposed the man was walking along the road during the early hours of the morning and fell, and being unable to get up froze to death.

—Something that every man, woman and child wants is a good wearing strong winter shoe. By buying your shoes at Flynn Brothers, 222 West Front street, you will get such an article.

LIVED HERE ALMOST THREE SCORE YEARS.

Former Councilman F. E. Marsh Died This Morning.

PRACTICED LAW IN NEWARK

IDENTIFIED IN A PROMINENT WAY WITH THE CITY.

Bright's Disease Was the Cause of His Death—Influential in Local Republican Politics for Many Years—A Graduate of Princeton University—Studied With Late Judge Titsworth.

A career begun and continued in this city for nearly three-score years came to an end last evening, when Francis E. Marsh passed away after a lingering illness at his residence at 915 Madison avenue. There have been few men in Plainfield who have had a more general acquaintance throughout the city and his death will be mourned by a large circle of friends.

Mr. Marsh has been ill for several months with Bright's disease. It was known that it must result fatally, but he lived many weeks after it was believed that the end was close at hand. Yesterday he failed slowly and passed away at 10:20 o'clock.

Mr. Marsh was born in this city November 2, 1845. He was the son of the late Former Assemblyman Elston Marsh, who was at one time a prominent clothing merchant in Plainfield. He received his early education in Plainfield private schools and prepared for college at Flushing, L. I. He entered Princeton College and graduated with the class of 1867.

He entered the law officers of Judge Caleb Titsworth, in Newark, and studied law there. He was admitted to the Jersey bar and was then taken into partnership by Judge Titsworth, the firm name being Titsworth, Francis & Marsh. Judge Titsworth afterward drew out of the partnership and the legal business was continued under the firm name of Francis & Marsh. Finally Mr. Francis went west and the business passed into the hands of Mr. Marsh who continued to practice alone. Mr. Marsh continued to practice in Newark untill ill health kept him at home.

He was always a Republican and took an interest in politics when a young man. He became quite prominent in city affairs and was elected to the Common Council for a number of years where he was well known. He had much influence in the Republican circles, and served on the city executive committee besides attending many conventions as a delegate.

In 1875 he married Miss Stelle, of Jerseyville, Ill., and four children were born to them. Mrs. Marsh and all the children have since died, and Marsh has made his home with his sisters. He leaves five sisters, Mrs. O. B. Leonard, of Perth Amboy; Mrs. S St. John McCutchen, of North Plainfield; Miss Anna O Marsh, Miss Florence I Marsh and Miss Minnie S. Marsh, all of this city.

He was a regular attendant during good health at the First Baptist church and was a member of that church.

FOREIGN MISSIONS.

The Subject Made an Interesting Lecture in Trinity Reformed Church.

Major W. D. W. Miller, of LaGrande avenue, is enthusiastic on the subject of foreign missions and is chairman of the missionary committee of Trinity Reformed church Sunday school. Having an acquaintance with Rev. A. A. S. VanDyke, of New Brunswick, he secured that gentleman to come to Plainfield last evening and give a free illustrated lecture on China, Arabia and Japan. Mr. VanDyke was several years ago a missionary in Amoy, China, and thus had a personal knowledge of the one hundred pictures thrown on the canvas and gave a very interesting description of the places shown.

John S. Naegle operated the stereopticon light and slides to the satisfaction of all. The attendance was not as large as it would have been had the weather been milder, the intense cold keeping many at home, but those who did attend were well repaid as the lecture was very interesting and the pictures excellent. An offering was taken after the lecture which will nearly pay the expense incurred by the committee having the entertainment in charge. Before the lecture was over, Mr. VanDyke was obliged to leave in order to take a certain train to his home. Major Miller then took charge and explained the rest of the views, chiefly of Arabia and Japan.

—Neuman Brothers are the only receivers and distributors of the genuine Rockdale print butter. You can always find it there.

PLEAD TO INDICTMENTS.

PLAINFIELD PRISONERS ARRAIGNED IN CIRCUIT COURT.

William O'Donnell Admits He is Guilty—Eva Carter Will Stand Trial—Two Indictments Against Wire Thieves.

(Special to The Daily Press.)

Elizabeth, February 2.—The following cases of interest to Plainfield were disposed of in the Circuit Court yesterday morning, true bills of indictments have been brought in against the prisoners:

William O'Donnell, of Plainfield, charged with breaking and entering with intent to steal, plead guilty, and sentence was set down for Feb. 7th.

Eva Carter, a rather comely colored woman, also of Plainfield, charged with having on Dec. 15th last stole a China silk skirt valued at $10, the property of the lady by whom she was employed, entered a plea of not guilty. Her trial was set down for Feb. 7th.

John Goodwin and George B Schuer, charged with having on Dec. 30th last, at Roselle, attempted to steal and carry away 100 pounds of copper feed wire, property of the Elizabeth and Westfield Street Railway Company, pleaded guilty, whereupon another indictment against them was read, charging them with having attempted to cripple and injure the company by cutting its feed wire.

Abe David, counsel for the prisoners, on hearing the latter indictment read, informed the court that not knowing that there was more than one charge against his clients he had advised them to enter a plea of guilty to the first. Under the circumstances he asked that they be permitted to withdraw their former plea and enter a plea of not guilty. This the court allowed, and the trial of the prisoners on both counts was set down for Feb. 13.

William H. Lee, of Westfield township, charged with assault and battery on William E. Haines, of that township, on Oct. 5 last, pleaded non vult. Sentence was set down for Feb. 7.

GIVEN SOLID GOLD BADGE.

A. O. U. W., at Elizabethport, Honored Grand Guide V. W. Nash Last Night.

Justice V. W. Nash, who holds the office of grand guide in the Ancient Order of United Workmen, paid an official visit to the local A. O. U. W Lodge at Elizabethport, last night and was presented with a solid gold badge for securing a certain number of new members to the order. The badge is suitably and handsomely engraved and is in the design emblematical of the order, the shield with anchor being of white enamel suspended from a bar upon which appears "Vincent W. Nash" in script lettering. The badge is very handsome and highly prized. The presentation was made by Grand Master Workman McCollough.

DIOCESE HONORS BISHOP.

Large Sum of Money Given Bishop Scarborough on His Twenty-fifth Anniversary.

The Right Rev. John Scarborough will tomorrow celebrate his twenty-fifth anniversary as Bishop of the Episcopal church of New Jersey. Special prayers in all the churches will mark the occasion.

The Bishop and Mrs. Scarborough were tendered a reception at Trenton yesterday afternoon at their residence, which all the church wardens, vestrymen and delegates to the convention attended. The Bishop was presented with a large sum of money contributed by the clergy and laity of his diocese.

BISHOP WIGGER DISAPPOINTED.

Unable to Say Mass in Bethlehem Christmas Morning.

(Special to The Daily Press.)

Newark, February 2.—In a letter to Rev. George Doane O'Neill, Chancellor of the Newark Diocese, Bishop Wigger says he was unable to enjoy the coveted honor of celebrating midnight mass in Bethlehem Christmas eve.

The Bishop had and audience with the Pope December 12th. A week later he left an Austrian port for the Holy Land. Bubonic plague compelled the captain of the ship to go by so circuitous a route that the tourists did not reach Bethlehem until December 27th. Bishop Wigger offered mass in Bethlehem January 1st.

From Bethlehem the Bishop's party went to Cairo for a two months' stay. Bishop Wigger intends, on his return trip, to visit Dr. William F. Marshall, formerly president of Seton Hall College, who is recuperating in Algiers.

Y. M. C. A. Ladies' Class.

The ladies' class in calesthenics of the Y. M. C. A. meets Wednesday afternoons at 2:30 instead of 3:30, as The Daily Press erroneously stated a day or two ago.

PROJECT FOR NEW BUSINESS STREET.

Would Relieve Traffic on Park and Watchung Avenues.

TO TAP EAST FRONT STREET.

WILL PRACTICALLY BE CONTINUATION OF SYCAMORE AVENUE.

The Opening of the Street Will Directly Affect But Few Property Owners—Would Make a Corner Lot for Fire Department Building, and Skirt a Proposed Site for the New City Hall.

A project is now on foot to open up a new thoroughfare through the business section of the city and relieving the congestion of traffic on Park and Watchung avenues. The proposed street is to start on East Front street and divide the block bounded by Watchung and Park avenues. It is suggested that the tunnel under the Jersey Central tracks, that is to come with the new station, should be built of sufficient width to accomodate vehicles as well as pedestrians and thus connect the new thoroughfare with Sycamore street which now ends at Fourth street.

So far this project has not assumed any tangible shape. It is being generally talked of by those who are immediately interested, and there are many who believe that it would be a most excellent plan. The block between the two avenues is a long one, and a new street would greatly assist in developing property in the middle of the block which is not now used. There are no large buildings that would have to be moved. Most of the stores are little single story buildings.

The new street would pass just west of the city lot, occupied by the fire department headquarters, and by the Mrs. Thomas MacDonald property, which is one of the favored sites for the new city hall. The opening of the street would greatly improve the location as the proper one for the city hall.

Park avenue is narrow and Watchung avenue is largely occupied by the trolley so that another street parallel to them would greatly relieve the pressure of traffic that is now turned into Park avenue. Drivers avoid Watchung avenue on account of the gathering place of the trolley cars and the lack of room there at the switch. The new street would open a better path to the depot, and, with a tunnel under the railroad, to the rest of the city south of the tracks.

The street, as proposed, would only affect a few property owners. No expression of opinion has yet been secured from them, but those who advocate the plan declare that there would little trouble in getting the property needed, owing to the benefits they would derive from the opening of the street.

ANOTHER CITY HALL SITE.

It is Located on Watchung Avenue and is $8,000 Cheaper Than Mrs. Thos. McDonald's Property.

Another site for the new City Hall was offered to the special committee of the Common Council yesterday by J. Fred MacDonald. It is located on Watchung avenue, backs up against the city property on which the fire department headquarters stands, and has the advantage of being $8,000 cheaper than the Mrs. Thomas McDonald property, which has been regarded with considerable favor.

This new site is on Watchung avenue, between Front and Second streets. It begins just north of the Hand flats on the corner and is 125 feet wide. The land is now occupied by two small houses commonly known as the Runyon house and the Somers house. The lot runs back to the city property.

Parents Knew About It.

Mrs. Herbert Burdick, of Graceland, mother of Miss Burdick, who was married recently, has written a letter to this office requesting that a statement be made regarding the marriage of her daughter to Mr. LeMaire. She says that those who were most interested knew about the marriage, and that it took place on Thursday, January 25th, and not the next day as reported.

To Spend Her Vacation in Europe.

Miss Moss, superintendent at Muhlenberg Hospital, is making arrangements to spend her vacation next summer in Europe. For a long time she has been desirous of crossing the water, and the approaching Paris Exposition has proved such an attraction that she has decided to visit it. During her absence the hospital will probably be in charge of Miss Messler, the assistant.

NO SETTLEMENT YET

Kentucky Legislators Barred From Statehouse.

GOEBEL STILL ALIVE, BUT WEAKER

Attorneys For the Factions Try to Effect a Peaceable Agreement, but Fail—Bankers and Prison Warden Ignore Taylor.

FRANKFORT, Feb. 2.—The legislature is making progress. Wednesday it was hustled around the town and raced through the streets by the military. Yesterday morning a small portion of it was turned back at the gate of the statehouse grounds when attempt was made to reach the capitol building. In the afternoon it reached the door of the building, and as a body it has strong hopes that the next attempt will take them into the legislative chambers. There is very little heard now about London, and there seems to be a general feeling among the Democrats and Republicans alike that the next meeting of the legislature will be held in the capitol building. There has been no announcement of the intention on the part of Governor Taylor, but it seems to have become a tacit belief that he will rescind his action of Wednesday before the time set for the meeting at London. Anonymous letters threatening assassinations are going through the mails in considerable numbers. They have been received by the Democratic attorneys, by the Republican attorneys and by every judge of the court of appeals. They are all practically of one nature, informing the recipient that unless he mends the error of his political ways he will be shot down. Ex-Governor Bradley's house is guarded night and day by soldiers, and even in the daytime the inside blinds on the first floor are kept closed to prevent anybody from being able to fire through the windows with accuracy.

Governor Goebel passed an unfavorable day yesterday, although he was fairly comfortable when night came on. He has half a dozen doctors around him, and the reports of his condition vary according to the last physician who leaves his room. One doctor is confident that he will recover, and another generally allows him an hour or two before he breathes his last. His strength is maintained to great extent by injections. He has had several sinking spells out of which he was brought with some difficulty. He seemed to rally less readily from each successive collapse, but held his own steadily throughout the afternoon. His kidneys have practically ceased their functions, and slight symptoms of pneumonia have appeared, but have not as yet become so serious as to cause alarm in themselves. The doctors as a whole entertain no hopes of his recovery.

A proposition looking toward an amicable adjustment came from the Republic side just before noon yesterday, when T. L. Edelen of Frankfort, Governor Taylor's attorney, appeared at the Capitol hotel to hold a conference with Judge Pryor, Louis McQuown and Colonel William Scott, the legal advisers of the Democracy. After a short talk Mr. Edelen declared that Governor Taylor and the Republican party were anxious to avoid anything that might possibly lead to serious trouble, as the present conditions might do if nothing was done to prevent it. He was assured by the Democratic attorneys that they were as anxious to save any clash between the parties as the Republicans could be. Mr. Edelen then proposed to submit the case of the rival governors to the Kentucky court of appeals, which, he declared, judging by the action of Judge Hazelrigg in swearing in Governor Goebel, would probably be decided against Governor Taylor. He then wanted the right to submit the matter to the United States supreme court for final settlement. The talk was informal.

Mr. Edelen merely stated his position that the opposing attorneys might take the matter under advisement. The lawyers separated with an agreement to meet again at 2 in the afternoon.

When they met for the second time, Mr. Edelen again submitted his proposition and received the reply that the Democratic attorneys desired to have the matter adjudicated in the state courts. To this Mr. Edelen objected, saying he wished the final settlement to be made in the supreme court at Washington. Mr. Edelen asked for details regarding the seating of Governor Goebel by the joint session last night. As it has been repeatedly announced that the Republicans would claim that the seating of a governor by joint ballot is contrary to the Goebel election law of Kentucky, which provides, the Republicans claim, that the vote shall be taken separately, the Democrats declined to say anything about the meeting. They told Mr. Edelen that the proceedings of the session were written in the journal of legislative proceedings and that he would there find all the information which it was possible to give him.

Mr. McQuown urged the Republicans to concede the election and seating of Governor Goebel, which Mr. Edelen declined to entertain. Both sides were at the end of their respective ropes. Nothing more could be said on either side, and the lawyers separated. As they left the room Mr. Edelen intimated that it was possible that he might be able to submit another proposition at some later time. He was given to understand that he would be met half way, and the conference was at an end.

Two direct slaps were given Governor Taylor yesterday by public officers who declined to obey his orders. The first came from President Rodman of the Farmers' bank, which is a state depository. Some vouchers on the bank were signed by Governor Taylor in favor of some of the militia officers who wanted money for their companies.

When they were presented at the bank, payment was refused. President Rodman said that he did not see how he could pay out the money on orders signed by Governor Taylor until he knew for certain who was the actual governor of Kentucky. He had asked an opinion from the attorney of the bank, he said, and when it was received he would act accordingly. He declared he would take no chances of paying out money until he was satisfied he was acting under proper authority.

The second instance promised for a time to have serious consequences, and trouble may yet arise from it.

Governor Taylor issued a pardon to Douglass Hayes, a convict in the Frankfort penitentiary who is serving a five year term for manslaughter, having been sentenced in March, 1899. When the pardon was sent to Warden Lillard, he decided that he could not turn the man loose until he was satisfied regarding the legal status of the governorship. He made no reply to Governor Taylor, but declined to honor the pardon and informed the penitentiary commissioners of his action. They agreed with the position taken by the warden, and the man was held.

Taylor Asks Government to Interfere

WASHINGTON, Feb. 2.—President McKinley has received a long message from Governor W. S. Taylor of Kentucky dated at Frankfort. Governor Taylor recites at length the situation in Kentucky, declares that he considers himself the legally elected executive of the state and asserts that the condition of affairs at the present time is most critical. He says that a riot may occur at any time which will cause much bloodshed. Governor Taylor says that he is doubtful of his power to control the situation and appeals to the president to end the matter and secure peace in the state by recognizing him as the governor of Kentucky. The appeal is very earnest, and the aid of the administration is urgently requested.

LONG TRIAL CLOSED.

Important Mining Suit Decided In Montana.

HELENA, Mon., Feb. 2.—The jury in the United States district court has returned a verdict in favor of F. A. Heinze in the suit brought against him by E. R. Morse, trustee, for the recovery of $150,000 damages for the extraction of ore from beneath the surface of the Michael Davitt claim in Butte. The large importance of the action lay in the fact that the rich steppes between the Davitt surface are valued at $4,000,000 and a part of the assets of the great Amalgamated Copper company, Morse being presumably a trustee of the company holding the property, which was sold to him by the receiver of the Butte and Boston company two years ago.

The trial had lasted since Dec. 11, and the witnesses were eminent experts from all parts of the country. The costs to the winning side were close to $300,000, exclusive of large attorneys' fees, both sides having employed a dozen firms of lawyers each. It is a companion suit of the Pennsylvania's case, decided by the Butte district court recently in Heinze's favor, and the ore bodies in issue in both are worth more than $5,000,000.

General Wood's Trip.

HOLGUIN, Cuba, Feb. 2.—Governor General Wood and his party arrived Wednesday at Baracoa. They spent only two hours there, inspecting the barracks and the municipal improvements. Then they went to Nipe Bay, which place they reached at dark, arriving at Gibara yesterday. Gibara at one time had been considered one of the most difficult parts of the island to govern. Now there is not a single soldier stationed there. General Rius Rivera, minister of agriculture, industry and commerce, says the growth of order and respect for authority visible in this part of the island is a revelation to him. He had never dreamed it possible to effect such a change.

Microbes Tenacious of Life.

LONDON, Feb. 2.—A paper was read before the Royal society describing experiments made by Professor Dewar, Sir James Creighton Browne and Professor MacFadyen in submitting microbes of typhoid fever, cholera, diphtheria and other diseases to the temperature of liquid air—190 degrees centigrade. After 20 hours the bacteria were as lively as ever and punctually started their respective maladies. Photogenic bacteria were eclipsed when immersed in liquid air, but resumed their luminosity when thawed. Microbes of the same diseases will shortly be tested with liquid hydrogen.

Reciprocity With Italy.

WASHINGTON, Feb. 2.—The governments of the United States and Italy have entered into an arrangement under the reciprocity sections of the Dingley tariff act. The arrangement does not require submission to the senate and is generally like the one recently entered into with Portugal and that made with France more than a year ago preliminary to the pending reciprocity treaty. It is also within contemplation that this Italian arrangement at some date in the future shall be followed by a full fledged reciprocity treaty.

Otis Removes War Restrictions.

MANILA, Feb. 2.—General Otis has issued an important circular which removes restrictions on land trade and provides for the passing through military lines of persons presenting permits or certificates from the commanders in outlying towns. It is believed that this circular will have the effect of reducing the high prices of commodities in the Manila markets and will also promote prosperity in the interior.

To Protect Lobsters.

WASHINGTON, Feb. 2.—Congressman Fitzgerald has introduced a resolution calling on the fish commissioner to submit to congress the facts regarding the condition of the lobster industry. Mr. Fitzgerald claims that the lobster is fast disappearing from American waters and unless some remedial legislation is had at once it will be only a matter of time when the lobster will become extinct.

Two Perish In Flames.

ST. LOUIS, Feb. 2.—Sister Stanislaus, a teacher, and Mary Foley, a pupil, lost their lives as the result of a fire which destroyed the parochial school of St. Lawrence O'Toole's Catholic parish, Fourteenth and O'Fallon streets, yesterday afternoon. It is feared others are in the ruins. There were 200 pupils and 12 sisters in the school building; a four story structure, when the flames broke out.

Prohibitionists Act Badly.

BUFFALO, Feb. 2.—At a convention here the Erie county organization of Prohibitionists was disrupted and the party generally disgraced. The members, including several prominent ministers, got into a wrangle which resulted in blows. The chairman was expelled and an attempt made to take him bodily from the chair.

Costly Fire In Dayton, O.

DAYTON, O., Feb. 2.—With the thermometer at 4 below zero fire broke out in the business part of this city, and when it was brought under control $700,000 worth of property had been destroyed. The flames originated in J. P. Wolt & Sons' leaf tobacco warehouses.

Intercollegiate Oratorical Contest.

SYRACUSE, Feb. 2.—The committee in charge of the intercollegiate oratorical contest has decided to hold it at Syracuse university on April 2.

LIGHTHOUSE IN THE DESERT.

Like the Towers That Guide the Mariner on the Sea It Marks the Way Over the Sands.

Far out on the desert of Arizona is a lighthouse, erected for life-saving, like the towers that rise above the dashing waves of the Atlantic coast. Below it is a great well, Cullen's well, it is called, 200 feet deep at the only point where water is to be had. The water, sweet and cold, is raised in a large bucket, made from a barrel.

The revolving drum above is propelled by a blindfolded mule, that knows to an inch just how many rounds he must make before the clanking bucket rises to the point where it tips itself into a trough. At the trough and about the tank cattle are always standing to drink. There is no water for 55 miles to the eastward, nor for at least 30 miles in any other direction.

By the well passes the old Ehrenberg road, once the great highway into Arizona; and at that point meet roads leading to the Harqua Hala and to many other important mines of western Arizona.

It has been said that the road leading from the Hassayampa creek to the well is "blazed" by the graves of those who have died of thirst upon their way. Yet the desert is not repulsive. Save about the well, there are no cattle to eat the grasses that grow afresh in the spring rains, and the beautiful savanna stretches away for miles, usually tawny in color, although green below.

But the summer is awful in the intensity of its heat. The journey from Wickenburg must be made only with gallons of water to each person. Scores of poor foot-travelers have found this out at the cost of their lives, and men have died, a dozen or more, only a few miles from the point where the life-giving fluid is to be found.

Two miners expired by the roadside two years ago, almost within sight of their goal, and a fortnight ago a prospector's body was found within rifle-shot of the little station. A few days later, a German lad came staggering to the tanks shortly after nightfall. He had lain down to die when he saw lamplight from a window in the distance.

Then it was that Joe Drew, the keeper of the well, in mercy determined to establish his lighthouse. Far up on a tall cottonwood pole every night there now swings a lantern, to be seen for many miles across the level plain, a light of promise to the traveler, a life-saving beacon not marked on the mariners' charts.—James H. McIntock, in Youth's Companion.

WHY IS IT?

According to This Account the Education Received at School Does Not Stay.

"What percentage of the facts that are drilled into us at school do we carry to middle age?" said an official at the city hall, talking of things educational. "If the correct answer to that question could be given I'll wager it would startle us half out of our wits. It is appalling how much we forget. My wife thinks the course of study at the public schools is too severe, and to satisfy her the other day I looked over the examination papers of our 12-year-old boy. 'What do you think of those questions?' she asked, when I got through. 'Oh, I guess they are all right for Willie,' I answered, 'but they're a blamed sight too hard for me.' If I had been standing that examination I would have been marked down to about six below zero, yet I masquerade as a fairly well educated man."

"That reminds me of an experience of my own," said a listener. "A few days ago I was examining some old books that had been stored for years in the attic out at my house, and to my surprise I ran across a work on higher mathematics that I had used as a boy at school. The shabby little volume was so redolent with pleasant associations that I sat right down in the dust and dirt and began to thumb it over, but I was soon chagrined to discover that I had forgotten absolutely everything it contained. The whole thing had gone clean out of my mind, and its problems, propositions and formula were as meaningless to me as so many Aztec hieroglyphics. Presently I found a marginal note, in my own hand, roasting the author unmercifully for some trivial error in one of his quotations. I must have discovered the blunder in verifying the figures, and, boy-like, couldn't resist crowing over my acumen. When I read the long-forgotten, boastful memoranda I was aghast. 'Merciful heavens!' I said to myself, 'is it possible I ever knew enough about this hideously-complicated subject to actually call down the author of a text book!' I left the attic in a chastened frame of mind. The great problem in education is not so much what facts to acquire as how to double rivet 'em to the corridors of our craniums."—N. O. Times-Democrat.

Nature the Embalmer.

A curious circumstance concerning the body of Admiral Spotts has been reported from the Falkland islands, where he died 17 years ago. The Falkland physician who attended him during his fatal illness was present at the exhumation of the body when the cruiser Badger was sent for it this year. The coffin had disappeared, but the corpse was absolutely unchanged, even the features having retained the exact appearance that they presented on the day of death. This wonderful preservation was due to the action of the peat water which saturates the islands. It had embalmed the body completely.—N. Y. Press.

A Pun.

The rout of the corner dudes would be a "flight of starers."—Chicago Dispatch.

SIBLEY OUT OF LINE.

Democratic Congressman an Expansionist.

SAYS POLICY WAS FORCED UPON US.

The Senate Discusses Secretary Gage's Report and Listens to a Lengthy Speech on the Financial Measure.

WASHINGTON, Feb. 2.—Representative Joseph Sibley of Pennsylvania, who attained great prominence in the Fifty-fourth congress by his earnest championship of free silver, assailed his Democratic colleagues yesterday for their opposition to expansion in a speech that made the floor and galleries roar. Mr. Sibley has recanted his views on free silver and is now generally out of line with his colleagues on the Democratic side. He insisted yesterday that expansion was an original Democratic document promulgated by Jefferson and adhered to by Madison, Jackson, Tyler, Polk and Buchanan. In eloquent language he pictured the destiny of the United States carrying the arts of peace and the story of the cross to the remotest corners of the globe.

"Shall we hold Porto Rico and the Philippine archipelago?" asked Mr. Sibley. "Every foot. No nation on earth has a higher right of title to a rod of soil. We hold by the double title of purchase and of conquest, and my belief is that where once the shadow of our banner has fallen there will survive a race of free men, and I would hold Cuba until stability, order, good government and the protection of life and property were assured. I am going to echo the president's query, 'Who will haul down the flag?' Who planted it there? What cabinet council, what warrior, what statesman, what senator or representative, what body of men formed any plan of conquest? The cries of suffering humanity rang in our ears, and we stopped our ears. The groans were heard, but we answered not. We saw them stripped and wounded on our way to Jericho, and like the priest and the Levite we passed by on the other side. Not unheard those cries and groans at the throne of the Almighty, who, to awaken us from apathy, our almost criminal indifference, permitted the engines of his wrath to hurl their thunderbolts under the bows of the Maine, lying peacefully at anchor in the Havana harbor. Nor keenest sighted statesman, nor most daring warrior had dreamed even of the possibility of great gain, growth or greatness to come to us as a nation from that war of which the blowing up of the Maine was the first declaration. Those lands and people, unworthily ruled, were to pass from the house of Saul to the house of David. God and the valor of American arms give us that territory not because we are a nation altogether free, altogether pure, altogether blameless, but because, working through him as an instrumentality, he has given it to the boldest, the freest, the most progressive, the most enlightened and the most Christian of all the nations of the present age."

The remainder of the debate yesterday was uninteresting. It touched the questions of mediation in the Transvaal war, lynchings in the south and the jury law in Hawaii. Not much progress was made with the Indian appropriation bill, which was under consideration.

Nearly the entire morning hour in the senate yesterday was occupied by Mr. Allen (Pop.) of Nebraska in a discussion of the report of Secretary Gage concerning his transactions with the National City bank of New York.

Mr. Daniel (Dem.) of Virginia then delivered an extended speech on the pending financial measure. He vigorously opposed the proposition that the country should go to the gold standard.

Daniel M. Ransdell of Indiana and Charles G. Bennett of New York were sworn in as sergeant-at-arms and secretary of the senate respectively.

Lawton's Body En Route to Chicago.

WASHINGTON, Feb. 2.—Quartermaster General Ludington received a telegram yesterday from Colonel Long, depot quartermaster at San Francisco, saying that the remains of General Lawton, Major Logan and Surgeon Armstrong had been turned over to the undertakers and left San Francisco in the afternoon on a special train. The trip to Chicago will be made over the Central, Union Pacific and Northwestern roads. At Chicago the remains of Major Logan will be transferred to Youngstown, O., for interment, and the special train will proceed to Fort Wayne and Indianapolis, where the remains of General Lawton will lie in state, probably a day at each place. The remains of General Lawton and Surgeon Armstrong will be interred at the National cemetery at Arlington with full military honors. Mrs. Lawton and family, Major General Shafter and aids, the military escort and all the other members of the San Francisco party excepting the Logan family will accompany the remains to this city.

Government Finances.

WASHINGTON, Feb. 2.—The comparative statement of the government receipts and expenditures just issued shows that for the month of January, 1900, the receipts from all sources amounted to $48,012,164, as against $41,774,930 for January, 1899. The expenditures during the last month aggregated $39,189,096, as against $51,122,770 for January, 1899, leaving a surplus last month of $8,823,068.

A Comet Discovered.

CAMBRIDGE, Mass., Feb. 2.—A telegram has been received at the Harvard college observatory from Professor Kreutz at Kiel observatory stating that a comet was discovered by Giacobindi at Nice Jan. 31, .292 Greenwich time, in R. A. 2h. 57m. 44s., dec. 7 degs. 57 min. A cablegram from the European Union of Astronomers confirms the discovery.

His Claim to Distinction.

GREENFIELD, Mass., Feb. 2.—Major H. Tyler, a well known resident of this place, is dead here, aged 77 years. He had the distinction of having brought to Greenfield the first daily paper ever sold in the town. He also was Greenfield's first commercial telegraph operator.

Leather Plant Destroyed.

WILMINGTON, Del., Feb. 2.—Fire destroyed the plant of the Illinois Leather company, entailing a loss of $25,000. Several adjoining properties were damaged to the extent of $5,000.

Weather Probabilities.

Fresh westerly winds; increasing cloudiness and warmer.

MIGHTY ARMY READY

British Force In Africa the Largest Ever Raised.

BULLER REPORTED FIGHTING AGAIN.

Beresford to Command the Mediterranean Fleet—Boers Report Many Burials at Ladysmith—Churchill on the Situation In Natal.

LONDON, Feb. 2.—Mr. Wyndham's remarkable declaration in the house of commons that Great Britain will have in a fortnight 180,000 regulars in South Africa, 7,000 Canadians and Australians and 26,000 South African volunteers is received with wonderment. Of this total of 213,000 troops, with 452 guns, all are now there, with the exception of about 13,000 that are afloat. Beyond comparison this is the largest force Great Britain has ever put into the field. At the end of the Crimean war she had scraped together 80,000 men. Wellington at Waterloo had 25,000.

Mr. Wyndham's speech was the strongest defense the government has yet put forward as to what has been done and is being done.

It is reported here on good authority that General Buller has crossed the Tugela river at three places and that fighting has been proceeding all day long.

LORD BERESFORD.

Rear Admiral Lord Charles Beresford started for the continent this morning on his way to Malta to take command of the Second division of the British Mediterranean fleet.

A dispatch from Cape Town, dated Jan. 31, says:

"A British force with artillery is reported to have occupied Prieska and is now encamped there. Prieska is on the Orange river, 100 miles below Orange River station and west of Kimberley."

A dispatch from Hoof laager, near Ladysmith, dated Jan. 30, says:

"All is quiet here. The Long Toms occasionally fire on Ladysmith. The deaths in Ladysmith from fever and other causes must be enormous, as we can clearly see them burying corpses daily. General Joubert went to the upper Tugela yesterday."

The Daily Telegraph publishes the following dispatch from Spearman's camp, dated Jan. 30:

"Colonel Wynne has taken command of General Woodgate's brigade. Colonel Miles has been appointed chief of General Buller's staff.

"The Boers are still constructing defensive works opposite Potgieter's drift. A strong cavalry reconnoissance proceeded today westward in the vicinity of Honger's spruit."

Mr. Spenser Wilkinson in The Morning Post discusses a long dispatch from Mr. Winston Churchill, dated at Pietermaritzburg and describing the situation in Natal. He says:

"This dispatch deserves to be closely read. It is an appeal to the public at home and, as it has been passed by the censor, may be taken to represent the feelings of General Buller's army. Mr. Churchill represents the difficulties of General Buller's task in concise terms.

"The enemy will act with common sense. They will place outposts on the hills and keep back their main body until they see the direction of General Buller's movement. Then they will quickly bring up the main body and extemporize what defensive works they can in addition to such as they have profusely prepared in anticipation of various possible advances.

"That is what every one would expec them to do, and that their main body can ride faster than General Buller's main body can walk was also pretty generally understood. The consequence is that the Boer army cannot be turned. Wherever it is attacked it can present an intrenched front.

"According to Mr. Churchill, there are 7,000 Boers watching Ladysmith, the same number held ready to resist General Buller and 5,000 kept in reserve to reenforce either body at need. Thus General Buller has to attack 12,000 men intrenched on favorable ground. For that purpose Mr. Churchill thinks he ought to have 36,000 men instead of 25,000. In other words, General Buller ought to have another division.

"This opinion coincides with the view we have all along expressed, that the center of gravity of the war lies in Natal and that a British victory there would be decisive."

Boer Camp Moved.

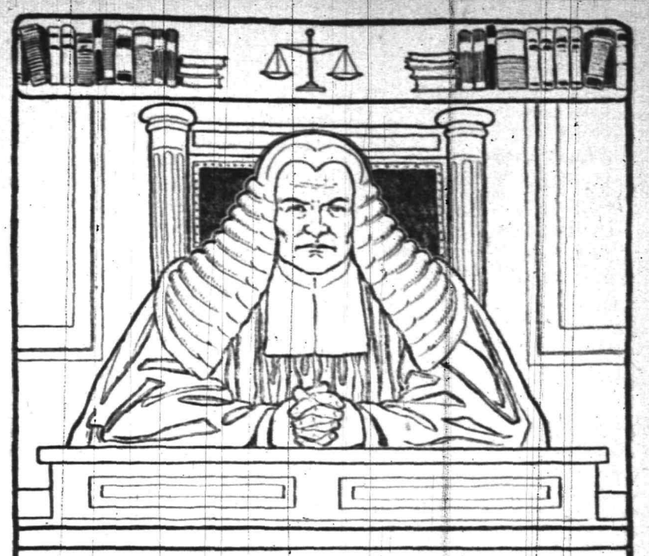
STERKSTROOM, Cape Colony, Feb. 2.—A runner who has arrived here brought a letter from Aliwal North, in which it is announced that the Boers have reopened the line to Burghersdorp, as their supplies were short at Stormberg. The plains being bare, the camp of the burghers, it is added, has been moved back of Stormberg heights, which are still held.

Mr. Bryan In New Hampshire.

CONCORD, N. H., Feb. 2.—Colonel William J. Bryan of Nebraska arrived in this city yesterday and received a welcome that will live long in his memory. It was the third city he had made a stop in since early morning, the first being in Portsmouth, where he addressed a large number of people and awakened much enthusiasm. The second was at Manchester, where he spoke a few words to quite a crowd which greeted him at the station.

A Fatal Fire.

LOWELL, Mass., Feb. 2.—One life was lost, one fireman injured and several overcome by smoke in a fire here in which Marin's block, a five story structure, was destroyed.



A GOOD judge must have both experience and learning. A housekeeper should be a good judge for she too must have experience and learning or she may think that the soaps made to look like Ivory Soap are just as good. With experience she will know that they lack the remarkable qualities of the genuine. Ivory Soap—99 44/100 per cent. pure.

COPYRIGHT 1899, BY THE PROCTER & GAMBLE CO. CINCINNATI

DESTITUTE SAILORS.

Our Consul at Bombay Troubled by Applicants For Aid.

WASHINGTON, Feb. 2.—Consul Fee at Bombay, in a dispatch to the state department, speaking of sailors who have been thrown upon his care at the consulate because of utter destitution, says that he is inclined to believe that there is a gang located in the city of New York who make a business of procuring men by fraudulent means as sailors for foreign ships and that in consequence of this many men are shipped on foreign vessels who are utterly unfit and unprepared for such service and who when discharged in a foreign port are absolutely helpless. He adds "that a great number of stranded Americans present themselves at this consulate for help.

"These men unless cared for must suffer untold miseries in their tramp life in India. Some of them deserve assistance from the consulate, while others do not. I have now here three deserving Americans who have been unfortunate, two of them, Henry Meager of Bay City, Mich., and Charles Brown of Santiago, Cal., young men for whom I have after great effort secured employment. Another is named George Hunson of New York city, also a stranded American, who came from South Africa to Bombay and for whom I have secured admittance at the Strangers' home. He has no prospect of getting work.

"It is next to impossible to secure working passage on a vessel from this port. By reason of the low wages obtainable in India and the competition of native labor a stranded American in destitute circumstances finds himself here in the face of starvation and the plague and in a most helpless condition."

BANKERS VIOLATE THE LAW.

Government Seizes a Design For a Banquet Piece.

NEW YORK, Feb. 2.—Group 8 of the State Bankers' association at their annual dinner at the Waldorf-Astoria hotel next Tuesday night were to have eaten their ices out of receptacles indicative of the bankers' loyalty to the gold standard. The ices were to have been inclosed in pasteboard boxes in imitation of a pile of eight huge gold coins with milled edges. The top coin represented the reverse of the $10 goldpiece much enlarged and bearing the imprint of the San Francisco mint. The ordinary motto, "In God We Trust," had been changed to read "In Good We Trust." The size of the imitation coin was about two-thirds larger than a double eagle.

The order was placed with a New York firm, who prepared a plaster cast of the cover of the box and made a model, which was submitted to a representative of the government for his opinion regarding its validity. He at once declared it a violation of chapter 127 of the laws of 1891, which prohibits any person from making "any token, device, print or impression, whether of metal or its compounds, or of any other substance in likeness, similitude as to design, color or the inscription thereon, of any of the coins of the United States."

Chief Hazen was notified, and he seized cast and model.

Why Did the Bank Fail?

BOSTON, Feb. 2.—H. W. Chaplin, receiver of the John P. Squire corporation, the failure of which was followed by the suspension of the Broadway National bank, states that after having looked carefully into the situation he has learned that the bank had prior to its total suspension a surplus of $225,000, and the total amount of Squire paper which could be presented for payment was only $160,000. Therefore if the bank had been permitted to go on it would have had a surplus of $75,000 at least after wiping out the Squire papers. "Squire paper will pay a substantial dividend," he continued, "for there are large assets. Not only did the bank have capital intact at the time of suspension and without reliance on the Squire papers, but it had in the banking house within its own walls at the moment when the bank suspended about $500,000 in cash."

Highest Wages In Twelve Years.

POTTSVILLE, Pa., Feb. 2.—The mine workers of the Schuylkill region will receive for the last half of January and the first half of February the highest wages that have prevailed in 12 years. The Schuylkill Coal Exchange, which fixes the wages, yesterday placed the rate at 5 per cent above the $2.50 basis, which means 18 cents additional to the wages of those working for $2 per day. Inside laborers whose schedule wages are $10.20 will receive $11.10 per week for the time stated. The rate of wages is computed upon the price of coal received at Schuylkill Haven by five collieries drawn by chance.

Ex-Mayor Quincy to Wed.

BOSTON, Feb. 2.—The marriage of Hon. Josiah Quincy, late mayor of Boston, and Mrs. William R. Tyler, formerly of Quincy, but now of London, will take place in the latter city in about a fortnight, the groom sailing for England next Wednesday. The ceremony will be performed at the home of Mr. John R. Carter, second secretary of the American legation, and it will be simple and private.

Canal Commission Heard From.

MANAGUA, Nicaragua, Feb. 2.—The isthmian canal commission has arrived here. All the members are in good health.

New York Markets.

NEW YORK, Feb. 1.—FLOUR—State and western quiet and fairly steady; Minnesota patents, $3.90a4.15; winter straights, $3.40a3.50; winter extras, $2.60a2.85; winter patents, $3.55a3.80.

WHEAT—Opened steady and unchanged; later it advanced rapidly on unexpected strong closing cables from Paris; March, 75½a76¼c.; May, 74¼a74¾c.; July, 74 1-16a74½c.

CORN—Opened steady on cables and afterward advanced with wheat; May, 38⅝c.

OATS—Dull, but steady; track, white, state, 31a35c.; track, white, western, 31a35c.

PORK—Dull, but steady; mess, $10.50a11, family, $13a13.50.

LARD—Firmer; prime western steam, 5.17½c.

BUTTER—Firm; state dairy, 18a25c.; state creamery, 21a25c.

CHEESE—Steady; fall made, fancy, large, 12¾a13c.; fall made, fancy, small, 12¾a13c.

EGGS—Firm; state and Pennsylvania, 18½c.; western, ungraded at mark, 14a18c.

MOLASSES—Quiet, but firm; New Orleans, 44a55c.

RICE—Steady; domestic, 4a6½c.; Japan, 4¾a5c.

TALLOW—Easy; city, 5c.; country, 5¼a5⅝c.

HAY—Steady; shipping, 65a70c.; good to choice, 80a85c.

Dull at Rubber Factory.

NEW HAVEN, Feb. 2.—The weather conditions that have prevailed this winter have had a most discouraging effect on the 1,600 employees at the L. Candee & Co. rubber factory in this city. For some time the factory has been running on short time, and most of the employees were working but 25 hours a week. It is now announced that as the prospects of better times during the remainder of the winter are not very bright the officials are contemplating a complete shut down shortly.

McGovern Knocks Out Santry.

CHICAGO, Feb. 2.—Terry McGovern of Brooklyn at Tattersall's last night proved his right to the title of featherweight champion of the world by knocking out Eddie Santry of Chicago, who claimed the leadership of the 122 pound class by virtue of a knockout of Ben Jordan of England. The knockout came in the fifth round after a fierce mix up in which Santry did some clever work.

Malaria and Mosquitoes.

BERLIN, Feb. 2.—Professor Robert Koch, the celebrated bacteriologist, in the Deutsche Medicinitsche Wochenschrift, reporting upon the results of the Java malaria expedition, says that these fully corroborate his theory, already illustrated on the German east African coast, that where there are mosquitoes there is always malaria and that where there are no mosquitoes there is no malaria.

Sympathy For Goebel.

RICHMOND, Feb. 2.—The general assembly adopted a joint resolution declaring "indignation and sorrow at the dastardly attempt to assassinate Hon. William Goebel of Kentucky" and expressing "sympathy in his sufferings and its sincerest hope that he may be speedily restored to health and to the peaceable execution of the high office to which he was elected."

Russia Gets Concessions In Persia.

LONDON, Feb. 2.—The St. Petersburg correspondent of The Daily Mail says: "The Russian loan to Persia secures to Russia a prolongation of the concession of the exclusive right to construct railways in that country, and it is assumed here that by June next Bender Abbas, on the Persian gulf, will become Russian in virtue of another loan."

February 6—Meeting of Volunteer League of the Y. M. C. A.

February 8—Opening session of State convention of the Y. M. C. A. at Passaic.

Kicking Democrats Rewarded.

The organization of the so-called Jeffersonian Democracy of Middlesex county, which cut somewhat of a figure in the campaign last fall, was undoubtedly the result of some sharp practices on the part of G. O. P. leaders. While the leaders in the rump movement proclaimed with great gusto that it was their loyalty to the party and its principles that impelled them to forswear allegiance to the regular organization, it is evident that the so called Jeffersonians were simply doing the bidding of the Republican politicians, who appreciated the truth of the saying that a house divided against itself must fall—and so of the Democracy.

The reward of the kicking Democrats was to come in for appointments to political jobs. That was evidenced a very few days after election when Patrick Mulvey, chief disturber in the Democracy, was appointed to a position on the capitol police force in Washington. Now another Democrat of the same brand as Mulvey has been rewarded. He is Edward R. Hayes, who was yesterday appointed court crier of the Middlesex County Court. This position has been coveted by men who have been Republicans through thick and thin, and they are not only surprised but wounded at the selection of a disgruntled Democrat over their heads.

The fine Italian hand of Robert Carson, collector of the Port of Perth Amboy, and who is now regarded as political boss of the Middlesex G. O. P., is supposed to be responsible for the reward of Mulvey and Hayes, who will hereafter be summarily kicked out of any Democratic affairs in which they attempt to participate.

It has been a cause for wonderment on our part ever since it was announced that Col. Bryan would visit James E. Martine that the New Jersey editor of the New York Tribune did not indulge in some caustic and humorous references about the forth coming Democratic event. In the face of our cherished expectations the silence of our metropolitan contemporary has been oppressive. But the cloud was lifted this morning, for nearly one-fourth of the space of the Tribune devoted to Jersey affairs was taken up with an editorial, in which the "Farmer Orator's" entertainment of Mr. Bayan was made a subject for mixed sarcasm and humor on the part of the Tribune.

Shrewd Republican leaders begin to see that the enactment of a law abolishing the spring elections for municipalities would eventually become a roor-back for them. By the passage of the law the Republicans might gain control of some Democratic cities this year because local issues would become mixed with national ones when the ballots are cast. But Republicans who realize that nearly every influence outside of those that are imbued with the thought "our party right or wrong" is against the abolition of spring elections, can foresee that there would probably be a revulsion of feeling that would carry them to stunning defeat in another year.

The office of the county clerk should be on a salary basis. Then there would be no such undignified lobbying on the part of occupants of these positions as is now evidenced in Trenton by the activity of county clerks throughout the State working to defeat the bill that is designed to reduce the fees in connection with the recording of mortgages. The county clerks are against the proposed law not because it loosens the safe guards that should prevail in public records of this sort, but because their fees will, if the measure becomes a law, be cut in half for the heaviest part of their work.

Under the privileges of second-class mail matter it is estimated that there is a total loss of $20,000,000 annually to the Government. Probably no governmental privilege is so abused as the one of second class mail matter. Postmaster General Smith appreciates this fact and he has made recommendations to Congress for certain reforms, but a powerful lobby is being exercised by the concerns that are profiting by the present state affairs in the hope of stalling any action that will destroy the arrangement whereby Uncle Sam is subjected to such an abuse.

Governor Wells, of Utah, has issued a call for a special election to be held April 2d to fill the vacancy in Congress caused by the refusal to seat Roberts. Major R. W. Young, a grandson of Brigham Young, is a favorite candidate of the Democrats. He is a liberal Mormon and a monogamist. James T. Hammond, also a Mormon with one wife, will likely be the Republican nominee. The Republicans are believed to have the better chance of winning.

There is now before the Legislature a concurrent resolution providing for the election of United States Senators by a direct vote of the people. The chairman of the judiciary committee, to which committee the resolution was referred, has pledged the committee to report the resolution, and in the event of this report being favorable, there is prospect of an earnest discussion of the proposition during the session.

In his forthcoming book on municipal government Comptroller Coler states that the city of New York could save $1,000,000 a year by abolishing useless offices.—Paterson Guardian.

It is apparent that Tammany counted without its host when it elevated Coler to public office. Judged by the Tammany standard, Coler is undoubtedly a heretic.

The mere fact that one man who carried six revolvers was in the vicinity of the spot where Senator Goebel was shot, is no indictment against him. If the carrying of the revolvers is an evidence of guilt in the case, but few Kentuckians would escape incrimination.

As an offset to the agitation in New York for the repeal of the Horton boxing law, Assemblyman "Tim" Sullivan has introduced a bill in the Legislature to prohibit football.

The wintry winds seem to have to blown out dollar gas in this city.

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

This is the kind of stories they are telling up in Sussex county. One day last week A. B. Runion and his son George, of Green township, were engaged in cutting and drawing wood in a heavily timbered tract. All at once one of the horses gave a sudden plunge, and, looking up, the Messrs. Runion discovered a large gray fox resting plumb on the back of the horse. In an instant the fox was rapidly making tracks for a more secluded retreat, but Mr. Runion shouted so lustily that Mr. Fox became badly rattled, careering in its course deliberately trotted back to the team when it was killed by Mr. Runion's son George with a club.

* * * * *

This is Candelmas Day, or the Feast of the Purification, and is observed in the Roman Catholic and Episcopal churches. The day is also known as ground hog day, the occasion when this animal as well as other species are said to leave their secure quarters in the ground and come forth. There's a tradition that if the ground hog sees his shadow he will hasten back to his hole, there to remain for at least six weeks, the impression being that the hog's instinct leads him to believe there is yet more severe winter weather to come. If the hog does not see his shadow he will remain above ground and has come out of his winter quarters for good. In other words, if the sun shines tomorrow it may reasonably be expected that more cold weather is to follow. Watch for the hog's shadow.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

GRAIN-O! GRAIN-O!

Remember that name when you want a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it. Grain-O is made of pure grain, it aids digestion and strengthens the nerves. It is not a stimulant but a health builder and the children as well as the adults can drink it with great benefit. Costs about ¼ as much as coffee. 15c. and 25c. per package. Ask your grocer for Grain-O.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,

122 East Front Street.

DOUBLE TRADING STAMPS ALL DAY SATURDAY.

Our new Carpet Store—located at 246 Front Street, (formerly VanEmburgh's) is a room of great attractiveness, and is peculiarly well appointed for the carpet business. On the ground floor, splendidly lighted, well furnished and thoroughly stocked, we feel it is well calculated to fill a long felt want.

Now that we have the room we have felt it incumbent on us to put in a first-class stock of what is most to be desired in carpets. We have devoted a great amount of time and thought to this end and invested considerable money. The result, we believe, will meet with your approval.

A marked advance in the price of carpets has occurred. We anticipated this advance in large measure by early purchase, many patterns being still on the looms when contracted for.

WE POSITIVELY GUARANTEE OUR PRICES LESS THAN THOSE OF ANY REPUTABLE N. Y. HOUSE.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence to The Press.)

Dunellen, Feb. 2—Ex Councilman Levers met with a severe accident yesterday morning at his home on Jefferson avenue. Mr. Levers was engaged in chopping kindling wood to build the kitchen fire. By a slight slip of the hatchet the sharp blade came down upon his left hand sufficiently hard to inflict a severe gash and nearly severed the thumb. Dr. Brakeley was called and took several stitches in the wound. Mr. Levers will be laid up for several days in consequence of the accident.

The concert and entertainment given at Apgar Hall last night by the Dunellen Banjo Club was a splendid success. The hall was filled to its capacity and those who took part in the concert acquitted themselves most creditably. The entertainment and dance at the close of the musical portion of the programme proved a pleasant function. The proceeds were highly gratifying.

Several from this place and New Market attended the twenty-fifth anniversary of Bishop Scarborough being made a Bishop of the Episcopal church for this diocese, which was held at Trenton yesterday.

There will be a live bird shoot at Peter Osborn's in the town of Piscataway tomorrow afternoon between the Dunellen and Piscataway gun clubs. Twenty-five birds will be used.

The ladies of the Epworth League of the M. E. church are working hard to make the approaching fair to be held the 16th, 17th and 18th inst. a grand success.

The subject of Rev. Martin Sirdall's sermon tomorrow will be "The Shepard King." In the evening the young people will hold a Valentine sociable.

Yesterday was the coldest day of the season in this place, the mercury touching nearly the zero point at several places about town.

Today being the Feast of the Purification, services will be held in Holy Innocent Episcopal church this evening.

Mr. and Mrs. Frank Marsh, of New Market, are parents of a son, born last Saturday.

The regular monthly meeting of the Borough Council will be held Monday evening.

The monthly meeting of the Board of Education will be held Tuesday evening.

The recent missionary meeting at Holy Innocents' church netted $6 40.

Mrs. Frank Marsh, of New Market, is dangerously ill.

'PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, Feb. 2.—The recently organized Bible study class of the Methodist Sunday-school met in the church last evening. The class is composed of the teachers and adult members of the school, and the meetings are proving to be interesting and instructive.

The trolley company are beginning to get down to a fair schedule at last. Cars are run with few exceptions every fifteen minutes. This is especially gratifying to the early morning patrons who work in the stores and factories in Plainfield. One is enable to catch a car now at 6:15, 6:30 and 6:45, which make it very convenient.

Wm. H. Lee, who was arraigned before the county court yesterday, charged with assault upon William Haynes, a conductor on the Central Railroad, pleaded, non vult and was released on bail until Wednesday February 7th, when he comes up for sentence.

Goodwill Lodge, K. of P., held a large and important meeting in their rooms last night. Goodwill has been initiating a number of new members during the past three months and the lodge is in a flourishing condition once more.

The Township Committee and Fire Board will hold a joint meeting in the town rooms this evening. Business relating to the fire department will come before the meeting.

The corps of teachers in the public school have organized a Pedagogical Reading Club which will meet in the school building Tuesday afternoons of each week.

The Literary Society of the Methodist Episcopal church met and enjoyed an interesting reading in the class rooms of the church last evening.

Rev. and Mrs. G. M. Shott are entertaining their niece, Miss Ada Hunt, of Cincinnatti, O

WESTFIELD

(Special Correspondence to The Press.)

Westfield, Feb. 2. — Rev. Dr. C. M. Anderson, pastor of the Methodist church, has been elected a trustee of the Ceneterian Collegiate Institute at Hackettstown. Dr. Anderson is an aluminus of this college.

The Democrats are now talking of running J. Alston Dennis, Harry E. Knight and John B. Green for members of the township committee at the coming election.

The annual election for chief and two assistant chiefs of the Westfield fire department takes place Tuesday evening, February 13.

There is a rumor about town that the Westfield Leader has again changed hands but it cannot be ascertained who is the buyer.

Tax Collector Edison H. Clark filed a bunch of deliquent taxpayers names at the county clerk's office this morning.

SOUTH PLAINFIELD.

(Special Correspondence to The Press.)

South Plainfield, Feb. 2.—The men who cut ice for McDonough Bros. reported for work yesterday morning, but the firm have decided to cut no more ice until it reaches a thickness of ten inches. Their house is now full. They will stack 2 000 tons if the cold continues until the ice is ten inches thick.

Michael Day, the night fireman on the new coal shutes was injured quite badly Wednesday by having his head cut and bruised between a car and the beam on the bridge of the shutes.

W. E. Smith is cutting a new driveway into his residence which will improve the looks of his property.

William Hamilton is the proud possessor of a fine Irish setter pup.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World

The Music Hall management tomorrow afternoon and night offers a laugh provoker to the play and fun loving public when "How Smith Met Jones" will be seen for the first time in this city. The piece is said to be a comedy farce, pure in conception, full of bubbling humor, fresh quips and bits of fun that will cause its audiences to break out in fits of laughter, as the curtain descends on the most ludicrous complications ever seen on any stage. The company that helps interpret this droll comedy has in its cast many names that are familiar to old theatre goers. Prices are reduced for the matinee which begins at 2:15 o'clock.

* * * * *

"A Guilty Mother," an English melodrama of more than usual brilliancy, wil be at Music Hall next Tuesday night. This beautiful drama has been received everywhere by large and enthusiastic audiences and is classed as the best of all emotional dramas now before the public. The plot is intensely interesting and the story entrancing. The play is produced on a very elaborate scale, the company carries all their own scenery, which is said to be the handsomest and most novel in the way of stage mechanism ever seen, a "real mirror," measuring 3x14 feet, which is shattered during a great storm, is the main feature of the second act. The company presenting the play is one of unusual excellence.

EARLY INTELLIGENCE.

—The interior of McVey's Hotel is being made attractive by Woolston & Buckle.

—Dr. A. H. Lewis will conduct the W. C. T. U. meeting next Sunday afternoon at 4:15 o'clock.

—Jerusalem Lodge, No. 26, F. and A. M., will hold a regular communication next Tuesday evening and a full attendance is desired.

—The choir of the German Lutheran church will meet this evening to rehearse music in English for the service to be held Sunday evening.

—Rev. Dr. A. H. Lewis has been secured to deliver an address next Sunday afternoon at 5 o'clock in the W. C. T. U. rooms, 100 Madison avenue, in the Babcock building.

—Cadwallader Jones, the sexton of the Unitarian church, has been making some decided improvements about the church, especially in the basement, for which he has the thanks of the members.

—Next Tuesday evening at the meeting of the Sons of Veterans matters of interest concerning the soldiers' monument will be considered, and a full attendance of members is desired.

—On Tuesday last the Clio Club, of Roselle, entertained a number of other literary clubs from this vicinity, and a goodly number of Plainfield women were present and greatly enjoyed the hospitality of the Clio Club.

—At the next regular meeting of the Common Council it is quite likely that some action will be taken regarding the petition from the Loyal Temperance Legion asking for an appropriation for a public drinking fountain which they propose to erect on North avenue.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Mrs. Mattis, of Madison avenue, is confined to her home by illness.

Miss Marjorie Coe, of Third place, is visiting friends in Philadelphia.

Miss Nettie Becker, of Raritan, has been visiting friends in this city for a short time.

Mrs. Abbott, of New York, who has been visiting Plainfield friends, has returned home.

C. E. Hepburn, of East Second street, has entirely recovered from a recent illness.

Miss Bessie Pidcock, of Whitehouse, has been visiting Mr. and Mrs. Lewis Wyckoff, of this city.

Mr. and Mrs. H. A. Bonn, of Sandford avenue, are entertaining company from out of town.

Lemuel Johnson and niece, Miss Jennie Seals, of Whitehouse, have been visiting Plainfield relatives.

John H. French, of Brooklyn, a former resident of this city, is visiting former acquaintances in town.

Mayor Silas D. Drake is preparing to give an elaborate dinner at the Hotel Kensington in a short time.

George D. Morrison, of this city, has been secured to conduct the Y. M. C. A. meeting at Somerville next Sunday afternoon.

Among those who were in the February graduating class at the State Normal School is Miss Olive Newell, of this city.

Ellis Hartpence has returned to his home in Trenton after a short visit with his sister, Mrs. E. E. Hann, of Somerset place.

Dr and Mrs. Vail, of Rock Rapids, Ia., are the guests of Mrs. Catherine Sebring, of West Front street, for an indefinite period.

The Montauk Euchre Club will be entertained next Monday evening at the home of Mr. and Mrs. Horace Huff, on Codington avenue.

Howard P. Tapscott has associated himself with E. M. French's real estate and insurance agency, and will look after the insurance end of the business.

Charles Davis, son of Dr. T. S. Davis, of Park avenue, has returned to his studies at the University of Pennsylvania, after a pleasant stay at his home.

Former Clerk of the Union County Board of Freeholders Alfred D. Cook, of Rahway, was a visitor in Plainfield yesterday and called at The Daily Press office.

T. B Green, of East Front street, accompanied by Francis Whiteley, of Steiner place, left yesterday for the south, where they will remain until next spring.

Frederick A. Andrews, who has recently been transferred from Hope chapel to Warren chapel, will assume his new position as superintendent of the Sunday-school next Sunday afternoon.

Lawyer John Powers, of Elizabeth, who recently formed a partnership with W. K. McClure, of this city, divides his time between the county seat and Plainfield as occasion requires.

The Misses Ella and Georgia Scott, daughters of Editor Scott, of the Weekly Witness, of Brooklyn, and Mrs. William Carlock, of East Orange, are guests of Mr. and Mrs. G. B. Vanderhoof, of West Front street.

EARLY INTELLIGENCE.

—You will feel much more comfortable if you are wearing fine merino underwear such as are sold at Peck's.

—The Christian Endeavorers of the First Baptist church will meet this evening. There will be interesting features and a cordial invitation is extended to both old and young.

—Charles Arnold, the butcher at 203 Liberty street, has one of the most inviting stores in the city. It's the pink of neatness and cleanliness and filled full of choice meats, poultry, etc. The Jersey pork and poultry that he is selling gives the best of satisfaction to his customers and he is building up a large trade in that part of the city.

—The New York Clothing Company, 214 West Front street, will have a great sale on men's suits and overcoats tomorrow. It is clothing which was purchased in the last few days and they promise to give some of the greatest bargains they have offered this winter. If you are in need of any winter clothing it will certainly pay you to give them a call.

Lokal-Nachrichten aus der alten Heimath.

Oesterreich.

Wien. Dieser Tage reiste Etatin Pascha von hier nach Kairo ab, um an der Spitze einer Expedition von Engländern und Deutschen zur Erforschung und wirthschaftlichen Ausbeutung des Sudans nach Omdurman zu gehen.—Der Prorektor der Wiener Kunstakademie und ausgezeichnete Landschaftsmaler Eduard v. Lichtenfels trat aus der Künstlergenossenschaft aus, weil deren Aquarellistenklub ihm ein Bild von der bevorstehenden Ausstellung zurückgewiesen hat.—Die Wiener Gemeinde beschloß, dem Komponisten Millöcker ein Ehrengrab zu errichten.—Der Reichsrathsabgeordnete George Schönerer, der in Gemeinschaft mit seinem Parteigenossen Hermann Wolf die „Los von Rom"-Bewegung in's Leben rief, ist aus der katholischen Kirche ausgetreten.

Baden. Der Amtsdiener der hiesigen Stadtgemeinde, Joseph Weninger, eine populäre Stadtfigur, wurde auf dem Dachboden des Rathhauses erhängt aufgefunden. Das Motiv des Selbstmordes ist Geistesstörung.

Brünn. Im hiesigen Engrosgeschäft J. Subak und Söhne brach ein Brand aus, der die ganzen Vorräthe an Schnittwaaren im Werthe von 60,000 Kronen einäscherte.

Budapest. Josef Steinberger, Oberbuchhalter der Szatmarer Gewerbe- und Volksbank, der die Bilanzen des Instituts seit acht Jahren fälschte, ist nach einer Defraudation von 50,000 Gulden flüchtig geworden.

Innsbruck. In der Pfarrkirche des Dorfes St. Peter bei Klausen stürzten kurz vor Ende des Vormittagsgottesdienstes die Reliefs des Plafonds herab und mitten in eine Schaar Kinder hinein. Eines blieb sofort todt, zwei andere sind schwer verletzt. In der Kirche, die dicht gefüllt war, herrschte eine große Panik.

Lemberg. In der Sprecher'schen Spiritusraffinerie in Bogdanowka öffnete ein Arbeiter aus Rache unbemerkt den Hahn des Reservoirs, in welches sich der raffinirte Spiritus ergießt. In Folge dessen ist für 22,000 Gulden Spiritus ausgeflossen.

Tabor. Im hiesigen Kreise sind in den letzten Dezembertagen bei der strengen Kälte und den Schneeverwehungen, welche die Kräfte der Wanderer im Freien erschöpften, acht Personen erfroren.

Teschen. Hier herrscht zur Zeit ein vollständiger Kohlenmangel. Durch ein Kartell der Karwin-Ostrauer Gewerke haben die erzherzoglichen Gruben in Karwin den Kohlenhandel in Teschen monopolisirt, aber für den Winter keine Vorsorge getroffen. Hunderte von Wohnparteien sind ohne Kohle, die Angehörigen der besitzenden Klasse heizen und kochen mit Holz; die armen Leute aber können weder kochen noch heizen.

Schweiz.

Bern. Beim Eiger-Gletscher sind elf italienische Arbeiter der Jungfraubahn durch eine Lawine verschüttet worden. Zehn derselben konnten sich herausschaffen; einer wurde getödtet.—Das Erzlager bei der Planplatte Oberhasli soll sich bei der Untersuchung des Professors Heim aus Zürich als zur Ausbeutung von Eisenerz geeignet erwiesen haben.—Im Berner Oberland soll dieses Jahr der Bau einer neuen Bergbahn von Grindelwald nach dem sogenannten Eismeer begonnen werden.

Zürich. In der Sylvesternacht ist in Turbenthal eine ganze Familie um's Leben gekommen: der Besitzer des „Hotel Schwan," seine Gattin und zwei Töchter (13 und 18 Jahre alt) erstickten in Folge Kohlenoxydgasvergiftung. — Dieser Tage sind die direkten Telegraphenverbindungen Zürich-Wien und Zürich-London eröffnet worden.

Graubünden. In Davos arbeitet man an einem den ganzen Rayon des Kurortes umfassenden Desinfektionsgesetze, das den Ansprüchen der modernen Hygieine und Prophylaxis in so radikaler Weise genügen soll, wie dies wohl in keinem anderen Kurort der Welt der Fall ist.

Aargau. Der bei dem Eisenbahnunglück im Bahnhof Aarau (Anfangs Juni v. J.) zu Schaden gekommene Fürsprech Stierlin in Aarau ist von der Nordostbahngesellschaft im Wege gütlicher Abmachung mit 68,000 Francs entschädigt worden. Die Gesellschaft trägt außerdem die Medizinal- und Kurkosten. Der gegen den Lokomotivführer des verunglückten Schnellzuges erhobene Strafprozeß ist noch in Schwebe.

Waadt. Die Ingenieure Tschoop und Steiger aus Bern wurden bei einer Tour auf den Rocher de Naye bei Territet von einer Lawine überrascht. Steiger konnte sich herausarbeiten, Tschoop wurde als Leiche hervorgegraben.

"I had eaten a hearty supper and went right to bed about 7 o'clock, as my habit is since I had the palsy stroke last spring. I took a pain in the pit of my stomach. I then got up and took some mustard and water. It did me no good. I got worse. My granddaughter had gone out and so had my wife. I a young lad, so I was alone and no neighbors near. I thought I was going to die alone. I prayed to the Lord not to let me die alone. I kept getting worse, and about 10 o'clock Willie came in and I told him I was dying. Then I asked him to go to the drug store and get some Ripans Tabules. I gave him five cents and bade him go quickly. He was not gone long. He had to give 10 cents for them, as the drug store didn't have the 5-cent kind. But I said, 'All right, give me one.' I soon had it down. It was there but a few minutes before I got relief. Up came the wind. I said to Willie, 'Give me another one.' You don't know how nice it felt. I fell asleep and never woke until five o'clock the next morning. My age is eighty-four last June 22, and I live in Beverly, N. J."

WANTED—A case of bad health that R-I-P-A-N-S will not benefit. They banish pain and prolong life. One gives relief. Note the word R-I-P-A-N-S on the package and accept no substitute. R-I-P-A-N-S, 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

HOUSEHOLD MAGAZINE

ARISTOCRATIC DOGS.

New York Society Women Exhibited Canine Pets Which Are Worth Their Weight in Gold.

To be literally worth one's weight in gold is an ambition laudable enough—even for a dog. An estimate of the dogs in this world having such a value places the figures at one eight-thousandth of one per cent. So it can readily be seen that only the tip-toppers of dogdom are eligible to such honors. With gold quoted at something like $16 an ounce, it is obvious that none but the little fellows of the canine world can be included in such a classification. At the recent show of the American Pet Dog club a number of diminutive animals that were valued at their weight in gold were exhibited. They included toy terriers, Japanese spaniels, a Yorkshire terrier, a King Charles spaniel, toy Pomeranians and a Chihuahua (Mexican long-haired) dog.

Mrs. Frederick Senn, of No. 278 West Eleventh street, New York city, exhibited her Japanese spaniel Senn-Senn, by Kobie, dam Nasan, a strikingly beautiful little creature, very finely marked, which weighs but four pounds and is valued at $2,000. The same exhibitor showed Gem, a toy Yorkshire, sired by Blackburn Major, dam Floss, weight three and a quarter pounds, value $1,500, and Perseverance, a handsome King Charles Spaniel, by Champion Defender Princess Anne, weighing only three and a half pounds and valued at $1,800. Another precious

MRS. SENN'S TOY YORKSHIRE "GEM."

bit of flesh and blood shown by Mrs. Senn was Ali-Baba; a heavy-coated and short-eared Pomeranian, two years old, by Ali, dam Annie. This dog weighs four pounds and is valued at $1,200.

Ashton Premier, a three-and-a-half pound Yorkshire terrier with a strikingly long coat, was an admired exhibit, with a value of $1,000.

The long-haired Chihuahua (Mexican) dog Fonso, shown by Mrs. James Noyes, weighs but three pounds and is valued by its owner at $1,600. This species of dog is very rare, and Mrs. Noyes' exhibit attracted a great deal of attention. Fonso is pure lemon and white in color (that has a great deal to do with his value), is two years old and was sired by Bromo, dam Oulita.

Nubian Rebel and Haughty Brownie, toy Pomeranians, exhibited by Mrs. Smyth, of Germantown, Pa., weigh five pounds each and are valued at $2,400 apiece.

A 14-ounce toy black and tan puppy owned by Mr. W. W. Fuller, of No. 111 Fifth avenue, was valued at $300. Trixie, a toy black and tan terrier, the property of Mr. Jefferson Seligman, weighed a pound and a half, and its owner places a value of $1,000 on it.

Mrs. Winifred Harrison exhibited Chesi, a two-and-a-half-pound Japanese spaniel, valued at $1,100, and Snowball, a three-pound toy terrier, which she values at $1,300.—N. Y. Herald.

A Startling New Theory.

Again attention is called to those essentially feminine habits of putting pins in the mouth or moistening a pencil with the lips. A pin swallowed means only a surgical case, but the greater danger lies in the contagion that may be lurking in the pin itself. Under the head of the pin, or in the point of the pencil all kinds of malignant germs may be located, which will be transmitted by the mouth quicker than any other way. It hardly seems possible that anyone needs to be cautioned against holding money between their lips, yet a person can scarcely go a block on a street car without noticing some one indulging in the dangerous habit.

Queen Wilhelmina's Sayings.

Some of the anecdotes told of Queen Wilhelmina, the young queen of the Netherlands, are interesting. One day the little queen was busily occupied in bringing up her dolls in the way they should go. One of them, however, was particularly obstinate, and the queen was seen to shake it violently, and say: "Look here, if you don't behave yourself I'll make you a queen, and then you'll have no one to play with." When on a visit to England, and asked by the prince of Wales what she thought of the English people, she replied: "They are very nice and amiable, but I should never have thought it from the specimens I have seen in Holland."

THE SERVANT PROBLEM.

This Woman Would Solve It by Providing Pleasant Quarters Outside of the Kitchen.

"Where do I think charity and philanthropy ought to begin?" repeated the woman who was pouring the tea. "Why, with one's servants. Servants' sitting-rooms; there you have the key to the whole servant problem. I mean that next in necessity to your own drawing-room and the kitchen itself come rooms where your servants may receive their friends.

"A friend of mine—a woman of ideas as well as means—has fitted up a room on the second floor, a pretty room at the side of the house, and given it to the servants in which to receive their friends. It is not merely carpeted and furnished with six chairs. It was made artistic at a very moderate cost. A breadth of matting was run around the wall just above a couch covered with red denim. The walls were denim-covered and hung with a good carbon copy or two. The floor was stained and laid with cheap, effective rugs—one of them being made of coarse canvas, fringed at the ends, lined with the same and marked with a paint brush with blotches of old blue and dull red. Pillows were placed on the couches; here and there were stained pine shelves for books, finished at the top with ordinary picture molding. White dimity curtains were at the windows, and a bit of pottery stood on a shelf above the door. The room was arranged at an expense which was hardly to be mentioned, and it was very artistic and comfortable.

"In this room the servants took turns, arranging their evenings to suit themselves. They might entertain your milkman, the green grocer's boy or an honest young laborer—that was their lookout. The guests came up the back stairway, and the room was theirs.

"After a time there may begin to be a difference in the sort of callers who come. Well-appearing, well-trained servants, disciplined to soft voices and silent feet, are not likely to have very objectionable friends. But if they do, refined surroundings will help point out their objectionableness sooner than anything else. Make your home attractive to your servants and they will put up with anything rather than leave you."—N. Y. Commercial Advertiser.

TREE TRUNK SPIRE.

St. Peter's Church, at Tacoma, Wash., Is a Quaint and Simple House of Worship.

Christmas bells rang at Tacoma, Wash., from a peculiar church spire. It is a Douglas fir tree stump. The church, a small, primitive structure, was built in the midst of a rough lumber camp in the seventies by the side of the tree, so that the latter might be used for a steeple. Bishop Morris, who is still bishop of Oregon, built it.

The church was built in less than a week, but the steeple had been growing

ST. PETER'S CHURCH, TACOMA.

for over 500 years. The stump is over seven feet in diameter at the height of the fence. On its top is the church bell, surmounted by a little roof and cross. The belfry is reached by a curious ladder formed by slats on a board leaning from the roof to the tree trunk.

Over the tree grows a beautiful English ivy. This ivy has found its way into the church through a crack in the simple chapel. There it grows, a beautiful decoration for the interior of the house. It is green even at this season.

The bell was given by the Sunday school of old St. Peter's church, of Philadelphia, and the church is known as St. Peter's Episcopal church. Mr. Cheal is the rector.

Perfumed Nightcaps.

Some fastidious women have nightcaps made of white wash lace with a circular sachet pad fastened in the crown. The caps are coquettish and pretty, the lace mesh allows free access of air and the sachet imparts a faint but distinct fragrance to the hair.

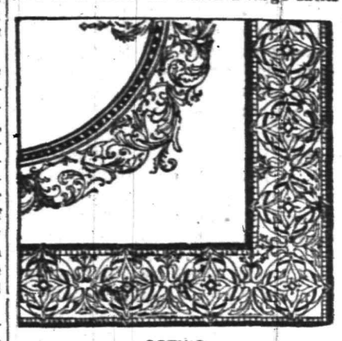
FASHIONS IN TABLE LINEN

WHAT IS SEEN AT THE SPECIAL SALES IN GOTHAM SHOPS — SOME CHICAGO DESIGNS.

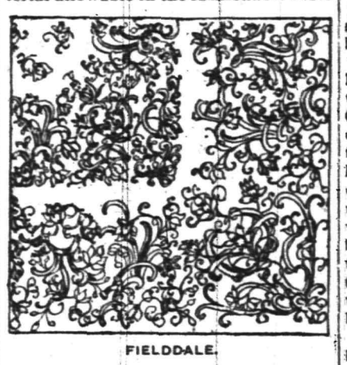
SPECIAL sales and exhibitions of the latest novelties in table linens are the feature of the season in the shops. These table linen sales have become a feature of the after holiday shopping season, and the merchants make an effort to display the latest and best of the linen novelties for the benefit of prospective customers.

The thrifty housewife, whether she buys or not, takes keen delight in visiting the shops and examining the displays of pretty things for the tables, while the society matron watches closely these sales for an opportunity to secure something that will prove an attraction for the extravagant dinner parties that form such a large part of the society season. Everything new and exclusive in table cloths, in lunch cloths, and in fact every form of table decoration is eagerly searched for and quickly purchased when found.

Double satin damask is the one material allowable in the fashionable table



GOTHIC.



FIELDDALE.

linen, and in this nothing but the very best of flax is used.

One of the most unique and effective designs that I have seen at any of these sales and exhibitions was a lovely double damask table cloth in which the design represents the four seasons of the year. The designs are in the form of panels, with quaint groups of children, and other figures and flowers, and fruit in artistic design. This cloth had a handsome Grecian border all around of a decidedly original design. It is needless to say that this was an expensive cloth, and as it was also an exclusive one it was quickly sold to one of the wealthiest women of New York.

One of the best displays of table linen that I have seen was that displayed by a Chicago house which manufactures its own designs abroad and imports them. Many of them are exclusive, and had they been offered to the New York public would no doubt have met with a ready sale. As it was, I was but one of a few who were permitted to see and admire them while in New York.

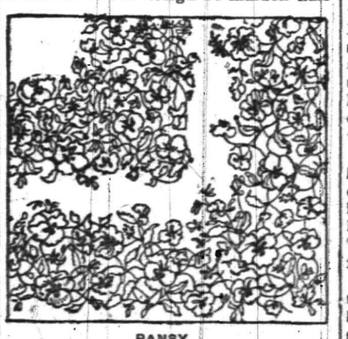
Among the designs shown by this house were the Renaissance, Morning

AMERICAN BEAUTY ROSE.

Glory, Summer Garlands, Tulips, Rose and Shell, Poppy, New Carnation, Chrysanthemum and Ribbons, Fielddale, Pansy, American Beauty rose, Royal Roses, First Empire (round center), Scroll (round center), Gothic (round center), and many others.

Aside from these displayed by the Chicago firm, several of which are illustrated in this letter, there was one seen in a prominent New York shop of a double satin damask with a design of baskets of roses with a deep border of duchess lace. These lace borders, and especially for round tables, are used on the most elaborate linen. For them the duchess lace and Battenberg work is most popular, and the effect when properly displayed is very pleasing.

Another beautiful cloth with napkins to match had a design of maiden hair



PANSY.

ferns and tulips. This set had a wide hemstitched border with the tulips and ferns embroidered on each corner and extending up on the table. In this, as in practically all fashionable table linen, the embroidery was in pure white. One of the features of the season's table linen is the absence of colors of all kinds. To be fashionably correct, embroidery where it is used at all must be in white.

A novelty that is by no means exclusive is a cloth in which a large satin stripe runs straight across, and which has a beautiful Grecian border.

In afternoon tea cloths the particular feature is the drawn thread work, of which it is impossible to get too much. Others have flowers strewn carelessly over them with a deep border of Battenberg or duchess lace, while others have but a cluster of flowers at each corner. One that was exceptionally unique had a deep border of drawn work with ever so often a most natural butterfly with outspread wings. But these butterfly and similar designs are the exceptions rather than the rule in the season's table linen, and are not to be found on the ultra fashionable table.

Doylies for centerpieces are shown in an infinite number of designs, but always in white. Larger ones are often used for luncheon cloths on handsomely polished dining tables. They are

THE FOUR SEASONS.

both embroidered and hemstitched, and some have initials embroidered in one corner, but this is the exception rather than the rule, as the fad for initials has about had its run. Some of them have medalion centers in a large variety that are mostly new and attractive, and the shamrock design, that is familiar to all, is considered fashionable just now.

Other features of the display of table linen are tray cloths, scarfs and sideboard covers that are lovely in linen and lace.

But throughout the entire display is the demand for the best material and the classic in design. For that reason the renaissance, spachtel and novelty embroidered styles have been in greatest demand among the New York shoppers during the past week.

Aside from the table linens that one sees at these January sales there are many pretty things that add to woman's adornment displayed on small tables, and offered at attractive prices. In the hosiery department of one of the stores I saw the loveliest black silk stockings with real lace fronts, and the saleswoman assured me that they were having a remarkable sale, and were quite the correct thing, which no doubt they are—for summer wear.

POPPY.

At another place I saw some charming white cotton shirt waists that were elaborately trimmed with lightly fashioned lace, and sold at a remarkably low price considering their beauty. These are also quite the correct thing—for summer wear.

But to mention all of these novelties that are destined for a later season, but which are being offered as side issues at the January sales, would be impossible. There are new lines in sheer applique muslins for separate waists, dainty dimities, Swiss and corded muslins, cotton mousselines and piques, and, in fact, many of the cheaper fabrics that promise to be popular during the coming summer.

SARAH DAVIDSON.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Feb. 4—Comment by Rev. S. H. Doyle.

Topic.—Things that endure.—Math. vii, 21-22. (Christian Endeavor day.)

Christian Endeavor is now 19 years of age. It has stood the test of almost a quarter of a century and is still strong and powerful and possesses the characteristics of things that endure. According to the lessons of the topical reference, Christ's closing words in the sermon on the mount, the things that endure possess several characteristics: 1. They must be divinely inspired, being "the will of the Father." 2. They must be founded upon divine principles, upon the rock Christ Jesus. 3. Their purpose must be divine. They must be done unto Christ.

Nineteen years of Christian Endeavor have proved that it possesses these characteristics of endurance.

1. Christian Endeavor was divinely inspired. It is the will of the Father. The providential factor in Christian Endeavor was long emphasized, and it should not be forgotten today. Its rapid growth, its wonderful adaptability to all denominations and to all countries, its marvelous work, all pointed to the fact that it was a movement inspired of God. This is still our belief. And, if divinely inspired, we may believe that it will endure, because it was inspired to meet a need that is ever present in the church.

2. Christian Endeavor is founded upon Divine principles. The Christian Endeavor constitution, the pledge, the consecration service, the committee work, are directly founded upon the word of God, which is not to pass away. It possesses this essential of endurance, and that it may endure these principles need more than ever today to be emphasized. The pledge, the consecration service, the committee work, all need to be revived. A new generation of young people has arisen who need to know about them, and many who once knew seem to have forgotten. Let us have a revival in Christian Endeavor, a revival of its fundamental principles, which are founded upon God's eternal word, and we will add much to the endurance of the movement.

3. The work of Christian Endeavor is divinely purposed. It is "for Christ and the church." Christ may say to Christian Endeavorers, "Ye did it unto Me," and therefore not only will the movement endure, but the work that it does will find an eternal endurance in the life beyond this world. May this anniversary day become an inspiration to Endeavorers everywhere, and may Christian Endeavor receive a baptism from on high that will give it new confidence in and new zeal for the future.

THE PRAYER MEETING.

If possible, use the United Society's special programme for C. E. day. If not, arrange a special programme, with addresses or papers on these subjects:

1. "The Past of Christian Endeavor."
2. "The Present of Christian Endeavor."
3. "The Future of Christian Endeavor."

Bible Readings.—Ps. ix, 7; lxxii, 17; xc, 1; civ, 31; cxxi, 1-8; Dan. xii, 3; Math. xxiv, 35; Luke vi, 47-49; I Cor. xv, 58; Gal. vi, 9; Jas. i, 9-12; I Pet. i, 3-5, 25; I John iii, 15-17; Rev. ii, 7.

A Church Upside Down.

"At Clapham, in England, there is a bell which bears an inscription, 'God save the Church.' But through some blunder the word 'church' is upside down. The blunder is, unfortunately, suggestive as to the real state of affairs in many churches. But the Lord is a lover of order, and the thing to do is not alone to pray, 'God save the church,' but also to entreat that God will save it from being upside down."

Perhaps the reader has seen some such churches—he may belong to one for that matter. An "upside down" church may be described as follows: It has a membership that belongs to business, pleasure and the like rather than to the Lord. It has a lot of empty seats, a lot of unpaid dues on its record books, a lot of members fighting with each other, a lot of societies for the running of entertainments and for the prevention of duty to the church. It has a Sunday school that belongs to some individual rather than to the congregation, a church council that looks to the pastor for the transaction of its business and an organist and choir that are interested more in performances than in worship. Is your church one of that kind?—New York Observer.

Religion In Japan.

The religious condition of Japan is something remarkable if an examination of three schools is any indication. Of the 400 students examined, 282 claimed to be agnostics, 60 atheists, 15 Buddhists, 4 Christians, and only one was an adherent of Shintoism. Japan's objection to being called a heathen nation would, according to this, seem to be well founded. In a catalogue of religions it is difficult to say where Japan should be placed, but this examination may serve to show some of the difficulties which Christian missionary laborers in that country will be called upon to meet.—Exchange.

Four Good Thoughts.

Though humanity proves false, God will still be true.

It is hard work making an auger hole with a gimlet.

True principles are as enduring as the throne of God.

The man who walks with God never has to hunt his own road.—Ram's Horn.

Open Doors.

There were never so many open doors to Christianity as now. The young people of today must put the enterprise, enthusiasm, energy, devotion of this aggressive business age into their religion and into their church work and life.—Presbyterian.

EPWORTH LEAGUE.

Topic For the Week Beginning Feb. 4, "Things That Endure." Text, Math. vii, 21-27.

"It fell not, for it was founded upon a rock."

It does not take long for even a child to learn the difference between rock and sand foundations. Playhouses in the sand are ruined after a heavy shower, and a few repetitions of the experience are enough to teach the most ignorant to look for a better place.

It is equally plain to those who are teachable that "no lie prospers," yet men keep on trying to make great schemes stand on the quicksands of falsity. Collapse is inevitable. Happiness is with great skill built upon impurity and lust, with the false hope that it will endure. No cyclone is needed to demolish the structure. It crumbles into shapeless and irretrievable ruin by its own weight. The foundation gives out from under.

When Sir Christopher Wren was called upon to rebuild St. Paul's cathedral, London, he planned to place the new building on slightly different lines from the old one. All went well till they came to lay the foundations for the northeast corner. The hard brick earth on which the rest of the building rested had at some time previous been removed from here. He lacked only six feet to complete his design. Some counseled him to drive piles through the sand and gravel to the hard earth below. He knew better than to risk his building so. He made a crib of plank 18 feet square and dug till he struck the hard beach of the Thames at low water mark, 40 feet below surface, bored the beach till he came to original clay, then built a pier of solid masonry ten feet square almost to the surface and turned an arch from it to the original wall of the old church, and on this the northeast corner of St. Paul's rests secure.

You cannot always do as the fathers did in bygone years, but when you get off the old lines be sure your building bottoms on original clay or rock below all shifting sand or gravel.

Put It Down.

John Wesley kept a strict cash account until the very last months of his life and gave it up at last only when failing eyesight and strength compelled him, writing then as his last entry, "I am convinced I save all I can and give all I can."

It is surprising when a person begins to keep careful account of all expenditures how much more cash goes for "incidentals" and little things than was suspected. It is as surprising to most people, also, how small the "benevolent account" looks on paper compared with what it was thought to be before it was watched.

One of the principal advantages in keeping the account of gifts to the church and to the various charitable causes is found in the increased interest aroused in ourselves in them and the pleasure with which we respond to a sudden call for aid when we have a special fund to draw on instead of having to draw from the ordinary purse from which we pay for most things.

One of the most enjoyable things possible is for a person receiving wages or any income to regularly lay aside a definite sum to be used only in God's work and then invest it to the best advantage for Him.

The Parables In Art.

The artists of ancient and modern times have done much to make the Bible teachings plain and striking. Epworth Leaguers should study pictures. Never before were the world's treasures of art so accessible as now. Reproductions of excellent quality are now to be had at prices remarkable for cheapness. Have an evening with pictures of the parables of Christ. Explain the artistic meaning. Point out the excellencies and eccentricities of the picture. Get at the hidden meaning of the lesson and draw out its application.

This year we are to spend in this great picture gallery of the New Testament, the parables of Jesus. All the Endeavor, League and Baptist union societies have the same topics. Never before was there such united study of this part of the Holy Scriptures. Photographic illustrations of Bible lands have become common and have done much to give accurate and adequate ideas of the scenes of Scripture history. Here lies a new opportunity to become familiar with the Christian artists who have labored side by side with Christian writers and preachers to spread gospel truth.

Plans For the Winter.

The long evenings will soon be here. The young people of city and country will want to meet together. This will be an eventful season in many lives. Attachments will be formed which will hold much of happiness or misery in store. The time can be worse than wasted or can be made to yield richest treasure. There are in every place young people who can be easily influenced. One good leader can gather a company and direct their thought and efforts any way he chooses. If you have any wish to help yourselves and others, call in those of like mind and lay plans at once. Select some line of work and lay out a course for the winter. Take the story of our own land and let the different members look up the chapters from pilgrim fathers to the Phillipine campaign or spend awhile in searching the things of early Methodism. Put in a little science on the line of electrical development and art, studying the work of the great painters, sculptors and architects. The popular magazines and photographs will help much. Spend an evening on the Siberian railroad, one on China or Japan. Such plans will hold interest and be of some value.

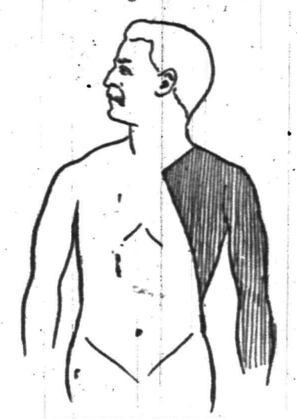
SURGICAL TRIUMPHS.

Alfred E. Taylor Deprived of a Big Share of His Body.

Yet He Lives, and Is Growing Stronger Every Day—Structure of Human Nerve Cells—New Disinfecting Methods.

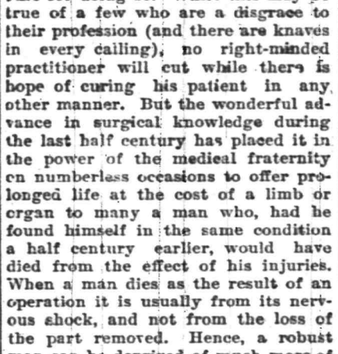
[Special Correspondence.]

A GREAT hue and cry is so frequently raised over what is called the increasing propensity of surgeons to experiment upon their patients that to many of the uninitiated, whose nerves have been wrought upon by tales of doings in the operating rooms, the word hospital means only a collection of apartments each of which, in itself, constitutes an individual chamber of horrors. This idea gives rise to an impression much more prevalent than it ought to be that doctors will use the knife whenever they can find an excuse for doing so. While this may be true of a few who are a disgrace to their profession (and there are knaves in every calling), no right-minded practitioner will cut while there is hope of curing his patient in any other manner. But the wonderful advance in surgical knowledge during the last half century has placed it in the power of the medical fraternity on numberless occasions to offer prolonged life at the cost of a limb or organ to many a man who, had he found himself in the same condition a half century earlier, would have died from the effect of his injuries. When a man dies as the result of an operation it is usually from its nervous shock, and not from the loss of the part removed. Hence, a robust man can be deprived of much more of his body and still retain life than a neurasthenic.



ALFRED E. TAYLOR.
(Diagram Showing Parts of Body Removed—Arm, Clavicle and Scapula.)

Where portions of the brain are taken away, the general health is seldom injured, although it is impossible to remove any great amount of gray matter without impairing the mental vigor. As arms and legs are a matter of convenience only, and not a vital necessity, a person often survives the loss of all these useful members. In many cases the removal of one limb causes a patient to fatten, as there is less for the vital organs to nourish. People have lived after being deprived of tongue, nose, ears, spleen, ribs, one kidney, one lung or a portion of the liver. Just how much of his body a man could lose and still exist has not been proved. It would depend largely on his vitality. But the aim of surgeons is not to see how much they can dissect away, but how much they can preserve. One of the most brilliant triumphs of modern surgery was an operation recently performed on Alfred E. Taylor, at the Pennsylvania hospital. Although no vital organs were involved, a large section of the



HUMAN NERVE CELLS.
(Ends of Ramifications, from Micro-Photograph Enlarged 460 Centimeters.)

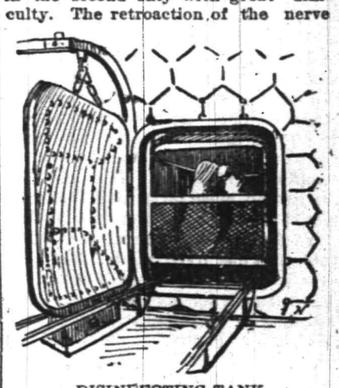
body was cut away and the recovery has been so rapid that the man is now performing the duties of orderly at the hospital. He is 50 years old. After serving 17 years in the British navy and in merchant service he began driving wagons and had often to carry heavy weights on his shoulders. Thre and a half years ago a heavy box resting on his left shoulder caused severe pain. An examination showed a bluish lump on the upper edge of the scapula. In six months this had gained the size of a hen's egg. The tumor was cut away, but immediately returned, when it was again excised, only to grow once more. He continued his work, though in constant pain, until at last he determined upon an operation which the surgeons assured him only offered about one chance in one hundred for recovery. His arm, shoulder and a portion of his side were taken away.

An incision was made, beginning on the end of the shoulder blade, carried along to its center and curved downward. The covering of the scapula was removed. The bone between shoulder and ribs was taken out and its attachment to the first rib divided and the muscles stripped off. The arm was raised to return as much as possible of the blood to the heart and the veins ligated. The knife was then inserted at the outer edge of the scapulae and the remainder of the operation was comparatively easy. The following morning the patient ate his breakfast with relish and in a week was found in the yard smoking his pipe. The shoulder of his coat has been padded and except for an empty sleeve he presents the outward appearance of a man in a normal condition.

The importance of our nervous system to our entirety causes a great deal of study and investigation to be expended on the structure of our nerve-cells, which have special forms in each organ. Not only are these minute elements polygonal masses with prolongations at the angles, as was known a few years ago, but they are complicated in many ways. In each cell are distributed bundles of fibers forming a network between the meshes of which chromatin is packed. From each cell in all directions extend prolongations resembling slender rootlets. The surface of these is roughened by thorny protuberances. Scientists now believe that the prolongations approach each other, but are not continuous; that they possess contiguity, but not continuity. From one to another the nervous fluid passes as an electric current flows from one conductor to another.

This theory explains many physiological facts and many phenomena of nervous diseases. In a feeble, neurasthenic individual, deficient in force and courage, the cellular prolongations lack proper ramifications or are without the thorny excrescences which give requisite contact. The cells do their work slowly, the nervous fluid passes with difficulty or there is an excess of chromatin, which explains a morbid condition. There is no contact between the cells in a paralytic and if it can be renewed a cure is effected. In the case of nervous, excitable, irritable people, the ramifications are too much elongated, the nervous fluid flows too rapidly.

When an active animal is killed, microscopic examination shows the most intimate contact between the cellular prolongations. But if the animal is killed during sleep the prolongations are withdrawn and the thorny excrescences have disappeared. In the first instance the nerve-current could pass with ease from one cell to another, in the second only with great difficulty. The retroaction of the nerve



DISINFECTING TANK.
(Fumigating Clothes on Quarantine Steamer James W. Wadsworth.)

cells is even more noticeable when the animal is greatly fatigued.

One result of the study of the nature and causes of infectious diseases and the discovery of new and effective disinfecting agents has set at rest the minds of many who have been fearing an epidemic of yellow fever, plague and their kindred. Philadelphia will soon launch a new disinfecting steamer equipped with a hospital of 18 beds and a corps of physicians and nurses, so that sick people taken from infected vessels may be treated on board when necessary. In New York an old steamer, the James W. Wadsworth, is used. It carries a complete sterilizing plant. All ships arriving in port are boarded by a health officer. If one has sailed from an infected port, or if her passengers or crew have any contagious disease, she is at once isolated in quarantine.

The Wadsworth steams alongside and receives all on board the newly-arrived vessel. In the disrobing room each person's clothing is made into a separate bundle for which a check is given. These bundles are soon sterilized by action of superheated steam in steel chambers in a central compartment of the boat. Bedding is thrown down here through a hatchway. An iron cradle is drawn out of one of the heated chambers, loaded with clothing and moved back into place. Steam is turned on at 240 degrees Fahrenheit. All articles liable to damage by steam are disinfected by formaldehyde gas which, while dealing death to germs, does not injure fabrics. The passengers have, meantime, passed into antiseptic bathrooms enameled in porcelain, each in complete exclusion. Passing thence, they receive their clothing and are sent to Hoffman Island, where they remain several days. All the loose articles of the infected ship are sterilized on board the Wadsworth. A formaldehyde gas generator is then carried on board and the saloons, staterooms and hold, with the hatchways battered down, are forced full of this most powerful disinfectant. After six or eight hours the ship is opened to allow the fumes to escape. The decks and woodwork are then washed with a solution of bichlorate of mercury. All this work is done by trained experts. A bacteriological examination is next made and if a trace of disease germ life is found the process is repeated.

EDWARD JULIAN.

Possible Explanation.

"I believe," said the fond mother, "that George is in love."

"It may be so," returned the practical father, "and then again it may be nothing but a case of indigestion. A man looks just about as doleful in one case as in the other."—Chicago Post.

REMOVED!!

We beg to inform our customers in the vicinity of Plainfield that we have removed our Plainfield branch from 133 East Front St. to

Madison Ave., Cor. Central R. R.

We will be pleased to see them and their friends at the new address, and as we have much better facilities than heretofore, we hope to be able to serve them to even better advantage.

In comparing prices it should be borne in mind that OUR GRAIN IS ALL RECLEANED and OUR FEEDS are ALL MADE ON THE PREMISES and ARE KNOWN TO BE PURE.

Mixed Oats	74c per bag	Middlings	95c per 100

The above prices are for spot cash at our stores. If delivered add according to quantity as follows:

25 bags or over	2c per bag
5 bags or over	5c per bag
Less than 5 bags	10c per bag

THE PAUL T. NORTON CO.,

Elizabeth, Elizabethport, Red Bank, Plainfield, Somerville.

DROPPED DEAD.

Phillip Radin's End Came as He Started to Walk From the House to the Barn.

(Special to The Daily Press.)

Scotch Plains, February 2.—Phillip Radin, aged 51 years, one of the best known citizens of this place, died suddenly this morning at his home of heart trouble. He awoke at the usual time and after dressing he started to leave the house to go to the barn to look after his horse. He reached the rear stoop, when he fell and before he could be taken in the house he died. Mr. Radin was born at this place, where he has lived all his life. He was a carpter by trade, but had not worked at it for some time past. He leaves two daughters, Mrs. George Weber, of Plainfield; Mrs. Harry Pangborn, of this place; also a son, John Radin, who lives here. Two brothers survive him, James Radin, of Plainfield, and Samuel Radin, of this place. The funeral will be held from the house next Monday afternoon at 2 o'clock.

THE FIFTH ONE.

Woman Said to Come From This City is the Wife of Man Who Was Married Four Times Before.

From Greenwich, Conn., comes the report of the marriage of a Mrs. Phoebe Osborn, said to be of this city, and Archibald Campbell, of Brooklyn, who was the founder of the Society for the Prevention of Cruelty to Animals, and who was for more than a quarter of a century its superintendent. This is Mr. Campbell's fifth wife and he has known her since childhood, he being 74 years of age, and she 55 years of age. The account of the marriage states that Mr. Campbell married the woman, who as a child he admired for her beauty and trotted upon his knee. She was formerly a Miss Phoebe Carpenter and lived at Glen Cove, L. I., and Mr. Campbell being a distant relative, often called at the house. The newly-wedded couple have taken up their residence in Brooklyn. A diligent search has failed to disclose the identity of the bride in this city or borough, as no one seems to know who she is.

Euchre Club Entertained.

The Thursday Night Euchre Club was entertained last evening at the home of Miss Ella Titsworth, of West Sixth street. The prizes at euchre were won by Miss Grace Teller and Charles Hazeltine. The club will be entertained in two weeks by Miss Mary A. Luckey, of Lafayette place.

MOURNING FOR QUEEN.

Elaborate Arrangements Being Made for the Funeral of the Gypsy Woman.

(Special to The Daily Press.)

Elizabeth, Feb. 2—Preparations for the funeral of the dead gypsy queen are being made with much elaboration and care. It is expected that hundreds from all parts of the United States will be among the mourners. Telegrams and cable messages have been sent to all parts of the world where gypsies are encamped, informing them of the news.

Many of the jewels and trinkets of the dead queen will be buried with her, and much weird ceremony will take place tonight. The funeral will be at 2:30 o'clock p. m., tomorrow.

Rev. E. B. Cobb, pastor of the Second Presbyterian church, of Elizabeth, will officiate, and the body will be interred in a pretty plot in Evergreen cemetery, wherein rests her husband, Robert, who died only two years ago.

A brick vault has been built in the plot. It will be covered with a marble slab. The ceremonies at the grave will be simple. Only the burial service will be read and a prayer offered.

A son, Edward, 57 years old, falls heir to the queen's wealth, which is large. She possessed much property in Brooklyn and Long Island. Her successor has not been decided upon yet, but will be a few days after the funeral.

Double Hanging in Jersey City.

All efforts to save the life of Edward W. Clifford, the murderer of William G. Watson, superintendent of the West Shore Railroad, have been abandoned and he will die on the gallows in Jersey City next Friday. The last move in Clifford's behalf was made yesterday when Counsellor Warren Dixon applied to Justice Lippincott for a writ of certierari in the insanity proceedings. The application was denied. James K. Brown, who killed a Hoboken policeman, is also to be hanged next Friday.

Contributors Thanked.

At the monthly meeting of the Children's Home Board held yesterday it was unanimously voted that cordial thanks would be offered to all the friends who so generously contributed money for the purchase from Mr. Hyde of a playground for the children.

—Preparatory service will be held at Warren chapel this evening at 8 o'clock. The celebration of the Lord's Supper will be observed Sunday morning at 10:30 o'clock.

—This evening preparatory services will be held at the First Baptist church, and the communion service will be held next Sunday morning, at which time several persons will be received into full members.

Albert Calloway defeated a crack trap shooter, from Rahway, in a private match shot at Campbell's road house Tuesday afternoon. The match was at twenty-five birds each and for $30 a side.

—It is bad economy to buy poor meat. Fred Endress, the popular butcher, says compare his prices and you will find his goods are the best in quality and lowest in prices.

—Messrs. Neuman Brothers wish to announce that they receive all the genuine Rockdale print butter disposed of in this city, and are the only receivers. They are never out. You can always find it at their store, 501-503 Watchung avenue.

JERSEY CONGRESSMEN.

Postoffice Matters Promoted by Their Personal Endeavors—Somerville to Have Free Delivery.

(Special to The Daily Press.)

Washington, Feb. 2.—Representative Stewart will recommend the appointment of Mrs. Martha Moe as postmistress at Moe, Passaic county.

W. A. Britton, postmaster at Perrineville, has resigned, and upon the recommendation of Representative Howell, J. W. Horner has been appointed to fill the vacancy.

Representative Howell has secured the postoffice department's consent for the establishment of the free delivery system at Somerville on May 1st next. Meantime a civil service examination will be held.

Mr. Howell has had another conference with the treasury department officials with reference to the New Brunswick property offered for the site of the proposed postoffice building, and has been informed that a statutory provision prevents the Government from assuming the expenses of searches of title, and it would be necessary for the property owners to have the searches made at their own expense. It now remains to be seen whether the property owners at New Brunswick will display sufficient public spirit to prevent the project from falling through.

Representative Howell has been advised by the Pension Bureau that the pension of J. Ritchie, of Neshanic Station, has been increased to $8, dating from December 8th, 1897 and that an original pension had been granted to Robert Brunt, of Somerville, of $8 a month, dating from August 24th, 1898.

ELMER RUNYON'S SUIT.

The Case That Resulted From the Pony Express War Still in Court.

The suit of Elmer Runyon, of the Elizabeth Nursery Company, against the Central Railroad Company, is again being heard in court. Runyon sued for damages for being refused aboard a train by the railroad detectives who were warring against the pony expressman. Runyon had a package of merchandise, and the detectives suspected he was aiding one of the expressmen. There have been two trials with verdicts for Runyon, but these were subsequently reversed by the higher court. The question now to be determined is the custom of the railroad company in permitting passengers to carry bundles other than 100 pounds of wearing apparel.

The plaintiff is represented by McCarter, Williamson & McCarter, and the defendant corporation by Frank Bergen and W. H. Corbin.

Nasal CATARRH

In all its stages there should be cleanliness.

Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents by mail.

ELY BROTHERS, 56 Warren Street, New York.

NOTICE TO ABSENT DEFENDANTS.

IN CHANCERY OF NEW JERSEY.

To George W. Taylor and Elizabeth Taylor:

By virtue of an order of the Court of Chancery of New Jersey, made on the day of the date hereof, in a cause wherein The Board of Trustees of the Seventh-Day Baptist Memorial Fund are complainants, and you are defendants, you are required to appear, plead, answer, or demur to the bill of said complainants, on or before the second day of April next, or the said bill will be taken as confessed against you.

The said bill is filed, to forclose a mortgage given by you, the said George W. Taylor, to Clark Rogers, dated April 1, 1873, on lands in the city of Plainfield, and you the said George W. Taylor are made defendant because you own said lands, and you the said Elizabeth A. Taylor are made a defendant because you are the wife of said George W. Taylor and entitled to an inchoate right of dower in said lands and premises by virtue thereof.

Purchased Five Hundred Men's Suits and Overcoats.

We secured for ready cash the finest lot of clothing that we ever handled in this town before, made by the Union Clothing Co., of Rochester, N. Y. Each and every garment bears the union label which is in itself a guarantee of first-class workmanship and latest style, but owing to the lateness of the season we have purchased this lot of goods for less than we ever dreamt of buying them at, and as we buy so we sell. An opportunity that you will not have again this winter to dress yourself up with a suit and an overcoat for almost the price of a single garment. Here are the prices that will talk for themselves:

Lot No. 1—
50 Men's Suits; they are made of very stylish, fancy cheviots, also in blue and black worsted cheviots, good and heavy and up-to-date in style, originally made to sell at $10.00, will be offered at this sale at..... 4.50

Lot No. 2—75 Suits of all-wool worsteds, cassimeres and Scotch cheviots, very stylishly made, suits that sold early in the winter from 12.00 to 13.00, to go at this sale at $5.75. Remember the above lots of goods are new, being just received.

Lot No. 3—68 Men's Suits of the finest grade, the new style Oxford mixed and also strictly all-wool worsted stripes made up with the latest style vests, we have them in stout as well as in regular sizes, the wholesale prices of these suits were from 15.00 to 20.00, we will sell what we have left of them at $7.50, this is positively the best value we have ever offered.

Lot No. 4—73 Men's Overcoats, black or blue meltons and Oxford mixed friezes, this is really an exceptional fine lot of overcoats, if we would have had them earlier in the season we would have retailed them from 10.00 to 12.00, to go at this sale your choice at..... 5.00

Lot No. 5—45 of very fine dress up strictly up-to-date overcoats, lined either with satin or worsted clays, also received in this present lot of clothing, worth from 12.00 to 15.00, to be sold now at 6.75.

This is only a part of the great number of bargains we will offer this Saturday, be on hand sure as this will be a "Crack-a-Jack" sale.
The stock must go in order to have room for our great Spring Stock of clothing, which we expect soon.

ESTABLISHED MAY 10, 1887. PLAINFIELD, N. J., SATURDAY, FEBRUARY 3, 1900. TWO CENTS A COPY—$5 A YEAR.

NECESSARY TO HAVE COMMISSION NAMED.

Objectors to Somerset Street Widening Make it Imperative.

NOMINATIONS WERE MADE.

THE APPROVAL OF THE COUNCIL WILL BE GIVEN.

Steps Taken to Collect Large Sums of Delinquent Taxes That Are Outstanding—Collector to Receive Commission of Five Per Cent. on the Rents That He Collects for Borough.

Now that all the interested property owners along Somerset street are not prepared to deed the necessary land to widen that thoroughfare according to the ideas of the Borough Council, Mayor N. B. Smalley signified his position in the matter at the regular monthly meeting of the Borough Council last evening by nominating three commissioners to assess benefits and damages for the widening of the street. The approval of the Council will be given to the appointments as soon as it is ascertained that the men mentioned by the Mayor are properly qualified.

The Council did not convene until 8:30 o'clock, but there were numerous conferences before that time that settled various important matters. Mayor Smalley was there and called the meeting to order. All the Councilmen were present except Mr. Swackhamer. Borough Counsel C. A. Reed was also in attendance.

After the usual preliminary business resignations were read of Dr. Justus H. Cooley from Warren Engine Company and George Kliner from the West End Hose Company, and referred to the fire committee. Then came the usual batch of bills.

Mayor Smalley had something to say officially to the Council. He had found, he said, on circulating the map of the proposed changes for the widening of Somerset street, that there were a few interested property owners who objected. He therefore suggested that the Council should conform with the law and appoint commissioners to assess benefits and damages. For such commissioners he nominated B. A. Hegeman, Jr., Dr. J. H. Cooley and Wm. B. Smith.

He had hoped to find no objection from property owners to the proposed improvement, so that the work might go on without the loss of time and increased expense necessitated by the appointment of commissioners. Mr. Valiant called to mind the troubles over the Watchung avenue improvement, and thought that in this case some arrangement should be made whereby the damages and benefits might balance.

Then came the reports of the Collector and the Clerk.

The report of Collector and Treasurer Brown, was as follows: Taxes, $3,236.97; interest, $152 50; Board of Health, $39 98, special school, $1,353 67; Watchung avenue, $35.00; bills payable, $3 000; licenses from county clerk, $427.50; rent, property sold for taxes, $36; Frank Rowley, clerk, fines, $11; Street Railroad Company, $200; well fire top, .50; sale of dirt, $1 50; cash on hand, Jan. 2, $11,187 70; total, $19,715.82; disbursements, $15 487.78; cash on hand Feb. 1st, $4 228 04. The balance on hand was divided as follows: Borough fund, $3,940 35; Watchung avenue account, $287 69.

As chairman of the street committee, Mr. Clark reported that the disbursements for the month amounted to $23 35. He also made a report for the entire year ending February 1st. According to the report, the amount appropriated for the street work was $3,500, while $366 67 had been received for that work from outside sources. The disbursements for the year were $3,521 65, leaving a balance of $342.02 to the credit of the street department.

The attention of the Council was called to the fact that there were large sums of delinquent taxes on the Collector's books, owing from as far back as 1885 for personal property. This could not be collected, and Collector Brown suggested that it would not be well to include them in the borough assets when making out the yearly report. Immediate action on the subject was wanted.

Mr. Valiant's resolution to the effect that all items, beginning in 1885 and running up to and including 1895, charged as taxes, where there was no real estate or other security, be placed in a suspense account, was passed without objection.

Mr. Rogers made the report for the laws, ordinances and taxation committee in the absence of the chairman, Mr. Swackhamer. The books of the

[CONTINUED ON PAGE 8.]

COMING TO MUSIC HALL.

ATTRACTIONS BOOKED BY MANAGER MAZE EDWARDS.

"Three Little Lambs" Cancelled its Date, But Will be Seen Later in the Season—Some Good Melo-dramas to be Seen.

Two performances are announced by Manager Maze Edwards for the coming week at Music Hall which will undoubtedly interest all amusement seekers. The first will occur on Tuesday night and is entitled "A Guilty Mother," an English melodrama which has met with great success all over the country and lately performed at the Star Theatre, New York, to crowded houses, and likewise at the Neu Century Theatre, Newark, the present week.

A drama which tells a story and has a plot strong enough to hold the wrapt attention of an audience from the beginning to the end, is a decided novelty in these days of machine made plays. "A Guilty Mother" is a pure, wholesome story, which appeals to the heart of every good woman. No one, it makes no difference who he or she may be, can leave the theatre after witnessing this performance without being better for it. It is a play that appeals strongly to the best class of playgoers in every city, especially the ladies. Many new features have been added. In the first act the River Thames will be made more realistic by a river of "real water," in which some fifteen boys as well as four of the principal characters enter.

This is the day of melodrama. There is no form of stage entertainment that has such a strong hold upon the affections of playgoers just now as that in which human motives and actions are set forth with the scintillant brilliancy that is the very foundation of all good melodrama. One of the most successful melodramas of the present season is "A Man of Mystery," which will be seen next Friday night. It is by Mark E. Swan, a playwright of distinction, and it is spectacularly produced by those well known managers, Chas. Brown and Ed McDowell. Special scenery has been painted and built for it, and the sensationalism in it is all of logical and sequential merit. Hypnotism, music, delicate comedy, the divine passion of love, and other elements combine to make "A Man of Mystery" a remarkable play.

Negotiations had been perfected and contracts signed for the presentation of the great metropolitan success, "Three Little Lambs," from the Fifth Avenue Theatre, New York, on night of 12th inst., but the managers of the organization suddenly had an entire week offered them at a leading city theatre, so cancelled all the "one night stands" of the week, but it is expected that it will be seen later. "Chattanooga," one of Lincoln J. Carter's latest plays will, however, be seen on 14th inst., and this will be followed by a high class vaudeville entertainment, 16th inst. Then comes the celebrated St. Felix Sisters, Culhame Chace & Weston's Minstrels for Washington's Birthday, and in week beginning Monday, 26th inst., the Macauley-Patton Comedy Company will inaugurate a series of splendid new repertoire plays. Many novelties are under consideration and offering for March and the remaining months of the season, due notice of which will be given. Tonight we are to have a laughable farce-comedy entitled "How Smith Met Jones." It is said to be very amusing and the cast of characters would indicate an enjoyable performance.

Somerville is Elated
(Special to The Daily Press.)

Somerville, Feb. 3—The residents of this place are in a state of happiness for the long looked for free delivery of mail is to be a reality, which is due in no small measure to the efforts of Senator Reed. The service will be inaugurated May 1st, and from now until that time preparations will be made to start the thing off in a smooth and satisfactory manner. The town has complied with the requirements of the postal laws and nothing now remains except to perfect the arrangements for the mail service.

Judge Bartine Retires April 1st.
(Special to The Daily Press.)

Somerville, Feb. 3—Judge Bartine will relinquish his duties as county judge April 1st, when the newly-appointed judge, Lewis H. Schenck, will take the oath of office and assume the office. John Griggs, the newly-appointed prosecutor, will assume his new position some time during this month, when Prosecutor Dungan will be relieved.

State's Fees From Corporations.
(Special to The Daily Press.)

Trenton, Feb. 3—The State corporation report, issued Wednesday afternoon, shows that 173 companies were incorporated in January and $21 663 75 was received in fees. In January, 1899, only 159 companies were incorporated, but $63,830.50 in fees were received.

TO SEND COSGROVE HOME.

Mrs. Hyatt at the Head of Movement to Raise Money for Afflicted Young Man.

Mrs. Hyatt, of West Ninth street, and a number of the members of the Woman's Auxiliary of the Board of Governors of the Hospital, are interested in a plan to raise a sufficient amount of money to send William Cosgrove to his home in California. Cosgrove is the young man who had his spine fractured some time ago while riding on the railroad, and since then he has been helpless. The interest of the women were enlisted in his behalf and the amount necessary to send him home has almost been raised.

The physicians cannot give Cosgrove much hope that he will ever be any better than he is, but it has been considered a wise idea to try if possible to get him to his home, where he can be with his parents, whom he has not seen in a long time. There is no change in his condition and he continues from day to day about the same. He enjoys himself and is always in a happy frame of mind.

TWO SOCIAL FUNCTIONS.

SOCIETY HAS TWO BIG EVENTS BEFORE LENT BEGINS.

The Last Assembly on February 16th—Another Will be Arranged Easter Monday Night Independent of Regular Series.

Aside from a few luncheons and dinners, there has been but little activity in the social life of this city for the past week but two events of importance are planned for the next two weeks. The Cotillian Club, which is composed of a number of the younger society set, has been entertained at the homes of members on several occasions this winter. Friday evening of next week, the club will be the guests at the home of Mr. and Mrs. J. W. Reinhart on Belvidere avenue. The affair promises to be unusually elaborate and will doubtless be one of the most enjoyable of the series.

The third and last of the series of Assemblies will be held in the Casino, Friday evening, February 16th. It will be the most important event in society circles before the beginning of Lent nearly two weeks later.

There is not the slightest doubt now of the success of the Assemblies. It has been demonstrated that no mistake was made when those formal functions were revived this season. The attendance has been remarkably good, the Casino being well filled at the two that have already been held. There is no reason to expect anything different for the last one.

The great success of these dances has led to the general request among the young people that another be arranged for after Lent. Much pressure was brought to bear on Charles E. Brooks, who has been in charge of the Assemblies, to hold another some night Easter week. Mr. Brooks has at last consented to arrange another of the formal dances on Easter Monday night at the Casino. It will be independent of the regular series of Assemblies but the subscribers for it will probably be much the same as those who have supported the other dances.

INSPECTED SEWAGE BEDS.

F. W. Farquhar Believes That Plainfield's System is a Satisfactory One in Cold Weather.

F. W. Farquhar, who was consulting engineer on the sewers and disposal beds, visited Westfield and Plainfield yesterday. Mr. Farquhar has been called upon to design and construct a system of sewers and disposal beds for a town in Nova Scotia, and is examining the operation of filter beds in cold weather. He is of the opinion that in this latitude there is no trouble in carrying such plants successfully through the cold weather, but so far north as Nova Scotia long, narrow beds, with special covers to keep off the snow, will probably be considered advisable.

Conductor Haynes Not Indicted.

W. E. Haynes, a conductor of the Central Railroad of New Jersey, writes to The Daily Press to say that the report that he was indicted by the recent Grand Jury on the charge of assault, preferred by William Lee, of Scotch Plains, is erroneous. Although held for the action of the Grand Jury, Conductor Haynes was not indicted, because there was no serious evidence brought against his conduct when he ejected Lee from a train at Westfield.

Perth Amboy's Luck.

Perth Amboy may have another mammoth copper works. It was said there yesterday that Florida Grove had been purchased by a syndicate and a great copper plant will be constructed similar to the Raritan Copper Works. When this will be done or just how large a plant it will be is not yet known.

WOMEN WANT LAW TO COMPEL EDUCATION

Difficulty is Said to Be Due to Imperfect Census.

COMMISSION TO CONSIDER

ADVOCATES SAY THAT COMPULSORY EDUCATION WOULD BE POPULAR.

Conference of Committee, Representing State Federation of Women's Clubs, and S. St. John McCutchen, Held at the Home of Mrs. Florence Howe Hall—School Bill to be Ready Feb. 17.

The educational committee of the New Jersey State Federation of Women's Clubs met Thursday at the home of Mrs. Florence Howe Hall and discussed the report of the commission appointed by the Governor to codify and revise the school laws. S. St. John McCutchen, a member of the commission, was present, and went over the various provisions of the bill with the women, explaining what objections had been made to certain clauses and how they would be met. He partially explained how the commission proposes to amend the bill before reintroducing it in the present Legislature.

Mrs. Emily E. Williamson, president of the federation, and the other members of the committee, called the attention of Mr. McCutchen to the great need of a proper compulsory education law. He said, in reply, that he recognized the need of such a law and was in favor of a radical measure to cover the ground. Mrs. Williamson declared that it was her opinion that a compulsory education law would receive the hearty support of the members of the Legislature and would meet with popular favor.

Mr. McCutchen declared that the great difficulty in securing a compulsory education law lay with the school census. It was well-known, he declared, how imperfect the school census was, and that because of its inaccuracy it was a difficult matter to properly apportion the school funds. He said, however, that the commission was considering a compulsory education law, which would be amended so as to meet the views expressed by the members of the educational committee.

The commission will have its new bill ready by February 17. When it is prepared the educational committee of the State Federation will have another conference with Mr. McCutchen and possibly with the other members of the commission, J. B. Betts and Senator E. C. Stokes.

MAY ACCEPT DRAKE'S OFFER

Wall Paper Concern Said to Look With Favor on a Factory Site at Dewey Park.

Three members of the large wall paper concern which S. D. Drake has been endeavoring to locate either at Dewey Park or Lincoln, came to Plainfield yesterday afternoon and accompanied by Mr. Drake visited both places. They were pleased with Dewey Park and its natural advantages and Mr. Drake says that they decided to recommend to the company that a factory be erected at that place to cost $50,000. If built there will be employed 250 high-grade hands. The proposed site is about 2,000 feet westerly from the Plainfield city line, and such a building as they propose to erect will be a credit to that section of the city. The officials of the concern will hold a meeting next week Wednesday when the proposition will be presented and definite action will be taken.

Money for Cranford Collector.
(Special to The Daily Press.)

Cranford, Feb. 3—Township Treasurer McIntyre, of this place, has received an order signed by the Vice-Chancellor, which allows him to draw a check for $8 000, to be paid Contractor James Waters on account of the $11,000 award secured before a referee some time ago. Waters sued the township to recover money due him for building the Cranford sewer system.

An Injury to His Hand.

Walter Smalley, an employe of the Paul T. Norton Co., while assisting to unload baled hay this morning, sustained a severe injury to his right hand by one of the heavy bales forcing it against the side of the store house. The knuckles were crushed and the fingers and back of his hand lacerated. Mr. Smalley lives on Somerset place.

Judges of Debate.

The judges for the debate on the Boer question at the Y. M. C. A. on Monday night will be Rev. W. C. O'Donnell and J. O. McKelvey and Joseph L. Myers. The debate will be held in the large hall and women as well as men are invited.

CHIEFS ARE CONSIDERING.

Fire Department Heads Not Agreed On the Firemen's Bill Before the Legislature.

Chief of the Fire Department T. O. Doane is in Newark today attending an important meeting of the Superior Officers' Association of the paid fire departments of the State. Chief Engineer John Conway, of Jersey City, president of the Association, will occupy the chair, and the main topic of discussion will be the proposed legislative measure taking the power of transferring and detailing firemen after their appointment out of the hands of the commissioners and vesting it absolutely with the chief engineers.

It is known that there is a division of opinion concerning the advisability of pushing the proposed measure. Some of the officers think that all details and transfers should be made by resolution of the various fire boards, and others feel equally positive that the power to do so should be vested entirely in the chief engineers. There is every possibility that the discussion will be a lengthy and hot one.

NEW PRESIDENT CHOSEN

MRS. WOODRUFF HAD SERVED LIMIT ALLOWED BY CONSTITUTION.

Miss Lillian A. Force Elected as Chief Officer of Mission Band of Trinity Church—Miss Anderson Unable to be Present.

The annual meeting of the Young Women's Mission Band, of Trinity Reformed church, was held yesterday afternoon in the parlors of the church, when it was expected that Miss Anderson, of New York, would be present and make an address. She was unavoidably detained and the members and friends present were very much disappointed. This disappointment was lessened to a large degree when those present had the pleasure of listening to a few remarks from Rev. Cornelius Schenck, pastor, who gave the members some excellent advice about the work for the coming year. He praised the members for their earnest efforts in what they had already accomplished, and urged them to do greater things.

The annual business was then transacted by the members, which included the election of officers. Mrs. F. E. Woodruff had been president for two years, which time is the limit as prescribed by the constitution, and she therefore had to retire much to the regret of all, as she has made a most efficient and capable officer. In electing her successor, Miss Lillian A. Force was chosen for the place, and she received much encouragement from her fellow-members in entering upon her duties. Miss Lillian Ramsen was elected vice-president; Miss May Griffen, corresponding secretary; Miss Nevius, secretary; Miss Anna Searing, treasurer. The president will announce her committees at the next meeting. As an assistance in selecting the committees, the president asked those present to write on a slip of paper the committee upon which they would like to serve, and this will guide her largely in her selections.

The various reports presented showed the band to be in a most excellent condition financially and otherwise, and the new year is started under the most favorable auspices. The members hope to be able to have Miss Anderson present at a meeting in the near future when she will make an address.

PRODUCE EXCHANGE.

Mr. Barrows Characterizes as Ridiculous the Report That It Is to be Abolished.

A report was circulated in the New York financial district last night that the Produce Exchange was likely to be abolished on account of the falling off in dealing in grain. Former Councilman Elliot T. Barrows, of West Eighth street, who is president of the Produce Exchange, was seen by a Press reporter, and he characterized as ridiculous any such rumors. Mr. Barrows said there was not the slightest basis for the report.

Councilman John Valiant, of North Plainfield, a member of the board of governors of the Produce Exchange, was also seen by the Press reportor at the Council chamber, and he said there was not the slightest foundation for the report that the exchange was to be abolished.

A Pleasant Surprise.

Mr. and Mrs. G. W. Vanderhoof, of 915 West Front street, were most agreeably surprised last night by a number of their neighbors and friends who without previous notice invaded their handsome home at West End Park. The surprise was thoroughly complete, and the affair proved a pleasant social event in the lives of those who were participants in the festivities of the occasion.

MUST QUIT OR PAY RENT

BOROUGH WILL SEIZE PROPERTY SOLD FOR TAXES.

Borough Council Authorizes Senator Reed to Start Proceedings to Secure Control of the Involved Property.

One of the most important acts of the Borough Council at its monthly meeting last evening was to instruct the Borough Counsel, Senator Charles A. Reed, to start proceedings to secure possession for the borough of certain property that was purchased for delinquent Watchung avenue assessments. This act was merely a continuation of the policy of the present Council to collect these assessments or acquire the property.

It will be remembered that there were a number of properties along Watchung avenue that were sold to pay the assessments. Some of the houses were occupied by the owners and some by tenants. The tenants have simply turned their rents over to the Borough Collector and have gone on living as if nothing had happened.

In cases where the erstwhile owners lived on the property, the borough has been deriving no revenue at all from that property. The action taken last evening was simply to compel these former owners to give up possession or else pay rent to the borough. There are a number of cases that the proposed action will affect, but they are all small houses and occupied by persons of very moderate means.

Some of the old owners, in anticipation of such action, have been to see the Borough Collector concerning rents. Others have declared that they will never pay the borough a cent of rent. They will have to do so, however, or be evicted from the premises.

HOPE FOR JENNIE M'LAREN.

Bruce & Bunyon, of This City, Think They Can Get Her Father Out of Prison.

New evidence has been found by the attorneys for little Jennie McLaren, who asked Gov. Voorhees, of New Jersey, and the Board of Pardons to release her father, now in prison for shooting her mother.

Bruce & Bunyon, of this city, have taken up the case.

When the child, unassisted, presented her case to the Board of Pardons, the Board ascertained that McLaren had not been married to Jennie's mother, and for that reason might have had a motive for getting her out of the way. Bruce & Bunyon have found that McLaren wanted to marry Jennie's mother, and the marriage was to have been performed by Rev. Mr. Weller, of Hoboken. The woman known as Mrs. McLaren, however, did not appear. The attorneys thus hope to show that McLaren loved the woman for his children's sake, and would not purposely have killed her. This, it is believed, will break down the barrier.

They have secured evidence that McLaren shot his wife in attempting to wrest from her a pistol which she had turned on him.

The Board of Pardons will meet again in March.

The counsel feel they can show the strongest possible case calling for clemency from the Court of Pardons.

FOR THE HAMPTON INSTITUTE.

Interesting Meeting at Crescent Avenue Church Thursday Next.

The work of Hampton Normal Institute of Virginia, will be the theme of a public meeting in the Crescent Avenue Presbyterian church next Thursday evening, representatives of the school being present to speak of the interesting and inspiring work which is being carried on there. Rev. H. B. Turner, chaplain of the school, will give an illustrated lecture on the "Story of the Hampton Institute." He will show some 85 new stereopticon views, which have been specially prepared for this lecture. The work among the colored people of the south will be described by Thomas C. Walker, a negro graduate, who has been traveling in Virginia for the past few years as a special agent for Hampton. The Indian work will be represented by John W. Wizi, a Sioux Indian.

An attractive feature of the evening will be the singing of the old-time plantation songs by the Hampton quartette. There will be no admission fee and the public are cordially invited to this meeting.

Only a Smoky Chimney.

The fire department was notified by telephone this morning at nine o'clock that there was a fire at the home of J. A. Machado, 337 Kensington avenue. Chief Doane, the chemical engine and No. 2 hose wagon responded. The trouble proved to be a smoky chimney.

—The death of Ethel M. Dahl, infant daughter of Mr. and Mrs. John Dahl, of 127 Berckman street, occurred yesterday.

WANT NEWARK FIRM TO PAY BIG DAMAGES.

Mrs. Annie Mathews Brings Suit For $3,000.

AGAINST MULLENS & SONS.

ALLEGES HIGH HANDED ACTION BY THEIR EMPLOYES.

They Attempted to Seize Certain Property in Her House and When She Interfered it is Alleged That She Was Assaulted—Mrs. Mathews Is Now Said to be Under Doctor's Care.

The home of Mrs. Annie Mathews, of Liberty street, was visited by three men, supposed to be in the employ of Mullens & Sons, of Newark, a few days ago. Mrs. Mathews, who had been out in town shopping, had just returned home as one of the men appeared at the door. As she unlocked her door to enter the man inquired if Mrs. Mathews lived there. She replied that she did, and that she herself was Mrs. Mathews. She walked in her home and asked the man to be seated. After laying aside her parcels she inquired his business.

It is alleged that he thereupon got up and seizing a valuable lamp and stand said that he was going to take them. Mrs. Mathews forbid him taking them, as they had been presented to her by a friend. While they were parleying two other men, it is said, rushed in the room. One grabbed Mrs. Mathews, pulling her over backwards and holding her while the other two men seized the lamp and stand, throwing the album and books on the floor, and hurried from the house.

In the scuffle Mrs. Mathews was seriously bruised and injured in her back, the marks of the fingers of the men who so roughly handled her still being plainly visible upon her body and arms. She has since been confined to the house under the doctor's treatment. The result of the injury is not yet definitely known.

Upon the return of her husband, who works at Lincoln, from his work, he investigated the matter and found that they had a wagon and that they had driven rapidly away after securing the goods. Mr. Mathews has consulted his attorneys, Codington & Swackhamer, and directed an action to be brought against Mullens & Sons for the recovery of $3 000 damages.

DEATH OF WILLIAM D. KITCHEN.

A Well-Known Citizen of New Market Sick But a Few Days.
(Special to The Daily Press.)

New Market, Feb. 3.—William D. Kitchen, aged about 68 years, one of the oldest and best-known citizens of this place, died at his home about 4 o'clock this morning after an illness lasting since Thursday. On that day Mr. Kitchen caught a very heavy cold which settled in his head. It was this that led to his death. Mr. Kitchen was a blacksmith by trade and had been a resident of this place for twenty five years. He was highly esteemed by all. A few years ago he and his wife, who survives him, celebrated their golden wedding anniversary. In addition to his wife he is survived by a daughter, Mrs. George Conover, of Lincoln, and three sons, John H. Kitchen, of North Plainfield; Oscar Kitchen, of Connecticut, and Judson Kitchen, of Brooklyn. Announcement of the funeral service will be made later.

Thanked by the Y. M. C. A.

At a meeting of the board of directors of the Y. M. C. A. a vote of thanks was tendered to Former Councilman Harold Serrell for several bound volumes of Harper's Magazine and other periodicals. The thanks of the board were also tendered to Mrs. William D. Murray for handsome curtains for the parlor.

License Applications.

All bills against the city must be in the hands of the City Clerk by Monday evening to insure payment at the next meeting of the Council. All applications for liquor licenses must be in the hands of the City Clerk by Wednesday night to be considered at the next meeting of the Council.

Short Talk on Japan.

W. D. Murray will give a short talk on Japan at the meeting of the Volunteer League next Tuesday evening at the Y. M. C. A. President Stephen Cahoon will also preside at a short Bible study. All men and women are invited, whether members of the association or not.

Bishop Rector Resigns.

Rev. Roderick Provost Cobb, of St. Paul's Episcopal church, Rahway, announced in the mid-week services last evening that he would resign as pastor, to take effect March 1st. Mr. Cobb has accepted a call from the Fifth Avenue Episcopal church, Troy, N. Y.

IN SECRET SESSION.

Democratic Members of Kentucky's Legislature Meet.

CALL FOR LONDON TO BE IGNORED.

A Reward of $50,000 For the Arrest of Goebel's Assassin—Slightly Improved Condition of Wounded Man—No Federal Interference.

FRANKFORT, Ky., Feb. 3.—The Democratic members of the legislature yesterday effected a regular organization for the first time since the swearing in of Governor Goebel. A secret session of the members of both houses was held in one of the parlors of the Capitol hotel, at which the election of William Goebel as governor and J. C. W. Beckham as lieutenant governor was reaffirmed, first in separate sessions of the house and senate and afterward in a joint session. Preceding this action the members of the senate elected as president pro tem. Senator Carter, who was nominated for that position at Thursday's caucus. A committee of the members of the house, composed of Representatives Finn, Lafferty and Cochran, was also appointed to draw up a set of resolutions showing the condition of affairs as it exists at the state capital and covering thoroughly the Democratic side of the controversy. These resolutions will be formally presented to the next session of the Democratic members of the legislature to be held Monday.

The session, which lasted for nearly two hours, was kept as secret as possible for fear of possible interference. No further sessions will be held until Monday, an adjournment being taken until that time, and probably no further attempt will be made to hold sessions in the statehouse. After ratifying their former action in regard to the governorship and lieutenant governorship, considerable discussion took place as to the plan of action to be taken in regard to the session of the legislature called by Governor Taylor at London next Tuesday. Though none of those who attended the caucus cared to discuss the matter it seems to be well understood among the Democratic members of the legislature that the session at London will be ignored altogether by them and that no Democrat will attend "until compelled to do so."

It was practically decided that no more formal demands will be made to hold sessions of the legislature in the statehouse by the Democratic members in a body, who will, however, continue to hold sessions at some convenient place until the political atmosphere has cleared. This plan of action was decided on to forestall any attempt on the part of the Republicans to arrest them and compel their attendance at London, which action, according to the Democratic members, has been determined on by Governor Taylor.

If arrests are attempted, no resistance will be made by the Democrats either to arrest or to attending the session at London should they be arrested. It was determined that all acts of violence should be avoided and that the battle for supremacy hereafter should be fought out in the courts. Nevertheless the situation is regarded as grave by members of both parties, and no one is willing to forecast the result of the anticipated clash of authority between Taylor and the state courts.

Some action is expected at the session on Monday in regard to offering a reward of $50,000 for the arrest and conviction of the would be assassin of Governor Goebel. The Democratic leaders to a man are in favor of such action, and although only a small proportion of the rank and file of the Democratic legislators have been consulted in the matter it is considered probable that favorable action will be taken on the matter when it is brought before the main regular session. National Committeeman Urey Woodson, who is one of the chief advocates of the measure, said that he had little doubt that the reward would be offered.

The condition of William Goebel is considered better than at any time since he was shot. The iron will and the determination of the wounded man that he will not die by an assassin's bullet is, however, still considered the main factor in sustaining him, but the attending physicians for the first time hold out some hopes for his ultimate recovery. Governor Goebel has secured some sleep, which increased his strength perceptibly, and though unfavorable symptoms show themselves at times the sick man always rallies well.

NO INTERFERENCE.

President and Cabinet Decide Kentucky Legislature Has Sole Power.

WASHINGTON, Feb. 3.—Nearly the entire time of the cabinet meeting yesterday was taken up in a discussion of the situation in Kentucky and the rights and duties of the president in connection therewith. Almost immediately upon the receipt of Governor Taylor's message the president took up the question and consulted authorities on points with which he was not familiar. A decision was reached, and when Senator Elect Blackburn, with Representatives Rhea, Allen, Gilbert, Smith and Wheeler, called yesterday morning to protest against federal interference in Kentucky the president promptly gave them to understand that he had already reached a conclusion on the subject and that he had found that the situation did not warrant the federal authorities in interfering.

This decision was announced to the cabinet immediately upon its convening. Attorney General Griggs, Secretary Root and the other lawyers of the cabinet sustained the president's conclusions. The law which must govern in this case authorizes federal action only when the legislature is not in session and cannot be convened. Governor Taylor's message does not intimate that the legislature of the state cannot be promptly convened, nor does he show that the condition in Frankfort is such as would justify federal intervention.

The president and the members of his cabinet without exception recognizes the fact that the legislature of the state of Kentucky by a majority thereof is the sole judge of which of the two contestants was elected governor of the state at the recent election.

Transports With Dead Soldiers.

SAN FRANCISCO, Feb. 3.—A cable from Manila was received from the quartermaster's department stating that the Hancock sailed for San Francisco on Jan. 19 with the bodies of 46 dead soldiers. The Indiana is expected in immediately with 200 bodies, and the Ohio with 138 arrived yesterday.

LAWTON'S LAST REPORT.

Campaign In Cavite Province, Home of Aguinaldo.

WASHINGTON, Feb. 3.—What was probably the last official report of the late General Lawton, embodying an account of the remarkable campaign conducted by him in the province of Cavite, the home of Aguinaldo, last June, has been received at the war department from General Otis.

General Lawton says: "The force of the enemy was between 4,000 and 5,000 well armed men. They had defeated the Spaniards at this point and were confident of their ability and had taken an oath to hold this strongly intrenched and well fortified position. Our force which carried these 'impregnable' works was less than 1,200 strong, and really less than 1,000 men were actually engaged in driving them out."

General Lawton's description of the battle of Zapote is picturesque. Here is what he says of one officer's performance:

"Captain Sage's voice was heard well off to the right. True to his promise, he, with nine men, had remained closely pressed by the enemy, who came within 40 yards of him. With a rifle taken from a wounded man he himself had hit five insurgents. His perfect confidence, dogged determination and distinguished and exceptional bravery during this engagement merit substantial recognition. He will be recommended for a medal of honor."

And again: "General Ovenshine, riding back and forth not over 150 yards from the enemy's intrenchments directing his command, was certainly an inspiring example to his men. The bearing of officers and men throughout this battle was magnificent. The conduct of officers whose names are mentioned in the report of this battle should be entitled and characterized 'distinguished gallantry in the presence of the enemy at the battle of the Zapote River.' As General Ovenshine says, speaking of Lieutenant Kenly and his battery, 'This is probably the first time in history that a battery has been advanced and fought without cover within 30 yards of strongly manned trenches.'"

In conclusion General Lawton gives the names of 16 enlisted men killed and 70 wounded, including a civilian clerk, and of seven officers wounded during the campaign. He recommends as deserving special mention and brevet 80 officers, 22 enlisted men and five acting assistant surgeons, among whom are mentioned the names of Brigadier General Lloyd Wheaton, United States volunteers; Brigadier General Samuel Ovenshine and Second Lieutenant Ward Cheney of the Fourth infantry, who was afterward killed in action.

FIRE IN A SCHOOL.

Many Pupils Injured In Escaping From Burning Building.

TRENTON, Feb. 3.—A fire broke out yesterday afternoon in the Livingston public school on Rose street, and several children were badly injured by jumping out of the second story windows. The fire, which did only $200 worth of damage, originated on the first floor and filled the stairways with smoke. This caused the children to become panic stricken, and many of them rushed to the windows. Their parents and others on the other side advised them to jump, and a large number did so. Some of them were caught in blankets which the bystanders put into use until the arrival of the fire department. Among the more seriously injured were:

Loretto Shaw, 12 years old, head cut, internally injured, not expected to live; Walter Servis, 12 years old, leg broken; Helen Naylor, 11 years old, leg broken; Fred Aull, 14 years old, leg broken; Allie Blackford, 13 years old, face and head cut; Emma Sensky, head cut.

There are contradictory stories afloat as to whether the teachers on the second floor used good judgment in the handling of the children in getting them out of the school. One story is that the teachers deserted the children in order to save themselves, and the other is that the children became unmanageable. Had the children gone out orderly none of them would have been injured.

Runaways Caught.

INDIANAPOLIS, Feb. 3.—Lawrence Comey, 19 years old, and Marrisa Goodwin, aged 11, are held at the police station here on instructions from the chief of police of Newark, N. J. They were intercepted while en route to Louisville. They both feigned ignorance of the English language, but young Comey finally acknowledged that he was "bluffing" and that he lived at Sharon, Mass. He said he had trouble with his stepfather and determined to leave home. The girl, who was his friend, heard of his intention and, he said, insisted on accompanying him.

Bank Revenue Deposits Stopped.

WASHINGTON, Feb. 3.—The secretary of the treasury has notified all national bank depositories that no further deposits of internal revenue receipts will be forwarded to New York for distribution to banks which have deposited bonds as security under the secretary's offer of Dec. 18 last. Hereafter all excess receipts from internal revenue and other sources will be sent to the various subtreasuries, as was done prior to Dec. 18. The amount of internal revenue receipts on deposit with national bank depositories under the secretary's recent order is about $27,000,000.

Christian Scientists Arrested.

LINCOLN, Neb., Feb. 3.—On the complaint of Health Officer Rhoads warrants were sworn out for the arrest of Mrs. Don Cameron, Thomas Harrison and wife and Mrs. Stewart, daughter of the Harrisons. All are Christian Scientists, and the warrants follow the death of a child of Mrs. Stewart while under the treatment of Mrs. Cameron at the Harrison home. The complaint charges violation of Lincoln health laws.

Counterfeiting Exposed.

MONTREAL, Feb. 3.—By the arrest of Anthony Decker in Baltimore a counterfeiting conspiracy formed in this city about a year ago has been exposed. For eight months the Canadian secret service has had the men shadowed, waiting for the proper time to catch them redhanded. Further arrests are to be made in New York and Montreal. The issue upon which the counterfeiters were engaged amounts to a quarter of a million.

College Building Burned.

ROANOKE, Va., Feb. 3.—Fire destroyed the building used as offices of the experiment station at Blacksburg college. The building was a stone structure and considered fireproof. The loss is not given.

TAPE WORMS

"A tape worm eighteen feet long at least came on the scene after my taking two CASCARETS. This I am sure has caused my bad health for the past three years. I am still taking Cascarets, the only cathartic worthy of notice by sensible people."
GEO. W. BOWLES, Baird, Miss.

SEAL SKIN POPULAR.

Many Varieties of the Fur—Reasons Why Fashion Has Placed It in Vogue.

Let him who thinks he knows a thing or two about seal skins take heed lest he fall. There are 21 different grades and qualities of the fur, and only an expert can tell the value of a seal skin at sight. The average buyer knows what quality of fur he has bought only after he has discovered how long it will wear. Up to that point he must accept the word of the firm that sells him the goods. For two reasons the market is now flooded with the poorer grade of seal skin. The falling off in the Alaska seal catch has made the first quality skins scarce and high in price, and the increase in demand for the fur has caused the use of the inferior grades, since enough of the best skins cannot be supplied. Some of the larger fur houses foresaw the jump in prices and laid in large stocks of seal skins before December 15 last, when the fur rose 50 per cent. in value. All dealers affirm that next season the price of manufactured goods will be higher by 40 per cent., and the raw material by 80 per cent.

When the scarcity of seal skin makes it costly and rare, fashion decrees a new lease of favor for the fur. Everything appears to threaten the life and peace of the fur-bearing seal. Seal skin has always been deservedly popular. It is one of the most durable of furs, will stand any amount of water, is immune from moths, is universally becoming, and, being one of the most pliable furs, is readily moulded into any sort of garment. In spite of all this, seal skin has not, for several years past, been the fashionable fur. Persian lamb has been its successful rival and chinchilla has made a good second. Sable, of course, has always outranked all other fur.

Now, seal skin has taken a new hold upon public favor, and the leading furriers of the city say that they are selling more seal than at any time within ten years. Within that time the price of the fur has more than doubled, and few of the long cloaks and mantles that used to be fashionable are seen today. The cost of such a garment is greater than most persons, save the very wealthy, care to pay; but the short seal skin coats sell by the hundreds, and are the most practical fur garment on the market. A 24-inch coat to-day costs about $350 and each additional inch adds perhaps $25.

The Alaskan seal is, of course, the most valuable grade of the fur. Its only rival, the Shetland seal, which was wonderfully beautiful but less durable than the Alaska fur, is now almost unknown. After the Alaska fur comes that from the Aleutian islands, off Kamchatka. All of the other varieties are decidedly inferior in quality, but are frequently sold as Alaska seal. It seems rather a curious fact that the curing and coloring of seal skin is properly understood and accomplished only in England. Efforts have been made to start the industry elsewhere, but results were most unsatisfactory, and a sealskin prepared anywhere save in England is not worth buying, and will not keep its color six months.—N. Y. Sun.

MILLINERY NOTES.

Fanciful Trimmings and Ornaments Are Now in Favor with the Ladies.

Quills are now clasped with diamond buckles having very visible prongs.

There is a disposition in toques to adopt once more the turbanlike form which Marie Antoinette wore when Le Brun painted her.

The brims of hats only seem to exist at the sides, to form a foundation for either a feather or a bouquet. Fashion runs riot between the Trelawny, the derectoire, toque and the modified empire headgear.

Brims are becoming more and more flexible, and no hat of a certain class would be a la mode without ends falling at the back and fringed, and this falling drapery is certainly becoming.

Metallic effects in feathers are being largely patronized by the best milliners.

Ribbon embroidery on thin material, the ribbon gathered, is to be seen on many of the crowns and as linings to the brims, and this treatment has also found acceptance on the materials employed for blouses.

We are indebted for a great many ideas to the revolutionary period in France, and the picturesque would seem to be the most important element. Light blue headgears have the preference over all others; indeed, every fashionable dame shows a dash of sky blue somewhere in her costume.

Even with winter here chiffon and silk tucked are considered an essential element in dress.

Turquoise and steel are employed together in much of the embroidery for millinery purposes.—Washington Star.

New Dress Styles.

Many skirts are almost covered with stitched bands of the material, piped with satin, and these bands occasionally form a latticework round the skirt either at the hem or at the waist. The braiding on many of these gowns is truly wonderful, interblended with sable, generally employed as panels and as a bordering to the revers or round cape trimming on the bodice, much of the beauty of the dress depending on the cravat and tie in some delicate tone of chiffon. Many of the new dresses are of some shade of gray, and cloth is frequently trimmed about the bodice with gray chiffon, accentuated by chinchilla. A gray satin, veiled with chiffon, covered with paillettes forming an embroidery of silver flowers, is quite a new style of dinner gown.—Washington Star.

PETTIGREW CUT OFF

Attempted Speech on Philippine Question Ruled Out.

THE PENSION COMMITTEE BALKED.

South Carolina Representative Declares No More Special Acts Shall Be Passed Without a Quorum. A Startling Statement.

WASHINGTON, Feb. 3.—An effort by Senator Pettigrew of South Dakota to discuss the situation in the Philippines yesterday, taking for his text the resolution he offered Thursday, was of no avail, as he was met by a point of order which took him from the floor. He had got only so far as to charge that the great journals of the country would not publish the facts concerning the Philippine war when the point of order was made by Senator Gallinger and sustained by the chair. Subsequently he offered another resolution in favor of the Boers, on which he will speak next week. Senator Allen of Nebraska concluded his speech in arraignment of Secretary Gage because of his transactions with the National City bank of New York. He had previously introduced a resolution providing for an investigation by the senate of the treasury department, but objection to its consideration sent it over until next week.

The house devoted its attention to the Indian appropriation bill. It got no further, however, than the appropriations for Indian schools, when an effort was started by Mr. Fitzgerald of New York to permit the secretary of the interior to contract with schools for the education of Indian children where the government lacks facilities. No appropriation is made for contract schools in this bill. It is claimed that present Indian school facilities are inadequate.

Representative Talbert of South Carolina, who gave notice during the consideration of the pension appropriation bill last week that he proposed to block all special pension legislation at Friday night sessions unless a quorum of members was present, carried out his threat at last night's session. As soon as the house was called to order he sent to the clerk's desk and had read several editorials from different papers warning congress of a scheme to put through a bill to place every soldier who had served 60 days in the civil war on the rolls, thereby increasing pension expenditures $70,000,000 a year. There was to be a return, one of the editorials said, to the halcyon days when pension attorneys made $1,000 a day.

"Now and henceforth, Mr. Speaker," announced Mr. Talbert, "I shall insist upon a quorum of this house when pension bills are under consideration at the special Friday evening sessions. So long as I may be able to drag myself to the capitol no pension bill (and there is no qualification to this ultimatum) shall pass this house without a quorum of its members present. The abuse must stop. Innocent people will be hurt possibly, but that will only accentuate the responsibility.

"I demand a quorum. If the house is without a quorum I shall ask an immediate adjournment. If that is refused I shall insist that this house exhaust its power to secure a quorum.

"I believe the pension laws are sufficiently liberal to pension any deserving soldier or widow, and I am opposed to sitting here every Friday night as a court of appeals to pass special cases which have been refused by the pension bureau. If it is to be done there must be a quorum. Members cry aloud their love for the old soldier, but they will not give up their pink teas and poker parties and that sort of thing to vote pensions."

At 10:30, without breaking the deadlock, the house was adjourned.

American Baseball Association.

PHILADELPHIA, Feb. 3.—The meeting of the American Association of Baseball clubs has closed, and the organization may be said to be a fact. Six cities, Baltimore, Boston, Milwaukee, Detroit, Chicago and St. Louis, have signed the agreement, each furnishing a $1,200 bond. Providence and Philadelphia have not yet signed, but the former has pledged itself to furnish the bond as soon as this city registers. Before adjourning finally the delegates appointed a committee consisting of H. D. Quin, Milwaukee; Thomas McCarthy, Boston, and J. J. McGraw, Baltimore, to remain here and arrange the Philadelphia end of the circuit. The next meeting will be held in Chicago on Feb. 12.

Railroad Officials Indicted.

PATERSON, N. J., Feb. 3.—Indictments have been found here against leading officials of the Delaware, Lackawanna and Western railroad for manslaughter in causing the death of seven persons in the train collision which occurred in this city on the night before Thanksgiving day. The persons indicted are Superintendent DuPuy, General Traffic Manager B. D. Caldwell, Conductor Gould M. Catwell and Rear Flagman William Snedecker of express train No. 6, which was telescoped, and Engineer John Riordan and Conductor William Burritt of local train No. 96, which crashed into No. 6 from the rear.

Shorter Mail Route to Cape Nome.

WASHINGTON, Feb. 3.—The postoffice department has directed that a shorter mail route, entirely within American territory, shall be established to communicate with the Cape Nome goldfields. This will be from Katmai, on the coast, via Nushagok and St. Michael's and will be several hundred miles shorter than the present one by way of the Yukon river. The first trip will be made next March. The service over this route will be continued next winter.

Heirs to a Fortune.

MINNEAPOLIS, Feb. 3.—A special from Oshkosh, Wis., says: "Millard T. Walker, a poor mechanic, and his father, Timothy T. Walker of Omero, have fallen heirs to $100,000 in bank stocks and government bonds left by the father's sister, Miss Nancy Marie Dikeman of Castleton, Vt. They had not suspected the fortune."

No Americans Shot.

WASHINGTON, Feb. 3.—Mr. Darnell, the United States consul at Nogales, Mexico, has telegraphed the state department that there is not a word of truth in the story that six Americans were shot by order of General Torres near Guaymas because they were found with the hostile Yaqui Indians.

Weather Probabilities.

Fair; fresh westerly winds.

REPORT OF COMMISSION.

First Volume on the Philippines Sent to Congress.

WASHINGTON, Feb. 4.—The president has transmitted to congress the first volume of the report of the Philippine commission. It is a volume of 264 pages, including the appendix, and is signed by Professor Schurman, Admiral Dewey, Colonel Denby and Professor Worcester.

The principal subject dealt with is the plan of government proposed by the commission, which includes a discussion of the Spanish government existing prior to the war, the various reforms desired by the Filipinos and the constitutions proposed by them, together with the conclusions and plans suggested by the commission. The report covers many other matters connected with the social administration of the island, racial characteristics, education, secular and religious orders, the Chinese in the islands, the public health, currency, etc., as well as the condition and needs of the United States in the Philippines from a naval and maritime standpoint. The second volume of the report, which will not be ready for several weeks, will contain a detailed description of the climate and natural resources of the island.

The chief interest in the report naturally centers in the plan of government proposed by the commission. The commission announces itself unqualifiedly in favor of a government of the Philippines analogous to that of a territory of the United States with a governor appointed by the president. It says it is desirable that the inhabitants of the archipelago should enjoy a large measure of home rule in local affairs, their towns to enjoy substantially the rights and privileges of towns in a territory.

THE CLARK CASE.

Defense Opens With Some Startling Testimony.

WASHINGTON, Feb. 3.—The defense in the case of Senator Clark of Montana before the senate committee on privileges and elections yesterday began the presentation of its side of the controversy. The first half of the day was given to three witnesses for the memorialists, after which Thomas T. Lyons, county attorney of Jefferson county, was put on the stand by Mr. Faulkner in Mr. Clark's behalf. His testimony was rather startling in several respects. He brought Representative Campbell, one of the attorneys for the prosecution, into the controversy as an active participant in the case, saying that Mr. Campbell had promised him $5,000 to testify in the case against Mr. Clark. He had previously been a worker for Mr. Clark and said that he acted in this matter at the instance of Mr. C. W. Clark, playing the part, as the witness put it, "of a Whiteside on the other side."

After hearing his proposition to testify that several members of the legislature had been to his knowledge bribed, Mr. Campbell, the witness declared, had agreed to pay him the sum mentioned for the evidence, afterward agreeing to double it. He said that afterward Mr. Campbell had told him that he (Lyons) would ruin him (Campbell) if he revealed these facts before the committee, but that he had never said to Campbell that the story he had told Campbell he would tell was false.

CONDENSED DISPATCHES.

Churches of Chicago organized a branch of the Actors' Church alliance in that city.

Fire at Youngstown, O., did damage amounting to between $400,000 and $500,000.

Nineteen families were made homeless by fire in Brownsville, N. Y. The loss was $15,000.

The foreign commerce of the United States increased to a remarkable degree during the past year.

Fire Chief Swenie of Chicago was overcome by smoke at a fire and narrowly escaped with his life.

Four children of George Winas of Bentonville, N. Y., left alone in their home, were burned to death with the house.

A contagious disease, apparently influenza, is epidemic among the horses in Berlin and its suburbs. A few have died.

Dr. Madison C. Peters has resigned the pastorate of the Bloomingdale Reformed church, New York city, because he does not believe it right to baptize infants.

Legislature Has Investigation Mania

BOSTON, Feb. 3.—The legislature has closed the fourth week of its present session by going on record as favoring investigations of nearly every sort. Yesterday the senate concurred with the house in passing an order to investigate the price of gas in Boston, having previously passed the order calling for an investigation of the metropolitan water board. The house also passed an investigating order relative to the price of gas in Brockton and Everett, as well as an order requiring the railway commission to report on the expediency of requiring railroads to put guard rails on freight cars. In addition a special committee is already hard at work investigating the gypsy moth work of the state.

For Boer Widows and Orphans.

WASHINGTON, Feb. 3.—Secretary Hay has received the sum of $750, collected by the St. Louis Westliche Post and transmitted to the department of state by Mr. Pretorius, to be used for the benefit of the widows and orphans of Boer soldiers. The secretary has forwarded the money by mail to Adelbert Hay, United States consul at Pretoria, to be turned over to President Kruger for the purpose specified. Mr. Pretorius' letter was also sent forward. The action of the state department, it is explained, applies only to contributions for charitable objects.

Sailors Desert.

NORFOLK, Feb. 3.—Desertions of sailors from sailing ships, an extraordinarily large fleet of which is now in this port, have become of late numerous. The big five masted schooner Palmer reports to her owners that she is unable to proceed on account of desertions.

Lost For Three Months.

HOUSTON, Feb. 3.—F. H. Safford, a business man of this city who mysteriously disappeared last summer, has notified his friends that he is in Boston. He says he woke up in a hospital, where he was told he had been three months. His wife has gone to Boston.

Government Building For Nashua.

WASHINGTON, Feb. 3.—The senate committee on public grounds and buildings has authorized a favorable report of the bill authorizing a government building at Nashua, N. H., to cost $100,000.

BUSINESS OF A MONTH.

Dun's Review Reports Fewer Failures, but Larger Liabilities.

NEW YORK, Feb. 3.—R. G. Dun & Co.'s weekly review of trade says:

Failures in January were 30 fewer than last year, but in liabilities larger by 34.2 per cent, though smaller than in the same month of any previous year.

December disasters in speculation had some continuing influence, but the month's aggregate would have been reckoned quite satisfactory if it were not for last year's unprecedented record.

This year starts with much of the year's business already done, and all comparisons will prove misleading if that fact is not taken into account. This year the works were already crowded for months ahead in most lines, and prices had already advanced so far that recoil had already commenced in some branches and was thought probable in others.

Wool is rather weaker in some grades but stronger in others, so that the average of quotations is steady, notwithstanding some sales at concessions.

Boot and shoe manufacturers have passed all records in deliveries, nearly 20 per cent beyond those of January last year, but new orders have been greatly restricted. Recent sales of hemlock sole and of rough leather show a decline of half a cent, however, while hides at Chicago continue their gradual decline.

The iron and steel industry is so fairly tied up by contracts reaching through most of the year that the effect of production exceeding consumption is felt only in some branches. A little lower prices have been made for foundry iron in considerable transactions, though bessemer does not yield, but steel billets are offered by some at $33 per ton.

ART AWARDS.

Son of Bishop Tanner Gets First Prize at Philadelphia.

PHILADELPHIA, Feb. 3.—Three awards of honor in the sixty-ninth annual exhibition of the Pennsylvania Academy of the Fine Arts in this city have been announced. The Walter Lippencott prize of $300 for the best figure painting in the exhibition by an American artist was awarded to Henry O. Tanner, son of Bishop Tanner of the African Methodist Episcopal church, for his picture entitled "Nicodemus." The painting represents Christ and Nicodemus on the house tops.

The Mary Smith prize of $100 for the best painting by a resident woman artist was given to Mary E. R. Clay for her portrait entitled "Irene K." Honorable mention was given to Janet Wheeler for her "Portrait."

The Temple gold medal for the best painting in oil by an American artist was awarded to Miss Cecilia Beaux for her picture entitled "Mother and Daughter," which shows Mrs. Clement A. Griscom and Miss Frances Griscom of Philadelphia standing in their evening wraps.

Famous Army Nurse Dead.

PHILADELPHIA, Feb. 3.—Mrs. Annie Wittemeyer, who became famous as an army nurse during the civil war and is known throughout the country as an authoress and lecturer, is dead at her home at Sanatoga, Pa., near here. Mrs. Wittemeyer was born in Kentucky 72 years ago. She entered the army as a nurse as soon as the civil war broke out. She inaugurated a special diet kitchen in army hospitals, for which she was highly commended by President Lincoln and army surgeons. She was the founder of the Soldiers' Orphan home at Davenport Ia., and was one of the promoters of the Pennsylvania Memorial home for soldiers.

A Mystery Solved.

BALTIMORE, Feb. 3.—It is now almost certain that the body which was shipped from this city to Sioux City, Ia., last month is that of an unknown tramp who was struck by a trolley car a few days after Christmas and who died later in the City hospital. The body was sent to the morgue, and the records of the health department show that it was turned over to the College of Physicians and Surgeons for dissection. The authorities at the college deny that it was received there, and the only mystery still remaining in the case is the identity of the person who shipped it to Sioux City and how it happened to be taken from the morgue.

Fortifications at Cape Henry.

NORFOLK, Feb. 3.—The preliminary surveys made by army engineers from Fort Monroe for a proposed fortification at Cape Henry to command the approaches to Hampton Roads and Chesapeake bay have been completed. The bill introduced in the legislature giving the right to the general government to acquire property at the cape is regarded as the next step toward the erection of powerful defenses at the point so necessary to protect the approaches to Norfolk Washington, Baltimore and Richmond It will probably be a concrete work, containing disappearing rifles of high power and long range.

Much Married Man Sentenced.

CHICAGO, Feb. 3.—Walter Farnsworth, who is said to have married 42 women, was found guilty of bigamy yesterday, and his punishment was fixed at imprisonment in the penitentiary and a $1,000 fine, the limit allowed by law.

New York Markets.

NEW YORK, Feb. 2.—FLOUR—State and western unchanged and steady, with few buyers except at concessions; Minnesota patents, $3.90a4.15; winter straights, $3.40a3.50; winter extras, $2.60a2.85; winter patents, $3.50a3.80.

WHEAT—Opened steady and received later impetus from advancing Paris markets and crop damage reports from France, holding firm all the forenoon; March, 75¾c.; May, 74 1-16a74 9-16c.; July, 71⅛a74⅝c.

HAY—Quiet; shipping, 65a70c.; good to choice, 80a85c.

BOER LINES THINNED

Ladysmith Reports a Movement Toward the Tugela.

BASUTOS BEING URGED TO REVOLT

Fierce Tribesmen May Aid Transvaal—Churchill Defends Colonel Long, Whose Error Caused Defeat at Colenso.

LONDON, Feb. 3.—Heliograms flashed from Ladysmith three days ago say that the Boer investment lines then were thinning and that the besiegers were moving in force toward the Tugela, indicating that a collision was expected there. This intelligence bears out the other signs that General Buller purposed a fresh attack.

The war office continues to reveal nothing of what has happened in Natal. Without exception the military critics regard with dismay the prospect of a renewal of the assaults unless General Buller has been heavily re-enforced, and there is nothing to indicate that this is the case.

Lord Kitchener has been traveling from army to army in northern Cape Colony, and General French, by instructions, is now in Cape Town consulting with Lord Roberts. Large engineering constructions are proceeding at Modder river, suggesting that Lord Methuen's fortified camp has been selected as the base from which to invade the Free State. Numerous sidings, platforms and warehouses are being built, and a permanent railway bridge is well advanced.

German strategists assert that the topography of the country would make invasion easier from Kimberley and the district northward than from the more rugged region of Sterkstroom or Colesberg. Therefore they infer that the combined British forces will overwhelm the Boers at Magersfontein and first relieve Kimberley as an incident of the invasion.

"General Buller's retreat," says the Cape Town correspondent of The Standard, "has resulted in a recrudescence of treasonable talk here."

A dispatch from Sterkstroom states that Boer emissaries are distributing leaflets and working throughout Basutoland to incite the tribe to rise against the British. One inducement used to tempt the Basutos to revolt is a promise to restore their territory to them.

Basutoland lies northeast of Cape Colony, bordering on Natal and the Orange Free State. The tribesmen are fierce, implacable warriors whose subjugation cost the British many hard fought battles, with heavy losses. Head Chief Lerothodi recently warned the British agent at Maseru that the younger warriors were getting beyond his control.

A dispatch from Lourenco Marques, dated Feb. 1, has the following, dated Gaberones, Jan. 20:

"A Boer scout was captured yesterday by Colonel Plumer's outposts, and a small party was sent out to reconnoiter certain hills. They ascended the wrong kopje and blundered upon a Boer fortress armed with a Maxim. Fortunately they managed to escape without casualties."

A later dispatch from Gaberones, dated Jan. 26, says:

"Colonel Plumer used his 12½ pounder on the Boer position for the first time today. The Boers replied speedily and accurately, but did no damage."

Mr. Winston Churchill, in a dispatch to The Morning Post, comes to the defense of Colonel Long, whose error lost the British the battle of Colenso, and while admitting that there was an error of judgment contends that there was no error arising either from rashness or incapacity. He says Colonel Long's internal injuries are severe. A grave operation was performed on him on Jan. 25. The loss of this officer to the artillery forces is, Mr. Churchill thinks, very serious.

Italian Offers Aid.

ROME, Feb. 3.—Ricciotti Garibaldi, one of the sons of the famous Italian patriot, in consideration of the services rendered by England to the cause of Italian independence, has offered the British government to command a corps of Italian volunteers in South Africa.

Consul Hay Leaves Delagoa.

LOURENCO MARQUES, Feb. 3.—Adelbert S. Hay, the new United States consul at Pretoria, left here yesterday morning on his way to his post.

Vermont Welcomes Bryan.

MONTPELIER, Vt., Feb. 3.—In the language of the Republicans of Vermont Colonel W. J. Bryan invaded the enemy's country yesterday, and his visit, it is predicted, will restore harmony among the factions in the Democratic organization, small as is the body in the state. His reception was a warm one, and that is saying considerable, for the mercury stood at 28 degrees below zero most of the day. He reached here at 4 o'clock, coming from Concord via White River Junction. On arriving here he went to the hotel, and a little later he visited the Dewey homestead opposite the state capitol. In the evening he addressed two audiences, representing in all nearly 5,000 people, and in spite of zero weather made the temperature of personal patriotism rise to a high heat. It was one of the most interesting nights for Montpelier folk seen in years, excepting the Dewey celebration in October.

California Republicans Bolt.

SACRAMENTO, Feb. 3.—Thirty Republican members of the California legislature who were pledged to vote for D. M. Burns for United States senator bolted the caucus on the ground that the conference of Republicans in favor of Thomas H. Bard was a violation of the caucus agreement. Bard had 51 votes pledged, but if the caucus is dissolved he will need 51 votes in joint session.

Medal For Bravery at Sedan.

MIDDLETOWN, N. Y., Feb. 3.—Adam Lambrecht, a German farmer of Franklin, Delaware county, has just been awarded a gold medal by the German government for bravery displayed in the battle of Sedan in the Franco-German war. Lambrecht had some of his front teeth knocked out by a French bullet, but continued fighting until relieved by the surrender of Napoleon.

American Fish and Game Association.

MONTREAL, Feb. 3.—At a meeting held here yesterday of prominent men from the United States and Canada "the Fish and Game Association of North America" was formed. A resolution will be passed declaring against all political interference in the carrying out and the making of fish and game laws.

February 6—Opening session of class in penmanship at the Y. M. C. A.

February 8—Opening session of State convention of the Y. M. C. A. at Passaic.

What Will Carnegie Do?

Those who follow American politics closely have looked upon Andrew Carnegie as one of the most liberal contributors to Republican campaign funds for a number of years, but since the iron maker and philanthropist has differed so violently in his views with the McKinley administration over the question of what shall be done in the Philippines, it has come to be regarded as an assured fact that the coming Presidential campaign will find the bank account of Mr. Carnegie closed to Republican appeals.

This position of Mr. Carnegie has been looked upon by some optomistic Democrats as equivalent to saying that he will offer extensive financial aid to Col. Bryan's candidacy because of the latter's anti-imperialistic programme. Jumping at hasty conclusions, a report has been widely circulated—and accepted in an apparent credulous manner by the Democratic leaders—that Mr. Carnegie will contribute the very generous sum of $500,000 to the Democratic campaign fund in the hope of defeating President McKinley for re-election, and thus euchre the present policy of the Government in dealing with the Philippines.

The matter has been given such wide and persistent publicity that Mr. Carnegie has decided that he should take some recognition of the rumors, and he does so in a letter to the New York Sun today. Quoting the newspaper article of his alleged friendly feeling for Mr. Bryan on the ante-campaign issues, Mr. Carnegie says:

The issues of the coming Presidential election are not yet determined, and what one's duty may be cannot be know until they are. If a choice of evils be presented one will have to choose the least as seen in November.

The iron-maker's words allow of a wonderfully elastic understanding of what he proposes to do, for his words a "choice of evils" leaves plenty of room for argument. Republicans, of course, will claim that if there is any deleterious effects to be the outcome of the Presidential choice, they represent the minimum; and, naturally, the Democrats argue the same thing in respect to themselves.

By his own formal words Mr Carnegie does not fasten on either party the particular brand of political sin that he regards as most harmful. Unless there is a great change, which is improbable, his qualification "as seen in November" is significant of "cutting loose" from his former party affiliations.

The Philadelphia Record says that the first seemingly authentic information as to the number of foreigners in the Boer army is contained in a letter, just published in London, from a former officer of the Twenty-second German Infantry, who is now in the service of the Transvaal Government This informant states that there are nearly 10,000 trained European soldiers, of whom quite 300 are officers, in the burgher army before Ladysmith. He also remarks that, "owing to the strength of our position on a circle of heights, like those around Sedan, we cannot be brushed aside except by a relief column outnumbering us two to one"—a prediction which has been verified by events.

A remarkable action at law has been commenced in Kansas, where Mrs. Catherine Smith is suing the city of Columbus for $15,000 damages on the ground that through the neglect of the proper authorities to enforce the Prohibition law her husband had become an habitual drunkard. The case has aroused much interest among the legal fraternity in the west, but no sensible man believes that the woman will ever get any damages.

Uncle Sam pays $3,500,000 a year for the rent of 500 postal cars, which could be built for $2,000,000, and they would last for twenty years. Uncle Sam also paid one cent a pound for each fifty-six miles of distance that the railroads hauled the mails. This is about fifty times as much as is charged for carrying merchandise, which is all the argument that is needed to call for a reform in this direction.

Calculating on the basis of results of previous exhibitions at Paris, it is assumed that 52,536,280 people may reasonably be expected to pass through the turnstiles, and it is not impossible that the total number may reach 60,000,000.

Senator Henry Cabot Lodge is credited with holding the opinion that Governor Roosevelt can be nominated and elected President notwithstanding Mr. McKinley's apparent control of the situation.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

During the days when many of the sidewalks were so icy, it was rather remarkable to notice that so many people failed to see the advantage of keeping on the sunny side of the streets where the sun's rays had melted off the ice and left the sidewalks navigatable. Many people went slipping and sliding along the shady side of the street when they might, by the use of a little observation, put themselves where the traveling was comparatively easy.

* * * * * *

The family that is happy on $12 a week has none of the difficulties of the matron with a house and family to manage that cost $200 a week. A prominent manufacturer, with a $10,000 a year family on his hands, undertook to establish a system of bookkeeping in his home. He bought a gilt edged, kid covered account book and all that went with it. He explained single-entry bookkeeping to his wife and she agreed to keep the accounts as directed. There were only two entries in the book when the husband banished it. They were: "Received $250 from M—" "and spent it all."

* * * * * *

The projected trolley road from Trenton to Point Pleasant has not yet materialized, although the enterprise has not been abandoned. The proposed road would make a direct and almost straight line from Trenton to the seashore, passing through Lakewood and several other towns and villages. It would save about fourteen miles over the present roundabout route through Monmouth Junction and Freehold, and would also, it is believed, carry nearly all the summer travel from Philadelphia and Trenton to the seaside resorts, from Point Pleasant to Long Branch. The principal backer of the enterprise is John L. Murphy, of Trenton, president of the Point Pleasant Land Company. It is understood that Mr. Murphy has interested several capitalists, who regard the scheme as most promising.

* * * * * *

All of the liverymen in town complain that business has been remarkably poor this winter. They account for it by the fact that there has been so little really bad weather when people feel the need of hacks. With few exceptions, the days have been quite pleasant for walking, and many have taken advantage of them. Then, too, there has been no snow and the sleighs have remained in their summer quarters. One evening early in the week there was some sleighing, but most of the rigs out were private ones, and there was no demand at the livery stables for sleighs. The coming summer the liverymen expect to see good trade. Last summer their business showed a decided increase over the summer before. The use of wheels for pleasure is not as universal as it used to be, and the livery business has recovered to a large degree from the great slump that followed the boom in bicycles. The automobiles promise to hurt the livery business seriously in the future, but their time is not yet come and will not for another year.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Baking Powder in 1900

The strongest, purest, most efficient and wholesome of leavening agents. Not lowest in price, yet the most economical; in 1900, as in the past, indispensable to the work of the pastry cook.

The New Year brings prosperity almost unsurpassed in the history of the country.

For every one there is money enough to buy that to eat which is pure, sound, good, wholesome.

Why should we use cheap, impure, unhealthful articles of food? There is no economy in them; they endanger the health, they may cost life. There are reported almost daily cases of sickness caused by eating cake, puddings or biscuit made with the cheap, alum baking powders.

In all articles for food buy and use only the best. The good health of the family is of first consideration.

Alum is used in baking powders because it is cheap, costing less than two cents a pound. It is a corrosive poison. Think of feeding it to children! Yet the manufacturers of well-known alum powders are actually denying that they contain alum.

ROYAL BAKING POWDER CO., 100 WILLIAM ST., NEW YORK.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Miss Margie Somers, of the borough, is confined to her home by illness.

John Duffy, of New York, has been visiting borough friends for a short time.

Miss Gardner, of Brooklyn, is visiting friends in Plainfield for a short time.

Frank Wikoff, of East Front street, has entirely recovered from a recent illness.

Harry Brokaw, of Somerville, has been visiting friends in town for a short time.

Mrs. John Rafferty, of Sandford avenue, is able to be out again after a severe illness.

J. A. Smith, of Central avenue, is detained at his home with a severe attack of tonsilitis.

Miss May VanFleet, of East Third street, has returned from a visit with friends out of town.

Miss Mabel Dubois, of Park avenue, has returned from a visit with relatives at Whitehouse.

J. Stanley Mosher, of West Fifth street, is home from Ormsby, Pa., on a short vacation.

Alburtis Swaim, an employe of J. A. Smith & Bro., grocers, is confined to his home by illness.

Miss Lula Randolph, of West Eighth street, has returned from a visit with Bound Brook friends.

Miss Florence Hendershot, of Somerville, has returned home after a visit with Plainfield friends.

The Misses Sellars, of Carlisle, Pa., are guests at the home of John Bushnell, of Central avenue.

Mr. and Mrs. Herman Schwed, of the borough, are entertaining company from Pennsylvania.

B. S. Braider, of Manning avenue, is now able to get about without the aid of crutches and canes.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence to The Press.)

Dunellen, February 3.—The general committee that has in charge the bazaar to be held at Apgar Hall February 15th, 16th and 17th under the auspices of the Epworth League of the Methodist church of this place, met at the home of J. Emmons Henry Thursday evening and perfected plans for the affair. Mr. Henry is the president of the League and is very much interested with success of the undertaking. Many of the merchants of Plainfield have contributed articles to be sold at the fair. Among the valuable gifts is that sent by John Wannamaker of a silver salad dish of handsome design.

Miss Emma E. Egel, of Lincoln, denies that she deserves credit for presenting a new organ to the Lincoln Sunday-school. She says she simply exchanged the old organ for a new one and the Sunday-school has agreed to pay the difference in the cost of the instrument.

The condition of Joel Giddes, Jr., who is still at Muhlenberg hospital, where he was recently treated for an injury to his head, is somewhat improved. Strong hopes are entertained for his recovery.

Rev. Thomas Houston, the blind preacher and singer, will assist Pastor Jamieson, of the Methodist church, at special services beginning Feb. 20th. He will remain for two weeks.

The topic for the Epworth League meeting at the M. E church tomorrow evening will be: "Things That Endure." President J. Emmons Henry will lead.

Albert Crandall, of Little Genessee, N. Y., has been visiting his brother, George R. Crandall for a few days.

Charles Carpenter has been entertaining his mother, Mrs. Ellen Carpenter, from Williamsport, Pa.

The Father Light Circle was entertained at the home of Miss Emma Nelson Tuesday evening.

Mass will be celebrated at St. John's Roman Catholic church tomorrow morning at 10:30 o'clock.

Mrs. L. B. Nelson, who has been confined to his home with a severe cold, is somewhat better.

Mrs. Bernard Sirisky had a visit from Miss Martha Sirisky, of Raritan, a few days ago.

Mrs. O. A. Douglass has been visiting relatives on Staten Island.

Miss Annie Frazie, of Bensenhurst, is a guest at Cedar Cottage.

W. R. Larkin is recovering from a slight illness.

Mrs. Ziba Osmun is ill with pneumonia.

PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, Feb. 3.—Judge Clark had his first truant case, since the recent truant law was passed, before him Thursday. The offender was the young son of Joseph Curano. The complaint was made by the father who said the boy was incorrigible, was a habitual truant from the public school and that all peaceable means had been exhausted to have the boy attend school regularly. The Judge repremanded the young culprit severely and told him that if he gave him one more trial he would expect him to accede to parential rules and be in attendance at school every day. If not Truant Officer Walpole would be notified and he would be sent to the Reformatory. The young prisoner tearfully promised to obey the mandals of the court.

The sudden death of Philip Radin early Friday morning was a shock to his many friends in the village. Mr Radin was about town Thursday apparently in the best of health and arose Friday morning as usual and started about the morning's work. His son happened to open the door and found his father lying between the house and barn. He was carried into the house, but life was about extinct. Dr. Westcott diagnosed the case as one of apoplexy. Funeral services will be held from the house Monday afternoon at 2 o'clock.

Rev. G. M. Shott will take for his subject for tomorrow morning's sermon, "The Man in the Pit." In the evening the subject will be "Two Certain Detectives." The evening sermon will be preceded by the usual prelude. Subject, "Subponeas."

The Town Committee and the members of the newly elected Fire Board held a joint meeting in the township rooms last evening. Business relating to the work of the fire department was transacted.

The members of B. and E. Co. will hold a special meeting in their rooms this evening to take action upon the death of their brother fireman, Phillip Radin.

The juniors of the Baptist Young People's Society met in the church parlors yesterday afternoon for reorganization.

Summons have been issued in the contract case of Lee against Gwynett, summons returnable February 10th.

Twilight Council, Jr. O. U. A. M. held an interesting weekly meeting in their rooms last evening.

WESTFIELD

(Special Correspondence to The Press.)

Westfield, Feb. 3.—Harry Edwards and Charles Edwards were arrested at Westfield Thurday and taken to the county jail. Harry Edwards was committed on complaint of Overseer of the Poor Decker for neglect to provide for his family. Charles Edwards was arrested under an indictment by the Grand Jury for being implicated in an assault on Angelo Melone several months ago. Two Westfield constables have carried a warrant for his arrest ever since the assault, but Constable George Peck made the arrest.

SOUTH PLAINFIELD.

(Special Correspondence to The Press.)

South Plainfield, Feb. 3. — Thos Herlihy and Michael Humphry are having a little trouble over the rent of the farm they occupy. The trial was at Metuchen yesterday afternoon.

Benjamin Randolph, the driver of the Lehigh Valley stage, is enjoying a short vacation. B. Frank Harris is driving in his place.

Mr. Paine, of Samptown, is doing the mason work on Mrs Hogan's new house.

F. Miller has charge of the dumping and mining of coal at the coal shoots

The coal storage is filling up very fast. It is running night and day.

Harry Teeple is working at the coal storage.

"Doc" Greenwood, of Woodhull & Martin's dry goods store, returns to work Monday after enjoying a vacation of one week.

—An adjourned meeting of the borough Council will be held this month when the annual reports will be presented prior to the annual election.

CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher.

EARLY INTELLIGENCE.

—Next Monday evening the Borough Board of Health will meet in regular session.

—There were five adoptions at the meeting of Miantonomoh Tribe of Red Men last night.

—The annual meeting of the Hillside Tennis and Golf Club will be held Monday evening next.

—Fred Endress, the West Front street butcher, has completed the improvements at his shop.

—The Ladies' Auxiliary of the Plainfield Catholic Club is arranging to give one of their pleasant social dances at the clubhouse.

—Mayor Smalley is authority for the statement that as yet no one has been considered for the commission that will probably have to be appointed in the matter of widening Somerset street.

—At the next business meeting of the Christian Endeavor Society of the First Baptist church several important amendments to the constitution will be made, increasing the usefulness of the society.

—Dr. O. Edward Janney, of Baltimore, Md., a minister in the Religious Society of Friends, is expected to attend the Friend's meeting on Watchung avenue First day morning, February 4th.

—Several local Sunday-school workers will attend an institute for primary and junior Sunday-school teachers to be held at Somerville next week Friday at 10:30 a. m., and 2 p. m There will be several important addresses.

—The entertainment that was to have been given last month under the auspices of Old Glory Council, Daughters of Liberty, and which had to be postponed, will be held next Tuesday evening in the rooms in the Babcock building.

—In the society notes of New York papers giving the details of the largest private dinner party of the season, Wednesday night, by Mrs. Leary, of Fifth avenue, in honor of Mrs. Astor, the names of Mr. and Mrs. Piere Mali are included among the forty guests.

Drying preparations simply develop dry catarrh; they dry up the secretions which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly.

All druggists sell it at 50 cents or it will be mailed by Ely Brothers, 56 Warren St., N. Y.

Preußen.

Provinz Brandenburg.

Berlin. Die Vorlesungen und Uebungen an der königlichen Landwirthschaftlichen Hochschule werden im laufenden Wintersemester von 580 Studirenden besucht.—Am 1. April wird in Verbindung mit der hiesigen Universität ein Institut und Museum für Ozeanographie (Erforschung des Meeres) eröffnet werden.—Ihren 100. Geburtstag feierte dieser Tage die Almosenempfängerin unverehelichte Ernstine Franke, Pallisadenstraße Nr. 22. Sie ist ganz auf die Milde ihrer Mitbürger angewiesen.—Beim Indianerspielen erstach hier ein 15jähriger Knabe seinen 14jährigen Spielkameraden. Das Messer traf unglücklich in's Herz. Beide Kinder wurden als gutartig geschildert. Der Getödtete war der einzige Sohn einer Wittwe.

Forst. Die Grube Amalie-Wilhelmine in Teuplitz ist durch Selbstentzündung in Brand gerathen. Bei den Löscharbeiten sind ein Obersteiger und ein Bergarbeiter erstickt, ein Arbeiter wurde beraubt.

Nauen. Ein märkischer Waldriese von außerordentlicher Stärke ist kürzlich in der Stadtforst gefällt worden. Der Baum, eine Eiche, hat sieben Fuß Durchmesser; sein Holz wiegt über 300 Centner.

Provinz Hannover.

Emden. Die Shantung-Eisenbahngesellschaft, welche in China einen Eisenbahnbau zunächst von 450 Kilometer Länge ausführt, ist mit den großen Eisen- und Stahlwerken Friedrich Krupp, Dortmunder Union, Hörder Bergwerks-Gesellschaft und Bochumer Gußstahlverein, welche vier Fünftel aller Materialien für die Bahn liefern, sowie der Hamburg-Amerika-Linie und dem Norddeutschen Lloyd, welche deren Beförderung nach Ostasien übernommen haben, übereingekommen, vom nächsten Frühjahre ab ihre Verschiffungen nach China über den deutschen Hafen Emden vorzunehmen.

Geestemünde. Die Fischerei-Betriebs-Genossenschaft gibt die Anlandzahlen am hiesigen Fischerei-Hafen im vergangenen Jahre bekannt. Dieselben zeigen, daß der hiesige Fischmarkt, der weitaus größte des Kontinents, in guter Weiterentwickelung begriffen ist. Es wurden in den Auktionen 29,683,082 Pfund Fische zum Preise von 4,053,422 Mark gegen 29,698,818 Pfund zum Preise von 3,439,909 Mark im Jahre 1898 verkauft. Insgesammt wurden 1789 Dampferladungen angebracht. Zählt man hierzu den von den neun hiesigen Häringsdampfern erzielten Fang im Werthe von circa 400,000 Mark, so ergibt sich für unseren Ort ein Ertrag der Hochseefischerei von rund 4,500,000 Mark.

Provinz Hessen-Nassau.

Frankfurt. Im nahen Dorfe Nied kam es Abends auf der über die Nidda führenden Holzbrücke zwischen dem Nachtwächter Kaiser und zwei jungen Leuten zum Streite, wobei Kaiser die Beiden in die Nidda warf. Der Eine, Namens Sclott, konnte sich retten, während der Landwirth Bauer von Nied ertrank. Der Nachtwächter Kaiser ist verhaftet.

Limburg. Justizrath Hilf, ein bekannter nassauischer Fortschrittsmann, hat kürzlich in bester Gesundheit sein 80. Lebensjahr vollendet.

Wiesbaden. Die Wilhelmi'schen Weingüter in der Markobrunner Gemarkung sind nunmehr endgiltig an die Güterverwaltung des Prinzen Albrecht von Preußen verkauft worden. Die Ruthe wurde mit 400 Mark bezahlt. Auf den Hektar gerechnet, ergibt das den außerordentlichen Preis von 160,000 Mark für einen Hektar.

Provinz Pommern.

Stettin. Arbeiter Ratzmann aus Neu-Steglin und seine Frau hatten vor Gericht beschworen, der Mühlenbesitzer Mix in Nestmühle habe einen Chausseebaum durch Anfahren beschädigt. Es handelte sich also um eine Uebertretung, die mit wenigen Mark zu ahnden war. Die beiden Zeugen haben falsch geschworen, denn sie sind erst nach dem Anfahren zur Stelle gekommen. Das Urtheil lautete gegen Ratzmann auf 4, gegen seine Frau auf 3½ Jahre Zuchthaus.

Köslin. Zu Saleske hat der Briefträger Peth seine Tochter, die ihm Schande gemacht hat, erwürgt und sodann Selbstmord begangen.

Provinz Posen.

Posen. An den städtischen Schulen ist es denjenigen Lehrern, welche den fakultativen polnischen Sprachunterricht ertheilen, vom Kreisschulinspektor verboten worden, häusliche Arbeiten im Polnischen aufzugeben.—Dem gemaßregelten Landrath Dr. Arthur Baarth war von der Regierung eine Stelle als Regierungsrath in Schleswig angeboten, doch hat derselbe den Posten abgelehnt. Dr. Baarth gehört der in der Provinz Posen sehr bekannten Familie Baarth-Modrze an.

Budsin. Der Besitzer Wilhelm Hundt in Abbau-Budsin, der sich vor einiger Zeit in einem Anfall von Geistesstörung den Leib derartig aufgeschnitten hatte, daß die Gedärme heraustraten, ist wider Erwarten völlig hergestellt worden.

A night clerk in one of the well-known hotels of Central Connecticut states these interesting facts: "I was badly troubled with indigestion, biliousness and heartburn. On one or two occasions I've been standing behind this desk and would suddenly find myself toppling over and for a few seconds my mind would be a perfect blank—*a sort of dizziness.* At other times I've been walking along the street and would all of a sudden begin to stagger and I know some people thought I had a jag on, although I never drink any liquor whatever. It was a runner for a New York concern that first told me to try RIPANS TABULES, but they proved to be just the thing I needed and although I have not used fifty of them in all, my troubles from indigestion have vanished—completely."

WANTED—A case of bad health that RIPANS will not benefit. They banish pain and prolong life. One gives relief. Note the word RIPANS on the package and accept no substitute. RIPANS is for sale by druggists, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

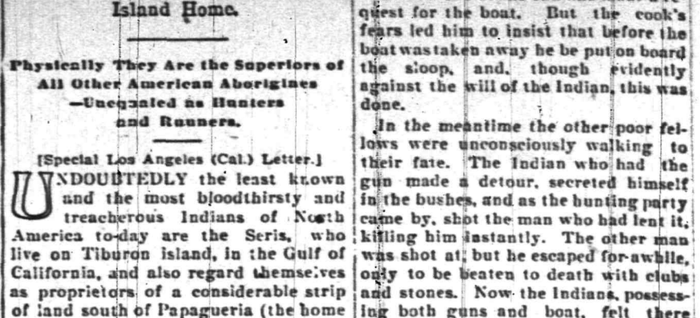
ARE CRUEL SAVAGES.

The Seri Indians and Their Pacific Island Home.

Physically They Are the Superiors of All Other American Aborigines—Unequaled as Hunters and Runners.

[Special Los Angeles (Cal.) Letter.]

UNDOUBTEDLY the least known and the most bloodthirsty and treacherous Indians of North America to-day are the Seris, who live on Tiburon island, in the Gulf of California, and also regard themselves as proprietors of a considerable strip of land south of Papagueria (the home of the Papagoes, in southern Arizona and Sonora) and close to the region of the Yakis, now at war with Mexico. For over 350 years the Seris have been the terror of all white explorers, as for many centuries more they have been the hated foes of all contiguous Indian tribes. By their enemies they are openly charged with being cannibals, but they emphatically deny that they ever ate a human being. Up to the end of the year 1895 they were practically as unknown as they were to Coronado, 350 years ago, but at this later date a scientific expedition under the control of Prof. W. J. McGee, of the bureau of ethnology, visited this dangerous and warlike people and gained considerable information in regard to them. Now and again one may meet with a Seri away from his island home, and this I have done on two separate occasions, and from them gained my first interest in this strange and isolated people. There are many isolated people on the North American continent, as for instance the Havasupais of Havasu canyon, but this is only a comparative isolation. With the Seris, however, isolation is complete. They permit no stranger upon their territory, unless, of course, deterred from ejecting him through fear, and prevented by too great watchfulness from murdering him, and intermarriage with a member of any outside tribe is immediately punished by a cruel and bloody death. Indeed, they slay members of their own tribe with as eager an avidity as the ordinary hunter slays his prey, when any of the rigid and unalterable tribal laws are defied or broken.



A TYPICAL SERI INDIAN HOME.

And in physique there is no people on the American continent who is their equal. Tall of stature, gifted with phenomenal strength and capable of marvelous endurance, they are singularly attractive to those who appreciate and envy physical prowess. Their women are almost equally strong as the men, and both sexes are runners of extraordinary speed and staying quality. In this regard they are rivaled only by the desert Yuma Apaches and the centuries-trained Hopituh or Moki. In appearance they are, as I have said, tall, with full chests and loins, and, while feet and hands are very large, their arms and legs are long and slender. Their skin is black to a marked degree; more so than any other known tribe, and their hair, always worn down over the shoulders, is black and luxuriant.

AN OLD SERI BRAVE.

They are cruel, crafty and treacherous to a degree, as their own relation of the way they tricked and slew two members of a party who visited them clearly proves. There were two newspaper men, a cook and captain of the small vessel in which they sailed from San Francisco to Seriland. Though they were warned of the cunning, treachery and ferocity of the Seris, the San Francisco newspaper men, when they landed on the island, ostensibly for the purpose of hunting, and asked the Indians to guide them, soon placed themselves entirely at their mercy.

Just as the party of Indians and three of the white men started to go to a spot where the Seris professed there was an abundance of game, one of their number came up with a story as simple as it was cunning, that a great turtle was on the shore just around the bend, and that if one of the newspaper men would lend him his gun he would shoot it and rejoin the party in a few minutes. With a faith that proved itself to be his death warrant, one of the writers gave up his gun. This scared the cook and he said he would stay on the lee shore until the party returned. No sooner did he arrive at this determination than one of the Indians made a request for the boat. But the cook's fears led him to insist that before the boat was taken away he be put on board the sloop, and, though evidently against the will of the Indian, this was done.

In the meantime the other poor fellows were unconsciously walking to their fate. The Indian who had the gun made a detour, secreted himself in the bushes, and as the hunting party came by, shot the man who had lent it, killing him instantly. The other man was shot at, but he escaped for awhile, only to be beaten to death with clubs and stones. Now the Indians, possessing both guns and boat, felt there would be no difficulty in seizing the sloop, and, hastily tumbling into the boat, began to row for the vessel. But the cook was on the lookout, and, though he had no gun, picked up a broom-handle and pointed it as if it were a weapon and thus scared off the foes. In the meantime the captain of the boat had weighed anchor and soon the ship was out of reach.

This story I tell exactly as the Seris relate it, for they bragged of their craft and cunning in getting the better of a smart white man who had come to penetrate into the secrets of their homes and life.

Their homes are similar to those of the Yakis and other Indian tribes. They live in clusters—a kind of village of tribal life, in huts or wickiups, built of brush, turtle shells and earth. They know nothing whatever of agriculture, and, strange to say, seldom eat anything but raw meat, fish, crabs, oysters and clams. In the summer, however, they will eat the ripe berries, mesquite beans, prickly pear and other desert fruits.

When a girl reaches the marriageable age a great feast is held. The maiden is decked in whatever their crude fancy dictates as ornament, her face is painted in several colors, in stripes and dots, and feathers are tied in her hair. Then a great dance and general carnival is held, in which every man present is expected publicly to express his hopes and wishes that the heroine of the feast may grow up in perfect health, soon find a suitable husband and become the mother of a large family of vigorous and healthy offspring.

And yet the women cannot all marry unless polygamy is practiced, for there are more women than men. My informant assured me that polygamy was only practiced by his people because of the superabundance of the female sex, and as soon as the balance of sex was found no man would be allowed to have more than one wife.

Thir dress is exceedingly simple, but picturesque. In warm weather it consists of a short skirt made of pelican skin, on which the feathers still remain. When additional clothing is required they use more pelican skins, sewed together with sinew, as many as eight skins sometimes constituting a single robe. These robes are also used to sleep upon and as covering.

In their reed canoes they gracefully skim over the waters of the Gulf of California, and they are very skillful fishermen and hunters. With bows and arrows only as weapons, they succeed in bringing down plenty of game, and turkeys and other wild birds are no strange articles in their larder.

On the island of Tassne, which is not far from the Mexican mainland, although dominated by the Seris, the gray pelican is found in large numbers. The pelican is a sacred bird to the Indians, for he it is who made the first earth, and that, strange to say, is the very island of Tassne. But though the pelican is sacred, the Seri feels there is no violation of the sanctities in killing and eating the object of his worship, and dressing in his well-feathered skin.

With the complete domination of the Yakis by the Mexicans, it is easily supposable that ere long the conflict will be transferred to the Seris, and that they will soon be civilized from off the face of the earth. G. WHARTON JAMES.

Remarkable Hindoo Clock.

The most remarkable clock in the world is owned by a Hindoo prince. In the place of an ordinary dial is a gong, and beneath it, on a metal plate, lie artificial human bones and skulls in a heap, there being a sufficient number to form 12 perfect skeletons. At one o'clock the number of bones forming a single skeleton come together with a snap, the skeleton, by invisible mechanism, springs to its feet, seizes a mallet and strikes the gong once, and returning to the heap falls to pieces again. According to the hour the number of skeletons which rise from the heap varies, and when the whole 12 rise together at noon and midnight the spectacle is said to be most grewsome.

Big Catches of Lobsters.

A Gouldsboro (Me.) man has 20,000 lobsters in pound which he is holding until next spring, when they will be shipped to Boston. He erected his pound last summer by building a dam across the cove, covering about three-fourths of an acre.

PATRIOTISM IN THE CHICAGO SCHOOLS

Methods of Making Good Citizens Out of the Boys and Girls of a City.

There is not an institution in America that is dearer to the hearts of those who have left its shelter than is the "little red schoolhouse." It is indissolubly linked with the best thoughts and the noblest pulsebeats of a nation of patriots.

Where Presidents Have Been Trained.

The nation owns no grander men and women than those who can point with loyal pride to a childhood spent under the spell of the district school. What if the dull clanging of its bell reaches the ear of but a few straggling and sturdy boys and girls? They respond with a scamper of ecstasy; and there is a feeling of freedom even in obeying a summons to labor!

What if the schoolhouse seems deserted and alone? Within is a wealth of determination and purpose!

What if its chiefest glory be the tall and solitary flagpole? Therefrom waves the banner under which heroes have died!

The pupil of the prairies is a stranger to the cinder patches and grassless plots which pass for playgrounds in the crowded city. He might well stand in awe before the school home of his city cousin, and gaze in speechless wonder at the grim, many-roomed building rising story upon story. He would fancy it more like some fabled fortress than like the little familiar schoolhouse on the hill; and yet, within, would find less elbow room than falls to him at home. Here he would encounter no lawless scramble for the open air. He would see hundreds of pupils march out in military order, the very number forbidding any other mode of exit. He would marvel that each pupil of this horde should struggle for a place upon the miserable and barren playground. He would conclude, and rightly, that the machinery which runs the city school is far different from that to which he is accustomed.

The Schools of Chicago.

It is a significant fact that the largest schools of Chicago are to be found in the laboring districts, where one may travel long and then find one's self nearer the center than the boundary of some settlement of foreigners. One might feel not less an alien here than if suddenly transferred to some distant city of an unknown tongue. To instill into the children of these entire colonies the spirit of patriotism and of true Americanism seems a herculean task. This, nevertheless, is one of the chief aims of the school management.

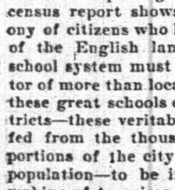
One of Chicago's 247 School Houses.

"Where," may well be asked, "amid such environments, can one catch the breath of patriotism which the country boy draws from the very air about him? Though hidden in form and ceremony, it is here—thanks to the educational system which has pushed steadily towards perfection, keeping pace with this segregation of the masses.

In contemplating a community whose census report shows colony upon colony of citizens who have no knowledge of the English language, the public school system must be viewed as a factor of more than local importance. Are these great schools of the crowded districts—these veritable mills which are fed from the thousands of homes in portions of the city totally foreign in population—to be intrusted with the making of American citizens? The result of the efforts on the part of the teachers to awaken in these little foreigners a love and loyalty for American institutions, would seem to warrant the assumption of this great responsibility. In fact, it is the observation of one principal who has served in schools in which the foreign element is predominant, and also in schools wherein this element is lacking, that the pupils of the former display a far livelier interest in things patriotic than do the pupils of the latter. The foreign parents, he avers, while clinging to their own language with a sentimental tenacity, are proudly pleased at the progress of their children in the language and the learning of their adopted country.

The Lesson of Washington.

One of the most notable dates in the calendar of special days which are observed with interesting ceremonials by the schools is the 22d of February, the anniversary of the birth of Washington. In Chicago it is the custom of the Union League club to superintend in all the schools the exercises incident upon the observance of this day. The patriotic programme for the occasion is long anticipated by the pupils of the large schools in the foreign districts. When the first circulars announcing the event are sent out by the club, there is joy in the hearts of the little foreigners, and the special music is rehearsed with an enthusiasm not to be found in many of the better portions of the city. The circulars are followed by free tickets, which lend a dignity to the occasion that does not escape the notice of these children to whom entertainments are rare.



Teaching a Lesson in Patriotism.

Although Washington's birthday is a legal holiday, and attendance upon the exercises in the school hall is not compulsory, the latter is always well filled with an appreciative audience of children. When the important-looking speaker, whose mission it is to interest the pupils in the true significance of the day, takes his place upon the platform there is a hush of expectancy, for a new voice is about to break upon the quiet monotony of school life. Probably the most pleasing feature comes at the close of the exercises, when each child is presented with the stars and stripes. These flags are about fifteen by nine inches, and are the gift of the Union League club.

Short Talks by Old Soldiers.

Memorial day received a generous share of attention from the public schools of Chicago. Among those schools which do not have the use of a hall for general Memorial day exercises, private exercises of a patriotic nature are in vogue. On such occasions old soldiers who are good story tellers are in peculiar demand. These heroes of the rebellion are hailed with joy in the foreign settlements, and the children of Chicago's Ghetto prove rapt listeners during the recital of thrilling deeds of bravery in the civil war.

"Did You Ever Shoot a Rebel?"

A certain old soldier who was assigned on Memorial day to one of the largest schools in Chicago, nearly all of which are the children of Russian Jews, is of the opinion that there is not to be found a more enthusiastic audience than the one that greeted him on this occasion. Taking his seat upon the platform, with the remark: "If there are any questions you would like to ask, I shall be very glad to answer them," he proceeded to rehearse his experiences with the rebel Johnnies. He had not proceeded far with his narrative, however, before he was interrupted with a storm of questions. Never was a witness more rigidly cross-examined than was this one-legged pensioner in blue by his excited listeners.

At last, having exhausted his stock of war stories without having appreciably lessened the ardor of his hearers, he sought refuge in escape. However, he had reckoned without his host, and had stumped his cork leg barely half the length of the hall when he found himself again surrounded by an eager crowd who demanded more stories, and insisted on knowing if he had ever really shot a rebel.

All Memorial day exercises are under the supervision of the Chicago G. A. R., who make it a point to furnish as many speakers as possible from their ranks. Principals are mourning the fact that good story-tellers among the old soldiers are rapidly becoming fewer, and that each year shows serious gaps in the ranks of the Grand Army of the Republic.

Just for the Girls.

Dewey day is a new arrival among the dates which are fittingly celebrated by the schools of Chicago. This holiday will receive a hearty welcome from the children of the thickly populated foreign districts of the city, for the reason that it promises to rival Memorial day in the matter of war stories. Young heroes of the late war are already being pressed into service as story tellers for the amusement and edification of many thousand pupils.

From the Standpoint of Womanhood.

The events of the Spanish-American war are fresh in the minds of the children, and it is the purpose of every conscientious principal and teacher to point out, not alone the emotional forms of patriotism, but to disclose to them the true and unselfish motive which is the only mark of a real hero. It is not unusual for the school management to invite speakers for special days from prominent woman's clubs. These representatives are expected to reveal the patriotic significance of the day from the standpoint of womanhood. The unselfish service of women upon the battlefield and in the home is a topic vividly pictured to the children. The latter do not tire of stories relating to the stirring lives of the Red Cross women, and when these tales fall from the lips of one who has herself followed closely in the wake of the destructive engines of war, who has been one of the first upon the battlefield after the shrieking shell has done its work, the speaker is regarded with an awe and reverence which indicates how open are the hearts of these little foreigners to all that is heroic and patriotic in the history of our nation.

The special days set aside for patriotic demonstration are but the legitimate culminations of weeks of patient endeavor on the part of teachers to inspire in this army of embryotic citizens the true conception of the duties of American citizenship.

Woman's Golf Championship

Some Changes Asked for of the U. S. G. A. for this Year's Touring by the Probable Contestants.

BEFORE long the United States Golf association executive committee will meet to decide upon the place for holding the next woman's championship. In all probability some eastern links will be chosen, although some critics would have the honor come to the west, inasmuch as Ardsley, Morris county, Shinnecock and Philadelphia have had the championships. It would be error to say that there is not a great deal of interest in one of those U. S. G. A. sessions that settle the championship course selection, but of far greater import to the thousands of woman players

MISS RUTH UNDERHILL.
Woman's Golf Champion of the United States.

in associate and allied clubs of the association is the probable action regarding the conditions governing the tournament. Miss Ruth Underhill, the present champion, will in all probability play to defend her title. She will have to play at the top of her game, too, it is said, to be able to come out of the championship with such flying colors as she had at the Bala links.

There is something radically wrong with the scheme of the women's golf championship and the contestants realize that a remedy must be forthcoming or the annual competition will suffer. With 72 starters, as there were at Bala, the tournament next season would be an unjust one were the U. S. G. A. to stick to the condition that but 16 women making the best medal scores in the opening or preliminary round could qualify. The U. S. G. A. specifies that 32 best scores shall qualify in the men's championship. Why shut out over a dozen of the good women golfers of the country in a competition that is every bit as well contested as the men's championship? Why, too, should the scratch play rounds of the women who have qualified be limited to 18 holes when the men have to play 36 holes?

It is held that the side competitions that have become fixtures in the women's annual competition do not properly belong in the championship list and should be dispensed with. By increasing the match play rounds to 36 holes, it is claimed, the women would not be as fatigued at the end of a day's match as if they participated in an 18-hole match, dined and then played in some of the side issue competitions. If the men who direct golf affairs for the association pay any heed to the women they will certainly change the qualifying round limit to 32 and abolish the hated words "16 only will qualify." Some decided opinions have been gathered from the representative women golfers of the country on this subject. There appears to be a great majority in favor of permitting 32 women making the best medal scores qualify for the match play, but some are uncertain as to the benefit, if any, that might come from making each match-play competition at 36 holes, one round of 18 holes to be played in the forenoon and the other in the afternoon.

POSITION IN "SHORT APPROACH SHOT."

"I am in favor of 32 qualifying," says Miss Underhill. Twenty-eight other women golfers whose play is well known to followers of the ancient and honorable game are of the same opinion. Among those who are emphatic in their expression are Miss Griscom, the Misses Cassatt, Mrs. Caleb Fox, whose competition at the last annual championship was the talk of the golfing world; Miss Spence, Mrs. Hobart Chatfield-Taylor, the Owentsia player who was formerly the western women's champion; Mrs. W. J. Berg, and others. In the matter of the length of the match play rounds the opinions are various. It would appear that if the executive committee is disposed to change the conditions the happy medium of 27 holes might be hit upon instead of leaving a large number to regret the prolongation to 36 holes. Or the committee might insist that 32 would qualify and that the medal play and the final rounds be set at 36 holes. The test with such a large field as the next championship is bound to bring out would be no fairer in 1900 than it was in 1899.

Something must be done, and if the trend of opinion is to be taken into consideration the women will be treated with eminent fairness by the men. Of all the prominent golfers, who comprise the governing board and official roster, there is none who is not chivalrous and inclined to be as courteous to the women as possible.

Will Miss Beatrix Hoyt, the three-time winner of the women's championship of the United States, be one of the starters in the next touranment? That question has been asked of this marvelous player, both at the conclusion of the Philadelphia tournament and since the cold weather began. But of course Miss Hoyt could not answer definitely. The prevailing opinion is that she did not have any heart in her play at Bala, fearing that if she did make an effort to win that she would be criticised for having a monopoly on golf honors. It was urged that across the water Lady Margaret Scott, the several time champion, voluntarily agreed to surrender her right to compete so as permit the honor to go elsewhere that Miss Hoyt wished to follow precedent. Miss Underhill played hardest kind of golf at Bala and by no means an "accident" in tourney. She lives at Glen Cove and at the Nassau club, of which she is a member. She has played many a close game with the crack men players. Possibly because she was eleventh

POSITION AT FINISH OF DRIVE.

in the list of qualifiers, Miss Underhill was not regarded as dangerous in the tournament.

But when Miss Underhill defeated Miss Janet Swords and Miss Pauline Mackay attention was riveted to her. Then she met Miss Elsie Cassatt, of the Merion club, regarded as the ultimate winner by many experts, and won the semifinals by 5 up 4 to play. The hard struggle between Miss Underhill and Mrs. Caleb Fox will be recounted many times at the clubs, and how Miss Underhill won will be a matter of golf history.

While Miss Hoyt had a style at golf that was essentially "Hoytesque," although severely criticised as likely to injure her back in full drives, the new champion is a representative of the cool, deliberate woman golfer who has evidently paid close attention to the orders of her professional teacher. Some experts would pick all kinds of flaws in her style, but it was effective against one of the best women golfers of the season—Mrs. Fox. The champion has a long, full swing stroke and lets her driver fall perhaps two feet too far down behind her immediately she has reached the top of her drive. Her arm appears to go back very slowly, and there is a pause for the slightest part of a second at the top of the drive. But she has a distinctive follow through and gets a fair, but not remarkable drive.

In putting, Miss Underhill has none of the easy graces that marked the work of Mrs. McIlvaine, the western champion's play, at the Onwentsia tournament. She stands with her feet wide apart, practically facing the hole, and grasps the shaft of the putter with her hands fully ten inches apart. The top hand is very close to the top of the club. Then she makes a number of false swings, each time addressing the ball as if to make the stroke, and a close watcher can scarcely tell when she really means to make the stroke. She scarcely hoped to win at Bala, but now she may be depended upon to meet all comers in the next annual contest for qualifying honors, no matter whether 16 or 32 golfers are permitted to qualify, and after having got into the qualifying list she will show her deliberate play in the match competitions at whatever length the committee shall elect to make the rounds.

AMONG THE STEPPERS.

A. C. Vail, of West Eighth street, is keeping his trotting stock in the pink of condition, and in the spring he hopes to make some good records.

NECESSARY TO HAVE COMMISSION NAMED

[CONTINUED FROM PAGE 1.]

clerk had been compared and found correct. He introduced a resolution that the collector receive 5 per cent. of all rents he should collect on property owned by the borough, and that such amounts should be charged against the property. This was carried.

He also introduced a decidedly important resolution, which was afterwards carried without debate, that the Borough Counsel should take proceedings to obtain possession of property purchased by the borough for delinquent Watchung avenue assessments.

Mr. Rogers reported favorably on the election of Frank Gunning to the West End Hose Company and advised that the resignations of Dr. J. H. Cooley and George Kliner be accepted.

In the interval that followed, the Mayor remarked that the map of the proposed Somerset street improvement would hereafter be found at the Clerk's office and asked those who were willing to dedicate the property to visit the office and sign for their shares.

Mr. Rogers added that the taxation committee had also to report adversely on the claim of Chas. Bock. At 9:30, the Council adjourned for two weeks.

Trust Company Fights Court Clerk.
(Special to The Daily Press.)

Trenton, February 3.—The Fidelity Trust Company, of Newark, has instituted mandamus proceedings to compel the Supreme Court Clerk to permit the trust company or its employes to examine the records and indices of the Supreme County Clerk's office. This office contains a record of judgments, and the searches conducted by the office net the State a large sum. The trust company desires the privilege of examining these records so that it may also make researches for its clients. The rule to show cause is returnable February 10, at Trenton.

Praise Service.

The monthly praise service at the Crescent Avenue church will be held tomorrow evening. Selections from "The Daughter of Jairus," by John Stainer, will be given by the regular quartette choir of the church.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World

"How Smith Met Jones" is the name of the comedy that comes to us at Music Hall tonight with the highest recommend of the press wherever it has been presented. Its story is based on the meeting of a young man, (a regular mamma's boy) named Smith with a young lady, the darling daughter of a doting old professor named Jones, and allows of no end of complications. Fun fast and furious rushes through the play from the time the curtain raises until its final descent. The situations are said to be ludicrous in the extreme and the climaxes so entertainingly ridiculous that uproarious laughter is the result. The company that presents this comedy has many people that are well known in the world of amusement. Among them are Phil Mack, Harry Fisher, Bert Doris, Clara Gale, Bessie Beardsley and Magda Henry.

* * * * * *

"A Guilty Mother," Henry Myers' scenic production, will be given its first hearing at Music Hall next Tuesday night. "A Guilty Mother" is one of those plays that make us feel proud of ourselves, for while it does not dwell upon subjects of woman's infidelity too harshly, it shows us how much good can be accomplished by the faithful observance of the higher charms that bind us to those who we hold most dear. It is in reality a lesson of human courage; devotion and noble sentiment. It is not a dull play, for the comedy and sensational features are given in such great quantity that while the mind receives the eye and ear is delighted. The scenic embellishments form a large part of the pleasures to be anticipated in this production.

* * * * * *

"A Man of Mystery," which is now being played at the Third Avenue Theatre, will be presented at Music Friday of next week. One of the sensational incidents in the play is where a rich man is hypnotized by a burglar and made to rob his own safe, is based on fact. Such an occurrence actually took place in Providence, R. I., not long ago.

IN THEIR OWN NAME AGAIN.

VanEmburghs Have Settled With Their Creditors.

George L. VanEmburgh & Son, whose honorable business career in this city has brought them lots of friends, have effected a satisfactory settlement with their creditors, and have resumed business under their own management at 135 East Front street.

W. R. Codington, the assignee, has obtained a decree of the court authorizing the settlement to be made. Their creditors generally are rejoiced to know that the settlement has been effected and that they will be enabled to resume business.

A new line of goods has been purchased by the firm and they will be happy to see all their old patrons at their store, which has been leased by them.

Having reduced the fixed charges and expenses Mr. VanEmburgh will be enabled to furnish to his patrons goods at a closer margin than ever before.

AN APPEAL FOR MERCY

REV. MR. KOECHLI WRITES OF MRS. FINGERHUTH'S CASE.

Declares That She Is Not a Criminal, and That She Deserves to be Pardoned—The Prisoner Has Suffered Much.
(Special to The Daily Press.)

Somerville, February 3.—Rev. Mr Koechli, formerly of North Plainfield, and now pastor of the German Reformed church in this place, has interested himself in the case of Mrs Henrietta Fingerhuth, who is serving a term in the county jail under a sentence for manslaughter in killing Paul Roebricht. Rev. Mr. Koechli is instrumental in circulating the petition for her pardon, and in that connection he has written the following letter for publication:

"A petition for the pardon of Mrs. Henrietta Fingerhuth is being circulated and has already been signed by a good many of the leading citizens There may be some doubt about the advisability of this, because many a conscientious man may think this would only work to encourage wrong doers, or at least it is misplaced sympathy. A crime must be punished and a criminal must take the consequences of acts, etc.

"This is undeniably correct and we would be the last to do anything to weaken the majesty of the law, which is our protector, or to shield a criminal, or to show only sentimental and misplaced sympathy.

"But we do not hesitate to say that it is our firm conviction Mrs. Fingerhuth is no criminal, neither in character or in the legal sense of the word. Both points can be proved, and therefore she deserves our sympathy and help.

"This is no reflection on the jury which found her guilty of manslaughter. It is possible for a jury to be clouded by misapprehension of circumstances, as has been the case in in the Millstone case about a year ago, which was reversed by Judge Bartine.

"If it is wrong to shield a criminal, or to be too lenient with him, then it is even more wrong that one should suffer as a criminal who is none.

"Mrs Fingerhuth has already suffered much and will suffer longer for an unfortunate deed, for which she is very sorry, done in a moment of anxiety and confusion and under circumstances which make her act excusable in the eyes of the law.

"We are satisfied that she has been sinned a good deal more against by those who ought to have known better than she has sinned. All this can be proved if necessary, and therefore we think that the sympathy shown her is just, deserved and entirely appropriate, and her pardon will not only be an act of leniency, but an act to which she is entitled.

"F. Koechli."

GERMAN BLONDES.

They Form the Largest Per Cent. of the Types of Germany's Population.

The German Anthropological society has been engaged in recent years in collecting statistics relative to the comparative frequency of the blonde and brunette types and their distribution through the German empire.

The results are of interest as giving evidence of the original sources of the population in various sections. The observations were confined to school children, 6,000,000 of whom have been examined.

For purposes of classification only those that had blue eyes and fair hair and skin were counted as blondes, and those whose eyes, hair and skin were all dark, as brunettes.

All others (for example, children with dark eyes and light hair or with blue eyes and dark hair and skin) were put in a third or "mixed" class.

In the empire as a whole the blondes were found to number 31.8 per cent., the brunettes, 14 per cent., and the mixed types, 54.2 per cent In some districts the preponderance of the blonde element was much more marked—especially in a part of the Grand Duchy of Oldenburg, where there were only four per cent. of pure brunettes.

The effect of the brunette, Roman element was distinctly marked in the southern and southwestern parts of the empire. Near Worms and Speyer, indeed, one often sees faces which strongly suggest those of central Italy or Roman statues and paintings.

Yet streaks of blonde preponderance, apparently marking the paths of Germanic migration, were traced up to the Italian frontier.

A Close Call.

They were a pair of colored whitewashers, standing on the street corner and talking about hard times, when a white man stepped up, bent over and felt around their heels, and presently rose up with three ten-dollar gold pieces in his hand.

"I dropped 'em here an hour or so ago," he explained, as he jingled them under their chins and walked off. The two men looked at each other for a long time and then one observed:

"Rastus, der hain't no luck in dis world for us fur shure. We was walking right on dat gold and didn't know it."

"Reckon it's de doin's of de Lawd," humbly replied the other. "If we'd a found dat money we'd bin so stuck up ober it dat de Lawd would hev had to send de cholera around to take de vanity out ob us. It was a cluss call, Brudder Smith—a cluss call"—N. Y. Sun.

THE PULPIT SUBJECTS

Endeavor Day Service.

The Christian Endeavor Society of the Congregational church will hold a special Christian Endeavor Day service tomorrow evening at half past seven. There will be brief addresses on "What the C. E. Movement has Done for Young People," by Miss Hawkins, President of the Local Union, I. Winthrop Travell, of the Crescent Avenue church, and others.

Owns a Farm in the Valley.

Relatives of Mrs. Phoebe Osborne who has just become the fifth wife of Archibald Campbell, of S. P. C. A. fame, have been found in the near neighborhood of Plainfield. They are living on the Allen farm in Washington valley which was purchased some time ago by Mrs. Osborn and is now held in her name.

—Warm feet in zero weather is a real luxury, so reads the heading of Doane & Edsall's ad in another column. They also give a receipt how to enjoy this much desired boon.

Purchased Five Hundred Men's Suits and Overcoats.

We secured for ready cash the finest lot of clothing that we ever handled in this town before, made by the Union Clothing Co., of Rochester, N. Y. Each and every garment bears the union label which is in itself a guarantee of first-class workmanship and latest style, but owing to the lateness of the season we have purchased this lot of goods for less than we ever dreamt of buying them at, and as we buy so we sell. An opportunity that you will not have again this winter to dress yourself up with a suit and an overcoat for almost the price of a single garment. Here are the prices that will talk for themselves:

Lot No. 1—
50 Men's Suits; they are made of very stylish, fancy cheviots, also in blue and black worsted cheviots, good and heavy and up-to-date in style, originally made to sell at $10 00, will be offered at this sale at..... 4 50

Lot No. 2—75 Suits of all-wool worsteds, cassimeres and Scotch cheviots, very stylishly made, suits that sold early in the winter from 12 00 to 13 00 to go at this sale at $5.75. Remember the above lots of goods are new, being just received.

Lot No. 3—68 Men's Suits of the finest grade, the new style Oxford mixed and also strictly all-wool worsted stripes made up with the latest style vests, we have them in stout as well as in regular sizes, the wholesale prices of these suits were from 15 00 to 20 .00, we will sell what we have left of them at $7 .50, this is positively the best value we have ever offered.

Lot No. 4—73 Men's Overcoats, black or blue meltons and Oxford mixed friezes, this is really an exceptional fine lot of overcoats, if we would have had them earlier in the season we would have retailed them from 10.00 to 12 .00, to go at this sale your choice at 5 00

Lot No. 5—45 of very fine dress up strictly up-to date overcoats, lined either with satin or worsted clays, also received in this present lot of clothing, worth from 12.00 to 15 .00, to be sold now at 6.75.

This is only a part of the great number of bargains we will offer this Saturday, be on hand sure as this will be a "Crack-a-Jack" sale.

The stock must go in order to have room for our great Spring Stock of clothing, which we expect soon.

NEW YORK CLOTHING CO.,

M. WEINBERGER, MANAGER,

214 West Front Street, Next Door to Music Hall, Plainfield, N. J.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders

—At VanEmburgh & Son's this evening hosery sale. 135 East Front street.

—The regular meeting of the McAll Auxiliary will be held at the Library Wednesday morning, February 7th, at 11 o'clock.

—The W. C. T. U. held a regular business meeting Thursday afternoon and formulated plans for carrying on their work in a more aggressive manner.

—The Christian Endeavor Society of the Seventh Day Baptist church is arranging for a St. Valentine's social to be held on the evening of February 14th.

—Howell Division, Sons of Temperance, will hold a lunch-box sociable in their rooms next Monday evening There will be a literary and musical programme.

—There will be a communion service tomorrow morning at the First Baptist church. At the same time several persons will be received into membership.

—O. S. Rogers is the special agent in Plainfield for the Mutual Life Insurance Company, and not D. S. Rogers, as misprinted in the advertisement of the company.

Hand Burned by Electricity.

William Symons, of East Third street, who is employed in New York by the Edison Electric Company, a few days ago burned his hand severely. He was cutting a live wire and the handle of the pliers he was using, in some way formed a "ground" and the flame burned the hand. The accident kept Mr. Symons at home for several days.

Chimney Burned Fiercely.

A still alarm was sent to the West End engine house yesterday afternoon at 5:20 o'clock for a chimney fire at the home of Herman Overland, 825 West Fourth street. The soot in the chimney caught from a wood fire in a stove and burned fiercely. Five extinguishers were required to put out the flames.

Elizabeth Minister to Speak.

Monday evening at the Trinity Reformed church there will be "Christian Endeavor Day" service, and Rev. Wm. B. Hamilton, of Elizabeth, will make an address. There will be special music, and a special offering will be taken for "Endeavor" church fund.

Miss Elizabeth Kepler, of the Plainfield Business College, has just taken a position as stenographer in the office of Silas Dewey Drake.

Differences in Eyes.

Besides varying in size, shape and color, eyes differ in visual force and in power of accommodation, and also that the same faults affect only one of them. It is an established fact that we all use one eye—the right or left—in preference when looking through a glass or taking aim with a gun. We are right or left-eyed as we are right or left-handed or footed. The ignorance of most people on this subject is illustrated by their buying glasses at the opticians' without taking account of any difference between the eyes.—Chicago Chronicle.

CHORISTERS WANTED!!

Men and boys are wanted for the new choir of Holy Cross Parish. A complete musical training will be given them.

Apply at Parish House next Monday at 4:30 p. m., and Friday at 7.30 p. m. 2 2 3

WESTFIELD BILL CUT IN TWO

PROMISE THAT CARS WILL SOON BE RUNNING TO ELIZABETH.

Cars Now Run Between This City and Cranford Every Fifteen Minutes and Are Well Patronized—Overhead Bridge at the B. & O. Railroad Crossing Will Be Built in the Near Future.

Col. E. W. Hine, secretary of the Westfield and Elizabeth Street Railway Company, has asked the Westfield Township Committee to relieve the company from paying $154, the amount of the first year's bill on account of franchise privileges granted the Rikers to build their road through Westfield.

The bill was sent to the railway company by the Township Committee and dates from the first day of January, 1899, to the first day of January, 1900. Col. Hine explained that the road had not been running for a year; in fact, only for a few months, and therefore he considered it only fair that the Committee should not charge the company for toll when it had not been doing business.

Colonel Hine wanted the Committee to remit the bill entirely, saying that other townships along the line were considering the question in that manner, and one township has already remitted the bill.

After considerable discussion the committee decided to charge the company for only half the year, which made the bill $77. Colonel Hine thanked the Committee and said that some day in the near future cars would be running to Elizabeth, and then he hoped the company would be reaping the benefit it was striving for.

Cars are now running between Cranford and Plainfield under fifteen-minute headway, and, notwithstanding the extreme cold weather, the road is being well patronized. The crossovers for the Lehigh Valley crossing at Aldene are expected to arrive the 10th instant, and then cars will be running to Lorraine.

The Rikers will build an overhead bridge at Cranford to cross the Baltimore and Ohio Railroad tracks. The bridge will be built south of the railroad crossing on South avenue, and the trolley line will be run in the shape of a crescent over private right of way from South avenue, and will cross over the railroad tracks about 200 feet south of the grade crossing. This bridge will be built for the trolley line especially, and it is understood the officials of both roads have come to a mutual agreement on the question, and just as soon as the weather will permit the bridge will be constructed.

MAY TURN CHILDREN ON STREET.

No One to Care for Little Ones Whose Father Is in Jail.

(Special to The Daily Press.)

Westfield, Feb. 5—The case of Charles E. Burtis against Harry Edwards for possession of a part of the building known as the Castle, at the junction of North and Central avenues, was heard by Justice Collins Saturday. As Edwards is now in the county jail, where he was committed for not supporting his family, there was no appearance on his behalf. Judgment was given Burtis for the possession of the premises.

Edwards' four little children are living in the place, and would be without food were it not for some charitable neighbors, who see that they do not starve. Overseer of the Poor Decker has endeavored to have the State Board of Children's Guardians take the children, but so far he has had no response. The children and furniture will be set out on the street unless something is done for them before that time.

Sulzer May Come, Too.

James E. Martine, who has about completed arrangements for the visit of W. J. Bryan to this city, has written a letter to Congressman Sulzer, of New York, inviting him to be present on the same occasion. Mr. Martine believes that he will be able to secure his presence. Mr. Sulzer is prominently considered as a running mate with Bryan in the coming National campaign, and his presence in this city would give additional enthusiasm.

May Quit Railroading.

Rumors say that Conductor William Clark, one of the oldest and a very popular conductor on the Central Railroad, now running between Easton and New York, has the hotel fever and will soon resign his position and go into the hotel business at Somerville at the brick hotel.

WRONG MAN ARRESTED.

NEGRO WAS INDICTED, BUT WHITE MAN OF SAME NAME LOCKED UP.

Innocent Prisoner was Quickly Released, and Then an Investigation Made and the Mistake Discovered—May Sue County.

(Special to The Daily Press.)

Westfield, Feb. 5—A white man was arrested in this town Thursday instead of a colored man, and the outcome will probably be a suit for damages against the county.

The January Grand Jury brought in an indictment for forgery against James Johnson and a capias, issued by Judge Vail, was given to Constable George Peck, Jr., to serve. Thursday James Johnson, a higly-respected young man of this town, was arrested and taken to Elizabeth and lodged in the county jail.

Assemblyman Chester M. Smith and John M. C. Marsh interested themselevs in his case, and went to the county seat Friday morning and succeeded in getting Johnson released on a bond of $500. The three then went to Cranford and called on M. Shapiro, who was the complainant before the Grand Jury, and on interviewing him found that the man whom he charged with the forgery was a colored man, who formerly worked for Herman Becker, of Garwood.

Mr. Johnson could not be seen yesterday, but a friend said that he would probably bring suit against the county for heavy damages for false imprisonment.

BAD GANG ROUNDED UP.

Detective Totten Succeeds in Capturing the Men Who Have Been Burglarizing Hereabouts.

Detective George D. Totten, of Somerville, succeeded yesterday in capturing three alleged burglars, whose track he had been on for several weeks, for numerous robberies committed along the line of the New Jersey Central Railroad in this district. The capture was made in a bad resort in Ferry street, Newark. The men gave their names as Frank Williams, Charles Weis and Frank Herbert. They were armed and made a desperate resistance. Williams made an attempt to brain Totten with a "jimmy," but he was finally knocked down and subdued at the muzzle of a revolver. There were found in the band of Weis's hat a number of small steel files and saws, and Williams had in his possession a chisel and other burglar's tools. On January 26th the shoe store of Louis Feldman, of Bound Brook, was robbed of almost its entire stock of shoes.

When arrested the men had eleven pairs of shoes in their rooms. Feldman identified the shoes as part of the stock stolen from him. A large number of pawn tickets were found on the burglars.

RAHWAY'S NEW BANK ORGANIZED.

Wm. Howard President and Garret S. Jones Cashier.

(Special to The Daily Press.)

Rahway, Feb. 5—The new national bank for this city was organized Saturday at a meeting held by the subscribers at the Board of Trade rooms.

The entire stock has been taken. Between $70,000 and $75,000 will be held by residents of Rahway, while the balance is taken by one man, who, it is said, represents a syndicate composed of Henry S. Little and others.

The directors elected were: County Clerk Wm. Howard, City Treasurer Ross Vanderhoven, Judge B. A. Vail, Thomas H. Roberts, Geo. H. Bracher and Wm. Edgar, of Rahway, and Garret Jones, of Keyport. Wm. Howard will be chosen president and Garret S. Jones cashier.

Married a Roseville Girl.

On Thursday afternoon last at the home of Mr. and Mrs. William Thompson, Roseville, there took place the marriage of their daughter, Miss Elizabeth May Thompson, and Thomas Saxton Wikoff, of this city. The affair was attended by only the immediate families. After the ceremony an informal reception was held. When Mr. and Mrs. Wikoff return from their honeymoon they will reside in Somerville. The bride and groom have many friends in this city who will wish them much joy and success.

Not Yet in Charge.

Frederick H. Andrews, the newly-appointed superintendent of the Warren chapel Sunday-school, was present at the session for awhile yesterday, but did not take charge. He spoke a few words at the request of Pastor McKelvey. Mr. Andrews will assume his new position two weeks from yesterday.

City Licenses.

All bills against the city must be in the hands of the City Clerk by this evening in order to ensure payment at the next meeting. Applications for liquor licenses must be filed with the City Clerk by Wednesday night.

WATER RATE WAR MAY GO ON

Summit Company Planning to Invade the Territory of the Union Water Company.

Westfield, Feb. 5—President Bassett, of the Summit Water Company, was in town Saturday afternoon and held a conference with Messrs. Henry Sergeant, W. G. Peckham and W. L. Delamater, of the Consumers' Water & Light Company, and Chairman J. Alston Dennis and C. W. Harden, of the Township Committee.

It is understood that the Summit Water Company will at an early date, before the spring election, make an offer to supply water to Westfield at a great reduction from what is now charged by the Union Water Company. If the pipes now owned by the Union Water Company cannot be purchased then the new company will lay pipes and the Township Committeee will make a ten-year contract with the company.

THE COMPANY SETTLED.

Mrs. Cairns Hurt Through the Negligence of Those in Charge of Trolley Car.

Thursday night, January 18th, Mrs. Cairns, of 210 West Fourth street, was on her way home in a trolley car, and in attempting to get off the car near her house the conductor started the car before she had stepped on the ground. As a result she was dragged a considerable distance, and quite severely injured. The car proceeded on its way, the men in charge making no effort to learn whether Mrs. Cairns was injured.

She was assisted by some friends to her home, and the Plainfield Street Railway Company notified. The company's physician, Dr. Fritts, responded and since then he has been treating Mrs. Cairns. At the same time the company has paid Mrs. Cairns a sum of money which was satisfactory to her.

LAWYER IN JAIL.

Former New York Official Accused of Threatening His Family.

(Special to The Daily Press.)

Somerville, Feb. 5.—Henry Hardwicke, an Assistant District-Attorney of New York City during Mayor Strong's administration, who has a law office in the city, was arrested Thursday night at his home between Somerville and Raritan, on a charge of intoxication and threatening to do violance to his family. He was locked up in the county jail.

Hardwicke is the author of several books, one of which he dedicated to Ambassador Choate. He is the descendant of an old and aristocratic family of North Carolina and once edited a paper at Ashville, N. C.

To Discuss Sunday-school Work.

This evening in Vincent chapel Marion Lawrence, of Toledo, O., will deliver an address before the members and friends of the Plainfield Sunday-school Union. Mr. Lawrence was for ten years general secretary of the Sunday-school Union of Ohio, and he is now general secretary of the international work. He will tell much that will be of interest to all workers in Sunday-schools, and his visit here is in the interest of the Sunday-schools in this city. All persons interested are cordially invited.

Endeavor Day.

An interesting programme has been prepared by the Endeavor Society at Trinity Reformed church for tonight's "Endeavor Day" meeting. Rev. W. N. Hamilton, of Elizabeth, a very excellent speaker, will make an address to the Endeavorers, and F. S Cutter has kindly consent to sing.

Hard Time Gun Club.

The "Hard Time Gun Club," composed of all the well-known sporting men in the borough, and some from this city, has just been organized. They will meet frequently in the borough, and when the hunting season arrives they will arrange to enjoy hunting trips about the State.

Now on Duty in Center of City.

Patrolmen Lunger and Vanderweg are now doing duty in the business part of the city, as per arrangements made February 1st, when the patrolmen were changed about. Roundsman Flynn has returned to night duty, and Roundsman Frederickson is doing day duty.

Decision Sunday.

At the Sunday-school session at the Park Avenue Baptist church yesterday afternoon eight members decided to become Christians. This was the result of what is known as "Decision Sunday," and is in line with a plan outlined by the Plainfield Sunday-school Union.

Funeral of Late William Kitchen.

The funeral services of the late William H. Kitchen will be held tomorrow morning at 9 o'clock from the home at New Market. Interment will take place in a family plot at Mechanicsville, N. J.

SAT DOWN BY REQUEST.

SO MRS WYCKOFF CHARGED SAMUEL WILSON WITH ASSAULT.

He Explained That He Had Only Assisted Her To Sit Down—The Judge Believed Wilson's Side of the Story.

It took the combined efforts of City Judge Runyon, Chief Grant and Patrolmen Totten and Saffron to keep order in the city court this morning. Mrs. Wyckoff, colored, had a story to tell about her boarder, Samuel Wilson, also colored, and all the majesty of the law could not prevent her from telling it at her own time.

Wilson had been arrested by Saffron on the complaint of Mrs. Wyckoff. She declared that he struck her and knocked her down. Wilson, who has always had a blameless reputation with the police, explained that she had been talking unpleasantly to him. He had begged her to sit down and finally assisted her to take a seat.

Mrs. Wyckoff interrupted the proceedings with "It's a lie" and "He's a liar." The Judge favored Wilson's story and suspended sentence.

Andrew Ryan was also arraigned. He had been arrested by Patrolman Totten on complaint of Ryan's wife, charged with beating her and knocking down his crippled mother. Mrs Ryan did not appear in court, so the Judge dismissed the complaint.

EVANGELIST CAN'T ADVERTISE.

At Least With Posters Pasted Up Around Westfield.

At a meeting of the Westfield Township Committee the town billposter, Edward Edgar, was ordered to take down the posters tacked on trees or telephone poles announcing the services of Evengelist Davidson, who is now conducting a revival in the town.

There is a township ordinance which says that a fine shall be imposed for violating the same by posting bills on trees or poles in the township. Bulletin boards have been placed about the town by the Women's Club for all public notices.

The Committee did not want to place those connected with the revival in a bad light, and therefore ordered the billposter to remove the signs.

Annual Meeting.

The annual meeting of The Plainfield Exchange will be held at Grace church Guild rooms Wednesday next, February 7th, at 11 o'clock a. m. An account of the work of the past year will be given and as the year has been the most successful one in the history of the society, the meeting promises to be most interesting. Subscribers, consignors and all others interested in this laudable work are cordially invited to attend. The officers are:

Mrs. O. T. Waring, president.
Mrs. Francis Wood, vice-president.
Mrs. Edgar S. Hyatt, recording secretary.
Mrs. Rowland Stover, treasurer.
M. C. Marsh, cor. secretary.

2

Put Off For The Term.

The following cases appealed from Justice Mosher's court, and which were to have been tried in the Court of Common Pleas at Elizabeth today, have been put off for the term: Charles Kane against Michael Ettinger, et al.; Frederick Yates, executor, etc., against Lewis C. Beekman; Charles Peterson against Carrie Pearson, et al.; Richard Higham against Oscar F. Pierson; Abram Kuntzman against David Hand, et al., partners, etc.

Mr. Fisk to Give a Barn Party.

The handsome barn of Former Mayor Chas. J. Fisk has just been remodeled and tomorrow evening an elaborate "barn party" will be given there by Mr. Fisk. The barn has been decorated in a lavish manner with cornstalks, pumpkins, bunting, American flags, and it will be lighted throughout with incandescent lights. An orchestra will furnish music and a well-known caterer will serve supper.

Granted a Non-suit.

The last of the Hargraves-Brokaw cases came up today at Elizabeth in the Court of Common Pleas and Mr. Brokaw was victorious. On motion of Lawyer Brady Judge Vail granted a non-suit. This was the suit in which Justice Mosher gave a verdict for $200 in favor of Hargraves from which Brokaw appealed.

Mid-Winter Camp Meetings.

The Salvation Army opens their mid-winter camp meeting tonight with a Hindoo missionary speaking on the work in India. The soldiers will be dressed in Hindoo costume. Adjt. E. C. March will conduct meetings Tuesday and Thursday evenings. There will be a special meeting every night this week.

Five New Members.

At the communion service held at Warren chapel yesterday morning five persons were received into full membership.

HOW WAS BARTO INJURED?

Father Followed His Child and Lover Down the Tracks in Somerville.

Frederick Barto, an aged and respected resident of Somerville, is lying in his home in New street, very low from wounds received under suspicious circumstances. It was near midnight when Barto had a dispute with a young man who was at his house with his daughter. They left, and Barto, who is a cripple, started after them down the tracks of the Central Railroad in the direction of the station.

A short time afterward Barto was found by a brakeman lying by the side of the track with his skull crushed. Theodore Harteell, the engineer, says he is positive the train did not hit Barto. The police think Barto either fell against the moving train or was pushed against it.

Miss Barto returned home early yesterday morning and again disappeared.

CIDER HAD A BAD EFFECT.

Borough Italians Quarreled and Were Locked-up—Friends Came to Rescue of One.

Carlos Speghetti and George Landretti, employed at the Watchung Silk Company plant, West Front street, met in the borough yesterday and after visiting a cider-joint succeeded in getting into a quarrelsome mood. During the afternoon they engaged in a free fight on Somerset street and Chief Marshal Campbell was obliged to arrest the pair and lock them up.

Landretti's friends heard of his predicament and they sought Mayor Smalley in the hopes of getting him out. They finally found His Honor and after putting up $10 as security the prisoner was released to appear tomorrow morning at 9 o'clock for a hearing. Landretti is an engineer at the silk works and his presence was needed there this morning. Speghetti is still held at the station house and he will be given a hearing today sometime. Landretti is the husband of the woman who disappeared recently from home and was found in Elizabeth. A fund was raised afterward and she was sent to her home in Italy.

NEW RAILROAD UNION

Elizabeth and Westfield Company Said to Control the Sewaren Line.

(Special to The Daily Press.)

Rahway, Feb. 5—It is understood that the Elizabeth and Westfield Trolley Company has purchased the line of the Union and Middlesex Traction Company, which runs from this city to Boynton Beach. The line is seven miles in length, passes through Woodbridge, and is the connecting link of the cross-country section of the purchasing company, which company now has its line connected in this city via Westfield avenue.

ENDEAVOR NIGHT.

Service for Young Christians at the Congregational Church.

Despite the rain, there was a good attendance at the special Christian Endeavor Day service, held in the Congregational church last evening by the Endeavorers of that church. Short addresses were made by Rev. Charles L. Goodrich, I. Winthrop Travell, Miss Florence G. Hawkins and Miss Emma V. Fish. An "open parliament" followed under the charge of the leader, Miss M. G. Morse. The singing was led by the Sunday-school choir.

Tier's Pond Black With Skaters.

There was a great crowd of skaters at Tier's pond Saturday afternoon and evening and the ice was black with them. The ice was smooth and made excellent skating. There were a few out yesterday, but the thaw and rain of yesterday has left the ice covered with water. A thin sheet of ice formed over the water this morning and if left alone, there will be skating again in a day or so.

Rendered a Sacred Cantata.

The monthly praise service was held at the Crescent Avenue Presbyterian church last evening when selections from the sacred cantata, "The Daughter of Jarius," was given by the regular quartette choir assisted by five others. The service was well attended. All the selections were well rendered.

Nearly Severed His Thumb.

While George Jones, of West Front street, was cleaning his wheel yesterday his thumb caught between the sprocket and chain and the member was almost severed. Dr. Pittis was called and he was obliged to take several stitches. Jones will not lose the thumb.

Hurt Playing Hockey.

A young colored man, named Peterson, fell on the ice at Tier's pond Friday afternoon, while playing hockey. He struck on his head and was unconscious for half an hour. Dr. Hallock attended him. He finally recovered sufficiently to walk home.

WANT TO OPEN A ROAD.

LAWYER PECKHAM STEALS A MARCH ON THE OBJECTORS.

Had Commissioners Appointed Whom It Is Thought Can Be Easily Influenced to Aid in Making Improvement.

(Special to The Daily Press.)

Westfield, February 5.—W. G. Peckham, the wealthy New York lawyer, who wants a new road cut through from his residence on Quality Hill to the Graceland depot of the Central Railroad, played a neat trick on those who are opposed to the new road, when he had the court appoint, instead of the Westfield surveyors of highways, the following gentlemen who are not familiar with the property: Messrs. James A. Long and J. Wallace Hoggins, of Union; Clarence H. Winans, of Linden; Andrew Schaffer, of Fanwood; James VanNortwick and William Weisel, of Springfield, to act on the petition for the road.

Mr. Peckham had for his attorney, Surrogate George T. Parrot, who told at the meeting in the township rooms Saturday afternoon, how much property the new road would open up, and how the Central Railroad Company would open up the Graceland depot, if the road was cut through, so that the commuters could get to the depot. J. S. A. Wittke and Mr. Phelps, who would lose valuable property by the new movement, objected on the ground that the road was of no use to any of the property owners in the vicinity, except W. G Peckham, who has a little land there which he is trying to sell as a golf course. As for commuters, there are not ten in the neighborhood, and of these not one, Mr. Peckham included, would use the Graceland station. The surveyors were about evenly divided as to the granting of the petition for the road, and adjourned until next Thursday afternoon.

VERDICT FOR RUNYON.

Central Railroad Had Refused to Let Him Board a Train—He is Awarded $1,100.

The jury in the case of Elmer Runyon against the Central Railroad for damages for being denied permission to board one of the company's trains at Jersey City during the trouble over carrying packages in 1893, brought in a verdict of $1,100 for the plaintiff.

The case has been decided twice. The plaintiff was non-suited once, and awarded $1,000 the other time. It was appealed by the defendants, and the Court of Errors granted a new trial on exceptions.

OLDEST COMMUTER GONE.

The Death of Robert H. Neilson, of New Brunswick.

(Special to The Daily Press.)

New Brunswick, Feb. 5.—Robert H. Neilson, one of the oldest residents of New Brunswick, died at his home, 335 George street, late Saturday afternoon. He had been in feeble health for a long time, and a few years ago suffered an attack of paralysis. He had been confined to his bed, however, for but a few days. Mr. Neilson had been in business in New York city for forty years, and was conceded to be the oldest commuter in New Brunswick. He traveled between this city and New York for forty years. He leaves one daughter, Mrs. Henry A. Neilson, with whom he lived.

Leaves One Big Firm For Another.

J. J. K. Coard, of East Ninth street, has resigned his position as manager of Rogers, Peet & Co., the well-known clothing house of New York, to accept the position of general manager of the firm of Smith, Gray & Company, of Broadway and 31st street, New York. Besides that position, Mr. Coard has been elected a director and vice-president of that firm. Smith, Gray & Company, are among the leading uptown clothing merchants.

Plainfielders Bought Fine Pictures.

At the sale of paintings from the collection of Wm. T. Evans, held in New York last week, the following pictures were purchased by Charles W. McCutchen: "Moonrise in Swannanoa," by Maria a Becket; "The Sonnet," by W. Shirlan; "Autumn," by W. St. J. Harper; and "Rocky Farm in Autumn, Newport," by S. Coleman.

Bought Town Property.

Abram Van Cleef, of Boycefield, has purchased two properties on Elm place. One is occupied by C. V. D. Corle and the other by J. E. Townsend. Mr. VanCleef has sold his farm to J. B. Duke, of Raritan, and as soon as some minor details are looked after he will take up his residence in this city.

Cutting Down Expenses.

The Plainfield Street Railway Company Saturday discontinued its office on Watchung avenue and has dispensed with Car Starter Charles C. Lister. The reason assigned is that the business of the road would not warrant the expense.

LEGISLATIVE WHEELS ARE TURNING SLOW.

Four Hours' Hard Work In Four Weeks' Legislative Session.

STILL PLUMS ARE FALLING.

GOVERNOR DOES NOT KEEP OFFICE SEEKERS WAITING LONG.

Mr. Voorhees Has Disposed of All But a Few of the Important Offices Which He Controls by Appointment—Bill to Abolish Spring Elections is Dead—Tae Hobart Memorial Services.

(Special to The Daily Press.)

Trenton, Feb. 5—The Legislature has been in session four weeks, although in that period of time not over four hours have been devoted to business. So far 123 bills have been introduced in both Houses, not even one of which has become a law. This record is nothing new in view of the performances of previous Legislatures on similar lines. It is not expected that active business will be commenced for two weeks yet. Another interruption to the regular proceedings must necessarily take place when the Hobart memorial services will be held. That will be an event of almost unprecedented importance, and, of course, will attract widespread attention. It will be a treat, indeed, to listen to the oratory of Attorney-General Griggs on that occasion, and there will be a great demand for seats in the Assembly chamber, where the services will be held. Should President McKinley and his Cabinet be present additional interest will be given the affair. When this event has been accomplished and handed down to history then it is expected that the Legislature will make an earnest effort to wrestle with the problems which have been submitted for its consideration.

Corporation matters, as usual, will occupy much of the time of the lawmakers. Senator McCarter's bill for the elevation of railroad tracks in the upper end of the State is already arousing some attention, and the indications are that if it is pushed in its present shape there will be some exciting episodes over it. The assertion is made that the bill discriminates in favor of the Lehigh Valley and other roads as against the Pennsylvania. To ward off all opposition and thus insure the passage of the measure it must be amended in several important particulars. This will keep the railroad lawyers busy, and the lobbyists too, because the latter will, as a matter of course, take a leading part in the proposed legislation.

Some of the leading politicians from the upper end of the State were here during the week trying hard to create sympathy and to enlist support for the scheme for the abolition of spring elections. They interviewed several Senators and Assemblymen, but did not meet with the success for which they had hoped. If the scheme concerned only the cities of Newark and Jersey City, and in that respect was constitutional, there would be no difficulty whatever in putting it through the Legislature. But as it relates to the smaller cities, boroughs, towns and townships as well as to the larger cities, there is considerable opposition to such a radical change in the election laws.

But perhaps the Republican leaders of the big cities are counting without their host in this matter. While every machine man would vote and work for the ticket at the fall election as a matter of course, much uncertainty might prevail as to the action of the independent element at the polls. Without the support of this element a Republican victory could not be achieved. In the event of such legislation perhaps the Republican manipulators would be hoisted by their own petard. And the danger of such a thing happening is the reason why the prominent Republican leaders are holding themselves aloof from the scheme on foot.

The Governor is showing a good example to the legislators, which, of course, is not followed, by doing all his work in the way of nominations for office early in the session; and besides, by doing so, he is relieving himself of a head of trouble from the office-seekers and their supporters who would make raids on him all through the session had he not filled the berths which they sought. There are three or four important offices yet at his disposal. The new Monmouth County Judge has not yet been named. Prosecutor Wilber A. Heisley, who is a candidate for that place and has the support of Senator Francis, will probably be favored by the Governor.

Some disappointment is manifested

(CONTINUED ON PAGE 8.)

A CONFLICT AVERTED

Taylor Releases Walker of His Own Accord.

KENTUCKY SITUATION LESS CRITICAL

Mr. Goebel's Funeral Will Be Held In Frankfort—Members of the Legislature Scarce In the Capital City.

FRANKFORT, Ky., Feb. 5.—Armed conflict between the civil authorities of Franklin county and the national guard of the state of Kentucky has been averted, and unless new causes should come to the front there is small likelihood that the political situation will again become as threatening as it has been during the last 36 hours.

Alonzo Walker, the man who was placed under arrest on the charge of inciting the soldiers of the state guard to mutiny while pinning a notice of a proposed application for an injunction upon the door of the office of Governor Taylor, was released yesterday. The release was not made in response to the writ of habeas corpus which Sheriff Suter tried in vain Saturday to serve upon Governor Taylor. The latter concluded that Walker had remained in custody for a sufficient length of time and told him to go home. The charge of inciting to mutiny has not been quashed, but Walker may not be brought before a court martial, as was at one time contemplated by the officers of the state guard.

Various rumors were circulated in regard to the reasons for the sudden release of Mr. Walker, among them being a report that his release by order of Governor Taylor was in deference to a telegram from Washington advising his discharge. Governor Taylor was too busy to be seen in regard to the matter, but Adjutant General Collier emphatically denied that any such reason existed for Walker's release.

"The idea is absurd," said General Collier. "No such telegram has been received either from the authorities at Washington or from any one else. Mr. Walker's arrest was simply a matter of military discipline. He was not discharged, but simply given his liberty until arrangements can be made for his trial by court martial."

Asked if Walker's release was influenced at all by a desire to forestall any possible application to the federal court for a writ of habeas corpus, Adjutant General Collier said, "Not in the least."

"A wrong impression apparently prevails in regard to the reasons for the arrest," said Colonel Williams. "Mr. Walker was heard to make statements two days before his arrest that were regarded as mutinous, and persons overhearing his remarks made affidavit to that effect."

It practically has been decided that the remains of Governor William Goebel will be buried in Frankfort in the cemetery overlooking the Kentucky river where lie the remains of Daniel Boone, Vice President Richard Johnson and several Kentucky governors, eminent jurists and soldiers. A spot in the vicinity of the immense shaft erected in honor of Kentucky's dead soldiers, nearly the highest point in the beautiful cemetery, is favored and will probably finally be selected.

Although the burial will take place in Frankfort, in accordance with the wishes of the friends of the dead man, the funeral services will be held in Covington, his home. The remains were taken to Covington today on a special train.

Wednesday morning the remains will be brought back to Frankfort and placed in the big ballroom of the Capitol hotel, where they will lie in state all that day. The interment will take place Thursday from the Capitol hotel, but the actual arrangements for the burial have as yet not been decided on.

Plans for the raising of funds by popular subscription for the erection of a monument to Governor Goebel's memory are rapidly taking shape.

Members of the legislature are exceedingly scarce in Frankfort. Nearly every member has left the city, the Republicans having gone in the direction of London and the majority of the Democrats to their homes, although a small number of them have gone to Cincinnati. Few if any of the Democrats who have gone will return to Frankfort until after the session of the legislature which is called for Tuesday at London has been held, although a large number of them expect to be present at the funeral of Governor Goebel. As a usual thing many members leave the city on Saturday and spend Sunday at their homes, but the exodus has never been so complete as at this time.

The leaving of the Democratic senators and representatives has been upon the advice of their attorneys, who have told them that it would, all things considered, be the best thing for them to go to their homes or to some place where they could not be reached in a hurry if attempts should be made to arrest them and take them to London, as has been threatened by the military forces of the state. It has been decided by the Democrats that they will make no resistance in the event of arrest and conveyance to London, but that when they arrive they will not vote upon any subject that may be brought before the session. There have been numerous rumors that the Democrats intended to hold a session of their own at some place in the state outside of Frankfort. Sometimes the rumor named Covington, and sometimes it was London. The report could not be substantiated in any way, however.

THE DEATH OF GOEBEL.

Assassin's Work Fatal—His Successor Sworn In.

FRANKFORT, Ky., Feb. 5.—The bullet fired by an unknown assassin last Tuesday morning ended the life of William Goebel at 6:45 o'clock Saturday evening. The only persons present at the deathbed were Mr. Goebel's sister, Mrs. Braunacker, and his brother, Arthur Goebel of Cincinnati, who have been in constant attendance at Mr. Gobel's bedside and Dr. McCormack. Justus Goebel, another brother, who has been hurrying from Arizona as fast as steam would carry him in a vain hope of reaching his dying brother in time for some token of recognition, arrived 40 minutes too late. Oxygen was frequently administered to the dying man during the afternoon in an effort to keep him alive until his brother's arrival, but in vain. By the cruel irony of fate the train on which Justus Goebel was traveling to Frankfort was delayed several hours from various causes, and when Mr. Goebel finally reached here it was only to learn that his brother was dead. Among bitter partisans of both parties deep grief is manifested, and already a movement has been started to erect a fitting monument to Mr. Goebel's memory on the spot in the statehouse grounds where he was shot.

Mr. Beckham, the Democratic candidate for lieutenant governor, was at once sworn in as Mr. Goebel's successor.

No Trouble In London.

LONDON, Ky., Feb. 5.—The rumors that have become current that armed mountaineers have gathered in London to intimidate Democratic legislators are absolutely without foundation. The town is as peaceful and tranquil as a country village in any other part of the country and there are no armed men within its limits or lurking in the adjacent country as far as is known by the London citizens. The feeling prevails in London that no trouble whatever will ensue.

GIBBONS TALKS PLAINLY.

Roberts Decision a Tribute to Womanhood—Society Women Denounced

BALTIMORE, Feb. 5.—Cardinal Gibbons preached yesterday at high mass at the cathedral to the largest congregation assembled in the historic edifice for a long while. His eminence's text in part was the well known portion of the marriage service, "What God has joined together let no man put asunder." Incidentally he expressed in decided terms his opinion regarding the Roberts case. In this connection he said:

"Respect for womanhood makes us approve the refusal of the house of representatives to allow Congressman Elect Roberts of Utah a seat among the nation's lawmakers. As a Mormon he can have no proper respect for women, and he was rightly and justly rebuked.

"It was not a question of constitutional rights or interpretation of the laws. His constitutional rights have nothing to do with the case, which resolves itself simply into a question regarding the attitude of the country toward the women of the United States. In casting him out congress paid a tribute to American womanhood. To have allowed him to take his seat would have been to countenance the degradation of the holiest estate of man. It was a victory for the right, and congress deserves credit for recognizing the law which is higher than any other."

His eminence spoke of the position of women in the home and strongly condemned the actions of the so called society women.

"They are never at rest," he said, "unless they are in pursuit of amusement. They are never at ease unless enjoying morbid excitement and artificial gayety. They are never at home unless they are abroad. All of the solemn duties which are theirs by virtue of their position in the home rest lightly on their shoulders. They have no taste for domestic usefulness and no desire to be the companion and helpmeet of man. In the wrecking of many a life such women have had a large part. Theirs is the responsibility for many a ruined home."

A FLOUR TRUST.

Organization to Be Known as Standard Milling Company.

NEW YORK, Feb. 5.—The World this morning publishes the following:

"Plans for the reorganization of the United States Flour Milling company are under way. The committee in charge includes Samuel Thomas, Edwin Gould, J. Edward Simmons, Warner Van Norden, Brayton Ives, W. Lanman Bull and Thomas A. McIntyre. The company owns 16 flour mills, three in New York state, eight in Wisconsin and five in Minneapolis.

"After reorganization the combine will probably be known as the Standard Milling company. The plan provides for the purchase of the properties of the Northwestern Consolidated Milling company.

"This plan provides $2,900,000 in cash with which to pay off all existing floating debts of all the companies and leaves $1,500,000 in the treasury for working capital, in addition to which it will have over $1,000,000 new bonds in its treasury. Of new 6 per cent preferred stock there will be issued $9,802,000, and of new common stock there will be issued $3,500,000. Provision is made for the issue of new bonds and stocks to the holders of similar securities in the United States Flour Milling company."

CONDENSED DISPATCHES.

John Nilsson of Minneapolis broke the world's skating record for three miles at Montreal.

Former Consul C. E. Macrum, on his way from South Africa to Washington, arrived in New York.

The Spanish war was reported to have cost the United States $355,000,000.

An explosion of 3,200 pounds of nitroglycerin near Wellsville, N. Y., created a small earthquake. No lives were lost.

The Funeral Train.

CHICAGO, Feb. 5.—The train bearing the bodies of General Lawton and Major Logan reached Chicago at 4:30 a. m. today, 12 hours earlier than expected. The car carrying the Lawton funeral party was immediately transferred to the Pennsylvania tracks and the eastward journey resumed without any public demonstration. The remains of Major Logan will lie in state in Memorial hall till 7:30 o'clock tonight, when the journey to Youngstown, O., the home of the deceased, will be resumed.

The Viscaya Returns to Manila.

MANILA, Feb. 5.—The steamer Viscaya, which lately sailed hence for Legaspi, has returned, having been unable to land her cargo owing to the situation there. The natives had attacked and burned the suburbs of the town, and the town itself was deserted. A battalion of the Forty-seventh regiment which is doing garrison duty at Legaspi repulsed the rebels. No report has been made concerning the American losses, if there were any.

Sympathy For the Boers.

BALTIMORE, Feb. 5.—Nearly 3,000 enthusiastic Boer sympathizers, men and women, crowded into Ford's Grand Opera House last night and listened to addresses by well known speakers from all parts of the country. The points made by each of the speakers were applauded lustily, and at the close of the meeting several hundred dollars was subscribed to the Boer relief fund.

Kentucky Thoroughbreds Sold.

LEXINGTON, Ky., Feb. 5.—Milton Young of the McGrathiana stud has been sold to J. S. Wadsworth of Genesee, N. Y. Twenty yearling thoroughbred fillies by prominent sires were also sold for an average of $500.

Notice of Order to Limit Creditors.

SOMERSET COUNTY SURROGATE'S OFFICE.

Estate of Mary A. Cooper, deceased. Notice is hereby given, that on the eighth day of December, A. D., 1899, on the application of the undersigned, as Administrators of Mary Ann Cooper, deceased; an order was made by H. N. Spencer, Surrogate, requiring the creditors of Mary Ann Cooper, deceased, to bring in their debts, demands and claims against the said decedent, under oath or affirmation, and present the same to the subscriber within nine months from the date of said order; and in default thereof any such creditor should be forever barred of his or her action thereof against the subscribers

THOMAS NEWMAN,
EDWARD A. COOPER,
ANNIE PRATT.

12119 oaw

NOTICE OF ASSIGNMENT.

Notice is hereby given that Julius J. Stahl, of the borough of North Plainfield, State of New Jersey, hath this day made an assignment to the subscriber of his estate, for the equal benefit of his creditors, and that the said creditors must exhibit their respective claims, under oath or affirmation, to the subscriber, at his office No. 111 Somerset street, North Plainfield, N. J., within three months from the date of the assignment, or be forever barred from coming in for a dividend of the estate; and said creditors are further notified that a list of the claims against the said Julius J. Stahl, will be filed with the clerks of the court of common pleas of the County of Somerset at the expiration of said three months, when exceptions thereto may be filed by any person interested.

FIERCE FIRE IN ST. LOUIS.

One Fireman Dead, Many Injured. Millions of Property Wiped Out.

ST. LOUIS, Feb. 5.—Property estimated in value between $1,000,000 and $2,000,000 was destroyed yesterday by a fire that burned over portions of three blocks and resulted in the death of one fireman and injury to eight others. One of the latter is probably fatally hurt. The following buildings were wholly or partially destroyed:

Penny & Gentels, dry goods; Schafer Bros., dry goods; People's Housefurnishing store; Johnson Bros. Drug company, partially; Schisler-Cornella Seed company, Plant Seed company, Krenning Glass company, Bassett Plumbing company, Deer Bros.; Famous Dry Goods store, partially; Mueller Block Commission company; Diel Bros., dental parlors, partially; Nelson Sons' Distilling company, McLain & Alcorn Commission company, Hake & Sons' commission house, Benton & Co.'s commission house, Baur Flour company and William Bock's saloon.

The dead: Charles Moebey, fireman.

The injured: John Karp, fireman, probably fatally; George W. Durand, right hip injured; John Hanamer, driver engine No. 2, dislocated ankle and both legs broken; J. Adams, truck No. 6, lacerated hand, causing partial paralysis; Mike Hannon, fireman truck No. 7, injured in back; John Judge, fireman, shock from falling roof; Joseph Schwaiger, fireman, badly injured and taken home; Harry Bridge, foreman, shocked by electric wire; August Roeber, fireman, leg broken.

SAVINGS BANK TAX.

Bill For That Purpose Likely to Die In New York Assembly.

ALBANY, Feb. 5.—The Treat bill for the taxation of savings banks accounts will be recommitted for a hearing in the assembly probably tomorrow, and the indications are that it will be killed. Howard King of this city, a member of the executive committee of the State Savings Banks association, says of the bill:

"I am entirely opposed to taxing the deposits in savings banks or taxing securities in which those deposits are secured in any form whatever. I consider that they should be as much exempt from taxation as are churches and religious institutions. Don't tax the bone and sinew of the country, and don't exempt the furs and feathers, are my sentiments."

Major General Averill Dead.

NEW YORK, Feb. 5.—The death has occurred at Bath, N. Y., of Major General William Woods Averill, one of the most conspicuous cavalry leaders on the Union side during the civil war and since then prominent in business circles in New York city. He was born in Steuben county, this state, in 1832 and was of colonial ancestry. He was graduated from the West Point Military academy in 1855 and went to the front as an Indian fighter, where he won a reputation for bravery and was severely wounded. At the breaking out of the civil war he was appointed colonel of a Pennsylvania cavalry troop attached to the army of the Potomac, and in March, 1863, he began the series of raids which made his name famous. He was placed in command of the Second cavalry division in February, 1864, and was wounded in a skirmish at Wytheville, but remained on the field. At the close of the war General Averill resigned his commission and was appointed United States consul general at Montreal, which post he filled for the three years following 1866. In later years he became heavily interested in asphalt paving.

Little Child Buried at Sea.

NEW YORK, Feb. 5.—On the trip of the American mail steamship St. Paul from Southampton, after a very rough passage, the 10-month-old daughter of Mrs. Francis L. Young of Roxbury, Mass., died on Jan. 30 and was buried at sea. There was no clergyman in either cabin, and R. D. Williams, the purser, read the rites for the dead. The steamship was slowed down, and the tiny coffin was dropped by a sailor into the sea.

A Mormon For Roberts' Place.

CHATTANOOGA, Feb. 5.—President Ben E. Rich of the southern Mormon headquarters in this city, who has received a telegram from Governor Wells of Utah advising him of the call for a special election for April 2 for the election of a congressman to succeed Brigham H. Roberts, says ex-Congressman W. H. King, a Democrat and Mormon, will be elected to succeed Mr. Roberts.

High Rate For Coal Mining.

PITTSBURG, Feb. 5.—The settlement of the mining rate at 80 cents a ton for the year beginning April 1 at the Indianapolis conference gives general satisfaction in the Pittsburg district. It is the highest rate received by the coal miners in this section since the spring of 1881, when the price was 4 cents a bushel, or about $1.05 a ton.

Michigan Hotel Sold.

DETROIT, Feb. 5.—The Grand hotel on Mackinac island has been sold to the Planters' Hotel company of St. Louis. The price is announced to be $200,000. The purchaser agrees the first year to pay an installment on the purchase price and a percentage of the gross receipts. Then, if satisfactory, the purchase will be completed.

Educators Choose Charleston.

CHICAGO, Feb. 5.—The executive committee of the National Educational association has unanimously confirmed the informal vote of preference of the board of directors at the Los Angeles meeting in the selection of Charleston as the meeting place of the association in annual convention, July 7 to 13, 1900.

Senator Breaks a Rib.

WASHINGTON, Feb. 5.—Senator Bacon of Georgia slipped and fell on the icy steps at his home, fracturing a rib on his left side. He is suffering severely from shock, but his condition is not serious, and his surgeon thinks he will be out in a few days.

Six Injured In a Fire.

CHICAGO, Feb. 5.—Four firemen and two spectators were injured during the progress of a fire in the basket factory of John S. Benedict at 234 to 240 North Green street yesterday. One of the injured firemen may die.

Snowstorm Pleases Lumbermen.

MALONE, N. Y., Feb. 5.—Snow began falling early Sunday morning and continued throughout the day. This gives the first really good sleighing of the season in this vicinity, and lumbermen are encouraged.

TREATY IS MODIFIED

End of the Clayton-Bulwer Controversy.

NO DUAL CONTROL FOR CANAL

Discussion Has Been In Progress For Many Years—United States May Now Control the Isthmian Waterway Without Interference.

WASHINGTON, Feb. 5.—The United States and Great Britain, it is definitely learned, have reached an amicable agreement respecting the operations of the Clayton-Bulwer treaty as affecting the right of construction and control by the United States of the proposed Nicaragua canal. The result marks the termination of conferences between the officials of the state department and Lord Pauncefote of fully a year's duration, during which a number of meetings were held and the subject fully discussed by the representatives of the governments interested.

Great Britain agrees to a modification of the Clayton-Bulwer treaty by which she practically relinquishes any claims respecting a dual control of the Nicaragua canal after it shall have been constructed. The result therefore is to eliminate that feature of the treaty bearing on the subject of dual control and to leave the United States free to construct and thereafter control this great interoceanic waterway.

In all the discussions which have been had both in congress and out of it for a long number of years over the proposed canal the question of England's rights under the Clayton-Bulwer treaty has formed a prominent feature and on more than one occasion has given rise to the query whether or not the United States government had the moral right to provide for the construction of the canal without a modification of the treaty.

From the same authoritative quarter it is ascertained that England has made no demands for a quid pro quo for her abandonment of whatever rights she may have had under the treaty and which she now promises to relinquish. Just what shape the agreement between the governments interested in it is to take is not stated, though it is assumed that some formal instrument will be drafted and sent to the senate for its confirmation.

England Should Ask Something.

LONDON, Feb. 5.—United States Embassador Choate conferred with Lord Salisbury at the foreign office last Wednesday, Thursday and Friday. It is believed that the Clayton-Bulwer treaty was talked of, and it is also believed that if Great Britain will consent to yield her position toward the Nicaragua canal this is an opportune moment to ask something in return. What that something may be is conjecture purely, as neither the British foreign office nor the United States embassy has any communication to make regarding the interchange of ideas on subjects pending and not yet completed.

First Electric Railway In China.

SIOUX CITY, Feb. 5.—Chrys Moller, formerly interested in a cable line in Sioux City, has returned to America for the purpose of getting the equipment for an electric railway to connect the foreign quarter of Tientsin, China with the native walled city of 1,000,000 inhabitants. English and Japanese capitalists have secured the franchise, which is the first for an electric railway in the Flowery Kingdom. The railway will be three miles in length, and the street along which it will run is one of the most densely populated in the world. The Chinese, Mr. Moller says, have no objection to electric railways.

More Strikes Than Usual.

ALBANY, Feb. 5.—According to the annual report of the state board of arbitration and mediation, which will be submitted to the legislature tonight, there was a noticeable increase in the number of strikes in the state during the past year, the total (455) being higher than for any year since 1891. At least 60 per cent of the strikes have been of short duration and have had no appreciable effect on general labor conditions.

Recruits For the Navy.

CHICAGO, Feb. 5.—Fifty-nine recruits enlisted in Chicago have left to enter upon active service in the United States navy. Twenty-nine were sent to the receiving ship Franklin, at Norfolk navy yard, in charge of Captain L. W. Robinson, and the remainder, in charge of Chief Boatswain P. P. Smith, to the training ship Pensacola, at San Francisco.

Dewey's Southern Trip.

MACON, Feb. 5.—Mayor Smith has received from Admiral Dewey the acceptance of an invitation extended to him and Mrs. Dewey to visit Macon during their southern trip in March. The admiral says he will reach Savannah on March 20, will remain there for two days and will then go to Macon. Elaborate preparations will be made to entertain him.

Serious Train Collision.

CHICAGO, Feb. 5.—Nine men were injured and scores panic stricken in a collision between a Chicago, Milwaukee and St. Paul passenger train and a Northwestern freight train at North Fifty-fourth avenue and Irving Park boulevard. The passenger engine was derailed and damaged badly, and two freight cars laden with flour were smashed.

China's Queen Fears Public Opinion.

LONDON, Feb. 5.—The Shanghai correspondent of The Daily Mail says: "The changed attitude of the empress dowager and her virtual abandonment of her resolution to depose the emperor are directly due to the torrent of public remonstrance against her action. For the first time in Chinese history public opinion has been effective."

Intense Heat In Buenos Ayres.

BUENOS AYRES, Feb. 5.—One hundred and two sunstrokes were officially reported in this city Saturday. Of these 93 were fatal. The temperature was 120 in the shade.

Aged Negro Preacher Dead.

OTTUMWA, Ia., Feb. 5.—Rev. Booker Fox, one of the most noted negro evangelists in the west, is dead here, aged 104 years. He was born at Nashville in 1796.

Weather Probabilities.

Colder and fair; high northeasterly, shifting to northerly and northwesterly, winds.

NEARING LADYSMITH

Buller's Army Said to Be Due This Week.

GENERAL JOUBERT BADLY HURT.

Messages Freely Exchanged Between the Beleaguered City and the Relief Column—British Soldiers Not Depressed by Defeat.

LONDON, Feb. 5.—The Pietermaritzburg correspondent of The Daily Mail, telegraphing yesterday, says:

"General Buller has undoubtedly secured the road to Ladysmith and should reach his objective this week. It is believed here that the object of the Boers in occupying Ngutu, Zululand, is to secure the road from Dundee to Vryheid in case of retreat.

"I learn from a reliable source that General Joubert was seriously injured by a shell in the fight at Willow Grange and that he will never be able to command again on horseback. My informant says that he has, in fact, retired from the field.

"The Boers admit that the attack on Ladysmith was a serious blunder and would not have occurred if General Joubert had been in command. General Lucas Meyer played the coward at Talana and sheltered himself in a Red Cross wagon, shamming sickness. He has been unable to face the Boers since, and they threaten to shoot him.

"The Boers say Great Britain made a mistake in not sending General Sir Evelyn Wood. I understand that they still have thousands of bags of flour stored in reserve at Delagoa Bay."

A special dispatch from Durban, dated Sunday and referring to General Buller's recrossing the Tugela in advance upon Ladysmith, says:

"It is probable that General Buller crossed at a spot above Trichard's drift and that, leaving the enemy to the right, he is marching to Acton Homes, whence the road to Ladysmith runs almost due east, through a fairly open country.

"It is expected here that he will reach Ladysmith tomorrow (Monday) night."

The Daily Telegraph has the following dispatch from Spearman's Camp, dated Sunday evening:

"Messages are now freely exchanged between the camps of General Buller and General White, by night with calcium light, by day with heliograph. The men here are enthusiastic at the prospect of a speedy advance under General Buller's instructions. A very large convoy with stores for the besieged garrison will accompany the relieving force. The Boers have repaired the road bridge over the Tugela at Colenso sufficiently for the passage of cavalry."

Mr. Winston Churchill, in a dispatch from Spearman's camp, dated Saturday, Feb. 3, says:

"The belief is general that all will be staked on the issue of the coming battle. It is probable that no press telegrams will be permitted to leave pending the operations.

"The fighting power, moral and material, of the army was never higher than it is now."

The war office has received the following from Lord Roberts, dated Cape Town, Feb. 4:

"Mafeking well on Jan. 17. Trenches extended toward enemy's big gun battery, causing it to be vacated. Enemy now pushing back on northern, southern and western sides well out of rifle fire. Otherwise no change in situation."

A dispatch from Cape Town, dated Feb. 3, says: "One principle that competent military observers deduce from our assaults on the Boer positions is that with modern magazine rifles using smokeless powder the defense is ten to one as compared with the attack, while formerly the rule was three to one. The results at Mafeking and Kimberley are evidence of this principle, equally with British experience at Magersfontein.

"A wonderful change is taking place in the army. The British are grasping the new conditions of warfare. Our scouts, mounted infantry, Remington's guides, Little's corps of Australians and New Zealanders, are quite able to cope with the Boers.

"Our infantry when moving into action now instinctively seek cover.

"The depression caused in England by the British reverses has not reached the camps, where the men are truly anxious to meet the enemy.

"Correspondence has been exchanged between Lord Roberts and the commandant general of the Boer forces at Pretoria regarding the release of Commandant Pretorius, whose leg has been amputated. Lord Roberts says he does not wish to detain so gallant a soldier and asks where he shall send him. The reply to this communication states that Commandant Pretorius' wife desires to thank Lord Roberts for his kindness and asks him to send Pretorius to General Methuen, stating that General Cronje will then arrange for his conveyance home."

A Durban dispatch, dated Jan. 31, says:

"General Buller personally supervised the retirement of the army across the Tugela. He then returned to his old headquarters at Spearman's camp, looking much fagged, but impassive."

A dispatch from the head laager, Ladysmith, Feb. 2, says:

"With the exception of desultory shots from Long Tom everything is quiet.

"Boers with artillery from the Vryheid district attacked the Ngutu magistracy, Zululand, Jan. 31 and captured the magistrate and 11 white and 34 colored police, their horses, 340 rifles and much ammunition. The prisoners were sent to Pretoria."

Boers Driven Back at Rensberg.

RENSBERG, Feb. 5.—The New Zealanders, Remington's guides and a squadron of life guards made a sweep of several miles along the hills adjacent to the British right flank. One kopje occupied by Boers was rushed, the Boers clearing out after a slack resistance. One New Zealander was wounded. Small parties in the distance retreated whenever British horse appeared.

Ladysmith Hears Relief Coming.

LADYSMITH, Feb. 5.—By heliograph from Signal hill it is learned that the garrison were much cheered by hearing General Buller's guns Saturday. The result of the engagement is not known. The Boers are again massing near Ladysmith and are moving another gun toward Surprise hill. The garrison is quite ready for them if they contemplate another attack.

MONDAY.

IT all depends upon what you want in a soap. If you require simply a dirt remover, almost any soap will do. But if you care at all about the thing which is to be washed, you must think twice before you act. Any soap will clean linens and muslins, but Ivory Soap leaves them as white as snow. Any soap will clean sheets and table cloths, but Ivory Soap leaves no coarse, strong odor. Try it once!

IT FLOATS.

COPYRIGHT 1899 BY THE PROCTER & GAMBLE CO. CINCINNATI

Strange News Reported.

MODDER RIVER, Feb. 5.—The landrost at New Boshof read publicly on Jan. 26 the following telegram, which he said he had just received: "Lord Roberts is a prisoner. General Buller has been killed. Nine thousand British have been killed and 7,000 captured. The British also lost 48 guns last Saturday."

From Spearman's Camp.

SPEARMAN'S CAMP, Feb. 5.—The Boers fired from the hills on several squadrons of Bethune's mounted infantry who were reconnoitering. They continue to set fire to the grass on the left of Mount Alice in order to destroy the cover of the British troops and to enable the Boers to see the advance.

Buller Across the Tugela.

DURBAN, Feb. 5.—General Buller crossed the Tugela river Friday night and is marching on Ladysmith. No definite news will be permitted to go out until Ladysmith is relieved.

A DEMOCRAT'S OPINION.

Mr. Sewall Says Stand by the President and Keep the Islands.

SAN FRANCISCO, Feb. 5.—Arthur Sewall of Bath, Me., late Democratic candidate for vice president, is among the passengers of the Australia who have been released from quarantine. Mr. Sewall has returned from a visit to Honolulu, where he spent a month with his son, Harold M. Sewall, special agent of the United States in Hawaii.

"I have always favored the acquisition of the Philippines after the Paris treaty," said Mr. Sewall. "The United States should stand with the administration in all that is being done to hold the Philippines. They are worth retaining.

"Mr. McKinley will be renominated and re-elected. Mr. Bryan, too, will be renominated, but I fear that he cannot win the goal. The fact is the country has been too prosperous to warrant any hope of a change in the national administration, and people are slow to take up reform measures when times are as good as they are at present. No, I am not a candidate for vice president again. I believe it is poor policy on the part of the Democracy to select any candidate from a state where no electoral votes may be expected, and, moreover, I am not ambitious to make the race again. If the Democrats call upon me again, however, I could not refuse to do my duty."

PORTER GOES TO HAVANA.

To Consult With the Governor General About Tariff Revision.

NEW YORK, Feb. 5.—Robert P. Porter, special commissioner of the United States to Cuba, has sailed for Havana to consult with Governor General Wood and General Sanger on a revision of the tariff and internal revenue systems of the island.

"We expect to lower the present import duties on articles of food," said Mr. Porter yesterday. "The difference in revenue will be made up by internal revenue taxes.

"Before Cuban independence can be realized a good many things have to be done. Cuba needs white immigration. For the present scarcity of labor is preventing natural industrial development. The present immigration laws are too stringent. They should be modified.

"With the improvement of political conditions in Cuba the money withdrawn from the island will find its way back for investment. The Spanish miners, if assured protection for all time, will come back and reinvest their money. Their absence is a terrible depression to industry.

"A surplus and a credit must be established before the Cuban people can go it alone."

American Methods In Havana.

HAVANA, Feb. 5.—The finance commission recently appointed by General Ludlow has adopted a report made by Mr. Osgood Smith and Senor Nodarse on the reforms they deem necessary in the system of bookkeeping and of municipal administration on its financial side. These gentlemen have been to the United States to study American methods of conducting municipal finance. The chief reforms recommended by them relate to the methods of enforcing the payment of taxes and of assessing taxes. They recommend the appointment of a board of city assessors to make an entirely new assessment of the value of property and of rentals.

A Pastor Goes to the Bad.

LANCASTER, Pa., Feb. 5.—Rev. Percy J. Robottom has resigned as rector of St. James' Episcopal church. Some time ago the vestry requested his resignation, alleging that his usefulness to the church was at an end. Rev. Mr. Robottom has been given unpleasant notoriety through his alleged relations with a young woman parishioner. This scandal, however, vestrymen of the church declared, did not influence their action, which they said was induced by his extensive indebtedness to tradesmen, including liquor dealers.

Industry Worse Than War.

ALBANY, Feb. 5.—The commissioner of labor statistics estimates that "not fewer than 40,000 people are injured in manufacturing industries of this state" yearly. He compares this with the fact that the total number of American soldiers wounded in the war with Spain was only 1,577 and points out that in the industrial accidents there are entailed in nearly all cases financial losses and material hardships to families.

Boy Murdered.

PHILADELPHIA, Feb. 5.—A 12-year-old boy named Hugh Dugan, residing at 2032 Wood street, was found dead with his skull crushed and about a dozen other wounds on the head. There is every indication that the boy was murdered, but the police have thus far failed to get any direct evidence bearing on the affair.

Two Seriously Burned.

HARTFORD, Feb. 5.—Edward Morton and his wife, Minnie, were terribly burned as the result of the upsetting of a can of oil on their cook stove. Both attempted to extinguish the flames. Mr. Morton's clothes were entirely burned from his body, while those of his wife were partly burned off.

Church Burned.

SPRINGFIELD, Mass., Feb. 5.—Fire completely destroyed St. Louis Roman Catholic church in West Springfield yesterday. The fire department was helpless, and only a heavy shower saved a general conflagration.

Mrs. White Has the Grip.

BERLIN, Feb. 5.—Mrs. White, wife of the United States embassador, is confined to her bed with influenza.

BRITISH ISLES' TONGUES.

There Are Seven Languages and Dialects Spoken, Counting the Channel Islands.

Seven languages are still alive in the British Isles; in England, English with its three chief and many subordinate dialects; in Scotland, Gaelic; in Ireland, Erse; in Wales, Welsh; in the Isle of Man, Manx; in the channel islands, a form of old Norman, French and modern French.

The Gaelic, Erse, Welsh and Manx do not differ very much in essentials. They are all forms of one original language, of which another form, the Cornish, was still spoken less than 120 years ago.

The Norse language survived in parts of the Shetland isles as late as the end of last century, and many words of it are still in use in that part of the kingdom.

In some baronies of Wexford a very ancient form of English, dating probably from the time of the earliest English settlers in Ireland, existed till quite recently.

In the north of Ireland, Lowland Scotch, more antiquated than any now spoken in Scotland itself, is still used among the descendants of the Scotch settlers of the sixteenth and seventeenth centuries.

The ordinary "brogue" of Ireland is in many cases merely the sixteenth century English pronunciation. And many Irishisms, commonly supposed to be mistakes, are expressions formerly in everyday use in England, but now obsolete there, though they have survived in Ireland in the form in which they were originally introduced.—Stray Stories.

PLAINFIELD, N. J., FEB. 5, 1900

COMING EVENTS.

February 6—Meeting of Volunteer League of the Y. M. C. A.

February 6—Opening session of class in penmanship at the Y. M. C. A.

February 8—Opening session of State convention of the Y. M. C. A. at Passaic.

Independence in Somerset.

"One result of changing the township elections from spring to fall and holding them with the county and State elections," says the Bound Brook Chronicle, "would probably be to change the complexion of the Somerset Board of Freeholder. There are several screws loose in the present condition of affairs," it continues, "when the Republicans can get overwhelming majorities in the fall and yet fail to carry the individual townships in the spring."

The Newark News takes the Chronicle's comment for a topic and editorially preaches the following strong political sermon:

"Here is revealed the impelling influence for the action of the Somerset county Republican committee in indorsing consolidation of spring and fall elections. They want to tighten those loose screws—to fasten the fetters of party fealty so firmly that independent action will be impossible. Up to a few years ago Somerset was almost as certain to give a Democratic majority in the fall as in the spring. Of late, however, the independent vote has been cast at State and National elections with the Republicans, while in the spring it has continued to assert its right to support candidates for township offices on the strength of their personal character and business qualifications, regardless of what their views may be on the tariff or currency. It may be wise party policy to attempt to dragoon this element into voting for local candidates, but certainly it is open to doubt. The independent voter is jealous of his privileges, and balks at anything which smacks of coercion. So long as he is willing to support the Republican ticket in the fall, the managers of that party would best consult their own interests by letting him alone."

The retirement of Henry Abbott Steel from the editorship of the Newark Evening News is a distinct loss to the ranks of newspapermen of New Jersey. Mr. Steel has been associated with the Evening News from the day it first made its debut to the public, and it has been due principally to his talent and good judgment that the paper has reached the position of not only being the leading journal of the State but one of the recognized high-class newspapers of the country. The intelligence and the energy that Mr. Steel has given to the News has finally resulted in impairing his health, and he retires in order that he may take a long vacation and recuperate his exhausted physique. The success which has attended the career of the News, however, has brought an independent competency to Mr. Steel, and he will be able to follow his inclinations in the future in a liberal and pleasant way.

What business the United States loses in one way is generally more than made up in some other avenue of enterprise. During the year 1899 there was a decline of nearly $70,000,000 in the amount of agricultural products exported, but this loss is more than offset in the value of the manufactured articles which Yankee ingenuity and enterprise has found a foreign market for.

A tiny piece of lead is an insignificant looking thing, but its swift course across a short space of ground in Kentucky has resulted in making one of the most sensational and tragic chapters of political history in the United States.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

The new keyless fire alarm box on West Front street offers all sorts of opportunities. The other day an elderly woman was seen standing at the box and trying to turn the handle. A well-known business man stepped up and wanted to know what was the matter. She explained that she had a letter she wanted to post. She mistook the alarm box for a mail box and thought by pulling down the handle she could open it. Luckily she did not move the handle sufficiently to send in an alarm.

* * * * * *

It is evident that the new postoffice at Watchung is not fully equipped with all the necessary paraphernalia, judging by the appearance of a letter that was received from that place by a Plainfield woman. The customary postal cancellation stamp was missing, and in its place was written in ink, in brackets, the inscription, "Watchung, Feb. 2, 1900." The stamp was cancelled by two or three dashes made by a pen. The letter had the appearance of crudity in mail service, and reminded one of days of old.

* * * * * *

Saturday's New York Sun contained the following:

To the Editor of the Sun—Sir: Is there not summed up in these verses an answer to "The Man With the Hoe?"

"Children of yesterday,
Heirs of tomorrow,
Look at your fabric
Of labor and sorrow.
Seamy and dark
With despair and disaster.
Turn it, and—lo,
The design of the Master!
The Lord's at the loom:
Room for Him—
Room!"

This, I believe, is the last stanza of a poem by Miss Mary A. Lothbury, which won the first prize in a competition of 3,000 on "Labor." J. H. H.

Plainfield, N. J., Feb. 2.

Who is "J. H. H.?"

* * * * * *

Edmund Clarence Stedman, known as the "banker-poet," who announces his retirement from Wall street, that he may devote more time to his literary work, lived in his boyhood days with his uncle, David Low Dodge, (brother of William E. Dodge,) at Cedar Brook Farm. Mr. Stedman is a poet of much merit and wide reputation. His mother also was a poetess well-known, she having written the poem "Quaker's Wooing," from inspiration and facts while at Cedar Brook. Her mother later married the Hon. William B. Kinney, who was minister to the Court of France under President Franklin Pearce. Mr. Stedman visited Cedar Brook last summer and took great delight in telling of his boyish pranks and looking over his boyhood home.

EARLY INTELLIGENCE.

—There will be an important meeting of the Sons of Veterans tomorrow evening, and a full attendance is desired.

—The grand lodge officers, Knights Templar, will visit Trinity Commandery, No. 17, K. T., this evening and inspect the commandery.

—The Linden Township Committee has had a conference with the Roselle Borough Council in relation to the division of the taxes of 1892. The township has never turned over to the borough its proportion of the tax money for that year.

—Next Thursday afternoon at the First Baptist church the Womans' Foreign Missionary Society of the Park Avenue Baptist church will meet with the Foreign Missionary Society of the First church, and hold a meeting of interest to all. Prior to the joint meeting the First church society will hold a business meeting.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Worth Your While.

The fashionable reverence for old things is in the ascendant again, and old books or old furnishings of quaint or antique disign may have a value that you know not of; that old clock you've stowed up in the garret may be worth more today than it ever was, and if it's a possible thing to put it in good shape again it can be done at Collier's to your entire satisfaction. 103 Park avenue.

The Boer Fire.

The Boers seem to be making every ounce of ammunition tell and to be keeping up a most effective fire. You will find yourself able to do likewise if you purchase the ammunition for your stoves from George O. Stevens & Company.

—There will be a regular meeting of the Plainfield Camera Club this evening in the Babcock building.

THERE IS A CLASS OF PEOPLE

Who are injured by the use of coffee. Recently there has been placed in all the grocery stores a new preparation called GRAIN-O, made of pure grains, that takes the place of coffee. The most delicate stomach receives it without distress, and but few can tell it from coffee. It does not cost over ¼ as much. Children may drink it with great benefit. 15c. and 25c. per package. Try it. Ask for GRAIN-O.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence to The Press.)

Dunellen, Feb. 5.—The infant child of Mr. and Mrs. Joseph Maire, of the Park Hotel, was baptised yesterday at St. John's Roman Catholic church.

Mrs. Z. P. Osmun, who has been ill for several weeks, died early this morning, aged forty-three years. The funeral will be held Wednesday afternoon at 2 o'clock from the New Market Baptist church. Interment will be at Somerville.

Court Dunellen, Independent Order of Foresters, are to give a vocal and musical entertainment to the members and families at Lincoln Hall, Wednesday night, the 14th inst.

Rev. Dr. Jamison, pastor of the Methodist church at this place, is to lecture this week at Stockton for the benefit of the M. E. church of that place.

Master Joel Giddes, who has been at the Muhlenberg Hospital for sometime, has been brought home. His condition is considered hopeful.

Rev. Bergen D. Stelle, well-known in Piscataway township, has accepted a call to the Alleghany Avenue Baptist church at Philadelphia.

A pleasant evening was passed by the Literary Circle which met at the home of Mr. and Mrs. L. T. Titsworth Saturday evening.

The German Club, of Lincoln, will hold a masquerade ball in Voorhees' Hall, Bound Brook, Friday evening.

Mrs. Rachel Fulton, of New Market, has been enjoying a visit from her grandson, Earl Fulton, of Newark.

The new house being built by Geo. Hummer on Main street begins to assume the semblance of a dwelling.

Henry Haurand, of the Central Cafe, of Plainfield, drew the meerschaum pipe at Taylor's Hotel recently.

Great preparations are being made for the deaf mutes dance at Apgar's Hall the evening of the 21st.

The foundation for the new house to be erected by Theo. Kuldoshe is about finished.

An infant child of Mr. and Mrs. George T Schenck is recovering from a recent illness.

Mrs. James Manning, of Trenton, is visiting her parents, Mr. and Mrs. John Runyon.

The fourth quarterly conference of the M. E. church will be held tomorrow evening.

L. B. Nelson is to occupy the Fisher house on Prospect avenue this year.

A fair and sale is be held at Lincoln the 12th inst., by the Sunday-school.

Mrs. Nelson Giles has been confined to her father's home by illness.

Henry Brodenseen has moved from Lincoln to Perth Amboy.

The Common Council will meet this evening.

'PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, Feb. 5.—Wm. Collins, who has been running the stage between the village and depot for a number of years, has sold his stage and horses to George Stone, of New Brunswick. The retirement of Mr. Collins' line takes from our midst an old familiar sight and an accommodation which will be missed by the commuters especially. Mr. Stone, the purchaser, has removed the stock to New Brunswick, and Scotch Plains' last stage line has gone. A number of commuters take advantage of the trolley and go to Westfield each morning to take their usual train. This will probably be indulged in by a majority now as it saves a mile's walk each morning.

The revival meetings, which have been conducted for the past four weeks by Rev. G. M. Shott in the Baptist church, will be discontinued for the present, and the only services during the week in the church will be the Wednesday and Friday night meetings. Mr. Shott feels very much encouraged by the interest he has aroused in his church among his own members, and several outside of the church have expressed a desire to lead a new life and will unite with the church at an early date.

The trolley company did a rushing business on their Cranford extension yesterday afternoon. The pleasant weather seemed to induce people to take a trolley ride and enjoy the pleasant change in the weather.

The breakup in the weather yesterday spoiled the skating which has been so fair on Marsh's lake for several weeks.

David R. Clark, of Montclair, has been visiting at the home of his parents, Mr. and Mrs. Benjamin Clark.

Mrs. George W. Marsh entertained her parents, Mr. and Mrs. A. L. Jimerson, of Westfield, yesterday.

WESTFIELD

(Special Correspondence to The Press.)

Westfield, Feb. 5—Gov. Foster M. Voorhees has accepted the invitation of the Social Club to attend the annual masquerade ball of that club, which is to be given Friday evening. This masquerade is the social event of the season and is always largely attended; in fact last year many were unable to get in the hall, so that this year only those in mask will be allowed on the floor, although a place has been set aside for the spectators to view the grand march from.

SOUTH PLAINFIELD.

(Special Correspondence to The Press.)

South Plainfield, Feb 5.—The frosty weather makes work plenty on the storage ground and also at the coaling station. The coal freezes in the cars and makes it hard to dump.

Skating on the pond is very good and a great many people are enjoying the sport these days.

Thos. Herlihy is moving into the house with Mrs. Pender.

Miss Harned, of New York, who has been visiting Plainfield relatives, has returned home.

George W. Strong, of New Brunswick, was the guest of Plainfield friends yesterday.

William J. Kitchen, of Taunton, Mass., arrived in Plainfield yesterday. He came home to attend the funeral of his grandfather, Wm. H. Kitchen, which will be held tomorrow. He will return home tomorrow.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders

—The Plainfield Board of Education will meet tonight in regular session.

—This evening the regular meeting of the Borough Board of Health will be held.

—Court Pride, No. 26, A. O. F., will meet tomorrow evening and consider some important business.

—The regular February meeting of the Common Council will be held a week from tomorrow evening.

—A regular communication of Jerusalem Lodge, No. 26, F. and A. M., will be held tomorrow evening.

—Communion services were held at Warren chapel yesterday morning, and there was a large attendance.

—Young men interested in the study of penmanship are requested to meet at the Y. M. C. A. this evening.

—One candidate will be initiated at the meeting of the Plainfield Council of Chosen Friends tomorrow evening.

—There will be initiation tomorrow evening at the meeting of Martha Washington Council, Daughters of America.

—Tomorrow evening an entertainment will be given under the auspices of Old Glory Council, No. 62, Daughters of Liberty.

—The ten new silk looms for the Watchung Silk Company are expected to arrive this week and will be put in position at once.

—There will be initiation this evening at the meeting of Washington Camp, P. O. S. of A., and a full attendance is desired.

—The 1,000 employes of the New York and New Jersey Telephone Company have organized a fraternal and protective organization.

—We will have sea food for everybody that wants only the best. We don't buy what other dealers won't have because it is cheap. Rogers.

—Students from the Hampton, Va., Institute, will appear at the Crescent Avenue church next Thursday evening and tell something of their work. A male quartette will furnish music.

—At the communion service at the First Baptist church yesterday morning five persons received the right-hand-of fellowship. There was a very large attendance of members at the service.

—Wednesday evening at the First Presbyterian church George R. Witty will deliver a lecture on the "Amazon Valley and Work Among the Indians of Brazil." A cordial invitation to all is extended.

—A canning factory for Clinton is now assured. Stock to the amount of $9,600 has been subscribed for. The stockholders held a meeting in Music Hall last week and appointed a building committee.

—Charles Hartram, of Whitehouse, has secured the contract for furnishing the rustic stone for James B. Duke's new horse barn at Raritan. Mr. Duke's barn, when completed, it is said, will be the finest in New Jersey.

—Several cases of typhoid fever in Morristown recently decided the Morristown Water Company to submit for an analysis of the water supplied by the company to Dr. Elwyn Waller. The report of the chemist shows that an exceptionally small amount of bacteria was found to exist in the water, considering the season of the year, and that it was as pure as could possibly be expected. No fever germs were found.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Miss Francis Thorn, of New York, spent yesterday in Plainfield with relatives.

Robert Suffern, of Sycamore avenue, has gone to New York to spend the month.

Mrs. W. A. Millard, 304 West Front street, is visiting friends in Dover, Morris county.

Louis M. French, of Craig place, is greatly improved from a severe attack of the mumps.

Miss Gardiner, of Brooklyn, has returned home after a pleasant visit with Plainfield friends.

Charles H. Herring, of New York, is visiting his son, Rev. C. E. Herring, of Watchung avenue.

Miss Kittie Graves, of Liberty street, has secured a position in Walker's grocery at Westfield.

Miss Lawson, formerly of this city, but now of New York, has been visiting Plainfield friends.

Mr. and Mrs. Reuben Knox, of Washington avenue, are spending the week in New York city.

The young son of Mr. and Mrs. Clarence Leland, of Elmwood place, has recovered from a recent illness.

Miss Thompson, of Woodhull & Martin's store, has returned to her position after a vacation of one week.

Mr. and Mrs. Horace Huff, of Codington avenue, will entertain the Montauk Euchre Club at their home this evening.

Miss Cora Young, a saleswoman employed at Woodhull & Martin's store, is taking a vacation and will spend it with friends in Brooklyn.

Letter-carrier Daniel Shea left for Buffalo Saturday afternoon, having been summoned to his old home by the death of his brother, who has been ill for several weeks.

D. W. King, of Craig place, has just returned from Brooklyn, where he was called on account of the critical illness of his father, J. W. King, formerly of this city.

George Collins, formerly in the employ of J. J. Heideloff, of Somerset street, has accepted a position with the Rutland Stove Lining Co., at Rutland, Vt., as traveling salesman.

Dr. Rowland Cox, Jr., of New York, returned to this city Wednesday, and is now seriously ill with tonsolitis at the home of his parents, Mr. and Mrs. Rowland Cox, of West Seventh street.

The Woman's Foreign Missionary Society of the First Presbyterian church will meet next Friday afternoon and listen to an address by Miss Morris, a returned missionary from India.

Silas Dewey Drake, of Lincoln, celebrated his birthday anniversary yesterday in a very appropriate manner. During the afternoon he received a number of callers who congratulated him.

HOW UP-TO-DATE SOCIETY RIDES.

Modish people in New York showed unusual interest in this year's bicycle show because of its automobile feature. The display of the horseless carriage at Madison Square Garden was certainly attractive. The vehicles ranged from the heavy truck to the light, handsome and sporty turnout built for the lady whose husband or papa has a large bank account. Manufacturers' representatives, in full dress, explained and exploited their goods to men wearing high hats and women in tailor-made suits and rich furs. The bicycle was by no means neglected, but its votaries presented a more democratic appearance. There are some swell turnouts in the automobile line in New York, but the coming summer will undoubtedly see the number greatly increased.

Lokal-Nachrichten aus der alten Heimath.

Elsaß-Lothringen.

Straßburg. Dieser Tage stürzte in Neudorf der zweistöckige Seitenflügel des an der Polygonstraße gelegenen Haffner'schen Neubaues ein. Der Eigenthümer sowie ein Werkführer wurden leicht verletzt aus den Trümmern hervorgezogen.

Albesdorf. Hier starb eine Frau Nemsguern geb. Kannegnissert im Alter von 102 Jahren. Sie war geboren am 29. November 1797. Die alte Frau war bis zu ihrem Tode im Besitze ihrer geistigen Fähigkeiten.

Bischweiler. In Folge falscher Weichenstellung fuhr auf hiesiger Station ein Schnellzug in einen Güterzug hinein, dessen letzter Wagen mit Spiritus geladen war. Der Spiritus explodirte mit furchtbarem Knall und ergoß seinen brennenden Inhalt auf den Postwagen, der alsbald in Flammen stand. Drei Postbeamte, Behneike, Menkel und Wenger kamen in den Flammen um, Lokomotivführer Baumgarten und Heizer Lechner erlagen bald darauf ihren Verletzungen.

Metz. Auf dem vierten neuen Fort Point-du-jour sind seit Kurzem die Erdarbeiten von 2000 auf einmal eingestellten italienischen Arbeitern in Angriff genommen worden. An sämmtlichen vier Forts sind jetzt, nachdem das Frostwetter aufgehört hat, etwa 7000 Arbeiter beschäftigt.

Provinz Westpreußen.

Danzig. Der Senior der Danziger Buchdrucker R. Pulter beging dieser Tage sein 50jähriges Jubiläum. Derselbe ist seit 1857 in der Edwin Groening'schen Buchdruckerei (jetziger Inhaber J. H. Jacobsohn, Papier-Groß- und Exporthandlung) thätig und erfreut sich trotz seiner 65 Jahre einer guten Gesundheit.

Marienwerder. Bei einem Brande ihres Wohnhauses lief die Frau des Zieglermeisters in Bärenwalde in die in hellen Flammen stehende Wohnung, um noch das vorhandene Baarvermögen von 140 Mark zu retten. In demselben Augenblick stürzte das Haus zusammen und begrub die Frau unter den Trümmern. Sie wurde zwar noch lebend herausgezogen, doch ist an ihrem Aufkommen zu zweifeln.

Rheinprovinz.

Köln. Zweihundert Ziegeleien in der Rheinprovinz und in Westfalen haben einen „Ring" gebildet.

Aachen. In der Lederfabrik de Hesselle, Aktiengesellschaft, ist eine Feuersbrunst ausgebrochen, die einen Schaden von etwa 30,000 Mark angerichtet hat. Der Betrieb ist ungestört.

Bamberg. Das Magistratsplenum beschloß mit knapper Majorität die Einrichtung eines städtischen Elektrizitätswerkes. Darüber, ob dasselbe in Regie betrieben oder in Pacht gegeben werden soll, wurde vorerst die Berathung ausgesetzt. Der vorläufige Aufwand beträgt 500,000 Mark.

Koblenz. Zwölf Gehöfte in dem Dorfe Rhense sind in Flammen aufgegangen und ein Hausbesitzerssohn ist dabei im Rauche erstickt.

Provinz Sachsen.

Aschersleben. Hier grassirt die Diphtheritis so heftig, daß auf Anordnung der Sanitätsbehörde das Gymnasium geschlossen worden ist.

Mühlhausen. Der steckbrieflich verfolgte frühere Gutsbesitzer Wilhelm Brinckman sen. aus Popperode, gegen welchen ein Verfahren wegen Meineidsverleitung schwebt, und der vor längerer Zeit mit seinen Söhnen nach Argentinien geflüchtet war, hat sich jetzt dem hiesigen Amtsgericht freiwillig gestellt.

Naumburg. Die hiesige Kadettenanstalt wird am 1. April eröffnet.

Provinz Schlesien.

Görlitz. Mehrere Glasmacher aus Böhmen, die in den Glasfabriken zu Penzig beschäftigt waren, erhielten Ausweisungsbefehle. Der dagegen erhobene Einspruch hatte keinen Erfolg.

Grottkau. Großmühlenbesitzer Salo Kohn zu Winzenberg ist bei der Beseitigung von Eis von seiner Mühle zusammen mit zwei Knechten ertrunken.

Kattowitz. Ein herrliches Naturschauspiel bot sich neulich Vormittags den Passagieren des von Deutsch-Wette nach Cosel-Kandrzin fahrenden Zuges. Ein prachtvoller Regenbogen zeigte sich, während die Sonne in vollem Glanze strahlte. Rechts und links vom Tagesgestirn erblickte man je eine Nebensonne; beide waren durch einen hellen Bogen mit einander verbunden.

Provinz Schleswig-Holstein.

Kiel. An Bord des auf Howaldts-Werken in der Ausrüstung befindlichen schwedischen Dampfers „Oskar Frederik" ereignete sich ein schwerer Unfall. Zwei auf dem Oberdeck beschäftigte Werftarbeiter stürzten in Folge Zusammenbruchs der Stellage in den Schiffsraum hinab und erlitten tödtliche Verletzungen.

Provinz Westfalen.

Hagen. Der aus Baden gebürtige Schlosser Max Kreitler, der unter der Anklage verhaftet war, im Juli v. J. den Hammerschmied Egen in der Nähe von Milspe ermordet zu haben, und demnächst vom Schwurgericht abgeurtheilt werden sollte, hat ein Geständniß seiner That abgelegt. Auch den im September 1898 an dem Arbeiter Hofacker, ebenfalls bei Milspe, verübten Raubmord hat Kreitler eingestanden.

A Hoboken, N. J., storekeeper states that he has long been the victim of a frightful species of torture. "From night until early morn," he says, "I walked the floor and could not sleep. Dyspepsia was the chief trouble. I had been trying various remedies with but little success, until about six months ago I started to take Ripans Tabules. They have cured me. At first I took them very sparingly, being naturally afraid of them, but I kinder noticed a change and I took three each day, until now I only take one a day, or one whenever I feel bad. They were brought to my notice by a gentleman who was taking them for a disordered and bad stomach, such as vomiting, headaches and bad breath. He has been positively cured, although he is too modest to write a testimonial. I will not take the liberty of mentioning his name or address, but you have my full permission to use this letter, as I am positively cured of one of the most distressing diseases on earth."

WANTED—A case of bad health that RIPANS will not benefit. They banish pain and prolong life. One gives relief. Note the word RIPANS on the package and accept no substitute. RIPANS, five cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

THE REIGNING MODE.

What Is Decreed For Cold Weather Wear.

No godets now appear at the waist either in the basque or gown skirt, all fullness being reserved for the edge. The same idea is carried out in capes and visites, which incase the figure closely, flaring only at the border. A new visite of fur of this class covers the arms and falls in front in two shawl points. The edge is cut in tabs to form a sort of basque, and from beneath these comes an ample flounce of velvet very deep at the back, continuing and growing a little narrower across the arms and finally mounting the edges of the fronts. The high fur collar is lined with shirred velvet. This is a comfortable and luxurious wrap, suitable for an elderly woman. An old fur cape of the shorter, full variety is susceptible of being thus altered. It may, on the other hand, be changed into a bolero, such as young women prefer, with large revers of white satin or of moire incrusted with yellow lace.

EVENING GOWN.

Sleeveless boleros of velvet are to be worn, with a long scarf of lace of mousseline de soie in front. These may be worn beneath the large mantles now adapted for all over visiting gowns.

The evening gown illustrated is of sky blue voile. The skirt is run plaited and has an application of Richelieu lace near the foot. Over this is a princess tunic of the voile having a ruffle of white mousseline de soie around the edge. It is draped at the waist by a cluster of Malmaison roses, and the bodice opens over a plaited plastron of the voile. The collar and revers and the sleeves are of Richelieu lace, the sleeves having bands of black velvet at the wrists and ruffles of white mousseline de soie. JUDIC CHOLLET.

DINNER GOWNS.

Tulle and Net Costumes With Transparent Sleeves.

As invitations to dinner do not always specify just how large and how formal the dinner is to be, it is sometimes a little difficult to decide upon the costume to be worn upon the occasion. To appear in full evening dress when all the other women are in high gowns is as embarrassing as to wear ordinary costume when the rest are in their best bib and tucker. The excessive favor shown to tulle and net this winter suggests a happy compromise and permits a sort of costume which will not be out of place at any dinner.

These thin materials are embroidered and spangled and illuminated with jewels or elaborated with applications of lace. They are more effective over dark than over light silk linings. The latter are made without sleeves and with a round or square decolletage, the tulle alone covering the arms and neck. The tulle sleeves are very tight and long. Although spangled and jeweled tulle like the gown is sometimes used for the sleeves, they are prettier made of the plain material, puffed and shirred into the shape of the arm.

DINNER BODICE.

The dinner bodice illustrated is of broche silk and has a square decolletage. The large collar of white satin is cut in deep points and bordered with a little ruche of mousseline de soie. A drapery of satin passes across the front, fastening at the left side beneath a chou with wired points. A collar of satin is worn, and the belt is also of satin. The tight sleeves are of the broche silk. JUDIC CHOLLET.

FASHION NOTES.

New Batistes and Fresh Ideas For Hair Ornaments.

Some of the novelties in spring and summer wash goods are exceedingly pleasing. Among them are sheer lawns or batistes with set designs in embroidery of black or black and white in conjunction. As examples may be cited a white batiste with groups of black geometrical figures rather widely separated, a pink batiste with groups of similar figures in which black and white both appear and a bright, deep blue batiste embroidered with white Louis Quinze bowknots. Any of these would make a charming gown.

Fewer flowers are worn in the hair with evening costumes, while ornaments enjoy increased favor. Among the newest of these is a sort of flower composed of tulle, white or colored, very finely jeweled with crystals. In the middle an aigret of fine white hairs simulates stamens. Very young girls wear empire bows of gold or silver or butterflies of lace or tulle. Brooches are also much worn in the hair, and the effect is often excellent if the brooch is properly placed. A leaf of green enamel, for example, placed at the side of a fluffy arrangement of chestnut hair is exceedingly pretty. The brooch must not be too small and must be attractive in itself, as a bit of coloring or an artistic design.

BOLERO.

The illustration given today shows the latest development of the bolero for out of doors. It is of black astrakhan and has a short basque, longer in front than at the back and cut in scallops at the edge. The valois collar is lined with chinchilla, and there are large chinchilla revers. The tight sleeves have bands of chinchilla at the wrists, and there is a bow of black satin at the throat. The hat of gray felt stitched with black is trimmed with a bow of black velvet, with a rhinestone buckle and a large cluster of black curled plumes. JUDIC CHOLLET.

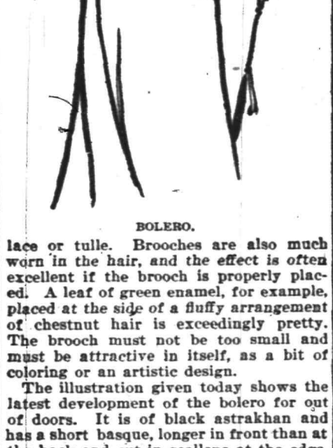
NEXT SEASON'S STYLES.

Coming Events Cast Their Shadows Before—A Novel Hat.

The newest models of shirt waists have a front let in, like the bosom of a shirt, and this is often of a different material. For example, a shirt waist of pink zephyr will have a front of white pique with a printed design in pink. Soft cravats of the same material as the waist are a frequent accompaniment.

The old fashion of drawing the ends of a long neck scarf through a ring is again revived.

There is every indication that white will be as much worn next summer as it was last. Lace and embroidery are shown in profusion as the decorations of advance models of warm weather gowns, these being a mass of delicate insertions which form all sorts of fantastic motives.



FEATHER HAT.

The circular flounce continues to be a feature of these costumes, but requires to be very carefully treated in sheer fabrics, as there is always danger that it will stretch out of shape. Besides pure whites, there are dainty combinations of lavender, pale green or black with white, which are extremely pleasing.

A picture is given which illustrates a curious novelty in hats. It is composed, brim and crown, of overlapping red quills. The left side is lifted by a large chou of red miroir velvet, which rests upon the hair. Another chou of the same velvet is placed upon the crown and is pierced by one large red quill. The same idea is carried out in tones of gray and in periwinkle blue. JUDIC CHOLLET.

Don't Wet Furniture.

Never put a wet cloth on oiled or varnished furniture. Rub dry with a clean cloth if obliged to wipe off any kind of dirt. If an article needs oiling, use oil on one cloth and rub dry with another. It will take a bright polish. Never leave oil on articles, as it catches the dust.

GOLF WILL SET THE FASHIONS

The Early Spring Materials Show a Tendency in That Direction—Some Winter Street Gowns.

HARDLY has the first snow of winter fallen before there is talk of what the spring fashions will be. Society is not yet discussing the subject to any great extent, but in the big New York wholesale houses it is the chief commercial topic at the present time, and for that matter has been for the past few weeks. I paid a visit to one of these wholesale houses a few days ago for the purpose of ascertaining what the spring would offer in the way of materials and colors.

COMBINATION OF BLUE AND IVORY BROADCLOTH.

By this visit I found that the tendency would be for Scotch effects in plaids principally. They will be in browns, grays, blues, and black and white, and all of this because of the rage for golf. One of the western salesmen of this house told me that there was an unusual demand for these Scotch effects all over his territory; that the demand was not only in towns where the game of golf was played, but in towns where the first principles of the game were almost unknown.

This is simply the usual tendency to follow the society leaders in the matter of fashions. But it is quite probable that these clothes will be a season or two late for society has just about discarded golf as a fashionable pastime. During the last summer at Newport it was but seldom that the society women whose names are household words throughout the country were seen on the links, and the prophets predict a still further decline of the popularity of the game for next summer among the elite of the metropolis.

But some of the street dresses of the present season would be of more timely interest, and I took a walk on a crisp, sunshiny afternoon, just to see the styles in walking costumes, and afterwards I visited a fashionable modiste who is at work on a few spring costumes, even at this early date, and saw two or three pretty corsages that will be a feature of the spring outdoor gowns, and of which I give some descriptions and a picture.

OF AUTOMOBILE RED AND MOHAIR VELVET.

For early spring wear these corsages promise to be quite a rage, and quite a pretty rage it will be, for they are simply charming in the effects which are now being produced in the early spring models. I predict for them a run for which it will be a hard matter to find a comparison.

One of the smartest of winter walking costumes is of dark blue broadcloth and ivory broadcloth. The under petticoat is of the ivory broadcloth, with many rows of the blue in pipings around the skirt. Over this falls a tunic of the blue broadcloth in points. This has three pipings of the ivory. The bodice is made with a lovely, and very unique, checkered yoke, with pointed revers of the blue. The blue broadcloth fitting the figure with a slight fullness at the waist line, and a high stock and small vest of blue velvet. Perfectly plain sleeves.

A more startling walking gown is of automobile red mohair cloth. The under tunic and folded vest are of black and red striped velvet with a pointed drapery of the red mohair cloth fastened with straps at the side and brilliant steel buttons. A high collar and pointed yoke of plain red velvet. It had a natty bolero jacket of the red mohair cloth, with strappings on the revers and on the sleeves.

Another lovely gown on the tailor made order is a fine cheviot in chestnut brown, with strappings of a much darker shade of brown velvet. These strappings come from the double box plait in the back, and slant downwards toward the front, with two small cut steel buttons on each strap. A natty jacket that comes to the waist line in the back, and had a deep rounded front. This jacket is covered with strappings about one inch wide, and then a space of the same width. The sleeves are carried out in the same fashion. A high collar and pointed revers that are faced with a rich guipure lace.

A beautiful costume is a velvet tailor made. It shows a single skirt opening at one side the entire length, revealing a band of white broadcloth. It is fastened with strappings of the velvet, and small gilt buttons. The bodice is treated in the same manner, with a center band of the white broadcloth over which a velvet vest opens. A tight fitting sleeve of the velvet cut in diamond shapes on the upper part revealing a white broadcloth underneath.

A VELVET CORSAGE.

A pretty corsage is of royal blue velvet, and has three opening cuts in the front, with an under effect of Irish point lace. A round yoke of the lace with a very high crushed velvet collar, and two berthas falling low over the shoulders and crossed in deep points in the front. A belt of the velvet with a very brilliant large steel buckle.

Another pretty corsage for early spring wear is of sage green. The front is cut in small diamonds, revealing a white broadcloth with an applique of gold, with small gold buttons fastened down the back. A high stock with tiny clusters of the gold buttons on, and a plain sleeve with three rows of gold buttons on the upper part to the elbow. A small crushed girdle with a gold buckle, and long silk fringed ends hanging at one side of the girdle.

SARAH DAVIDSON.

All Kinds of Hair.

Ida—Do you remember that girl who went to see a gypsy and asked what kind of hair her future husband would have?

May—Yes.

Ida—And the gypsy said she was almost baffled; that the cards indicated he would have hair of every shade imaginable?

May—Yes.

Ida—Well, the fortune came true. She has just married a dealer in wigs.—Chicago Daily News.

A Wonderful Child.

Visitor—That's a fine, healthy looking baby.

Proud Father—Healthy! I should say he is healthy! The manufacturers of Faker's infant food offered $1,000 for his photograph to use in their ads.—N. Y. Journal.

Metropolitan Neglect.

"Do you like living in the city, Aunt Marietta?"

"No; it's too lonesome. Why, when our new hatrack came, not a soul in the neighborhood came over to try to find out what it cost!"—Puck.

PET SUPERSTITIONS.

Almost Everybody Yields to Their Peculiar Influence.

Every Known Trade or Calling Has Its Own Uncanny Signs and Tokens of Good or of Ill Luck.

[Special Chicago Letter.]

"EDITH will be married next Friday," one of the dear girls at the hot-soda fountain was heard to remark to her chum. The other dear girl dropped the spoon with which she had been manipulating her soda and gasped.

"On Friday?" she said, "my, my; well, Edith always was an odd sort of a girl."

"Yes; she wanted to show all of her friends that she was not superstitious,"

"MARRIED ON FRIDAY!" SHE GASPED.

the first girl replied. "They say that her fiance did not like the Friday wedding idea one bit, but he was too much of a coward to protest."

The two girls turned to their soda; and for some moments silence reigned supreme.

"It will be the 13th of the month, besides," the first girl began again.

"My, my," said the other.

Truly, Edith must have been an odd sort of a character. How many of the dear girls, I wonder, would be willing to celebrate their wedding on a Friday? And who would choose the 13th of the month for such a festivity?

Marriage License Clerk Solomon, of Chicago, tells me that hardly any licenses are made out on the sixth day of the week; and numerous clergymen affirm that brides have never appeared before them on that "fatal" day. Those who are married on Friday, one of the clergymen said, are nearly always trying to bear witness before all the world that they are free from superstition.

But how about Edith? I happen to know that she kept her promise and was duly wedded on hangman's day. Her husband informs me that she faced the ordeal with firmness, though she made one or two remarks, he says, which led him to suspect that she was weakening. As she entered the church, however, she was visibly frightened because she stumbled slightly over the threshold.

"Charley, dear," she is quoted as having said, "Charley, I hope this does not mean anything; perhaps it would have been better to wait till next Monday."

The superstition that tumbling over a threshold predicts evil is as old, perhaps, as married life, and is based upon a rather natural feeling. And the case of Edith, who, by the way, is now happily living with her hubby in one of the suburbs of Chicago, simply goes to show that none of us are absolutely free from superstition. In fact, it is some-

"'TWAS ONLY THE MIST," HE SAID.

times claimed that the very people who scoff the most are the very ones who yield most readily to some absurd pet superstition.

A dark night arouses little palpitating fears in nearly everyone, fears against which a double-barreled revolver offers no protection. The sexton at the country cemetery once explained at length his theory about ghosts. He declared that when he remained awake until after 11 p. m. he could often see them flitting over the graves, but he added they were perfectly harmless, and a midnight walk in the cemetery had no terrors for him. The smart young man informed the sexton that his ghosts were only the thickly falling mists, and volunteered to go to the cemetery at that hour. He wanted a companion to whom he could prove his case, and when no one would act as escort, the young man seemed to be much less ready for a solitary errand. However, he did not wish to show his fear, and took the walk through the cemetery. When he returned, he reaffirmed that it was only the mist, and explained exactly how it came to form, but his pale lips and cold hands indicated that his heart and his mind had not been in accord.

Every class of society and every occupation has its pet superstition. Probably the most superstitious of men are the gamblers. The practice of "trusting to luck" generates such a feeling, so that scarcely a man who sits down to the green table is entirely free from this weakness. "The blue has not won for some time," says one of the gamblers, and forthwith he stakes his winnings on the blue. Or, at poker, the player reasons that as he has not filled his flush or his straight for some time, he can afford to bet heavily now. This sort of calculation is utterly unmathematical and unphilosophical, as the chances in each individual play are not what they were in any other, and yet even the most skillful gamblers cannot resist this superstition. Among other notions are those that certain men are "lucky," that one loses on certain plays, or that certain positions at table are more desirable than others.

The gamblers, boys engaged in healthy sports, are apt to be superstitious. Even in college teams, composed of thoroughly educated young men, the death of a "mascot" is regarded with dire forebodings. A captain of an eastern football team once forbade the use of a certain cap which, he surely believed, had brought "bad luck" to the team. In college, also, the belief is common that certain days of the week are lucky ones for competition; thus Thursday was at one time the favorite day for baseball games in one preparatory school, as the boys had rarely if ever met with defeat in football, baseball or other sport on that day.

Sea-going men are possessed of a great variety of odd whims, generated in part, no doubt, by their secluded life on board of a vessel with nothing but the watery expanse all about. For instance, the festivities in which all crews indulge on crossing the equator partake, I am told, of the nature of religious services among some of the South European sailors.

The appearance of certain signs on the sky or in the water is regarded everywhere as indication of events to come, in some cases perhaps with good reason, in others, however, for no reason at all. The disappearance of rats, for one, is considered a certain sign of approaching danger, while the presence of an albatross, accord-

GRANDMA TELLS OF HER PET SUPERSTITION.

ing to a sailor's myth, is a favorable omen.

Soldiers of the regular army are less superstitious than sailors, though they put great store in the significance of days on which events transpire, and also in the appearance of dogs or rabbits by the wayside.

In ordinary lines of trades pet superstitions similarly prevail. *Barbers*, in some sections of the country, for instance, look askance upon a heavy patronage on Monday, as they believe that this means poor business the balance of the week. Bricklayers often believe that when the mortar does not mix well it means that they will be out of a job soon, and all laboring men in the building line claim that when the roof is put in a building, the celebration with its customary keg of beer must be forthcoming, as otherwise some disaster will happen to the new structure. Farmers, as a class, are freer from superstition than some people prefer to believe, as their rules about the weather or the prospects for crops may be based on better reason than is outwardly apparent.

Of all the many pet superstitions to which individuals in all classes of society are addicted, one need hardly speak—only to ask which of you, gentle reader, has never felt his heart pulsate a little more rapidly at the sight of a rabbit crossing one's path, at the thought of 13 at a table, of a piece of business begun on a Friday, at the spilt salt, broken china, lost charm, or forgotten mascot.

Still there is quite another kind of superstition prevalent among highly educated peole, which, as modern science is beginning to show, may not be superstition at all. I refer to the many theories regarding mental telepathy, hypnotism and anticipation. People claim that they suddenly feel that they are about to meet friends, and, presto, the friends appear. Or one man thinks of a certain fact, and at the same moment some one else present expresses his idea. Or again, some person dies and a distant loved one sees his picture and gets a message from the dying one.

Perhaps these phenomena are all mere accidents or dreams, but in recent years eminent physiologists have come forward with explanatory theories. It is contended that mind telegraphs to mind, the energy in one brain being carried almost unconsciously to another, so that your friend knows your thoughts even when you are far distant, or sends a last message at the hour of death, a theory which, if correct, will give science an opportunity to plant herself firmly on ground hitherto placed in the realm of pet superstitions.

E. T. GUNDLACH.

Sale of Delinquent Lands for Unpaid Taxes and Assessments as Adjusted.

COLLECTOR'S OFFICE,

City of Plainfield, New Jersey.

Notice is hereby given that the subscriber, the Collector of the City of Plainfield, New Jersey, pursuant to the authority of the statute in such cases made and provided, will expose for sale and sell at public auction to the highest bidder, on Friday, the twenty-third day of February, A. D., Nineteen Hundred, at 2 o'clock, P. M., of that day, at the Collector's Office, No. 109 Park Avenue, in said City, certain lots, tracts and parcels of land situated in the first, second, third and fourth wards of said City, upon which the taxes and assessments have been fixed and adjusted by the Commissioners of Adjustment heretofore appointed in and for said City under the provisions of an act entitled "An Act concerning the settlement and collection of arrearages of unpaid taxes, assessments and water rates or water rents in cities of this State, and imposing and levying a tax, assessment and lein in lieu and instead of such arrearages, and to enforce the payment thereof, and to provide for the sale of lands subjected to future taxation and assessment," passed March 30th, 1886, and the various amendments thereof and supplements thereto, as said liens appear by the report of the said Commissioners or certified copy thereof, duly confirmed by the Circuit Court of the County of Union and filed in this office, which taxes and assessments as adjusted against the lands hereinafter designated, have remained unpaid and in arrears for more than six months from the date of the filing of said report, or certified copy thereof in this office.

Further particulars of the lands to be sold may be obtained at the office of the Collector of said City of Plainfield, 109 Park Aveuue in said City, on any week day prior to the day of the sale between the hours of 9 A. M. and 4 P. M., except holidays and Saturdays, and on Saturdays between 9 A. M. and 12 noon.

The following list contains the lot and block numbers of the lots, tracts and parcels of land to be sold in pursuance of this advertisement, as they appear on the assessment maps annexed to said report, together with a statement of the wards of the said City in which the property to be sold is situate and the amounts due from the said lots respectively.

To the amount due on each lot or parcel, as hereinafter designated, there will be added its proportionate share of the costs of this sale which is hereby estimated at three dollars for each parcel.

Sale Number.	Supposed owner or person to whom assessed.	Ward.	Block Number, Commissioners' Map.	Lot Number, Commissioners' Map.	Street or Avenue.	Amount of liens as adjusted.	Date from which interest will be added on amounts of liens at the rate of seven per cent. per annum to date of sale.

SPORTING.

STRIKES AND SPARES.

The Daily Press Bowling League.

	Games Won.	Games Lost.	High Score.
Roselle Casino	7	2	911
Westfield Club	5	4	866
Park Club	5	7	864
Cranford Casino	4	11	863

An international bowling tournament is to be held at Union Hill Schutzen Park July 15 to 22, under the auspices of the United Bowling Clubs of New York.

Five leaders of the boys department of the Y. M. C. A. will play five members of the senior department a game of bowling at the Y. M. C. A. Friday evening.

The games in the Daily Press Bowling League, scheduled to be rolled Friday evening between the Park Club and the Westfield Club on the latter's alleys were indefinitely postponed. The postponement was made at the request of Chauncey D. Smith, captain of the Westfield team. The games will probably be rolled in two weeks.

The last of the games in The Daily Press Bowling League to be rolled in this city this season are scheduled for Friday evening at the alleys of the Park Club. The opposing team will be from the Roselle Casino. Westfield and Cranford have now rolled fifteen games each in the league, while the Parks have taken part in but twelve. By the postponement of the Park-Westfield game at Westfield last Friday it will even up the playing very fairly. Roselle is coming to Plainfield with the hope of winning two games out of the three, but there's always a chance of the Parks showing strength when it will do them no particular good. Roselle can't lose the trophy, even if all three games were to go to the Parks.

WHIST

The Orange Whist Club succeeded in defending the trophy of the New Jersey Whist Association successfully against the Elizabeth Chess and Whist Club last Monday. The Orange team won by eight tricks. The Forest Hill team is next in line and the Park Club, of this city, will have a chance after that.

The national trophy of the American Whist League was played for at Albany Saturday night, by the leaders in the eastern and western sections. The American Whist Club, of Boston, defeated the Athenaeum Club, of Toronto, by three tricks. The Park Club of this city has sent in a challenge for the trophy.

The fifth round in the intercity whist tournament was played Saturday night in the rooms of the Knickerbocker Whist Club, of New York. The Park Club four continued their steady game and slightly advanced their lead for the trophy. The S team of the Knickerbocker Club also strengthened its hold on second place. The Parks have 16 matches won and a trick score of 36 plus. The last round will be played in Brooklyn in two weeks and the Parks have an excellent show of coming out victorious.

BASKET BALL.

The next game of basket ball scheduled to take place here will be when the team from the New Brunswick Y. M. C. A. will play a return game against a team from the evening class of the local association. It will be remembered that the Plainfielders went over to New Brunswick and had no difficulty at all in defeating the Brunswickites. A return game was promised and will be played here on the evening of February 12th, Lincoln's birthday. The Plainfield association will be represented by a team selected from the members of the evening class in the gymnasium and probably captained by Eric Moraller Moraller will be the only member of the old team who will play.

ROD AND GUN.

The sporting fraternity of Clinton are absorbed in the shooting match and fox chase which will take place tomorrow. It will be held under the management of the Clinton Gun Club.

Spring Jackets

and other wearables are coming to us every day for cleansing or dyeing—not a mite too early.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World

When modern drama "holds the mirror up to nature" and deals with the strongest emotion that sway over destinies, when the beautiful story unravelled for our entertainment sending us home with something that will be stored away in the cells of our memories as a pleasant reminiscences, then we feel that the object of the theatre has been obtained. In this desired result Henry Myers and Miss Bertha Marion Wilson, who has revised "A Guilty Mother," has preeminently succeeded. This great drama is the offering at Music Hall tomorrow night. No play since "East Lynne" was dramatized has possessed the heart interest that we find in the beautiful story of "A Guilty Mother," told by the gifted authors in a most enchanting style, and presented by the clever company engaged to interpret it. Two carloads of scenery and mechanical effects are used in the sumptous stage setting and perfection of the modern costumer's art has been reached in the elaborate details of this essential feature.

* * * * *

The author of "A Man of Mystery," which will be produced at Music Hall Friday night, Mark E. Swan, has made a study of hypnotism, and the way a hypnotist works is shown in every detail. The idea is a new one on the stage. In fact, originality is the keynote of the whole play. "A Man of Mystery" is the kind of drama that one cannot forget, and most people like to see it two or three times, such a strong hold does it take upon the interest.

* * * * *

The Herald Square Theatre is a good place to seek out these nights if you want a crisp, lively evening's entertainment. David Belasco's "Naughty Anthony" is one of the comedy successes of the season. Miss Blanche Bates, as a drummer for silk hose, takes off several pairs every evening and more or less electrifies the audience. She does not get down to the last pair. Outside of this rather startling incident, there are lots of other things that amuse. Matinees are given on Saturday.

LEGISLATIVE WHEELS ARE TURNING SLOW.

[CONTINUED FROM PAGE 1.]

in Essex county at the hesitancy of the Governor to re-nominate Circuit Court Judge Francis Child for another term of office. Nearly all the lawyers in that location have signed a petition for his re-appointment. It is true that Judge Childs is a Democrat, but then it has been understood all along that a Republican would not get the place. Recently the name of Judge Fort has been mentioned in connection with the appointment, but still it is not believed that he seeks it.

Other appointments yet to be made by the Governor are two members of the State Board of Assessors, to succeed Robert S. Green and Stephen J. Meeker. Both are Democrats and will likely succeed themselves. Mr. Green is a son of the late Governor of that name.

DISCUSSED BILL.

Meeting of Officers' Association of Paid Fire Departments Held at Newark Saturday—Amendments Proposed.

(Special to The Daily Press).

Newark, Feb. 5—A meeting of the New Jersey Officers' Association of Paid Fire Departments was held here Saturday afternoon. No important action was taken, but there was a discussion of Senate Bill No. 13, which affects all paid departments in the State and does not permit the appointment of inexperienced men as officers, but requires them to be chosen from the ranks.

Several amendments were suggested, the most important of which was that the chief could be chosen from among the captains or foremen instead of only among the battalion chief, where that office exists.

The legislative committee of the association, of which Chief T. O. Doane, of Plainfield, is a member, will go to Trenton tomorrow evening to confer with the Senate committee regarding tha bill.

—Ladies as well as gentlemen are invited to the public debate at the Y. M. C. A. this evening at 8 o'clock. Subject: "Resolved, That the Boers are justified in their attitude toward England."

—Miss Keron, county superintendent of the Loyal Temperance Legion work in New Jersey, will speak to the "Helping Hand" company, of Plainfield, tomorrow, in the new rooms, 100 Madison avenue, at 4 o'clock.

—Minnie L. Dorman, eighteen months old, daughter of Robert and Minnie Dorman, of 224 Monroe avenue, died this morning after a brief illness. The funeral services will be held from the home of the parents on Wednesday afternoon. Interment will be in Hillside Cemetery.

LONG SKIRTS.

A Street Railroad Conductor Tells How Much Trouble They Cause.

The weather was very cold, and only the conductor and usual fresh-air fiend had dual possession of the back platform. As the car neared a crossing a well-dressed lady pressed the button to stop, and the "con" obediently pulled the bell. The lady gathered up a small bundle or two, and, as is the manner of the sex, hurried out to the platform before the motorman had any idea of throwing off the current. The result was that she stood in the open doorway just long enough to reduce the car to freezing, while the car was coming to a halt. Before it had quite slackened up she strode forward and stepped off, as is the invariable custom of femininity, with her back to the front of the car, with the result of an unexpected visit to Mother Earth, accompanied by a fleeting vision of up-to-date hosiery and a shattered bundle. The subsequent course of events varied not a spot from the usual order of things—the conductor getting a rating, the railroad company being denounced as malice-aforethought murderers, and invariable damage suit forcibly brought out of retirement.

After the excitement had subsided the conductor spoke as follows:

"They're all alike. Show me a hen, a cat and a mule, and I'll show you the photograph of a woman. You can't get a woman to step off a car right, no more than you can get her to wear pockets in her dress or pass a mirror without looking in. I've got a theory which I think is about right. It's all on account of long skirts and no pockets. Yes, it is a queer combination. But look at it this way: A woman with a long skirt will nine times out of ten hold it up with her left hand. On account of the absence of pockets she carries her pocketbook in her right hand. This would be all right if she would wait till the car stops, but no woman will do that under any circumstances. People get off the car on the right-hand side, and a man naturally reaches out his left hand to hold onto the handle; but the woman will pick up her skirt, as she is in the habit of doing, with her left hand, and dance right off, facing in the direction she wants to go. You saw just now what the result is. They blame it on the conductors, but it's all the fault of the long skirts. If she didn't have to carry her pocketbook in her right hand she would reach around for her skirt with that. But she doesn't, and there you are."

And the fresh-air fiend nodded assentingly, and dropped off, grasping the rail with his left hand.—Cincinnati Enquirer.

CARE OF CARVING KNIVES.

When in Use at Table They Should Be Whetted on the Steel After Every Cut.

Carving knives should, to begin with, be of the best steel, and then should always be kept in the highest condition. A good knife saves time and trouble, while the portions and joints look so much better than if an instrument with a blunt cutting edge has been used. It is well for an ironmonger when offering these goods for sale to thoroughly understand not only the construction of the article he sells, but the best manner of using it. A few hints given by a Sheffield manufacturer when discussing this subject may be useful. He says: "I have handled carving knives both in business and at my table for many years, and I know that the best knives will not cut properly when used on hot roast beef unless the steel is used after every few cuts. The best way is to use the steel after every cut. The steel need not be rough, as some people imagine—in fact, a well-worn steel is better than the one with a rough surface, and a few passes over it with the knife produce a good edge. The man who rubs and manipulates a carving knife for five minutes against a steel before he begins to carve and thinks that now he has it all right and may send the steel away makes a great mistake. He should keep the steel handy and pass the knife over it lightly a few times after every cut or two. And even then he will accomplish nothing unless he knows how to use the two instruments. A carver must be held at an angle of from 20 to 25 degrees on the steel. One must be careful to have the angle the same on both sides, otherwise the knife will be dull instead of sharp. The knife should be drawn on the steel from heel to point against the edge, and the pressure should be very light."—Ironmongers' Chronicle.

National Luncheons.

National luncheons are the latest thing in the feminine world. The scheme of the lunch party is to take a certain country as the dominant note and represent it in table decorations, room trimmings, costumes of the maids and the dishes. At a pretty Italian luncheon the other day the maid wore the national peasant costume, the table had crossed ribbons of the tricolor, and among the dishes were spaghetti, stuffed olives, Italian wines, Italian bread, fish, desserts and entrees, all as it taken from an Italian table. Russia, China, Norway, England and other European countries afford lots of opportunities for these national affairs. The flags are easily obtainable, and with a good cook, a good cook book and an eye open for the delicacies of the shops and stores, a bright hostess may make a luncheon of this character very attractive.—N. Y. Herald.

A Cup of Water.

A cup of hot or cold water taken on rising in the morning is of much value with some people, for the mucous coat of the stomach is washed away, and its juices are more quickly brought into contact with the food—Cincinnati Enquirer.

Purchased Five Hundred Men's Suits and Overcoats.

We secured for ready cash the finest lot of clothing that we ever handled in this town before, made by the Union Clothing Co., of Rochester, N. Y. Each and every garment bears the union label which is in itself a guarantee of first-class workmanship and latest style, but owing to the lateness of the season we have purchased this lot of goods for less than we ever dreamt of buying them at, and as we buy so we sell. An opportunity that you will not have again this winter to dress yourself up with a suit and an overcoat for almost the price of a single garment. Here are the prices that will talk for themselves:

Lot No. 1—50 Men's Suits; they are made of very stylish, fancy cheviots, also in blue and black worsted cheviots, good and heavy and up-to-date in style, originally made to sell at $10.00, will be offered at this sale at..... 4 50

Lot No. 2—75 Suits of all-wool worsteds, cassimeres and Scotch cheviots, very stylishly made, suits that sold early in the winter from 12.00 to 13.00, to go at this sale at $5.75. Remember the above lots of goods are new, being just received.

Lot No. 3—68 Men's Suits of the finest grade, the new style Oxford mixed and also strictly all-wool worsted stripes made up with the latest style vests, we have them in stout as well as in regular sizes, the wholesale prices of these suits were from 15.00 to 20.00, we will sell what we have left of them at $7.50, this is positively the best value we have ever offered.

Lot No. 4—73 Men's Overcoats, black or blue meltons and Oxford mixed friezes, this is really an exceptional fine lot of overcoats, if we would have had them earlier in the season we would have retailed them from 10.00 to 12.00, to go at this sale your choice at..... 5.00

Lot No. 5—45 of very fine dress up strictly up-to-date overcoats, lined either with satin or worsted clays, also received in this present lot of clothing, worth from 12.00 to 15.00, to be sold now at 6.75.

This is only a part of the great number of bargains we will offer this Saturday, be on hand sure as this will be a "Crack-a-Jack" sale.

The stock must go in order to have room for our great Spring Stock of clothing, which we expect soon.

NEW YORK CLOTHING CO.,

M. WEINBERGER, MANAGER,

214 West Front Street, Next Door to Music Hall, Plainfield, N. J.

NEARLY 100 YEARS OLD

Miss Amelia Thompson Passes Away at the Age of 97 Years—A Native of New Jersey.

The death of Miss Amelia Thompson, aged 97 years, of 90 Mercer avenue, occurred last evening. She was one of the oldest residents of the borough, where she lived the most part of her life. She was a member of the First M. E. church and was an earnest Christian woman. She had a host of friends who loved and admired her for her many excellent qualities. She was a native of this State and came to Plainfield early in her life. She leaves two sisters, who reside in the borough. The funeral will be private. Interment will be in Hillside cemetery.

COUNCIL TO GIVE OPINION.

New Township Law Not Clear to Springfield Committeemen.

The Springfield Township Committee has decided to ask counsel for an opinion regarding the new Township act which goes into effect February 25th next. It is generally understood that the act legislates out of office all the present officials, and requires an election of new officers in the spring, but some of its provisions are not clear to the members of the Sprinfield Committee. The Committee has received no official notice or interpretation of the law, and so it was decided to get an opinion from counsel.

Adopted Daughter Loses Her Case.

(Special to The Daily Press.)

Elizabeth, February 5.—Judge Vail, in the Union County Orphans' Court, has decided the contested will of the late Annie Evers, of this city, part of whose estate includes $3,700 in the Republic Savings and Loan Association, of Newark. The will was contested by Catherine Evers, an adopted daughter, who, by a codicil attached to the document, was disinherited. Judge Vail annulled the caveat, sustained the will and ordered it admitted to probate. Rev. Martin Gessner, of St. Patrick's church, will now secure the $500 bequeathed to him by the deceased woman. The estate is valued at nearly $10,000.

Inquest Not Necessary.

The funeral of Chris Peterson, who was found frozen to death near New Orange was held at his late residence in Cranford Saturday. The County Physician has decided that an inquest as to the manner of his death will not be necessary. It was learned yesterday that he had not collected the money due him at New Orange.

Dance of The Fire Laddies.

The Firemen's Ball, as the annual reception of the Firemen's Mutual Benefit Association is called, will be held Thursday evening in Washington Hall. From the returns already received, there is every prospect of a large crowd.

—There were twenty-eight persons present at the First Baptist church last evening when Dr. Yerkes preached a very interesting sermon. There was also special music.

BRYAN COMES HERE TOMORROW AFTERNOON

Arrangements Practically Completed for His Reception.

SPEAKS AT MUSIC HALL.

WILL LUNCH WITH J. E. MARTINE AND DEMOCRATIC LEADERS.

Mass Meeting at Music Hall Will Begin at Three o'Clock—Stage and Boxes Reserved For Specially Invited Guests—Several Brass Bands to be on Hand—Several Thousand Strangers Expected.

If the weather tomorrow only happens to be favorable there will be several thousand strangers turned loose in the city streets and all with a single object in view. That object is to see William Jennings Bryan, the probable presidental candidate this year of the Democrats, and to hear him speak. "The Boy Orator of the Platte," as Mr. Bryan is frequently called, has promised to come to Plainfield tomorrow afternoon and address a meeting at the Stillman Music Hall.

The arrangements for the meeting tomorrow afternoon are now practically complete. The exact hour that it will begin is not known. In fact, it will not be known until it arrives. It is safe to say, however, that it will be in the neighborhood of three o'clock. The out of-town delegations will begin to arrive in the morning. The bulk of them will come at noon and the remainder will reach here during the afternoon.

Mr. Bryan speaks in Connecticut today. He will leave late tonight for New York city and is expected to reach the Grand Central depot during the morning. He will there be met by Congressman William Daly and other prominent Jersey Democrats and escorted to the Liberty street ferry and out over the Jersey Central Railroad to Plainfield.

The hour of Mr. Bryan's arrival in New York is not exactly known, so it is impossible to say just when he will reach Plainfield. It will probably be on the 11 o'clock, the 11:59 or the 1:01 train. There will undoubtedly be a crowd of enthusiastic Democrats at the station to welcome him, and the old Democratic cannon is expected to roar forth its noisy salute.

James E. Martine, the "Farmer Orator," who has the arrangement of Mr. Bryan's reception in charge, will be at the station to meet Mr. Bryan and his escorts. An open carriage will immediately take them for a brief drive about the city and then up to Mr. Martine's home on Watchung avenue, "Cedar Brook."

Mr. Bryan, Congressman Daly and the other dignataries who happen to be with him, will lunch with Mr. Martine. Many of the old Democrats have written to Mr. Martine begging for an opportunity to see or meet the Democratic standard-bearer without having to fight their way into Music Hall. Some are too infirm to attend the mass-meeting. After the luncheon a few of these will meet Mr. Bryan by special invitation.

After Mr. Bryan has been given a chance to rest, he will be driven in an open carriage, preceded by a brass band, to Music Hall. The other members of the party will follow. The procession will move slowly so that all can have an opportunity to see Mr. Bryan.

The front doors to Music Hall will be opened nearly an hour before the meeting is expected to begin. The stage and both tiers of boxes have been reserved for specially invited guests. The remainder of the hall will be free to the first comers. No children will be allowed, as the accommodations are too limited to even supply the demand of the older people. The ladies will be welcome, and many will undoubtedly attend.

The delegations from Somerville and Raritan will be accompanied by a band, and the New Brunswick Democrats may bring another. The visiting bands will be stationed in Music Hall previous to the arrival of Mr. Bryan and entertain the crowd with music.

Several hundred chairs will be arranged on the stage. Special "platform" tickets have been issued to a limited number of prominent Democrats principally from out of town. Special arrangements have also been made for the newspapermen and several large tables at the front of the stage will be at their convenience.

Mr. Martine will make a short opening speech introducing Mr. Bryan. For a man who is making two and three speeches daily week after week, it is impossible for him to say something new each time. His address in this city will therefore be on the same

(CONTINUED ON PAGE 8.)

BROKAWS MAKE APPEAL.

STATE BOARD OF TAXATION WILL PASS ON THEIR CASE.

Objected to $8,000 Valuation Placed On The Brokaw Estate In North Plainfield Township by Assessor Morris.

The old Brokaw homestead and the farm adjoining near Sebring's Mills will be one of the subjects under discussion at the meeting of the State Board of Taxation at Trenton today. The owners and Assessor Morris, of North Plainfield township, have failed to agree regarding the value of the place and the matter has finally been brought to the attention of the State Board for settlement.

For over a century the Brokaws have owned the quaint old farm house that stands in the futherest corner of North Plainfield township close by the mountain. There are two hundred acres in the farm that surround the place, a hundred acres of farm land and another hundred on the slopes of the mountain.

The place is now the property of the Brokaw Brothers, the New York clothing merchants. When Assessor Morris came to make up his lists he assessed the property at $40 an acre or $8,000 in all. The owners did not think the assessment fair, and so appealed their case to the township commissioners of appeal. The commissioners decided to sustain the assessor's valuation.

The Brokaw Brothers then asked the Township Committee to pass on the matter, and a meeting of the Committee was called last December. It was then discovered that the Committee had no jurisdiction over the case, and that the only appeal was to the State Board of Taxation. So the case was taken before them and will be considered today, when Senator Charles A. Reed will act as counsel for the owners of the property.

FUNERAL OF F. E. MARSH

MANY GATHERED TO PAY THEIR LAST RESPECTS.

Services Conducted in an Impressive Manner by Rev. D. J. Yerkes—Deserving Tribute to the Life of the Deceased.

The funeral services of the late Francis E. Marsh were held yesterday afternoon at 2:30 o'clock from the home, 915 Central avenue, when a large number of relatives and friends gathered to pay their last respects. Included among the mourners were most of the legal fraternity of this city, and some from out of town, who had known the deceased for many years.

The services were conducted by Rev. Dr. D. J. Yerkes, pastor of the First Baptist church, where Mr. Marsh was a member and an attendant. After Dr. Yerkes read appropriate Scripture selections, a quartette, composed of Mrs. M. F. Ward, contralto; Mrs. Samuel Case, soprano; C. W. McCutchen, tenor, and William Holmes, bass, rendered effectively "Abide With Me." Dr. Yerkes then spoke at some length on the uncertainty of life and of the necessity of being prepared for the last call. He paid deserving tribute to the life of the deceased, and told something of the sorrow that had entered his life in the loss of his wife and four children. He spoke of Mr. Marsh as being a whole-souled person, very generous and with a loving and kind disposition. He referred to his life in his home and of the highest expression of love there manifested towards his sisters. All of these expressions were re echoed in the hearts of those present who knew such to be true in every particular.

At the close of the above remarks the quartette sang "Hiding in Thee," in an impressive manner. Then an opportunity was given those present to view the remains. The floral tributes were very beautiful and were expressive of the high esteem in which the deceased was held by those who knew him. After the service at the house interment took place in the Baptist cemetery on Plainfield avenue.

Annual Meeting.

The annual meeting of The Plainfield Exchange will be held at Grace church Guild rooms Wednesday next, February 7th, at 11 o'clock a. m. An account of the work of the past year will be given and as the year has been the most successful one in the history of the society, the meeting promises to be most interesting. Subscribers, consignors and all others interested in this laudable work are cordially invited to attend. The officers are:

Mrs. O. T. Waring, president.
Mrs. Francis Wood, vice-president.
Mrs. Edgar S. Hyatt, recording secretary.
Mrs. Rowland Stover, treasurer.
M. C. Marsh, cor. secretary.

A DESERVING CASE.

An Appeal Made for Funds to Send Young Cosgrove to His Home in California.

An appeal is made to the people of Plainfield for money to pay the traveling expenses of William Coegrove to his home in SanFrancisco. The public know that the young man has been lying in Muhlenberg Hopital since early last summer. He was injured on the railway at some distance from Plainfield and was found where he was thrown, having been lying there in an unconscious condition nearly six hours. Upon examination at the hospital, he was found to have sustained a fracture of the spine, which has caused paralysis of the lower half of the body. One leg had to be amputated, and the case has been pronounced incurable, although the poor, helpless fellow may live many years. He is the oldest child of his widowed mother in SanFrancisco, and he is pathetically anxious to get home to her and to the land of sunshine and flowers. There he can resume the trade of making wire flower baskets, which was taught him in his boyhood.

In our small hospital we have no accommodation for incurable patients, and young Cosgrove has no one to help him, nowhere to go in the east. This accident has thrown him among the people of Plainfield. His attendants and doctors at the hospital have certainly acted the part of the Good Samaritan to him. "His wounds have been bound up, oil has been poured into them," and now the citizens of our town must carry out the rest of the teaching of the parable, and "send him to his own country."

The youth of the patient, his helpless and hopeless condition must appeal to all classes. In our Bible we are comforted by the assurance that the widow's mite is never despised, but we are also warned that to whom God has given much of them will he require much.

A stranger in New York has offered to give us $50, if we can raise the rest, and a young medical man has offered to go with young Cosgrove, provided we pay his expenses.

The sum needed may be over $300. On one line, a railway official has promised to take off 50 per cent. If we can induce the presidents of the other lines to be equally generous, we shall get our expenses down to a figure considerably under $300. If we raise more money than is needed, the surplus will be sent to Mrs. Cosgrove, to be devoted to the purchase of a comfortable invalid chair, in which her son can lie and enjoy the sunshine. If we raise less than is needed, the plan must be relinquished. All contributions, large all small, among more or otherwise, may be sent to any one of the committee: Mrs. D. T. Vanburen, 810 Central avenue; Mrs. George Randall, 203 West Ninth street; Mrs Huntington, 324 Franklin place; Mrs. Lee, 249 East Ninth street; Miss Cock, 235 East Fifth street; Mrs. Hyatt, 243 East Ninth street.

ICE CROP RUINED.

Dirt and Sand Was Washed on the Ice at the Washingtonville Pond and Practically Ruined It.

The present crop of ice on the big pond of the Plainfield Ice and Cold Storage Company at Washingtonville is practically ruined. The heavy rain of Sunday night is responsible for it. Before that time the ice was eight inches thick and was as clear and smooth as could be wished for. The rains, however, washed the earth and sand down from the banks on the ice, flooding and covering it with a deposit of the dirt and sand. More cold weather will only freeze the deposit into the ice and thereby ruin it for most purposes. A heavy thaw which will melt away the present ice, followed by another cold wave, is what the icemen are now hoping for.

A Unique Entertainment.

On Thursday evening, Feb. 15th, there will be given at Bethel chapel, corner Fifth and Washington streets, a unique entertainment, entitled "Scenes from Uncle Tom's Cabin." It will consist of a series of tableaux in which members of the school will take many of the chief parts, and there will be short readings from Mrs. Stowe's famous book to explain the scenes. Great interest has already been manifested by those who are familiar with the enjoyable entertainments given from time to time at the Bethel. The affair is being arranged on the same plan as the "Pride and Prejudice," and "Cranford" tableaux which were such a success at the Crescent Avenue chapel a few years ago.

No Truth in News Stories.

Chairman R. I. Tolles, of the councilmanic street committee, denies absolutely the recent stories in the News regarding the proposed work of that committee. He says that there is not one bit of truth in the articles.

WALKED INTO DEATH ON CENTRAL TRACKS.

Charles Perrine Was Instantly Killed Last Night.

N AR RICHMOND ST. BRIDGE

STEPPED OUT OF PATH OF AN EXPRESS TRAIN.

Did Not See Locomotive and Caboose Approaching on Another Track—Projection Struck Him in the Back of the Head and Crushed His Skull—Frank Burke Was With Him at the Time.

Death came suddenly and instantaneously to Charles Perrine last evening. He stepped out of the path of an express train only to meet death coming from the opposite direction. He stood too close to the westbound track and a projection on a passing locomotive and caboose struck him in the head. His skull was fractured and a deep gash cut in his head. The fatality occurred on the tracks of the Jersey Central Railroad, near the Richmond street bridge.

Perrine was, until lately, a special detective in the employ of the Lehigh Valley Railroad. Of late he has been out of employment. He lived with his wife in one of the row of cottages on Watchung avenue, between Front street and the bridge. He was a man of forty-five years. He had two children.

Shortly before 6 o'clock last evening Perrine and Frank Burke, a paperhanger living on North avenue, started to visit a friend on Cottage place. They walked down the track together. They became so interested in their conversation that they passed Cottage place without noticing it and almost reached the Richmond street bridge.

"Look out, Charlie," exclaimed Burke, "there comes the cars." They stepped to one side to allow an express train to pass. Perrine was quite close to the westbound track. He did not see a locomotive with caboose attached that was going west.

It is not known exactly what struck Perrine. There was some projection that caught him in the back of the skull crushing it. With a groan he fell to the ground. He was dead when Burke reached his side.

It was 6:20 o'clock when Burke hurried to the freighthouse and told the men there of the horrible death of his companion. The body was carried to the freighthouse and soon afterwards transferred to Cole's undertaking establishment. A physician was summoned to the freighthouse, but death had been instantaneous. County Physician Westcott arrived during the evening and granted a burial permit.

SENATOR REED'S BILL.

One Gives Telephone Companies the Same Legal Standing as Other Corporations.

(Special to The Daily Press.)

Trenton, Feb. 6—A ten-minute meeting was held by each House of the Legislature last evening and nothing was done, outside of the introduction of a dozen bills and the advancement on the calendars of a few others.

Mr. Wakelee, of Bergen county, introduced a bill in the Assembly authorizing Gov. Voorhees to appoint a commission of ten who shall lay out the Palisades of the Hudson as a public park. The bill is not to take effect until a similar one is passed by the Legislature of New York.

Senator Reed introduced the following two bills in the Senate:

"Making it unlawful to issue a fire insurance policy containing a co-insurance clause, unless a reduction in rate is named." (Banks and Insurance.)

"Gives telephone companies the same legal standing as other corporations, the telephone companies being incorporated under an act of 1853, relating to telegraph companies. Makes it lawful for three or more persons to associate themselves into a company to construct and operate telephone companies." (Corporations.)

For Benefit of Soldiers' Home.

The Woman's Relief Corps of this city has about raised the amount of money pledged toward the soldiers' home at Vineland, N. J. Each corps in the State promised to give a certain amount and thus assist in furnishing the rooms in the home. This institution is for both veterans and their wives.

Death of an Infant.

Lucetta Giddis, the infant daughter of Mr. and Mrs. Cornelius Giddis, died yesterday at their home from pneumonia. The funeral will be held from their residence Thursday afternoon at 1 o'clock.

—Press want ads bring results.

TO RUN ALONG THE SHORE.

Bikers Get Control of the Rahway Electric Railway, Which Will be Greatly Developed.

The Union and Middlesex Traction Company line in Rahway has passed into the control of the Westfield and Elizabeth Street Railway Company, which corporation holds the franchises between Elizabeth and Plainfield. The Rahway line extends from St. George's avenue, in Rahway, through Woodbridge, Sewaren and Boynton Beach.

For some time past it had been known that the Westfield and Elizabeth Company was, through its representatives, endeavoring to secure control of the Union and Middlesex line, which, if all reports be true, has been on the market for many months. The deal, it is understood, was concluded Saturday.

The line just purchased connects with the new line on St. George avenue at the head of Grand street, in Rahway. The new line, as yet, only extends a short distance westward beyond the city limits. Colonel Hine, the secretary of the road, has assured the Common Council of Rahway that the road will be opened through to Westfield in the early spring.

The Union and Middlesex line, so far as can be ascertained, has under its old management been anything but a paying investment, except perhaps during the summer months, when as a rule travel to Boynton Beach is heavy.

Now that the Bikers have control of the Rahway line, it is probable that in the very near future there will be a connection direct between Elizabeth and Rahway.

It is probable that at an early date an application will be made to the Elizabeth City Council for franchises. As has been stated, the project of the trolley company is to get the right of way to the lower section of Elizabeth. The route that has been proposed is through East Broad street, Magnolia avenue, Division street and Court street; and another route on the south side of Elizabeth, through Bayway, to connect with South Front street. This latter route is apparently for the purpose of making a shore road that would take in Tremley and Carteret, and connect with the Union and Middlesex line, and so make the route continuous between Elizabeth, Woodbridge, Sewaren and the Amboys.

SULZER WILL BE HERE.

New York Congressman Writes John Staats, an Old Friend, That He Will be on Hand.

Congressman William Sulzer, of New York, will be here tomorrow afternoon to attend the meeting in Music Hall to be addressed by Col. William Jennings Bryan. Inasmuch as Congressman Sulzer is prominently mentioned as a running mate for Bryan, his coming tomorrow will give added interest to the day which will undoubtedly be the most notable in the history of the local Democracy.

It is not generally known that Congressman Sulzer is a native of Union county, but such is the case. He was born near Roselle and lived there till quite a boy. John Staats, proprietor of the Hotel Kensington, was born in the same neighborhood and he and Congressman Sulzer went to school together, and have been intimate friends ever since.

A few days ago Mr. Staats wrote to Congressman Sulzer asking him to come to Plainfield tomorrow, and this morning he received a letter stating that he would be here.

DIED A PAUPER AT AGE OF EIGHTY.

Isaac Bird, Well Known in This City, Passed Away at Industrial Home.

Isaac Bird, aged about 80 years, died yesterday at the City Industrial Home, where he has been an inmate for many months past. He was a well known person in this vicinity, where he lived for many years. During the past few years of his life he was unable to do anything on account of his health which was poor, and he was taken from miserable quarters back of French's Mill to the Industrial Home, where he could spend the remainder of his days in comfort. He was a veteran of the Civil War. He leaves a brother, Morgan Bird, of Park avenue, and several relatives in the west.

Col. Bryan in Burlington.

(Special to The Daily Press).

Burlington, N. J., Feb. 6.—Col. William J. Bryan will speak in this city Thursday afternoon. The day will be made a general holiday, and every factory, store and foundry in the town will be shut down that the employes may meet him.

Fined $3.

Angelo Pedettre, the Italian who was arrested in the borough last Sunday for fighting, was arraigned yesterday afternoon and Recorder Long fined him $3, which he paid.

DEADLY PARLOR MATCH.

THREATENING FIRE AT HOME OF DAVID E. CROWELL.

Stand-Cloth Catches Fire and the Inflammable Material Also Ignites Carpet—Presence of Mind Averts a Conflagration.

The snapping match again asserted its position as being the most dangerous of its kind. The aforesaid match got in its work early last evening at the residence of David E. Crowell, 10 Craig place. One of the members of the family struck a match to light the sitting room lamp. Instantly the fire flew off and directly to the stand-cloth. A blaze shot up and in a second there was a sheet of flame that struck terror to the hearts of the women members of the family. From an incipient blaze to what threatened a serious fire at once confronted the inmates of the house.

With commendable presence of mind Mr. Crowell snatched the burning coverlid from off the stand and made vigorous efforts to smother the flames which were rapidly licking up the inflammable material. Mr. Crowell was only partially successful, however. The fire was so hot that he was compelled to drop the cloth, which falling upon the carpet soon had that in a blaze. At this junction Edwin H. Bennett, a boarder, hastened to the assistance of Mr. Crowell and together they succeeded in stamping out the fire. The stand-cloth, a sofa pillow and the carpet suffered considerable damage.

But for the promptness and energy displayed by Mr. Crowell and Mr. Bennett it is possible the services of the North Plainfield fire department would have been in demand. The damage will not exceed $25, and the loss is covered by insurance.

NEW MOVE IN ATHLETICS

PLAINFIELD HIGH SCHOOL ATHLETIC ASSOCIATION TO BE RE-ORGANIZED.

Troubles in the Old Association Practically Ended Its Career Last Fall—Meeting Held Yesterday and Committee Appointed

The first steps were taken yesterday afternoon toward the re-organization of the Plainfield High School Athletic Association. The association has accomplished much since it was organized seven years ago and held many successful athletic meets and conducted successful football and baseball teams.

Last year the association had trouble in its own ranks and no attempt was made during the past fall to revive that organization. A meeting was held at the High School yesterday afternoon and the first steps taken to completely re-organize the association. A committee of three was appointed to draw up a new constitution based on the same plan adopted by the colleges.

The new association will include all the boys of the High School in its membership and is expected to infuse new life into High School athletics. Any troubles of the kind that disrupted the existance of the old organization will be provided against and a flourishing association is expected.

Harriman to Stump the State.

(Special to The Daily Press.)

Hoboken, Feb. 6—Job Harriman, of Los Angeles, Cal., who was nominated as candidate for the Presidency of the Socialist Labor party at a National convention in Rochester, N. Y., Thursday, has consented to make a stumping tour through this State before he returns to his California home. He is now booked to speak at Jersey City Friday evening, Feb. 23d, and at Newark Saturday evening, Feb. 24th. He will also speak in several other large cities in the State, but no date has yet been fixed for his appearance.

Dr. Lewis Will Speak.

The many admirers of Rev. A. H. Lewis, D. D., of Plainfield, will be glad to learn that he has been secured to address the Washington Camp Ground Association, at its annual meeting February 22, next. His subject will be "The Birth and Evolution of a Great Nation." Rev. T. E. Davis, the association's historian, will talk on "Bound Brook Women of the Evolution."—Bound Brook Chronicle.

Don't Want Roadbed Torn Up.

The Board of Freeholders insists that Cranford township must build the sewer to Garwood along the side of the county road, and not interfere with the roadbed. An agreement to that effect must be signed by the members of the Township Committee before they will be given permission to dig up the road.

Prize Choristers.

The prize choristers of Grace church for January were: VanWyk Brooks, Albert Yaeger, Herbert Smith, Miss M. Ulrich, Miss J. Little, Miss M. Yaeger, Miss L. DuChann, Miss I. Tallamy. Master Albert Yaeger received the Grace church cross.

MENTORS OF CITY PUBLIC SCHOOLS.

Board of Education Transacts Important Business

COMMITTEES ARE NAMED.

TWO NEW TEACHERS APPOINTED TO FILL VACANCIES.

Prof Griggs Engaged to Deliver a Course of Four Lectures at Franklin School—He is Also to Speak at Commencement—The Matter of Fire Drills Discussed—Several Reports Received.

The first meeting of the Board of Education since its reorganization this year was attended by every member last night. President Probasco named the standing committees for the year and they were approved by the Board. They are as follows:

Committee on finance, Messrs. Lovell, Abbott and Lounsbury; fuel, Messrs. Abbott, Lounsbury and Richards; buildings and repairs, Messrs. Lovell, Probosco and Lounsbury; stationery and supplies, Messrs. Richards, Lounsbury and Probasco; teachers and text books, Messrs. Probasco, Richards and Abbott.

Upon motion of President Probasco, the committee on teachers recommended the appointment of Miss Ethel A. Haven as teacher in the Whittier School in place of Miss Tomlinson, who is ill. Also Miss Florence Churton as teacher in the Franklin School to be in charge of the overflow class. The recommendation was unanimously adopted.

Miss Haven is a graduate of the Geneseo Norman School, and for four years was the critic in that institution.

Miss Churton is a graduate of the Cortland Normal School, and for the past month has been efficiently supplying the place of Miss Louise Runyon, at the Bryant School, while the latter teacher has been ill.

At the request of President Probasco, the suggestion made at a previous meeting to engage Prof. E. H. Griggs, of Brooklyn, to deliver a course of four lectures for the benefit of the teachers, at a cost not to exceed $50, was taken from the table.

It was the opinion of the Board that it would be wise to engage Prof. Griggs and it was so ordered. These lectures will be on educational subjects for teachers and will be for the benefit of all teachers who desire to attend them. They will be delivered at the Franklin School on the afternoons of April 11th and 25th and May 2d and 9th.

Upon the recommendation of Superintendent Maxson the Board also decided to engage Prof. Griggs to deliver an address at the commencement exercises of the High School at graduation. Prof. Griggs is highly recommended by Superintendent Maxson and many of the teachers of the school who have heard him lecture in Brooklyn.

Owing to the crowded condition of the Whittier School, upon the recommendation of Superintendent Maxson, the Board gave permission to place one of the classes temporarily in the chapel.

President Probasco asked Superintendent Maxson if the fire drills in the various schools were still kept up. He said the recent frightful accident in one of the Trenton public schools had suggested to him the necessity for having the drills maintained.

Superintendent Maxson replied that he believed that the drills had been kept up in the fall, but that they had been omitted during the cold weather. They would be resumed again in the spring. President Probasco cautioned Superintendent Maxson that they were very necessary.

Superintendent Maxson's report showed that he had received $322.22 for tuition; $140.66 for books, etc., and $30 for the library fund for the Irving School. The report was received and ordered placed on file.

The report of the tax collector showed that $1,166 09 had been collected and deposited in the City Bank to the credit of the Board.

The medical inspector's report showed he had examined 50 pupils during December and 101 during January.

The above reports were also received and ordered placed on file.

A large number of bills were also audited and ordered paid.

No further business being at hand of which the public was allowed to have cognizance, President Probasco moved that the Board go into executive session.

John V. Beekman, Jr., of West Eighth street, has returned to his studies at the Massachusetts Institute of Technology after spending his mid-year vacation at home.

SETTLEMENT IS NEAR

Reported That the Louisville Conference Has Agreed.

CONTEST TO BE LEFT TO THE COURTS

Troops to Be Withdrawn—Beckham to Act as Governor Until the Judicial Decision Is Announced. Governor Taylor's Position.

LOUISVILLE, Feb. 6.—At midnight it was announced that an agreement for the settlement of the governorship dispute in Kentucky had been reached at a conference of the Republican and Democratic leaders held here.

The papers are now being prepared for the signatures of the conferees. According to National Committeeman Woodson of the Democrats and Postmaster Baker of the Republicans some concessions were made on both sides, but it is declared that the Democrats carried the main points. The Republicans, it is believed, acted on advice from Washington. The details have not been made public.

The negotiations really began at Frankfort Sunday, when John Marshall, Taylor's lieutenant governor, and David Fairleigh of Louisville held a conference with Governor Taylor at the executive building. When it was concluded, Messrs. Marshall and Fhirleigh went to the Capitol hotel and had a talk with Senator Blackburn. This talk resulted in the conference last night in this city, which, after preliminary skirmishes, began at 5 o'clock in a room at the Galt House. Those present were John Marshall, David Fairleigh, T. H. Edelen and General Daniel Lindsay for the Republicans and Senator Blackburn, Urey Woodson, Samuel J. Shackelford, Eph Lillard and ex-Governor J. B. McCreary for the Democrats. When the conference got under way, Senator Blackburn announced the following as the only basis on which the Democrats would agree:

First.—That troops be withdrawn from Frankfort by Taylor.

Second.—That J. C. W. Beckham be recognized as governor until an adjudication can be obtained by due process of law.

Third.—That the contest board be allowed to meet in Frankfort and the minor Democratic officials be installed.

Fourth.—These conditions precedent being complied with, the question now at issue between W. S. Taylor and J. C. W. Beckham be submitted to the courts.

The conference adjourned at 8:30 and reassembled at 10 o'clock, with the indications in favor of the Republicans making such concessions as would satisfy the Democrats.

AS TAYLOR SEES IT.

Willing to Submit to Arbitration by United States Supreme Court.

FRANKFORT, Ky., Feb. 6.—"I will leave the settlement of this controversy to any three fair minded men on earth," said Governor Taylor in an interview yesterday. "Let three men in whom the people have confidence be selected by the United States supreme court, and I will with all confidence submit the case to their arbitration and will cheerfully abide by their decision in the matter. I was elected governor of the state of Kentucky, not by a majority of 2,200, but by a majority of 40,000, and on that decision of the people I propose to stand.

"No acts of the legislature in regard to my case have been legal, because no meeting of the legislature has been held according to law. The constitution provides that the legislature shall consist of two bodies, the senate and the lower house, and shall sit at the seat of government. That seat of government is in Frankfort unless the governor convenes the legislature at some other point. I have convened the legislature at London, where it will continue to sit for the present at least, and no action by the Democratic members of the legislature can therefore have any legal standing.

"Another thing, I have never been given formal notice that I had been deposed by act of the legislature. When such notice of the act of the Democratic members of the legislature is given me, I will either ignore it or veto it.

"The case of the election board is different from that of the legislature," continued Governor Taylor. "The law specifically provides a room for them in the state building where they shall hold their sessions. Of course I was declared elected by the former board, so that the present board has nothing to do with my case. The courts enjoined the gentlemen appointed by me to fill the vacancies caused by the resignation of Commissioners Pryor and Ellis from taking their seats on the board, and it is useless to submit arguments to the present board when at least two members of that board have already committed themselves in regard to the contests before them. It is simply a farce to bring the cases of the other state officers before the board."

The rule that no civilians should be allowed to enter the capitol building which has prevailed since the legislature was compelled to leave it one week ago was relaxed yesterday afternoon in favor of the state board of election commissioners.

Ammunition For South Africa?

NEW YORK, Feb. 6.—The British steamer Domingo de Larrinaga has arrived from Norfolk and will load for South Africa. It is said that the steamer will load ammunition and other supplies for the British army and will stop at Halifax to embark Canadian troops. Captain Gibson, who is a member of the royal naval reserve, would not say that he will take ammunition, but admitted that he expected to go to Halifax after the steamer loads her cargo.

American Locomotives Superior.

BERLIN, Feb. 6.—The Bavarian State railway managers recently ordered two freight locomotives from the Baldwin works at Philadelphia. These proved so satisfactory that an order was given for passenger locomotives, which in turn have been found vastly more efficient than those of German construction.

Puts and Calls Abolished.

CHICAGO, Feb. 6.—By a vote on the board of trade trading in puts and calls was abolished. This action is the final one in a war against privilege trading begun a month ago, when the new administration for 1900 came into power.

Thousands at Norway's Derby.

CHRISTIANIA, Feb. 6.—Thirty thousand persons, many Americans among them, witnessed yesterday the ski, or foot toboggan, races. The event is the Norwegian Derby, and 300 took part in the contests.

KOBBE'S EXPEDITION.

Nine Towns Garrisoned and Large Quantities of Hemp Found.

MANILA, Feb. 6.—Brigadier General Kobbe's expedition in the islands of Luzon, Leyte and Samar has occupied permanently and garrisoned nine towns with the Forty-third and Forty-seventh regiments and placed on the market 180,000 bales of hemp.

A thousand insurgents armed with rifles and more than 5,000 armed with wooden swords, bows and arrows were encountered during the entire trip. The troops killed 75 natives, 11 of whom had rifles. The rest were villagers with wooden swords.

The American loss was one man killed and nine wounded. The Americans captured $5,000 in gold and 40 muzzle loading brass cannon. At Calbagog and Samar the enemy evacuated the towns, the Americans scattering them to the mountains.

Lukban, the Tagalog general, set fire to Catbalogan with kerosene just before the Americans landed and then fought with cannon and rifles from the hills encircling the town for two hours. When the Filipinos were driven out, the Americans endeavored to save the town. Thirty stone and 60 other houses, half the business portion of the place, were destroyed. The soldiers prevented the fire from spreading. The next day Major Allen, with three companies of the Forty-third regiment, pursued Lukban to the mountain fastnesses and thence to the coast town where Lukban was heading in hopes of escaping. Lukban by taxing the natives has accumulated $100,000 in gold. His capture is probable.

At Takloban, island of Leyte, the enemy evactuated the town, and the Americans pursued them to the hills. Several fleeing noncombatants were killed, including three women.

At Palo, seven miles distant, the enemy was found intrenched and resisted. Lieutenant Johnston and 12 scouts of the Forty-third regiment drove out 150 insurgents and captured the town.

The insurgents in these towns were mostly Visayans, who had been impressed into the service of the Tagalog leaders from Luzon. The Visayans today appear indifferent or sullenly antagonistic to the American occupation. The Tagalog chiefs influenced them against the Americans. The Americans are gladly accepted by the inhabitants, who are daily returning to the towns. There is a rush of commercial vessels from Manila to these new ports.

THE MACRUM MYSTERY.

Retired Consul Throws No Light on His Reason For Return.

WASHINGTON, Feb. 6.—Mr. Macrum has come and gone, and the reason for his leaving Pretoria when duty seemed to demand his presence at that capital remains as deep a mystery as ever and must so remain probably for another week.

The ex-consul's appearance was awaited at the state department with interest Just before noon Representative Tayler, of whose congressional district Mr. Macrum is a resident, called at the department and spent some time in conference with Assistant Secretary Hill and was followed about half past 3 o'clock by Mr. Macrum, who came alone.

Secretary Hay, who had had an exhausting day, had gone, so the ex-consul was obliged to pay his respects to Dr Hill. His stay was short, about 20 minutes perhaps, and he left Dr. Hill as much in the dark as he had been before as to Mr. Macrum's motive for leaving Pretoria. Nor did it develop whether or not Mr. Macrum was the bearer of any message from Kruger. He did not mention the subject to Dr. Hill. He said he was very tired; he had been five weeks on the sea and road traveling constantly and begged for time in which to prepare himself to report. He said nothing as to the reason for appearing in Washington, but asked that he be permitted to go to his home in East Liverpool, O., for a few days to attend to some matters of business which were pressing and to rest.

As he left the state department Mr. Macrum assured the newspaper men who stopped him that if he had any statement at all to make to the press (and he was not sure that he should have) he probably would make it public upon his return to Washington.

PORTO RICO POLICE.

Natives Shoot an American They Had Arrested.

PONCE, Porto Rico, Feb. 6.—During a band concert on the Plaza Principal native policemen attempted to arrest Joseph S. Bigelow, Jr., of Boston on account of leading a dog. Joseph S. Barkley, a deputy United States marshal, conducted Bigelow to the jail, and he was brought to the searching room, where, it is alleged, the native police made an attack on Bigelow, who was entirely unarmed. Finally Policeman Angel Arismendi shot Bigelow in the cheek and then fled. The guards at the outer door permitted him to escape, but stopped Felix A. McCarthy, an American, who was hotly pursuing Arismendi.

The resident Americans are excited over the affair, and they claim that there have been other cases of reckless and needless shooting on the part of the policemen. Americans and Porto Ricans alike have united in a strong protest against the use of revolvers by policemen and the granting of authority to unfit and uneducated natives.

Arismendi and Simonpietri were arrested.

Gale on New England Coast.

BOSTON, Feb. 6.—During the high southeasterly gale yesterday several vessels dragged from their anchorages in the harbor. The four masted schooner Agnes Manning, coal laden, which was anchored off the New England docks, dragged ashore. The big iron barge Alabama, from Newport News, also loaded with coal, dragged ashore on a mud bank between piers 2 and 4, New England docks.

Large Batch of Indictments.

TRENTON, Feb. 6.—The Mercer county grand jury came into court yesterday with 54 indictments. It is said among them are several indictments against keepers of the gambling places of which Rev. Dr. Alfred Wishart made complaint first in his sermons and afterward before the grand jury.

Prominent Democrat Dead.

OSWEGO, N. Y., Feb. 6.—Hon. Willard Johnson is dead at his home in Fulton, this county, aged 80 years. He was prominent in national and state Democratic politics during and after the rebellion and served four terms in the state assembly. He made millions out of contracting work.

CASE AFTER CASE.

Plenty More Like This In Plainfield.

Scores of Plainfield people can tell you about Doan's Kidney Pills.

Many a happy citizen makes a public statement of his experience.

Here is a case of it. What better proof of merit can be had than such endorsement?

Mr. E. D. Smith of 686 West Front street, contractor for painting etc. says:- "There was a distressing pain across the small of my back which clung to me all the time. When I got seated at times if I moved, a sharp pain struck me in the back and loins and almost made me exclaim. Any change in the weather if I caught the least cold always aggravated the trouble and caused me to suffer severely. Doan's Kidney Pills were recommended to me by one of my employes who had been cured of a long standing case of kidney complaint by their use. I commended the treatment, derived benefit from it immediately and before I had finished the first box I was cured."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

ADVANCE UNCONFIRMED.

War News Scarce—Mr. Chamberlain Before the Commons.

LONDON, Feb. 6.—Military opinion in London continues to assume from very slender materials that General Buller is again throwing his army against the Boer works. A retired general, Sir William Henry Green, whose distinguished career gives weight to his opinion, thinks that General Buller, with 25,000 men, is making a wide detour to the west and north in order to avoid the roughest parts of the country. As General Buller must have some thousands of wagons Sir William Green points out that the advance would necessarily be slow.

No authentic word is at hand save that the war office reaffirmed orally to newspaper inquirers at a late hour that it could not confirm the reported advance. There the Natal situation rests.

In the house of commons yesterday Joseph Chamberlain, secretary of state for the colonies, made his first public speech since the war began. It was a warm defense of the government policy, and the secretary was enthusiastically cheered.

He spoke in reply to the criticism of Sir William Vernon Harcourt. He admitted that a critical stage of the war had been reached and that the situation was undoubtedly serious, though, he added, he did not believe the country was in danger.

"We have suffered checks," said Mr. Chamberlain, "and have made mistakes. I am not anxious to dispute as to the blame. Let the government bear the brunt until the time comes when, under happier auspices, we can see how far the blame is to be apportioned between the system and those administering it. In the meantime blame us."

As to the end of the trouble, Mr. Chamberlain declared there would never again be a Majuba settlement; never again would British supremacy in South Africa be threatened; never again would Englishmen there be treated as an inferior race.

War Material From France.

WASHINGTON, Feb. 6.—By way of preparation for the great struggle now in progress the Boers in the year 1898 bought from France alone guns, swords, carbines, pistols, cartridges, lead, zinc, powder, caps, fuses, etc., to the invoiced value of $386,000, according to a report to the state department from United States Consul Covert at Lyons. The consul quotes his figures from a recent report of the French consul general in the Transvaal on the resources of that country. He adds that it is probable that several times this sum was imported in arms of which no account was taken.

EXPLORER GILDER DEAD.

Had Made Many Expeditions to Arctic Regions.

NEW YORK, Feb. 6.—William Henry Gilder, the explorer, a brother of Richard Watson Gilder, died at his home in Morristown, N. J., yesterday. He was born in Philadelphia in 1838. At the outbreak of the civil war he enlisted as a private in the Fifth New York volunteers (Duryee's zouaves), and served with honor throughout the war.

From 1878 to 1880 he served as second in command of the Franklin search expedition conducted by the late Lieutenant Frederick Schwatka, U. S. A., which made a sledge journey in King William's Land lasting 12 months and extending over 3,250 miles, the longest sledge journey that had been made in the arctic. This expedition recovered the remains of Lieutenant Irving, one of Sir John Franklin's companions. Mr. Gilder acted on this journey as correspondent of the New York Herald and subsequently published a volume entitled "Schwatka's Search."

In 1881 Mr. Gilder accompanied the De Long expedition under Captain Berry, U. S. N., in the Rodgers, and when that vessel was destroyed by fire on the western shore of Bering strait he was assigned to take the news to the nearest telegraph station, which involved a winter journey of nearly 2,000 miles across Siberia. After accomplishing this task he joined in the search on the Lena delta for the survivors of the Jeannette

CONDENSED DISPATCHES.

M. Clement Armand Falliers, Republican, was re-elected president of the French senate.

The state has rested its case in the prosecution of Roland B. Molineux for murder in New York city.

Mormon converts to the number of 35 arrived from Switzerland, Belgium and Holland on the steamship Anchoria.

A washout on the Hudson River railroad near Hastings derailed a freight train, blocking traffic on all tracks. No one was killed or injured.

Russian newspapers urged that advantage be taken of Britain's war in South Africa to secure ports on the Mediterranean and the Indian ocean.

The liner Anchoria arrived seven days late. The return sailings of several ships were postponed. Ice drift hindered navigation in New York harbor.

Five masked robbers bound the watchman at Mariner's Harbor ferryhouse, on Staten Island, blew open the safe, wrecking the interior of the building, and escaped with $100.

Reading Railway Dividend.

PHILADELPHIA, Feb. 6.—The executive committee of the Reading company yesterday agreed to recommend to the board of directors that a semiannual dividend of 1½ per cent be declared on the first preferred stock of the company, payable March 8, after having provided for the payment of the coal sinking fund as required by the general mortgage. This will be the first dividend declared by the Reading railway since its reorganization. The total first preferred stock amounts to $28,000,000.

Would Wed or Die.

ALBANY, Feb. 6.—A shocking affair occurred at Mechanicsville Sunday afternoon when Kate Faraone, an Italian girl, aged 15, committed suicide because her father had refused his permission for her to marry Michael Racco of Watervliet on account of her age. She seated herself upon the floor and discharged the contents of a shotgun into her body, rupturing her heart and driving pieces of her corset steel nearly through her body.

Coal Land Options.

PITTSBURG, Feb. 6.—A syndicate of Pittsburg, Buffalo and western capitalists have secured options on about 3,000 acres of coal land between the Pittsburg and Lake Erie railroad and the Panhandle road. The property has a frontage on the Ohio river. It is proposed to develop this property. The syndicate is represented by John Blyth, an old coal operator, and R. J. Bailey, agent for W. P. Rend & Co.

WOOD'S TRIP ENDED.

Governor General Returns to Havana From the East.

VALUABLE INFORMATION OBTAINED.

The La Gloria Company Behind With Payments on Land—General Ludlow Coming Home—Stevedores Strike In Santiago.

HAVANA, Feb. 6.—At 10 o'clock yesterday morning Governor General Wood and his party arrived on board the Ingalls from the tour in the eastern part of the island. The governor general's salute was fired. The weather throughout the entire journey was excellent, and all looked much improved in health.

The results of the trip General Wood considers will be invaluable to him and of special service to General Ruis Rivera, secretary of agriculture and commerce, and to Colonel Black, chief of the sanitary department, who were kept busy making notes.

Colonel Black says he now has a fair working idea of the needs of the island from an engineering point of view. Although he expects next summer to make a more extended tour, General Rivera says he has obtained exceedingly valuable information and has formed certain plans which will soon be put into operation, notably the addition to his department of a bureau of information where prospective investors in Cuban lands will be able to get information without having recourse to the speculators.

While at Nuevitas General Rivera had several conferences regarding the La Gloria colony with the mayor and leading land owners. He was informed that only $15,000 had been paid down by the company, this being the first installment, and that the second installment had long been due, the unpaid balance being $78,500.

General Ludlow will leave for the United States next Saturday, to be absent about ten days. Mrs. Ludlow will accompany him. The trip will have to do exclusively with his private affairs.

Santiago Stevedores' Strike.

SANTIAGO, Cuba, Feb. 6.—The strike of the stevedores employed by the Ward line and the government, which began last Thursday, was considered trivial until yesterday, when all the day laborers in the city refused to go to work. There are no labor unions here, but several agitators have been working for months to effect an organization of the laborers in the interest of higher wages and better conditions. The stevedores demand payment for a full day even if they work only an hour, and they wish an increase from $1.50 to $2 a day.

Leary Wants Books.

WASHINGTON, Feb. 6.—Captain Leary, naval commander of Guam, has made the following report to the navy department, dated Agana, Guam, Dec. 23, 1899: "I have the honor to report that the typhoid fever patients in the hospital here are doing well at present, there having been four deaths from the fever since our arrival. Captain Ingate, United States marine corps, had an operation for hemorrhoids performed some weeks ago, but complications have arisen that make his case very serious. The general health of the rest of the command is good, and work is rapidly progressing on the evaporating plant, sewage and water systems. The records of the survey of San Luis d'Apra, with necessary charts, etc., and report of board on site for coaling station, will be ready to forward to the department in the next mail. I must respectfully but urgently renew my request that a good library be sent to this station and also that the musical instruments asked for be sent at the earliest possible date."

Two Brothers Burned.

PORTLAND, Ind., Feb. 6.—William and John Newton, wealthy bachelor brothers, were burned to death in the home of the former one mile west of here yesterday morning. The fire was discovered by a neighbor, but when he reached the burning house he was too late to render any assistance. In the rear of the ruins were a number of chairs and a bundle of papers which had evidently been carried out. All of them were covered with blood. No actual evidence of foul play has been discovered. William Newton was 75 years old and one of the wealthiest men in the state, his estate being estimated at $1,500,000. Both men were eccentric and lived in the most frugal manner.

The Washington Headstone.

WASHINGTON, Feb. 6.—Representative Kahn of San Francisco has received a letter from Dr. Robert Davies of that city telling of the successful efforts he has made to secure from England the gravestone of Lawrence and Elizabeth Washington, ancestors of George Washington, which he desires to have deposited in the Washington monument or the Smithsonian institution. Dr. Davies located the stone in the churchyard at Wiltshire and identified it by the family coat of arms. He has been negotiating with the parish authorities since then and has finally overcome all obstacles to bringing the relic to America. Mr. Kahn will lay the matter before the authorities here.

Forest Preserve Expenses.

ALBANY, Feb. 6.—During the past year the forest preserve board expended $247,661 in the purchase of 58,427 acres of forest land in the Adirondacks at an average of $3.97 an acre. It began the year 1899 with an unexpended balance of $356,056 and received from the last legislature in appropriations $300,000 for the purchase of Adirondack lands and $50,000 for Catskill lands. During the year $272,898 was expended for the purchase of lands and the adjustment of claims.

Claims Against Guatemala.

WASHINGTON, Feb. 6.—Senators McEnery of Louisiana and Sylvan of Mississippi called on the president and urged the prosecution of the claims of a number of American citizens against the government of Guatemala. There are about 100 of these claims, aggregating several hundred thousand dollars, growing out of the building of a railroad in Guatemala.

Naval Movements.

WASHINGTON, Feb. 6.—The Lancaster has sailed from Kingston, Jamaica, for Guantanamo. The Dixie has sailed from San Juan for St. Thomas. The Machias has arrived at Puerto Cabello. Commander Logan is keeping a watch on American interests in Venezuela owing to reports of continuous revolutions in that country.

HUMAN SACRIFICES.

Religious Fanatics Slay Four Victims In Holland.

AMSTERDAM, Holland, Feb. 6.—A terrible tragedy was enacted Sunday at Apeldoorn as a result of religious fanaticism.

Details sent here are yet meager. It appears that at Apeldoorn there is a peculiar sect, which decided to offer a human sacrifice to God. The elder in charge of the congregation who suggested the sacrifice also selected two young girls as the victims.

Their parents approved, and the girls, arrayed in costumes of white, were made ready for the sacrifice.

The elder, who is a peasant farmer, decided as his frenzy grew that four victims, not two, should be offered up on the altar, but said nothing of the other two.

A service of praise and prayer preceded the sacrifice. In this the four victims joined, the two young girls, in fact, leading the singing.

Suddenly while the services were going on the elder seized his woman servant, threw her across the altar and nearly decapitated her with a single stroke of a sharp knife. Then he seized the two girls, and they were slaughtered in the same way.

In the meantime the elder's wife had stood near praying and crying, unconscious that she, too, had been selected as a victim.

The rest of the congregation gazed calmly on the horrible butchery.

When the girls were dead, the elder said that yet another victim was demanded and seized his wife. She struggled, but only for a moment.

She was slowly dragged backward across the altar, and the knife did its terrible work.

Then the murderer as a part of the rite washed his hands in the blood of his victims, and the congregation dispersed.

The police have arrested the murderer and several members of the sect who witnessed and encouraged the sacrifice.

NEW YORK LEGISLATURE.

Assemblyman Treat on His Tax Bill. A Revenue Tax Measure.

ALBANY, Feb. 6.—Assemblyman Treat of Cayuga, who introduced the bill for the taxation of savings banks accounts, says:

"I am a banker myself, and I assert that my bill is not an attack on the wage earner, because very few of them have accounts of $1,000 or over. It is intended to reach rich men who divide up their large personal holdings in many banks in order to escape taxation. There is no reason why a man having a savings bank account in the thousands should escape when a man owning real estate of the same value is heavily taxed."

In the senate last night Governor Roosevelt sent in the nominations of Frederick D. Huntington and John W. Yale as managers of the Syracuse State Institution For Feeble Minded Children, which were referred to the finance committee.

Senator Laroche introduced a bill which compels all railroad and steamboat companies to pay the revenue tax on all bills of lading and providing a penalty of $50 for each failure to do so.

New Jersey Lawmakers.

TRENTON, Feb. 6.—The two houses of the legislature were each in session about an hour last night and then adjourned. The senate confirmed a number of nominations, including these: County judge of Mercer county, John Rellstab; district court judge of Newark, Thomas J. Lintot; prosecutor of Burlington county, Samuel Atkinson. The house passed several bills. A number of bills were introduced in both houses.

THE CLARK TRIAL.

Witnesses For the Defense Refute Previous Testimony.

WASHINGTON, Feb. 6.—The two most important witnesses before the Clark investigating committee of the senate yesterday were Representative Jaqueth of the Montana legislature and A. B. Cook, ex-state auditor. Mr. Jaqueth is one of the members in whose name Mr. Whiteside claimed to have received $5,000 for voting for Mr. Clark for the senate, and Mr. Cook had been represented by Speaker Stiff of the Montana house as having tried to induce him to vote for Mr. Clark for a money consideration. Both denied these charges. Mr. Jaqueth said he had never before seen the envelope in which the $5,000 said to have been intended for him had been placed.

Mr. Cook declared that he had never but once talked with Mr. Stiff concerning the contest for the United States senate, and that Mr. Stiff had then brought up the subject himself, suggesting that he might cast his vote for Mr. Clark for the senate for $50,000, but that he (Cook) had said that he was not interested in the senatorial contest to that extent.

Half a dozen other witnesses were examined, all by the defense, and each in refutation of some testimony offered by the prosecution.

Weather Probabilities.

Fair today; northwesterly winds, becoming variable; warmer, with rain or snow, tomorrow.

New York Markets.

—THAT'S THE IDEA!

You ought to see what we can do for you before doing anything for yourself. Painting depends upon the paint and the painter. Better preparations than ours were never put on by a brush. Wherever paint is put, it should be put there to stay long enough to make it worth while to do the job. The warring elements have no effect on our durable mixtures.

HOUSEHOLD INFORMATION.

Some Suggestions Which May Prove of Use to the Busy Housekeeper.

Smoke stains are removed by soaking the ivory in naphtha; yellow stains by rubbing with powdered pumice-stone and soapsuds. If the article is such as can be put under glass, wet it with soapsuds and put it in the sun under a glass globe, wetting it frequently. Another method is to soak it in a dilute sulphuric acid bath, or in a soda bath, using ten ounces of soda to three pints of water.

Belts, shoes, gloves, etc., of white kid may be cleaned in the following manner: Mix together equal quantities of finely powdered alum and pipe clay or fuller's earth. Dip a piece of flannel in the dry powder and rub the soiled kid with it. When thoroughly cleaned brush with a piece of clean flannel, and then rub the kid with bran to remove all the earth and alum. Wipe with soft, clean cloth.

Cut a pound of mutton suet into fine shreds and put it in a stone or earthen bowl. Place the bowl in a pan of hot water on the range, stirring frequently until there is enough of the melted tallow to fill a half-pint cup. Turn this tallow into a bowl, and as it begins to thicken beat into it half a teaspoonful of carbolic acid. This is excellent for chapped hands, and is also good to rub on the feet when they are tired or when one has chilblains.

For light furs, mix together a pint of flour, a pint of bran and a tablespoonful of fuller's earth. Brush and shake the furs; then lay them on a table and rub with the above mixture, using a coarse piece of flannel, and rubbing the wrong way of the fur. Shake out all the cleaning material and go over the fur again in the same way, using only bran this time. Shake out the bran and wipe the fur with cheesecloth. Dark furs are cleaned in the same way, save that hot bran alone is used. Heat the bran in a double boiler, or it may be heated in the oven.

There are two causes of greasy lamps. The oil expands in a warm room, and, if too much oil has been put into the lamp, naturally a little will leak out. The other and more common cause of oil on the outside of the lamp is that the wick is kept too high when the lamp is not lighted. The wick draws the oil to the surface. When the lamp is burning the oil is consumed, but when it is not burning the oil accumulates at the top of the burner if the wick is not turned low. When filling lamps do not fill to the top, and keep the wicks low.

Feathers may sometimes be deodorized by exposing them to a high temperature. This is accomplished by steaming them, as is done at some cleaning establishments, or by baking them in the oven, or by exposing them to the heat of the sun. At times all these methods fail. The following method is always sure to be satisfactory: Put the feathers in a large bag of white mosquito netting and soak them for two hours in chloride of lime water, then rinse in several waters and dry in the open air. The feathers must be put loosely in the bag and the bag shaken frequently while they are drying. Allow half a pound of chloride of lime to eight pailfuls of water, and be sure that all the lime is dissolved.—Ladies' Home Journal.

SHE WAS THOUGHTFUL.

Saved Her Husband the Trouble of Cashing Unused Railway Tickets.

"You've all read lots of jokes about the woman who gets up in the dead of the night to rifle her husband's pockets," said a man to an Inquirer reporter. "They usually confine themselves to the purloining of what small change happens to be there. But here's a case I know of, of a woman in West Philadelphia, who showed much more enterprise than that, and who, I think, deserves the palm.

"It happened the other night. The woman's husband is a traveling man, and is now home for a couple of months. He was out the other night, and as he did not get in until between two and three o'clock in the morning he was pretty sleepy, and his slumber was resultantly heavy. His wife happened to be out of change at the time, and she thought of the old way of getting it. She got up quietly and proceeded to go through the suit which her husband had just taken off. There was not a cent of change to be found, and she saw with dismay that the smallest thing was a ten dollar bill. She hadn't nerve enough to take that, and she was rather in despair for a moment. Then she came upon a little bundle of tickets bound with an elastic. Her face brightened up, and she put the package in her jewel box.

"The next morning the clerk at the redemption office of one of the railroads paid out $3.32 for some seven unused return coupons, and the woman went briskly off to spend her ill-gotten gains. And when she told a friend, and the friend suggested that her husband wouldn't bless her when he wanted the tickets, she answered, in a very injured tone: 'Why, just think of the trouble I saved him in going way down to that horrid office myself.'"—Philadelphia Inquirer.

Dressing for Burns.

For burns nothing is better than the white of an egg beaten to a foam and mixed with a teaspoonful of lard. Five drops of carbolic acid make it better. A dressing that will prevent scarring and give immediate relief is one drachm of bismuth subnitrate to an ounce of vaseline, with five drops of carbolic acid. Before applying this wash the surface with a solution of one drachm of common soda to a pint of common soda. Squeeze this from a cloth upon the burn, then apply the dressing.—Detroit Free Press.

DOINGS OF CONGRESS

Still Debating the Well Worn Philippine Question.

"TURN THEM LOOSE," SAYS CAFFERY

Two Treaties Ratified—A Third, That With Great Britain, Referred—Sibley of Pennsylvania, Goaded by Democrats, States His Position.

WASHINGTON, Feb. 6.—Senator Caffery of Louisiana in a discussion of the Philippine question in the senate yesterday broke ground in developing his position as an antiexpansionist. In response to an inquiry as to what in the present circumstances he would do with the Filipinos he said with characteristic courage of conviction: "Turn them loose as soon as we can get rid of them. That would be better for them and infinitely better for us." Mr. Caffery's argument was mainly a discussion of the constitutional questions involved in the Philippine problem. He maintained that the constitution extends absolutely over the Filipinos and that they were entitled to all the rights and privileges of citizens of the United States guaranteed by the constitution.

The senate in executive session ratified The Hague peace treaty and the extradition treaty with the Argentine Republic. Both were adopted without objection or division.

The new treaty with Great Britain relative to the building of the Nicaragua canal was received by the senate and was read in executive session. Senator Davis, chairman of the committee on foreign relations, moved to make the treaty public, as it was a subject in which all were greatly interested, but after some discussion it was decided to refer the matter to the committee on foreign relations before taking that step. The comments of senators upon the treaty after hearing it read were favorable. It was said to allow the United States all the authority that was needed, and the neutrality of the canal was guaranteed as was the neutrality of the Suez canal.

The Democrats of the house continued their assaults upon the Philippine policy of the administration during the general debate upon the diplomatic and consular appropriation bill. Two speeches were made by Democratic members of the foreign affairs committee, Mr. Dinsmore of Arkansas and Mr. Champ Clark of Missouri opposing the retention of the islands. The speech of Mr. Clark, which lasted almost two hours, was a notable effort, replete with unique epigrams, and attracted much attention. No Republican spoke in defense of the administration's policy.

Mr. Sibley of Pennsylvania, who was elected as a Democrat, but who made a speech last week defending expansion, was goaded yesterday into the announcement that the Democrats could consider his seat constructively on the Republican side.

South Carolina Cotton Mill Boom.

COLUMBIA, S. C., Feb. 6.—South Carolina last year made more progress in cotton mill building than any other state. There were fewer enterprises than in some states, but the aggregate capital was greater. During the first 35 days of the present year all records have been broken. Twelve mills have in that time been projected, the aggregate capitalization being $2,160,000, or an average of $61,000 a day. In addition the Beaumont mill at Spartanburg has doubled its capital. There are three mills which will be established at an early date—at Anderson, Pickens and Carlisle. South Carolina now ranks second in the cotton mill industry.

Labor Troubles In Chicago.

CHICAGO, Feb. 6.—At a meeting of the Building Trades' council held here labor difficulties reached what is thought to be a crisis. The business agents of the Hod Carriers' and Building Laborers' union were ordered to call off the men at work on every building in Chicago where the new rules of the Building Contractors' council were posted. As nearly every firm of building contractors in Chicago is bound by the rules of the contractors' council this means that 6,000 men will be ordered to strike. In addition to this number 8,000 carpenters, it is asserted, will walk out next Saturday.

The Brooklyn Festival Prize.

BERLIN, Feb. 6.—Emperor William has approved the design of the silver prize to be awarded to the winner in the Brooklyn musical festival. It shows a minnesinger of the fourteenth century, with a harp and the emperor's portrait. Around the base are the arms of Germany and the United States. The design is by Professor Emil Doepler, a native of New York city, where his father, in 1850, was the first illustrator employed by the Harpers.

The Defense Fund.

WASHINGTON, Feb. 6.—Responding to a senate resolution, the secretary of war has reported the expenditures by the war department of the $50,000,000 defense fund. The war department expended $16,525,564, divided among the different bureaus, the principal amounts being: Ordnance, $6,849,459; engineering, $5,576,083; quartermaster's bureau, $1,987,427; pay department, $1,477,872.

Miners Entombed.

POTTSVILLE, Pa., Feb. 6.—Carmel Popa of Ebervale and John Trivas of Hazelton were entombed in Oakdale colliery by a fall of rock. It is believed that both are dead. The men, with others, were at work near the gangway when thousands of tons of rock caved in without warning, burying Popa and Trivas.

Left Her Children to Burn.

SAULTE STE. MARIE, Mich., Feb. 6.—Mrs. Joseph Kowalski locked her boy and girl, aged 3 and 5 respectively, in her house during her absence. The house caught fire, and both children were burned to death. Their bodies were burned to a crisp when firemen broke into the dwelling.

Timber For a Big Army.

WASHINGTON, Feb. 6.—Secretary Root has sent to congress an abstract of the militia force of the United States. It shows the total number of men available for military duty but unorganized as 10,343,150 and an aggregate organized strength of 106,339.

Postmasters Appointed.

WASHINGTON, Feb. 6.—The following postmasters have been appointed: Maine—South Parsonfield, S. G. Parks; West Lubec, J. S. Calkins. New York—Glen Park, F. H. Lord; Mount Pleasant, E. B. Bartlett.

February 17—Social for members of Junior Department of the Y. M. C. A.

The North River Bridge.

The promoters of the bridge which it is proposed to build from New York city to the Jersey shore appreciate the fact that there has been a great change of sentiment among the people in respect to the use of public privileges, and that where a few years ago such an enterprise as they are striving to consummate would be accorded every convenience and privilege from the public without expectation of financial returns, a different basis of finance must be figured on now.

The construction of a bridge across the North river would be of paramount importance to New Jerseymen, and there is a consequent contemporaneous interest in what terms will probably prevail for the use of necessary public privileges for the success of the project. It stands to reason, of course, that the benefits that will be exacted from the New York side will be much greater than on the Jersey shore because of the immense value of Manhattan land which will be requisite for a proper approach to the water front.

It is the opinion of Comptroller Coler, of New York, that the city should receive a percentage upon the gross receipts, arranged upon an advancing scale, as has been required in the granting of some recent street railway franchises. The bridge companies submitted two offers. One is that in lieu of any direct payments the bridge at the end of seventy five years should become the property of the city free from debt, upon a payment by the city of $20 000,000. The other provides for a ninety-nine year franchise, at the end of which time the city shall have the whole property free of any cost.

The estimate that New Jersey officials put upon the value of the privileges that it will be necessary to secure in this commonwealth in order to complete the bridge project has not yet been made public. Naturally, there will have to be an adjustment of some sort that will be just and equitable to both sides, for without joint action that will safeguard the interests of both the governments that control the approaches, the construction of the bridge can never be undertaken.

The confusion and panic that resulted in a Trenton public school a few days ago while there was a fire in the building, during which several pupils were severely injured, emphasizes the need of constant drill of scholars for just such emergencies. President Probasco, at the meeting of the Board of Education, wisely cautioned Superintendent Maxson about maintaining such drills in the local school rooms so that such an unfortunate and horrible result might be avoided if the fire fiend, or any other incentive for a panic, should visit the school buildings in this city. By thorough and constant drilling every pupil in the city schools ought to be educated to participate in a series of manœuvres that will empty the rooms in rapid and orderly manner, thus reducing to a minimum the chances of injury during an excitement such as a fire will bring about.

The Right Honorable Joseph Chamberlain delivered an impressive speech in the House of Commons yesterday in which he defended his war policy towards the Boers. The Honorable Joseph is very clever in the art of orotory and embellished his side of the question in pretty words, but he has got to do lots of explaining before he can convince the world that he acted the right spirit in the attitude that he compelled the British to assume towards the Dutch Republic.

The Union county constable who arrested a white man on an indictment meant for a colored individual, thereby committing a grave blunder which may subject the county to a suit for heavy damages, will undoubtedly explain his mistake by claiming that it was a case of "Too Much Johnson," but with none of the humor which that dramatic title conveys to ordinary beings beyond the realm of the constabulary force of the bailwick.

How to accommodate 5,000 persons who will want to hear Bryan tomorrow in a hall that will not hold one-half that number, is a problem that James E Martine and his Democratic friends are having difficulty to solve.

Governor Taylor and Aguinaldo are the champion capital movers of the world.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

The New Jersey State Woman's Suffrage Association met in Plainfield Wednesday last. Rev. Antoinette Brown Blackwell was announced to deliver an address, and fulfilled her engagement, and Mrs. Florence Howe Hall presided. A number of women eminent in the State were present, as it was known they would be, but the attendance was nevertheless meagre. It would appear, from the lack of interest taken by the women in this meeting, that woman suffrage is not increasing in popularity in Union county or in the State of New Jersey. —Elizabeth Journal.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

"A Guilty Mother," the great scenic drama of which so much has been heard and written about, will be the attraction at Music Hall tonight. The play has been entirely revised by Henry Myers and Bertha Marion Wilson, who have injected into the action several new features that make the play a greater success than ever. The realism of the hugh body of water representing the river Thames in the first act, and into which the heroine and some 15 others plunge is ever sufficient of strength to bring the entire audience to their feet in demonstrative approval. The real mirror 6 by 18 ft, which reflects the murder of Lady Oakley is another great realistic feature which is new. Untiring energy, the modern applicances of stage craft in the scenic efforts and carefully selected cast has placed this attraction in the foremost rank of this seasons metropolitan offerings and in catering to our sympathies our other senses are not lost sight of. Where the action of the play is strong and vigorous the eye is pleased with the wealth of scenic effects used in the production. The sensational realism of the second act, the destruction by lightning of the ball room of Oakley Towers is a marvel of stage mechanism.

* * * * *

Physicians and scientists have been the best patrons of "A Man of Mystery," the powerful melodrama to be done at Music Hall next Friday night Hypnotism is dealt with in a novel way, and everyone who has given this subject any thought at all is anxious to see "A Man of Mystery." A burglar hypnotizes an old doctor and compelling him to rob his own safe, is one of the sensational incidents of the drama. The author has hit upon a splendid dramatic idea and it is carried out in such a way as to hold the breathless attention of the audience. It is one of the most intense situations ever conceived by a dramatist.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

—A sociable will be held this evenig at the Park Avenue Baptist church.

—Plenty of seafood, for a speciality shad and Maine green smelts. Place your orders early. Rogers.

—Merit is like the sun; clouds may obscure it, but it will burst through. 'Tis the same with the goods sold at Peck's.

WHAT DO THE CHILDREN DRINK?

Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. The more Grain-O you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee but costs about ¼ as much. All grocers sell it. 15c. and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence to The Press.)

Dunellen, Feb. 6.—The report that John Richards, a well-known character, had been killed at the Rock avenue crossing Sunday night by the Philadelphia flyer due at Plainfield at 10.22 proves not to have been true. When a Daily Press reporter set about investigating the accident Richards was found in bed at his home at the "Eight Row" fast asleep.

Thomas Houston, the blind preacher and singer, will conduct revival services at the Presbyterian church, beginning on the 20th inst.

John Finner and Harry Swackhamer spent Sunday with their friend, Peter Windfeldt, at Westfield.

"Jouby" Fallon, signalman on this division of the Central Railroad, is confined to the house by illness.

Conductor Charles Dodwell is taking a few days' vacation owing to being a sufferer with boils on his neck.

Jacob Snell has taken the place of Ellis Benward as gate tender at the Washington avenue crossing.

Mrs. J. B. Sprowl, of Jersey City, is visiting her sister, Mrs. A. N. Randolph, for a few days.

Dr. Brakeley attended the funeral of Francis E. Marsh at Plainfield yesterday.

Arthur Giddes, of Port Richmond, S. I., spent Sunday with his parents.

The Borough Council held its regular monthly meeting last evening.

Mrs. Alvah Gray is visiting Mrs. Thatcher at Glen Gardner.

William H. Terry is visiting relatives in Brooklyn.

Miss May Apgar spent Saturday in New York.

Arthur Giles spent yesterday in New York.

NEW MARKET.

(Special Correspondence to The Press.)

New Market, Feb. 6.—Margaretta, the daughter of Mr. and Mrs. E. M. Adams, of this place, was baptized at the home of her parents in this place Sunday afternoon at 2 o'clock by Rev. H. C. Eyme, of North Plainfield. The house was handsomely decorated and there were a number of the friends of the family present to witness the ceremony. Among those from out-of-town were: Mr. and Mrs. F. M. Stecher and Mrs. E. Adams, of Brooklyn; Prof. and Mrs. A. Tremke, Murray Hill; Mrs. M. Berens, Mrs. H. C. Eyme, North Plainfield; Mr. and Mrs. Borchmann, New York; E. Barrier, G. Barrier, Mr. and Mrs. Schers. The godmother was Mrs. Angelina Stecher, an aunt of Mrs. E. M. Adams.

'PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, February 6.—The trolley company failed to run the 6:45 car for the accommodation of those working in Plainfield stores and factories yesterday morning. The result was there were a number who were necessarily late in reaching their places of work. The result is they lose one half hour's time, due to the negligence of the company.

A number of the residents of the village will find it convenient to be in attendance at the Court House in Elizabeth tomorrow morning, when the case of Walpole and Emery comes up for trial on the charge of selling liquor Sunday.

Funeral services of the late Phillip Radin was held from the family house on Forest avenue Monday afternoon at 2 o'clock. Dr. Parks preached the sermon. Interment was made in the family plot in the Baptist cemetery.

The trustees of the Baptist church held their regular monthly meeting in the parlors of the church last night. Routine business was transacted.

Mrs. Maria Noble, who has been visiting at the home of her son, Wm. B. Noble, has returned to her home in Newark.

Miss Laura Bornman led an interesting Baptist Young People's meeting in the parlors of the church last evening.

Rev. G. M. Shott has returned from New York City where he has been attending the weekly Ministers' Conference.

Miss Lena Bruchman led the young people's meeting in the Methodist church last evening.

Miss Mamie S. Kelly, of Raritan, is visiting at the home of Mr, and Mrs. Wm. Lee.

Chronic Nasal Catarrh poisons every breath that is drawn into the lungs. There is procurable from any druggist the remedy for the cure of this trouble. A small quantity of Ely's Cream Balm placed into the nostrils spreads over an inflamed and angry surface, relieving immediately the painful inflammation, cleanses, heals and cures. A cold in the head vanishes immediately. Sold by druggists or will be mailed for 50 cents by Ely Brothers, 56 Warren Street, New York.

WORK OF SUNDAY-SCHOOL

FIRST MEETING OF THE LOCAL UNION HELD LAST NIGHT.

Address by Captain Parsons, President of the State Association, Who Dwelt on Phases of Sunday School Work.

The first public meeting of the Plainfield Sunday-school Union was held last night in Vincent chapel. The large audience present included representatives from many of the schools which compose the union, and a number of the clergymen and Sunday-school superintendents of the city were present.

The song service, with which the meeting opened, was conducted by D. E. Titsworth, of the Seventh-Day Baptist Sunday school. Rev. Arthur E. Main, pastor of the Seventh Day Baptist church, and president of the union, then took the chair. Prayer was offered by Rev. W. C. Snodgrass, pastor of the First M. E. church.

Mr. Main then introduced Captain Parsons, president of the New Jersey State Sunday-school Association, who spoke briefly of the wide spread of the Sunday-school movement, of its great influence for good, and of the importance of each person's helping it along in some manner.

The principal feature of the evening was the address by Marion Lawrence, of Toledo, Ohio, general secretary of the International Sunday-school Association. Mr. Lawrence said, in beginning his talk, that the Sunday-school was the greatest agency for good in the world. It is the one school where the Bible is the text book, and twenty millions of people every Sunday study the same lesson. He showed an old-style Sunday-school lesson book, and compared it with the magnificent modern literature on the international lessons. The speaker went on to show that the Sunday-school is for all, fitted for the little child and the adult alike. It is not a denominational affair, but in the Sunday-school convention all denominations come together in perfect harmony.

The Sunday-school is also a training school for workers. Those who learn to work there are those who go out to work in wider fields. It is also an evangelizing agency. Even when conversion does not take place in the school, seed is often sown which bears fruit later. Mr. Lawrence spoke, too, of some of the modern accessories to Sunday-school work—the fine libraries, blackboards and maps; the bright music, the cradle roll, the home department, normal classes, conventions, boys' brigades, the uniform lesson system, "Sunday-school week," with its meetings for all classes, closing with "Decision Day," is a most successful evangelistic effort. House-to-house visitation, another modern plan, brings the school into closer touch with the people. In conclusion, he told something of the international work and the great field in the western States, and then entreated all present to help in Sunday-school work with their presence, their money and their prayers.

An offering for the State and International Associations was received, and closing prayer was offered by Rev. J. W. Richardson, pastor of the Park Avenue Baptist church.

WASHINGTONVILLE.

(Special Correspondence to The Press.)

Washingtonville, Feb. 6.—Mrs. D. Bartells celebrated her seventy-fourth birthday last Friday in a pleasant manner. There was a little gathering of relatives who did not forget to remember the happy event with sundry gifts.

Wilson's stone crusher has closed down on account of the cold weather. Work will not be resumed until the weather becomes settled again.

George Demler is still confined to his room with illness but his condition is greatly improved since last week.

George Howard is negotiating for the purchase of a lot on Somerset avenue, Somerset Park.

Miss Louise Taylor has been the guest of Miss Nettie J. Beeching for a few days.

Fritz Myers lost a valuable team of horses last week from spinal meningitis.

Elward Burnett and Thomas Rogers are the latest victims of the mumps.

EARLY INTELLIGENCE.

—Wesley R. Brokaw, the music dealer, will move into his new store on Park avenue this week.

—Work has been resumed on the Ballentine & Co. building, corner of Central avenue and Second street.

—Next Thursday evening a dance will be given in Washington Hall under the auspices of the local branch of the State Firemen's Mutual Aid Association.

—Miss Emma Morris, of India, will address the Women's Foreign Missionary Society of the Presbyterian churches, at the chapel of the First Presbyterian church this afternoon.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way.

Wm. Trust, of this city, is visiting relatives at Scranton, Pa.

Miss Fritz, of Somerset street, is visiting relatives at Scranton, Pa., for a time.

Mrs. Charles Kiederling, of East Front street, has been visiting Somerville relatives.

Mrs. Edward Terry, of the borough, is at St. Vincent Hospital, New York, under treatment.

Marcus C. Waldron, of Codington avenue, has entirely recovered from his recent illness.

Mrs Long, wife of Dr. Samuel Long, of New Brunswick, visited Plainfield yesterday.

Mr. and Mrs. Edward Randolph, of West Fourth street, are entertaining company from New York.

William Vanderweg, of Lorraine, spent Sunday with his cousin, Albert Uzinger, of the borough.

An improvement has been noticed in the condition of Mrs. Henry E. Needham, of the borough.

J. A. Smith, of Central avenue, who is detained at home with an attack of tonsilitis, is greatly improved.

Alburtis Swaim, of West Front street, who has been detained at his home by illness, is much improved.

Miss Nancy Lawson, of Salem, Mass., formerly of Madison avenue, Plainfield, is visiting friends in town.

Rev. W. C. Nelson, of Summit avenue, who fractured his arm several days ago, is getting along very well.

James T. MacMurray, of Westervelt avenue, has been entertaining business associates from out of town.

Mrs. Thomas E. Currin, of the borough, who has been visiting relatives at Weston, Somerset county, has returned home.

Mr. and Mrs. H. J. Runyon, of Rahway road, have returned home after a two weeks' stay at the "Morton," Atlantic City.

Mr. and Mrs. Richard McElgyum have returned from their honeymoon passed in Baltimore, and are now residing in the West End.

Henry E. Needham, one of the deacons-elect at the First Baptist church, officiated for the first last Sunday at the communion service.

Mrs. David Lewis and her daughters, Misses Frances and Helen Weir, of Lilion, New York, have been stopping at Mrs. West's, on Crescent avenue.

Frank Reinhart, of Belvidere avenue, is home from St. Paul's School at Concord, N. H., for a short vacation. Scarlet fever broke out in the school and all the boys were sent home.

Isaac Squires, of the borough, who has been traveling abroad for some time past, returned home last Saturday very unexpectedly and gave his folks a surprise. He will remain in this country for an indefinite period.

Edward O. Clark, of Jackson and Watchung avenues, has associated himself with Attorney Henry H. Fryling, of 763 Broad street, Newark, and after he is admitted to the Jersey bar he will form a partnership with Mr. Fryling.

Mr. and Mrs. Edward White, who left Plainfield December 1st for a trip to the Pacific coast, are now located at Catalina Island, off the coast of California. They expect to stay there about a month, returning to the east in about six weeks.

The Tribune Almanac.

During the exciting Presidential campaign of 1900 The Tribune almanac will be found a perfect mine of useful information for the guidance of those taking part in or wishing to understand public discussion. It has long been conceded that the next best thing to the actual possession of knowledge is knowing where to procure it on a moment's notice. Indeed, many people are so constituted that they would much prefer the latter method of getting hold of a large share of the information for which they have any use. Besides every possible variety of public articles, the political platforms, laws of Congress, and all that, The Tribune almanac prints the names of the executive officers of all States, presidents of colleges, etc. 385 pages. 25 cents a copy. Address, The Tribune, New York City.

—Ex-Councilman Henry Leifke's new house in West End Park is about completed and he expects to move there at an early date.

CASTORIA

Lokal-Nachrichten aus der alten Heimath.

Sachsen.

Dresden. Die Errichtung einer Bismarck-Säule dahier ist nunmehr laut einer vom Oberbürgermeister Beutler abgegebenen Erklärung als finanziell völlig gesichert anzusehen. Die Kosten werden 25,000 Mark betragen, der Rath hat die Ueberlassung eines Platzes auf Räcknitzer Höhe in der Nähe des Moreau-Denkmales zugesichert. Als Tag der Grundsteinlegung ist der 2. Juni 1900 in Aussicht genommen.—Nach 42jähriger Lehrthätigkeit schied der Direktor der ersten Bürgerschule, Moritz Kleinert, aus dem Amte.

Chemnitz. Die Ausfuhr aus dem hiesigen Konsulatsbezirk nach den Ver. Staaten hatte im letzten Vierteljahr 1899 einen Werth von $1,037,306 gegen $1,061,181 in der gleichen Zeit des Vorjahres. Der Hauptantheil entfällt mit $764,386 auf baumwollene Strumpfwaaren. — Vom Stadtrath wurde nunmehr endgiltig der Ankauf der hiesigen Aktienspinnerei beschlossen. Der Kaufpreis beträgt 900,000 Mark. Die Uebergabe des Grundstücks soll Ende 1904 stattfinden. Das Stadtverordnetenkollegium hat sich im Prinzip mit diesem Beschlusse einverstanden erklärt.

Leipzig. Das Historische Museum der Völkerschlacht und der Zeit Napoleons des Ersten am Napoleonstein bei Leipzig hat die Postonische Sammlung „Andreas Hofer und seine Gefährten," Tirol 1809, für 4600 Mark angekauft, die auch Wien und Innsbruck zu erwerben suchten. Sie enthält aus dem denkwürdigen Feldzuge 12 Originalschreiben von Hofer, darunter den „Aufruf an die Tiroler," zahlreiche Briefe, viele andere einschlägige Schriftstücke, Drucksachen und Bilder, jedes einzelne Blatt eine werthvolle Seltenheit.—Sympathie für die Burensache hat den auf den deutschen Rennbahnen wohlbekannten Herrenreiter Hermann Lücke veranlaßt, sich in Hamburg nach der Delagoa-Bai einzuschiffen, um sich den Buren anzuschließen.

Zittau. Die „Zittauer Nachrichten und Anzeiger" traten am 4. Januar in ihren 101. Jahrgang ein. Das Blatt gab aus diesem Anlaß eine Festnummer heraus, der eine getreue Wiedergabe der ersten Nummer beilag.

Zwickau. Ueber die kürzlich durch die Presse gegangene geheimnißvolle Bluthat bei Lengenfeld verlautet nun Folgendes: Die 20 Jahre alte Klempnersehefrau Schneider führte eine unglückliche Ehe. Elsa Richardt, 22 Jahre alt, war Direktrice in einem Leipziger Geschäft, sie war schwermüthig und hochgradig nervös und hing mit leidenschaftlicher Liebe an ihrer fast gleichalterigen Schwester Martha. Es scheint, daß die Erstgenannten den Plan des gemeinsamen Todes gefaßt und dann die Martha Richardt mit in den Tod gezogen haben.

Thüringische Staaten.

Altenburg. Ein Nestor deutscher Gelehrsamkeit, der ehrwürdige Ulfilasforscher Geheimer Kirchenrath Dr. Julius Löbe in Rasephas, vollendete dieser Tage sein 95. Lebensjahr. Der greise Jubilar hat erst vor wenigen Monaten dem Pfarramt, in dem er 60 Jahre gewirkt, entsagt, ist aber noch immer wissenschaftlich thätig.

Gotha. Im Dezember des abgelaufenen Jahres wurden 12 Leichen mittelst Feuers bestattet, vier aus der Stadt Gotha und acht von auswärts. Dem Geschlecht nach waren es acht männliche und vier weibliche Leichen. Seit Eröffnung des Verbrennungsapparates sind nunmehr 2292 Leichen mittelst Feuer hier bestattet worden; im Jahre 1899 zusammen 200 Leichen.

Jena. Die königliche Akademie der Wissenschaften in Turin hat den für die bedeutendste wissenschaftliche Arbeit der letzten vier Jahre ausgestellten großen Bressa-Preis von 10,000 Lire dem Professor Ernst Häckel verliehen.

Freie Städte.

Hamburg. Die Hamburger Direktion der deutschen Ostafrika-Linie hat in Folge der Beschlagnahme und Belästigung der Dampfer „Bundesrath," „General" und „Herzog" dieser Linie durch britische Kriegsschiffe beschlossen, den Verkauf von Fahrkarten nach Johannesburg und Pretoria im Transvaal und die Beförderung von Auswanderern nach der Delagoa-Bai einzustellen. —Neulich Morgens rannten auf der Unterelbe der dänische Dampfer „Mercur" und der russische „Lilja" zusammen. Die „Lilja" lief dem „Mercur" in die Seite; die Mannschaft des letzteren sprang auf die „Lilja" über und wurde gerettet. Nun ereignete sich ein höchst eigenartiger und wohl sehr seltener Vorfall. Der „Mercur," dessen Maschine nicht abgestellt worden war, kam frei von dem „Lilja." In Folge der arbeitenden Maschine eilte das Schiff fort; es lief im weiten Bogen quer über das nördliche Fahrwasser des Elbstromes bei Juls und rannte mit voller Fahrt auf den Sand hinauf. Dort blieb das Schiff sitzen.

A Vermont woman, who had suffered with dyspepsia for four years, so much so that she found the lightest household [illegible] exceedingly difficult, says that "Since using Ripans Tabules the excruciating headaches I formerly suffered have now become only a memory. At one time I was obliged to subsist upon raw eggs and milk. Now I am relieved of constipation and loss of appetite and can now digest anything which I may desire to eat. I consider Ripans Tabules as a perfect remedy and have found no other medicine so prompt and mild in action or so permanent in its results."

WANTED—A case of bad health that R·I·P·A·N·S will not benefit. They banish pain and prolong life. [illegible] will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

BODICES.

Materials For the New Shirt Waists Now Shown.

The first importations of wash goods are now displayed. Among the percales intended for shirt waists may be seen variations of a style that was new last year —a plain ground of lilac, blue, pink or sea green with printed designs in black and white. This season the designs take the form of geometrical motives or conventional wreaths, and this class of percales is very attractive. In zephyrs, which are well represented and are of a

EVENING BODICE.

solid, firm texture, the newest patterns are moderately wide stripes of contrasting colors, decided, but not staring. Red and suede, green and lilac, green and red, lilac and yellow, are among the combinations. In printed lawns, plain, corded or with a thicker stripe of plaid, there are rather close floral designs treated in the natural manner. The use of these patterns for shirt waists is something new, and they are less appropriate than the more conventional stripes, checks and motives.

The illustration given today shows a novel bodice for an evening gown. It consists of a cuirass of tulle closely embroidered with "moonlight" spangles—a pale greenish blue—over which is a bodice of pale blue liberty silk which divides into three scarfs in front which fasten in the middle with little choux. The corsage is held over the shoulders by two strings of sapphires clasped together at the top. The tight sleeves of spangled tulle are long and fall completely off the shoulder, having a drapery of blue liberty silk over the upper part.

JUDIC CHOLLET.

STYLES OF DRESS.

Different Fashions Suitable For Different Women.

A woman with a fine figure has much to lose by exactly following the general fashion. She should wear only plain, soft materials and should eschew all fanciful and fluffy trimming, dressing in such a way as to give the most value to the fine lines of her form. Small and medium sized women of the "smart" type appear to advantage in tailor made styles, with masculine gloves, shoes and linen all in the perfection of correctness. Large, stout women should adopt rich, dignified materials and ornaments, such as damasks, velvets, fine lace and elaborate embroideries, cheap and ordinary stuffs being most unsuitable for a full, majestic figure.

In spite of the success of cloth, which is still pre-eminent, there is a return to stiff silks, the damasks and thick stripes of past times. Gowns of moire antique,

RECEPTION TOILET.

silk and wool, are much worn by middle aged women. The material composes very attractive toilets, and its folds are richer and softer than those of the all silk moire. Violet, amethyst, periwinkle blue, plum, French blue, almond green, ruby and straw are the favorite colors for this class of goods.

The picture shows a costume of black beaded tulle over black satin. The skirt, which has a train, is open at the side over a plaited panel of satin, the open sides of the tulle skirt being held together by bows of satin at the top. The tight fitting bodice is smoothly covered with the beaded tulle and has a yoke of plaited black satin, around which is a bertha of beaded tulle adorned with bows of black satin. The sleeves are of beaded tulle over satin, and the sleeve and wrist frills are of beaded black lace.

JUDIC CHOLLET.

WHAT TO WEAR.

Hints With Regard to What Is and What Is Not Suitable.

Velvet occupies an important place not only among ceremonious costumes, but among those intended for the street. The skirt of velvet is gradually replacing the skirt of black satin for use with different bodices.

Middle aged women are now almost alone in the employment of silk for day costumes. Panne or velvet, however, is a different matter. The first is frequently combined with fine furs, while the latter by an odd freak of fashion is used for gowns of the tailor made style. This is quite a new idea, and such toilets, especially if the wearer is of medium height and rather plump, are most becoming in the dark shades. Combination costumes and bodices crossed and draped, if they are not bouffant, are also suitable for this class of figure. Neither round

STREET TOILET.

belts, yokes nor epaulets should be worn, but instead ornamentation of a lengthwise character.

Small, plump women look best in narrow stripes and small figured goods or plain material. No horizontal effects should be employed and no large designs or plaids.

An illustration is given which shows a street costume having a cloth skirt. Around the foot is a vandyke design formed by several rows of stitching. The skirt has a long scalloped tunic bordered with rows of stitching, and at the side is a stitched band of the cloth. The astrakhan jacket has a closely fitting round basque and is fastened by two large decorative buttons. The collar and revers are of astrakhan. The plastron of broche silk has a high, flaring collar of the same goods, bordered with astrakhan. The astrakhan muff is plain, as are also the sleeves. The belt is of kid, with an ornamental buckle. The toque of lapis lazuli panne has bow of the panne bordered by little ruches in front and a cluster of white feathers.

JUDIC CHOLLET.

THE TABLE.

Decorations For Luncheon, Tea and Dinner.

Tea cloths enriched with insertions of wide guipure are laid over a tinted lower cloth. The floral decorations consist of bouquets of natural flowers laid upon the cloth, their stems tied with ribbons. The ribbons match the color of the tinted cloth, and the flowers are of one sole variety. Russian violets, tied with orange ribbons, Parma violets with mauve ribbons, pink camellias with crimson and white carnations with willow green are some of the fashionable combinations.

For formal dinners the table scarf is abandoned, and there is a return to solid severity of style. Rich damask, heavy silver dishes and candelabra are prefer-

DINNER GOWN.

red to the more frivolous and fanciful styles that have lately prevailed and that were always less suitable to so serious a function as dinner. Housekeepers who have a taste for the simply "pretty" in table fittings should confine its exercise to the luncheon and tea table, where it is appropriate.

The cut depicts a dinner gown in the princess style. It is of pale pink peau de soie, with heavy applications of renaissance guipure in front and at the sides. The front of the bodice is draped and crossed in the fichu style and is of crepe de chine. The corsage is sustained in position by strings of pearls passing over the shoulders, the strings being held together by guipure ornaments and pearl cabochons. The cape is of pink peau de soie, lined with white panne, and has a collar of white mongolie with a jeweled clasp.

The robe worn by Pius VII at the crowning of the first Napoleon is among the relics shown to visitors at the Church of Notre Dame, Paris.

Opera Gowns in New York

As An Attraction for the Public They Are Certainly a Success.

SOCIETY in New York has given the opera of this season an unusually brilliant reception. Not only on the opening night of the opera season was the display of the swell set unusual, but it has continued so far throughout the season, and there have been but few nights when elegantly-gowned society leaders were not to be seen in the boxes.

And never before were opera gowns so resplendent in style and coloring and materials as they have been this season. Costumed in gowns of all the many brilliant colors of the season have been such society queens as Mrs. Ogden Mills, Mrs. John Jacob Astor, Mrs. Herman Oelrichs, Lady Colebrook, Marquise de Tallyrand Perigord, Mrs. William Astor, Mrs. John Munro and many others. In fact practically all of society, as New York knows it, with the exception of the Vanderbilts, have graced the boxes of the Metropolitan opera house during the opera season. And they form half the show, for people go as much to see these celebrated society leaders and the gowns they wear as to hear the opera.

A lady friend of mine, a woman who has a passing acquaintance with the swells of the town, said to me:

"I really think the management should put these women on the pay rolls of the company, for they draw half the houses. You have no idea how many women, like myself, who occasionally flutter around the edges of society, go to the opera to see the elaborate gowns displayed there that we may be able to copy them. As for myself, I scarcely hear any of the opera for looking at the gowns.

"On a recent evening when I was there the display of gowns fully repaid me for the expense and trouble of going. At that time I saw several of the most famous gowns of the season.

"At that time I saw a gown, worn by Mrs. Ogden Mills, the sight of which was alone worth the price of admission, and I should have liked one just like it had it not been cut with such a shockingly low decollette. It was a wonderful affair of pale blue satin, made with a deep flounce around the bottom, and headed with a puffing of raspberry velvet. The bodice did not suit me at all, simply because it was a low decollette. It was made with folds of the pale blue satin running across the front, and caught at the left side with a large rosette of the raspberry violet.

"Then there was another worn by Mrs. John Jacob Astor with which I was in love. It was of pansy-colored velvet, and the entire front of this was embroidered with a pearl passementerie, with a very deep accordion-plaited white mousseline de soie frill around the bottom of the skirt. The bodice was a low decollette, but not nearly so low as that worn by Mrs. Mills, and was trimmed with real point lace.

"Another was a gown worn by Mrs. Herman Oelrichs, which was of a delicate green mirror velvet, and was made a princess, and draped in festoons and rosettes around the low decollette. A folded light green velvet belt, and a deep ruching of light green mousseline de soie that trimmed the bottom of the skirt in deep van dyke effects, with a double ruching to finish.

"I could never describe all of them, but from these you can see that the gowns are no small part of the show at the Metropolitan."

After listening to all this, I could not help going to the opera myself, but it was more the gowns than the music that attracted me, and, like my friend, I was well paid. But it was the gowns worn by the people in the seats more than those in the boxes that I studied, and while they were not so expensive, they were equally as pretty and interesting.

But of all the things that I saw it is of a few of the pretty waists that I wish to write. One that was very striking was of a soft sky-blue taffeta. It

OF NASTURTIUM YELLOW SILK.

WHITE SILK WITH BLACK POLKA DOT.

was made with a double box plait down the front, and wee little gold buttons to fasten, while at each side were four rows of narrow white satin ribbon gathered and put on up and down. Next to this was a large scroll design of the white satin ribbon, with a narrow space, and then another scroll design. To finish at the waist line were two rows of the narrow ribbon with a ripple of the taffeta below giving a basque effect.

Another that was attractive was of white silk dotted with a black polka dot. The lower portion of the waist was slashed to show white mirror velvet underneath. It is finished around with black velvet ribbon. The appliqued design in front was of white velvet edged with the black velvet ribbon. The sleeves had three deep tucks at the top and finished in a V over the hand.

Then there was one that was very dainty made of nasturtium yellow silk, which had finely-corded tucks from the neck to the waist line, with a bolero of white lace, and high rolling collar of the same over a stock of the yellow silk. The sleeves were finely tucked up and down, with a deep pointed cuff.

A waist of black lace net was attractive and quite showy. The net was of an open pattern with narrow pink velvet ribbon run through lengthwise. The yoke was a shirred one of black mousseline over pink, and there were two full rosettes of black and pink

WITH BLACK LACE AND WHITE INSERTION.

A NEW SKY BLUE TAFFETA.

mousseline at the left shoulder extending down the closing at the left side in a loose twist, with a large rosette at the waist line.

SARAH DAVIDSON.

Taking No Chances.

"Darling," he murmured, pillowing her golden head upon his manly bosom. "Darling, we will soon be wed—bound together by the indissoluble ties of holy matrimony." But she was a new woman, and knew a good thing when she saw it. He was worth $100,000. "Yes, a church ceremony will do for a starter," she murmured, "but this corporation will be organized under the laws of New Jersey." Yet there are those who imagine that women have no business acumen.—Omaha World-Herald.

Time Is Money.

Hotel Clerk—Number 339 died this morning, sir. Shall I notify his relatives?

Proprietor—He was paying ten dollars a day, wasn't he?

Clerk—Yes, sir.

Proprietor—Then you'd better wait a day or two.—Harlem Life.

HOW SOME MEN PROPOSE.

Off-Hand Way of Popping the Question That Leaves Something to Be Desired.

"No," said the sweet thing in the Valenciennes-lace-trimmed dimity dress, "I really wouldn't care to have him 'fall to his knees,' and 'exclaim in a tone of passionate entreaty:' 'Give me but a single ray of hope!' I think that would be absurd beyond all things. I am sure I should feel like laughing in a young man's face if he did any of these ridiculous things. Yet I think even the old-fashioned, high-falutin', my-life-would-be-a-blank-without-you way of proposing mentioned in Miss Austen's bread-and-treacle stories would be better than the dreadfully slangy, matter-of-fact way young men have of proposing nowadays, according to what a lot of married girls tell me. Only yesterday one of them told me how her husband asked her. They had been going together for six months. One afternoon last October they were walking on F street together. She bowed to a young man she knew.

"'Awfully nice looking, isn't he?' she asked Jack, who is now her husband.

"'Fair-looking duck,' said Jack. 'But who's I double-tee, It, anyhow? Don't I cut in at all?'

"She really didn't know what he meant.

"'Well,' went on Jack, 'you're always telling me what a good looker that geezer is. Now, is he the whole thing, and am I an "also ran," or do I win? I just pass it up to you, you know.'

"She didn't understand him this time, either, and I don't wonder.

"'You're side-stepping and don't want to understand,' went on Jack. 'All right. Can you fix it for about three months from date? That's plain enough, isn't it?'

"It wasn't, though.

"'Fix what?' she asked him.

"'The day and the hour,' said Jack. 'To get doubled up, you know.'

"Well, of course he makes her a good husband, but just fancy being proposed to in that dreadful way!

"You know my married cousin up on the Hill? Well, Jim just worked a bluff—that's the horrid way he puts it—when he proposed to her. He'd been calling pretty regularly and one night he showed up looking as chipper as a lark.

"'Well, I'm off in a few days,' he said to her. 'Nothing in the government service, anyhow. Going to resign my job and strike out for Oklahoma to grow up with the weeds.'

"She couldn't help but show that she was sorry, of course.

"'I'm sorry you're going,' she said. She's a remarkably serious-minded girl, you know.

"'Yes, you are,' he said, satirically.

"'Really, I am,' she said.

"'Say, he said, then, 'if I thought you were on the level—I mean really sorry, you know, why—er—I wouldn't go, you know.'

"'Why do you wish to leave so beautiful a city as Washington?' she asked him. 'Surely, you don't expect to find a prettier place to live in?'

"Well, of course that gave him a chance to say that he was only staying in Washington on her account, but that as long as she didn't seem to care, etc., etc.

"Another girl told me that the sheer impudence with which her husband proposed to her was simply captivating. It was just about this time last spring, and they were walking along Lafayette square.

"'Trees and flowers look nice, don't they?' he said to her, in an off-hand sort of way. 'Swell season in Washington, spring, isn't it. We won't be a thing but married when the lilacs show up next spring, will we?'

"Did you ever hear of such assurance?

"I heard of another bit of brazen impudence just like that. She told me about it herself. He came up in the evening and sat on the front steps with her.

"'Got promoted to $1,400 to-day,' he said, and then he deliberately pulled out a piece of paper with a lot of figures on it.

"'Did a little figuring on a pad this afternoon,' he said. 'The thing ought to go through easy. Listen: House rent, about $35 or $40 a month; servant $15 a month; gas and fuel—'

"Mind you, he hadn't ever said a word to her about getting married. But you ought to see what a pretty home they have got now!

"The diffident young men are just as matter of fact as the independent ones, too, I hear. You know little Mrs. Finally, up on Columbia Heights, and what a quiet, bashful man her husband is? I often wondered how he ever mustered enough courage to ask her, and you know they did go together for three years before they were married. She told me about it not long ago. They went car riding one Sunday afternoon and rode to the end of the Fourteenth street line. Then they got off and walked. He showed her the house where they now live. She admired it.

"'I'm buying it,' he said. 'Got it all furnished, too.'

"It was the very first she knew of it, and of course she had to ask him if he meditated starting a boarding house. That made it comparatively easy for him, although she said that she thought he'd have a stroke, even then, before he got it out.

"Well, they all appear to be as happy as can be, but I do think that I'd like to have just a teeny bit more of sentiment in a case of that kind. I don't think there's half enough sentiment in the world, as it is."—Washington Star.

Civic and Military Powers.

A Boer field cornet is usually the magistrate of the neighboring country wherein he resides, and is invested with the power to commandeer all able-bodied men on such an occasion as the present war.—N. Y. Sun.

Stories of Philip D. Armour

Some Incidents in His Career That Illustrate His Characteristics.

Philip D. Armour, the millionaire packer, is to build a home at Pasadena, Cal., in which he will spend a part of his declining years.

He Hadn't Time to Go Fishing.

Mr. Armour's health is failing rapidly, as a result of long years of constant labor at his desk from seven o'clock each morning until five o'clock every evening. Added to other troubles, the recent death of one of his cherished sons came as an unusually hard blow to the once hardy man. Those years of labor and the brains he has put into them has made Mr. Armour probably the richest man in the west. He refuses to even estimate his wealth for the benefit of an inquisitive public, but it cannot be far short of $70,000,000, practically all of which he has acquired in 40 years' time, but at the sacrifice of health.

Vacations he has known but little about. He never refuses his employes a playtime, and often supplies the money with which they can take a desired trip, but he has seldom taken one himself.

Some years ago Mr. Armour had a small legal matter which needed attention, and he sent for an attorney whom he knew and to whom he desired to intrust his interests in that particular case. When the attorney came Mr. Armour explained his wants in every detail, and added that he desired that the subject be given immediate attention.

"I am sorry, Mr. Armour," replied the attorney, "but I cannot touch it just now."

"Can't touch it? Why, I supposed it would be just suited to you. Why can't you touch it?"

"Because I am going fishing to-morrow, to be gone for a couple of weeks."

"I haven't time to go fishing," said the packer, with a sigh.

"That," replied the attorney, "is one of the differences between you and I; I have."

An Experience in New York.

I am not sure but that some enterprising journal has told how Mr. Armour made his first thousand, or possibly $100,000, but had the same paper told how Mr. Armour doubled and tripled this latter amount several times over the story would have included the downfall of several New York speculators in the spring of 1865, who were not wise enough to foresee the downfall of the confederacy and the surrender of Lee.

He Bought Pork in New York.

At that time pork was selling at $40 a barrel on the New York market and speculators were predicting a rise to $60. But P. D. Armour and John Plankington thought differently, and were willing to back their opinion against those of the New York speculators with all that they could raise. They had at that time a packing plant at Milwaukee that was probably as large as any then in operation in this country, but which was small when compared with the plants of the Armour company to-day.

Mr. Armour went to New York with every dollar his firm could scrape together in a grip sack for the purpose of selling futures on pork at $40 a barrel. It was not hard to sell at that figure, for the New Yorkers bit easily and swallowed greedily the bait offered them.

Before the second day was over Lee either had to surrender or the firms of Armour and Plankington were ruined, but at the end of the third day the expected victory had come; Lee had surrendered; the confederacy was a thing of the past; the bottom dropped from under the provision markets; pork sold at $18 a barrel, and the New York speculators paid to Armour and Plankington more than $2,000,000 as profits on the pork which Mr. Armour had sold.

Bought Pork in Chicago.

The second sensational affair in the provision markets in which Mr. Armour figured prominently occurred in 1878. This time it was on the Chicago board of trade.

He Took All They Brought Him.

Mr. Armour had been a resident of Chicago for but three years at that time, removing from Milwaukee in 1875, but his fame as a large factor in the provision world had preceded him. In fact, even at that time the name of P. D. Armour was known throughout the entire country because of his operations in New York at the close of the war. Provision dealers on the Chicago board looked with envious eyes on the Armour millions, and attempted to teach the newcomer a lesson in commercial practices. They thought it a good plan to sell him pork at a round figure, and were rather surprised when he bit at the bait so easily.

They could see vengeance ahead for the New Yorkers who had contributed so heavily to the Armour millions but a few years before, and it is said that a few of the New Yorkers came to Chicago to get in on the ground floor. The more pork Armour bought the higher went the price, but still he continued to buy.

By the time the traders had sold him all the pork they wanted to Armour had more than $1,500,000 invested in the commodity which he knew they could not deliver when he called for it. Then he went after pork and bought it wherever he could. His brokers all over the country bought pork, and he soon had practically all there was to be had. The market went higher and higher; the men who had started the game of fleecing the packer began to wonder where it would end, and when delivery day came around they paid to Mr. Armour something like $2,000,000 in profits on pork, which they had sold but never owned.

When Leiter Contributed.

Since that time there have been several exciting periods in the grain and provision markets in which P. D. Armour has figured. Along in the eighties J. W. Harper, of the Fidelity bank, of Cincinnati, evolved some ideas on how to corner the markets with Armour on the other side. Mr. Harper failed, and there went down with him several prominent men and financial and manufacturing institutions.

Leiter Contributed to the Money Bags.

Then the old timers on the Chicago board began to believe that it was bad policy to force the hand of Armour; they were willing to follow his lead rather than attempt to block him; when he bought they bought; when he sold they sold, and left it to the newcomers to fight.

Th latest really sensational episode in which Armour figured was when young Joe Leiter attempted to corner the wheat market. He felt sure that he had a plan that would succeed, but he, too, reckoned without P. D. Armour, and the young man paid for his fun with a few of his own and several of papa's millions.

One of Armour's trusted office employes, an old Scotchman, once said to me that his employer would never harm any man who attended to his own business. He never attempts a squeeze in the market unless it is in self-defense, or in defense of his friends. He buys and sells millions of bushels of grain in a year, but it is all in the line of legitimate trading, but there are several men on the Chicago board of trade who are only waiting for Phil Armour to get out of their way before they take a try at the markets that will either make or break them.

Accommodating Chicagoans.

I met a man from Cairo, Ill., in Chicago a few days ago, and together we walked down State street. We were jammed into the crowds of shoppers and out again, stepped upon and kicked off of the sidewalks until my acquaintance was disgusted with the town and its people.

The Chicagoans Are Accommodating.

"The people of this town seem to me to be like a lot of half civilized heathen," he said. "They never regard the rights or feelings of anyone but themselves. I wouldn't live among such a lot of semicivilized natives for anything."

"They are the kindest hearted people in the world, and the most obliging," I replied. "They would do almost anything for a stranger. Why, if the wind should blow your hat off, they would go after it for you in a moment, and return it without you making a move."

"That sounds most too fishy to believe," he said.

I proposed that we try it, and offered to buy a new hat if it were not true. It is seldom that a wind is not blowing about the corners of the Masonic Temple, and I proposed that we go there for the experiment. Hardly had we touched the corner of State and Randolph streets before away went my friend's hat, and instantly there were not less than 20 people after it. The wind was a strong one, and the hat traveled along at a rapid pace for half a block or more before it was captured. But the crowd finally got hold of it, and one man walked clear back to the corner to return it, while the crowd stopped to see that it was done properly.

I do not know whether my friend has yet realized that he could have done the same thing in Cairo, with the same results or not. Human nature is much the same the world over.

THE SOVEREIGN REMEDY COMPANY'S TREATMENT FOR CATARRH WARMLY PRAISED.

SOVEREIGN REMEDY COMPANY

Gentlemen:—It is with great pleasure that I give you my testimonial. For some time I have been suffering from that terrible disease, catarrh. My nostrils were nearly closed, and it was almost impossible to breathe through them. My whole head was badly inflamed, my ears were full of water, and my sleep very much disturbed. Reading your advertisement one morning I concluded to give your Remedy a trial. After my first treatment I noticed a decided beneficial effect. I have been using your Catarrh Remedy for about ten days and the results have been most marvelous. My head is clear, the inflammation is gone, and I feel like a new being. I advise all suffering with this obnoxious disease to use the Sovereign Catarrh Cure and receive the same blessing I have.

Yours very truly,
CHARLES J. JONES, Roxbury, Mass.

SCHOOL AND CHURCH

The first religious paper in Puerto Rico has been issued in Ponce. It is El Ideal Catolico, a little weekly, and a Catholic paper.

Archbishop Corrigan has made the study of the Italian language obligatory on all theological students in his diocese in order that Italian Catholics may be reached more effectually.

A doctor in Albany has withdrawn his children from one of the public schools in consequence of the defective ventilation of the building, and the board of health will make an investigation.

Rev. Dr. Parkhurst is authority for the statement that when D. L. Moody first applied for church membership it was proposed to put him on probation on the ground that he did not appear sufficiently intelligent to appreciate the meaning of the step.

The oldest building in the world that has been uninterruptedly used for church purposes is St. Martin's cathedral, at Canterbury. The building was originally erected for a church, and has been regularly used as a place for religious gatherings for more than 1,500 years.

Reports from Vienna indicate that the "Away from Rome" movement extends to 323 localities and includes 7,751 conversions. There have been 4,817 cases in Bohemia, 1,373 in Lower Austria, 930 in Styria, 198 in Moravia, 72 in Salzburg, 95 in Carinthia, 67 in Upper Austria, 77 in Tyrol, 18 in Silesia and 104 in other sections.

The first training school for nurses in this country was started less than 30 years ago. In 1890 there were 34 schools and about 1,600 pupils. Two years later there were 47 schools and 2,300 students. The social position of the trained nurse is higher in England than in this country. Some of the very best girls in England, Ireland and Scotland are nurses in the large cities of the United Kingdom.

POPULAR SODA FOUNTAIN.

It Does a Rushing Business in All Weathers and at All Seasons—Variety of Its Drinks.

"One of the interesting developments of the last 25 years has been that of the soda fountain," says a man who has been familiar with the course of the business. "Root beer was the first popular beverage, and different people made it from different formulas, and some had very good receipts. Then there was sarsaparilla—both sold in the bottle mostly. Then they began to get small fountains, with lemon and vanilla sirups. Following these came the fruit sirups—pineapple, raspberry, and then the coffee and chocolate series.

"As the list began to increase, the original fountains, which had only one section with four sirups, were enlarged, and now there are six and eight sections, with 12 sirups in a section. The combination of sirups followed—almond, lemon, apricot, peach and maple creams and the various adjuncts now to be had at a soda fountain—grape juice, clam bouillon, hot beef tea, Russian tea, egg phosphate, calisaya and cocoa wine.

"About 15 years ago the business of serving soda hot began, and hot drinks can now be had throughout the cold months. It is undoubtedly very good for people, warms them up, and helps them to resist the cold, especially if they take something that is nourishing, like bouillon or hot clam broth. The use of all these things has a tendency to promote temperance, for they are good, easy to get, and take the place of other things.

"Soda fountains are so largely patronized now that a large one in a good neighborhood will bring in from $250 to $450 a day. There is a big increase of business in the large establishments, because small stores cannot afford to use the fruit sirups. The essences are injurious, and people do not like soda in which they are to be found.

"There is a big list of them, about as large as it will be, for there is more of a tendency to reduce than to enlarge it. There are people who take to some extent all these different things, flavors and varieties, or they would not be kept on hand, but if many of them were not to be had they would take something else as willingly, and it is easier to serve fewer varieties.

"There are certain staples, things that are chiefly in demand. Chocolate, coffee, vanilla and orange phosphate are always standards in cold beverages, and chocolate is one of the most popular throughout the year.

"It takes expert men to wait at a large soda fountain. It takes a man about a year to become an expert, and then he can set a glass of soda before a customer in less than five seconds from the time it is ordered and do it with neatness as well as dispatch. Quick men are required when people are standing three deep before the fountain.

"It is something like learning the typewriter. The man at the soda fountain must know where every sirup is to be found without having to stop to look. The sirups are arranged in about the same order usually, so that when he knows one fountain he knows them all."—N. Y. Times.

An Archway of Horseshoes.

This extraordinary archway stands at the entrance to a forge near Amesbury, Wilts, and is, indeed, an interesting curiosity. The two pillars together weigh over four tons, the shoes of which they are composed having been carefully collected by the smith who at present owns the forge. He then reared this monument to his own patience and ingenuity.—Strand.

The Supreme Test of Bravery.

"I see that Mrs. Kruger always cuts Oom Paul's hair."

"Say, you can't expect such a man to be afraid of anything on earth, can you?"—Cleveland Plain Dealer.

SPORTING.

STRIKES AND SPARES.

The Daily Press Bowling League.

	Games Won.	Games Lost.	High Score.
Roselle Casino.....	7	2	911
Westfield Club.....	5	4	866
Park Club.....	2	7	854
Cranford Casino....	4	11	863

There is no little question as to the winner of the Daily Press Bowling League this winter. Unless the team from the Roselle Casino entirely collapses and Westfield wins everything in sight, then Roselle will secure the championship this year and have the honor to be the first club to have its name inscribed on the Press trophy. Roselle still has three games to roll on the Park Club alleys in this city and to roll three on its own against the Cranford Casino. So it is evident that there isn't one chance in a thousand that the Roselle team will come out anywhere except on top. The real fight in the league is going to be to escape the hindermost place and the Park Club and the Cranford Casino bid fair to have a lively little time of it. Westfield cannot possibly fall back to third place and neither the Park Club nor Cranford have any chance of moving up to second.

NOT REPORTED PROMPTLY.

Borough Board of Health Says That a Physician Did Not Act in Accordance With Law.

A regular meeting of the Borough Board of Health was held last evening when it was reported that the new law requiring all physicians to report at once any and all suspected cases of contagious disease is now in operation. It was also reported to the borough that there was a case of contagious disease in the borough which had not promptly been reported by the physician. This sort of thing has occurred before and the Board do not think that it is excusable. In the latter case the new law was not in operation and nothing could be done with the physician. Now it is possible to secure the imposing of a heavy fine on all physicians who do not report these cases, even in the suspected class. There was nothing else considered at the meeting.

Informal Dinner for Party of Ten.

Mr. and Mrs. Chas. W. McCutchen gave an informal dinner at their home on Rockview avenue last evening. Covers were laid for ten. The dinner was handsomely served, while the table was decorated with large bouquets of pale pink bride roses. During the progress of the meal instrumental trios were rendered by violin, 'cello and piano.

Raritan Over Its Banks.

The heavy rains Sunday night caused a flood in the Raritan River and its branches. The North Branch was never known to be higher. The Raritan itself is flowing over the meadows, and most of the bridges cannot be crossed.

Spring Jackets

and other wearables are coming to us every day for cleansing or dyeing—not a mite too early.

Take the hint?

Jackets cleaned or dyed, $1.25 to $1.75.

HILLIER & CO.,

129 W. FRONT ST.

Tel. 851.

BRYAN COMES HERE TOMORROW AFTERNOON

[CONTINUED FROM PAGE 1.]

lines as his previous addresses. The man, rather than his sentiments, will be the attraction. His speech will last an hour or perhaps longer.

On Mr. Bryan's condition at that time will depend whether or not a general reception will be held. If possible, everybody who wishes will be given a chance to shake hands with this man, whose name is so well known from ocean to ocean.

After the meeting Mr. Bryan will be driven to the North Avenue station and will take the train for New York, accompanied by Congressman Daly and possibly Mr. Martine. The band and a great crowd of Democrats will accompany the party to the station and give them a rousing send-off.

Tomorrow evening Mr. Bryan is booked to speak at Carnegie Hall, New York.

TO INSPECT CADETS.

Major Collins Will Review the Cadet Battalion of the High School Tomorrow Afternoon.

The Plainfield High School Cadet Battalion will be inspected tomorrow afternoon by Major Collins, of the Second New Jersey Infantry of the State National Guard. The inspection will take place from 12 to 1 o'clock at Washington Hall, now utilized as an armory by the battalion. The High School organization is now recognized by the State Militia authorities and Major Collins will look over the local corps and report to headquarters.

Bryan To Visit Morristown.
(Special to The Daily Press.)

Morristown, February 6.—Congressman Salmon, of the Fourth Congressional District, has notified friends in Morristown that Colonel William J. Bryan will visit Morristown in the near future. The visitor will be accompanied by Congressmen Salmon and Daly and State Senator Cornish. The entire party will be the guests of former Judge Willard W. Cutler and the Morristown Democratic Club.

Union School May be Built.

It looks now as though the question of school accommodation for the children at New Orange will be settled by a union school being built, and supported by the townships of Union and Cranford, in proportion to the number of children attending from each township. A similar plan is working with entire satisfaction between Westfield and Cranford, at Garwood, and Westfield and Springfield at Branch Mills.

To Examine Vitrified Brick Pavement.

Mayor George W. Rockfellow went to Easton, Pa., this morning to examine the vitrified brick pavement in use in that city. He was to have been accompanied by Councilman R. I. Tolles, chairman of the street committee, but Mr. Tolles was unable to go. The object of the visit was to see the success of that form of permanent pavement with a view to using it in this city.

New Westfield Rector.
(Special to The Daily Press.)

Westfield, Feb. 6—Rev. Oliver Shaw Newell, of the Eglise du St. Esprit church, New York, has accepted a call from St. Paul's church, of this town, and will take charge as rector at once. Rev. Charles Fiske left Saturday to take up his duties as the curate of a Baltimore, Md., church.

To Cure Constipation in One Week
To Purify the Blood in One Week
To Strengthen Nerves in One Week
To Cure Sick Headache in One Day

Take Cleveland's Celery Compound Tea, 25c. Trial size free. It it fails to cure your money will be refunded. T. S. Armstrong, the apothecary corner Park and North avenues.

SET ON FIRE FOR CHRIST.

Figuratively Speaking, That is What Rev. W. B. Hamilton Would Like to See Happen to Endeavorers.

"Christian Endeavor Day" was appropriately observed last evening at Trinity Reformed church, under the auspices of the society of that church. Prior to the regular meeting there was a short business meeting when the various reports were received. Two new members were also received. An enjoyable feature of the celebration was the vocal solo by F. S. Cutter, accompanied on the piano by Miss Lillian A. Force. Following this, Edgar Sheppard, president of the society, who was in charge, announced as the speaker of the evening Rev. William B. Hamilton, of Elizabeth.

He spoke particularly along the lines of Endeavor work, and said that when God has a work to be done he has a man to do it. He contended that what the church needs today is the Christian Endeavor Society set on fire for Christ, that is willing to do the small things and anything for Him. He said that the society was organized to last because it was built on love and unity and these qualities make a church and society a power for good. He placed stress on individual responsibility on the part of Endeavorers, and urged all to frown in a Christian way upon any who say that the society is dying or going out of existence. In conclusion Mr. Hamilton gave some excellent advice to the Endeavorers. After a collection was received for the "Endeavor" church fund, the meeting closed with the singing of a hymn and the benediction by the pastor, Rev. Cornelius Schenck.

THE BOER QUESTION.

Debate at Y. M. C. A. Won by the Negative Side.

The debate at the Y. M. C. A. last evening under the auspices of the literary society of that association drew out a fair-sized audience, many ladies being interested spectators. The subject debated was: "Resolved, That the Boers are justified in their attitude toward England." E. E. Drange and C. M. Dolliver had the affirmative, and J. H. Crane and H. F. Burroughs the negative. The judges were Revs. W. C. O Donnell and J. O. McKelvey and Joseph L. Myers. The debaters showed that they had made a careful study of the subject and many good arguments were advanced by the speakers in support of their different sides. The judges rendered a majority report in favor of the negative.

Montauk Euchre Club Entertained.

The Montauk Euchre Club was delightfully entertained last evening by Mr. and Mrs. Horace Huff, of Codington avenue. With the exception of two or three members all were present, and everyone had a thoroughly enjoyable time. The first and second prizes for the women were won by Mrs. Will F. Williams and Miss Williams, and Mrs. Arthur Cannon secured the booby prize. The first prize for the men was awarded to Will F. Williams, and Mrs. Horace Huff, who took the place of an absent gentleman, won second prize, while Horace Huff was awarded the booby prize.

To Settle the Sheridan Estate.
(Special to The Daily Press.)

Elizabeth, February 6.—There will be a final accounting made in the Union County Orphans' Court on February 10th of the estate of the late Postmaster Sheridan. The executors of the estate are Architect Jeremiah O'Rourke, of Newark, and Postmaster William J. Whelan, of this city. Two of Mr. Sheridan's heirs, a daughter and son, have died since he passed away, while his two remaining daughters have renounced the world and are now nuns in the convent at Bordentown. A married and unmarried son reside in Elizabeth.

Westfield Leader Changes Hands.
(Special to The Daily Press.)

Westfield, Feb. 6.—The Westfield Leader has again changed hands and will hereafter be conducted by G. A. V. Hankinson, of Little Falls. This is his first effort at running a paper, but his father is an old newspaper man, so that he comes from good stock. The paper will be as heretofore the mouthpiece of the Westfield Republicans. A. G. Anderson, who took charge of the paper about eighteen months ago, will return to Ohio to work on a weekly paper owned and edited by his father-in-law.

Jack Leddy Released.

Jack Leddy, the employe at the Watchung Silk Mill, who was arrested last Sunday for fighting, was arraigned this morning before Recorder Long, and after a statement of the facts in connection with the case were made, the accused was released. It seemed to be clearly evident in the mind of the court that Leddy was not to blame, but that Pedettre, who was fined $3 yesterday, was the cause of the trouble.

Damage By Heavy Rain.

The heavy rain of Sunday night did some damage to the street work at Clinton avenue and Second street. The culverts were washed out and the curbing torn away in some places. Street Commissioner Gavett is having the damage repaired.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders

—There will be a meeting this evening at the Y. M. C. A. of the Volunteer League Association.

—George Fairchild, of Grandview avenue, denies the report in the News that there was a fire at his house.

—Word has been received in this city of the death of Clifford Charles Frazee, aged five years, in Brooklyn. He was the son of A. D. and Theresa Frazee. Death occurred yesterday morning and brain fever was the cause.

—The applications for saloon licenses will be received and acted upon this month by the Common Council. It was reported that there would be some additional applications, but this is not believed, as the Council is not inclined to vote for an increase in the business.

—The American Steam Laundry at 122 East Front street, H. W. Marshall, proprietor, makes a specialty of doing up collars and cuffs without stretching them. All of their work is thoroughly inspected before being sent out. If your laundry is not satisfactory try the American Steam Laundry for a few weeks.

THE CITY HALL SITE.

Councilmanic Committee Said to be in Favor of the Thomas Mac. Donald Property.

There are reasonable assurances that the councilmanic committee having in charge the selection of a site for the city hall has centred its mind on the Thomas McDonald property on East Front street, opposite the Gardner property, which was also considered. The advantage in the property considered favorably is that it extends back to the city property occupied by the fire department building, and the connection of the two would be highly essential, as prisoners could be placed in the city jail from the rear on Second street, and there would be less publicity attached to it. There are many other advantages, such as price, etc. The dilapidated property to the west of the MacDonald property would undoubtedly be improved, and thus the value of the property would be increased.

PARTICULAR MENTION.

William A. Townsend, of Myrtle avenue, has been home from Lehigh University for a few days' vacation.

Miss Nellie Grimes, of Somerville, spent Saturday and Sunday with Miss Margaret Kenney, of East Fourth street.

Mrs. J. Parker Mason, of Stelle avenue, is enjoying the balmy and delightful climate at Augusta, Ga., where she is stopping at the Hotel Bon Air.

Orville T. Waring, of Willow avenue, returned last evening after a short vacation at home from his studies at the University of Pennsylvania.

Afflicted With the Mumps.

John Young, a clerk in the City Engineer's office, has recovered from an attack of the mumps. The malady has also afflicted Albert Zabuskie, of the same office, and he is confined to the house also. The other clerks in the office are anxiously awaiting their turn, wondering who will be the next victim.

Interviewing Legislators.

President F. H. Smith, of the Common Council; City Judge Wm. N. Runyon and City Clerk J. T. MacMurray went to Trenton last evening for the purpose of interviewing some of the legislators in the interest of Plainfield.

Change of Baggagemen.

William Wilson, formerly an employe of the U. S. Express Company, has secured the position of night baggagemaster at the North Avenue station, in place of Henry Hansen, who goes to Grant Avenue station.

The fat undertaker,
Who plants by the acre,
Poor victims of cough and cold,
Is sighing and crying,
For we've all stopped dying
Since Brazilian Balm was sold.
And for those who desire
Not just yet to go higher
It is worth its weight in gold.

For sale by all druggists. L. W Randolph, Wholesale Agent.

Purchased Five Hundred Men's Suits and Overcoats.

We secured for ready cash the finest lot of clothing that we ever handled in this town before, made by the Union Clothing Co., of Rochester, N. Y. Each and every garment bears the union label which is in itself a guarantee of first-class workmanship and latest style, but owing to the lateness of the season we have purchased this lot of goods for less than we ever dreamt of buying them at, and as we buy so we sell. An opportunity that you will not have again this winter to dress yourself up with a suit and an overcoat for almost the price of a single garment. Here are the prices that will talk for themselves:

Lot No. 1—50 Men's Suits; they are made of very stylish, fancy cheviots, also in blue and black worsted cheviots, good and heavy and up-to-date in style, originally made to sell at $10.00, will be offered at this sale at..... 4.50

Lot No. 2—75 Suits of all-wool worsteds, cassimeres and Scotch cheviots, very stylishly made, suits that sold early in the winter from 12.00 to 13.00, to go at this sale at $5.75. Remember the above lots of goods are new, being just received.

Lot No. 3—68 Men's Suits of the finest grade, the new style Oxford mixed and also strictly all-wool worsted stripes made up with the latest style vests, we have them in stout as well as in regular sizes, the wholesale prices of these suits were from 15.00 to 20.00, we will sell what we have left of them at $7.50, this is positively the best value we have ever offered.

Lot No. 4—73 Men's Overcoats, black or blue meltons and Oxford mixed friezes, this is really an exceptional fine lot of overcoats, if we would have had them earlier in the season we would have retailed them from 10.00 to 12.00, to go at this sale your choice at..... 5.00

Lot No. 5—45 of very fine dress up strictly up-to-date overcoats, lined either with satin or worsted clays, also received in this present lot of clothing, worth from 12.00 to 15.00, to be sold now at 6.75.

This is only a part of the great number of bargains we will offer this Saturday, be on hand sure as this will be a "Crack-a-Jack" sale.

The stock must go in order to have room for our great Spring Stock of clothing, which we expect soon.

ESTABLISHED MAY 10, 1887. PLAINFIELD, N. J., WEDNESDAY, FEBRUARY 7, 1900. TWO CENTS A COPY—$5 A YEAR.

BRYAN DAY IN PLAINFIELD.

Great Crowds Will Be On Hand To Welcome The Distinguished Guest.

THE MUSIC HALL MEETING AT THREE O'CLOCK.

THE NEBRASKAN TO ARRIVE AT NORTH AVENUE STATION AT ONE O'CLOCK.

He Will Be Dined at James E. Martine's Home and Then Escorted to Music Hall to Address Mass-Meeting—Hundreds of Visitors From Out of Town.

Hon. William Jennings Bryan, the Guest.

James E. Martine, the Host.

Col. Bryan left Bridgeport, Conn., where he spoke last night, at 9:32 o'clock this morning, arriving at the Grand Central station at 10:45 o'clock. There he was met by Congressmen Daly and Sulzer, and John H. Hillman, of Plainfield. The trip to the Liberty street ferry was made without a stop. The party left the Jersey City station of the Central Railroad at 12:12 o'clock, and will arrive in Plainfield at 1:01 o'clock.

Mr. Bryan and his party will be met at the North Avenue station by James E. Martine, and immediately escorted to the latter's home at "Cedar Brook" farm, where an informal luncheon will be served.

The doors of Music Hall will be opened at 2:00 o'clock. The body of the house is not reserved, the occupancy of the seats being decided by the rule of "first come, first served." Admission to the stage will be by tickets that have been issued. Those who hold stage tickets will be admitted at the stage door on the left side of the theatre. The easiest way to reach the door will be to go down Madison avenue and around the rear of the Babcock building.

The meeting will be called to order about 3 o'clock, and a very few minutes after that Mr. Bryan will commence his address.

With Colonel Bryan less than twenty miles away, the crowd is beginning to assemble at the North Avenue station as this edition goes to press. The promises of the weather in the early morning hours have not been kept and rain or snow threatens at every moment. Even the unpropitious weather, however, has failed to have any serious effect on the attendance.

The Democrats from far and near are flocking in, however, all aglow with enthusiasm. A little party of six from German Valley was the first delegation to arrive. They came early this morning. A few scattering Democrats from the outlying districts came to town during the morning, but the general movement in this direction did not begin until noon. From that time on the trains will bring crowds of enthusiastic Democrats and curious Republicans, all anxious to see something of the "Boy Orator of the Platte."

Col. Bryan is expected to reach here on the 1:01 train, which will undoubtedly bring other visitors of note. Already there is an assemblage at the station that will steadily grow until the time of his arrival.

A big delegation from Somerville and most of the male population of Neshanic and other Somerset county towns are expected to reach here on the 2:12 train. The arrival will be delayed until then to permit the Neshanic and other delegations to reach Somerville and go with them.

The New Brunswick party is now enroute for Plainfield with seven trolley cars and a brass band. They will be here in time to assist in the reception of Col. Bryan.

John H. Hillman, a member of the Democratic city committee, went to New York this morning and will be at the Grand Central Depot to represent Plainfield in welcoming the Colonel. Congressman Daly, of Jersey City, and Congressman Sulzer, of New York, will be there also and will accompany Mr. Bryan to Plainfield.

Another delegation of Plainfield Democrats will be at the Jersey Central station to greet Mr. Bryan and party when they reach there.

FROM OUT OF TOWN.

Some of the Notables Who Will Hear Mr. Bryan Speak This Afternoon.

Among those to whom invitations to sit on the platform were extended are the following: Mayor William T. West, of Roselle; Former Congressman Alvah A. Clark, Hon. James J. Bergen, M. W. Scully, Freeholder William J. Logan, County Executive Committeeman George P. Norton, William DeMond, H. B. Smith, L. C. Mack, Calvin D. MacMurtrie, Former Prosecutor N. Y. Dungan, John Gaffney, Former Assemblyman Jacob Klotz and Editor J. W. Mattison, of Somerville; Senator John R. Foster and Judge John Carpenter, of Clinton; Senator Kuhl and Sheriff Freck, of Flemington; John L. Corle, M. Mount Corle and Andrew Lane, of Neshanic; Louis S. DuFour, of Bound Brook; J. H. Trewin, Howard Reynolds, Peter Daly, John Mulvey and Captain John Smith, of New Brunswick; Charles Freeman, Rev. Dr Mason and State Committeeman Oliver Kelly, of Metuchen; William Kelly, of Oak Tree; Former Clerk of the Board of Freeholders A. D. Cook, Former Judge Louis Hyer, Dr. Silvers, Rev. Dr. Roderick Cobb, Former Assemblyman Jos. Shann, Former Freeholder Samuel Holliday, Commodore Leonard, Former County Clerk J. Crowell and Former Councilman Moses Acken, of Rahway; Editor Charles McBride, President of Common Council P. J. Ryan, W. C. Lathrop, Former Congressman John T Dunn, Major D. F. Collins, Councilman George Ford, Deputy Postmaster John Matthews, City Clerk James Manning, Former Prosecutor F. C. Marsh, Former Sheriff John Hicks, Excise Commissioner Lawrence O'Donnell, County Committeeman Frederick Zeh, Judge J. William Crane, Former Internal Revenue Collector Brennan and Former Freeholder Sauer, of Elizabeth; Mayor Joseph T. Thompson, of Atlantic City; Joseph Fields and Richard Fields, of Fieldville; John Smith, Addison Clark, John M. C. Marsh, Former Freeholder Mulford Scudder and S. W. Reese, of Westfield; William C. Stanbery and William B. Stanbery, of Scotch Plains; S. D Drake, of Lincoln; Clarence A. Bobberts, of Dunellen.

FAMOUS GATE POSTS.

They Stand at the Entrance to the Home of J. E. Martine at Cedar Brook Farm.

Apropos of the visit of W. J. Bryan to this city today there is an interesting story which is furnished by James E. Martine, who is the host on this occasion. About four years ago Mr. Martine erected two large handsome stone posts just at the entrance to his driveway. Cut in the stone are the words 'Cedar Brook Farm." When these posts were located there a gold dollar was placed at the foundation of one, and at the foundation of the other there is a box containing much that is of interest. In the box there is a glass jar containing a handsome photograph of Mr. Bryan. There is also a silver dollar. Among the other things in the box is a copy of Mr. Bryan's speech at the Chicago Democratic convention, and a copy of the platform adopted there. There is also a speech made by Mr. Martine in this city during that campaign, and copies of The Daily Press and News, also the names of James E. Martine, the builder, Joseph Kingston, the mason, and Alex. Brown, colored, a laborer. After all these things were placed in the box and dated the box was sealed and several tons of stone were placed on top for a foundation for the post. There is every reason to believe that this foundation will last for many years to come, and if it ever should be unearthed in the course of time it will be a matter of great interest to those who find what is there contained.

GOLF CLUB ELECTION.

George W. Chapman Re-elected President —New Trustees Were Also Chosen.

The annual meeting of the Hillside Tennis and Golf Club was held Monday evening at the Casino, when much business was considered, including the election of officers for the ensuing year. There were three trustees elected, Jan VanHerwerden, Dr. F. C. Ard and G. W. Chapman. Dr. Ard was selected to take the place of John Doul Miller, who resigned, and the other two were re-elected. There was an amendment to the constitution, which provides for the selection of a nominating committee which shall select candidates to be elected at the next annual meeting. Those selected for that committee are William T. Kaufman, R. M. Shepard and H. W. Beebe.

The election of officers for the club resulted as follows: President, George W. Chapman; vice-president, Charles J. Fiek; secretary, Albert H. Atterbury; treasurer, Jan VanHerwerden; chairman of the house committee, George P. Mellick; secretary for golf, Lewis E. Waring.

The club decided to engage Steward Ivamy and M. R. Brown, professional golfers, for another year, as their services have been very satisfactory. The balance of the evening was devoted to discussion about the popular game for the coming season. Of course, it cannot yet be decided upon when the links will be opened, but the prospects are that there will be an early opening if the present kind of weather continues. The club's finances were reported to be in a good condition and everything about the club's affairs were found to be equally so.

To Meet in the High School.

The Plainfield University Centre settled down to business last night and took up the first lesson in the course in political economy. The meeting was held in Assembly Hall at the Plainfield High School building. The committee on permanent quarters reported on the advisibility of remaining at the High School. It was decided to stay there. There was a large attendance and every prospect of a successful continuance of the work.

New Lodge for Cemetery.

The trustees of the First M. E. church have contracted for the erection of the new lodge for the Plainfield avenue cemetery. It will be a neat little house of seven rooms and bath and will be completed and ready for occupancy this spring. One of the building lots on West Seventh street belonging to the trustees has been sold.

GREAT "HORSE SHOW" IN MR. FISK'S STABLE.

Unique Affair in Fashionable Society Circles.

BARN FINELY DECORATED.

LEWIS E. WARING PERFORMED FUNCTIONS OF RING MASTER

Old and Funny Signs Tacked up Here and There for the Admonition of the Human "Horses"—Cotillion Showed Several New and Pretty Figures—Those Present Included the Elite of Plainfield Society.

Memories of the Assemblies and other pleasant features of the present social season in Plainfield, may fade away, but not so the recollections of Plainfield's 'Horse Show," held in the stable of Former Mayor Charles J. Fisk, of West Seventh street, last evening. True, there were no horses there, but that was of little moment. Society found there an old form of amusement in a novel guise that proved a great success.

This unique social event, given by Mrs. Charles J. Fisk and her daughter, Miss Louise G. Fisk, was termed by some a "dance in the barn." But it differed from the customary "barn dance" in many respects. There gathered some four score of the young society set while a few of their elders sat around to watch the fun. Dancing was the order of the evening with a cotillion, but under circumstances that were far out of the ordinary.

Some extensive repairs to Former Mayor Fisk's large stable and carriage house have just been completed. The two rooms of the carriage house, with the brick flooring covered with a temporary board floor, were used for dancing. The walls were covered with evergreens and great shocks of corn while similar decorations were suspended from the ceiling. Grotesque 'jack o'lanterns" illuminated with electric globes, grinned on every side. The stable was provided with a like dress of the harvest. From the stable a ladder led to the loft above utilized for the evening as the men's dressing rooms. The ladies left their wraps in the rooms on the second floor of the carriage house.

One prominent feature of the decoration of the rooms was the score of signs of rather startling nature that were to be found on every side. One of them, visible from the entrance, was suggestive. It read, "Maybe you don't better had loaf round here when you don't got some business, ain't it?" Another was "Gentlemen will please leave their guns outside."

"All children under thirty years of age unaccompanied by their nurses will be sent home promptly at 10 o'clock. By order of the City Judge," a hint at the Curfew ideas of the city magistrate who happened be among the guests. Another important notice was "No gentleman allowed to dance with more than two ladies' at the same time."

Close to the piano were two signs, "Music by John L. and Arthur Sullivan," and "Dont throw bricks at the orchestra, they are doing their best."

An interesting item of general information was prominently posted. "All animals in the stable are sound, kind and all right and warranted to drive single or double." Several hints regarding the conduct of the guests were "Don't bother the stage. They are ugly," and "Please talk in whispers. The horses are asleep." "If you don't like your partners, notify the coachman." The only classical quotation was "My kingdom for a horse."

In another corner were to be found more choice bits of advice. "Any person caught stealing will be shot." "Any lady who splits dances is a lobster." Over the entrance to the stable was the bright saying, "Don't kick, you are in a stable."

Several hints regarding the health completed the collection. "Don't eat while overheated, you may be foundered." A touching tribute to the skill of a worthy physician was a sign, "After eating, use Dr. Ben's Certain Colic Cure," one huge C being utilized for all three words.

But the greatest work of art was the programme of the "Horse Show," which read as follows:

"Notice.

"All entries must be handed to the Ring Master before 9 p. m. or exhibitors may be barred from the grand high stepping competition.

"Lewis E. Waring, Ring Master."

PROGRAMME.

8:30 p. m.—Show begins.

9 to 10—All thoroughbreds may be shown in the ring in their various paces.

Judging High Steppers.

Class 100.

10—All horses entered in this class must be practically sound, have good manners and

[CONTINUED ON PAGE 8.]

DEFIED THE JUSTICE

EXCITING CONDUCT OF WEALTHY MRS. MURRAY.

She Ordered the Chastisement of One Charity Subject by Another, and Then Made a Scene in Front of the Court.

There was an exciting scene in front of Justice Jacob Frech's office in Raritan Monday night, when Mrs. Evelyn Wentworth Murray, a wealthy New York woman with a country mansion on the river, defied Justice Frech to issue warrants for herself and her servant, John Garrigan, on the complaint of Jacko Fareno, an Italian servant, who stood by with his head and face cut and bleeding and the forefinger of his left hand almost bitten off.

Fareno had run from the Murray mansion, two miles up the river, without a hat or coat, and sought the protection of Justice Frech from Mrs. Murray and Garrigan, who had pursued him in the Murray coach.

About a year ago Mrs. Murray tendered her mansion and farm to the Government for the care of soldiers returning from Manila, and offered to supply nurses and medical attendance for the sick. The Government did not accept her offer, but Mrs. Murray has continued to display her philanthropy by surrounding herself with poor people, which she calls her "charities." Garrigan, who is a partly demented character of the town, is her chief "charity," and Fareno, who is an Italian with long hair that hangs over his shoulders, is another "charity." She picked him up in New York.

Fareno told Justice Frech that Mrs. Murray ordered Garrigan to punish him and that Garrigan fulfilled the order in her presence by beating him over the head with a beer bottle and attempting to bite off his fingers. Fareno was taken to Sieser's Hotel and given medical attention. Justice Frech issued a warrant for Garrigan's arrest and states that he will also order Mrs. Murray's arrest.

Mrs. Murray stood up in her carriage in front of Justice Frech's office and addressed the crowd that surrounded her on the theme of charity to world. She afterwards drove rapidly away. The officers who are looking for Garrigan have not yet been able to locate him.

After a Share in Burning's Fortune.
(Special to The Daily Press.)

Elizabeth Feb. 7.—A contest is about to be begun against the will of the late Michael Durning, a wealthy undertaker of this city. Durning amassed a fortune estimated at $200,000 during the thirty years he carried on the burial and furniture business. He left all his property to his wife, as he had no children. Now some of his relatives living in Philadelphia are going to fight for a share of the estate, and it is said another claimant has turned up in Ireland, who declares he is likewise a relative of the dead man.

Miss Keron Talked to Juveniles.

At the regular meeting of the Loyal Temperance Legion yesterday afternoon in the W. C. T. U. rooms, the members listened with a great deal of interest to an address by Miss Keron, of Elizabeth, State superintendent of the Loyal Temperance Legion. She gave the young folks a very helpful talk and encouraged them to do more in the line of temperance and to bring in all the new members possible.

Admiral Dewey in Plainfield.

There are many Plainfielders who are not aware that the city for a brief time was honored last Monday with a visit from Admiral and Mrs. George Dewey. They were on the Blue Line train which stops here at 4 49 o'clock going to New York, and they were on their way from Washington to the metropolis. As no one knew that they were on the train there was no crowd at the station to see them.

Council Will Decide.

The Common Council will hold its regular February meeting Tuesday evening of next week, when a report will be received from the committee having in charge the selection of a site for the City Hall. According to the provisions under which the committee was appointed, it is to report to the Council and that body is then to take action in the matter of deciding on which property to purchase, etc.

A Parlor Sociable.

Next Friday evening a parlor sociable will be held at the home of Rev. and Mrs Scott Wallace, East Third street, under the auspices of the women of the Calvary Baptist church. Spencer Conway, one of the deacons of the church, will be in charge.

To Attend State Encampment.

A number of the members of the Sons of Veterans will go to Paterson this month to attend the annual State encampment to be held there. It will be one of the most important gatherings in the history of the order.

QUAKER CITY BRIDE.

William Arthur Stimpson Married to Miss Anna Florence LeVan, of Philadelphia.

A wedding in which many Plainfielders will be interested occurred this morning at Bordentown, New Jersey, when Miss Anna Florence LeVan, of Philadelphia, and William Arthur Stimpson, formerly of The Press staff but now connected with the Trenton Times, were married.

The ceremony took place at 10:30 o'clock at the rectory of Christ P. Church, and was performed by Rev. Robert E. Campbell, the rector. It was a quiet wedding, but a very pretty one. The bride wore a handsome tailor-made gown of tan-colored cloth with hat and gloves to match. The couple were unattended.

Immediately after the ceremony Mr. and Mrs. Stimpson left on their honeymoon and upon their return will reside at 170 West State street, Trenton. The bride is the only daughter of W. Barnet LeVan, the well-known mechanical engineer of the Quaker City.

WANTS STOCKHOLDERS ON HAND

Notice Regarding Republic Savings and Loan Association's Meeting.

Henry D. Poole, of 95 Broad street, Elizabeth, has sent out a notice to the stockholders of the Republic Savings and Loan Association of Newark in which he says:

"If you are not fully informed concerning the contract made by the directors of the association with Luther G. Gadd, under which he has received over $229,000 from the treasury of the association, and by reason of which the stockholders are not able or allowed to withdraw from the association the money paid by them as dues, in accordance with the provisions of the original articles of the association and by laws, but only about two-thirds thereof, you are advised against giving your proxies to vote at the impending meeting (February 17, 1900) to said Luther G. Gadd or his brother-in law, Mr. Fontaine, in whose name proxies have been issued. If you cannot attend the meeting personally you are advised to give your proxy to some friend or neighbor, who will, and can, attend and protect your interests. The by-laws provide that proxies shall be filed in the home office of the association ten days before the meeting. It will be necessary, therefore, to file your proxy not later than the sixth instant, otherwise it cannot be voted. Send it to the association by registered mail. Then you will be sure. Be present in person if possible."

Judge Hyer Ill.

The many friends of Judge Hyer, editor of the Rahway Democrat, who live in this city, will be sorry to learn of his recent illness, from which he has not yet recovered. He was taken suddenly Sunday night last with a very severe attack of indigestion, and he was found in an unconscious condition in the bathroom at his home. The family physician was called, and in a short time he was resuscitated. His condition now is much improved, but it will be some days before he will be able to leave the house.

Miss MacMurray Hurt.

Miss MacMurray, of Westfield, sister of City Clerk MacMurray, was thrown from a carriage a few days ago, while out riding and was quite severely injured. She is detained at her home and is now under the care of a physician. She hopes to be out again in a short time. At the time of the accident she was in company with her brother, Hugh MacMurray, and he was unable to hold the horse when he became frightened at something in the road. He escaped injury.

New Jersey Editors Meet.

The New Jersey Editorial Association met in Trenton Monday, with about forty members present. These officers were elected: President, Anthony Kilgore, Flemington; vice-president, C. L Stryker, Washington; secretary, E. D. Stokes, Mount Holly; treasurer, James S. Yard, Freehold; executive committee—Frank W. Baldwin, Orange; Charles Starr, East Orange; Josiah Ketcham, Belvidere; J. D. Carpenter, Woodbury, and G. W. McCowan, Bridgeton.

Sidewalk is Dangerous.

At the corner of West Second street and Elmwood place connection to the house has been made with sewer. The work was done when there was frost in the ground, and now that the warm weather has taken it out, the sidewalk is left in a dangerous condition. The attention of the street commissioner is called to the matter.

Funeral Was Private.

The funeral services of the late Miss Amelia Thompson, of Mercer avenue, were held privately today. Interment took place in Hillside Cemetery.

MUST PREPARE FOR ESCAPES FROM FIRE.

Strict Law With Reference to Large Buildings.

PENALTY FOR VIOLATION.

THE HOTEL KENSINGTON IS NOW BEING EQUIPPED.

Owners of all Large Buildings, Where the Occupants Would be in Danger in Case of a Hot Fire, Have Been Notified by Chief Doane to Comply With the Law—Failure Makes Them Liable to $300 Fine.

There will have sixty days passed by Friday since Building Inspector T. O. Doane notified the owners of the various hotels and other large buildings in this city regarding the terms of the law passed by last year's Legislature and providing that all rooms above the second story shall be eqipped with special fire escapes. Failure to comply with the provisions of the law within sixty days after notice is given is made a misdemeanor and the owner of the place is liable to an action in case of death or personal injury resulting from a fire in the building.

The law on this subject was passed March 21 h, 1899, and was known as an "act to provide for the better security of life and limb in cases of fire in hotels and other buildings." It's passage followed immediately the disastrous fire at the Hotel Windsor in New York. It was intended to be independent of the law regarding fixed fire escapes and referred to a rope or some patent fire escape, properly approved.

December 9th, Building Inspector T. O. Doane sent out a large number of circulars to the owners of all the local hotels, large buildings and boarding houses. The circulars contained the text of the act in full.

It affects, according to the terms of the law, any hotel, large boarding house, tenement house or any buildings in which rooms or floors are let to numerous families, whenever any of the buildings can accommodate thirty or more individuals and are three stories or more in height. Now it is a question regarding some of the large buildings as to whether they come under the provisions, but the owners of all of them received notices, and Chief Doane left it to them to find out whether or not they were included.

The City Hotel was the first to be equipped with the rope escapes which now hang in every room. The law also provides for alarm gongs on each floor to warn the occupants in case of fire. They are to be placed in the City Hotel in a few days.

The Hotel Kensington is now being equipped with both rope escapes and bells. The other hotels, if they are taking any action in the matter, have not yet consulted Chief Doane regarding the proper kind of an escape. As soon as the equipment is properly completed the building inspector is empowered to issue a certificate to that effect to the owner which relieves the owner from the liability of damages. These will be issued by Chief Doane as soon as the work is done.

Failure to comply with the law makes the owner liable to a fine of $300, and in case of death or injury to a damage suit for criminal neglect.

MAY SUE UNION COUNTY.

Brower Suffers From Nuisance Said to Be Authorized by Freeholders.

W. F. Brower, of New Providence, has made complaint to the Union County Freeholders about the damage which he says is caused him by drainage from a pond situated on property belonging to the New Providence Presbyterian church. Into the pond, it is said, the sewage from several houses empties, and from the pond drainage pipes extend, emptying their contents where it runs on Brower's property, causing a nuisance.

In his complaint he states that the trustees of the church claim to have had permission from the Freeholders to lay the drain pipes, and therefore he has no action against the church to compel an abatement of the nuisance. The Freeholders seem undecided as to whether such permission was given the church or not. Mr. Brower says that if the Freeholders do not abate the nuisance he will hold the county responsible.

New York Rector for Trenton.
(Special to The Daily Press.)

Trenton, February 7—Rev. Hamilton Schuyler, of the Church of the Holy Comforter, of New York, has accepted a call to Trinity Episcopal church in Trenton. Mr. Schuyler won the second prize in a contest for the best three poetic replies to the poem "The Man With the Hoe."

TAFT FOR PRESIDENT

McKinley Names Head of the Philippine Commission.

MAY BE GOVERNOR GENERAL.

Judgeship of the United States Circuit Court Resigned to Accept Appointment—Other Probable Members.

WASHINGTON, Feb. 7.—William H. Taft of Cincinnati, judge of the United States circuit court, has resigned to be appointed chairman of the commission that will be sent to the Philippines to establish civil government.

The appointment of Judge Taft marks the first selection for the new Philippine commission. There will be five members on the commission, and all of them will be civilians. Mr. Schurman, president of the existing commission, has declined for business reasons to remain on the commission, so Judge Taft will be president in his place. Mr. Denby and Professor Worcester have been invited to accept reappointments, but so far have not signified their intentions. Admiral Dewey will not go back to Manila, and General Otis will give way, like him, to a civilian. Secretary Root said that no instructions had been framed for the new commission as yet, but it would be easy to perceive from the sentiments set out in the president's message what these instructions would be.

Judge Taft called at the war department, in company with Judge Day, late secretary of state, and had a long talk with Secretary Root as to the plans for the commission. As some surprise has been caused by the willingness of Judge Taft to surrender a life position of the dignity and emoiument of United States circuit judge to join the commission it may be said that the prevalent impression is that as soon as the commission shall have succeeded in replacing the existing military government in the Philippines with stable civil governments Judge Taft will be named as the first civil governor general of the archipelago. It is not thought that this change will take place at once, but the commission is expected to move steadily toward that object and to set up local civil governments as fast as the Filipinos shall demonstrate their worthiness.

William H. Taft is a son of the late Judge Alphonso Taft, who was attorney general under Grant; and a brother of ex-Congressman Charles P. Taft, proprietor of The Times-Star. He was born in Cincinnati in 1857. He graduated at Yale in 1878 and at the Cincinnati Law school in 1880. He has been prosecuting attorney, internal revenue collector, county solicitor, superior judge in the state courts, solicitor general of the United States and judge of the United States court of appeals. In 1886 he married Helen H. Herron, daughter of former United States District Attorney John W. Herron of this city.

South Carolina Liquor Control.

COLUMBIA, S. C., Feb. 7.—The state board of liquor control will be abolished and the management of the dispensary radically changed by the senate bill to provide a new system of dispensary control, which passed the house yesterday. The vote in the house was 77 to 24 in favor of abolishing the board. The governor will approve the act. The bill provides that three directors of unquestioned character are to be selected for a term of two years, instead of five years as at present. The commissioner or superintendent elected by the board heretofore is to be elected by the general assembly and given power to appoint employees, a right denied him now. He is to receive a salary of $3,000 per annum.

Naval Deficiency.

WASHINGTON, Feb. 7.—The secretary of the navy has sent to congress a deficiency estimate of $838,300 to meet increased expenditures incident to the establishment of naval stations outside of the United States. Of this sum the main items are: Emergency fund, $250,000; yards and docks, $110,000; coal barges at Manila, $150,000; construction and repair, $220,000. Another estimate of $1,622,000 is made for the regular naval bill, including $500,000 emergency fund, $220,000 for yards and docks, $300,000 for equipments at Cavite and $500,000 for construction and repair.

Broken Neck Reset.

NEW YORK, Feb. 7.—Bartholomew Moriarty, a hod carrier, 60 years of age, has left St. Joseph's hospital in Yonkers apparently as strong as ever, although he had suffered for four months from a broken neck. He fell from a building in October and broke his neck. He partly recovered, but paralysis set in, and in December he hobbled from his home in Dobbs Ferry to Yonkers, where the two sections which were pressing against the spinal column were reset successfully.

Body Recovered.

NEW YORK, Feb. 7.—The body of Mrs. Mary Finley, who, with her husband, Captain John Finley, was drowned from a barge early Monday morning in Huntington bay, Long Island, has been recovered. On the woman's body was found a pocketbook containing $60 in money, and a bankbook floated ashore showing deposits of $5,000 in the Rondout (N. Y.) bank, where the Finleys lived.

Treasurer Roberts Sued.

NEW YORK, Feb. 7.—Ellis H. Roberts, treasurer of the United States, has been sued by Receiver Shaw of the Franklin National bank to recover on two protested notes aggregating more than $10,000. The suit is an outcome of private business transactions and has nothing to do with the funds of the government.

Died In Dentist's Chair.

WEBSTER, Mass., Feb. 7.—Ernest L. Partridge of Charlton dropped dead yesterday in a dentist's chair. He told Dr. Hitchcock he wanted 13 teeth pulled. As the operation was to be so extensive he was placed partially under the influence of ether. As the seventh tooth was extracted he fell back dead.

Maryland Prohibitionists.

BALTIMORE, Feb. 7.—The state executive committee of the Prohibition party announces that its state convention will be held in this city on Thursday, May 31.

Had Lived Over a Century.

OSWEGO, N. Y., Feb. 7.—Mrs. Mary Ann Matthieu, aged 100 years and 8 months, is dead here of the grip. She was born in France and lived here 32 years.

A FLOOD OF TALK.

Congress Goes on Discussing the Philippine Question.

WASHINGTON, Feb. 7.—The Philippine question again occupied the attention of the house yesterday, with a slight digression concerning the war in South Africa. The feature of the debate was the speech of Mr. Williams of Mississippi, who presented an argument against the annexation of the Philippines which attracted much attention. It was devoted almost entirely to the commercial aspects of the acquisition, holding that the absorption of the islands would be ultimately ruinous to the American producers of cotton, rice, tobacco, hemp and sugar. Mr. Morris of Minnesota made an exhaustive legal argument in support of the right to hold and govern the islands. The other speakers were Messrs. Gibson of Tennessee, W. A. and H. C. Smith of Michigan, Cochran of Missouri and Neville of Nebraska.

The general debate on the diplomatic bill closed and today will be taken up for amendment under the five minute rule.

Until the financial measure now pending before the senate shall have been disposed of finally it will be considered by the senate every legislative day to the exclusion of all except purely routine business. This agreement will have the effect of cutting off all debate on the Philippine question or other matters except by unanimous consent of the senate, unless senators choose to discuss other questions in the time they devote to the financial bill.

Mr. Caffery of Louisiana concluded his speech on the Philippine question, holding that the United States ought to restore in the islands the status quo and then confer independence upon the Filipinos.

Mr. Butler of North Carolina discussed at length the proposed amendment to the constitution of North Carolina in answer to speeches delivered by Senators Morgan, McEnery and Money.

MOLINEUX CASE.

The Defense Calls No Witnesses, but Rests on Prosecution's Case.

NEW YORK, Feb. 7.—The defense in the case of Roland B. Molineux rested yesterday on the people's evidence. No witnesses were called.

The prosecution closed yesterday at noon, and when the case was adjourned until today it was expected that Bartow S. Weeks, of counsel for the accused man, would spend the entire day in opening the case for the defense. Great was the surprise, therefore, when the trial was resumed at 10:30 o'clock this morning and Mr. Weeks arose and announced that he would call no witnesses. He asked first that the indictment be read. This was done. He then moved that the prosecution be called to name the count which it wished the jury to consider in the case. The motion was overruled.

The lawyer then moved that the case be dismissed on the ground that the evidence was entirely insufficient. Recorder Goff promptly denied the motion.

"The defense rests," said Mr. Weeks. "We are willing to let the case go to the jury on the evidence submitted by the prosecution."

OFFENSIVE FILIPINOS.

Nine Towns Garrisoned and Large Quantities of Hemp Found.

MANILA, Feb. 6.—The insurgents attacked the First battalion of the Forty-fifth infantry near Niac. A major and a captain were wounded and one sergeant killed, but details of the engagement are lacking.

Ships arriving from Legaspi report that the insurgent general, Pana, concentrated a large force about the top of the town and made a sharp night attack on Major Shipton's battalion of the Forty-seventh infantry, which occupied a large convent as a fort. One battalion and a battery have sailed as re-enforcements for Shipton. The casualties are unknown.

A corporal and four men, while patrolling the railroad near Mabacalat recently, disappeared, and it is supposed they were captured. A searching party for them was ambushed and a corporal killed.

General Kobbe's expedition in Luzon, Leyte and Samar has occupied permanently and garrisoned nine towns with the Forty-third and Forty-seventh regiments and placed on the market 180,000 bales of hemp.

A thousand insurgents armed with rifles and more than 5,000 armed with wooden swords, bows and arrows were encountered during the entire trip. The troops killed 75 natives, 11 of whom had rifles. The rest were villagers with wooden swords.

To Complete Road In Alaska.

WASHINGTON, Feb. 7.—Captain William R. Abercrombie, Second infantry, and First Lieutenant Walter C. Babcock, Eighth cavalry, now in this city, have been ordered to proceed without delay to Seattle for the purpose of arranging for the continuance of the work of the construction of the military road from Port Valdes to Eagle City, Alaska.

Pleasing Condition In Cuba.

WASHINGTON, Feb. 7.—Senor C. Quesada, the Cuban commissioner, called upon Secretary Root at the war department yesterday and gave him a gratifying account of his recent observations of the political and industrial conditions in Cuba. Senor Quesada has just returned from a visit to that island.

Women Plead For Suffrage.

ALBANY, Feb. 7.—A delegation of women appeared to favor Mr. Kelsey's bill yesterday before the judiciary committee of the assembly permitting women who are taxpayers to vote for town officers. Mrs. Mary Loines and Mrs. Priscilla D. Hackstaff spoke in favor of the measure.

Governor Tanner Ill.

SPRINGFIELD, Ills., Feb. 7.—Governor Tanner is confined to his bed at the executive mansion with a serious attack of stomach trouble, and all visitors are denied. He has been unable to be at his office at the statehouse since last Friday.

Girl Killed by Train.

NEWBURG, N. Y., Feb. 7.—Mabel Cox, aged 13, a schoolgirl, was struck and killed on the West Shore railroad track yesterday afternoon at Cornwall. She was crossing the track to go skating on the Hudson.

New German Cable.

BERLIN, Feb. 7.—The German direct cable from Emden to New York, by way of the Azores, will be laid by a London company. It will cost £985,000. The cable will be 4,336 miles long.

[THAT'S THE IDEA!

You ought to see what we can do for you before doing anything for yourself. Painting depends upon the paint and the painter. Better preparations than ours were never put on by a brush. Wherever paint is put, it should be put there to stay long enough to make it worth while to do the job. The warring elements have no effect on our durable mixtures.

BLIGHT FOLLOWS CURSE.

Strange Story of the Misfortunes of a Former Governor of Illinois Who Opposed Mormons.

A strange story comes from Salt Lake City to the effect that former Gov. Ford, of Illinois, died in the most abject poverty, with the bones of his body literally protruding, and that this deplorable end of one of Illinois' best known statesmen was directly due to curses pronounced upon him by the great Mormon prophet, Joseph Smith.

The fact that Ford was governor of Illinois during the Mormon war and at the time of Smith's assassination gave a certain credence to the rumor. After leaving his office as governor, Mr. Ford moved to Peoria, and his body now lies buried at Springdale cemetery. Careful investigation recently practically substantiates the claims of the western Mormons. It is true that Gov. Ford, as the representative of the law which was hounding their sect, incurred the deadly enmity of the Mormons, and their leader and prophet. Old residents of this city also state that they can recall an old rumor of a curse against Gov. Ford, and they talk at length of the conditions surrounding his death and the end of his family.

Gov. Ford was a brilliant man of the highest principles, and was eminently successful as a lawyer. But after the expiration of his term of office, and soon after the alleged curse was pronounced, he ceased to be as prosperous as formerly. He came to Peoria and established a practice here, but misfortune followed him, his property dwindled away, and then, as a final blow, illness intervened and cut short a brilliant career. At the time of Mrs. Ford's death the family had been reduced to poverty, and the two children had been adopted by friends who could afford to educate them. Ex-Gov. Ford survived his wife only a few years and the discomforts of poverty closed thickly about him. He tasted the full bitterness of illness, destitution and dependence, and died under the most deplorable conditions.

The son, Tom, who had been adopted by a resident of this city, Thomas Moore by name, had embarked on a life career which promised to be prosperous, when he was suddenly called west on business. He was crossing the plains on horseback, when he fell in with a vigilance committee looking for a horse thief and hungry for its prey. The stolen stock had been found in the vicinity of the spot where they encountered Ford, and they accused him of the theft. He indignantly denied the charge, and said he was Tom Moore, of Peoria. Upon further questioning, however, he unluckily mentioned that he was a son of ex-Gov. Ford, of Illinois, whereupon the leader exclaimed: "An honest man never travels under two names," and the unfortunate young Ford was swung to the nearest tree.

The daughter of Gen. Ford has drifted entirely out of sight of the world, and no one knows what has become of her. And this great tragedy of life and death in the family of the Fords, the Mormons claim, is the result of the curse of their prophet.—St. Louis Globe-Democrat.

MARYLAND GOOSE HUNTING.

How the Gunners Go About It Along the Shores of Chesapeake Bay.

A blind in the form of a pit is made in the sand on shore near where the geese and swans are known to rest and feed. White woolen blankets are spread in and around the blind to make it comfortable, and corn is strewn within 30 yards of it. After nightfall the hunters hide themselves in the pit, strapping up in white blankets which cannot be detected from the white sand of the beach by the water fowls. Absolute silence is maintained.

From far out in the bay comes the familiar "honk, honk" of the incoming flock, and the hunters get down low in the pit. The geese alight near the end of the beach and soon are in shallow feeding water. The "watch goose," which is always a gander, and which never seems to eat or sleep, makes a reconnaissance in advance of the flock and finds the corn. If, after a close inspection of the surroundings, he is satisfied of safety, he calls the flock, and it eagerly responds. The geese, looming up in the night, look as big as ostriches from the blind. When within range the signal to fire is given in pantomine by the leader of the hunters, and something happens when the big No. 8 guns boom.

Some geese are killed outright, others are wounded so they cannot fly, and those unhurt take to instant flight. As they rise another volley is poured into the flock. The dead and wounded birds are retrieved by trained Chesapeake bay dogs, if the hunters have them, otherwise by the hunters themselves, who rush into the icy water, pursuing first the wounded fowls and afterward picking up the dead ones. This ends the shooting from that blind that night.

At times there is a cold, tiresome, all-night wait with no results. No. 8 guns are used and the best ammunition. The shells are loaded with six or seven drachms of powder and from two to three ounces of B. B. chilled shot.—Baltimore Sun.

WILL TAYLOR YIELD?

Plan For Settlement Awaiting His Consideration.

FAVORABLE DECISION HOPED FOR.

Republican Members of the Legislature Meet In London, Organize and Adjourn Out of Respect to Goebel's Memory.

FRANKFORT, Ky., Feb. 7.—Whether it shall be war or peace in Kentucky rests with Governor Taylor alone. The text of the agreement reached by the Louisville conference was brought to him yesterday morning by a committee consisting of General Daniel Lindsay, T. H. Baker and T. L. Edelen. They handed Governor Taylor a copy of the agreement, were closeted with him for a short time and then departed. As they left the building Mr. Baker remarked: "I hope and believe that the entire matter will be amicably adjusted. More than this I am unable to say at the present time."

General Lindsay and Mr. Edelen spoke in similar terms, and while all expressed themselves as reasonably confident that Governor Taylor would acquiesce in the terms of the agreement they all desired to be understood as saying that they had no authoritative reason from Governor Taylor for entertaining the belief they expressed.

Early in the morning before he had received a copy of the agreement Governor Taylor discussed the conditions as he understood them to be before receiving official notice and said:

"Under no circumstances will I discuss the agreement before a copy of it has reached me. It would be most unfair and most discourteous for me to do so. Speaking generally, however, I would say that if an agreement can be made by which an election law will be given to the people of Kentucky, through the operation of which a fair election and an honest count are assured to the citizens of this state, no personal ambition of mine will be allowed to stand in the way."

After the three gentlemen who brought the agreemnt had retired Governor Taylor remained alone in his office with the copy of the agreement. He studied it carefully, went over its several provisions in an exhaustive manner and late in the afternoon declared that he would take no action whatever until today.

"I wish to see my attorneys," he said, "and to consult with them about certain forms of the agreement before I announce my intention. I will not say what I intend to do until after I have obtained legal advice."

The consultation of the attorneys was held last night in Governor Taylor's office and adjourned at a late hour.

Senator Blackburn, who returned from Louisville, expressed himself as being confident that the entire trouble would be settled peacefully.

"It is entirely natural," he said, "that the other side should wish to take time to consider the agreement and to prepare its statement to be issued at the same time the signature is affixed. I have no knowledge of what will be done, but I firmly believe that the agreement will be accepted substantially as adopted by the members of the Louisville conference and that all chance of trouble will be avoided."

When asked for his opinion of the consequences should Governor Taylor decline to accept the agreement, Senator Blackburn said: "That is a question I do not care to discuss nor even to think about. If no settlement is made now, it will lead to endless complications before the end is reached."

There is not in the city of Frankfort a single member of the legislature. The Republicans are all at London and the Democrats in places along the border of the state from where it will be easy to escape should any attempt be made by the military to arrest and convey them to London. But such Republicans of prominence as are here seem inclined to believe that Governor Taylor will accept the agreement. They all admit, however, that he has given as yet no oral or written evidence of his intention.

One of the attorneys who has been prominent on the Republican side in the contest cases and who therefore does not wish his name used in connection with an interview said last night: "It is, in my opinion, the duty of Governor Taylor to sign the agreement. If he does not, he will lose greatly in standing in his own party. I know that he will do what he believes to be right and best for the welfare of the state. It seems to me that under the circumstances there can hardly be two opinions as to what his course may be."

Frankfort yesterday enjoyed at least one day of quiet, the first it has experienced since the Goebel-Taylor contest began three weeks ago. The town was bare of politicians, there was no excitement in the streets, no crowds around the corners and no throngs in the lobbies of the Capitol hotel.

A meeting of Frankfort citizens was held at the courthouse last night, and arrangements were made for public observation of the funeral of Governor Goebel. All business people of the city were asked to close tomorrow and drape their buildings in black. All bells of public institutions will be tolled.

KENTUCKY LEGISLATURE.

Republican Members Meet In London as Ordered by the Governor.

LONDON, Ky., Feb. 7.—The Republican members of the legislature, 34 representatives and 14 senators, met here yesterday at noon as directed in the proclamation of Governor Taylor when he dissolved the legislature at Frankfort last week. The sessions were held in the old Laurel County seminary, which was large enough to accommodate the lawmakers. The stove smoked badly, and the lower room, in which the house met, was filled with smoke during the entire session, which lasted 20 minutes. The session of the senate lasted 15 minutes.

Both houses were opened with prayer. Senator R. M. Jolly of Breckinridge county was elected president pro tem. of the senate, and Burgess J. Berthurum of Rock Castle was elected speaker pro tem. of the house. A. R. Dyche of Laurel county was elected clerk of the senate and H. C. Faulkner of Knox county clerk of the house. No sergeant-at-arms was elected, as it was not deemed advisable to send out warrants for the arrest of members of the house who do not want to attend.

Both houses adopted appropriate resolutions on the death of Senator Goebel and deprecated the manner of his taking off.

SCHOOL AND CHURCH.

The Russian budget estimate for public education for 1900 is about $24,000,000.

Kentucky was the first state to give school suffrage to widows, granting it in 1838.

The Congregational churches of South Carolina composed of colored people have formed a state association

The Methodists of Greater New York have decided to raise $700,000 to clear the indebtedness of all the Methodist churches there.

German gymnasiums or grammar schools are about to introduce the Russian language into their already difficult and comprehensive curriculum.

The strength of the various sections of the Methodist church by recent returns shows that throughout the world there are 7,957 churches with 44,598 ordained ministers.

The greatest concession yet made to women by a German university is the recent decision of the medical faculty of Heidelberg university to admit women on equal terms with men, provided they have German gymnasium certificates.

On a recent Sunday Mrs. Maud Ballington Booth preached for two and a half hours to the convicts of Sing Sing prison. More than 500 of them wear badges with the inscription, "Look up and hope," which shows that they are members of Mrs. Booth's league.

A magnificent gift, amounting to 5,275,000 francs in value, has been received by the University of France from M. Raphael Bischoffsheim, a deputy and a member of the institute. It consists of the observatory of Nice, with 86 acres of land, two auxiliary observatories, with their instruments, and the library, and, further, 2,500,000 francs in cash for the maintenance of the observatory.

NOWORDFROMNATAL

For Three Days London Hears Nothing From Buller.

HEAVY CANNONADING AT LADYSMITH

Troops Rapidly Hurried From Cape Town to the Front—Twenty Thousand Have Lately Arrived. Macdonald's Timely Arrival.

LONDON, Feb. 7.—Lord Roberts has caused to be distributed in the towns bordering upon the invaded colonial territory an invitation to Free Staters and Transvaalers to go into the desert, offering them good treatment and a restoration to their farms on the British occupation of republican territory.

The manifesto guarantees that those bringing horses can sell them. Foreigners will have their passage paid to Europe. Colonial rebels are advised to surrender in preference to being taken prisoners.

Not a word has been received from the correspondents with General Buller for three days. It is as though Natal had been wiped off the map, excepting the heliogram from Ladysmith saying that the Boers are cannonading and that "fighting is going on."

General Macdonald, with 4,000 infantry, cavalry and artillery, threatens the Boer right at Magersfontein. This is the first sign of activity on the part of Lord Methuen for some weeks and doubtless has relation to the movements of the British farther east.

It appears that General French's visit to Cape Town was to ask Lord Roberts for 7,000 more men. Whether he got them is not disclosed.

Troops are no longer detained at Cape Town. They proceed immediately to some point at the front. Three thousand disembarked Monday and were quickly sent elsewhere. No public reception was given to the arriving volunteers at Cape Town because they had to leave immediately.

As Lord Roberts, since the battle of Spion Kop, has had 20,000 fresh troops to dispose, it is probable that some have gone to General Buller.

The World says it learns that Lord Methuen has disbanded Remington's scouts, one of the most useful colonial commands, because he had ascertained that some members of the corps had been communicating with the Boers.

The house of commons has rejected Lord Edmund Mitzmaurice's amendment to the address in reply to the speech from the throne by 352 against the amendment to 139 in its favor.

The Standard has received the following dispatch, dated Feb. 5, from Koppie's Dam:

"General Macdonald, with a brigade of infantry, a regiment of lancers and one battery, has reached here from Modder River camp in what is regarded as an important movement to the right of the Boer position at Magersfontein.

"Koppie's Dam commands the roads from Kimberley to Hopetown and Douglas. Two Boer laagers, at Kamul Hoek and Griquatown, are within striking distance.

"The arrival of General Macdonald's column was opportune, as it just prevented two large commandoes effecting a junction. He now holds both banks of the river.

"Our lancers had two brushes with the Boer patrols. There is great activity among the enemy, and strong forces are concentrating to oppose our further advance. The troops suffered from heat and scarcity of water during the march."

A Skirmish Near Ladysmith.

MODDER SPRUIT, Feb. 7.—On Saturday the Pretoria corps discovered a party of British from Ladysmith intrenched at a railroad bridge, protecting a number of coolies who were cutting grass. A party of Boers dispatched to the scene was attacked from the trenches, and all retreated except four, who, hiding, permitted the British to advance to within 50 yards, when they fired a volley, killing three men. This was seen from the British fort, which fired a shell and sent cavalry to assist the British. The Boers beat these back, killing two men.

Messages from Ladysmith, dated Feb. 5, say continuous cannonading has been proceeding since 5 o'clock in the morning, with the occasional roar of a Long Tom. The firing, it is added, continues.

Bard Chosen Senator.

SACRAMENTO, Feb. 7.—Thomas R. Bard has been elected United States senator to succeed Stephen M. White. In the senate the vote was as follows: Thomas R. Bard (Rep.), 26; James D. Phelan (Dem.), 10. In the assembly the vote stood: Bard, 59; Phelan, 20; White, 1. Bard was declared elected in both houses. Both houses will meet in joint session today to ratify the election of Bard.

Bomb Found In Paris.

PARIS, Feb. 7. — Some considerable excitement was caused by the announcement that a bomb had been found in the window ledge of the residence of M. Paul de Cassagnac, on the Boulevard Malesherbes, with the fuse lighted. The latter was extinguished by a policeman. The chief of the municipal laboratory says that the bomb would have done much damage if it had exploded.

Florida Timber Land Sold.

DOVER, Fla., Feb. 7.—Greer Bros. of Dakota, Ga., have purchased at this place a site for a big sawmill and 20,000 acres of timber land, the cash consideration being $200,000. The firm will cut lumber largely for export to Cuba and Central and South American countries. They will also construct railroads to run from several points in their property.

Bryan's New England Trip Closed.

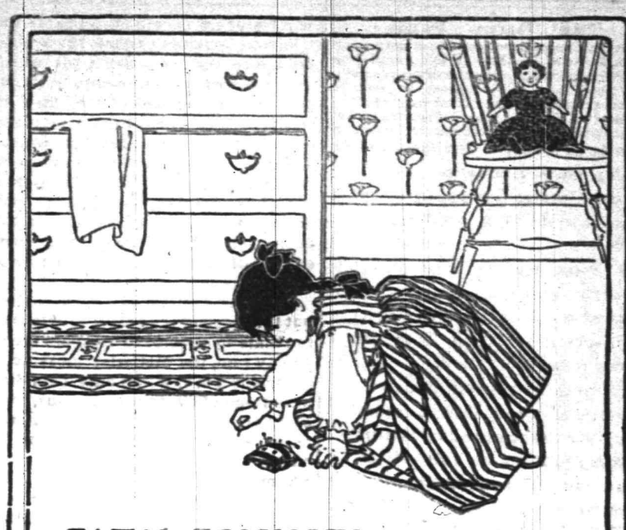
BRIDGEPORT, Conn., Feb. 7.—Colonel William Jennings Bryan at 11 o'clock last night finished the work for which his New England trip was undertaken, and with the day's speeches in Connecticut the Nebraskan abandons New England probably not to return during the campaign of 1900.

Postmasters Appointed.

WASHINGTON, Feb. 7.—The following fourth class postmasters have been appointed: New York—Belgium, Andrew Brush. Pennsylvania—Duck Valley, C. N. Schriever; Chesterville, W. T. Dance; Knousetown, J. S. Barner; Lizette, R. S. Clewell. Vermont—Brownington, W. C. Scofield.

Weather Probabilities.

Rain or snow and colder; variable winds, shifting to fresh easterly.



FATAL ECONOMY.

A VERY old maxim declares that it isn't economy to pick up pins; the time is worth more than the pins. Similarly it is not true economy to do without Ivory Soap; your health requires the daily removal of the bodily excretions which are discharged through the pores of the skin. These tiny mouths must be kept open, and they should be opened only with a pure soap.

IVORY SOAP—99 44/100 PER CENT. PURE.

BANK DEPOSIT TAX.

New York Legislature After the Wealthy Tax Dodger.

ALBANY, Feb. 7.—Both political parties seem to be on the trail of the wily tax dodger. His day of reckoning may not be set by the Treat bill, taxing savings bank deposits in excess of $1,000, but the temper of the legislature shows it is bound to come.

Mr. Treat yesterday had his bill sent back to the committee for a hearing in the afternoon, and the remarks made by the members when this motion was made indicated a general interest in the proposition to compel wealth to bear its proper share of the burdens of taxation.

"I believe the principle of my bill is just," said Mr. Treat, "but I want to be fair about it. I will aid to the full extent of my power any legislation to lighten the burden of the poor taxpayers. I yield to no one in my sympathy for the man who pays all the taxes, and I believe we can reach the wealthy who dodge all such obligations."

Assemblyman Trainor suggested to amend the bill so as to tax all $3,000 deposits which do not change from year to year.

Leader Allds made the significant assertion from the majority that the principle of the Treat bill is all right, although the means proposed may require some change.

The new state superintendent of insurance, Francis Hendricks, was in town yesterday for the first time since his appointment by Governor Roosevelt and his confirmation by the senate. He called at the executive chamber, but Governor Roosevelt was in New York city. He then went to the insurance department and personally met its staff. He said that he had no announcement to make and could not state when he would assume charge of the insurance department. It is believed, however, that he will enter upon the discharge of the duties of his new office on Monday next.

SCENE IN SPANISH CORTES.

Count Almenas Accuses Generals and Government and Is Called Down.

MADRID, Feb. 7.—Count Almenas, who insists that the responsibility shall be brought home to those to whom Spain's defeats in the Spanish-American war were due, created a scene in the senate yesterday by asking if it were true that a conspiracy existed among the generals to prevent light being thrown upon all the circumstances of the war.

Lieutenant General Azcarraga, minister of war, replied that the attitude alleged to have been adopted by the generals did not exist. He protested against "the campaign against the prestige of the army."

Count Almenas retorted, "I am not satisfied with these declarations."

The president of the senate, Captain General Martinez de Campos, called him to order, saying he could not allow it to be said in parliament that the Spanish generals were unworthy of confidence.

Count Almenas replied, "There were unworthy generals, as there was an infamous government, who led Spain to dishonor."

A great uproar ensued, amid which the president called upon Count Almenas to withdraw his statement. The count refused, and the excitement increased.

The senate ultimately decided to go into secret session and to consider the case. After a long discussion, however, Count Almenas refused to give any explanation of his conduct, and the senate then adopted a vote of censure.

Count Almenas replied: "It does not matter to me. My mind is made up. I shall persist in the same attitude."

CONDENSED DISPATCHES.

The Lawton fund has reached $98,054.

Admiral and Mrs. Dewey attended the arch fund concert at Carnegie hall, New York.

The total amount of property exempt from taxation in Greater New York is $521,200,371.

One man was shot and several were beaten in a riot among building trade strikers in Chicago.

Secretary Gage was prevented from coming to New York to attend the bankers' banquet by a severe cold.

The Liberal national convention in the City of Mexico ordered a count of the votes cast at the plebiscite to choose a candidate for president. President Diaz was said to have a large majority.

THE TREATY IN GERMANY.

The Agreemgent In Regard to Canal Construction Discussed.

BERLIN, Feb. 7.—The news of the Hay-Pauncefote agreement relating to the construction of the Nicaragua canal was received here with interest. A German foreign office official empowered to speak for Count von Bulow, the foreign secretary, said:

"Germany's political interests are not affected by the Nicaragua agreement, and so far as the trade interests of Germany are concerned we assume that the United States will manage the canal on liberal principles. The government was informed that negotiations were in progress between the United States and Great Britain, but was not consulted about the terms of the agreement."

The official in question continued:

"We deny most emphatically that Germany ever thought of acquiring St. Thomas or any other island in those waters. Germany is not hunting around for more stray territory."

The papers comment calmly upon the agreement. The Lokal Anzeiger says: "Another obstacle to the complete supremacy of the United States over the American continent has been removed."

The National Zeitung in a long editorial maintains that the chances are decidedly in favor of a waterway across Nicaragua and expresses the opinion that congress will definitely dispose of the question this year.

The Cotton Movement.

NEW ORLEANS, Feb. 7.—Secretary Hester's analysis of the cotton movement for five months of the season from Sept. 1 to the close of January, inclusive, shows that, compared with the crop movement last year, Texas (including Indian Territory) has brought into sight this season in round figures 931,000 bales less, while other gulf states, which include Louisiana, Mississippi, Tennessee, Missouri, Arkansas and Oklahoma, have marketed 410,000 less, and the group of Atlantic states which includes North and South Carolina, Georgia, Florida, Alabama and Virginia shows a decrease of 697,000, making the decrease in the total crop marketed 2,044,000.

Train Robber Arrested.

CHICAGO, Feb. 7.—Patrick Crowe, arrested here on suspicion of having been connected with the sensational robbery of the Northwestern fast mail at tower W, 46 miles west of here, Oct. 13, was identified as one of the quartet which secured booty from the train variously estimated from $25,000 to $100,000. The identification was made by James White, engineer of the train which was robbed; Charles James, operator at tower W, and by the fireman of the locomotive and the express messenger in charge of the money which was stolen. Crowe way then turned over to Sheriff Dimmick of Kane county.

Sale of Phosphate Lands.

OCALA, Fla., Feb. 7.—Deeds have been recorded here that convey 23,000 acres of phosphate lands in Alachua and Levy counties owned by the Compagnie Generale des Phosphates de la Florida to La Societe Nouvelle des Phosphates de la Floridi. The first is a corporation organized under the laws of this state, and the second is a Belgian corporation with headquarters at Brussels. The consideration for the property was $400,000 in cash.

New York Masons Meet.

ALBANY, Feb. 7.—The one hundred and third annual convocation of the grand chapter, Royal Arch Masons of the state of New York, was opened in this city yesterday by Grand High Priest John W. Palmer. The attendance included the officers, grand representatives and members of the constituent chapters of the state.

Storm In Montana.

GREAT FALLS, Mon., Feb. 7.—The worst wind and snow storm ever known in this locality occurred yesterday. Much damage was done to the lighter class of buildings and to the telephone and electric light wires. No fatalities are yet reported, but it is feared that the loss of stock on the ranges will be large.

New Trial For Benham.

BATAVIA, N. Y., Feb. 7.—The news of the decision of Justice Hooker in giving Benham a new trial was heard with much surprise in Batavia. Upon being informed of the decision by a reporter Benham's father immediately wired his son in Auburn prison.

February 17—Social for members of Junior Department of the Y. M. C. A.

The Visit of Col. Bryan.

If there is any real meaning in the saying "the enemies country," as applied to the political appreciation of Col. William Jennings Bryan and the principles that he advocates, there can be no section in which the sentiment is reflected more glaringly than in Plainfield, for here in a community of 13 000 people there were over 2 000 votes cast against the candidate of the Chicago platform in 1896 as compared with the standard bearers of the other parties at the same time.

In view of this fact, the visit of Col. Bryan to Plainfield today as the guest of James E. Martine, and incidentally of the local Democracy, is interesting in more than the mere coming and going of so distinguished a personage.

The way in which the people of this vicinity have turned out, practically en masse, to welcome and greet the man whose principles they, as a community, rejected with such overwhelming odds four years ago, is noteworthy. The crowd and the enthusiasm manifested over the event is characteristic of the midst of an intense campaign; but since it is between seasons in a political sense the demonstration is all the more remarkable and flattering to Mr. Bryan and his followers, and especially in a camp in which the banner of the G. O. P. has flown so victoriously on election days for many years.

It is no mean honor to Plainfield to be visited by Col. Bryan. There can be no doubt but what he is the most prominent private citizen of the land today and to the minds of millions of its sturdy and well meaning citizens he is regarded as a most likely successor to the present occupant of the chair of the Chief Executive of the Nation. But be that result as it may, there is every indication that he will lead the Democrats in the approaching National campaign, and the visit of a man occupying such a place in the public mind on the eve of a struggle between the two great political parties makes it a notable occasion in local history.

However much individuals may agree or disagree with Col. Bryan as to the politics that should govern this country, there should be none gathered in this city today but to wish him the kindly consideration and pleasure that is due and benefits one of his character, ability and celebrity. We have no hesitancy in saying that, irrespective of politics or partisanship, Plainfield feels highly honored in having the opportunity to meet face to face so distinguished a citizen as Col. William Jennings Bryan, and we hope that he may leave this evening feeling as gratified over his trip to this city as the residents are pleased to have him with them for a brief period.

No Need for It.

Senator McCarter has introduced a bill in the Legislature which aims to afford protection against the unscrupulous and dishonest schemes that it is claimed certain coal dealers practice upon unsuspecting customers. The bill provides a fine of $50 against any coal dealer who delivers less than 2,000 pounds as a net ton or 2 240 pounds as a gross ton. It requires a delivery ticket and duplicate, one to be held by the buyer and one by the seller in every case. Municipal authorities are authorized to designate scales for public use, the owners of which may charge twenty-five cents a ton for weighing. Every purchaser has the right at his own expense to insist upon the use of these scales. A fine of $50 is provided against the seller or driver for refusal to permit the load to be weighed at the public scales.

The modus operandi of the McCarter measure is in substance the same as a Plainfield citizen once prayed the Common Council to enact in a local ordinance, but the petition for which was referred to a committee that never thought enough of the idea to report it. We fear the same fate is in store for the bill that has appeared at Trenton. If the State undertakes to exercise a supervision over the morals of coal dealers, they may just as well do the same thing with the grocer, the meat dealer, the drygoods man, and so on until the whole list of business men has been gone through with.

There are "tricks to every trade," but it is beyond the proper province of the State to attempt to regulate them. At any rate, the McCarter measure, if it became a law, would only be taken advantage of by the suspicious, and common sense recommends that the purchaser who fears that he is to be cheated should deal with those in whom he has confidence—and if he follows this law of human nature the McCarter bill is a needless proposition to submit.

New Jersey and Texas offer examples of extremes in respect to their relation to Trusts—this commonwealth offering every facility for great industrial organizations and combines to prosecute their plans with cheapness and liberty, and the Lone Star government, on the other hand, putting up the most stringent barriers to prevent the conduct of the businesses that receive legal sanction here despite the moral opposition expressed towards them. The Anti-Trust law of Texas, which went into effect the first day of this month, is about as severe a statute of its class as could be imagined. It defines Trusts as conspiracies, and puts the ban upon even such concerns as the Associated Press. It also provides that any corporation which, owning a manufacturing patent, shall use it and at the same time fail to put it on the market for sale "shall be adjudged a monopoly." This hits hard the owners of patents that lease instead of selling them outright. This latter stipulation would seem to come in conflict with the Federal patent laws. The attempt of the Texas authorities to enforce such a sweeping, non-elastic law will be watched with extraordinary interest in capitalistic circles.

The question of enlarging the Erie canal to make it a deep water way from New York bay to the Great Lakes, which has been agitating the politicians, statesmen and citizens of New York State, is likely to have a wider sphere of discussion. Congressman George B. McClellen thinks the National Government ought to do the work, as being of both military and commercial importance to the whole country, and has prepared a bill to that effect, to be submitted to Congress.

Not one ounce of any product is sold, not one manufacturing wheel is moved, without the assistance given by advertising of some sort, oral or printed, says the Philadelphia Record. No man can dispense without advertising, no matter what may be his business or occupation. It makes the industrial world move.

The large number of visitors in town today show that whatever their political prejudices may be one way or the other, they are perfectly willing to extend the "glad hand" to Col Bryan, and give him a rousing ovation.

Governor Roosevelt has sent word to Washington that he has finally determined not to be a candidate for the Vice Presidency. Now let the making of Republican running-mates for McKinley be resumed in New Jersey.

The Pennsylvania Railroad Company are contemplating raising their tracks in New Brunswick, thus abolishing twenty grade crossings. One by one the old Dutch city is getting the modern things of life.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

—A temperance meeting will be held next week Monday evening at Trinity Reformed church under the auspices of the Christian Endeavor Society.

GRAIN-O! GRAIN-O!

Remember that name when you want a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it. Grain-O is made of pure grain, it aids digestion and strengthens the nerves. It is not a stimulant but a health builder and the children as well as the adults can drink it with great benefit. Costs about ¼ as much as coffee. 15c. and 25c. per package. Ask your grocer for Grain-O.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machines. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence to The Press.)

Dunellen, Feb. 7—A committee from Court Dunellen, Order of Foresters, called at the home of Z P. Osmun Monday evening and presented him with $30. Mr. Osmun is a member of the order and it is customary for the lodge to make this donation when a death occurs in a member's family. The money is donated for immediate expenses and has nothing to do with any insurance money due the family in the event of a member's death. It is a separate donation.

At Monday evening's meeting of the Borough Council R. P. Bache, secretary of the Dunellen Electric Light Company, suggested to the Council that if the board was willing to increase the payment from $17 to $18 per light per year the company would improve the service by the application of a new device. No action was taken.

The funeral of Mrs. Z P. Osmon was held from the late home of the deceased at 1:30 o'clock this afternoon and from the New Market Baptist church at 2 o'clock. Rev. Frank Fletcher officiated. There was a good attendance.

The condition of Conductor Charles Dodwell, who is confined to his home by illness, is considerably improved. His many friends will be pleased to learn of his early recovery.

The next regular meeting of the Borough Council will be held on Tuesday, the 20th inst., when the accounts of the year will be closed up.

Quite a number of the citizens visited Plainfield today and listened to the speaking of the Hon. W. J. Bryan at Music Hall.

Monday evening's meeting of the Borough Council was the last regular meeting of the fiscal year, which closes with this month.

Conductor Edward Teel is running Charles Dodwell's train during the latter's illness.

PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, Feb. 7—Mrs. Jane Billing, of Bartle avenue, is visiting her sister, Mrs. Lee, of Port Richmond, S. I.

This is rather a dull day in Scotch Plains. Those who are not attending the trial of Emery and Walpole at Elizabeth are attending the Bryan celebration in Plainfield.

The Sacred Literature Society of the Baptist church will resume their Wednesday evening meetings again tonight. Subject, "Hope of Israel."

The Social Sewing Circle, of Netherwood, will hold a reception in the Fanwood Hall this evening. Admission will be by invitation only.

Several of the young people from the village attended a surprise party tendered to George Rittenhouse, of Plainfield, last evening.

The Pedagogical Reading Club met in the school parlors Tuesday afternoon and enjoyed an interesting reading.

The Board of Education met in the school parlor and transacted routine business last evening.

Fanwood B. and E. Company held their regular monthly meeting in their rooms last evening.

WESTFIELD

(Special Correspondence to The Press.)

Westfield, Feb 7.—A military company to be known as the Westfield Dismounted Calvary has been organized in this town with the following officers: President, L. S. Randell; secretary, Walter Lee; treasurer, Lester Ris. The company has already enrolled thirty-two members and have rented the hall over Condit's drug store which will hereafter be called Armory Hall. Drills will take place every Thursday night.

Overseer of the Poor Fred C. Decker yesterday morning had the children of Harry Edwards, who was arrested and sent to the county jail for non-support Friday, taken to the Children's Country Home where they will be cared for for the present.

SOUTH PLAINFIELD.

(Special Correspondence to The Press.)

South Plainfield, February 7th—During the cold weather of last week the water company was compelled to run their pumps at the pumping station night and day, as a great many faucets and plugs on the line had to be left open to prevent freezing.

Some of the men at the coaling station talk of quitting work unless their wages are raised. They claim that the hours are too long for the money paid.

The breaking up of the ice on the pond compelled the icemen to postpone cutting. They intended to resume Monday morning.

Ralph Eckert will continue to deliver The Daily Press free a few days longer.

Quite a number from here intend going to Plainfield to hear Mr. Bryan today.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

The "Star," the superintendent's inspection engine on the Jersey Central Railroad, no longer makes flying trips through this city and along the lines of the Central. The "Star" has been permanently retired from service after a career of fully a quarter of a century. The "Star," it may be remembered, came to grief last fall It was going west, and at Dunellen jumped a switch and crashed into a freight and coal train there. Several coal gondolas were damaged, while the little locomotive suffered severely The "Star" was built over twenty-five years ago, and was then considered a model inspection engine. It was used by the superintendent and other officials of the railroad, and answered the purposes of a private car for short trips. It was used constantly, and the sound of the high pitched bell was recognized all along the line. It answered the purpose for which it was intended, but the new ideas of late years showed great improvements over the old plans. When the "Star" came to grief the advisibility of having it repaired was duly considered. It was found that the expense of putting it in first-class condition would be great, and that amount would go far toward a new inspection engine of modern construction. So the officials decided to relegate the "Star" to some out of-the way corner of the shop to ultimately be dismembered and pass out of existance. There are several private cars owned by the Jersey Central for the use of the president and the directors. The trips of the superintendent and other officials of the company are now made in a regular coach with a special engine until it is decided to purchase a new inspection engine.

* * * * * * *

The display of hundreds of ludicrous pictures in the stationery stores tells of the approach of St. Valentine's Day when the youth of the land presume upon good nature and play practical jokes upon inoffensive people. The comic valentine offers to the fun loving man the opportunity to either have fun at the expense of the other fellow or to vent his hatred or dislike upon one whom he wishes to annoy by mailing him such a missive as best suits the case. The annual custom of sending these caricatures is about as senseless as it may appear harmful. The man of judgment usually receives them good-naturedly and rarely feels offended, though many times the valentine may appear to suggest some fact that is altogether personal. There's another class, however, that the receipt of a comic valentine acts upon not unlike a red flag before a bull. They fly into a passion and go about with blood in their eye, vowing vengeance upon the sender if he can be discovered. These people but make of themselves the butt of ridicule and have their trouble for their pains. But the comic valentine by no means is the one most in demand. Those of a sentimental discription are very popular and have a large sale. Brothers, sisters, sweethearts and wives send and receive them and year after year there's to be found hundreds of them passing through the mails. However, the sentiment is one in which old as well as young engage and the pleasure derived from it more than offsets the theory that the custom savors of human weakness.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Miss Darby, of Alton, has been visiting Plainfield friends for a time.

George Lindabury, of West Fourth street, has been visiting his mother at High Bridge.

Miss Ella Hedden, of West Fourth street, is visiting out of town friends for a few days.

Miss Margaret Schuck, of Vine street, has returned from a visit with Brooklyn friends.

John H. French, of Brooklyn, who has been visiting Plainfield friends, has returned home.

Alford D. Cook, of Rahway, was a guest in Plainfield yesterday and called on many of his friends.

William M. Smith, of Elmwood place, who has been visiting relatives at Orange, has returned home.

Rev. E E Jackson, of the Mt. Olive Baptist church, has recovered from a severe attack of facial neuralgia.

The engagement of Miss Mamie Bancroft, of this city, and Paul Reuter, of Philadelphia, is announced.

The little daughter of Mr. and Mrs H C. McVoy, of Sandford avenue, who has been seriously ill, is much improved.

William Kriney, of Clinton avenue, left yesterday for Barrington, Ill., where he will attend the wedding of a relative.

Alfred Bonnell, of Manning avenue, who has been slightly indisposed, is improved and he hopes to be out in a short time.

James Leonard, of Perth Amboy, who was called to this city on account of the death of his uncle, F. E. Marsh, has returned home.

The Montauk Euchre Club will be entertained on Monday evening, February 19th, by Miss May MacLoughlin, of Somerset street.

Alburtis Swaim, of West Front street, who has been confined to his home by illness, was able to go out yesterday for the first.

Mrs. Seeley Edsall, of Sandford avenue, who has been quite ill with a severe and tedious attack of rheumatism, is reported to be slightly improved.

Walter Dreier, of West Front street, who has been confined to his home for several weeks by illness, continues to improve and he hopes to be out in a short time.

Isaac Squires, of the borough, who has just returned from England, where he has been for over a year, has not yet decided just what he will do He has received several offers from press and machine works, and he will consider them within the next few weeks.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

Hypnotism is defined by Webster's Dictionary as "a form of deep or somnambulism brought on by artificial means, in which there is an unusual suspension of some powers, and an unusual activity of others." This peculiar condition is employed in the new melo drama, "A Man of Mystery," which is to be presented at Music Hall Friday night. A burglar is trying to open a safe at midnight. The owner comes in and catches the thief, who straightway places the owner in this hypnotic state of somnambulism and compels him to open the safe for the convenience of the burglar. The situation is an extraordinary one, and the dramatic power of the incident can be conceived at once. The play is full of novel and powerful dramatic incidents, and of thrilling interest. There is a great deal of comedy, too, and the whole entertainment is one that stands out in the memory for many months afterward. Messrs. Brown & McDowell have a very strong company to interpret the melo-drama.

* * * * *

Lincoln J. Carter's new play, entitled "Chattanooga," which has been produced with such success in the larger cities, and which has been praised by the press for its splendid action and scenic effects, will be the attraction at Music Hall Wednesday night of next week. The play appeals to young people, not only for the delightful story which it tells, but for the great scenic effects and the historic interest around Chattanooga and Lookout Mountain which it faithfully portrays.

Wilmington, Del.
Morristown, N. J.
Perth Amboy, N. J.

THURSDAY, FEB. 8th, is the last day we will distribute tickets for crayon portraits and all tickets must be presented for redemption before Feb. 17th; otherwise they are void. Take advantage of our liberal offer and have your crayon portrait made free of charge.

Our first showing of spring embroideries is attracting general attention. We feel confident that the extent and variety of the showing is sure to meet with approval. Swiss, nainsook and cambric embroideries and insertions of every width and quality, in the most dainty new patterns. All-over embroideries in a great variety of the most elaborate designs and patterns. All-over laces that are entirely new and stylish.

Fine French Val. laces in the most exquisite and delicate patterns.

Torchons in great variety; in fact, a most complete and extensive assortment.

Last Call on Ladies' JACKETS. . .

We have divided our stock of ladies' and misses' jackets into two lots and priced them for quick selling,

$2.50 and $5.00.

Lot 1 at $2 50 comprises all our ladies' and misses' jackets that sold up to $8.00, beginning at $3.98,

Your choice now for $2.50.

Lot 2 at $5.00 comprises all the ladies' and misses' jackets remaining that sold from $9.00 to $15.00,

Your choice now for $5.00.

It is ten weeks to Easter, and if you never put it on again after that it will cost you but 25c or 50c a week to be dressed in the latest style with one of these up-to-date garments.

VanArsdale's
Semi-Annual Cash Shoe CLEARANCE SALE. . .
This is about all we need say to the large majority of the Plainfield people. They know the rest; they know that when VanArsdale, the shoeman, says he is cleaning house it means genuine bargains in reliable Foot Wear. We buy no stock for the occasion—got no use for it. We propose to clear out all our winter goods, broken lots, etc., to make room for spring stock.
The earlier you come, the better run of size.
VANARSDALE, 127 East Front Street.

Lokal-Nachrichten aus der alten Heimath.

Oldenburg.

Eutin. Die alte „Voßlinde" im Garten des Voßhauses (in dem der bekannte Homerübersetzer geboren wurde), ein allen Reisenden wohlbekannter Baum, hat dem letzten strengen Froste nicht widerstehen können. Die Linde ist geborsten und wird wahrscheinlich eingehen.

Mecklenburg.

Groß-Siemz. Im Alter von 77 Jahren ist nach längerer schwerer Krankheit der Hauswirth Asmus Bohnhoff verschieden. Der Entschlafene hat in der Verfassungsgeschichte des Fürstenthums Ratzeburg eine große Rolle gespielt, indem er die Führerschaft der bäuerlichen Landesvertreter übernommen hatte. Er selbst hatte sein Mandat als Landtagsabgeordneter für das Fürstenthum Ratzeburg seit 1869 inne, als dem Fürstenthum die Verfassung gegeben wurde.

Braunschweig. Waldeck.

Braunschweig. Im Alter von über 90 Jahren starb hier der älteste praktizirende Arzt Deutschlands Hofrath Dr. Faesebeck. Bis vor einigen Tagen versah der alte Herr, eine in Braunschweig allbekannte und beliebte Persönlichkeit, noch seine Praxis.

Pyrmont. Die Hannover'sche Versicherungsanstalt errichtet hier ein Genesungshaus für weibliche Versicherte.

Großherzogthum Hessen.

Darmstadt. Der Kaufmann Heinrich Treupel von Bensheim wurde von der Strafkammer wegen Weinpantscherei zu 1000 Mark Geldstrafe eventuell 200 Tagen Gefängniß verurtheilt. Er stellte sogen. Rosinenwein aus einem Drittel Rosinenmost und zwei Drittel Zuckerwasser her und brachte ihn in Verkehr, ohne zu sagen, daß es Kunstwein sei.

Alzey. Die hiesige Stadtverordnetenversammlung hatte im Juli v. J. den Schutzmann Schoose wegen Disziplinwidrigkeit gegen einen Stadtverordneten und einen Polizeiwachtmeister ohne Pension entlassen. Der Provinzialausschuß hob diesen Beschluß als zu hart auf und bestätigte das Urtheil des Kreisausschusses Alzey, das den Schutzmann zu einer Geldstrafe von 100 Mark verurtheilte.

Bermersheim. Der Briefträger Dauscher von Albig, der in einer Wirthschaft dahier dem 80 Jahre alten Handelsmann Bär einen so heftigen Stoß auf die Brust versetzte, daß der alte Mann drei Tage später starb, wurde verhaftet.

Mainz. Die bekannte Billardfabrik J. B. Dorfelder feierte am Jahresschluß die Fertigstellung ihres 4000. Billards. Die Angestellten erhielten Geldgeschenke. —Prälat Dr. Ludwig Hundhausen ist hier gestorben.

Bayern.

München. Nach einer neuerdings veröffentlichten Statistik waren vom 1. Oktober 1875 bis 30. September 1899 bei der bayerischen Landes-Brandversicherungsanstalt 39,794 Brandfälle zu regeln, die 103,374 Gebäude beschädigten und eine Entschädigung von 100,632,517 Mark erheischten.—Dem bekannten Dichter Hermann Lingg wurden zu seinem 80. Geburtstage vielfache Ovationen zu Theil.—Der erste Direktor der Bayerischen Hypotheken- und Wechselbank, Dr. Friedrich Klee, ist hier gestorben.—Für die Fahrräderindustrie sind die Aussichten recht trübe. Die Fabrik „Freya" dahier verlor im vorigen Jahre $75,000.

Augsburg. Hier wurde die Rentnerin Herpfer in ihrer Wohnung ermordet und beraubt. Der Thäter, der bei seiner Ermittelung Selbstmord versuchte und sich lebensgefährlich verletzte, ist verhaftet.

Hammelburg. Auch in einigen Gemeinden unseres Amtsbezirks sind die Bestätigungen der neuen Gemeindebehörden ausgeblieben. Es werden wegen vorgekommener Wahlumtriebe Erhebungen in den vier Gemeinden Unterthal, Wartmannsroth, Wasserlosen und Wittershausen gepflogen.

Moosinning. Vor einigen Monaten brannten in kurzen Zwischenräumen in der Gegend von Moosinning zwei Anwesen nieder, und gleich damals wurde der Verdacht laut, daß das Feuer gelegt worden sei. Der Verdacht richtete sich gegen den verheiratheten Korbinian Rasthofer von Moosinning und nahm allmälig so greifbare Formen an, daß Rasthofer vor Kurzem verhaftet und in Untersuchungshaft gezogen wurde.

Neuötting. Der Dekan und Stadtpfarrer Heinrich Dachs hat in Folge hohen Alters seine Funktion als Dekan des Kapitels Neuötting niedergelegt. An seine Stelle ist der Stadtpfarrer Josef Frischhut von Altötting zum Dekan des Kapitels einstimmig gewählt worden.

Nürnberg. Seitens des Stadtmagistrats wird mit allem Eifer darauf gesehen, daß den gesetzlichen Bestimmungen über die Beschäftigung jugendlicher und weiblicher Arbeiter nachgekommen wird. So fanden deshalb im vorigen Jahre nicht weniger als 2107 Kontrollen in Fabriken statt. Hierbei ergaben sich 289 Beanstandungen, die jedoch behoben wurden, ohne daß ein weiteres Einschreiten nöthig war.

The wife of a minister of the Gospel in an Iowa town suffered for years from constipation, dyspepsia and headache. Her ailments were identical with those of so many other women. Her husband spent many dollars for medicines, but his wife's troubles continued right along until he bought her some Ripans Tabules at the drug store. Now, the minister declares, she is cured of all her aches and pains, and he recently sent 96 cents by money order to the Ripans Chemical Co., New York, for a supply of the Tabules to give to a member of his congregation.

WANTED.—A case of bad health that R·I·P·A·N·S will not benefit. They banish pain and prolong life. One gives relief. Note the word R·I·P·A·N·S on the package and accept no substitute. R·I·P·A·N·S, 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

In The PUBLIC eye ABROAD

ENGLAND'S PRECEDENT.

Would Her Actions at Delagoa Bay Prove a Boomerang?

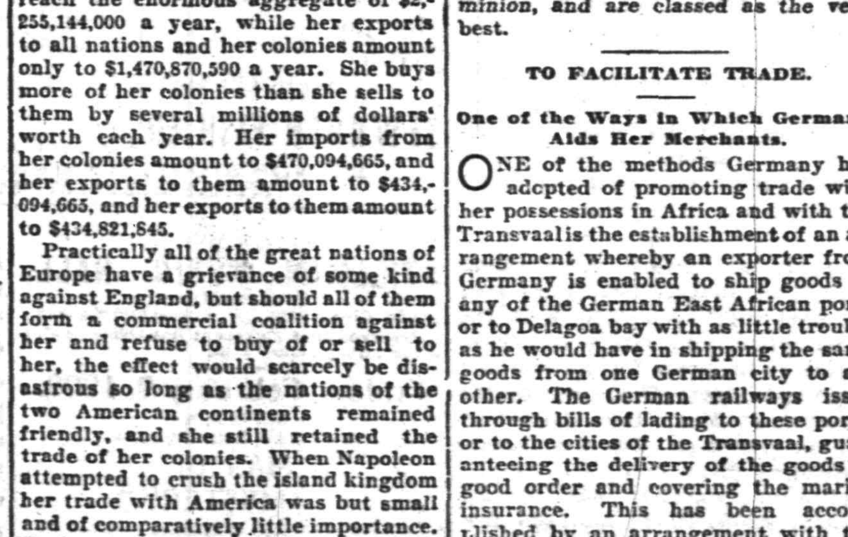
JUST what the responsibilities that England has assumed in enforcing the right of search of vessels at Delagoa bay, whether she has placed herself at the mercy of the nations of the world should she ever be engaged in war at home, whether her actions could be taken as a precedent that would put a stop to the importation of foodstuffs into the "tight little isles" in time of war with a power strong enough to enforce a strict blockade upon her ports, is a question that has been strongly debated by the statesmen in more than one country.

International law is merely a matter of custom established by precedent.

BRITISH WARSHIP STOPPING A GERMAN SAILING VESSEL IN DELAGOA BAY.

Wars have been waged in which trade of all kinds have been forbidden with the warring nations, but during more recent years it has become the custom of the more civilized nations of the world to permit the importation of foodstuffs, at least to a certain degree. One of the most cold-blooded propositions recorded in history was that of Napoleon Bonaparte when he attempted to form a coalition against England by preventing trade of all kinds between that country and other nations of the world. While he at that time controlled the governments of several European nations, yet he was not strong enough to carry his scheme for the commercial ostracisation of England to success. Had he have been able to do so he would have starved that country into submission to almost any proposition he would have cared to make within a short time.

England is a consuming and not a producing nation. Even taking her great colonies into consideration, she produces hardly one-half the foodstuffs necessary for the consumption of herself and colonies. The placing of a successful embargo on the importation of foodstuffs into England would reduce the people of the islands into a state of starvation within a very short time. While she is the great trading nation of the world, it is manufactured articles that she sells and foodstuffs and raw materials that she buys, and her imports are nearly twice as great as her exports, including imports and exports and imports to and from her



CANADIANS IN SOUTH AFRICA CHANGING GUARD IN THE FIELD.

colonies. The total value of her imports from all nations and her colonies reach the enormous aggregate of $2,255,144,000 a year, while her exports to all nations and her colonies amount only to $1,470,870,590 a year. She buys more of her colonies than she sells to them by several millions of dollars' worth each year. Her imports from her colonies amount to $470,094,665, and her exports to them amount to $434,094,665, and her exports to them amount to $434,821,845.

Practically all of the great nations of Europe have a grievance of some kind against England, but should all of them form a commercial coalition against her and refuse to buy of or sell to her, the effect would scarcely be disastrous so long as the nations of the two American continents remained friendly, and she still retained the trade of her colonies. When Napoleon attempted to crush the island kingdom her trade with America was but small and of comparatively little importance. To-day her imports from the United States alone are greater than those from any three nations of Europe, or of all her colonies combined. We sell to England every year some $600,000,000 worth of products, mostly foodstuffs, while her trade with the other nations of the two American continents, exclusive of Canada, amounts to another hundred million. Of imports, we buy of England less than $200,00,000, and her sales to the other nations of the two colonies amount to less than another hundred million.

The bulk of our sales to England are of foodstuffs. Out of a total of $116,000,000 worth of wheat which England buys, we sell her $66,000,000 worth; of a total of $29,000,000 worth of fresh and salted beef, we sell her $24,000,000 worth; of a total of $63,000,000 worth of domestic animals, including beef cattle, sheep and horses, we sell her $42,000,000 worth. So it runs throughout the long list of the necessities of life, while our purchases from England are of the luxuries of life.

Of the raw materials for her factories which she has to buy, we could supply the most of them. Of the $161,000,000 worth of raw cotton she is buying, we sell her $122,000,000 worth, and her colonies supply most of the remainder.

From the nations of Europe England buys her luxuries, and to them she sells many of their luxuries. Her commercial isolation from them would seriously affect her factories and her income, but so long as her trade with America was not molested, and she had the price to buy, she could not be starved into submission.

ENGLISH COLONIES.

They Have Answered "Here" at Her Call for Assistance.

ENGLAND has called upon her colonies for assistance in her time of need, and the call has not been in vain. As the queen has called the long roll every British colony has answered, "here" for her soldiers. Now in South Africa, or on their way to the front, are English soldiers from Canada, from Australia, from India and from practically every British possession the world over. Some have not been permitted to furnish individual commands, but where they have not men have enlisted with regular home regiments or have joined other colonial forces.

Of all her colonies none have answered to the roll call more promptly than Australia and Canada.

The second contingent from Canada which is now on its way to the battle grounds of Africa is composed of cavalry and artillery. A part of the cavalry contingent were recruited from the ranks of the northwest mounted police and from the cowboys of the Canadian plains. It is likely that they will prove to England what Col. Roosevelt's regiment were to this country during the Spanish war. The artillerymen came from the ranks of the regular and militia batteries of the Dominion, and are classed as the very best.

TO FACILITATE TRADE.

One of the Ways in Which Germany Aids Her Merchants.

ONE of the methods Germany has adopted of promoting trade with her possessions in Africa and with the Transvaal is the establishment of an arrangement whereby an exporter from Germany is enabled to ship goods to any of the German East African ports or to Delagoa bay with as little trouble as he would have in shipping the same goods from one German city to another. The German railways issue through bills of lading to these ports, or to the cities of the Transvaal, guaranteeing the delivery of the goods in good order and covering the marine insurance. This has been accomplished by an arrangement with the German East African Steamship company with the Netherlands South African Railway company operating the line from Delagoa bay to Pretoria and Johannesburg.

This system does away with all middle men and the expenses of forwarding agents at German ports and at Delagoa bay, and gives the German merchant a better opportunity to compete with other producers of the world seeking the same markets. It was the boats of this line that England detained at Durban on the supposition that they carried contraband of war.

MAY OWEN

MISSION OF Mrs. LANGTRY

The "Degenerates" Presented as a Horrible Example for Society—Other Stage Notes.

WHEN England is at a point where it is possible to continue her civilizing work among the Boers, we wonder if she will send out Mrs. Langtry and Olga Nethersole to enlighten the slow, sluggish Dutchmen in the matter of modern taste and morals. Whta would those agricultural, domestic folk think of "The Degenerates" and "Sappho," and the ladies who so bravely interpret them for us? Miss Nethersole, we have heard, is said to retire to her apartments at the end of the play and weep that she should be compelled to portray a caracter so repellant to her simple, pure tastes; that her art, to which she is a slave, is the overmastering force that drives her. If this be true, what wonderful self-control the lady displays, what Indian—nay, Spartan-like—fortitude she exhibits. If this be true, Lady Godiva stands no show at all with the modest, heroic Olga.

How about Mrs. Langtry? Does she offer for her doubtful play, "The Degenerates," the excuse attributed to Miss Nethersole? Not so. Her motive is to show to the world the nobility of character (displayed in a most peculiar manner, we must confess) a fickle lady of fashion may exhibit if occasion call. "The Degenerates" is said to be a history of the life of the Jersey Lily herself, and this story has been skilfully made use of in advertising the play.

MADGE LESSING

From one point of view Mrs. Langtry's idea isn't half bad; from another, the play is wholly bad. It is such an old, old story, the attitude of society towards the man with no morals and the woman with lax morals, but really society so far has not been much influenced by the teaching to which it might have attended. Stones are still flung at the woman, and there are still so many she can't possibly dodge the greater part of them. The man may go along and be hit by only a few. This is the point Mrs. Langtry tries to impress; in these days let the lady walk the thoroughfares of society unmolested; let not the passer-by be tempted to disturb the cobblestones. Another point, which naturally comes first, is that not the bruises made by the stones of the Pharisee, but the love for a child (or any pure love, I suppose) may awaken the latent good that dwells even in a frail lady of fashion.

The play leaves a bad taste in one's mouth, and causes one to wonder if American upper classes be so degenerate as the ones across the water, that English writers and English actresses make known to us. Perhaps, to quote the peculiar phrase of a peculiar poetizer, "War is kind." Is it not better for the world at large that men go off and undergo the privations of camp life and are subjected to the bullets of battle, than that they have around the hearth where sits another man's wife? Is it not better for the world at large that women busy themselves with lint and bandages, hospital ships and receptions to nurses, even with recitings of "The Absent-Minded Beggar?"

Mrs. Langtry presented her new play the first time in America last week at the Garden theater, in New York. It is hard to realize Mrs. Langtry has a daughter who is on the threshold of womanhood, for the lady seems as beautiful, as overflowing with health and spirit, as young as ever. In her appearance before the public this season, Mrs. Langtry desires to be known in a new role, that of teacher, or instructor. We have looked upon her as a professional beauty, as a royal favorite, as a patron of the turf, as a leader of fashion, as a leader of a certain set in society, as an authority on dress, as an automobilist, and some folk have thought they went to the theater to see her act. We have used the lady to point a moral with, but somehow or other we had not expected the lady to point a moral herself. Yet that is what her purpose is this season, and no doubt many will go to hear this new sensation in the way of preacher. You know in these days we like our sermons peppered, and "The Degenerates" gives us plenty of pepper.

Mrs. Langtry, as teacher, uses Mrs. Trevelyan as an object lesson. Mrs. Trevelyan resides in London. Mrs. Trevelyan is divorced from her husband, who was so old-fashioned as to dislike her faithlessness. She is not exclusive in the bestowal of her affections, throws her smiles right and left. Lady Saumerez does not like her husband to turn away his eyes from his wife, but when he persists in looking in Mrs. Trevelyan's direction, the wife, hurt and sore, takes up with a reprobate by the name of Lorano. Mrs. Trevelyan's daughter Una returns from school, and the mother discovers she is capable of a love different from the feelings in which hitherto she has indulged. She turns her attention from the arousing of envy in the breast of Lady Saumerez to the saving of her ladyship. Mrs. Trevelyan sends Lady Saumerez, as she was about to elope with Lorano, down the back stairs of his lodgings, and is herself discovered in the apartments by Saumerez. But this heroic deed is rewarded. A nobleman by the name of Orma sees and appreciates the act, sues and weds the lady capable of such benevolence.

It is a pleasure to turn from "The Degenerates" and "Sappho," from Mrs. Langtry and Miss Nethersole, to "The Little Minister" and Maude Adams, whose continuing popularity shows healthful and wholesome tastes still exist. In the play occurs nothing less innocent than a kiss, no dark suggestiveness.

Maybe it is wholly the charm of the actress, maybe it is the touch of nature running through the play, the simple story of what makes up a day; but be it what it may, Maude Adams' popularity canont be said to be behind that of the women who by indecent plays make bids for notoriety. And Miss Adams doesn't even use the device of rich, startling or modish costumes to attract her following; in the simple gypsy dress, which is not even stagily picturesque, she goes through all the scenes save one or two. When she does appear in satin and feathers, she still is greater than her clothes. We think Maude Adams as Babbie in "The Little Minister" has no rival in the way of artlessness, simplicity, grace, originality, perfect naturalness.

Why English pantomime should have been tried in New York no sane person can imagine. If one has been born and brought up in England, one can understand turning to the left, pantomimes and other such idiosyncracies, but on this side they go against the grain. When "Little Red Riding-Hood" was produced in New York neither babies nor adults cried for it, though they might well have cried at it. However, it was innocent. "Little Boy Blue," "Mary, Mary, quite contrary," the wolf and other contemporaneous characters appeared on the stage and did more or less well to bring to our minds days of childhood and nursery rhymes. Madge Lessing headed the cast as "Little Boy Blue," and certainly looked very pretty.

THE ASTROLOGER.

SUBMARINE ARC LIGHT.

The Invention of Two Yale Undergraduates, Francis G. Hall, Jr., and T. E. Burdick.

Francis G. Hall, Jr., and T. E. Burdick, two Yale boys, have invented the first successful submerged or submarine arc light.

Hall and Burdick became interested in the idea of a submarine light at the time the battleship Maine was blown up in Havana harbor. Before the war was over they had invented a light that worked successfully at great depths below the surface of the water. Since then they have perfected their invention. The United States

SUBMARINE ARC LIGHT.
(Recently Invented by Two Undergraduates of Yale.)

government has tested the lamp and found it highly successful. Great Britain, Germany and Russia have within the last month placed large orders for the lights.

Their invention is the most important ever achieved by undergraduates, and it promises to bring them into a big business almost before they are out of college. Both are bright young men. They both come from Dansville, N. Y., where as children they played marbles together and made mechanical toys.

Soon after the explosion of the Maine Messrs. Burdick and Hall, working together, conceived the idea of submerging an arc light to expose and examine the wreck. It will be readily seen that as an aid to divers such a contrivance is invaluable. Heretofore only incandescent lamps of small candle power have been used. The arc lamps, however, may be of any desired candle power. Those tested at the New York navy yard were of about 2,000 candle-power.

Messrs. Burdick and Hall began their experiments early in March, 1897, but were interrupted by the war, in which they served as electricians, assisting in the laying of the mines of New Haven harbor.

The first requisite for a lamp of this kind was a watertight enclosing case, containing the carbons and an automatic feeding apparatus, the whole to be sufficiently strong to resist the water pressure at depths varying from ten to two hundred feet. Another difficulty encountered was the internal gas pressure caused by the combustion of the arc. This is relieved by a special check valve.

Heretofore experimenters have operated on the belief that air is essential to successful submarine arc light combustion and have supplied air to the arc by rubber tubes, but Messrs. Burdick and Hall have rendered this unnecessary.

LORD STRATHCONA.

Canadian Nobleman Who Proposes to Send a British Columbian Corps to South Africa.

Lord Strathcona, who proposes to equip at his own expense a corps of 400 mounted volunteers, composed of British Columbians, for service in South Africa, is notably wealthy and patriotic among the subjects of the queen in the dominion. He is chancellor of McGill university, Montreal,

LORD STRATHCONA.
(Canadian High Commissioner to the British Government.)

resident governor of the Hudson Bay company, president of the Bank of Montreal, and a director in the St. Paul, Minneapolis & Manitoba and Great Northern railway lines. His lordship, when he was Sir Donald Smith, participated largely in the growth of the northwestern section of the United States, and freely invested his capital in American securities. When Lord Strathcona landed on this side of the Atlantic he was the poor but adventurous son of a Scotch gentleman, and he plunged into the life of a pioneer with pleasure. He grew up with the country, and by wise thrift soon amassed a great fortune. His home at Montreal is one of the show places of that city. As a peer of her majesty's realm he has a residence in England which is none other than the ancestral domain of the Lyttons in Hertfordshire.

Exports of Walking Sticks.

The Congo region exports about 3,000,000 walking sticks a year.

"Sons of Fathers" in the British Army

Young Noblemen in the Forces in Africa and How They Secure Their Appointments—Democracy of the Service.

ENGLISH nobility are fighting side by side with the common people of the empire in South Africa. They are bearing their part of the hardships of campaigning, and while America laughs at the duke of Marlborough and his elaborate war equipage other noblemen of England are sleeping on their arms, without cover, on the South African battlefields.

To the people of this democratic nation of ours titles usually stand for depravity rather than for manhood; to us they are a useless superfluity, entirely meaningless, but to the common English soldier, fighting for his country, whether it be right or wrong, the presence of a son of the nobility fighting beside him or leading him in

a charge is an inspiration which lends strength to his muscles and drives fear from his heart.

To us one man is as good as another, but the successful man, whether his success has been won in business or the professions, who volunteers to fight for his country in a time of need is an inspiration to other men to do likewise. So it is in England with the nobility, and experience has proven that the majority of the common people, upon whom the government must rely for its main defense, will follow the lead of a titled nobleman much quicker than they will one of common birth until his capabilities have been proven.

But with all of England's titles the principles of democracy are carried out in both the civil government and the military establishment. In the colonial office the man whom the world blames for causing the present war, Joseph Chamberlain, is a commoner born and bred; a man without the advantages afforded by a college education, with an American woman, the daughter of Hon. W. C. Endicott, secretary of war in President Cleveland's first cabinet, for a wife, while his under secretary is Sir Edward Wingfield, and among the colonial governors who come under the orders and direction of the colonial office are any number of earls, viscounts and lords.

The democracy in the army is carried to the same extent. It is the man of ability that secures the position of trust, whether he be of the titled nobility or of common birth. In fact many officers in both the army and navy have found the military and naval service but the stepping stones to a title, which came as a reward for work

well done, and in England these are rewards that are appreciated. Gen. Buller won his titles in this way in 1882, 1885 and 1894. Gen. Kitchener is another of the English generals now serving in South Africa who won both fame and title on the battlefield, being created baron of Khartoum in 1898 for his successful campaign in Egypt. Still another is Gen. Roberts, created first baron of Kandahar and Waterford as a reward for gallant military service in India.

And so one might follow the distinguished generals throughout much of the long list. Disastrous as the English campaign has so far been in South Africa, there are men serving there to whom titles will no doubt come as reward for services rendered.

Up to 1871 the nobility found it an easier matter to secure a start in the army, and even to secure promotion, than did the man with neither title nor money, for up to that time commissions and promotions in the army were purchasable and each grade and each branch of the army had its fixed price. A junior commission in the infantry, for instance, cost at that time £450, and every promotion had its fixed value. At that time it was an easier matter for the sons of the nobility to secure these commissions, because the nobility usually possessed the money necessary to buy them. But with the reforms in the English army put into effect in 1871 this practice was abolished, and to-day the officers of the English army secure their commissions much as they do in this country, either by a course of schooling at the military academy, by appointment from specified college graduates after a satisfactory examination has been passed or by promotion from the ranks. To every man in England's army who can meet the government requirements, whether he be a nobleman or a commoner by birth, there is the possibility of both fame and title for tasks well done. There is one feature of the system of appointment to commissions in the English army which we do not have, and that is promotion from the officers of militia. An officer of the militia or volunteers who is not over 24 years of age, and who has the required militia service for two years, may, after passing necessary examinations, secure a commission in the regular service. The officers appointed in this way average close to 100 a year.

When England called for volunteers with which to prosecute the war in South Africa there was the same rush of applicants that characterized the call for volunteers by this country at the breaking out of the war with Spain. In the militia of England are many sons of noblemen, and even of royalty, and these were among the first to place their names on the long lists of applicants. But they were forced to take their chances with other applicants. While a title may carry with it a certain amount of influence, yet political "pull," as we know it, is not so effective in England as it is in this country, and from the majority of the young noblemen, whether they went as officers or in the ranks, whom England has sent to the front she has every reason to expect efficient service. The majority of them are not battle-tried veterans, but they have secured their military training as our volunteer officers did in the militia service.

As in our service, there were many exceptions to this rule, for many of the officers of all classes had no previous military training. Among this class is the young duke of Marlborough, at whom practically all America is laughing. Yet the good service rendered England by the duke's ancestors on her fields of battle for two centuries entitled him to the opportunity, just as many of our officers secured their appointments "because they were sons of their fathers," and the young duke may yet astonish the world with his valor. There is one difference between the appointment of the duke of Marlborough and some of our own volunteer officers; he had to start practically at the bottom and accept a lieutenancy in the yeomanry cavalry, while many of our "sons of fathers" were given higher rank.

The queen has many relatives serving in South Africa, and among them is Prince Christian Victor, son of Princess Helena. He is in the regular English service, and secured his appointment by graduating at the military academy at Sandhurst. He is a veteran of several campaigns, and has won by gallant service the promotions that have come to him. Another is a nephew, Count Gleichen, who is also a graduate of the military academy and has served through several campaigns with honor. Three others are the Princes Alexander, Adolphus and Francis of Teck, brothers of the duchess of York. All three of these scions of royalty have a military training and are capable of rendering efficient service.

Of the English ministry that is prosecuting the war practically every family with sons to send is represented at the front, and all of this assists England in her efforts at recruiting for South African service.

NERO AND HIS TOMB.

Wicked Emperor Does Not Rest in the Monument Here Pictured.

Although Reputed to Be the Burial Place of the Incendiary Tyrant, It Is in Reality the Grave of Publius Vibius Marianus.

Four miles from "Porta del Popolo," on the celebrated "Via Cassia" leading into Rome, is a singular monument, the so-called tomb of Nero. It is the tomb of Publius Vibius Marianus, as seen by the inscription; and truly to those seeing it for the first time it stands out as an imposing monument, with its classic outlines, high upon its basement, along the historical ancient road.

The colossal proportions of the sarcophagus, its funereal shape, the solitude of the place, give a mysterious fantastic appearance to this grand old relic; so that the popular imagination attributed it to Nero, who has remained in tradition as the type of wickedness. Instead of which, however, the first persecutor of the Christians, the incendiary of Rome—and it may have been for a good purpose — was buried at the foot of the Collis hortulorum, that hill which remained for a long time desolate and awe inspiring, and which is now the Pincio; the delightful garden and public promenade of Rome.

Perhaps in times of neglect, when the earth sloped down from the top of the hill, the tomb remained hidden below, and perhaps it is still there, near the Porta Flaminia on the eastern side of the "Piazza del Popolo."

And there was shown a tower, where according to the popular belief, on dark nights appeared the ghost of Nero; and the tower was called the tower of Nero. In an ancient topographical map of the city of Rome it is marked in that spot with the inscription below: "Tower where the spirit of Nero dwelt for a long time."

This tower, however, is not to be mistaken for the other old "Tower of Nero" still in existence, which is other

FALSE TOMB OF NERO.
(In Reality It Is the Grave of Publius Vibius Marianus.)

wise called the tower of the Militiae This is an imposing medieval tower slightly bending on one side, which is still to be seen at the bottom of the "Via del Quirinale," where the "Via Naxionale" and "Via Panisperna" join not far from the remains of the walls of Servius Tulius, which appear in the little central garden, and from the Porta Fontinalis, which can still be seen in its integrity at the entrance of the staircase of Palazzo Antonelli close by.

From the tower it is a popular saying that Nero watched Rome burning, revelling in the sight and declaiming, in the dress of a play actor, he, the great artist, wrote some verses upon the destruction of Troy.

Other places, which, with or without reason, were associated with him retained for a long time his name. The "Prati di Castello," so remarkably changed now, were called in the middle ages Prata Neronis, the meadows of Nero, in the famous medieval guide, entitled "Mirabilia Urbis Romae," is found recorded the Obeliscum Neronis, the Aerarium Neronis, the Pons Neronis, and even the Templum Neronis. There was also a Cisterna Neronis, where it is said he took refuge to protect himself against the Roman rebels, who followed him with the intention of killing him.

And, in fact, at four miles distance from Rome, not far perhaps from this so-called tomb of Nero, he took refuge in the country house of his freedman Phaon, and after many hesitations and indecisions, exclaiming: "Qualis artifex pereo!" he succeeded in wounding himself mortally in the throat, with the assistance of Epaphroditus, his secretary, at the moment in which the centurion, sent to arrest him by the senate, arrived upon the scene.

When Nero was dead, so Suetonius says, his nurse Eclage, with Alexandra and Acte, the famous concubine, having wrapped his remains in rich white cloth, embroidered with gold, deposited him in the Domitian monument, the monument of his family, which was at the end of the Campus Martius, under the hill of gardens, the Collis hortulorum. The sarcophagus was of porphyry, having in front an altar of Carrara marble, the whole surrounded by a balustrade of Grecian marble.

Seven Out of Eight.

Eight married reserve men, who all lived in a certain small street in the west of London, were sent out to the front at the commencement of the campaign. News has just come to hand that seven of the eight have been killed, while the other is dangerously wounded.

Proof Against Plague.

Several of the native papers in Bombay are now urging their readers to resort to inoculation as a precaution against the plague.

REMOVED!!

SPORTING.

STRIKES AND SPARES.

The Daily Press Bowling League.

	Games Won.	Games Lost.	High Score
Roselle Casino	7	2	911
Westfield Club	8	4	866
Park Club	5	7	864
Cranford Casino	4	11	863

The last game to be rolled in Plainfield in the The Daily Press Bowling League takes place tomorrow evening on the alleys of the Park Club. The opposing team will be from the Roselle Casino. The Parks took three straight from Cranford on the local alleys and two out of three from Westfield. Comparisons with those scores tomorrow evening will be interesting.

To encourage the young bowlers of the Park Club two teams are shortly to be organized from among the boys of the club to roll a series of matches against each other. In selecting the teams, all the boys of the club have been invited to roll several trial games so that the selection can be made from the scores. These trial games will be complete in a week or so and then the teams will be announced.

There really isn't a great deal depending on the game to be rolled here tomorrow evening, Roselle is practically sure of the championship and The Press trophy this season. As far as the Parks are concerned, their only effort will be to keep out of last place. Most of the interest will devolve on the individual work of the players in reference to their averages. Mulford, of Roselle, is well in the lead there, and only some pretty low scores are apt to dislodge him. The Parks haven't anybody very near the front. The rolling of Mulford and Charles D. Smith, of the Roselle team, will attract much attention owing to the high standing they have made. The visitors have not made any very monstrous scores on the Park Club alleys this season, although the home club has shown some good form there.

BASKET BALL.

Now that the Plainfield and Summit Y. M. C. A.'s have won each one game in the series of basket ball games between the two associations, there is quite some interest in both associations in a third and deciding match. The Plainfield boys say, however, that the third game must be played either here or in some neutral ground as they are not for another trip to Summit. The return from Summit by stage has its drawbacks. It is impossible to say whether or not Summit will be willing to come here for another game. While Summit has a strong team, the local boys should have defeated them without trouble. The trouble was simply lack of practice. The Plainfield five had not played together for several months and the first game played in this city showed a deplorable lack of practice. The Plainfield association has in its ranks excellent material for a fine basket ball team but the boys cannot be expected to play well without practice. The team was disbanded sometime ago and the series with Summit was arranged simply for the old players. It was rather unsatisfactory, however, to have the Plainfielders beaten when, with a little practice, they might have come out victorious.

GOLF

The members of the Park Golf Club have every reason to believe that they will be able to open the season early. The open winter has kept the greens in fine condition, and unless severe storms come between now and March, an early opening can be looked for.

ROD AND GUN.

A large number of local sporting men went to Clinton, Hunterdon county, yesterday and took part in a live-bird shoot at that place.

RATIONS FOR BRITISH ARMY.

New Jersey Concern Working Day and Night to Supply Them.

(Special to The Daily Press.)

Paterson, Feb. 7.—The American Compressed Food Company is furnishing compressed rations for the British Army in South Africa. The factory in Passaic has been run night and day for weeks, and still is unable to fill half the orders received. I. W. England, the president of the company, is arranging to buy an acre of ground near the Manhattan Rubber Works, on which to erect a $50,000 building.

The process is the invention of a United States army officer. It consists in extracting from beef, flour and other food staples the prime essentials and putting them in compact form. A soldier's rations for a whole week, as prepared by the process, will not weigh as much nor is it half the bulk of a day's rations of the kind used in our civil war.

A Remarkable Record.

The New York and Atlantic City special of the Central Railroad of New Jersey is scheduled to make the run between New York and Atlantic City in three hours and fifteen minutes, leaving Liberty street, New York, at 3:30 p. m., South Ferry at 3:25 p. m., and arriving at Atlantic City at 6:15 p. m. North bound the train leaves Atlantic City at 2:10 p. m. and arrives at New York at 6:25 p. m. This train began running Jan. 8th, and on the twenty-one days on which it ran during the month of January, it arrived in Atlantic City on time 19 times. The northbound train was on time every day.

GREAT "HORSE SHOW" IN MR. FISK'S BARN.

(CONTINUED FROM PAGE 1.)

all-round actions and be able to go a good pace—must to be shown in single harness; ladies to drive.

1st, 2d and 3d prizes.

Any horse showing temper or bad manners will be excluded from the ring.

10:30 to 11:30—Exhibition of green hunters over hurdles for special prizes.

11:30—Horses—feed and water.

12:30 to the close of show—A Ragtime Skedaddle and Coontown Capers, under the direction of the Ringmaster.

By 9 o'clock, the guests were beginning to assemble while an orchestra composed of three banjos and a piano, led by the well-known banjoists, Brooks and Denton, started a familar two-step. There was general dancing until 10 o'clock when Ring Master Waring cleared the floor for the judging of the high steppers and green hunters which, being translated, meant that the cotillion began. It was led by Miss Fisk and Mr. Waring, thirty-five couples taking part. Mrs. S. L. Schoonmaker and Miss Richey, of Trenton, presided at the favor table.

The cotillion showed several new figures arranged particularly for the 'Horse Show" and pretty favors were distributed. The "Feed and Water" of the programme proved to be a real old fashioned supper, served out in the stalls of the stable. Then dancing followed until Ring Master Waring declared that the show was over.

Among those present were Former Mayor and Mrs. Charles J. Fisk, Mr. and Mrs. Rowland Cox, Mrs. Pliny Fisk, Mr. and Mrs. W. T. Kaufman, Mr. and Mrs. J. T. Baker, Mr. and Mrs. C. E. Brooks, Mrs. S. L. Schoonmaker, Mr and Mrs. E. M. VanBuren, Mr. and Mrs. Howard W. Beebe, Mr. and Mrs. L. G. Timpson, Mr. and Mrs. William Baker, of New York, Miss Lotta Lowe, the Misses Holly, Miss Gertrude Andrews, Miss Emma Schoonmaker, Miss Mary Whiton, Miss Waring, Miss Nancy Lawson, of Salem, Mass., Miss Bushnell, Miss May Evans, Miss Madeline Ostermoor, Miss Martin, Miss Daisy Shepard, Miss Edith Hyde, Miss Edith Fisk, Miss Fanny C. Cox, Miss Lydia P. Ackerman, Miss Edna Strong, the Misses VanBoskerck, Miss Rosabel Schroeder, Miss Stewart, Miss Katheryn Reinhart, Miss Mary Anderson Reinhart, Miss Willis, Miss Richey, of Trenton, Thomas R. VanBoskerck, George VanBoskerck, Westley Abbott, Frank Schoonmaker, Howard Huntington, A. Z. Huntington, R. M. Shepard, A. D. Shepard, Jr., Mr. Wood, of New York, Clifford A. McGee, Henry L. McGee, H. Reeve Stockton, Henry Lowe, Lewis E. Waring, O. G. Waring, Daniel Runkle, H. L. Finch, R. C. Finch, J. B. Dumont, Jr., Morris Dumont, Frank Reinhart, Owen Fleming, William N. Runyon, Joseph Myers, Dr. B. Van D. Hedges, Joseph Wadsworth, Arthur Beebe, Dr. F. C. Ard, Fred W. Goddard, Dane Pierson, Laurens H. VanBuren, J. Q. Locksman, of New York.

CHANGE OF MINISTERS?

It is Understood That Rev. Dr. Kinsey, of Newark, Will Succeed Rev. W. C. O'Donnell.

It is understood that Rev. Dr Kinzey, at present pastor of the Dashiel M. E church, at Newark, is to succeed Rev. W. C. O'Donnell as pastor of the Monroe Avenue M. E church, of this city. Rev. Mr. O'Donnell has been in charge of the Monroe Avenue church for about four years, and is very popular with his congregation. It is understood that at the next session of conference Rev. Mr. O'Donnell will be transfered to a charge in Flemington, and that Rev. Dr. Kinzey, of Newark, will be sent to the Monroe Avenue church, in this city. This announcement will be a surprise to Mr. O'Donnell's many friends in this city.

During Mr. O'Donnell's pastorate at the Monroe Avenue church he has been the means of increasing the membership and prosperity of that society which is now considered in a flourishing condition.

The Annual Protest Against Licenses.

The Woman's Christian Temperance Union again enters a protest against the granting of liquor licenses by the Common Council and will communicate to the Council at its next meeting to that effect. They call attention to the many cases of crime, misery and destitution which, as a result of these licenses, occurred during the year.

Train's Victim's Remains Taken Home.

The remains of the late Charles Perrine, who was killed on the Jersey Central Monday night, were removed yesterday afternoon to the home of his sister, Mrs. John Giles, of Highland avenue, from which place the funeral services will be held tomorrow afternoon at 1 o'clock.

Big Factory at Aldene.

It is reported in Cranford that the Jackson Architectural Iron Works at No. 215 East Twenty-eighth street, New York city, has bought from the Lehigh Valley Railroad fifteen acres near the junction with the Baltimore and Ohio at Aldene, intending to concentrate its branches on the site.

—For your Friday's breakfast use Rogers' Maine green smelts.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders

—You can afford to eat shad if you buy of the Sewaren Fish Company. 121 West Second street, tomorrow. Read their advertisement in today's Press.

—VanEmburgh & Son are receiving numerous congratulations from their old patrons and friends at large. Their new stock is constantly arriving. They are nicely situated at 135 East Front street, near Park avenue, where they are open for business.

—Blind? Probably not, but why run the risk of seriously injuring your eyes by the use of incorrectly fitted glasses when you can be skillfully fitted by Stiles & Co., of Philadelphia, whose eye specialist is at 107 East Front street every Thursday. Hours 10:30 to 4.

—Druggist Powers, of Somerset street and Craig place, is having a large sale of his honey of coltsfoot and tar cough cure. The mixture is being placed on sale with local grocers. Mr. Powers recommends honey of coltsfoot and tar very highly and says he expects to push that article to the front next year. He also says that his honey of coltsfoot and tar is superior to many of the widely advertised cough cures and equalled by none on the market.

—VanAradale, the shoe man, starts in tomorrow morning with his semi-annual cash shoe clearance sale of winter goods, broken lots, etc. VanAradale's idea every season of conducting a sale of this kind affords him an excellent opportunity of disposing of the bulk of his winter shoes. He buys no goods for the occasion, but simply clears out such lines as he desires best not to carry over, and the people have found out that his clearance sales means not $5 shoes for $1 49 or $3 shoes for 89 cents, but reliable foot wear at prices worth taking advantage of, if you are in need of shoes.

TO SATISFY A JUDGMENT.

Billiard Tables and Fixtures in Vetromil's Place Levied On.

Two billiard tables and the fixtures in the saloon of Guiseppi Vetromil at 308 Liberty street were levied upon yesterday afternoon by W. N. Pangborn, as bailiff, to satisfy a judgment for about $150 obtained by Leonard Vetromil, a brother. The judgment was secured through W. K. McClure. When the officer first went to make the execution Guiseppi theatened him with a knife.

The goods were finally removed by the officer and Willie Sweeny while the owner of the place was absent.

Greiner Convicted.

Adam Greiner, of Rahway, who was indicted for shooting William Nagel, Jr., was convicted yesterday in the Union County Court and will be sentenced Feb. 21st. He was placed under $1 000 bail. The boy was peppered with bird shot and lay in bed two weeks.

Quibbling Over Small Things.

Owners of the site wanted for the Federal Postoffice building in New Brunswick have objected to paying the costs of search of title. To prevent delay Congressman Howell offers to pay expenses. This settles the difficulty.

Mr. and Mrs. Clark Surprised.

Mr and Mrs. George W. Clark, of East Fifth street, were agreeably surprised last evening, when a number of their friends called upon them. After having a pleasant social time refreshments were served.

To Pay Depositors in Full.

BOSTON, Feb. 7.—The depositors of the Broadway National bank, which closed several weeks ago, will receive the full amount of their deposits, with interest, today.

New York Markets.

NEW YORK, Feb. 6.—FLOUR—State and western inactive and weak, but without quotable change: Minnesota patents, $3.85a4.10; winter straights, $3.40a3.50; winter extras, $2.60a2.85; winter patents, $3.55a3.80.

WHEAT—Opened easy and afterward sold off because of bearish cables and favorable reports as to domestic winter wheat conditions after recent snowfall; March, 74⅝a75⅝c.; May, 73 11-16a74⅛c.; July, 73¼a74c.

RYE—Steady; state, 56c., c. i. f., New York, car lots; No. 2 western, 61½c., f. o. b., afloat.

CORN—Opened steady and was later firmly affected by higher cables, bullish Argentine crop news and a good general demand; May, 38 15-16a39 5-16c.

OATS—Dull, but steady; track, white, state, 30½a34c.; track, white, western, 30½a34c.

PORK—Strong; mess, $10a11; family, $13a13.50.

Purchased Five Hundred Men's Suits and Overcoats.

We secured for ready cash the finest lot of clothing that we ever handled in this town before, made by the Union Clothing Co., of Rochester, N. Y. Each and every garment bears the union label which is in itself a guarantee of first-class workmanship and latest style, but owing to the lateness of the season we have purchased this lot of goods for less than we ever dreamt of buying them at, and as we buy so we sell. An opportunity that you will not have again this winter to dress yourself up with a suit and an overcoat for almost the price of a single garment. Here are the prices that will talk for themselves:

Lot No. 1—50 Men's Suits; they are made of very stylish, fancy cheviots, also in blue and black worsted cheviots, good and heavy and up-to-date in style, originally made to sell at $10 00, will be offered at this sale at..... 4 50

Lot No. 2—75 Suits of all-wool worsteds, cassimeres and Scotch cheviots, very stylishly made, suits that sold early in the winter from 12 00 to 13 00 to go at this sale at $5 75. Remember the above lots of goods are new, being just received.

Lot No. 4—73 Men's Overcoats, black or blue meltons and Oxford mixed friezes, this is really an exceptional fine lot of overcoats, if we would have had them earlier in the season we would have retailed them from 10 00 to 12 00, to go at this sale your choice at..... 5.00

This is only a part of the great number of bargains we will offer this Saturday, be on hand sure as this will be a "Crack-a-Jack" sale.

The stock must go in order to have room for our great Spring Stock of clothing, which we expect soon.

M. WEINBERGER, MANAGER.

214 West Front Street, Next Door to Music Hall, Plainfield, N. J.

A FREEHOLDER BILL.

Senator Cross Proposes to Change the Basis of Representation and Allow a Salary of $200 Per Annum.

(Special to The Daily Press.)

Trenton, Feb. 7—With two brief sessions in each House yesterday the fifth week of the Legislature was brought to a close and the solons will not come together until Tuesday morning of next week—Monday being Lincoln's Birthday, which is a legal holiday in New Jersey.

Probably the first bill to reach the hands of Governor Voorhees for his approval will be that providing a pension of $100 a month for Walter English, who suffered the loss of both arms by a premature explosion of a cannon on the day of the Admiral Sampson celebration. The bill passed the House today and will go to the Governor next Tuesday.

Senator Cross introduced a bill which amends acts relating to Boards of Chosen Freeholders in counties having between 75,000 and 200,000 inhabitants, the Board hereafter to consist of one Chosen Freeholder from each ward of each city, one from each township, and one from each borough having more than 1200 inhabitants. Fixes salary of each Chosen Freeholder at $300 per anum. No other compensation shall be allowed or paid to any member for any services whatever. (Boroughs and Townships)

AN ENDEAVOR SOCIAL.

Delightful Evening Spent by the Park Avenue Baptist Society.

There was a delightful time at the Park Avenue Baptist church last evening, when the Christian Endeavor Society gave a sociable to the members of the friends of the society. There was a large attendance and the entertainment furnished was of an interesting character. Piano solos were rendered by Miss May Thompson, Miss Emma Fisk and Miss Elizabeth Joseph, while Mrs. Charles Dayton gave a recitation. During the evening the young folk were entertained by a charades, the characters being assumed by the following: Mrs. W. S. Lowny, the Misses Elizabeth Runyon, Bessie Giles, May Giles, Jennie Giles, Ada Runyon, and Florence Hawkins, and Messrs. Joseph Hawkins, Thomas Cumming and Ernest Whitney. The success of the entertainment was due in a measure to the efforts of Miss Elizabeth Runyon, the chairman of the committee.

Gifts to the Library.

Among the recent gifts to the Plainfield Public Library are the following: Presented by Rev. M. E. Dwight, John Fiske's new book, "The Dutch and Quaker Colonies in America;" presented by Colonel Mason W. Tyler, Vol. 3, of "The Round Table," a rare book; presented by William L. Saunders, the donor's own book on compressed air, and a year's subscription to his periodical on the same subject; presented by E. C. Howell, "Life of John Howell Payne."

Another Date to be Selected.

Rev. Dr. Richards, pastor of the Crescent Avenue church, will not be able to relate his experiences in Palestine before the Primary Teachers' Union, Monday evening, February 19th, as expected. Another date will be set in the near future.

Want Unused Tickets Returned.

A number of circular letters and tickets were sent out by the committee in charge of the Firemen's Ball at Washington Hall tomorrow evening. They ask that those who do not wish to keep the tickets will kindly return them.

To Come up Before State Board Tuesday.

The case of Brokaw Brothers against the Township of North Plainfield in the matter of unjust taxation, which was reported in The Daily Press of yesterday, will come up before the State Board of Taxation next week Tuesday at Trenton.

Mr. and Mrs. C. B. Leonard, of Perth Amboy, who were called to Plainfield on account of the death of Mrs. Leonard's brother, F. E. Marsh, have returned home.

Ice Bridge—Niagara Falls.

The recent cold weather has caused the forming of an Ice Bridge at Niagara Falls, which is in a splendid condition, and bids fair to remain longer than the usual ice bridge. The scenery around the Falls is especially grand at this time. The Lehigh Valley Railroad has a most convenient train service from all points to Niagara Falls.

Surprise for Will Hepburn.

A complete surprise for Will Hepburn was the gathering of a number of his young friends at his home on East Second street, last night. He knew nothing of it until the crowd walked in upon him. The affair was arranged by Miss May Mulford and Drew Mulford. There were twenty-one present.

Two Candidates Received.

Two candidates were received at last evening's meeting of the Heptasophs. After the business had been transacted some of the members indulged in games of quoits. Messrs. Boes and Laing were pitted against Messrs. Armstrong and Webbe. The latter team won by a score of 21 to 20.

Four Cases of Contagion.

There are now four cases of contagious disease in the borough, and all scarlet fever. Just what caused this slight epidemic is not known, but the Board of Health is watching the cases closely, and are making every effort to prevent a spread of it.

ESTABLISHED MAY 10, 1887. PLAINFIELD, N. J., THURSDAY, FEBRUARY 8, 1900. TWO CENTS A COPY—$5 A YEAR.

A GREAT DAY FOR DEMOCRATS.

Col. Bryan's Visit to Plainfield Proved To Be a Big Success.

2,500 HEARD HIM SPEAK IN STILLMAN MUSIC HALL.

GREETED WITH ENTHUSIASTIC APPLAUSE BY THE AUDIENCE.

His Speech Dealt With Finance, Trusts and Imperialism—Hundreds Shook Hands With Bryan as He Drove Along the Street—Pleasant Time At Cedar Brook Farm.

Col. William Jennings Bryan has come and gone, and with him one of the biggest political meetings ever held in Plainfield. There were thousands here to greet him as believers of the same political principles, and as many more who, though differing with him as to the policies that should govern the Nation, were glad to see so distinguished a personage and to give attentive audience to what he had to say.

FROM TRAIN TO FARM.

Ovation for Bryan When He Arrived in Town—Pleasant Time at Mr. Martine's Home.

Col. William J. Bryan's visit to this city is an event of the past. It will pass into history as one of the functions which has served to give prominence to Plainfield. The ovation accorded the distinguished visitor will long live in the memory of James E. Martine, who had the honor of entertaining Mr. Bryan.

Mr. Bryan reached Plainfield on the 1:01 o'clock train from Jersey City. Half an hour before that time the North Avenue station contained a vast crowd that filled the waiting rooms and overflowed to the tracks. It numbered fully 1,000 men, women and children.

By the time the train pulled into the station the crowd had grown to alarming proportions, and taxed the efforts of the police under command of Sergeant Kiely, to keep order.

Mr. Bryan was accompanied to this city by Congressman William Sulzer, of New York, and Congressman William Daly, of Hoboken. He was met at New York by J. H. Hillman, a member of the Democratic city committee, and A. E. Kinney, of North Plainfield, who had been delegated to act as a reception committee.

As the train drew into the station a salute was fired by the Democratic Association's cannon stationed in the small park at the east end of the depot.

When Mr. Bryan made his appearance on the car platform the Queen City Band, stationed alongside the tracks, struck up "Hail to the Chief" and the vast crowd gave a mighty shout.

Instantly there was a rush to greet the distinguished guest and efforts made to shake hands with him.

Mr. Martine was the first person to grasp Mr. Bryan's hand and give him a cordial greeting. After doing so Mr. Martine linked arms with his guest and escorted him to a carriage in waiting. They were followed by Congressmen Sulzer and Daly.

It was with difficulty that Mr. Bryan succeeded in taking his seat in the carriage with Mr. Martine, so eager were the hundreds surrounding the vehicle to shake Mr. Bryan's hand. For a moment their desires were gratified and Mr. Martine's distinguished guest was almost overwhelmed. Sergeant Kiely and Roundsman Frederickson finally came to the rescue and the crowd was driven back

The visitors were at once driven to Cedar Brook Farm, preceded by the Queen City Band, and followed by hundreds of citizens in carriages and on foot.

At the old home of Mr. Martine an informal reception was held with Mr. Bryan as the central figure. Mr. Martine was assisted in receiving by his sisters, the Misses Mary, Ella and Mrs. Meyers, and about fifty prominent citizens of this and adjacent cities. After being introduced and shaking hands with Mr Martine's guests, Mr. Bryan was given an opportunity to remove the stain of travel, while the guests engaged in friendly greetings. A half hour later the party was entertained by a collation, while the band, stationed on the lawn, discoursed National airs, and the little brass cannon continued to belch forth its welcome.

At 2:30 o'clock Mr. Bryan, accompanied by Mr. Martine, was driven to Music Hall where for more than an hour he addressed fully 3,000 people.

After the speaking Mr. Bryan was driven at once to the railroad station, and he took the 4:15 train for New York where last night he delivered an address before the Winfield Scott Hancock Post, G. A. R., at Carnegie Hall.

On the way to the North Avenue station the carrriage containing Mr. Bryan and Mr. Martine was followed by an immense crowd and many took occasion to shake hands with the Nebraskan, and also Mr. Martine. The fact that the enthusiastic followers were liable to be run down did not in the least deter them from jumping up and grasping Mr. Bryan's proffered hand.

By the time Mr. Bryan reached the station several thousand people had preceded him. There was an immense jam. But it was a good natured crowd that jostled and pushed each other in a wild desire to have a last look at the man who may possibly be the next Democratic candidate for the President of these United States. It was a perfect sea of faces and the sight was both surprising and pleasing to Mr. Bryan.

When the train pulled out having on board Mr. Bryan, and Messrs. Sulzer, Daly and Martine there was a storm of cheers from the men and a waving of handkerchiefs by the ladies while the band played "Whistling Rufus." The demonstration was most flattering to Mr. Bryan and creditable to the efforts of Mr. Martine, who was the prime factor in making it a splendid success. Mr. Bryan expressed great satisfaction at the very enthusiastic and cordial reception which the citizens of Plainfield extended to him.

Among those who attended the reception at Mr. Martine's home were Congressman William D. Daly, of Hoboken; Congressman William Sulzer, New York; Senator Keys, Senator Foster, Senator Kuhl, Sheriff Schoonmaker, Albert Cook, Moses H. Acker, Silas Leonard, Samuel Halliday, Rahway; Mayor Rockfellow, Dr. E. M. Rodman, W. A. Coddington, Dr. Lowrie, Elston M. French, Fire Chief Doane, Chief of Police Grant, Assistant Fire Chief Jennings, A. L. Force, Rev. J. P. Taylor, John Rafferty.

BRYAN'S SPEECH.

Substance of the Remarks Made to the Big Audience in Music Hall.

Without proceeding in the usual perfunctory manner of mass meetings by naming a list of honorary officers, Mr. Martine arose and in a brief speech introduced the honored guest of the day.

Mr. Martine referred to Mr. Bryan as "being nearer and dearer to the hearts of the American people than any man in the country," at which sentiment there was wild applause. "While I do not wish to presume upon the result of the proceedings of the coming National convention I believe that the man who will marshal the hosts of Democracy and carry them on to victory in 1900 will be your friend and my friend, William Jennings Bryan," exclaimed Mr. Martine in his final peroration.

As soon as the noisy greeting of Mr. Bryan subsided, the latter commenced his speech in a cordial tone. "I have long heard of Plainfield as a centre of great wealth, and as a consequence of strong Republican influences. I always like to speak in such a place, and when my friend Martine urged me to come here I concluded that if he could afford to live here for 365 days I could, at least, stand it to be here one day.

"The men who voted the Republican ticket in 1896," declared Mr. Bryan, can be divided in two classes—those who voted it because they knew why they did so, and those who voted it not knowing why they did so.

"I have no hope of converting the man who voted the Republican ticket in 1896 and knows why he did so. Republican success is good for some men, and these certain men are very apt to support that party from which they receive the most good. To this I have no objections, but I desire that everyone should have broad and liberal views, that they should consider the future as well as today. Some people prefer immediate enjoyment and small reward, and some people support the Republican party because they want just what the party gives. In 1896 there was a contest between plutocracy and Democracy. The former cannot claim the majority, but many in that class are now doing penance for voting as they did.

"We draw the line between honest and creditory wealth, between just and unjust laws. I always like to speak before a rich community, and ask them if they believe in mortality. If so, they had better get acquainted with people here before crossing the river to the other side. The people who toil are the most important part of society, and I like a political economy that will serve for the parlor as the kitchen, that treats with the man who drives a carriage as well as the one who rides in the carriage.

"We are not opposed," said Col. Bryan, "to wealth that has been honestly accumulated, but we are opposed to the tyranny of coporate wealth which has been obtained through legislation bribery and practices which should be prohibited and not protected by law.

"I want to leave something more enduring than money—a good Government, which is a richer inheritance than any millionaire could leave. There are men here who denounced my party in 1896 who have never known the principles of the party.

"The income tax I believe is just, and those who oppose it are people not willing to pay their share of running this Government. The poor are not asking charity, but justice, and that they will have.

"Then there is the money question. Financiers think they are the only people who know anything about money. I believe everyone is interested in the money question and no one class should legislate in this matter. The gold-bugs have a majority of the newspapers in the country, but today bimetalism is stronger in the east than ever. The railroads, banks, corporations, etc., can't kill it. These gold-bugs pose as philanthropists to the farmer and laboring man, but I do not see them returning any favors by way of reciprocity. They say that there is more than enough money now, and they are actually afraid there will be a flood of it. If England and a handful of Boers can shake our money standard as occurred a short time ago, where would it be if England should engage in a real war with a powerful country.

"I have been asked to drop the silver question, just as though it would break if I dropped it. It is the most important question ever presented to the American people, and is greater than any man or body of men. You can readily understand why bankers and money men support the Republican party that places the dollar above man. The young man now has to look forward to a perpetual clerkship. His brains and muscle are in the hands of a few, and it will not be long before his brains will be at a discount. I appeal to the young men and ask you if you are satisfied with the present conditions. What we want to do is to take the government and place it on its old foundations.

"Regarding imperialism, there are three arguments I have heard in favor of it. They are: There is money in it; God's in it, and we are in it and can't get out. England started a war recently and it is costing her more money than she expected, yet her armies have not reached Ladysmith, and God grant they never may.

"Plainfielders! I dare you to put money value on one American boy. What mother wants to raise sons at so much a head to be sacrificed in the Philippines. There is a religious argument that the Republicans advance about this war of conquest. It has been said that 'God opened the door to the Philippines, pushed us in and shut the door.' I have heard people going up and down telling what God wants, but if He knew them as well as I do He would never let them know anything. How do we know God's will? Through His Word. In that Word we read that the Son of Man came to save life and not to destroy. It amazes me to her ministers shout war of conquest. If the Filipino had been given equal independence with the Cuban not one drop of blood would have been shed. We must fight for liberty, not for lands. Give the Filipino his freedom and then defend it to the last."

—Press want ads bring results.

CROWDS AT MUSIC HALL.

Theatre Was Filled to its Capacity in a Few Minutes After the Doors Were Open.

While Mr. Martine and his guest, Mr Bryan, were quietly lunching at "Cedar Brook," a very different scene was being enacted at Music Hall. Like wolves clamoring for their prey the crowd fought for entrance to the hall and a fierce struggle it was. Sergeant Kiely and a squad of Plainfield's "finest" bravely stood their ground and tried to keep some semblance of order but the mob fairly swept them off their feet.

It had been generally announced that the meeting would begin at 3 o'clock and that the doors of Music Hall would be opened to the public an hour earlier. As soon as the guest of the day with his escort of honor had departed for "Cedar Brook" after his arrival, the crowd began to flock to the Music Hall. There they waited, augmented at frequent intervals by the new arrivals. The delegations from Somerville and that part of Somerset county came down in two special cars attached to the 2:12 train and marched to the hall, headed by a band.

At 2 o'clock promptly, the doors were flung open and the little cordon of police faced the host. Then there came such a wild scramble for places in the hall the like of which has seldom been seen in this city. There were women in the throng who were fairly dragged in. The seating capacity of the hall is 900. Inside of five minutes, every seat was filled. Then the remaining spectators fought for standing room, until at last, when the meeting opened three-quarters of an hour later, there were twenty-five hundred people in the hall.

Seats were provided for three hundred invited guests on the stage. These were soon occupied and a hundred more guests stood in the rear and in the wings. Most of the guests were Democrats who came from out-of-town to hear Mr. Bryan. They were a varied collection from all walks of life. A few local Republicans could be found scattered about the edges. In front a delegation of well-known local Democrats were seated.

The boxes were crowded, both tiers of them, mostly with women. One box was reserved for Mr. Martine's party and another for the families of the newspapermen. The wives of several Plainfield's well-known Republican citizens also occupied seats in one of the boxes. Many women were also to be noticed in the dress circle and the gallery, several hundred in all.

It was with great difficulty that Mr. Bryan and his party reached the stage where a few chairs were reserved for them. The crowd had simply overwhelmed the press tables. The arriva of Mr. Bryan was the signal for a mighty outburst of applause. The audience rose up in its might and shouted itself hoarse. It was several minutes before Mr. Martine could make himself heard above the din. Then, in a few words, he introduced the speaker and again the crowd went wild with enthusiasm.

It was, to most of the audience the first good glimpse of the man who will, in all probability, be the Democratic nominee for President this year. He looked very much as he has been pictured, smooth face, a head a trifle bald now but showing decided force of character. He seemed a little hoarse but spoke clearly and distinctly so that everyone in the hall must have heard him.

He moved his body but little, but his hands and arms were frequently used in gestures to emphasize his remarks. There was plenty of enthusiam shown by the audience during the progress of the speech and he was often interrupted. Several men in the back of the hall had comments to offer. "Bet your life," shouted one at a particular telling hit. "Lots of that in Plainfield," yelled another. The reference to the war in South Africa seemed to please the crowd best of anything he said and they shouted and stamped.

When four o'clock came and he ended his remarks, after speaking for an hour and five minutes, the people surged toward him and swarmed over the front of the stage. It was only by dint of great exertions that he reached the side entrance and was hurried away to the station.

While Mr. Bryan was refering to the Philippines, a large bouquet was thrown to him from the upper right hand tier of boxes. Just at the close of his address, another, a particularly handsome one, was handed up from the front seats of the hall. He carried them with him as he left.

As soon as the meeting was over, there was another grand rush to see him get into the coach that waited him at the main entrance. Mr. Bryan, Mr. Martine and Congressmen Sulzer

[CONTINUED ON PAGE 4.]

CENSUS CHANGE TO AFFECT NEW JERSEY

Many Cities to Be Withdrawn From the Regular Districts.

WORK FOR SPECIAL AGENTS.

PLAINFIELD AND NORTH PLAINFIELD IN FOURTH DISTRICT.

How the Places Have Been Divided in Order to Secure the Best Results—Many Applications for the Places Received—Census Will Result in Increased Representation in Congress.

A bulletin has been issued by William R. Merriam, director of the census, directing that many cities and towns in the country be withdrawn from the districts of the regular enumerators for the statistics of manufactures. These cities will be attended to by special agents, having technical knowledge of manufacturing industries.

It is believed at the Census Bureau that this change will do much to add to the accuracy of the statistics relative to manufactures that the Census Bureau hopes to obtain. The number of cities and large towns that have been withdrawn from the districts of the regular enumerators is 1,412, and 2,033 special agents will be appointed to obtain the statistics relative to manufactures in them.

The State of New Jersey is affected by the order of the director in the same manner that all other States have been, and it will receive its proportionate share of the additional patronage the appointment of the special agents will create.

To New Jersey will be assigned fifty-four special agents, and already applications innumerable are being filed with the director by persons desirous of the remunerative employment.

The director has, after a careful examination of the State, decided upon making these changes:

First District — Twelve special agents to collect statistics of manufactures in Jersey City, Kearny, Union Hill, West Hoboken, Hoboken, Harrison, Guttenberg and Bayonne.

Second District—Twenty-one special agents for Newark, Orange, South Orange, West Orange, Montclair, Irvington, East Orange and Bloomfield.

Third District—Five special agents for Paterson, Passaic and Rutherford.

Fourth District — Three special agents for South Amboy, Sryreville, Rahway, Perth Amboy and New Brunswick. Bound Brook, North Plainfield, Plainfield, Raritan and Somervilie and the city of Lambertville, all in the Fourth District, will be allowed three special agent.

Fifth District—Seven special agents for Newton, Bordentown and White Hill, and Mt. Holly and Burlington, also in the Fourth District, will receive one special agent.

Sixth District—Three special agents for Vineland, Salem, Millville and Bridgeton.

The city of Elizabeth is in the Fourth Census District, but the manufacturing statistics will be collected by a special agent assigned to the First District. Washington and Phillipsburg will be attended to by a special agent assigned to the Third District in Pennsylvania, Camden, Woodbury and Gloucester will be in the same manner looked after by a special agent in the First District of Pennsylvania.

There is a belief among the New Jersey members of Congress that the twelfth census will result in an increase in the representation at the National capital. Congressman Daly said that he was confident that the census will result in making Hudson county a portion of three Congressional districts.

A BEQUEST OF $200.

Relatives of Job Male Left That Sum to be Used in Aid of Soldiers' Monument Project.

Rev. W. C. O'Donnell, chairman of the soldiers' monument committee from the Sons of Veterans, has been investigating the report that according to the will of the late Job Male $500 was left for a soldiers' monument. He communicated with a Mr. Harrison, of Newark, who has charge of the estate, and learned from him that Mr. Male died intestate and that $500 was not left for such a purpose. Mr. O'Donnell investigated still further, believing that there must be something in the story, and he found that a woman, a relative of Job Male, left the sum of $200 for a monument. An effort is now being made to ascertain how that money can be secured and placed in the monument fund.

WORK OF PICKPOCKETS

SEVERAL CASES OF WHERE MEN LOST CONSIDERABLE MONEY.

South Somerville Man Lost $100—Lawyer Moffett Was Touched for $40 and Justice Moffett was Relieved of Valuable Papers.

The crowds gathered here yesterday to see Col. Bryan was the occasion for the pickpocket to get in his fine work and many today are sadder but wiser, for not a few Plainfielders were touched, and some from out of town. Gill Huffman of South Somerville, lost a pocketbook in which was $100. John Ross, of this city, lost $2; Dr. Thiers, of Grove street, lost several dollars; Justice Elmore D. Moffett had his pocketbook taken in which there were $14, a check for $3 75 and some very valuable papers; Lawyer Charles Moffett was relieved of $40; Jeremiah Manning of a few dollars, Daniel Manning lost $12

There were a number of other cases but the names could not be learned. All of those who suffered from the pickpocket were in the big crowds and were jostled about. They discovered their losses after the celebration was over. The police were unable to locate any of these thieves, as most of them were out of town persons and they are no doubt experts in their line of business.

Among others who claimed to have had their pockets picked and lost money was Henry Dunham, of Dunellen. It is not known how much Mr. Dunham lost.

Ethan Lamphear, of Central avenue, who is nearly 80 years of age, is reported to have lost $33 by having his pockets picked.

A citizen named Wheeler, of Somerville, is also reported to have been "touched" for $25 or $30.

J. B. Coward was also the victim of the crooks, but the amount of his loss is not definitely known, being estimated from $12 to $50.

It is reported that a track walker on the Central Railroad found two pocketbooks along the tracks near Richmond street.

It is believed that others lost small sums of money, but have not made the fact public.

INSPECTED THE CADETS.

MAJOR D. F. COLLINS OF THIRD REGIMENT HERE.

Was Favorably Impressed by Showing Made by Cadet Batallion of The Plainfield High School Yesterday.

A very favorable impression was made on Major D. F. Collins of the Second New Jersey regiment yesterday when he inspected the cadet batallion of the Plainfield High School. The inspection and muster was held at Washington hall, the drill hall of the company, yesterday from noon until 1 o'clock. The company went through a few simple evolutions under the direction of A. B. Meredith, military instructor, and then Major Collins looked the boys over. He was quite pleased with the showing made by the batallion in such a short time and complimented the officers very highly for the successful result of their labors.

Besides Major Collins, Captain George F. Edwards, of this city, was also present and took part in the inspection. There were a few visitors present.

The inspection was made at the direction of the State militia authorities who now recognize the High School batallion as a regular cadet organization of the State.

OLD FACTORY ON FIRE

Flames Are Supposed to Have Been Caused by Tramps

The old vacant hat factory on Clinton avenue tried to go up in smoke last evening. Fire was discovered in the second story of the building and an alarm was turned in from box 49, corner of Clinton avenue and South Second street. The firemen arrived only to find the fire practically out. It had started in a closet and was undoubtedly the work of incendiaries or tramps as the building has not been occupied for several year. The building was owned by William Mc B. Coriell.

A Colored Physician.

Netherwood is to have another resident in the person of T. D. Wilson, of New York. He has rented, through the real estate agency of E. C. Mulford & Son., of North avenue, the handsome new house owned by David Arthur, Jr., located on Belvidere avenue.

Trolley Car Broke an Axle.

Car No. 6 of the Plainfield Street Railway Company came to grief yesterday afternoon at 5 o'clock at Jerusalem road. The axle broke and the car had to be left there for the night. It was repaired temporarily and brought back this morning.

MAYOR FISK'S VISITORS AND HIS MANY LETTERS

One of the Former Was a Nervous Little Man

WHO HAD A BIG SCHEME.

LETTERS WERE FROM NEWSPAPER MEN CUT OF A JOB.

The Real Estate News Was Offered as a Nucleus for a Republican Daily Newspaper, But Was Declined With Thanks—My, How the Letters Poured in 'Till Mr. Fisk Had a Nightmare.

He was a nervous little man whom the servant ushered into the parlor at the handsome home of Former Mayor Fisk a few evenings ago.

The banker was about to sit down to dinner, but when told that "there's a gentleman to see you, sir," made haste to learn his visitor's errand.

Without going through the formality of introduction the caller began to state his business. He had a paper for sale—the Real Estate News—whose circulation had reached the possibilities of thousands. Though not as well known as its proprietor it had a clientele that gave it a dignity and prestige unparalleled in the annals of Plainfield journalism. The Real Estate News was already a factor in the eyes of its founder, whose business of late had been that of founding anything from newspapers to boroughs. In fact the founding idea had been so long with him it became a mania. For five minutes the nervous little man talked on and his copious flow of words at first astounded the ex-Mayor and finally startled him.

As the nervous little man stopped to catch his breath, the good-natured, but somewhat alarmed Mr. Fisk quietly asked:

"My dear sir, you have certainly the best of me; whom have I the honor of addressing?"

"Why, Mr. Mayor, don't you know me?" exclaimed the nervous little man with self-assurance, as he cast a patronizing smile and pulled down his vest. Then he drew himself up to his full height of five feet four.

The ex-Mayor became embarrassed. He felt sure that he had seen that face before, but where he could not think.

The nervous little man, realizing that he was losing time, made haste to explain.

"My name's Drake—S. D. Drake—Silas Dewey Drake, the founder of Lincoln, Dewey Park and the promoter of many enterprises whose fame extends from Maine to California and from the Great Lakes to the Gulf."

"Why, sir, do you realize that you are talking to the only man who was the leading spirit at the famous Women's Congress held several years ago at Detroit. Why, sir"—

But the Mayor waved his visitor to a seat and asked him to state his business, while strange thoughts coursed through his mind with reference to the harmlessness of his caller, whom he wished he was well rid of.

Before the nervous little man left he had explained that he was anxious to sell the Real Estate News. If Mr. Fisk was interested in the establishment of a new Republican daily paper in Plainfield he wanted to be like his namesake of Manila fame, first on the ground,

It suddenly dawned upon the affable ex-Mayor that he was in ignorance of the entire scheme. When explanations were made and Mr. Fisk was told that there was a street rumor that he was to be the financial backer of a new Republican newspaper which would champion his Congressional aspirations, he took it as a good joke.

But he gave Uncle Silas plainly to understand that he was not a candidate for Congress, neither was he interested in any projected scheme to establish a Republican newspaper in Plainfield. And S. D. D. was politely ushered from the Mayor's home, feeling most disconsolate.

But Mr. Fisk's troubles did not end with the visit of the Mayor of Lincoln.

During the evening he had other callers—newspaper reporters, advertising solicitors and some who sought to give advice. To all his visitors the former Mayor good-naturedly explained as he had to Mr. Drake, that he was not interested in the project.

The incident was discussed at the ex-Mayor's dinner table. The members of the family agreed with the head of the house that it was a huge joke. All enjoyed a hearty laugh over the visit of the ubiquitous Silas and those who had followed him.

When Mr. Fisk reached his New York office the following Monday morning his mail was found to be unusually heavy. There were hundreds of letters from reporters, printers,

[CONTINUED ON PAGE 5.]

BOERS CHECK BULLER

British Advance Stubbornly Contested.

KOPJE CARRIED BY BAYONET POINT

Transvaal Troops Make Desperate Attempt to Retake Lost Position, but Fail—Prospect Good For Ladysmith's Relief.

LONDON, Feb. 8.—A special dispatch from Spearman's camp, dated Wednesday, Feb. 7, says:

"Our further advance is at the moment prevented, as the Boers enfilade us from their positions on Spion kop and Doorm kloof. Our casualties, although estimated at 250, are trifling considering the great importance of the movement just concluded."

The Standard has the following from Spearman's camp, dated Feb. 7:

"The force under General Buller is again advancing to the relief of Ladysmith, and after two days of severe fighting it may fairly be said to have made a good first step on the road to the besieged town.

"The movement was begun at an early hour on Monday morning by way of Potgieter's drift. The Eleventh brigade, forming a part of the Fifth division under General Warren, made a feint attack upon the kopjes immediately on our front. The assault was delivered at the outset under cover of naval guns on Mount Alice and subsequently under that of field batteries.

"The infantry advanced steadily toward the Boer intrenched positions at Brakfontein and kept the enemy busily employed. While this diversion was being made the remainder of the infantry told off for the attack, who had bivouacked Sunday night under Mount Alice, moved along at the foot of Zwart's kop in the direction of our right.

"A pontoon bridge was thrown across the Tugela by the engineers under the fire of the enemy. The first battalion to move across in the forenoon was the Durham light infantry of General Lyttleton's brigade. They advanced against Vaal Krantz, which lies on the most direct road to Ladysmith, and after two hours' splendid work they got within charging distance of the Boers.

"The first of the kopjes was carried by them at the point of the bayonet with the utmost gallantry. Almost simultaneously the First battalion rifle brigade cleared the second kopje, and, after moving across the long ridge, they bivouacked on the spot.

"The feint attack at Potgieter's drift having served its purpose in preventing the concentration of the enemy at the critical point the Eleventh brigade fell back to the river.

"In the course of the operation both the infantry and the artillery had been subjected to a severe shell fire.

"On Tuesday, at 4 o'clock in the afternoon, the enemy, encouraged doubtless by their success at Spion kop, endeavored to recapture the position taken by us at Vaal Krantz. They were beaten back, however, with loss.

"The work accomplished so far has been magnificently done. The shell and Maxim fire poured in by the Boers has been extremely severe, but our losses are, comparatively speaking, small. The Durham light infantry took a few prisoners in the course of their charge.

"The enemy as usual fought with the utmost stubbornness. The British maneuvering and the accuracy of aim on the part of the British artillery during the fighting on Monday were beyond praise. There is not the slightest likelihood that the Boers will succeed in dislodging us from the positions we have gained, and the prospects of the relief of Ladysmith are decidedly hopeful."

The Daily Telegraph's correspondent at Spearman's camp, in a dispatch dated Monday night, says:

"Under the personal direction of General Buller the attack on the Boer positions was begun this morning by nearly the whole of our batteries, 72 guns, shelling the ridges where the enemy have their trenches and redoubts on the Brakfontein and the low crest facing Potgieter's drift.

"The enemy suffered severely. Several hills were smoking like volcanoes from the effects of the bombardment, which set on fire their stores and the grass.

"While the third pontoon bridge was being constructed under fire near Skiet drift the Eleventh brigade, now under the command of Colonel Wynne, made a demonstration against the Brakfontein ridge, marching across the meadows, with the support of seven batteries of artillery.

"At 11 o'clock the enemy opened a heavy cannonade of shrapnel, common shell and pompon shells, chiefly from Spion kop. This was accompanied by a rattling musketry fire. Our gunners behaved admirably and were as cool as it upon parade.

"The demonstration having gained its effect, the real attack upon the Boer left was delivered at 4 o'clock. The Durham Light infantry carried Vaal Krantz, the key of the lower ridges, while General Hildyard's brigade assailed the higher ridges. The general and his troops are bivouacking upon the field of battle. In the language of boudoir bulletins, 'Mother and child are doing well.' Our losses are trifling."

Mr. Spenser Wilkinson, in The Morning Post today, says:

"The British forces appear now to be everywhere on the move. In the absence of local knowledge it is idle to guess the site of General Buller's new attack. If, as seems likely, this is east of Potgieter's drift, the distance to Ladysmith is only ten miles, and the country is more open than any other route. In any event General Buller's troops will have to break the enemy's resistance by hard fighting, for the delay involved in crossing the river must make it difficult to gain the start needed to turn the enemy's flank.

"It is not known whether Lord Roberts has moved to begin the campaign or not. It may well be that he has only moved to some point nearer the scene of operations, where he can be in communication with all his generals."

The announcement that Mr. Henry Labouchere, editor of Truth and Liberal member of parliament for Northampton, would address a peace meeting in the Northampton town hall last evening drew a noisy crowd of opponents, who swarmed upon the platform and smashed the chairs.

Mr. Labouchere's arrival was the signal for renewed attack. The promoters of the meeting were forced off the platform and chairs were hurled into the body of the house amid cries of "God save the queen."

Mr. Labouchere was struck in the head, but was not seriously injured. He managed to make his exit, escorted by the police.

A number of other persons were hurt, although none seriously.

Ultimately the opponents of the peace meeting gained the platform and declared that Northampton had joined York city in repudiating the critics of the government.

GENERAL BULLER'S ADVANCE.

Two Days' Heavy Fighting With Slight Gains.

SPEARMAN'S CAMP, Feb. 8.—General Buller commenced the advance for the relief of Ladysmith Monday. The naval guns opened at 7 in the morning and a feint attack was made in front of our position. Three battalions advanced toward the Brakfontein with six batteries.

At 11 o'clock the Boers opened with artillery fire and sent several shells among the British infantry, who retired an hour later.

Meanwhile a vigorous attack was made on the extreme right, where the engineers expeditiously constructed a position. Several pieces of cannon hidden among the trees on Zwart's kop bombarded heavily. The British infantry advanced, and the Boers were entirely surprised.

At 4 o'clock a high hill, a continuation of the Brakfontein, had been taken. The operations were excellently planned.

The name of the hill taken is Krantz kloof.

The bombardment of the Boer position was resumed yesterday morning. The Boers worked a disappearing cannon from the high Doorm kloof range on the right of the captured hill, but the British shells exploded its magazine, and the gun was put out of action until late in the day.

Musketry fire was intermittent until the afternoon, when the Boers made a determined effort to retake the hill.

Re-enforcements rushed up, cheering, the Boers were repulsed, and the British advanced along the ridge.

Boers Report Success.

LOURENCO MARQUES, Feb. 8.—A dispatch from the Boer head laager, near Ladysmith, dated Feb. 6, says:

"Since yesterday the British, with naval and other guns, have bombarded our positions on the upper Tugela. The troops crossed the river at the pont and at Molen drift, with the object of storming our positions. At the former General Burger beat them back, and they recrossed in great confusion.

"The fighting continues at Molen drift with the Standerton and Johannesburg commandos. There were no casualties on our side. The cannonade was the fiercest yet experienced. There was a continuous roaring all day long. This morning it recommenced with an increased number of guns."

British Lose Heavily.

BOER HEAD LAAGER, Ladysmith, Feb. 8.—Further reports of Monday's fighting at the upper Tugela river show that the British lost heavily at Pont drift, but took an unimportant position on a small kopje on the Molen drift side. Four Boers were killed. The British loss is unknown. They are still in possession of the kopje, and the big guns have ceased firing.

Dr. Leyds Not Pleased.

BERLIN, Feb. 8.—Dr. Leyds leaves Berlin very much dissatisfied because of the refusal of Emperor William to receive him, his chagrin not being sensibly mitigated by an invitation to dinner from Herr von Wedel, minister of the royal household. He now expects to go to St. Petersburg when the weather moderates.

Old Boundary Case Settled.

VICTORIA, B. C., Feb. 8.—The long standing boundary dispute in the Malayan peninsula between Siam and Great Britain has been settled. The trouble arose about the frontier between Perak and Rahiman. The map shows that Rahiman is a narrow strip of mountainous country running from west to east. Perak lies to the south. Kedah bounds it on the west. Several Siamese petty states lie to the north and east of the Patani river, which flows to the east coast. That country was unexplored until Mr. Skeat traversed it in his trip ascending Cunong Tahan recently. The dispute was taken over by the British government on Perak becoming a protected state and has been pending for years. The settlement, which is said to be satisfactory to Britain, was reached through Mr. Greville, the British minister at Bangkok. A railway through Johore territory connecting Johore with the Negri Sembilan system is to be at once undertaken.

Judges Dine With McKinley.

WASHINGTON, Feb. 8.—President and Mrs. McKinley gave a dinner at the White House last night to the members of the supreme court. Owing to the large number present the table, handsomely decorated with great bunches of roses and beds of Japanese primroses and carnations, was set in the main vestibule. Those invited to meet the guests of the evening included members of the judiciary committees of both houses of congress and others.

Influenza In Germany.

BERLIN, Feb. 8.—The influenza which has spread throughout Germany now numbers 60,000 victims in Munich. In Berlin every bed in every hospital is occupied, and the hospital physicians, hundreds of whom have been stricken with the malady, are scarcely able to care for their patients. Among those believed to be dying is Dr. Lieber, leader of the Centrists or Clerical party in the reichstag.

Noted Swindler Arrested.

HARRISBURG, Feb. 8.—Richard C. Stolles of Washington was arrested at Steelton charged with raising a note from $500 to $5,000 and other falsifications to the extent of $112,000. Stolles was located at the home of a relative by a Washington detective and was taken to that city for a hearing.

Fog Causes an Accident.

CHICAGO, Feb. 8.—In a fog yesterday two switch engines on the Wisconsin Central railroad collided at Franklin Park, two men being killed, another sustaining what is thought are fatal injuries and a fourth severe injuries.

Heir to Half a Million.

MIDDLETOWN, N. Y., Feb. 8.—Willis Coleman, for several years district schoolteacher in Sullivan county, has fallen heir to a fortune of $500,000 through the death of a distant relative in Chicago.

CASE AFTER CASE.

Plenty More Like This In Plainfield.

Scores of Plainfield people can tell you about Doan's Kidney Pills.

Many a happy citizen makes a public statement of his experience.

Here is a case of it. What better proof of merit can be had than such endorsement?

Mr. F. D. Smith of 686 West Front street, contractor for painting etc. says:- "There was a distressing pain across the small of my back which clung to me all the time. When I got seated at times if I moved, a sharp pain struck me in the back and loins and almost made me exclaim. Any change in the weather if I caught the least cold always aggravated the trouble and caused me to suffer severely. Doan's Kidney Pills were recommended to me by one of my employes who had been cured of a long standing case of kidney complaint by their use. I commended the treatment, derived benefit from it immediately and before I had finished the first box I was cured."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

Demulcent Cream

Will soften the skin.
Will prevent roughness.
Will please everyone.

"Is a Delightful Cream to use."

Leggett's Pharmacy,
Y. M. C. A. Building.

THAT'S THE IDEA!

You ought to see what we can do for you before doing anything for yourself. Painting depends upon the paint and the painter. Better preparations than ours were never put on by a brush. Wherever paint is put, it should be put there to stay long enough to make it worth while to do the job. The warring elements have no effect on our durable mixtures.

Woolston & Buckle,
PAINTERS AND DECORATORS
141 North Avenue.

TEETH.

If you have any to be extracted (remembe you will not be hurt in the slightest. My local anaesthetic is the best that can be obtained and is not known to the other dentists in this city. Gas strictly fresh administered by an expert if you want that. If you need artificial teeth you may rest assured that the greatest care will be exercised in selecting shape and color to harmonize with the face, also to restore the features to their natural expression and fullness. This is most important.

FOR FALLING HAIR.

A Massage with Petroleum Restores Life and Sheen to My Lady's Tresses.

A certain head of hair possessed by a woman of uncertain (or only too certain) age began to fall in combfuls every time her tresses were brought well upon the head, as the present mode demands. With that becoming, wavy looseness in the back, this style was too successful to be lightly given up, and, besides, if hair will not bear combing high, something is radically wrong, thus reasoned the woman. To get at the root of the hair and trouble she followed faithfully for a fortnight a treatment which is simple and sensible. As a result the hair not only ceased falling out, but became wavy and "alive" as well.

She used crude petroleum jelly, working it into the scalp, not leaving it outside, to prove worse than useless. Here is her recipe for making this simple but sure hair fertilizer strike home: Ask any physician what is the best means of conveying a food or medicine into the skin, and he will say lanolin; therefore, to convey petroleum to the roots of the hair, mix it with a like quantity of lanolin, put a little on each finger tip, sit down comfortably to this fertilizing process, and, if possible, before beginning, what is to be continued once every day for the two weeks, shampoo the head. Having hair and scalp clean, begin with the front hair, bend the anointed fingers and begin a patient, gentle rubbing, getting directly at the scalp, touching any but the roots of the hair as little as may be.

Follow the same rule for the back, beginning with both sides of the crown and then working up from the base or "scruff" of the neck. At first it will be impossible to prevent the hair looking a little greasy, but brushing will help this, and, for those who object to the brush, the hair may be well rubbed with a soft, fine cloth or large silk handkerchief.

As soon as the hair stops coming out the application may be discontinued, but a gentle massage with all the fingers will be found necessary to continue the good work.

Much of the prejudice against hair brushes arises from the fact that many people, particularly where the hair is brittle or scanty, have used them with bristles that were far too stiff. Have two good brushes kept thoroughly clean, if the hair is worn "pompadour," part well back, turn up, take a brush in each hand and stroke upward, allowing on brush to surely cover the exact middle of the head. Give 50 firm strokes, the same number to each side, and the same to the back, also turned up, the long hair to be taken separately and well brushed out. If there is the slightest inclination to undulating growth, the hair will wave after a few days, for this treatment, and even in the case of that which is uncompromisingly straight, if persevered in, will give "fluffiness" and undulation, if not the actual wave. Notwithstanding the prejudice before referred to, the continuous gentle brushing strengthens the hair so that the lanolin and petroleum massage will but seldom be needed.—St. Louis Republic.

THE OFFICER CONCEDED.

That the Gentleman Was Justified in Smashing the Disturber of His Peace.

A haggard man, clad in threadbare but decent garments, emerged with hesitating steps from the shadow of a great carved doorway in the business district and tapped a well-dressed pedestrian on the arm. "Excuse me, sir," he began, hoarsely, "but would you be kind enough—" The gentleman he accosted was portly and prosperous in appearance and his ruddy visage betokened a jovial temperament, but as the other concluded his petition in a hurried undertone a swift and sinister change swept across the features, and without a word he whirled up a massive walking stick and struck the humble applicant to the ground. "Hold, there!" cried a policeman, rushing to the spot and seizing him by the wrist before he could repeat the blow. "What do you mean, you brute, by striking that poor man just because he asked for a little charity? Have you no heart at all?" "I see you suffer for this, you old rascal!" "That's right!" "Run 'im in!" "Lynch him!" "Oh, de cruel monster!" came from the rapidly gathering crowd. "But, gentlemen," expostulated the portly prisoner, "permit me to explain. You are greatly in error. That individual did not ask me for alms—" "What did he ask you for, then?" inquired the officer, incredulously. "He asked me when the twentieth century would begin," replied the other, in a firm voice, "and I had taken an oath to have the gore of the next blithering idiot who fired that conundrum in my direction." "Oh, that's entirely different, sir," said the policeman, cordially, "I shall arrest him at once for conduct calculated to produce a breach of the peace." And seizing the unhappy man by the collar he dragged him to the patrol box amidst the plaudits of the populace.—N. O. Times-Democrat.

Lady Cake.

Stir half cup butter with one cup of sugar to a light white cream; sift one and a half cups flour with one teaspoonful baking powder; beat four whites of eggs till stiff; add the sifted flour, the beaten whites of eggs, with a half cup of milk to the creamed butter and juice of half a lemon, pour the mixture into a paper lined form and bake in a medium hot oven till done.—Brooklyn Eagle.

Sober Second Thought.

Tom—Was it hard to tell Miss Autumnal you loved her?

Jack—Not half so hard as it was to explain matters after I got sober.—Chicago Evening News.

TAYLOR TAKES TIME

No Decision Yet as to the Peace Proposition.

KENTUCKY REPUBLICANS DISAGREE.

Democratic Members of the Legislature Hold Sessions In Louisville. Remains of Goebel Lie In State at Frankfort.

LOUISVILLE, Feb. 8.—The existence of a hitch in the peace negotiations and speculation as to its probable duration occupied the minds of politicians to the exclusion of everything else yesterday. That another conference between the representatives of the two parties may be necessary before a final agreement is reached was indicated by the summoning to Frankfort yesterday afternoon of Republican attorneys who have all along advised the leaders of that party and some of whom were present at Tuesday night's conference. These included ex-Governor Bradley, Hon. A. E. Willson and David W. Fairleigh. The last named was said to be out of the city. The others left on an afternoon train for Frankfort. They would not talk of the negotiations, not being advised as to the particular points Governor Taylor wishes to discuss with them.

The Republicans of this city are not agreed as to the wisdom of closing the negotiations on the basis of the agreement reached Tuesday night. Postmaster T. H. Baker and some other federal officers think the sacrifice should be made in the interest of peace, while the press and the antiadministration faction of the city believe the fight should be kept up. The latter, or Davis faction, held a meeting at which resolutions were adopted urging Governor Taylor not to sign the agreement.

Mr. John Marshall, Republican lieutenant governor, said yesterday afternoon that so many protests were being made by the Republicans against the terms of the peace agreement that he was doubtful if it would be signed. He said:

"The terms of the agreement as published are taken to be literally correct, while such is not the case. There have been several errors in the published statement."

Sessions of both houses were held at the Fifth Avenue hotel at 1 o'clock. Forty members of the house responded to their names when Speaker Trimble called that body to order. A quorum not being present, the sergeant-at-arms was ordered to secure the attendance of absent members. The house then adjourned until today. Similar action was taken in the senate, where President L. M. Carter and 12 members were present. The meeting today will be held simply to comply with the law.

HONOR TO THE DEAD.

Remains of William Goebel Lie In State at Frankfort.

FRANKFORT, Ky., Feb. 8.—The remains of Governor William Goebel were brought back to Frankfort yesterday from Covington and lay in state in the ladies' reception room in the west wing of the Capitol hotel. There they remained until noon today, when the relatives and intimate friends took a last look at the features.

There were no incidents marking the return trip from Covington. Every precaution was taken to avoid accident, and slow running time was made in consequence, the train arriving in Frankfort an hour and a half later than expected. A steady rain was falling, but in spite of this a throng of several hundred gathered at the little station of the Cincinnati and Frankfort railroad on the hillside and stood with uncovered heads as the casket containing the remains of Governor Goebel were taken from the car and put into the hearse. An escort of honor composed of Mayor De Honey and members of the Frankfort city council took up their places in front of the hearse. Behind the hearse were three carriages containing Governor Goebel's relatives and a few of his more intimate friends. Outside of the escort of honor, however, there were no ceremonies, everything being simple in the extreme. Arriving at the hotel, the casket was conveyed to the ladies' reception room and there placed on the bier in the center of the room.

The steady drizzle of the morning turned into a pouring rain in the afternoon, which kept up without cessation until long after nightfall, and probably not over 3,000 or 4,000 people took the opportunity to get a last look at the dead Democratic leader.

The floral offerings were magnificent. Nearly every county in the state sent flowers, and the big room was one mass of roses, lilies and smilax. Ranged along the walls were scores of floral pieces, some of them extremely beautiful, while around the bier were piled great masses of flowers.

There was no excitement whatever in the city. Adjutant General Collier gave orders that all the soldiers be withdrawn from the city to the capitol grounds. This was done to avoid any irritation which the presence of the state troops might have on Governor Goebel's friends. Even the provost guard was withdrawn, while all passes were suspended. These orders will remain in force until Friday. As a mark of respect to the memory of Governor Goebel all drills were suspended for two days.

Esterhazy Declines Amnesty.

PARIS, Feb. 8.—Major Comte Ferdinand Walsin Esterhazy, the reputed author of the bordereau which brought about the conviction of Captain Alfred Dreyfus on charges of treason, has recently shown signs of life by sending to the amnesty commission of the senate an energetic protest against any proposal of amnesty. He even asks to be prosecuted and indicates the lines of the prosecution.

Canal Engineers at Work.

MANAGUA, Nicaragua, Feb. 8.—The engineering divisions of the isthmian canal commission expect to complete their work in Nicaragua with the exception of a few borings before Feb. 15, so that the report of the commission can be ready in a short time after the engineers complete their work of surveying the canal route.

The Plague In Japan.

VICTORIA, B. C., Feb. 8.—The steamship Empress of China, from the orient yesterday, reports little diminution of the plague in northern Japan and numerous deaths among the workers of the medical brigade.

Weather Probabilities.

Snow and decidedly colder; increasing easterly winds.

THE MOLINEUX CASE.

Attorney Weeks Closes His Argument For the Defense.

NEW YORK, Feb. 8.—Bartow S Weeks, the attorney for the defense, yesterday concluded his arguments in behalf of Molineux. In the severest terms he condemned the proprietors of the letter boxes who had testified against Molineux the police for the manner in which they had handled the case, the handwriting experts for their willingness to convict a man of murder upon the evidence submitted to them.

After claiming that the prosecution had utterly failed to show a motive and telling the jury that the defense wanted no compromise verdict Mr. Weeks closed a magnificent peroration with the words "Gentleman, the fate of the prisoner is in your hands. What shall it be? Guilty or innocent? Life or death?"

Though the wife and the mother of the prisoner were in tears, the father of the prisoner, General Molineux, and the prisoner himself sat apparently unaffected and unmoved.

The assistant district attorney, in commencing his reply, was full of pathos and dignity. He said that he felt at times the keenest anguish when he thought of the bitter things he had been compelled to say in conducting the case. He had the profoundest pity for the prisoner, he felt for the wife, the mother, the gray haired father, an emotion so strong as to almost bias his sense of right and justice. Nevertheless it was necessary for him to do his duty, and he proceeded with an elaborate analysis of the facts in the case Mr. Osborne had not finished when court adjourned for the day.

LUDLOW'S TROUBLES.

Certain Reports Denied—Commissioner Porter Reaches Havana.

HAVANA, Feb. 8.—General Ludlow wishes to deny a statement recently published in the United States to the effect that he had been challenged to a duel by the editor of a Havana paper and had refused to reply. He says that the story is absolutely untrue. To begin with he received no challenge, and in the second place the editor referred to is a person to whom he would not have thought of replying had a challenge been issued. He is quite at a loss to understand why his actions should be misrepresented.

In order to prevent a continuance of the vilification to which he and other public officials have been subjected in the columns of the Lucha, General Ludlow appealed directly to the governor general who decided that in his official capacity he could not interfere, but readily agreed to use his personal influence. Yesterday General Wood held a private interview with the editor of the Lucha, with apparently satisfactory results, as the evening edition did not attack the military governor.

Mr. Robert P. Porter has arrived here accompanied by Lieutenant Colonel Joseph P. Sanger, director of census. He says he will get down to hard work immediately and endeavor to arrange a satisfactory tariff.

The ladies of the Maine Memorial association have decided to ask for funds to decorate the wreck of the battleship on Feb. 15, the second anniversary of her destruction.

CONDENSED DISPATCHES.

Two Republican state tickets have been nominated in Louisiana.

There were 408 deaths in Bombay Feb 7, an unprecedented mortality.

The directors of the St. Louis Merchants' Exchange have prohibited trading on the curb.

The dowager empress of China has temporarily abandoned her purpose to depose the emperor.

The large clothing firm of Miner, Bea & Co. of Boston assigned, with liabilities placed at $450,000.

During January there was an output of 33,100 yearling trout in the New York state fish hatcheries.

The Liberal plebiscite in Mexico resulted in 1,456,482 votes for President Diaz out of a total of 1,543,654.

Mother Elizabeth Strange, founder of the order of Sisters of Mercy in this country and the last survivor of the seven Sisters brought to this country in 1843, died at St. Xavier's convent, near Latrobe, Pa.

Fire In a Florida Town.

CARRABELLE, Fla., Feb. 8.—A fire broke out at this place yesterday evening caused by spontaneous combustion of turpentine and oil in the store of the Franklin Lumber company. The flames quickly spread, and in two hours time the custom house and passenger depot and freight warehouse of the Carrabelle, Georgia and Tallahassee Railroad company, together with the telegraph and express offices the postoffice, steamboat wharf, city market and other buildings, were a mass of ruins.

Coal Famine In France.

WASHINGTON, Feb. 8.—United States Consul Skinner, at Marseilles, reports to the state department that there is a coal famine in France. This is attributed to strikes among the French miners, the withdrawal of British miners from the collieries to join the army, the demand in Great Britain for domestic coal for manufacturing purposes and hurry orders for the exposition. There is talk of repealing the duty on coal for a time.

A Head End Collision.

DUBUQUE, Ia., Feb. 8.—A head end collision between a passenger and freight train occurred on the Milwaukee and St. Paul road at Donnan station. Fireman Humble of the passenger train was killed, Engineer Schaeffer of the passenger badly scalded and S. C. Wyman of Waucoma had a leg crushed. Several others suffered injuries. Both engines and several cars were wrecked. The mishap was due to a dense fog.

Will Not Tax Textile Factories.

JACKSON, Miss., Feb. 8.—The senate has passed a concurrent resolution exempting all cotton and woolen factories hereafter established in Mississippi from taxation for a period of ten years. A poll shows that the measure will pass the house.

Frisco Gets the Big Fight.

NEW YORK, Feb. 8.—San Francisco will be the scene of the Corbett-Jeffries fight. W. A. Brady and George Considine met again yesterday, and the question was practically settled.

An Aged Embezzler.

SOUTH BEND, Ind., Feb. 8.—William H. Styles, 70 years old, was arrested here charged with embezzling $40,000 from the estate of the late Samuel Halstead of New York.

EVER HAVE BACK ACHE?

Backache means Kidney Trouble, Kidney trouble means Bright's Disease, Bright's Disease means death. Watch your kidneys!

Dr. Holtin's Kidney Tablets will cure YOUR kidney and backache troubles, as they have cured thousands of others everywhere.

DEPEW SPEAKS.

Pettigrew Sharply Attacked by the Senator From New York.

WASHINGTON, Feb. 8.—A lively tilt between Dr. Depew (Rep.) of New York and Mr. Pettigrew (Silver Rep.) of South Dakota was an unexpected feature in the early proceedings of the senate yesterday. Mr. Depew read a letter from President Schurman of the Philippine commission flatly contradicting statements made by Mr. Pettigrew in a speech several days ago and then commented caustically upon the methods of the South Dakota senator in introducing the evidence of such men as President Schurman and Admiral Dewey through the statements of Aguinaldo. Mr. Pettigrew replied sharply, repeating much that he had said heretofore, but distinctly reiterating the statements which had called forth the denials of both President Schurman and Admiral Dewey.

Discussion of the financial measure was then resumed, speeches being made by Mr. Turner (Dem.) of Washington, Mr. Bate (Dem.) of Tennessee and Mr. Allen (Pop.) of Nebraska, all in opposition to the pending bill.

The house finished the diplomatic and consular appropriation bill, passing it substantially as it came from the committee. There was some desultory discussion of the Philippine question and the war in South Africa, the principal feature being the speech of Mr. Shafroth in favor of mediation in the British-Boer war under the provisions of The Hague treaty. The diplomatic bill as passed carries $1,743,908.

The committee on foreign relations met to consider the Nicaragua canal treaty. The discussion was animated. While some opposition was manifested, it was not of such a character as to indicate the defeat of the treaty, but that it will be amended there seems to be little doubt.

SIX AMERICANS SHOT.

Filipinos Capture a Supply Train of Nine Carts.

MANILA, Feb. 8.—The insurgents Monday captured a supply train of nine bull carts between Orani and Dinalupijan, killing a corporal and five privates of Company G, Thirty-second infantry. The escort consisted of a sergeant and 11 mounted men. The insurgents weakened the supports of a bridge over a creek, and the first cart went into the stream. While the escort was bunched trying to haul the cart out of the water the insurgents fired a volley from the bushes, killing the six Americans and also two native drivers.

The insurgents have been driven out of Legaspi, on Albay bay, province of Albay.

The rebels of Tayabas province were conveying some 300 Spanish prisoners to Libmanan, and, on arriving there, the prisoners, exhausted and starved, revolted and dispersed their guards with stones and clubs. They also captured a few rifles and barricaded themselves at Libmanan, where they are awaiting the arrival of American troops.

Miss Susan Will Retire.

WASHINGTON, Feb. 8.—The National Woman's Suffrage association will begin its annual meeting here today, to last for a week. Last night the executive committee held a preliminary meeting at the Riggs House at which final arrangements for the convention were completed and other business transacted. Miss Susan B. Anthony, the venerable president of the association, who is now in her eightieth year, announced in a felicitous speech that she would not be a candidate for re-election, but preferred that the association should select some younger person for the active duties of the office. There are several candidates for the position of president, but the impression prevails that the honor will fall to Mrs. Carrie Chapman Catt of New York. Miss Anthony will preside at the meetings of this convention.

New York Insane.

ALBANY, Feb. 8.—The eleventh annual report of the state commission in lunacy shows a decrease in the per capita cost of maintaining the insane during the past year from $185 per annum in 1898 to $178 in 1899. The net annual increase of cases was but 529, the smallest in five years. The total number of insane in the state institutions at the close of the year was 21,374. The total amount expended for maintenance was $3,875,323.97 and for new buildings and equipment and for extraordinary repairs $1,127,501.38. The total number of patients discharged recovered during the year was 1,009, and 931 additional patients were discharged sufficiently improved to enable them to return to their friends.

A Bad Break.

Nell—Mad at him? Why, he wrote a lovely poem to her.

Belle—Yes, but she never read it. When she saw the title of it she tore the whole thing up in a fit of anger. You see, he called it "Lines on Mabel's Face."—Catholic Standard and Times.

Died From Injuries.

MIDDLETOWN, N. Y., Feb. 8.—Anton Slach, an aged business man of Goshen, is dead as the result of being struck by an Erie engine at a crossing Tuesday night.

TO STOP PRIZEFIGHTS

Lewis Bill Favored In New York Legislature.

A REPEAL OF THE HORTON LAW.

Several Gentlemen Appear In Behalf of Athletic Clubs and Fistic Encounters—Fallows' Policy Shop Bill.

ALBANY, Feb. 8.—By a vote of 9 to 3 the assembly committee on codes decided to report favorably the bill of Merton E. Lewis, which provides for the entire repeal of the so called Horton law, which permits prizefighting in the state in regularly incorporated athletic clubs. The bill is slightly amended, however, so as to make it take effect Sept. 1, 1900, instead of immediately, as provided for in the bill.

There was a crowd at the hearing, and good arguments were made on both sides. For the opposition to the repeal the first speaker was Charles L. Feldman, attorney representing the several athletic clubs of Erie county, which have an organization of between 10,000 and 11,000 young men in good standing, according to Mr. Feldman's statement.

"Since the Horton law has been in effect," said Mr. Feldman, "some 600 contests have been pulled off in Erie county, and I say that none of the contestants in those fights have been injured, neither has there been any difficulty. These contests have been held under the direct supervision of the police of the city in a lawful and decorous manner."

Mr. Lewis asked one speaker if a man was not knocked out a week ago in the rooms of the Hercules club, Brooklyn, and for the names of the contestants.

"Yes, that is so. Matty Matthews and Kid McPartland fought there, but the Kid did not receive a knockout blow. He slipped and fell and bumped his head."

Assemblyman Roche of New York was next heard against the bill in behalf of the three athletic clubs in his district. He characterized boxing as a healthful and enjoyable recreation.

The evils of the policy shop in New York city were vividly portrayed in a hearing before the assembly committee on codes yesterday afternoon upon the bill introduced by Mr. Fallows, which is so rigidly drawn as to make the owner of property leased to a person conducting a policy shop and the person who purchases a policy slip equally guilty with the person who conducts the business.

Assemblyman Sullivan has introduced a bill taxing all cemetery corporations the same as other real estate property, which under the existing law is exempt.

National Control For Erie Canal.

WASHINGTON, Feb. 8.—Representative McClellan of New York has introduced a bill for the acquisition of the Erie canal by the United States government and its enlargement to a capacity sufficient for the largest vessels of war at a cost not exceeding $75,000,000. The bill provides that the secretary of state shall negotiate with the New York authorities toward securing title to the canal and that any compensation given the state shall be paid out of the fee collected of the vessels for the use of the canal and not exceeding 25 per cent of these fees in any one year. When federal title is acquired, it is provided that the canal shall be enlarged so as to accommodate warships of a displacement of 15,000 tons. The bill makes an appropriation of $10,000,000 and authorizes the secretary of war to make contracts up to $75,000,000 for the proposed enlargement.

To Build Warships In New York.

NEW YORK, Feb. 8.—The Times this morning publishes the following: "According to a report current in Wall street yesterday, Andrew Carnegie and other capitalists contemplate the erection of an immense shipbuilding plant. It is said that four or five sites along the North river have been inspected, but that elaborate precautions were taken to keep the matter secret, as it was feared that if the news of the scheme was published it would cause a big rise in the price of available property. The reason for selecting this port for the erection of the plant, it is declared, is that for shipbuilding on a big scale it offers unlimited facilities for the transportation of material, in the matter of the depth of the water and a great and ever available market for labor, for it is intended to build battleships and other vessels of the largest size, and the works will give employment to thousands of men."

Germany's Prospective Navy.

BERLIN, Feb. 8.—An American naval officer now in Berlin, who enjoys exceptional advantages for gathering information regarding the German navy, asserts that the German government has made all the preparations necessary to finish the construction of the new warships by 1908 instead of 1916, as the naval augmentation bill seemingly provides. In 1908 the German navy, according to this officer, will have 37 battleships, varying from 11,000 to 13,000 tons, and 30 large and 40 small armored cruisers, thus exceeding in fighting power the navy of France. Before the end of 1905, still according to same informant, Germany will be mistress of the North sea, and her fleet will beat the American over twofold.

A Vase For Dewey.

SAVANNAH, Feb. 8.—The citizens of Savannah will present Admiral Dewey with a splendid silver vase upon the occasion of his visit next month. The presentation will be at the public reception. The inscription will commemorate the battle of Manila and the date of the visit. Relief figures will show the Savannah, "the first steamship that crossed the ocean," and a modern fast passenger steamship.

Nash Demands Resignation.

COLUMBUS, O., Feb. 8.—Governor Nash, for causes not stated, has demanded the resignations of all the members of the board of penitentiary managers, and they are in his hands. The new board has not yet been appointed. The old board had all been reappointed by Governor Bushnell and the nominations hung up in the senate.

Hot In Argentina.

BUENOS AYRES, Feb. 8.—The terrible heat continues. There were 267 sunstrokes on Monday and 187 Tuesday. The fatal cases show a diminution, but numerous bodies are decomposing at the cemetery owing to the strike of the gravediggers for higher wages. The maize crops are scorched and promise only a small yield.

February 12—Union Bible class of Rev. D. M. Stearns, in Y. M. C. A. Hall.
February 17—Social for members of Junior Department of the Y. M. C. A.

Effect of Bryan's Visit.

As had been anticipated the visit of Col. Bryan to this city drew out an immense crowd and made the occasion the most notable political event in the history of the local Democracy. The greeting to Col. Bryan was spontaneous to a very great degree, and was typical of the ovation that he meets with wherever he goes—be it in Democratic or Republican sections.

The effect of Col. Bryan's visit to Plainfield will probably not be in the conversion of Republicans to his political ideas by the exploitation of those particular principles in his speech at Music Hall yesterday afternoon, but it would be denying what was plainly evident to even the most casual observers to say that the enthusiasm evidenced yesterday will not quicken Democrats themselves, and make them more vigorous and aggressive along lines of policy which have heretofore been discounted by many of their own political class.

The appearance of Bryan in their midst will undoubtedly inspire partisans who have been lagging since the infusion of new men and radical ideas into the party organization, and thus tend to benefit the Democratic party, which, of course, means a proportionate lessening of Republican good luck in this section.

Assemblyman King is the father of a Legislative measure which will probably be known as the "embalmed beef bill" before the session adjourns. Its purport is to compel every individual or firm engaged in canning food products to stamp on each can filled the date on which such can is sealed. At present it is charged that food products of various kinds are sold in cans that have been filled in some instances for two or more years.

Senator Reed has introduced a bill providing for the compulsory attendance of witnesses summoned to appear in cases heard by the State Board of Arbitration. The act emanates from the State Federation of Trades and Labor Unions, and was brought to Trenton by Henry J. Gottlob. The latter had another bill providing for the appointment of two deputy female factory inspectors.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

Inasmuch as the traffic on the local trolley is assuming large proportions it is considered about time that the Plainfield Street Railway Company erect some suitable kind of a waiting station at some convenient point in the city. Patrons of the road have always been obliged to remain outside in the cold, rain, snow and all kinds of weather.

PARLOR CONFERENCES.

Y. M. C. A. Workers Are In Session in Trenton Today.

Frederick H. Andrews, of this city, chairman of the Y. M. C. A. State committee, will preside at a parlor conference for corresponding members at the State Y. M. C. A. convention which convenes at Trenton today. The members will be given an opportunity to discuss the practicability of the work in small towns.

Among others from this city who will take a prominent part in the convention will be Charles T. Kissan, who will speak on the "Essentials of the Financial System."

On Sunday afternoon Mrs. Henry M. Humphrey, of this city, will address the women's mass meeting.

The Saturday afternoon meeting will be devoted to a parlor conference for presidents' and directors' college work and boys' work.

A GREAT DAY FOR THE DEMOCRATS

[CONTINUED FROM PAGE 1.]

and Daly seated themselves in the carriage and were driven to the North Avenue station. On their arrival there, it didn't take a minute for another great crowd to gather and it numbered two thousand people before the train came in that carried the party to New York. Everybody crowded round trying to skake hands with Mr. Bryan, while small boys were lifted to thetr father's shoulders so that they might see him too.

When the 4:17 local train for New York came into the station the crowd swarmed over the platforms and into the cars. Mr. Bryan and his companions had difficulty in getting in. Then the train pulled out amid the cheers of the crowd, the boom of the Democratic cannon and the music of the band.

The visitors roamed the streets until train time and then departed to their respective homes.

NEW BRUNSWICK PARTY.

Delegation of Middlesex County Democrats Who Came to Hear Col. Bryan.

The Jeffersonians of New Brunswick came to Plainfield yesterday a hundred strong to attend the Bryan mass meeting. They came in all sorts of conveyances that could be procured in Brunswick. They had expected at first that the meeting was to be in the evening and had made arrangements to bring a band with them. Many of the members were unable to get off for the afternoon and so the delegation was not as large as it otherwise would have been.

The committee in charge consisted of Former Assemblyman John F. Mulvey, Former President of the Board of Alderman James H. Fleming, Thomas H. Howley, James A. Lyons, David F. McCloskey, Captain John Smith, Tax Valuer James Toole, Rev. Dean O'Grady, Court Crier E. B. Hayes, John Harkins, William C. Jaques, Edward R. Radel, William Harkins, Julius Heidenfield and Former Assemblyman Luther H. Tappen.

BRYAN WAS PLEASED.

The Nebraskan Felt Very Gratified at the Reception Tendered to Him.

Mr. Martine accompanied Mr. Bryan to Elizabeth on his departure from here. Mr. Bryan expressed great gratification at his reception here. It was the largest afternoon audience, he said, that he had addressed in the eastern states. He had been told that the strong Republican influences in Plainfield would keep many away and that he would talk to a small house so he was pleasurably surprised. He also thanked Mr. Martine very cordially for the warm hospitality shown him at "Cedar Brook" and all through his visit in Plainfield.

Praise for Police and Firemen.

To the Editor of The Daily Press:—Will you kindly give space for expression of thanks and testimony on my part for the very efficient manner in which Sergt. Keily and his corps of officers performed their duty at Music Hall yesterday afternoon. They are a credit to our city and the same may be said of Assistant Engineer Wm. Chamberlin and his brother firemen, who rendered every possible aid for the comfort, convenience and safety of the great crowd that was present. Respectfully, etc,

Maze Edwards, Manager.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Pay up or be Arrested.

In a few days Chief Marshal Campbell, of the borough, will begin to arrest all persons who are delinquent for personal and poll tax for 1899. It is the purpose of the administration to make these delinquents pay up, and as they have been given all the time necessary, it is now considered advisable to put into operation the ordinance regarding this matter.

TRY GRAIN-O! TRY GRAIN-O!

Ask your Grocer today to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it, like it. GRAIN-O has that rich seal brown of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. ¼ the price of coffee. 15c. and 25c. per package. Sold by all grocers

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence to The Press.)

Dunellen, Feb. 8.—Some stire is being made among the local politicians of Dunellen over the approaching borough election that occurs March 13th. While there is no mayoralty candidate to be elected this year there are four other offices to be filled. Two Councilmen are to be chosen to fill the places of Councilman Arthur Gaston and H. C. Gaskill; an Assessor in place of Charles Coriell, and a Collector in place of George W. Day, the proprietor of The Call. It is understood that the Republicans are anxious this spring to place in nomination a party ticket. Heretofore a union ticket has been satisfactory and good men irrespective of party lines have been placed in nomination. Some of the Republicans have intimated that the Democrats were receiving more benefits from such an alliance than is good for the party and there is a feeling of unrest among Republican leaders in consequence. At the primaries soon to be held it is possible that both parties may place in nomination a complete ticket. If this is done there will be a lively scramble for nominations on the Republican side, as it is the opinion that there will be no difficulty in electing a complete Republican ticket. There is not much opposition to either Councilman Gaston or Councilman Gaskill and it is the opinion of many that both men will be renominated if they desire to again serve the borough. With respect to the offices of Assessor and Collector there is liability of a strife for a nomination for these coveted positions. Considerable opposition will possibly be made against George W. Day's candidacy. It is rumored that there are a number of young Republican and some Democrats too, who are axious to secure the collectorship. There are also several men who believe themselves capable of filling the office of Assessor, now held by ex-Postmastor Charles Coriell The anxiety of certain well-known politicians in the borough will not be relieved until after the spring election.

The regular monthly meeting of the Epworth League of the M. E. church was held last night when plans were discussed regarding the proposed fair. The various committees reported progress.

At the fourth quarterly conference of the M. E. church, held Tuesday evening, J. Emmons Henry was chosen a delegate to the electoral conference of laymen to be held at Paterson on April 6th.

The ladies of the Epworth League are meeting with excellent success in their efforts to secure donations to their bazaar to be held next week at Apgar Hall.

PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, February 8.—The cases of William S. Emery and Lynus Walpole, who are charged with selling liquor on Sunday came up before Judge Vail at Elilabeth yesterday morning. The cases have created a great deal of interest in the village, and when court opened a large delegation was present to hear the trial. But those who took the journey were sadly disappointed, as Walpole changed his former plea of not guilty to one of non vult and was released on bail to appear for sentence February 21st. The case of W. S. Emery's was, by request, laid over for two weeks.

Walpole's hotel property has been sold by John R. Marsh to Mr. Hansen, of Plainfield. Mr. Hansen formerly conducted Casper's hotel on East Front street, and will, if he is able to get a license, open up in Scotch Plains about April or May 1st.

Charles Wade, who has been seriously ill for two weeks, is improving slowly, but it will be several days before he will be able to resume his position again.

Mrs. Irving W. Quereau, of New York, has been visiting at the home of her parents, Mr. and Mrs. George W. Randolph

The Bible study class of the Methodist Sunday-school will meet in the class-room of the church this evening.

Mr. and Mrs. James Lawson, of Orange, were the guests of friends in town yesterday.

Wm. S Emery was the guest of friends in Elizabeth last night.

Caronic Nasal Catarrh poisons every breath that is drawn into the lungs. There is procurable from any druggist the remedy for the cure of this trouble. A small quantity of Ely's Cream Balm placed into the nostrils spreads over an inflamed and angry surface, relieving immediately the painful inflammation, cleanses, heals and cures. A cold in the head vanishes immediately. Sold by druggists or will be mailed for 50 cents by Ely Brothers, 56 Warren Street, New York.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

It is seldom that a play is talked about as much as has been the case with "A Man of Mystery," which is coming to Music Hall tomorrow night. This melo-drama has created a sensation wherever it has appeared. It is said to contain some of the strongest dramatic situations ever conceived by a playwright. In one scene a man is placed under the influence of hypnotism by a burglar and made to open his own safe, while a young girl, who comes into the room accidentally, is also thrown under the dread influence of the burglar's superior will power and abducted while in a state of hypnotic somnambulism. The action is all natural and clear-cut, and the attention of the audience is held in a resistless grip from beginning to end of the play. Special scenery is carried by the company, and every stage picture is perfect in detail and bold in its conception. Mark E. Swan, who has written a number of successful plays, is the author, and the production is under the direction of two well-known managers, Chas. Brown and Ed. McDowell.

* * * * * *

An excellent war melodrama by a first-class company of actors will be the attraction at Music Hall, Wednesday of next week. It is called "Chattanooga" and is the work of that genius in stagecraft, Lincoln J. Carter. The piece is in five acts and deals with the exciting events incident to the campaign in and around Chattanooga, Tenn., during the war of the Rebellion. So adroitly has the playwright handled his subject that the play is equally acceptable either side of the Mason and Dixon line. The play abounds in thrills and the climaxes are skillfully handled.

* * * * * *

The three great exponents of necromancy, Servais LeRoy, Imro Fox, Frederick Powell, at the head of an organization of special talent styled "The World's Greatest Magicians," will play a two night engagement in this city at Music Hall Friday and Saturday of next week.

SOUTH PLAINFIELD.

(Special Correspondence to The Press.)

South Plainfield, Feb. 8.—Al Manning is doing some good work on the trolley line extension. The people here are very anxious to have trolley facilities to Plainfield.

The school children are expecting their new organ in at any time now. Some time ago they gave an entertainment and have purchased an organ for the school with the proceeds.

The road over the dam is in bad shape. The pond overflowed during the rains of last week and left the road with some bad holes in it.

The roads through the country were washed in gullies during the heavy rains of last week.

WESTFIELD.

(Special Correspondence to The Press.)

Westfield, Feb. 8.—The engagement is announced of Miss Grace Crosby, daughter of Mr. and Mrs. B. J. Crosby, of Westfield avenue, to F. W. Bailey, of Park street. Miss Crosby is one of Westfield's young society ladies and a favorite with the young people of the town. She is well-known in Plainfield. Mr. Bailey is a brother-in-law to Theo. Class, a well-known resident here, and in business in New York.

A mass-meeting of the citizens of the town will be held Friday evening, February 16th, at the township rooms to consider the plans for a consumer's water and light plant, which the special committee will present.

The members of Central Council, Jr. O. U. A. M., will pay a fraternal visit to Franklin Council, No. 41, at Plainfield, Thursday evening, February 22d.

Mid-winter Camp Meeting.

The Salvation Army is holding a mid-winter camp meeting this week and is drawing big crowds. Adjt. E C. Marsh will address the meeting tonight. Saturday night there will be a special service, Mrs. Adjt. Nankwill will speak on the rescue work of S. A. The hall is made attractive with trees and tents.

Settled Currency Question With Fists.

Two small boys, one white and the other colored, were settling with fists the oft disputed currency question on West Front street late yesterday afternoon when Patrolman McCarty interfered and took the two boys to the station house. They were finally released after receiving a lecture.

Life and Work of Moody.

Mrs. John Ulrich, of College place, is canvassing Plainfield for the life of the great evangelist, Dwight L. Moody. The book was written by his son, Wm. R. Moody, and is therefore authentic and a valuable work.

—The members of the W. C. T. U. are busily engaged in packing a barrel with literature to be sent to the Sailors' Rest in Philadelphia.

—This evening there will be a dance in Washington Hall under the auspices of the local branch of the State Firemen's Mutual Benefit Society.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Mrs. Harry Brokaw, of Somerville, has been visiting relatives in the borough.

J. A. Smith, of Central avenue, has recovered from his recent illness and is able to attend to business again.

Mr. and Mrs. F. E. Smith's children are confined to their home on West Fourth street with whooping cough.

Tomorrow evening Mr. and Mrs. Taylor, of Westervelt avenue, will entertain the Thursday Night Euchre Club.

Rev. George W. Smith, of East Front street, has returned from a visit with his daughter, Mrs. Johnson, of Staten Island.

Among the Americans who registered at the office of the New York Herald in Paris Monday was Miss Annie B. Drame, of this city.

Mrs. Goodman, the aged woman who lives on Manning avenue, and who has been ill with whooping-cough, is reported as being improved. No serious results are feared at present.

Miss Edith Hulburt, of West Front street, who has been detained at home for a number of weeks by a severe illness, expects to resume her position at the local telephone office next week.

Mr. and Mrs. Edward Rushmore, who have been residing at Cranford for a part of the year, will return to Plainfield in the spring, having leased the house corner of Grove street and Rockview avenue.

EARLY INTELLIGENCE.

—Owing to a rush of work a night gang has been employed at the Potter Press Works for sometime past.

—Stone Square Lodge, No. 38, F. and A. M., will hold an important meeting next Monday evening.

—The annual reports of the borough officials will be published for distribution about February 16th, the time of the annual meeting.

—Next Monday evening a regular meeting of Plainfield Council, No. 711, Royal Arcanum, will be held and a full attendance of the members is desired.

—Wesley R. Brokaw, the music dealer, moved Tuesday from East Front street to Park avenue, and he hopes to be able to open his new store tomorrow.

—A cordial invitation is extended to all to attend the Christian Endeavor social at Trinity Reformed church tomorrow evening. A good time is promised all.

—Nagle, of West Front street, is establishing a reputation for selling the best goods at reasonable prices. An inspection is invited. He sells first-class soda.

—The union Gospel meeting in the W. C. T. U. room, 100 Madison avenue, Babcock building, at 8 o'clock this evening will be led by A. D. R. Wilson, of Philadelphia.

—On Friday evening there will be a Christian Endeavor social at Trinity Reformed church. Those attending are requested to bring pencil and paper with them.

—Rev. Thos. E. Houston, the blind evangelist, arrived in Plainfield Tuesday evening and commenced a series of revival meetings at Monroe Avenue church last evening.

—Tender, juicy meat, eaten regular, enriches the blood and strengthens the body. Buy your meat of J. C. Storms, 318 Liberty street, near West Fourth street, if you want good health.

—The name "Leggett's" has been painted artistically on one of the show windows of Leggett's pharmacy in the Y. M. C. A. building. The sign is in a handsome script letter and is the work of Vroom, the well known artist.

—The English exercises at St. Peters Lutheran church are meeting with favor which is evinced by the fact that Sunday evening's service was so well attended. Tonight rehearsals begin for next Lord's Day worship.

—At the meeting of Post No. 73, G. A. R., next week Tuesday evening, arrangements will be completed to bring to Plainfield the four cannons recently presented to them by the Government, and placed in Hillside cemetery.

—C. M. Nagle, successor to Horsley Baker, Front and Grove streets, informs the public that his drugs stand any test. The prescriptions he fills contain only the purest and best material. Give him a trial. Has full stock of fresh goods.

Lokal-Nachrichten aus der alten Heimath.

Aus der Rheinpfalz.

Kaiserslautern. Eine gewaltige Feuersbrunst vernichtete das ausgedehnte Hofgut des Oekonomen Weith in Contwig vollständig. Große Futtervorräthe und sämmtliches Betriebsinventar sind verbrannt. Der bedeutende Viehbestand wurde nur mit großer Mühe gerettet. Der Schaden ist enorm.

Landau. Hier wurde der Sandgrubenbesitzer Tücks in seiner Sandgrube verschüttet und erstickte. Von seinem Sohne wurde er später gefunden.

Pirmasens. In öffentlicher Stadtrathssitzung beschloß man bei zuständiger Behörde um die Einrichtung eines Reformgymnasiums unter Aufhebung der Realschule und des Progymnasiums, welch' beide Anstalten jährlich aus dem Stadtsäckel 25,000 Mark erfordern, zu bitten.

Württemberg.

Stuttgart. Dem württembergischen Verein für Volksheilstätten, der zur Zeit eine Heilstätte für Lungenkranke mit einem Kostenvoranschlag von 450,000 Mark errichtet, wurde durch das Deutsche Centralkomite in Berlin ein Betrag von 25,000 Mark bewilligt. —Von einer schrecklichen Kaninchenplage sind die Gärten und Weinberge des Geländes, das sich vom Kriegsbergtunnel bis zur Gaiseiche und dem Hasenbergwald erstreckt, heimgesucht. Die Thiere haben sich unter Anpassung an die Verhältnisse hinter schadhaften Weinbergsmauern, unter Weinberghäuschen, in Steinhaufen u. s. w. geschützte Wohnungen angelegt, die ihrer Vermehrung vortrefflich zu Statten kamen und sie vor den Nachstellungen durch Menschen schützten. Den Feldwächtern wird für jedes erlegte Kaninchen ein Schußgeld von 50 Pfennigen ausbezahlt.

Gerabronn. Der Anfangs Oktober nach Unterschlagung von Amtsgeldern flüchtig gewordene Bauer und Ortsrechner Kamleiter von Schrozberg wurde in London verhaftet und nach hier zurückgebracht.

Heilbronn. Eine nachahmenswerthe Neuerung hat die Direktion des hiesigen Stadttheaters, Steng-Kraus, eingeführt, indem sie, einer Anregung der „Vereinigten Gewerkschaften" folgend, allwöchentlich eine Volksvorstellung veranstalten wird, bei der der Unterschied der Plätze wegfällt und ein Einheitspreis von 30 Pfennigen zu entrichten ist. Die Auswahl der aufzuführenden Stücke wird von den Vorständen genannter Vereinigung getroffen.

Schwenningen. Zum Direktor der hiesigen Fachschule für Feinmechanik wurde Dr. Gebel in Charlottenburg ernannt.

Tübingen. Ein neuer Dampfwagen nach dem System Serpollet von der Eßlinger Maschinenfabrik, der mit Anhängewagen etwa 100 Personen faßt, soll im Nachbarschaftsverkehr Tübingens benutzt werden. Auch die Einstellung eines zweiten Daimler-Motorwagens steht bevor.

Tuttlingen. Veranlaßt durch die herrschende Wassernoth, hat die benachbarte Gemeinde Seitingen die Erbauung einer Wasserleitung, die zu 40,000 Mark veranschlagt ist und demnächst in Angriff genommen wird, beschlossen.

Baden.

Karlsruhe. Hier stürzte ein Kaufmann Namens Koch aus Hamburg, etwa 30 Jahre alt, so unglücklich von der Treppe seiner Wohnung, daß er sofort todt war.

Mannheim. Nach langwierigen Verhandlungen haben sich die Besitzer der Dampfbahn Mannheim-Feudenheim entschlossen, das auf der Basis früherer Verhandlungen mit der Oberhessischen Bank gemachte Angebot der Stadt anzunehmen. Die Baarkaufsumme beträgt 558,435 Mark. Nach Umwandlung der Trambahn in eine elektrische Straßenbahn wird auch die Linie Mannheim-Feudenheim elektrischen Betrieb erhalten.—Das Tiefbauamt hat dem Bürgerausschuß das Projekt des Ausbaues des Industriehafens auf dem linken Ufer des Floßhafens und der Bonadiesinsel vorgelegt. Die Kosten sind auf 4,679,000 Mark veranschlagt.

Pforzheim. In der Bemkiser'schen Eisengießerei wollte neulich Abends der elfjährige Schlosser Karl Bischoff aus Dietlingen einen Riemen auf die Transmissionsscheibe auflegen und gerieth dabei in das Getriebe. Bald darauf erlag er den erlittenen Verletzungen.

Triberg. Die Gebrüder Siedle'sche Fabrik hier ist in eine Aktiengesellschaft unter der Firma Aktiengesellschaft für Feinmechanik vormals Gebrüder Siedle in Mannheim protokollirt worden. Das Kapital der Gesellschaft beträgt 5,500,000 Mark.

A Mt. Holly, N. C., mechanic was attacked by nervous dyspepsia about eight years ago. He could not retain his food, had palpitation of the heart, nervousness, vertigo, etc. "I tried the best doctors in Gaston Co.," he writes, "and tried nearly every kind of patent medicine without relief. I suffered untold misery for seven years; I could scarcely walk; I only weighed 103 pounds; the doctors said they could do nothing for me. A friend asked me to try Ripans Tabules, and I felt better after the second dose. To-day I eat krout and fat meat without any unpleasant feeling, for I always take a 'Tabule' after eating. I weigh 125 pounds—my weight before I was taken sick. I was past doing any work for two years—last night I hunted possums till 2 A. M."

WANTED—A case of bad health that R·I·P·A·N·S will not benefit. They banish pain and prolong life. One gives relief. Note the word R·I·P·A·N·S on the package and accept no substitute. R·I·P·A·N·S, 10 for 5 cents, or 12 packets for 48 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

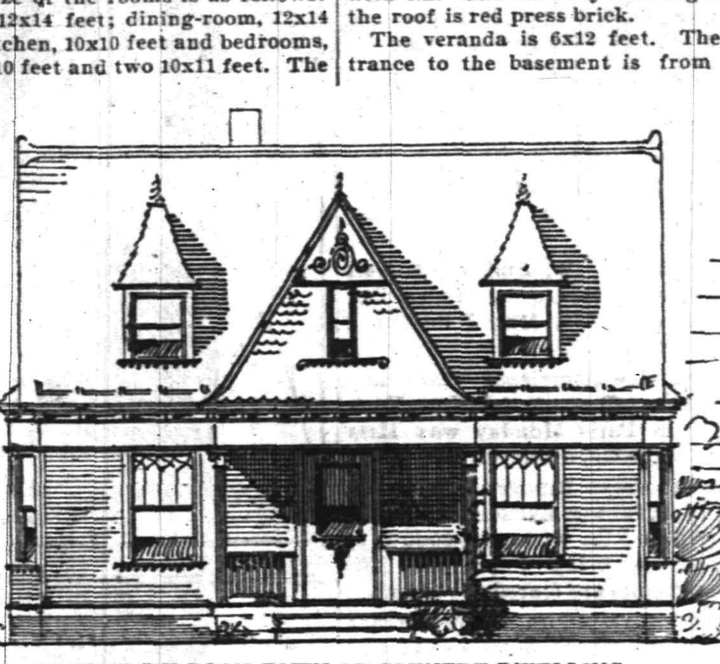
ART IN ARCHITECTURE.

DESIGNED AND WRITTEN ESPECIALLY FOR THIS PAPER.

THIS six-room, small and neat, story and a half house can be erected for about $1,100.

The size of the rooms is as follows: Parlor, 12x14 feet; dining-room, 12x14 feet; kitchen, 10x10 feet and bedrooms, one 10x10 feet and two 10x11 feet. The height of the first story is 9½ feet; second story, 9 feet; basement, 6 feet. All floors are double. The outside walls are sheathed with fence flooring, and two thicknesses of building paper is used between siding and sheathing. The bedrooms on second floor have dormer windows, as shown on the elevation. The finish throughout is pine, painted a color to suit the owner. All floors are pine. The outside of the house is painted three coats, and the roof is painted one coat, all colors to suit the owner. The gable over the front veranda has a panel of composition carving in the apex of the gable. The front of the gables is shingled with round butt shingles. The front door is a sash door. All glass is American, double thick. All flashing is done with tin. The chimney showing above the roof is red press brick.

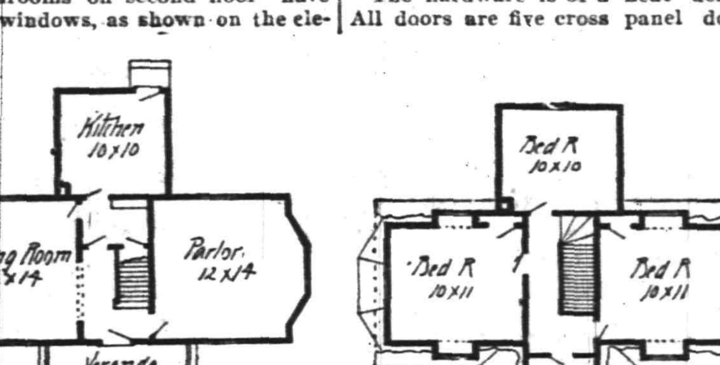


PRETTY SIX-ROOM TOWN OR COUNTRY DWELLING.

The veranda is 6x12 feet. The entrance to the basement is from the pantry. The pantry is 5x6 feet, and the storeroom on second floor is 6x6 feet.

The parlor and dining-room have bays projecting from the ends of the rooms, which make these rooms very pleasant.

The hardware is of a neat design. All doors are five cross panel doors.



PLANS OF FIRST AND SECOND FLOORS.

The studding is 2x4 inches; joist, 2x10 inches; roof rafters, 2x4 inches.

The plastering is two-coat work. The width of the building is 32 feet front, and depth from front back is 23 feet.

All material used throughout is intended to be of first-class quality.

GEO. A. W. KINTZ.

CAUSES OF INSANITY.

Most Cases Result from Monotony Which Is a Thing That Every Prudent Man Should Avoid.

One would be pardoned for thinking that a man who earned his livelihood by working in the fresh air of the country, surrounded by sights delightful to the eye and refreshing to the mind, would be far less liable to brain diseases than the man sitting on a stool over a ledger in the stuffy atmosphere of a smoke-dyed city.

But if statistics prove anything they prove the worthlessness of that possible supposition. More agricultural laborers go mad, per cent. for per cent., than any other workers.

It is the monotony which excites disinterestedness, which leads to depression, which develops into melancholia, which ends, perhaps, in a cure, possibly in a suicidal act, probably in an asylum. It may be safely said that Sunday saves thousands upon thousands from the madhouse. It is the one break from week to week which thousands of natures demand.

The agricultural laborer, the artisan, and other similar classes of workers live on monotony, broken here and there by a small incident which in time becomes itself monotonous.

A man, perhaps, drives rivets; he drives them every day of the week except Sunday; every motion of his work becomes mechanical; he has no interest in his work beyond what it finds for him on Saturday.

He has one thing to do and the more he does that the less he does everything else. Consequently the brain becomes weak for want of more general use, and weakens until it snaps.

A fine thing is a healthy hobby, but a finer, especially for indoor workers, is a sport. Healthy recreation keeps more people out of the madhouse than anything the doctors could do. Nature demands a certain amount of balance, and she will have it or be revenged.—Cincinnati Enquirer.

Centenary of Electricity.

"Electricity as we know it" is just 100 years old. In 1799 the Italian scientist Volta gave definite form to the method of producing the current, and it is from his name that we have the term "voltmeter" to describe the instrument which measures the force of the current, and "volt" as the unit of that measurement.

New Electric Foghorn.

A new electric foghorn consists of three electro-magnets, which operate half a dozen clappers that strike upon a gong at the rate of 36,000 strokes a minute, producing a continuous sound. The effect is increased by the use of a megaphone, which also sends the sound in any desired direction.

SURGICAL DRESSINGS.

They Are Packed in Cans for Transportation to Every Clime in the World.

The agent of a New York medical and surgical supply company gives an interesting account of the method by which British troops in Africa are being furnished with surgical dressings, etc., by his firm.

"At the present time," said Mr. Nowell, "we have all we are able to do in keeping pace with the orders from England for our specialty, which is the canning of surgical dressings for field use. In each can are contained artificial sponges and ligatures together with a bottle of phenol sufficient to furnish a carbolic solution for the instrument used in the operation. Where operations are performed under such conditions as usually exist in a field hospital it is necessary to have dressings the sterility of which can be relied on by the operator without recourse to any makeshifts on the spot. Each can contains exactly what is needed for each operation and every one is hermetically sealed. The cover of the tin, if carefully removed, is of such shape as to serve as a sterilizer tray for instruments, being made in such shape with that object in view.

"While this form of surgical supply was invented and put into practice owing to the need of such a departure among our own troops in Cuba and the Philippines, I am confident that the canned dressings will eventually be depended on by practitioners in private practice, because it is extremely difficult for a surgeon to deal with emergencies such as often arise on true antiseptic principles. The idea may sound queer to a layman, but every surgeon recognizes the value of the invention on general principles, and especially with regard to its availability for emergency service with an army."—Minneapolis Journal.

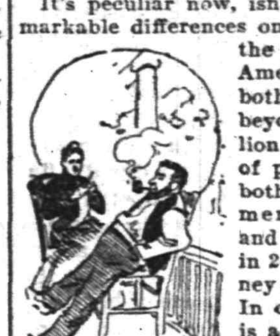
Sylva's Love for Flowers.

The queen of Roumania, "Carmen Sylva," is so passionately fond of flowers that she is positively unable to rest happily in a room where there are no blossoms. As to writing without the neighborhood of flowers, that she has declared to be quite out of the question. Nearly all her literary works have been composed out of doors, in a roofless room, built of reeds and surrounded by a hedge of rose bushes, in the hollows of which are cunningly concealed cages full of singing birds. The floor is a mossy turf. In one corner a tiny fountain pours forth perfumed waters, in another swings a luxurious hammock, in which the queen can rest and dream. Her seat is a mossy bank, her desk a lichened stone, carved into the shape of a writing-table.

Rich Men's Sons

SOMETHING ABOUT THOSE IN CHICAGO

It's peculiar now, isn't it, the remarkable differences one may find in the people of two American cities, both cities away beyond the million mark in point of population, both of them commercial centers, and the two within 24 hours' journey of each other? In other words it is a difference between the rich men and the rich men's sons in New York and Chicago.



Goes Where Society Is Unknown.

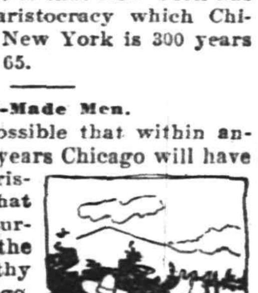
In New York the man with $10,000,000 is accorded a certain amount of space in the newspapers throughout the length and breadth of the land, expects it much the same as an advertiser expects space when he has contracted for it. He gets his advertising through the newspapers by building palatial mansions in his home town, or at Newport, or in the Adirondacks, or at Lenox, or at all of them. He gets more of it by entertaining with a lavish hand the royalty of Europe, when the royalty will accept of his invitations, by having his wife give elaborate receptions and parties at which she wears expensive and sometimes senseless and shocking gowns, and he gets more of it, and probably *the greater part of the whole*, by being the son of his father. For the rich men of New York to-day are the rich sons of rich fathers.

As for the rich man of Chicago his name is seldom seen in a newspaper column outside of his home town. He gets his advertising by putting his name on soap boxes, on hams, on beef cans, on freight cars, and the other necessities of a world of commerce and industry. When he goes away for a vacation he takes his family to some quiet retreat where fashionable functions are unknown, where the wife gets up in the morning and cooks their breakfast of fresh fish which he has caught in the lake or river before the sun is scarcely above the horizon in the east.

The difference is that New York has developed an aristocracy which Chicago has not. New York is 300 years old, Chicago is 65.

Self-Made Men.

It is quite possible that within another hundred years Chicago will have an established aristocracy, but that can hardly be during the life of the present wealthy men of Chicago, or while the story of their life struggles are fresh in the memory of the families they leave behind them. These men glory in the fact that they are self-made men. The enterprises that have made them millions have developed with the growing city.



Following a New England Plow.

Forty years ago Marshall Field was selling dry goods as a traveling salesman for a little Chicago wholesale house; less than 50 years ago Philip D. Armour was following the plow on a New England farm; 50 years ago the late George M. Pullman was trying to support a widowed mother and several small brothers and sisters at the cabinet maker's trade in a small town in New York state. One might follow the entire list of Chicago millionaires through in the same way.

The sons of these men have not, as a rule, become the degenerates that are found among the sons of wealthy parents in New York. The majority of them are careful, conscientious business men who are well fitted to carry on the great trusts that will be left to them.

No one in Chicago could possibly think of associating the names of Charles Hutchinson, of Philip D. Armour, Jr., or any number of other equally bright young business men, with such a thing as a Seeley dinner. And it would be equally impossible for the young society swells of New York to step into the presidency of a great commercial institution and conduct it successfully as Charles Hutchinson; or to manage successfully the great industrial enterprises that are left to Philip D. Armour, Jr. That is where there is a difference between many of the sons of wealth in New York and those in Chicago.

Lesson in Business.

The one great reason for this is that the millionaire father in Chicago is careful of his son's training. When college days are over they are not permitted to think only of the demands of society, but must begin a business training that will fit them for the task before them.

Learning Lessons in Business.

A few days ago another young man, the son of a Chicago self-made millionaire, began the business training that will in time fit him to properly care for the fortune to which he is coming. His case will serve to illustrate the way in which many another prospective millionaire in Chicago have secured their business training.

Honore Palmer, son of Mr. and Mrs. Potter Palmer, but recently graduated from Harvard. His home is in one of the palatial mansions of Chicago. His summers have been spent with his mother at Newport. His companions have been sons of millionaires. To-day Honore Palmer is working as a messenger in one of the great banks of Chicago at a salary of $25 per month, and he submits to the same rigid discipline that is enforced upon the other employes of the institution.

During his first day of service at the bank numerous friends called him up on the telephone, but to all of them was given the same reply: "Mr. Palmer will not be at leisure until after business hours."

One friend, more persistent than the rest, attempted to argue with the man at the bank's end of the wire. He insisted that he must talk to Mr. Potter Palmer's son. But the man at the bank did not know Mr. Potter Palmer's son. There was a Mr. Honore Palmer there, who was employed as a messenger, but he could not be disturbed until after business hours.

What son of a New York millionaire would submit to such training?

Exceptions Prove the Rule.

"There are exceptions to all rules," says an old adage, and another says "it takes the exceptions to prove the rule."

They Paid for Their Sins.

One of the few exceptions in Chicago were the two sons of George M. Pullman. But a short time ago the final papers were filed in the settlement of the Pullman estate. The total of the fortune left was $14,000,000, and out of this the two sons of the dead sleeping car magnate receive only the small sum of $3,000 each a year, while the great bulk of the property went to the daughters.

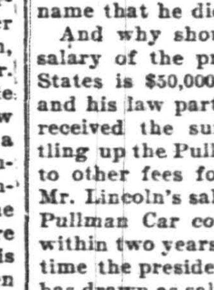
Not only did the father practically disinherit the twin sons, but left them as a legacy a harsh criticism of their actions, which had been distasteful to him. But with all of this there was no talk or threats of a contest, and the two boys are making the best of a bad bargain.

The mother, however, promises to be more lenient, and out of the third of the estate which she secured, is expected to provide for her sons. For this, however, they will have to wait until after her death.

To both of these sons disinheritance came as an unusually hard blow, for they not only lost their interest in their father's fortune, but prospective brides and their fortunes besides. The young women to whom they were engaged refused to marry disinherited sons, and the arrangements for the wedding of one, which had been made, had to be declared off. The million that was offered Cornelius Vanderbilt seems a princely inheritance beside the $3,000 a year which the Pullman boys get.

A Big Attorney's Fee.

The final settlement of the Pullman estate brought to light a good reason for Robert T. Lincoln, a son of the martyr president, not desiring the nomination for president of the United States.



Doesn't Want to Be President.

Several times of recent years Lincoln's name has been mentioned as the possible choice of the republican party for president, but he has not only not sought the honor, but has taken pains to make it clear to such friends as would have pushed his name that he did not desire it.

And why should he want it? The salary of the president of the United States is $50,000 a year. Mr. Lincoln and his law partner, Norman B. Ream, received the sum of $450,000 for settling up the Pullman estate in addition to other fees for legal advice and to Mr. Lincoln's salary as president of the Pullman Car company. All of this within two years' time, and during that time the president of the United States has drawn as salary only $100,000.

The sum of $450,000 for attorney fees seems enormous, and it is. With but one exception, it was probably the largest fee ever paid for legal assistance. The one exception was the fee paid William M. Evarts for his services in the Beecher case. Another large fee that this recalls was paid to Mr. Evarts for defending Andrew Johnson, which was $300,000.

In Chicago the largest fee ever paid an attorney or firm of attorneys was paid to A. S. Trude and W. C. Goudy for their services in settling the estate of Wilbur F. Story, proprietor of the old Chicago Times. The sum received was nearly $300,000. As a Chicago attorney remarked, "such fees do not usually grow on Chicago bushes."

WRIGHT A. PATTERSON.

Reflection on His Markmanship.

"Is he a good shot?"

"Good! Why, he can't shoot any better than a policeman."—Chicago Post.

The Pleasures of Ice Hockey

A Demand for ICE RINKS Being Made by the College Athletes.

MEN with money who are thinking of endowing universities might well heed the cry that is sent up by athletes: "Think of the demand for ice rinks for winter sports and put a few thousands in the 'varsity stocking for the building of a rink where nature can be circumvented and an ice surface made artificially for the use of ice hockey."

There is wide field for the increase of hockey, but the great drawback is the lack of covered rinks where scheduled contests may be played between colleges at the specified time, no matter what the temperature may be outside. Prof. A. A. Stagg is authority for the statement that ice hockey is one of the best sports that could be introduced to the curriculum of a university or school, and that its popularity would spread were there means to insure its regularity, or rather its independence from climatic conditions. That the University of Chicago would vie with Yale or any of the eastern institutions that have taken kindly to ice hockey, if it had a rink provided with an artificial ice machine, is a certainty. But the incongruity of the maroon scheduling a series of contests, say for the second week in January, assuring the visiting team a guarantee, only to find that the weather was warm enough to make canoes or floatboats more stylish than skates, must appeal to the reader. What is true of Chicago, is true of Michigan, Wisconsin, Illinois and other western universities. In the east the rich men have not neglected their alma mater 'varsities, it would appear, for there is a most healthy interest in the game whether the winter be mild or rigorous.

Some may wonder why I make the universities so prominent in this discussion. The reason is that few will deny what the college boys make popular as sport easily monopolizes the attention of sport followers outside the big institutions. As the amateur is in the school, so he is in the great big outside world.

FORWARDS HAVE THE PUCK.

All the good that can come to the athlete's constitution from healthy exercise, such as gridiron sport, obtains in ice hockey. Ralph Hoagland, the old-time Princeton football player, who has achieved a reputation for being a good man in other lines of sport, once declared to me that he used to glory in football, that he raved over baseball, and subsequently became quite as crazy over golf as any Scotch player, but the real bright spot of his active career in sports was his play on the tiger's ice hockey team. Hockey, in many respects, is a game that football players may adapt themselves to—providing, of course, that they can skate. The player must be able to start like a flash, and must always remember that he must skate low. As in the gridiron game, the backs must run "hard and low." Body-checking done by an opposing player in hockey, like interference in football, will throw the careless player off his balance. As in football, again, the hockey man must be an accomplished dodger. He must be able to turn and twist and dodge well enough to outwit the rival who is blocking the way to the goal. The good player must forget that he is on skates, he must forget his feet and while skating as he would run, he must keep his attention on the stick and puck. The latter is the disk that serves the same purpose as the pigskin oval in the gridiron game. The same demand of endurance is made of the hockey athlete as of the football player. No man of weak lungs or heart should essay the ice game.

Although hockey is distinctly an English sport, we owe the Canadians a debt of gratitude for the vogue that the game has in the United States. J. Parmley Paret, the tennis player who just escaped winning the championship, says that two Yale tennis players, Malcolm G. Chace and Arthur E. Foote, were prominent in introducing the game of hockey here. He says of the tennis men, that in one of their Canadian trips they were instructed in the fine points of the game, and upon their return to Yale they roused enough enthusiasm to cause a team to be formed. The sons of Eli went to Canada to play, and were beaten, of course, by the Canadian experts. But from that beginning, hockey has grown into a recognized legitimate United States sport.

It might be well to say that hockey is played on an ice field, shaped like a football or lacrosse field with side lines—in rinks these are the edges of the rinks. There is a goal at each end. The puck, a flat vulcanized rubber disk, three inches in diameter, is used instead of a ball. As the puck slides easily on the ice surface, something like a stone in curling, most of the play is done by passing it from one player's stick to another, instead of striking at it, as the polo player does at the white wooden ball. The hockey stick is of hardwood, with a long blade that gives it a rest of about a foot on the ice. Scores count by forcing the puck

OPPONENTS FACING THE PUCK.

through the four-foot goal posts, set in the ice six feet apart.

There are seven players in a team, four of whom are known as forwards, and they conduct the attack. The others are cover, point, and goal keeper. The last three must be well up in defense play. Occasionally, when the goal is threatened, the forwards loan a man or two, just as changes are made in the line-up of a football eleven, to protect the goal. Before the referee blows his whistle to start the game, the puck is placed between the sticks of two forwards at the center of the field. Of course, the struggle of these players is to pass the disk to other players of their respective teams. Protecting a goal makes spectacular work. One of the rules is that the disk must not be carried except with the hockey stick, but it may be stopped with the hands, any part of the body or with the skate. The goal keeper must be ever on the alert to interpose his stick or body to stop a shoot of the puck for goal. Great skill on skates is a necessary requisite for the goal keeper. He has to stay right before his goal, but when the scrimmages are close to him he has to be everywhere in an instant. He can stop that shooting disk any way other than by lying down or kneeling on the ice. Like the full back in football, he often has little to do except to wait and watch for a threatened score. He cannot expect to shoot the puck very far down the field when he gets it, so he must be alive to the man of his own team who appears to be the least guarded. Often he has to pass it off to one side, so as to prevent another try at goal until he has regained his station and equilibrium.

FORWARDS HAVE THE PUCK.

SAVING THE GOAL.

One of the elements of golf comes in when the play of lifting or lofting the puck is executed. This is accomplished by a sort of a twisting, lifting stroke, and when a forward has this in his repertory he is bound to make it hard, to stop the puck in its course for the goal posts.

The disk is stopped much easier when it is sliding along the ice than when it is lifted by a forward into a struggling group of skaters. Off side play in hockey, like in football, is a grave offense. Under no circumstances may a player pass the puck forward to another member of the team. He must be "on side" and so to retain in the puck without penalty the player in possession of it must keep even or abreast of the others of his team. A few moments' reflection over the rules are sufficient to give any athlete a knowledge of the requirements. The finesse of the game he must master by play.

In Chancery of New Jersey.

By virtue of an order to me directed, issued out of the Court of Chancery of New Jersey, in the cause wherein Estella A. Sebring is Complainant, and Sophia J. Lawson, Catherine L. Lawson, Florence B. Lawson and Clinton F. Lawson are Defendants, I will expose to sale at public vendue on Monday the twenty-sixth day of February, 1900, at the hour of two o'clock in the afternoon of said day, on the premises on the corner of West Seventh Street and Grant Avenue, in the city of Plainfield, County of Union, all those certain tracts or parcels of land described as follows:

First Tract.—Beginning at a point at the intersection of the center lines of Seventh Street and Grant Avenue, as now laid out and opened. Thence running along the center of said Seventh Street in a magnetic course North 46 degrees, 20 minutes East 226.95 feet to a point and corner of Mrs. J. W. Vail's land, (formerly) Thence along her line North 45 degrees 15 minutes West 384.2 feet to a point. Thence South 46 degrees 20 minutes West and parallel with Seventh Street 226.95 feet to a point in the center of Grant Avenue: Thence along the center of Grant Avenue South 45 degrees 15 minutes East 384 2 feet to a point and the place of Beginning. Containing two acres of land.

Second Tract.—Beginning at a stake being the intersection of the center lines of Fourth Street and Grant Avenue, as now laid out and opened. Thence running along the centre of said Grant Avenue in a magnetic course South 45 degrees East a distance of 715.5 feet to a stake and corner of Samuel Q. Lawson's land. Thence along said Lawson's line North 46 degrees 30 minutes East a distance of 226.74 feet to a point in line of lands of E. P. Williams. Thence along said Williams' line North 45 degrees West a distance of 705.39 feet to a stake in the center of Fourth Street aforesaid. Thence along the center of said Fourth Street South 49 degrees West a distance of 226.95 feet to a stake and place of beginning.

Dated January 25th, 1900.

CHARLES A. REED,
Special Master in Chancery of New Jersey.
MURPHY & BLATZ,
Solicitors. 1 25 5 oaw

In Chancery of New Jersey.

To Arthur F. Ducret, Jessie S. Eddison, Mrs. Arthur F. Ducret and Edwin H. Eddison:

By virtue of an Order of the Court of Chancery of New Jersey, made on the day of the date hereof, in a cause wherein J. Harper Smith is complainant and Arthur F. Ducret, et al., are defendants, you are required to appear, plead, answer or demur to the bill of said complainant on or before the Twentieth day of March, next, or the said bill will be taken as confessed against you.

The said bill is filed to foreclose a mortgage given by Hobert E. Rider and wife to J. Harper Smith, dated April Thirtieth, Eighteen hundred and ninety-nine, on land in the city of Plainfield, and you, Arthur F. Ducret and Jessie S. Eddison, are made defendants because you own said lands or some part thereof, and you, Mrs. Arthur F. Ducret are made defendant because as the wife of Arthur F. Ducret you claim an inchoate right of dower in said lands; and you, Edwin H. Eddison, are made defendant because as the husband of Jessie S. Eddison you claim an interest in said land as tenant by the curtesy.

Dated January 19, 1900.

DUNGAN & REGER,
Sol'rs of Complainant.

MRS. LETITIA SEMPLE.

Daughter of President Tyler, Who Once Was Mistress of the White House, Still Living.

Living in the big brick building known as the Louisa home in Washington is a white-haired woman who was the mistress of the white house more than half a century ago. By the world at large her existence has been forgotten, nor would the mention of her name, Mrs. Letitia Semple, recall any memory to the ordinary reader. It was as Letitia Tyler that she first became known to Washington society in the days when the Capitol city was scarcely more than a country village, containing a few fine public buildings separated by long stretches of bottomless mud. She was the second daughter of President John Tyler, and she was a Virginia belle in the days when that was the clearest title to beauty that could be bestowed in this country. Tyler's administration seems a long way back to most of us. It seems strange to think that this serene-faced old woman, who is still active and vigorous, knew and talked with Webster and Clay and Calhoun and the other leaders of that period which was so prolific of great men. Webster she saw often, and describes him as a man of imposing presence which made its power felt in any assembly.

"At the time of our coming to Washington," said Mrs. Semple, in recalling her white house experiences of 50 years ago, "my mother's health was too poor to admit of her taking active charge of the duties naturally devolving upon the wife of the president. My elder sister and I had our newly-made homes in Virginia to supervise, and my youngest sister was only a child. Therefore by common consent the wife of our brother Robert became the mistress of the white house so far as the public side of the life there was concerned. However, my other sister and myself were there a good part of the time. This arrangement continued until after my mother's death, which occurred in the white house. Then my brother established himself

MRS. LETITIA SEMPLE.
(Daughter of President Tyler and Once Mistress of the White House.)

in law practice in Philadelphia, and his wife wished to make her home there. Meanwhile my husband had been appointed a paymaster in the navy, and as that led to his being away from home a great part of the time I came here to take charge of my father's household and remained until 1844.

"There were no great social entertainments in the white house during my father's term. My mother's ill health and later her death forbade that. For the most part we lived openly, hospitably and unpretentiously; in fact, just as we had been accustomed to do at home in Virginia. I remember that it was customary during the sessions of congress to entertain guests at dinner in the white house twice a week. The first dinner was usually attended by about 20 prominent public men, the personal and political friends of my father. The second was on a somewhat larger scale. It usually included members of the diplomatic corps, and the number of guests was generally about 40. But these dinners were always very simple affairs, and they ended at what would be considered now a ridiculously early hour. Then on other evenings it was customary for the president's family to be informally at home—that is, to receive calls from friends and acquaintances. But even on these occasions the visitors always departed before ten o'clock. At that hour the white house was closed and the family retired."

Although Mrs. Semple is nearly 89 years old she takes an active interest in all current affairs. She receives many invitations from people in public life in Washington.—N. Y. Sun.

Mock Pate de Foie Gras.

Boil in separate vessels a nice calf's liver and a tongue in slightly salted water. When very tender let them stand in the liquor until the next day. Then rub the liver to a paste, moistening with melted butter and seasoning with salt, pepper, cayenne, grated nutmeg, grated onion, a teaspoonful of made mustard and as much of Worcestershire sauce. Mix thoroughly and pack in little jars, buttering the inside well and inserting here and there the tongue cut into small bits. When the jar is packed cover with melted butter. Keep in a cool place, and cut into slices for luncheons or sandwiches. It is very pretty laid on a leaf of lettuce with a spoonful of tartar sauce beside it.

Honey an Excellent Food.

Scientific men say that honey is a much more healthful sweet than sugar, and has many valuable properties. It is nutritive, and when used freely with bread makes an excellent food for children. It is a laxative, and may be used advantageously in place of medicine by persons of sedentary lives. Being also the daintiest and most delicious of sweets—an extract of blossoms—it is hardly possible to eat it to an injurious extent. It needs no digestion, as sugar does, and even acts as a digestive aid.

MAYOR FISK'S VISITORS AND HIS MANY LETTERS

[CONTINUED FROM PAGE 1.]

stereotypers, linotype operators, advertising agents, etc., all anxious to secure situations on Mr. Fisk's new paper. He thought all the newspaper fellows in the country must be out of a job.

That night at the ex-Mayor's home another batch of letters confronted him. He amused himself for a time opening them and reading their contents. The suggestions in them were as amusing as they were ridiculous. Some of the letters contained samples of papers, styles, etc. The joke became serious and the work of opening his heavy mail arduous. He finally gave up in despair and put the letters one side until such time as he can compile and place them in his scrap book.

That night Plainfield's former Mayor had a nightmare. He saw a huge newspaper. In the background was visible the outline of a nervous little man holding aloft an immense letter upon which he plainly read the initials S. D. D.

AIDS WORTHY WOMEN.

Woman's Exchange is a Success in Every Way—Officers Were Elected Yesterday.

The annual meeting of the Plainfield Woman's Exchange was held yesterday in the guild room of Grace P. E. church, when there was an election of officers and a review of the past year's work. The reports all showed an increase in interest and results. During the year one consignor received $600 for her work. This was the highest amount paid to a single person. Other women received smaller amounts, showing that a great work is carried on. There are now nearly seventy consignors, and everyone is a worthy person needing all that she receives. The women appeal for the unanimous support of Plainfield people in this grand work.

The election of officers resulted as follows: President, Mrs. O. T. Waring; vice-president, Mrs. J. M. VanBuren; recording secretary, Mrs. Hyatt: corresponding secretary, Mrs. Lemuel W. Serrell; treasurer, Mrs. Stover; assistant treasurer, Mrs. Craig A. Marsh. Mrs. Howard Tracy was chosen chairman of the art department; Miss Ida Yerkes chairman of the housekeeping department; Mrs. D. N. Groendyke chairman of the membership committee, and Mrs. Martin chairman of the consignors' committee.

Address by Miss Goldmark.

The regular weekly meeting of the Women's Parlimentary Club was held this morning at 10 o'clock in the directors room at the Y. M. C. A., when the usual preparatory drill was indulged in. At 11 o'clock the club was addressed in the large hall by Miss Goldmark, of New York, on "The Consummer's League." The rain prevented a large attendance.

Say the Ice is Not Spoiled.

Members of the Plainfield Ice and Cold Storage Company say that there is no truth in the report circulated that the ice on the Watchung pond is spoiled and unfit for use. A large gang of men have been employed on the pond since last Monday cutting ice that is nine inches thick, and it is considered to be the finest quality of frozen water yet gathered.

Entertainment and Sale.

An entertainment and sale will be held this evening and tomorrow evening in the basement of the German Reformed church. It will be under the auspices of the Ladies' Aid Society of the church.

Firemen's Ball Tonight.

The firemen's ball will be held this evening at Washington Hall. There is every prospect of a big crowd and a successful dance. It is arranged by the Firemen's Mutual Beneficial Association.

Spring Jackets

and other wearables are coming to us every day for cleansing or dyeing—not a mite too early.

Take the hint?

Tel. 851.

TWO YEARS IN PRISON.

PLAINFIELD BURGLAR RECEIVED A SEVERE SENTENCE.

He Robbed Mantz Brothers' Clothing Factory—Billy Lee Will be Sentenced for Assault Later in the Month.

William O'Donnell, the tramp, who pleaded guilty to the charge of burglarizing the clothing factory of Mantz Brothers, on West Front street, in Plainfield, last December, and was arrested later at Easton, Pa., was sentenced to two years in State prison yesterday by Judge Vail in the Union County Court.

William H. Lee, the hotel keeper at Scotch Plains, who pleaded guilty to the charge of assault on William Haynes, a Central Railroad conductor, while the latter was trying to eject Lee from a train at Westfield, will be sentenced February 21st.

Aaron Boyer, the young man, of Brooklyn, who was one of the three arrested for attempting to cut and carry off the feed wire of the Elizabeth and Westfield Street Railway Company, and who turned State's evidence against his companions, was discharged on his own recognizance in consideration of his help to the county. His mother and sister were in court, and when they heard of the boy's discharge they burst into tears on each other's neck and had to be assisted from the court room.

John Goodwin and Geo. B. Scheuer got three years each for stealing copper wire from the Elizabeth and Westfield trolley company.

Reception of Superior Police Officers.

The first annual reception of the Superior Officers Police Protective Association and the Patrolmen's Benevolent Association was held at Quien's Hall, Elizabeth, last evening. There was a large attendance which included a delegation of officers and well-known citizens from Plainfield. Chief Tenney, of the Elizabeth police force, was chairman of the committee in charge. Sergeant Kiely, of the Plainfield force, was also a member of the committee.

Help for Cosgrove Fund.

The plan inaugurated by some of the women associated with the board of governors of Muhlenberg Hospital to raise a certain amount of money to send William Cosgrove to his home in California, is meeting with good success and there now seems to be no doubt but what the scheme will be carried out successfully. Contributions of small and large amounts are constantly being received for this worthy purpose.

Wanted Bryan to Visit Brooklyn.

Among the delegations in Plainfield yesterday was one from Brooklyn. The members, mostly aged men, came here for the purpose of trying to get Mr. Bryan to visit Brooklyn and make a speech. It is not believed that they met with much success. In connection with this Mr. Bryan received a telegram while here from Virginia. The people there want a visit from Mr. Bryan. He did not reach any decision while here.

In Patriotic Company

Captain S. C. Peck, of West Front street, was in attendance at Delmonico's, New York last evening, at the quarterly meeting of the Military Order, Legion of Honor, of which he is a member. Admiral Dewey was one of the guests of honor.

To Sing Plantation Melodies.

This evening at the Crescent Avenue church several students from Hampton Institute, Va., will appear and tell something of the work there. A male quartette will sing plantation melodies. A cordial invitation is extended to all.

Honor for an Artist.

In the formation of the National Academy of Arts and Sciences, George Wharton Edwards, of Franklin place, this city, was elected an academician, a decided honor as only a few have been chosen.

Fell Through the Ice.

Yesterday morning Bert Hetfield, son of Lawyer Hetfield, fell in Tier's pond while walking across the ice in a thin place. He was promptly rescued and he went to his home to change his clothes.

Ten New Looms for Silk Mill.

The ten new looms for the Watchung Silk Mill will arrive this week. They are needed very much as there is a big increase in the business, necessitating working overtime.

Old Trolley Cars Taken Off.

The vestibules have been placed on the new trolley cars received from Brooklyn, and they are now in use on the Plainfield road. All of the old cars have been taken off.

THE COURTS

JUSTICE MOSHER.

Summons—Trustees of Babcock estate against Bodine; landlord and tenant; returnable the 14th.

To Cure Constipation in One Week
To Purify the Blood in One Week
To Strengthen Nerves in One Week
To Cure Sick Headache in One Day

Take Cleveland's Celery Compound Tea, 25c. Trial size free. It it fails to cure your money will be refunded. T. S. Armstrong, the apothecary, corner Park and North avenues.

EMERY WILL FIGHT.

Scotch Plains Hotel Keeper Has Engaged Former Prosecutor Marsh to Defend Him.

(Special to The Daily Press.)

Elizabeth, Feb. 8—Linus Walpole, one of the two Fanwood roadhouse keepers whowere indicted by the Grand Jury for Sunday liquor selling, asked the Court yesterday to change his plea of not guilty to that of non vult. Judge Vail said he would sentence him Feb. 21st. William S. Emery, the other indicted tavern-keeper, intends to fight the matter, and has retained former Prosecutor Marsh to defend him. He will be tried Feb. 21st.

PARTICULAR MENTION.

O. S. Rogers, of Central avenue, left today for Olean, N. Y., to attend the funeral of an uncle.

The Thursday Night Euchre Club will be entertained this evening by Mr. and Mrs. Taylor, of Westervelt avenue.

Mr. and Mrs. David T. Kenney and daughter, of the borough, have returned from Lakewood, where they spent a week.

Officer Got There too Late

Early yesterday morning there came a call for a policeman in the vicinity of Spooner avenue, where it was reported that there was a scrap between two men. Patrolman McCarthy was found and sent to the place of the alleged trouble, but the men could not be found. They must have settled their differences and disappeared.

THEIR OWN MIXTURES.

Smokers Who Have Tobacco Compounded to Suit Their Tastes.

The young and inexperienced are ever ready to smile incredulously at the seasoned smoker who offers his tobacco pouch with the remark: "Try some of my own mixture." In some cases "my own mixture" may really be only the smoker's "own" in the sense that he has paid for a few ounces of it, but, in spite of the prevalence of copyrighted and much advertised special mixtures in these latter days, it seems, from what one of the most popular down-town tobacconists says, that the habit of buying one's own exclusive "mixture" is not so extinct as might be supposed.

"Here is a list of the special mixtures we make," said this authority, taking from a corner a large card. "You see, there are about 50 of them on this card. Each mixture is noted down, all the ingredients and the proportions in which they are to be used, and over each one is the name of the customer who first ordered it. The way of it is that a smoker makes his experiments on different combinations of tobacco until he hits upon something which just suits him. Sometimes he buys the ingredients and mixes them himself, but people have so much to do nowadays that more often they tell us what they want, and we do the mixing. It takes weeks sometimes for a customer to get to just the thing he is aiming at, and, of course, it is all guesswork in the meantime.

"But you might be surprised to know how long a man will go on using the same mixture once he has found what suits him. This first name on the list does not belong to the mixture we have been making the longest; it comes first because the list is alphabetically arranged, but that recipe has been standing here for ten years to my knowledge. It was first ordered by an Englishman; his name still goes with it, and he is still using it, but scores of other people also use it who have never heard of him.

"So, you see, it is possible for a man to be using another man's 'particular mixture,' and go on using it for years, thinking it his own exclusive mixture all the time. The way some of these mixtures gain popularity shows that it isn't quite exactly true that there are as many different tastes as tongues, for sometimes what exactly suits one man seems exactly to suit a hundred others. When we find a mixture becoming widely popular we sometimes make it up in quantities, but only rarely. And that, I suppose, is how new 'mixtures' get put on the market."—N. Y. Tribune.

Value of Small Change.

"It isn't safe to start out without a pocketful of pennies any more," remarked a member of the house the other day. "Yet I can remember when I came down into this section of the country, in army blue about 38 years ago, a five-cent piece was very small potatoes. We were camped awhile out here in Virginia, and my headquarters were in the big plantation home. A son of the house and myself became good friends, although he was five, and I nearly 35. One day, in lieu of the candy which I had forgotten to bring him from the near-by town, I gave him a silver half-dime. I had forgotten all about the incident, when some two weeks later he came into my room, and, opening his hand, held out to me on his little pink palm the silver piece I had given him. 'Heah, Mr. Captain, you can have it back,' he said, plaintively. 'It won't buy nuffin.'"—Washington Star.

Evolution.

"It is really wonderful," mused the deep thinker, "how a thing or an entity will have its beginning, run its course, and end exactly as it began. You follow me, I hope?"

"I think I do," said the worldly one. "For instance, a man will get a jag and hit it up. Immediately a jag is developed. Then he may produce a jig, and very likely wind up in the jug."—Philadelphia Press.

Purchased Five Hundred Men's Suits and Overcoats.

We secured for ready cash the finest lot of clothing that we ever handled in this town before, made by the Union Clothing Co., of Rochester, N. Y. Each and every garment bears the union label which is in itself a guarantee of first-class workmanship and latest style, but owing to the lateness of the season we have purchased this lot of goods for less than we ever dreamt of buying them at, and as we buy so we sell. An opportunity that you will not have again this winter to dress yourself up with a suit and an overcoat for almost the price of a single garment. Here are the prices that will talk for themselves:

Lot No. 1—
50 Men's Suits; they are made of very stylish, fancy cheviots, also in blue and black worsted cheviots, good and heavy and up-to-date in style, originally made to sell at $10.00, will be offered at this sale at..... 4 50

Lot No. 2—75 Suits of all-wool worsteds, cassimeres and Scotch cheviots, very stylishly made, suits that sold early in the winter from 12.00 to 13.00, to go at this sale at $5.75. Remember the above lots of goods are new, being just received.

Lot No. 4—73 Men's Overcoats, black or blue meltons and Oxford mixed friezes, this is really an exceptional fine lot of overcoats, if we would have had them earlier in the season we would have retailed them from 10.00 to 12.00, to go at this sale your choice at 5.00

This is only a part of the great number of bargains we will offer this Saturday, be on hand sure as this will be a "Crack-a-Jack" sale.

The stock must go in order to have room for our great Spring Stock of clothing, which we expect soon.

AIM TO UPLIFT THE NEGRO OF THE SOUTH.

Work of Hampton Institute Explained In This City.

A RECORD OF GOOD WORK.

PLEA FOR MONEY TO HELP CARRY ON THE INSTITUTION.

A Man Born a Slave, but Who is Now a Lawyer, Related His Experience, as Also Did the Son of One of the Sioux Chiefs — Stereopticon Showed Various Scenes About School.

The Hampton Normal and Agricultural Institute at Hampton, Va., which was founded by Gen. S. C. Armstrong, for the benefit of the Negro, was the subject of an interesting union public meeting last evening in the Crescent Avenue Presbyterian church.

The aims and purposes of the school in its broad work of fitting missionary teachers for the shops, schools and churches of the south and west, was described in an entertaining way by Rev. H. B. Turner, the chaplain of the school. He told how the institute had been established by Gen. Armstrong immediately after the close of the Rebellion, and the successful manner in which it has been conducted, and the many graduated both the Indian as well as the Negro race; for the Indian has also been included in the great educational work of the institution.

Mr. Turner said that of the 10,000,000 of the Negro race about 8,000,000 lived in the south, and fully 1,000,000 of that number occupied log cabins for homes. He explained in a brief manner how the Negro and Indian had benefitted by the school, and said it was the belief of Gen. Armstrong that the emancipation of the Negro lay in his education and uplifting. The work of the Hampton Institute had demonstrated that the Negro could be educated to be self-supporting, and it was the purpose of this great school to so educate the Negro and Indian in both the academic and industrial spheres of life as to fit him to go out among his own race and teach others to become better men and women by means of education.

Thomas C. Walker, born a slave and trained at Hampton to be a teacher and farmer, and who afterwards became a lawyer, related his experiences and those of others whom he had been among.

John Brazell, the son of one of the most progressive Sioux chiefs, also told of the result of his father's foresight in early putting his family into the ways of civilization. The young Indian gave evidence of the careful training and educational advantages to be had at the Hampton institution. His pronunciation of English was good and he evinced much intelligence.

The meeting closed by the exhibition of a number of stereopticon views showing the school in its beginning and in its present quarters, with scenes of the Negro cabins and Indian tepees from which the students came, and the comfortable homes that they have built since their return. The views were highly interesting, as was also Rev. Mr. Turner's descriptive lecture.

At intervals during the meeting the Hampton quartette favored the audience with several plantation melodies, and their splendid voices drew forth liberal applause.

At the close of the views Dr. Richards made a plea for a collection for the support of the students.

The audience was composed of many colored people, who gave close attention to all that was said, and appeared to be vastly interested in the views, especially when they exhibited any of the Negro scenes taken at the south.

A Fine Breakfast Food.

R. C. Sneden, representing J. T. Cutting & Co., proprietors of Germia, the ideal breakfast food, is in the city, calling on the grocers. His firm is giving away useful books for the fronts of Germia packages The firm is up to date and has contracted for a year's advertising in The Press. Germea is California white wheat, the best wheat in the world, and has no sticky taste.

Joint Prayer Service.

Yesterday afternoon at the First Baptist church there was a joint prayer service held under the auspices of the Women's Foreign Missionary Societies of the First and Park Avenue Baptist churches. The attendance was encouraging and a very helpful meeting was experienced.

—All the latest styles of valentines at Harper's, 411 Park avenue.

MIND CLEARED BY BLOW

LOCOMOTIVE FRACTURED SKULL, BUT INTELLECT IS UNCLOUDED.

Talks With Intelligence Now—Before the Accident He Was Melancholic and Simple-Minded—Hopes to Recover.

Surgeons and specialists in mental diseases will be deeply interested in the case of Frederick Barto, an aged resident of Somerville. Barto has lived for five days, though the front of his skull was torn away and its base fractured by a locomotive that struck him.

He remains conscious. Even more surprising, before the accident Barto was a paralytic and walked with difficulty, supporting himself on a crotch and a cane. He was inclined to be melancholy. His mind was not clear. But now, after a frightful blow on the head that would have instantly killed nine hundered and ninety-nine out of a thousand, Barto's intellect is unclouded and he talks with much more intelligence than he has diplayed for years. His astonished physicians hope for his ultimate recovery.

Barto returned home a few weeks ago from a Newark hospital, where he was under treatment for a year. Last Saturday night a suitor for his daughter's hand visited Barto's house. The old man objected to the visitor's presence and he and Miss Barto left the house together. Barto went to look for them. He was crossing the Jersey Central railroad tracks at New street, when an east bound freight train bore down on him.

Crippled as he was, Barto managed to get off the track, but fell. A sharp iron step on the engine pilot buried itself in his skull and he was dragged several feet.

A CHURCH SALE.

German Reformed Ladies Conducted Affair in Successful Manner Last Night.

Last evening in the German Reformed church an entertainment and sale of fancy articles was enjoyed by a good-sized audience, in spite of the disagreeable weather. The affair was held under the auspices of the Ladies' Aid Society of the church, and those in charge were Mrs. Anguerbauer, Mrs. F. G. Bach, Miss Anna Ptaschinska and Mrs. George Hauser.

A long table prettily arranged with fancy articles was in charge of the above women. During the evening a short programme, consisting of recitations by Mrs. F. G. Bach, August Wolf; zither solos by Miss Margaret Almer, and organ selections by Mrs. Hauser, was greatly enjoyed. A male quartette was expected to be present and render vocal music, but the members were detained. They will attend this evening when the sale will be continued. There will be several additional features in the way of music and recitations.

MR. SAUNDERS' LECTURE.

Compressed and Liquid Air Will be the Interesting Subject.

The lecture on compressed and liquid air by Former Mayor W. L. Saunders to be delivered on Tuesday evening, February 13th, at the Casino under the auspices of the Monday Afternoon Club, promises to be of rare interest. Mr. Saunders familiarity with a comparatively new subject and his ability in telling what he knows would be a guarantee in themselves of a delightful lecture, but in addition, there will be stereopticon illustrations to facilitate a clear understanding of the subject and liquid air will be used in interesting experiments.

Mr. Saunders will be assisted in these experiments by Walter Dickerson and B. C. Ball, well known mechanical engineers.

Mr. Dickerson was for a number of years engaged with Mr. Tripler in his early research in liquid air and is now associated with Thomas A. Edison, at Orange. Mr. Ball is a prominent member of the American Society of Mechanical Engineers.

Entertained Euchre Club.

The Thurday Night Euchre Club was entertained last evening by Miss Bertha Thorn, of Craig place. The usual club membership was present and the customary prizes were awarded. Before the guests departed delightful refreshments were served by the hostess.

Say They Were Not Robbed.

Among those who were said to have been robbed on Wednesday, the day of Mr. Bryan's visit here, were J. B. Coward and Chas. L. Moffett. These men deny this and say that they did not lose any money at all.

Advise Opening of Road.

The commission appointed by the Court to consider the application for a new road through from Highland avenue to Graceland Depot has reported favorably on the opening of the road.

Y. M. C. A. WORKERS GATHER AT PASSAIC.

The State Convention Will Last For Four Days.

PLAINFIELDERS PROMINENT.

FRED H. ANDREWS RESPONDED TO ADDRESS OF WELCOME.

He is Chairman of the State Executive Committee, Which Also Contains the Names of Several Other Plainfield Men — Officers of the Convention — Interesting Topics to be Discussed.

(Special to The Daily Press.)

Passaic, Feb. 9.—From all over New Jersey the leading Y. M. C. A. workers have assembled in this city for the thirty-first annual convention of the Young Men's Christian Association of the state. Plainfield with its large association was well represented and many familiar faces were to be noted in the throng that is in attendance at the convention. The convention will last until Sunday night.

The delegates who arrived yesterday afternoon gathered at the local association building. A reception was held at 5:30 o'clock by the Women's Auxiliary when refreshments were served. Mayor Charles M. How welcomed the delegates to Passaic and extended the freedom of the city to them.

The welcome of the local association was given in a short speech by the president, David Carlisle. Fred H. Andrews, of Plainfield, chairman of the State executive committee, made the response.

The following officers were elected for the convention: Charles T. Kilborne, Orange, president; David Carlisle, Passaic, first vice-president; William R. Cole, Jersey City, second vice-president; A. C. Reeves, Montclair, third vice-president; Roy E. Smith, Rahway, secretary, and Howard A. Black, Montclair, assistant secretary.

In the evening services were held in the First Presbyterian church. Rev. Dr. Wilton Merle Smith, of New York, delivered an address. A prominent feature of the meeting was the singing, led by George C. Stebbins, the Brooklyn singing evangelist.

This morning Rev. Dr. C. I. Scofield, of East Northfield, Mass., conducted the Bible hour on "The Holy Spirit;" Prof. George Gunton, president of the Institute of Social Economics of New York city, delivered an address on "The Civic Duty of Our Educational Department;" Walter M. Wood, educational director of the Chicago association, read a paper on "Methods of Awakening Interest in the Educational Department." In the afternoon Rev. Dr. Charles Wood, of Philadelphia, will speak on "The Boy and the Man;" Dr. W. H. Kinnicutt, physical director of the Cleveland association, will speak on "The Mission of the Physical Department," and H. L. Simmons, general secretary of the Brooklyn association, will speak on "Successful Summer Work." In the evening at the North Reformed church, Rev. Dr. Anthony H. Evans, of New York, will deliver an address on "The Kind of Christian Needed by the Times."

The election to fill vacancies in the State Executive Committee, caused by the retiring of those whose terms have expired, will occur Saturday afternoon. The present board is made up as follows: Frederic H. Andrews, chairman, Plainfield; Charles T. Kilborne, vice-chairman, Orange; Frederic M. Geer, treasurer, East Orange; Edward P. Holden, recording secretary, Madison; Elkanah Drake, Newark; William D. Murray, Plainfield; E. S. Campbell, New Brunswick; James H. McGraw, Madison; F. W. Langstroth, Rahway; E. S. Cowles, Jersey City; H. W. Hoot, Newark; J. R. George, Hoboken Railroad; John S. Voorhees, New Brunswick; Dewitt Cowdrey, Passaic; J. William Johnson, Summit; Frank E. Kilpatrick, New Brunswick; Leonidas Dennis, Plainfield; Frederick W. Day, Summit; Joseph H. Wright, Trenton; Edward W. Dunham, Trenton, and Henry Hale, Orange.

No Systematic Numbering.

There is a great deal of disatisfaction expressed over the way Westervelt avenue, in the borough, is numbered. Both old and new numbers are used and they are so mixed that it is very confusing to persons in search of a number. This matter should receive the early attention of the Mayor and Council.

Bargains in Groceries.

The entire stock of groceries, provisions, in the store lately occupied by B. D. Newell, 222 East Front street, are being sold in small lots, to suit purchasers, at very low prices, in order to close them out. Persons in search of bargains should call at once.

OLD HORSEMAN DEAD.

Henry Hayes Died at His Home This Morning at the Age of Eighty-five Years.

Henry Hayes, aged 85 years, who has been a resident of Plainfield for the past sixteen years, died this morning at his home, 1106 Dunellen avenue, after a long illness with a complication of diseases. Mr. Hayes was a well-known person in this vicinity, and was a great lover of horses. He owned a trotter "Andy," and was always a familiar figure on the track at the Gentlemen's Driving Park at the matinee races. His wife died a number of years ago. Mr. Hayes was born in New York City, spending the early part of his life there. Mrs. James Morrison, of this city, and another married daughter survives him. The funeral services will be held from the late home Monday afternoon next at 4 o'clock. Interment will be private.

HIS DEATH WAS SUDDEN.

Apoplexy Cut Henry Force's Life Short Without Warning—An Exempt Fireman.

The community was startled this morning to learn of the sudden death of Henry Force, aged about 60 years, of New street. Death was due to apoplexy. Mr. Force has been in his usual good health, although during the past year he had complained of heart trouble. He was not able to work yesterday on this account. When he was taken ill this morning Drs. Adams and Tomlinson were summoned, but Mr. Force was dead when they arrived. His death was a great shock to the family and neighbors. Mr. Force has been a resident of this city for many years. He was a carpenter by trade and always worked at it. He was a member of old Gazelle Engine Company, and later joined the Exempt Firemen's Association. He leaves a wife, three daughters, one of whom is married, and four sons.

FUNERAL OF CHAS. PERRINE

Railroad Victim's Obsequies Held Yesterday Afternoon—Interment at Hillside Cemetery.

The funeral services of Charles M. Perrine, who met his death on the Jersey Central Railroad Monday night when he was struck by an engine, were held yesterday afternoon at 1 o'clock from the residence of his sister, Mrs. John Giles, on Highland avenue, and there was a large attendance of relatives and friends. Rev. S. P. Simpson, pastor of St. Stephens' P. E. church, officiated. He read the funeral and burial services at the house, but did not officiate at the interment in Hillside Cemetery. There was a handsome floral display, one large pillow of choice flowers coming from a relative.

Mr. Perrine was the son of Hulett Perrine, of Rahway. He leaves three children, two by a former marriage, Stephen and Miss Jemina Perrine. Those who served as pall-bearers at the funeral were relatives and friends.

A JAPANESE EDUCATOR.

Visits the City Public Schools and Admires the Manner in Which They Are Conducted.

The Plainfield schools had a distinguished visitor this morning in the person of Dr. Yoshito Tukane, professor in the University of Tokyo, Japan. Dr. Tukane is now studying American affairs after spending some time in the Germany universities. Supt. Maxson conducted him through the schools this forenoon, showing him the work from primary to High School. At the Franklin School he spoke interestingly to the pupils. The Plainfield schools seemed to produce a very favorable impression on him.

MISS HARTFELDER SURPRISED.

A Party of Friends Paid Her an Unexpected Visit Last Night.

A surprise party was given to Miss Minnie Hartfelder, of Grove street, last night. It was arranged by Miss Annie Schlick and Jos. Robinson. Dancing was the feature of the occasion and it was early this morning when the guests departed for their homes. Those present were: The Misses Annie Schlick, Gussie Kilnsman, Mable Ayers, Bessie Walls, Eva Doeringer, Jennie DeCamp, Edith Robinson, Ella Wheeler, Maggie Rickert, Florence Rickert, Flora Roseberry, Alice Davie, Lillie Hartfelder, Minnie Burke, Mary McCauley; Eddie Grannatt, W. Hepburn, W. Baldwin, Jos. Robinson, F. Koller, David Adleman, William Hartfelder, Frank Rickert, Chas. Hartfelder, E. Hoffman, William Davie, John Doud, Edward Schroop, Howard Huff and Walter Roll.

Miss Walsh, of West Summit, who has been visiting Miss Molloy, of Glenside Park, will leave Monday for Virginia, where she will spend the balance of the winter.

WHOLESALE ARREST OF COAL THIEVES.

Raid Made by Detectives and Police Last Night.

ALL HELD FOR GRAND JURY.

TONS OF BLACK DIAMONDS FOUND IN THEIER POSSESSION.

It is Said the Gang Have Made a Practice of Boarding Coal Trains at Greenbrook Tanks and Throwing Off Coal in Large Quantities, and Then Picking it up in Bags Which They Carried.

A wholesale arrest of coal thieves was made last night by Central Railroad Detective William J. Dogherty, Sergeant Kiely, Patrolman McCarthy and two Central Railroad officers.

The men arrested are Eugene Wheeler, John Ward, Patrick Meehan, John Laird, Clarence Wheeler, John Richards and James Wheeler. For many months the Central Railroad road Company has been annoyed by a gang of men who make a business of boarding coal trains up near the "tanks" west of Dunellen and when the trains reached a point near this city throw off quantities of coal.

The company suspected that the thieves were making a business of stealing the coal and selling it to various people at a reduced rate. All kinds of coal was stolen and tons of both stove, chestnut and lump coal has been thrown from the coal cars. The lump coal was the most in demand, presumably because it could be the more conveniently handled.

Detective Dougherty and his assistants have for a long time been on the look out for the coal thieves. Recent development led Dougerty to suspect both of the Wheelers and Ward. Wheeler lives at 1781 West Front street in the vicinity of the Naylor Paint Works. The others occupy houses in what is familiarly known as the "Eight Row."

Last night Detective Dougherty and his assistants secured the services of Sergt. Kiely and Patrolman McCarthy. The officers surprised the inmates by making them a call and evincing a desire to search their homes. The search did not surprise Detective Dougherty and his officers as much as it did the Plainfield police.

In the barns and cellars of the suspected men were found several tons of coal. At the home of Eugene Wheeler was found about a ton and a half of lump coal. At John Ward's house fully two tons of coal were discovered in the cellar. A ton and a half of chestnut and steamboat coal was unearthed at the home of John Richards. In a barn at the home of Clarence Wheeler there was brought to light about 12,000 pounds of lump coal while nearly five tons of chestnut and stove coal was found concealed in the cellar. John Laird's supply of coal was not as great as that at some of his neighbors, only one ton of stove coal being found in his cellar. It is estimated that in all there were fully ten tons of coal found at the homes of these men.

The men were placed under arrest and brought down to the station house and locked up. This morning they were arraigned before Justice Nash and held to await the action of the Grand Jury on a charge of larceny.

James Wheeler, father of Clarence Wheeler, was also arrested charged with being the receiver of stolen goods. James Wheeler's bail was fixed at $200 and that of John Ward at $100. The others were held in $50 bail each.

When arraigned the accused men had nothing to say. It is understood that John Ward had used a horse and wagon to carry away the stolen coal. Clarence, the younger of the Wheeler boys, admits having thrown coal from passing coal trains. Ward claims that the coal found at his home had been picked up along the railroad tracks.

Road Vacated.

The Cranford Road Board held a meeting yesterday afternoon to vacate a part of what is known as the old Westfield road. The Road Board will go out of existence when the new township law becomes operative after election.

Won a Prize at a Dance.

Last Monday evening a ball was given at Roselle, when Miss Orlowsky, of that place, and Alex. Fillmore, of this place, won a handsome album as a prize for the best dancers on the floor.

To Sing at Y. M. C. A. Meeting.

Rev. Thomas Houston, the blind evangelist and singer, will address the men's meeting at the Y. M. C. A. Sunday afternoon at 4:15 o'clock. Mrs. George W. Gardner will also sing.

THE FIREMEN'S DANCE.

CITY OFFICIALS IN PLENTY ATTENDED THE AFFAIR.

Given Under the Auspices of the Firemen's Mutual Benevolent Association—Over 300 Were in Attendance.

The elements did not favor the firemen's ball held in Washington Hall last evening, but the public did and the public was in the majority. The ball was, in consequence, a decided success, and netted a goodly sum for the treasury of the Firemen's Mutual Benevolent Association.

There was a good turnout and numbers of city officials honored the ball with their presence for a little time. The dancing began at 8:30 o'clock with music by Prof. O'Reilly and continued without interruption until well along into the morning. Of course, the stormy weather did have its effect on the attendance, but there was a good crowd, over 300 being present, and the sale of tickets in advance made it even more successful.

J. E. Bailey looked after the box-office, Fred Breem was in charge of the refreshment department, while Harry Bush and J. Daly were in command on the floor. The committee of arrangements under which the dance was conducted consisted of Wm. F. Townley, president; W. A. Ross, vice president; Fred Breem, secretary; J. H. Daly, treasurer; H. C. Bush, J. E. Daly, Geo. Feiring, L. M. Dunavan and George Mebl, Jr.

DR. CARROLL'S REPORT.

President McKinley's Commissioner's Work in Porto Rico is Shown in 813 Printed Pages.

The printed report of Dr. Henry K. Carroll, President McKinley's special commissioner to Porto Rico to investigate the internal affairs of that island, has just been issued. Dr. Carroll, who resides on Westervelt avenue, in North Plainfield, presented a copy to The Daily Press yesterday. The report is very voluminous, consisting of 813 pages, which includes many matters of great interest in reference to the new possession, with recommendations of Dr. Carroll to President McKinley. The substance of these recommendations has already been printed in The Daily Press.

The appearance of the report at this time is very opportune, in view of the fact that there is a great deal of debate and consideration in Congress as to what policies shall be inaugurated by the Government for the benefit of the Porto Ricans.

AN INFORMAL RECEPTION.

Chief and Mrs. Grant Arranged a Pleasant Affair for Mr. and Mrs. Louis Miller.

Chief and Mrs. George W. Grant gave an informal reception last evening at their home on West Fifth street to their daughter, Mrs. Louis Miller, and her husband, who were recently married. The parlors and dining room were thrown together for the accommodation of the guests who numbered sixty and a very pleasant evening was spent.

Miss Grunnell, of Ocean Grove, a niece of Chief and Mrs. Grant, gave several recitations, and there was also some instrumental music. The little daughters of Mr. and Mrs. J. H. McVey quite captivated the party with the cakewalk they gave. Refreshments were served during the evening and the gathering broke up about midnight.

The "R. C. T." Social.

Although the afternoon proved to be stormy, the first meeting of the "R. C. T." Social was a thorough success. Fourteen charming young ladies in the vicinity of East Sixth street have recently organized this social, and yesterday the first gathering was held at the home of one of its members. Between 2:30 and 3 o'clock the girls gathered in the library, which had been handsomely decorated in "red" for the occasion, and spent an enjoyable time. Part of the entertainment consisted of music, for each of the fourteen are "artists." A short business talk was followed by refreshments.

Character Sketches.

Lieut. Charles E. Scott, of Indianapolis, will appear at the Franklin Public School this evening at 8 o'clock, giving a repertoire of character sketches from Field, Reilly, Twain and other popular authors, for the benefit of the school. A small admission fee will be charged.

Loyal Temperance Legion Officers.

The members of the Loyal Temperance Legion have elected the following officers: President, Irving VanWinkle; vice president, Mary Bittle; secretary, Leo Moore; treasurer, Mamie Moore.

One week from Sunday Frederick H. Andrews will assume his position as superintendent of the Sunday-school at Warren chapel.

HOW EASTON LIKES BRICK PAVEMENTS.

Mayor Rockfellow Went There to Find Out.

AN UNFAVORABLE REPORT.

MAYOR THINKS HIS RECOMMENDATION IS BEST.

Would Have Macadam Roads, With Three Foot Brick Gutters in the Business Section—Same Plan He Favored in His Annual Message to the Council—Visited Easton Last Tuesday.

Mayor George W. Rockfellow went to Easton, Pa., last Tuesday to look at the vitrified brick pavements there with a view as to their practicability for use in Plainfield. The Mayor returned still retaining the belief that a good macadam pavement would answer the purpose best in Plainfield.

Mayor Rockfellow told something of his visit to a Press reporter. He found, he said, that the brick pavements were not an unqualified success, judging from the experiences of the Easton officials. During the five or six years that they had been used they were in some streets now rather badly chipped. The edges of the bricks were chipped off by the heavy shoes of the horses.

The worst feature of this style of permanent pavements he found to be their slipperiness. When wet they were slippery, but when there was a little frost and dampness in the air, they become almost impassible and horses had great difficulty in standing up on them, much less hauling heavy loads.

The Mayor expressed his opinion that the recommendations he had made in his message that a macadam pavement with a gutter of vitrified brick, three feet wide on either side, would be far better than any other plan. Carriages at the curb could stand on the brick part of the roadway, and the water in the gutters would flow along the brick gutters, and so not injure the road.

A CITY WITHOUT SOAP.

Sixty Thousand Japanese Who Had Not Learned How to Bathe.

Miss Kate V. Johnson, of Madison, Ind., who has lived in Japan for thirteen years, talks in an interesting way of the little people of that country, who live without chairs, bedsteads, knives, forks, spoons or soap; of the women who paint their teeth black and shave their eyebrows to indicate loyalty to their husbands; of the carpenters who make long beautiful shavings by drawing their planes towards them and who place the back door at the front of the house; and of their books in which the preface is placed at the end of the book and foot notes at the head of the page.

Miss Johnson first went to Akita, a city of 60,000 persons, and found it a city without soap. Naoye Saito, a young Japanese girl who came to live in her house, had never had a soap bath in her life. She kicked and screamed when her first bath was given her and said that they were trying to kill her. A cake of Ivory soap was sent Naoye Saito's father with instructions to use it on his person. He came back the next day and asked for another cake, saying he had used it all up.

Before Miss Johnson left Japan last summer she took Naoye Saito, who had been with her for ten years, back to her native province and left her to earn living. While still in Tokio, a few days before sailing for America, Miss Johnson received a letter from Naoye in which she said: "I forgot one thing very necessary to our comfort in this place. Will you please go to the grocery store and buy me a dozen cakes of Ivory soap and send them to me at once?" She send a money order to pay for it, and the soap was sent.

Old Rahway Citizen Dead.

William Marsh, one of the oldest and highly-respected citizens of Rahway, died at his home, 84 Hamilton street, that city, about midnight of Wednesday. He had a number of friends in Plainfield who will be pained to hear of his death. The funeral services will be held in the Methodist church Sunday afternoon at 2:30 o'clock.

Headline on Wrong Item.

By mistake The Daily Press announced yesterday that a colored physican is to locate at Netherwood. This error was made in a headline over a small item. Dr. J. C. Anderson is the colored physician and he is to locate at 636 West Third street. The correction is made in justice to T. D. Wilson, of New York, who is to locate on Belvidere avenue.

WHAT CUBA NEEDS.

Mr. Porter Mentions Several Pressing Questions.

RESPONSIBILITY OF UNITED STATES.

Present Immigration Laws Should Be Modified and Made Less Stringent—Improvements In Havana Prison—Gompers at Work.

HAVANA, Feb. 9.—Mr. Robert P. Porter, in the course of an interview, said:

"So far as I can judge the matters requiring the immediate attention of the governor general are the modification of the present immigration laws, the abolition of direct railway taxation, the abolition of the 3 per cent tax on real estate transfers, the inauguration of a complete and just system of internal taxation and the general revision of the tariff with a view to simplifying its administration.

"The adjustment of these matters, together with the general work with which the war department is occupied, may proceed without involving questions which the people of the United States and of Cuba are not yet prepared to pass upon. The question whether the United States government has the right to grant privileges unless it is prepared to defend these afterward is one of grave import. Foreigners, including Spaniards, hold the United States responsible for the protection of property in Cuba. Before any considerable investments are made ordinary prudence dictates that the future of the island should be removed from anything like uncertainty.

"Scarcity of labor, like scarcity of capital, is a menace to industrial prosperity. The present immigration laws are too stringent. They should be modified so as to permit thrifty Spaniards and Canary islanders to see some temptations drawing them this way. Many of the Spanish soldiery formerly here had become acclimatized. They know the country and, in my opinion, would gladly return to Cuba to engage in peaceful pursuits, and they would do so but for the severity of these regulations."

Considerable improvements have been made in the vivac, the city prison. Every inmate is now supplied with a mattress and a pillow covered with oilskin which is washed every day.

Mr. Samuel Gompers, in the course of an address to the committee of the Cuban trades unions, said he regretted that there was not more unity among the Cuban workmen, adding that in the United States "all workmen present a united front to the enemy."

Senor Rodriguez said that Cuba could not be compared with the United States, as the latter had been independent for more than a century and all jealousies had died out, whereas in Cuba the former rulers had not as yet come to a realization of the change which had taken place, nor would they until a considerable time had elapsed.

Baron Fava Greatly Honored.

WASHINGTON, Feb. 9.—Baron Fava, the Italian embassador here, has lately received a distinguished honor from the king of Italy and the Italian government by having the Grand Cordon of the Order of the Crown of Italy conferred upon him. This is the last and highest order in Italy, and its bestowal upon Baron Fava is regarded as a mark of special favor for his services in Washington covering 18 years. The decoration consists of a heavy ribbon from shoulder to hip with a large plaque bearing a crown on the breast and a heavy jeweled cross at the hip. This is in addition to the rank of senator which King Humbert conferred on the embassador during his visit to Italy last summer.

Death of Colonel Benyaurd.

NEW YORK, Feb. 9.—Lieutenant Colonel William H. H. Benyaurd of the United States engineer corps, is dead in this city. He was born in Pennsylvania and was graduated from the Military academy at West Point in 1863, going into active service at once as a first lieutenant in the corps of engineers. During the latter part of the war he was engaged in the construction work on defenses at Pittsburg and Portland harbor, Me., and in engineering work with the army of the Potomac. He was brevetted captain Aug. 1, 1864, for gallant service before Richmond and a major April 1, 1865, for meritorious service at the battle of Five Forks.

Molineux Juror Again Sick.

NEW YORK, Feb. 9.—Juror Manheim Brown, the juror whose illness caused an adjournment of the trial of Roland B. Molineux from Jan. 24 to Feb. 5, was taken ill again yesterday while the jury was absent from the courtroom at luncheon at the Astor House. The illness of Mr. Brown was not regarded as serious, but it was thought advisable for him to remain in his room during the afternoon, and the case was adjourned until this morning, when Assistant District Attorney Osborne is expected to complete the summing up for the prosecution.

French Capital In Nicaragua.

WASHINGTON, Feb. 9.—The minister of Nicaragua, Mr. Corea, confirms recent press reports that $10,000,000 of French capital is to be enlisted in Nicaragua and that important concessions will be granted to the French organization that is to foster the scheme, including the right to issue paper money similar to the American greenbacks under government supervision and backed with a coin reserve of 50 per cent of gold or silver.

Elopement Frustrated.

BUFFALO, Feb. 9.—Jasper Fernan, a farmer of Horseheads, N. Y., came to this city in search of his daughter Alta, who, it was said, eloped with Dell Insing. At the Lackawanna station he met the couple as they alighted from the Manhattan special. The young girl begged her father to permit her to marry Insing, but finally consented to return home with her father.

Drowned In Chautauqua Lake.

JAMESTOWN, N. Y., Feb. 9.—James Ripley of Chautauqua while driving over the ice on Chautauqua lake was drowned. He was alone at the time. His body was found yesterday together with that of his horse, which had also been drowned.

Killed by an Overhead Bridge.

MIDDLETOWN, N. Y., Feb. 9.—William M. Carlough, a brakeman on the Erie railroad, whose home was at Waldwick, was found dead on top of a freight car at Goshen. He had evidently been struck by an overhead bridge.

PORTO RICO MATTERS.

A Difference of Opinion as to the Meaning of "United States."

WASHINGTON, Feb. 8.—The reports on the bill framed by the ways and means committee, imposing duties equivalent to 25 per cent of the American tariff on goods imported into Porto Rico from the United States and vice versa were submitted to the house yesterday. The Republicans of the committee, except Mr. McCall (Mass.), agreed to report in support of the bill, devoting a considerable portion of their argument to sustaining the contention that the clause of the constitution declaring that "all duties, imposts and excises shall be uniform throughout the United States" is not applicable to our new possessions, which they say, are not United States territory within the meaning of that declaration.

The Democrats, together with Mr Howlands(Nev.), took the contrary view Mr. McCall, the dissenting Republican practically holds with them. He made a separate report, saying he cannot support the bill, because it does not follow the rule of uniformity prescribed by the constitution—a rule which, in his opinion, governs congress in legislation for the territories of the United States. Mr. McCall is unsparing in his denunciation of the policy to which the bill will commit the government.

The majority report was submitted by Chairman Payne. It says the 25 per cent duty is necessary to prevent United States manufacturers of spirits and cigars from being at a disadvantage. A considerable portion of the report is devoted to a discussion of the crops of Porto Rico and markets for them; also the necessities for customs duties to keep up the revenues of the island. The report declares that the revenue laws to be applied to Porto Rico are absolutely within the power of congress to determine.

Almost immediately after the senate convened yesterday discussion of the financial measure was resumed. Mr. Allen of Nebraska concluded his speech, charging the Republican party with breaking faith with the people on bimetallism and systematically discrediting the work of the international bimetallic commission. Mr. Cockrell of Missouri also addressed the senate on the financial bill, making a technical analysis of the house and senate measures. He charged that the senate substitute contained the initial movement toward the perpetuation of the national debt.

The German Naval Bill.

BERLIN, Feb. 9.—The debate on the naval bill crowded the galleries and brought out an unusually large attendance of members. It was quite impossible to meet the demands of the public for seats. The lobbies were literally crammed with people clamoring for tickets. As the sitting was regarded as a historical event a large photographic apparatus was stationed in the corner of the gallery to reproduce the changing scenes of the discussion. The government left no doubt that a rejection of the bill would mean dissolution. Nevertheless the opposition was stronger than had been expected, and it now seems probable that the reichstag will curtail the government demands.

The Wreck Has Disappeared.

ST. JOHN'S, N. F., Feb. 9.—The German consul has been notified of the disappearance of the last vestige of the wreck of the German-American Petroleum company's steamer Helgoland, which was sunk in St. Mary's bay early last month. Presumably the vessel has broken into pieces. Nothing is now visible of the bodies of victims formerly seen among the rocks. It is feared all have been swept seaward, and there is little prospect now of any being recovered for decent burial. All efforts fail to ascertain anything that would tend to solve the mystery of the identity of the American fishing vessel wrecked off Fox cove in St. George's bay.

Chicago In Darkness.

CHICAGO, Feb. 9.—Owing to a lack of money for lighting purposes a great part of the city is in darkness. This has led to what amounts to a reign of terror after nightfall in certain localities. Thugs and "hold up" men have taken advantage of the darkness to rob with impunity. The list of reported burglaries and street robberies foots up a score a day, while those not heard of officially are equally numerous. This state of affairs is not confined to the outlying and unprotected districts. Some of the most aggravated cases of lawlessness have occurred much nearer the heart of the city.

Fatal Railway Wreck.

MILWAUKEE, Feb. 9.—A Sentinel special from Escanaba, Mich., says: "A fast freight and the Metropolitan branch accommodation train met in a rear end collision last evening at Ford River switch, seven miles south of this city. Baggagemaster Hill and Brakeman Dillon were killed, and Miss Seymour of Shaffer received injuries from which she died. The dead bodies of three unknown persons are also under the wreck. Several others are injured. There is no water supply, and the cars are burning. A relief train with physicians has gone to the scene."

Lawton's Funeral.

WASHINGTON, Feb. 9.—During yesterday afternoon at the Church of the Covenant, between the hours of 2 and 6 o'clock, thousands of persons passed silently before the casket containing the remains of General Lawton embowered in palms and draped with the national flag and amid banks of floral designs. The services at the church today will be read by Rev. T. S. Hamlin, the pastor of the Church of the Covenant. The funeral oration will be delivered by Dr. M. Woolsey Stryker, president of Hamilton college, Clinton, N. Y.

Suicide of William Sheehan.

ELMIRA, N. Y., Feb. 9.—The body of ex-Health Commissioner William Sheehan, a brother of Police Commissioner Daniel Sheehan, was found in the Chemung river here yesterday. His clothing lying on the ice led to the discovery of his remains. He left home the previous night, went directly to the river, undressed and jumped into a hole in the ice. His mind was unbalanced by an attack of typhoid fever.

American Workmen Hurt.

LONDON, Feb. 9.—Three American workmen, Messrs. Fitzgerald, Miller and John Barnes, in the employ of an American company now erecting an electric power house in Bristol fell yesterday with a stool girder on which they stood a distance of 50 feet. Mr. Fitzgerald's injuries proved fatal, and the others were badly hurt.

[THAT'S THE IDEA.]
You ought to see what we can do for you before doing anything for yourself. Painting depends upon the paint and the painter. Better preparations than ours were never put on by a brush. Wherever paint is put, it should be put there to stay long enough to make it worth while to do the job. The warring elements have no effect on our durable mixtures.

Woolston & Buckle,
PAINTERS AND DECORATORS
141 North Avenue.

TEETH.

If you have any to be extracted remember you will not be hurt in the slightest. My local anaesthetic is the best that can be obtained and is not known to the other dentists in this city. Gas strictly fresh administered by an expert if you want that. If you need artificial teeth you may rest assured that the greatest care will be exercised in selecting shape and color to harmonize with the face, also to restore the features to their natural expression and fullness. This is most important.

WAR OF EXTERMINATION.

Carried On with Unspeakable Cruelty by the Dutch Against the Achinese of Java.

White men turned head hunters—that is the story of another war in the East Indies. It is older than our war in the Philippines, for it has been going on since 1873. The scene of these atrocities is the island of Java, where the Dutch, failing to conquer the brave Achinese, are striving to exterminate them.

To what extent white men can be converted into fiends by prolonged warfare on an inferior race is shown in recent correspondence of H. Van Kel,

CRUELTY IN JAVA.
(Dutch War of Extermination Against the Natives of Batavia.)

member of the Netherland states general, who is making a tour of the Dutch East Indies. Here are passages from his letter on the war in Java:

"'Cut off their heads,' seems to be the watchword of this eternal war. It occurs even in the dispatches of the governor-general.

"I quote his excellency's own language:

"'Two Achinese, who continued fighting, though wounded to death, were deprived of their heads.'

"And again: 'Nja Makaa, the rebel chief, was found in a dying condition. Two soldiers cut his head off to make sure of his identity; the head was yesterday presented to me with due ceremoniees.'—(Dispatch of September 17.)

"Heads, heads, heads! The government of Batavia is hungry for heads. It raised the premium on Achinese heads to 25 florins. Yet these colonies are administered in the name of a sweet girl.

"Head money is paid only upon the delivery of the corpus delicti, and as parts of the human body quickly decompose in the hot sun our soldiers 'smoke' the captured heads like so many hams, afterwards forcing women and children to carry the trophies in baskets to the next government post.

"Many a time have I met these sorry processions of blood and gin drunk whites urging on by whip and point of bayonet stoic, solemn, proud Achinese women, whose shoulders bled and ached under burdens that contained perhaps the head of husband, father, brother, son or lover.

"Once when 'doing' the slums of Batavia, I ran across a Dutch sergeant, who boasted of having personally corralled 126 heads in a single village. I spat in the scoundrel's face."

MORGAN AND JOHNSTON.

Senior Senator from Alabama to Be Opposed by the Governor of His Own State.

Gov. Joseph F. Johnston, of Alabama, is a candidate for the position of United States senator from his state, and Senator John T. Morgan, who now holds the position, is a candidate for renomination. It will be several months yet before the election will be held, but

JOSEPH F. JOHNSTON.
(Governor of Alabama Who Wants to Be United States Senator.)

the contest for the nomination, says Leslie's Weekly, has already been under way for nearly half a year, and is being waged with a bitterness which has attracted national attention to it. During the fall of 1899 the two gentlemen traveled over the state of Alabama engaging in joint debates, which thousands of persons flocked to hear. Since then the senator has made some statements to which the governor takes exception and the latter has recently issued a public letter in which he says, referring to these statements: "I regret that you did not make this charge on the stump in Alabama, where I would have had a chance to reply, but waited until you had the shelter of the senate. The charge is not true, and I respectfully demand that you shall retract the same or find one reputable witness to sustain it." Senator Morgan has served several terms in the United States senate. This is Gov. Johnston's second two-years term of office as chief executive. The governor lives in Birmingham, the great coal, iron and steel city of central Alabama.

BULLER'S HARD TASK

Only Conjectures as to Fighting Since Tuesday.

RELIEF OF WHITE DEEMED CERTAIN.

Further Particulars In Regard to the Second Day's Fierce Fight. Heavy List of Casualties at Potgieter's Drift.

LONDON, Feb. 9.—All the messages from the observers with General Buller throw in a phrase or two about the "strength of the Boer positions" and the "difficulties of General Buller's work," but they do not carry events beyond Tuesday evening.

Their last slender narratives leave the British advance on Vaal Krantz, in the center of a semicircle, where the troops are exposed to the Boer artillery on both sides and in the center.

The fighting continued until 9 o'clock Tuesday evening and almost without doubt continued Wednesday, as the Boers would certainly not leave this wedge into their lines unmolested. It is also inferred that General Buller must either continue his advance or retire.

The heaviest fighting appears to have been on Tuesday. General Buller's 233 casualties are mentioned as having occurred before Tuesday noon. Large lists are consequently expected for the rest of the day. The casualties already reported bring the total British losses to 10,244 killed, wounded and captured.

In Cape Colony General Macdonald has had a skirmish with 1,000 Boers at Koodooborg. This was on Monday. The Boers have been taking the offensive against General French near Rensburg, as well as against General Gatacre in the Stormberg hills.

The Daily Telegraph has received the following dispatch, dated Feb. 6, from Spearman's camp:

"This is the second day of the battle, and the fighting has been fiercer than it was yesterday. At dawn the Boers began the action by shelling our bivouac with their 'Long Tom' and 'pompon' guns from Doorn kloof. Their six inch shells fell near the spot where General Buller and his staff were watching the engagement. One shell burst amid a squadron of the Thirteenth hussars, but not a soul was touched.

"Our guns from Zwart's kop and on the plain soon silenced the enemy's artillery, but repeatedly the Boers brought back their guns, popped them into works over the hills, fired a few rounds and then again changed their position.

"During the morning our gunners succeeded in blowing up the enemy's ammunition wagon upon Doorn kloof. General Lyttleton's brigade was shot at from three sides and had a warm time upon Vaal Krantz.

"Desperate efforts were made by the Boers to recover the smoking hill. The Durham light infantry, the King's royal rifles and the Scottish rifles gallantly charged and cleared the position. General Hildyard's brigade relieved General Lyttleton's brigade toward sunset.

"Fighting continued until 9. Several prisoners have been taken. They declare that the Boers yesterday lost heavily. The enemy suffered severely today. It is reported that among their dead in the trenches armed Kaffirs were found."

A dispatch to The Morning Post from Ladysmith, dated Feb. 6, says:

"Little can be seen of General Buller's action owing to the haze. It appears that the Boers have withdrawn their big guns from the hills here southward.

"A large force of Boers still remains, and the garrison is prepared for a night attack."

British Hold Position.

CAPE TOWN, Feb. 9.—A dispatch from Spearman's camp under today's date says:

"Buller holds his position. Relief of Ladysmith is certain."

General Buller reports that the approximate British casualties in the fighting at Potgieter's drift up to noon Tuesday are: Officers, 2 killed and 15 wounded; noncommissioned officers and men, 216 killed and wounded. The officers killed were Major Johnson-Smyth and Lieutenant Shafto, both of the Durham Light infantry.

The officers wounded include Colonel Fitzgerald of the Durham Light infantry, Colonel A. J. Montgomery of the Royal artillery and Lieutenant Sir T. A. A. Cunningham of the Rifle brigade.

Information from Spearman's camp says that when the Durhams reached the top of Vaalkrantz "over 50 of the enemy, who were still defending the position, fled," and "more than half of these were armed natives."

A Boer Attack.

DURBAN, Feb. 9.—A large force of Boers attacked Nordweni, in Zululand, destroyed the public buildings and took numerous prisoners. A force of volunteers, with artillery, has been dispatched thither to support the scouts and to oppose a further advance by the Boers.

Norwegian Demands on Nicaragua.

KINGSTON, Jamaica, Feb. 9.—According to mail advices from Bluefields popular excitement in Nicaragua is increasing in consequence of the urgency of Norway in demanding a settlement of the claims growing out of the alleged treatment of Norwegians by the Nicaraguan government during the Reyes rebellion last spring. It is believed that President Zelaya intends to resist the payment of indemnity and that he is occupying strategic points along the coast with Nicaraguan troops.

Postmasters Appointed.

WASHINGTON, Feb. 9.—The following fourth class postmasters have been appointed: Massachusetts—North Oxford, J. E. Davis; Rochdale, W. P. Holden. New York—Barnes, H. R. Newcomb; North Jasper, G. W. Talbot; South Bradford, F. C. Lamphear; Verdoy, Burnt Warner. Pennsylvania—Pine Bank, John Lantz; Pocont, Isaac Miller.

Colonel Thompson Dead.

INDIANAPOLIS, Feb. 9.—A special from Terre Haute says: "Colonel Richard Thompson died here at 1:30 o'clock this morning. Deceased was 91 years of age and had been prominent in the Republican party since its formation. He held the office of secretary of the navy under President Hayes."

Mr. Bryan Accepts.

RALEIGH, N. C., Feb. 9.—W. J. Bryan has accepted the invitation of the Democrats of this state to speak here on Tuesday, Feb. 15.

NOTICE TO ABSENT DEFENDANTS.

IN CHANCERY OF NEW JERSEY.

To George W. Taylor and Elizabeth A. Taylor

By virtue of an order of the Court of Chancery of New Jersey, made on the day of the date hereof, in a cause wherein The Board of Trustees of the Seventh-Day Baptist Memorial Fund are complainants, and you are defendants, you are required to appear, plead, answer, or demur to the bill of said complainants, on or before the second day of April next, or the said bill will be taken as confessed against you.

The said bill is filed, to foreclose a mortgage given by you, the said George W. Taylor, to Clark Rogers, dated April 1, 1873, on lands in the city of Plainfield, and you the said George W. Taylor are made defendant because you own said lands, and you the said Elizabeth A. Taylor are made a defendant because you are the wife of said George W. Taylor and entitled to an inchoate right of dower in said lands and premises by virtue thereof.

Dated February 1, 1900.

William M. Stillman,
Solicitor for compl'nt,
212 W. Front street,
Plainfield,
New Jersey.

GOEBEL IS AT REST

Great Demonstration Over the Dead Statesman.

A PEACEFUL DAY IN FRANKFORT

Throngs Crowd the Capital City Beneath Tearful Skies to View the Remains and Listen to Funeral Eulogies.

FRANKFORT, Ky., Feb. 9.—Rain came down in sheets yesterday while the funeral services were being held over the body of Kentucky's dead Democratic leader. The exercises in the cemetery were conducted before a crowd much smaller than would have been the case had the weather been pleasant, but they were carried out to the letter, and the body of William Goebel lies in the chapel of the Frankfort cemetery after one of the greatest funeral demonstrations ever seen in this state. As soon as the weather clears sufficiently the casket will be consigned to the grave.

It had been feared trouble might arise between the soldiers in the capitol grounds and Democratic partisans in the line of march when the parade passed the capitol square, but nothing of the kind occurred. The wisdom of the commanders of the troops and that of the Democratic leaders added to the fact that for 24 hours all the saloons had been closed enabled the day to pass without any exhibition of feeling being shown on either side.

The procession formed at 11 o'clock, and when the chapel was reached the casket was placed on the supports on the porch a quartet sang "It Is Well With My Soul," every one standing with uncovered head as the beautiful words of the song were heard through the storm.

Rev. William Stanley of Virginia, standing over the casket, then delivered a short prayer. This was followed by the quartet, who sang "Nearer My God to Thee." Rev. T. N. Arnold, an old and intimate friend of Governor Goebel, spoke briefly of the early life of the dead leader and eulogized him as one of Kentucky's greatest sons. After a solo by Mrs. Jessie Caldwell, Rev. Gilbert Schmitt delivered a short address in German. He was followed by Rev. E. C. Mann in a short address. Elder William Stanley followed in an eloquent tribute to Governor Goebel. He spoke bitterly of the assassination, speaking of the "chagrin and mortification in the hearts of all that the leader of a people whose proud boast it was that they never feared to face a foe or failed to defend a friend should fall at the hand of an assassin."

Senator Joe Blackburn was then introduced. There was much confusion when the white haired senator stepped forward, and he was finally compelled to stand on a table so that the throng might see him.

As the stentorian voice of Senator Blackburn rang out in his denunciation of the shooting of Governor Goebel and as he stated that "it was not the work of a crank or a crazed assassin" murmurs of "No!" and "That's right!" came from the closely packed crowd, while tears stood in the eyes of many of the grim faced men within hearing of his voice.

At the conclusion of Senator Blackburn's speech Governor Beckham was introduced to make the closing address of the ceremonies.

The London Legislature.

LONDON, Ky., Feb. 9.—At 10:05 yesterday the senate in executive session adjourned until today. The senators would not reveal what had transpired other than that no resolutions were adopted. At 1 p. m. the house executive session ended, and an open session was resumed. The following telegram from Frankfort was read: "Taylor has not signed. Some say he will not. Collier is purchasing ammunition." The members of the house absolutely refused to say what had taken place in the secret meeting. The senate required six more members for a quorum. It is understood that the sergeant-at-arms has been furnished with a list of absentees to be sent for.

A Dewey Dinner.

NEW YORK, Feb. 9.—Admiral and Mrs. George Dewey were the guests of honor at a dinner given by the officers, directors and former officers of the Union League club in Brooklyn last night. The admiral and Mrs. Dewey arrived shortly after 6 o'clock, escorted by William E. Pulsifer, the president of the club, and half an hour later the guests, numbering over 100, sat down to the banquet. The admiral's flag was conspicuous above the center of the guests' table. Admiral Dewey was seated at the right and Mrs. Dewey at the left of the president. At the conclusion of the dinner letters of regret were read from President McKinley, Rear Admiral Philip, Secretary Long, Assistant Secretary Allen and Governor Roosevelt. The health of President McKinley was drunk in silence, also that of Admiral and Mrs. Dewey, after which three cheers and a tiger were given for each. President Pulsifer, in a speech which recited the battle and victory at Manila bay, sounded the praises of Admiral Dewey and presented him with a handsome gold medal.

Pro-Boer Orator Squelched.

WINNIPEG, Feb. 9.—Lewis Gabriel, a Welshman of St. Charles, Manitoba, who had announced a lecture on the South African war from the pro-Boer standpoint, was met at the hall by an angry assemblage of citizens, who pelted him with spoiled eggs and various missiles. The orator was forced to run for cover, finding shelter from the attack in a livery barn. The assemblage then paraded the streets in an atmosphere of 20 below zero, cheering and singing patriotic songs.

For Good Roads.

ALBANY, Feb. 9.—After a protracted discussion the good roads convention yesterday adopted a resolution that it was the sense of the convention that there should be no amendment of the Higbee-Armstrong bill this year. It was also decided to ask the legislature to appropriate $1,000,000, which is considered the amount necessary to be paid by the state for a proper inauguration of the work. A proposition in favor of the employment of convicts on the roads was approved.

Ex-President of Colgate Dead.

HAMILTON, N. Y., Feb. 9.—Word has been received here of the death of George W. Smith, formerly professor of history and later president of Colgate university, at a sanitarium in Winchendon, Mass., after a long illness following an operation for appendicitis. He was born in 1862.

GUMPTION.

"ONE does not have gumption till one has been properly cheated." Persons of gumption are using Ivory Soap, women who have trusted themselves too near the precipice of false economy and who can now appreciate the true economy in a soap made of pure vegetable oils and other high-class ingredients, but made in such quantity as to bring the price within the reach of the very poorest family. Indeed it is the very poor who most need it, for they can least afford the extravagance of common soap.

COPYRIGHT 1899 BY THE PROCTER & GAMBLE CO. CINCINNATI

TO AID THE BOERS.

A Hospital Corps Organized by United Irish Societies.

BOSTON, Feb. 9.—The Globe says that a hospital corps has been organized in the United States composed of skillful physicians, capable nurses and other attaches, and 40 tons of medical supplies have been secured, with extreme care not to violate the laws of neutrality, to start for South Africa Thursday, Feb. 15.

A contingent of the force, including men from Lynn, Lowell, Lawrence, Malden, Boston, Holyoke, Worcester, Springfield and Chicopee Falls, will leave New England for New York next Tuesday evening to join others who start from the west next Sunday evening. The members of the expedition will be in charge of a committee representing various Irish societies from the time of their arrival in New York until the steamer sails on which they are to cross the ocean. The equipment, uniforms, tents, surgical instruments and medicines are now in New York.

The work of organizing the hospital corps began with the new year under the auspices of the United Irish societies of Chicago, presided over by Hon. John E. Finnerty of Chicago.

CONDENSED DISPATCHES.

Pirates were reported both numerous and bold in China.

Prince Henry of Prussia was held up and robbed by Siamese bandits.

Denis Bel Larghon of Solvay died near Syracuse, aged 102 years and 4 months.

The transport McClellan met a school of 35 whales on her voyage from Santiago to New York.

The University of Pennsylvania will confer the degree of LL. D. on President Diaz of Mexico Feb. 22.

A cyclone did great damage in western Indiana and eastern Illinois. Houses were destroyed at Collinsville, Ills.

Captain A. S. McKinley, a cousin of President McKinley, married Mrs. Regina Quigley of Montgomery, Ind., at Denver.

Syndicate Miller In Jail.

NEW YORK, Feb. 9.—Captain Reynolds, formerly of the Brooklyn detective bureau, arrived at police headquarters yesterday afternoon with W. F. Miller, the Brooklyn syndicate 520 per cent man, whom he had arrested in Montreal. Captain Reynolds came from Canada on a train which reached the Grand Central depot about 2:30 o'clock. Miller was taken from police headquarters to Brooklyn and arraigned before Judge Hurd in the county court. He was held in $12,500 bail, which he was unable to furnish and was then transferred to the Raymond street jail. Three indictments have been found against Miller, two charging grand larceny in the first degree and one grand larceny in the second degree.

Dissatisfied Miners Will Strike.

PHILLIPSBURG, Pa., Feb. 9.—A mass meeting of 2,000 miners in the Spangler-Hastings-Barnesborough region, dissatisfied with the action of the national convention in delaying the advance in wages until April 1, rejected the report of the representatives they sent to the national convention and unanimously resolved to suspend work Saturday, the 10th inst., and remain out until the operators had advanced the rate per ton for digging from 50 to 60 cents. This action is a surprise to all operators, who had supposed the present rates would hold good until April 1.

Judge Taft Will Hear Contest Cases.

CINCINNATI, Feb. 9.—Judge William H. Taft, who has just been appointed president of the new Philippine commission, yesterday gave notice to counsel that on next Monday at 2 p. m. he would hear arguments on the petition of the state officers of Kentucky other than governor and lieutenant governor for a restraining order against the three members of the Kentucky state board of election commissioners and the contestants for state offices other than those of governor and lieutenant governor.

Would Not Resign.

CORNING, N. Y., Feb. 9.—At the regular meeting of the trustees of the New York State Soldiers and Sailors' home yesterday all the trustees were present but Messrs. Sickles, King and Shoemaker, who have resigned. Captain John M. Palmer of Albany was elected president, Colonel Joseph P. Cleary of Rochester vice president, Otis H. Smith of Bath secretary and Hon. Frank Campbell of Bath treasurer. The resignation of Commandant Charles O. Shepard was demanded, but he refused to comply.

THE BUBONIC PLAGUE.

Official Report of Its Deadly Havoc In Honolulu.

WASHINGTON, Feb. 9.—Surgeon General Sternberg received a report yesterday from Major Blair D. Taylor, the medical officer with the small detachment of United States troops at Honolulu, showing the dreadful fatality of the bubonic plague at that place and the great distress prevailing in consequence of having to destroy a large part of the Chinese district by fire. His report is dated Jan. 22 and says that up to date there have been 46 cases of bubonic plague, with 40 deaths.

"The whole town," says Major Taylor, "has been districted, and each house is inspected twice a day with reference to keeping track of the inhabitants, discovering cases of disease and enforcing sanitary measures. On the 20th, while burning a part of Chinatown, the fire got away and destroyed nearly the whole of the district, rendering almost 4,000 natives homeless. These people are now corralled in different places under guard and are being fed at public expense. It is feared, however, that many of them got away in the confusion with such of their household goods as they could carry and may spread the infection far and wide.

"The thorough burning of Chinatown, however, was providential. There being imminent danger of a riot on the 20th the two batteries of artillery were called out and are still on guard, but will return to camp today. I have obtained permission of the board of health to establish a temporary hospital for the reception of any case of plague which may occur among the men and for the detention of suspects."

WHERE IS AGUINALDO?

It Is Believed He Has Escaped From Luzon.

WASHINGTON, Feb. 9.—The war department believes that Aguinaldo has escaped from the island of Luzon. The department officials would not be surprised to hear from him next as in London or Paris in company with Agoncillo.

About six weeks ago the war department had reason to believe that Aguinaldo was in Cavite province, where the northern band of insurgents had gone to swell the remnant of the Filipino army.

His presence in Cavite, however, caused the war department to issue orders that he be located at all hazards and at any expense. Officers were instructed to closely interrogate all prisoners and the pacificos. This plan has been followed for more than a month, but the war department has not been able to get the slightest information.

Central America Favorable.

WASHINGTON, Feb. 9.—Official telegrams have been received by several of the Central American representatives in Washington stating that the Hay-Pauncefote treaty concerning the Nicaragua canal meets with general approval throughout Central America. These favorable assurances come not only from the two countries most directly concerned, but also from Guatemala and Honduras, which to some extent share in the prospective advantages the canal will bring to that section of the country. So far as Costa Rica is concerned, Minister Calvoe expresses the most hearty approval of the new treaty, and the messages he has received from his government show that this sentiment is held by the Costa Rican government.

General Otis Will Be Retained.

WASHINGTON, Feb. 9.—Secretary Root stated yesterday that the war department has never considered the subject of relieving General Otis at Manila. The foundation for the report to the contrary was a personal letter from the officer signifying a desire to obtain a leave of absence to come home and recuperate from the debilitating effects of two years in a tropical climate under severe strain. It is said that General Otis' wishes will be respected as soon as made known officially, but that he will not start homeward for several months at least.

Murder of Rev. S. M. Brooke.

VANCOUVER, B. C., Feb. 9.—The steamer Empress of China arrived today from Yokohama with details of the murder of Rev. S. M. Brooke in Shangtung. An imperial decree, dated Jan. 4, mildly condemns the outrage and criticises the officials whose lack of administration made the coolies believe the assassination would be acceptable to the authorities.

COMING EVENTS.

February 9—"A man of Mystery" at Music Hall.

February 10—Social for members of Physical Department, Y. M. C. A.

February 11—Rev. Thomas Houston, the blind evangelist, will speak and sing. Mrs. George W. Gardner will also sing.

February 12—Union Bible class of Rev. D. M. Stearns, in Y. M. C. A. Hall.

February 17—Social for members of Junior Department of the Y. M. C. A.

Republican View of Bryan's Visit.

The Elizabeth Journal, though a partisan of unusual zeal at every period of the year, takes a broad and fair view of the visit of Col. William Jennings Bryan to Plainfield as the guest of James E. Martine, and affords a pleasant contrast to the mean, snappy and low-down characteristics exhibited by another so called Republican editor—Runyon, of the News—over a political event of such importance to Plainfield. The Journal has this to say of the visit of Mr. Bryan to this city:

Congratulations to the Hon. James E. Martine, of Plainfield. The visit of Hon. Wm. J. Bryan to Mr. Martine's home was an event which ought not to be underrated. It will make "Cedar Brook Farm"—always a hospitable and attractive place—more famous than ever. In after years this visit will be spoken of as one of the notable events in the history of this county. The places visited many years ago by Clay and Webster and Calhoun, those three great political leaders who failed to reach the Presidency, will be scarcely more famous in the years to come than those visited by Bryan. Each of the great politicians above named was greater than Mr. Bryan in some respects. Not one of them was greater than Mr. Bryan in the sincerity, the earnestness, the persistency and the argumentative ability with which his political creed has been presented to the people of this country. None of them had such a numerous following as that which has supported Mr. Bryan, and not one of them stamped his impress more indelibly on his party. The great majority of the American people are opposed to Mr. Bryan's political views, but all must admit his power, his ability, his sincerity. He is unquestionably one of the great men of the day, whatever may be thought of the political policy he represents. His visit to Mr. Martine's hospitable home, therefore, is an event of no trivial significance. It elevates Mr. Martine to the position of personal representative of the Democratic Presidential candidate in New Jersey. It puts him more closely in touch with Mr. Bryan than any other man in the State. The Journal, while vigorously opposing Mr. Martine politically, has always argued that he has deserved better of his party than his party was willing to give him. This new honor, conferred on him by Mr. Bryan, is richly deserved, and is no doubt more to Mr. Martine's liking than any elective office. With all sincerity the Journal extends again its congratulations to Mr. Martine.

Lucky Republicans.

New Brunswick Republicans are congratulating themselves over a quasi-partnership which they have entered into with Hymen, the latter having aided in making the Ward Redistricting bill a caucus measure with the Republican majority. The bill was introduced by Assemblyman Groves early in the session, and in the natural order of things it was referred to the proper committee.

Incidentally to the situation, but very important to the father of the proposed law, Mr. Groves is to be married next Monday, and with the wedding day only a week away the bill was still sleeping peacefully in the committee's hands. Assemblyman Groves was in a plight. If left to the routine handling of Legislative matters, the bill might come up for consideration just at the time when the introducer was deeply engaged in matrimonial affairs. This would never do, as it was highly essential that when the measure came up Mr. Groves should be on hand to see that it was not side tracked, but if that critical moment should come when he was about to wed the lady of his choice—what then? The Assemblyman was confronted with two serious duties, both of which he wanted to be loyal to. He appealed to his Republican colleagues for help, and assistance came in the action of the caucus deciding to make the Redistricting bill a party measure. This pledges all Republican members to vote for the bill, and precludes its being delayed or defeated when it comes up—whether the introducer is on hand or not. Thus it is that Hymen has aided the New Brunswick Republicans to win an important point.

Though Congressman Daly is absorbed with thoughts of matters of profound interest and importance to the Government of Washington, he has found time enough to free his mind in reference to the legislative project of abolishing spring municipal elections. Mr. Daly says that he is unalterably opposed to the plan of doing away with the spring elections, and characterizes the scheme as being born of bad politics. Mr. Daly need not worry. Our great and glorious friend, Editor Runyon, has put the stamp of disapproval upon the proposed law, and it has gone to its grave. Whatever Senator Sewell and the other leaders of G. O. P. thought said against the bill was simply the echo of the withering sentence already pronounced by our editorial friend who has but to command and all obey.

The Standard Oil Company has just declared a quarterly dividend of $20 a share, payable March 15th. This will make a total of $35 a share paid in dividends since September 1st last, and it is expected that the fourth quarterly dividend for the year will bring the amount up to $50 at least. "Consumers who last December were forced to accept an increase of three cents a gallon in the cost of oil, on the plea that the advance was necessary to meet a corresponding advance in the cost of the crude article, will no doubt be pleased to learn of the Standard's prosperity," comments The Newark News in sarcastic tone.

Summit—Union county's newest city—seems to have got wildly ambitious since putting on its new municipal gowns. Scarcely a week passes but what Summit people spring some new project upon an unsuspecting public, the latest being a movement to establish a public park. An effort is to be made to raise $30,000 by private subscriptions to consummate the idea. Summit folk are undoubtedly a liberal and progressive lot, but we imagine the raising of $30,000 among them for the establishment of a park is easier said than done.

The Legislature is keeping up to its do-nothing record for the first two months as in the sessions of previous years. When the fifth week of the Legislative session closed the calendar of both branches showed a total of 189 bills introduced. Of these, 124 had originated in the House and sixty-five in the Senate. Few of the entire number are of general importance, and this fact caused some members to facetiously remark that no particular harm would result if the adjournment had been sine die instead of for one week only.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

The greatest, most earnest and most spontaneous public demostraiton ever seen in the staid old Republican city of Plainfield was the meeting which received William J. Bryan there yesterday. The people of the central city deserve great praise for the perfection of the arrangements and the success of the meeting, and Mr. Martine is entitled to the thanks of the New Jersey Democracy for securing from his honored guest the masterly address which made the occasion memorable in our State.—Clinton Democrat.

PARTICULAR MENTION.

Miss Boice, of East Front street, has been visiting Miss Young, of Trenton.

Wm. J. Kitchen, of Taunton, Mass., has returned after visiting on Somerset street.

Miss Maude E. VanDyke, of East Front street, has been entertaining friends from Somerville.

Bessie VanWinkle, of West Fourth street, has entirely recovered from a long and tedious illness.

Mr. and Mrs. James Huntington, of Pearl street, have been entertaining company from out of town.

Mrs. F. E. Smith, of West Fourth street, who has been quite ill and a great sufferer with acute sciatic neuralgia, is slightly improved. Her children are recovering from an attack of the mumps.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

—Harper is making a fine display of valentines at 411 Park avenue.

THERE IS A CLASS OF PEOPLE

Who are injured by the use of coffee. Recently there has been placed in all the grocery stores a new preparation called GRAIN-O, made of pure grains, that takes the place of coffee. The most delicate stomach receives it without distress, and but few can tell it from coffee. It does not cost over ¼ as much. Children may drink it with great benefit. 15c. and 25c. per package. Try it. Ask for GRAIN-O.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shape? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,

122 East Front Street.

FURNITURE FACTS.

OUR BASEMENT is largely stocked with New Furniture fresh from the factories. New goods, many of which were purchased before the rise in prices, are arriving daily and a fine display they make. The removal of our Carpet Department has given us a large increase of floor space and enables us to make a much larger showing of Furniture than heretofore. Unusual facilities for handling large quantities of goods, enables us to buy direct from Manufacturers and enables us to sell goods on small margins. We cordially invite all who are interested in Furniture to visit our Basement and look over our lines.

Sideboards are indispensible to good housekeeping.

A well-finished one of Golden Oak, double thick French plate mirror, cast brass handles, lined drawers, etc., 11.98. An exceptionally good one, 48 in wide, French plate mirror, etc., 14.50. Better grades at 14.98, 15.67, 16.75, 17.98, 18.98, 19.98.

Extension Dining Tables 17 styles shown and every one particularly good. All are strongly made, well finished with easily manipulated leaves. Sizes range 5 ft., 6 ft., 8 ft. Prices 4.50, 5.48, 5.98, 6.48, 7.48, 8.48 up to 20.00. **DINING CHAIRS** A variety of styles in oak at 98c, 1.25, 1.48, 1.98, 2.48, 2.69, 2.75, etc.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence to The Press.)

Dunellen, February 9.—The sudden death of Rev. Mahlon H. Sisty, which occurred at his late home on the outskirts of the borough of Dunellen Wednesday afternoon, was a severe shock to his many friends. Mr. Sisty's health has not been entirely satisfactory for several months, but his family did not feel alarmed. During the afternoon Mr. Sisty's son, Walter, visited Plainfield and attended the Bryan meeting at Music Hall. While he was absent his father grew suddenly worse, and before medical aid could be summoned death resulted from apoplexy. The deceased was a superannuated minister of the Methodist church, and in his early life had charges at various towns adjacent to Philadelphia. For several years he preached in Langhorne, Pa., where he will be buried Monday morning. Rev. Dr. Jamison will officiate. Mr. Sisty is survived by a wife, one son and two daughters. He was eighty-three years of age. The funeral is in charge of Undertaker Runyon.

The death of William D. Kitchen, of New Market, which occurred several days ago, has removed an excellent citizen of Piscataway township. Mr. Kitchen was 76 years of age. He was buried at Mechanicville, Tuesday, Rev. E. S. Jamisan officiating.

Interesting exercises were held at the Whittier and Lincoln schools this afternoon, consisting of recitations, declamations music, dialogues, etc. At the Whittier School, Rev. Frank Fletch will deliver an address.

A dime sociable was held under the auspices of the W. C. T. U., at the home of Mrs. Alvah Gray, Wednesday evening. It was a pleasant affair and the receipts were most gratifying.

Monday evening a fair and sale will be held at the Lincoln School for the benefit of the organ fund of the Sunday-school.

The electric lights are being put in Mrs. Louise Terry's new house by Gavett, of Plainfield.

Loren Fletcher, of Boston, has been visiting his parents, Dr. and Mrs. Frank Fletcher.

Monday being a legal holiday—Lincoln's Birthday—the public schools will be closed.

Mr. and Mrs. N. C. Sears are the happy parents of a daughter, born to them Friday.

'PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, Feb. 9—The Social Sewing Circle, of Netherwood, held an enjoyable masquerade social in the Fanwood Hall Thursday evening. Notwithstanding the very inclement weather a large number of the friends of the circle attended the pleasant affair, which was kept up until the small hours of the morning.

The Little Juniors of the B. Y. P. U. are holding one of their interesting meeting in the parlors of the church this afternoon. Miss Trantman has taken the leadership of this youngest adjunct of the church and the meetings are made very interesting for the little ones.

The scholars of the public school are practicing for an appropriate Lincoln's—Washington's birthday entertainment to be held on the afternoon of the 16th.

Goodwill Lodge, K. of P., met in their rooms last evening. A visit from Deputy Samuel R. Robison was enjoyed.

Albert Hollingsworth, who is taking a course of study at Lehigh, is visiting his father, Loftus Hollingsworth.

Owing to the inclement weather no meeting of the Epworth League Literary Society was held last evening.

Mr. and Mrs. George W. Marsh are rejoicing over the arrival of a young son, who came Friday morning.

The Township Committee will met in the town rooms this evening.

EARLY INTELLIGENCE.

—Card and lace valentines at Harper's, 411 Park avenue.

—At the meeting of the Exempt Firemen's Association Wednesday evening three new members were received.

—As next Monday is a holiday, Lincoln's Birthday, the Common Council will not meet in the evening of that day. The session will be held the night following.

—In a recent issue of the York, (Pa.,) Press, there appears a set of resolutions adopted by the members of the class at the High School, of which the late Miss Jennie Pope, formerly of Dunellen, was a member. Miss Ransom was very popular and her many friends expressed in the resolutions their feelings of regret.

The City Hall Site.

To the Editor of The Daily Press:—It is understood that the city solons have practically decided on locating the City Hall on East Front street, west of Watchung avenue, on one of the two sites offered, viz: the property offered by Mr. Moses, of New York, now occupied by T. E. MacDonald, and the Gardiner property opposite, although there is one other site that may be offered to the city before the meeting next Monday night.

The Gardiner property is, all things considered, the cheapest that has been offered, and many think it the best for the purpose, owing to the great depth of the lot and to the fact that the rear lot can be used to store the property of the city, such as carts, tools and the steam roller, which are now stored on a lot that the city is obliged to rent.

The price of the Gardiner lot is $15,000 and the one directly opposite owned by Mr. Moses is $19,500, and as the Gardiner lot is about three times the depth of the other, and about $15 per foot less, there is small doubt as to which one the city ought to buy.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Mr. and Mrs. Olaf Saugstad, of this city, are entertaining company from Virginia.

Miss Elsie Smith, of Westervelt avenue, is entertaining company from out of town.

Mrs. Edward Vail, of Elmwood place, has entirely recovered from a recent illness.

David Snediker, of Grove street, has returned home from an extended business trip.

William J. Kitchen, of Taunton, Mass., has returned after a brief visit in Plainfield.

Mr. and Mrs. John Dickson, of the borough, are visiting relatives in Brooklyn for a time.

Miss Leila M. Cruikshank, of Belvidere avenue, is home from Ogontz School for a few days.

Miss Sadie Blimm, of Somerset street, has been visiting the Misses Browne, of New York.

Mrs. Georgiana Cole, of this city, has been visiting her brother, L. E. A. VanSyckle, of Whitehouse.

Mr. and Mrs. Edward Randolph, of West Fourth street, have been entertaining company from Brooklyn.

The home of Mr. and Mrs. Louis Kelly, of LaGrande avenue, has been made happy by the arrival of a little daughter.

Sheriff Schoonmaker, of Somerville, was a welcome visitor in town Wednesday and was a caller at The Daily Press office.

Mrs. Morris Tremaine, of Buffalo, N. Y., is visiting at the home of her parents, Mr. and Mrs. James Middledith, of Mercer avenue.

Deputy Grand Master Nash will pay an official visit to Washington Lodge, No. 43, A. O. U. W., of Trenton, tonight. The occasion is the eleventh anniversary of that lodge.

Dr. Rowland Cox, Jr., of New York, who has been ill at the home of his parents, Mr. and Mrs. Rowland Cox, of West Seventh street, has fully recovered and has now returned to New York.

Frank Harold, brother of Mrs. W. O. Chapman and Miss Margaret Harold, of this city, is now associated with the Philadelphia North American, which recently passed into new hands.

Among the guests at the annual dinner of the State Banking Association, of New York, held Tuesday night, at the Waldorf-Astoria, were Alexander Gilbert, president of the Market and Fulton Bank, New York, and Henry Talmadge, of Netherwood.

Mr. Hunt, of the Philadelphia North American, was a guest in town yesterday and called at the Daily Press office. Mr. Hunt has been accompanying Mr. Bryan on his tour in the interest of his paper. He is a genial newspaper man to meet and was cordially received by the Plainfield reporters.

EARLY INTELLIGENCE.

—Celuloid valentine novelties at Harper's, 411 Park avenue.

—VanEmburgh is offering this week a very fine 10c. ladies' hem stitched handkerchiefs for 5 cents.

—Fred H. Firstbrook, grocer, 312 Liberty stteet, has a money-saving advertisement in this issue.

—In this week's issue of patents granted to American inventors twenty-seven were granted to residents of this State.

—The regular prayer meeting will be held at Warren chapel this evening, and there will be features of interest to all.

—Make friends and retain them; keep prices down and quality up; so says Fred Endress, the popular butcher.

—The Junior Endeavor Society of the Congregational church will hold a social this afternoon in the church parlors.

—The second rank will be conferred on one candidate at the meeting of Perseverance Lodge, K. of P., this evening.

—The regular February meeting of the Somerset County Board of Freeholders will be held at Somerville next week Tuesday.

—This evening the Christian Endeavor Society of Trinity Reformed church will hold a social to which they invite their friends.

—The members of the Cotillion Club will be entertained this evening at the home of Mr. and Mrs. J. W. Reinhart, of Belvidere avenue.

—A worthy stock of flowers always commands attention and soon wins appreciation. See C. L. Stanley's stock at 142 North averue, near depot.

—A marked improvement on West Front street is the absence of the unsightly poles that formerly stood at the corner of Central avenue and Front street, near Manning's marble works.

Lokal-Nachrichten aus der alten Heimath.

Elsaß-Lothringen.

Straßburg. Durch Verfügung der Bezirkspräsidenten von Lothringen und Oberelsaß wurde der Anarchist Joseph Portonato aus Elsaß-Lothringen ausgewiesen. Portonato, von Beruf Dreher und Erdarbeiter, stammt aus der Provinz Genua in Italien und wohnte zuletzt in Ars.

Metz. Die Elsaß-Lothringer sträuben sich noch immer gegen den deutschen Militärdienst. Allein aus 39 Gemeinden des Landkreises Metz sind 89 Personen wegen Entziehung der Wehrpflicht vor das Landgericht geladen worden. Allein 18 Personen stammen aus Ars a. d. Mosel und 15 aus Montigny-Sablon. Beide Orte besitzen eine starke Fabrikbevölkerung, der wohl auch der größte Theil der Geladenen angehört.

Oesterreich.

Wien. Das Testament Millöckers setzt sechs Wiener Wohlthätigkeitsanstalten zu Universalerben des auf 300,000 Gulden geschätzten Vermögens ein und räumt der Wittwe eine Jahresrente von 4000 Gulden, sowie den Vollbezug der Tantiemen ein. Die Tochter des Komponisten erhält 40,000 Gulden.—Bei den Wiener Postämtern sind in der Zeit vom 28. Dezember bis 2. Januar 28,234,240 Stück Briefpostsendungen, darunter 7,879,290 Stück Korrespondenzkarten, 20,041,610 gewöhnliche und 313,340 Stück rekommandirte, zur postämtlichen Behandlung gelangt. Im vorigen Jahre war die Gesammtsumme um 2,230,000 Stück geringer.—Zum Scharfrichter von Wien soll der gegenwärtige Scharfrichter in Bosnien, Alois Seyfried, ernannt werden. Seyfried ist ein Bruder des verstorbenen Scharfrichters gleichen Namens und ein Neffe des ebenfalls verstorbenen Scharfrichters Willenbacher. Er ist 45 Jahre alt und hat eine Bosnierin, eine gewesene Schlangenbändigerin, geheirathet.

Gablonz. Hier hat sich eine mit reichlichen Fonds versehene Wasserbaugenossenschaft gebildet behufs Errichtung von Thalsperren.

Krakau. Der im April v. J. wegen bedeutender Unterschlagungen aus Lemberg nach Amerika entflohene Advokat Dr. F. Kratter, der mit freiem Geleit zurückkehrte, machte auf dem hiesigen Bahnhof einen Selbstmordversuch; er verwundete sich mit Revolverschüssen, jedoch nicht lebensgefährlich. Man fand bei ihm einen nach seinem Tode zu öffnenden Brief, der Aufschlüsse über finanzielle Geschäfte in Galizien enthält.

Oedenburg. Das Schloß des Grafen Koloman Szechenyi ist bis auf den Grund niedergebrannt. Die Gemälde und Kunstschätze, welche auf 1,500,000 Gulden versichert waren, wurden durch die Flammen vernichtet.

Prag. In den böhmischen Städten werden keine Straßenlaternen mehr angezündet, weil es in Folge des Kohlengräberstrikes an Gaskohlen fehlt. Aus Kohlenmangel hat die Kommerzialbahn Jitschin-Nimburg den Betrieb eingestellt. In Pilsen beschlagnahmte der Statthalter 40 nach Bayern bestimmte, mit Steinkohlen beladene Waggons. In Teplitz sind die Kohlenpreise um das Vierfache gestiegen und aus diesem Grunde die Suppenanstalt und die Volksküche geschlossen worden.

Reichenberg. In der mechanischen Weberei Fritsch und Co. in Haindorf traten 400 Arbeiter in den Ausstand, weil bei der Lohnauszahlung Mangel an Kleingeld eintrat und die Arbeiter warten mußten.

Schweiz.

Bern. Der schweizerische Bundesrath hat unter Aufhebung des bislang geltenden Zolltarifs die Einfuhr getrockneten amerikanischen Obstes wie auch frischer Obstsorten freigegeben, und zwar mit der Maßgabe, daß die zu importirenden Waaren vorher im Baseler Zollhaus untersucht werden.—Der Bundesrath hat die 62 Staaten des Weltpostvereins auf den 2. Juli zu einem in Bern stattfindenden Kongreß eingeladen, an dem durch mehrtägige Feste die 25jährige Gründung des Weltpostvereins gefeiert werden soll. Bis jetzt haben alle europäische Großstaaten und viele andere Unionstaaten die Theilnahme am Kongreß zugesagt.

Zürich. Die ungarische Regierung unterhandelt mit einer großen Züricher Seidenspinnerei wegen Gründung einer Zweigniederlassung in Ungarn, um mit Unterstützung der ungarischen Regierung diese Industrie dort einzuführen.—In Zürich ist, 65 Jahre alt, an den Folgen einer Magenoperation Nationalrath Cramer-Frey, Präsident der Schweizerischen Handelskammer, bedeutender Nationalökonom und Finanzpolitiker, gestorben.

Solothurn. Nach dem von der Regierung durchberathenen neuen Beamtenbesoldungsgesetz ist für alle diejenigen Beamten, welche bisher eine Jahresbesoldung von 3000 Francs bezogen haben, mit Ausnahme der Betreibungs- und Konkursbeamten, ein Gehalt von 4000 Francs vorgesehen.

St. Gallen. In der Stadt St. Gallen beschäftigt man sich zur Zeit mit dem Projekt der Erstellung eines Volksbades. — Straubenzell beabsichtigt, eine Verschmelzung mit der Gemeinde St. Gallen herbeizuführen.

Soap is an effective cure for soiled hands, but they will not remain clean unless preserved from work or exposure. So also are Ripans Tabules an absolute cure for dyspepsia and attendant stomach troubles, but the troubles will come back just as long as people eat improper food or eat too much or too fast. Still soap and water will cleanse the hands to-morrow. So also will Ripans Tabules tone up the stomach. In every family where the members are in the habit of eating they require an occasional supply of Ripans Tabules, and for that reason they should be kept on hand, just as soap is, for use whenever wanted.

WANTED—A case of bad health that R·I·P·A·N·S will not benefit. They banish pain and prolong life. One gives relief. Note the word R·I·P·A·N·S on the package and accept no substitute. R·I·P·A·N·S, 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

HINTS FOR THE HOME-MAKER.

BY ELIZABETH LYON.

There is nothing new in the world, and yet we are very much interested in the new adaptation of an old idea. A note recently received from an acquaintance chided me with my neglect of her, and in closing she held out a veritable inducement.

"At least the sight of my new cozy corner will repay you for the effort," she wrote.

Needless to say I made the call, and such a cozy corner! Never have I seen one more attractively arranged or more suitable for a young girl's dressing room.

The divan was pushed well up into the corner, backing up against a bobbinet draped window. A drapery of

A GIRL'S COZY CORNER.

soft india silk in large design was arranged back of and extended the full length of the couch. A picture molding was the heading and held all my lady's favorite photographs. And, by the way, they were all, with the exception of one, her girl friends, the one exception being her affianced.

This only goes to show that in these days of womanly independence the best girls are no longer heedlessly reckless in receiving favors from their male contingencies, nor is it any proof of a girl's unpopularity that her sanctum is no longer the junkshop that it used to be for Tom, Dick and Harry souvenirs. What a satisfaction this must be to the honest young man who wins one of these girls for his bride!

But to return to my couch. There were pillows on pillows, fully a dozen. My hostess pointed out the "sine qua non" when she said, "It is simply heavenly to lay there with the light just right for reading."

On the wall above the photographs were a pretty triple mirror, a couple of the medallion miniatures that are now so popular and Gibson's "Bachelor's Supper," done in black and white.

The really unique feature of the corner was an arrangement for holding dumbbells, Indian clubs, golf sticks and balls. A hook, rather hooks, with a double loop of her favorite ribbon (which happened to be Yale blue) fastened into the wall, served as holders for them. By ingeniously twisting the loops she hung those essentials of girlhood happiness out of the way and in a place more convenient than those immaculate corners could ever prove to be.

A piece of tennis net held the golf balls. A deep frieze of golf hole flags made a border that was quite startling in its originality. They were all weather stained, and some were even torn. The pretty short curtains were made of bobbinet and hung straight down in scant folds. The very simplest kind of braid was laid on in double rows around the edges.

The winning card, to my idea, was the dainty little tea tray on the East Indies teakwood, at the bottom of which was a shelf holding some half dozen of my lady's favorite books. One copy which I noticed must have come from that exception of photographic fame. It was Barrie's "My Lady Nicotine." Perhaps it was a silent plea for mercy. At least I hope that the girl who could create such a corner will appreciate the subtle sarcasm of the author when he writes, "The very smell of tobacco is abominable, for one cannot get it out of the curtains, and there is little pleasure in existence unless the curtains are all right," and that she will show her appreciation of it by indulging her future liege lord on just such another couch in the very near future.

* * *

How to Make a Monogram Fan.

A monogram fan, though not quite new, is still regarded with favor by those who are fortunate enough to have correspondents whose note paper bears the pretty monograms and coats of arms that are so popular at the present time. One that is very beautiful is made on a plain black satin fan.

The monograms are cut out and carefully pasted on to avoid soiling the satin. There are probably a hundred of them. Many that were cut from hotel note paper are very effective because they show such great variety both in coloring and design.

The figure end of a bill of large denomination is a marked addition. This may seem extravagant, but in reality it is not, for to remove a corner away from the plate series numbers does not affect the current value of the note. The whole must be arranged with due regard to color scheme.

* * *

A Common Sense Skate Bag.

This serviceable skate bag, made from linen ticking, is within the reach of every child that is the happy possessor of a pair of skates. Besides being a pretty covering for them when not in use, it will be found of real value in keeping the skates sharp. Everybody who is at all acquainted with the care of skates knows that many a nick along the edges has come from their knocking together while swinging from the long ankle strap suspended from the shoulder. Some who have thought to strap them closely, edge to edge, have not been much more successful in the care of such cherished friends.

To make such a skate bag requires a strip of ticking 34 inches long and 12 inches wide. The ordinary narrow striped blue and white kind is the best. The price ranges from 12 to 30 cents per yard. Feather stitch the white stripes with a fancy color in cotton or silk. Turn over a two inch hem at both ends, making a casing for the drawing

string by a second stitching. Fasten the ends firmly with buttonhole stitch to prevent fraying. Fold the goods in halves right side out. Sew the lengthwise edges and clip close to the seam. Turn the goods wrong side out, fold evenly and stitch the edges again, thus making a French seam, which is very strong. Turn the bag once more, put in the double drawing strings and stitch twice straight down from the hem through the middle of the length. Thus two compartments are made, one for each skate, and doing away with all unnecessary clashing. A tape loop fastened on the inside of the bag will be a convenient guard for the wrench.

The care of the skates is very important. It is well to keep a small piece of cloth in the bag to wipe off the ice and snow which cling to them. Occasionally removing all the parts and oiling them thoroughly with vaseline will prevent rust and do much toward retaining sharp edges.

IN HONOR OF MISS ANTHONY

How Woman Suffragists Will Celebrate Her Eightieth Birthday.

The National American Woman's Suffrage association will celebrate the eightieth birthday of their great leader, Susan B. Anthony, in a manner befitting her grand work for humanity. A committee appointed for this purpose is making preparations for a public meeting in honor of the event, which will take place from 3 to 5 on Feb. 15 in Lafayette Opera House, Washington. This is the finest auditorium in the city.

In the evening of the same day there will be a card reception for Miss Anthony, at which she will receive with members of the birthday committee. The occasion will be one of interest in many ways.

Prominent women representing all phases of woman's work and experi-

MISS ANTHONY.
[From her latest photograph.]

ence will present to Miss Anthony their greetings and express their sense of recognition of what her labors have meant to their respective efforts. There is not a woman today, no matter what her position, who has touched any of the really vital issues of life who has not been helped to some degree by the efforts of Miss Anthony and her compeers.

This celebration will follow the close of the National Woman's Suffrage convention, which will be in session in Washington from Feb. 8 to 15.

The wife of Representative Curtis of Kansas is an ardent politician. She often takes charge of her brother's office during his absence attending to campaign work.

ACTIVITIES OF WOMANKIND

BY ANNETTE CRAWFORD

Miss Leonora Van Marter, whose sweet, sympathetic face was for years an inspiration to the slummers in the heart of New York's poor district, has recently become a countess. It was a common sight to see her only a few years ago moving about among the rough, hardened sailors along the water front. Lord Bennet was not the only one to recognize her nobility of purpose, but he was more fortunate than many others who sought her hand, for he won her from a dozen others and made her Lady Bennet. They continued their work among the poor until two years ago, when they left for England to take up their residence on the estate of Lord Bennet's father. By the death of the elder the young man has recently succeeded to the title and estates of the Earl of Tankerville.

Mrs. B. F. Tiemann, who is well known in New York as the owner of fine horses and an adept in their handling, has become a convert to the popular fashion of operating a horseless carriage. Her automobile is run by steam generated by gasoline. To get the permit to run such a vehicle one must pass a thorough examination and receive a certificate from the boiler inspector's department. Mrs. Tiemann is the only New York woman who has so far qualified.

Miss Elsie Ward of Denver, a pupil of St. Gaudens, has been very successful in the modeling of "The Boy and the Frog," which is a life size design for a fountain. It is the figure of a nude boy, apparently looking into the water, on the edge of which sits a frog which the roguish little fellow is teasing with a straw. At a little reception lately given in her studio to celebrate the completion and display of her work St. Gaudens was especially impressed with the "expression and lifelike spirit of the statue" and prophesied a brilliant future for Miss Ward.

Miss Irene Dawson, a Cincinnati girl, goes to Porto Rico in the capacity of teacher, ready to plant the public school system in the newly acquired territory.

The Cuban Orphan society has raised over $40,000 so far for the work of assisting and educating the Cuban children at Remedio. Besides that, they have sent out over $10,000 worth of clothing, bedding, household utensils, kindergarten supplies, agricultural implements and things of a similar nature.

Mrs. Mary Andre Phelps was the companion of Edgar Allan Poe, the poet, and one of the brightest lights in the history of American literature. She knew Miss Virginia Clemm, his cousin, who afterward became his wife and whose virtues he immortalized in "The Raven," for she is his lost Lenore. Notwithstanding all records to the contrary Mrs. Phelps claims that Poe was no common drunkard. He seldom tasted a glass of wine, and when he did taste one in a social way it completely upset him, and, knowing that, he was guarded against it.

San Diego's Normal school boasts of no less than eight rowing clubs. Six of these are exclusively for the girls, and there is a prospect of more being organized soon by the students who enter this year. These western young women believe in physical as well as mental culture, and while the latter may be obtained in the schoolroom the former must be secured by out of door exercise.

It is an interesting fact that the organization of rowing clubs was not the result of premeditation. When the Normal school was located in temporary quarters down town, there were no grounds available for the ordinary school athletics. As a last resort some one thought of the beautiful bay, and all the students became enthusiastic over this novel and fascinating exercise, with the result that nearly 200 members have taken active part in the various crews, 100 of whom are girls.

One young lady from Salt Lake City who was recently married in Syracuse evidently has neither regard for the long established customs regarding church decorations nor the old saw, "Married in red," etc., for the altar was banked with a blaze of red carnations. The walls were hung with holly wreaths and tied with red ribbon, and the pews were barred off with red satin ribbon tied with bunches of red carnations. The ushers wore red boutonnieres, and the bride's attendants were attired in red gowns of mousseline de soie over red silk. The bride carried a tall La Tosca staff with a bunch of American Beauty roses tied to the staff with a red satin ribbon.

Miss Nixola Greeley-Smith, a poetess and the granddaughter of Horace Greeley, is expressing her sympathies with the Boers in verse.

Mrs. Roberts of Rome, Ga., is the founder and high priestess of a new religious sect. All the followers, 18 in number, claim to have direct communication with their God. Services are held at midnight in a house whose owner was mysteriously murdered.

Mrs. Emma Van Dusen, a young widow of Dallas, has just been sworn in as a deputy United States marshal. She comes of fighting stock. Her mother was a cousin of Stonewall Jackson, and her father was of the O'Daniel family of Ireland. It will be part of her duty to go armed with regulation weapons.

Miss Elise Farrel, the youngest daughter of Franklin Farrel, has gone into training to fit herself for the management of her father's iron foundry. She is learning the business and is perfecting herself in the mechanical art of casting, founding, smelting and rolling. She is beginning on a salary of $15 per week and hopes in time to have a partner's interest in her father's $20,000,000 business.

The Misses Lahm, aged 18 and 19 respectively, of Mendocino county, Cal., have made a wonderful record of success since their father's death a few months ago. They successfully manage a stock farm worth $50,000. They spend most of their time in the saddle. Clad in overalls and jumpers, they care for their 5,000 sheep scattered over the neighboring crags. One of the largest panthers ever killed in Mendocino county was recently brought to Cahto by Miss Gussie, the younger of the two girls. It measured 11 feet from tip to tip and weighed 223 pounds.

The Secular Canonesses of Prague belong to the proudest religious order of Europe. Founded by Empress Maria Theresa, no maiden is admitted to the ranks who cannot prove on both sides 16 quarterings of nobility. The abbess is always a daughter of the imperial house. It is intended as a refuge for royal ladies of small fortune. The ladies are free to marry if they get a good offer and have no restrictions placed upon them other than that they must pass a certain number of months in the royal palace at Hradshin. They have all the freedom of home life, going and coming as they please in the search for pleasure, besides receiving a pension of $50 per month.

Mrs. Martha Johnson Patterson, who is critically ill at her home in Tennessee, is the eldest daughter of President Andrew Johnson and the only survivor of his immediate family. As Miss Johnson she was considered a great beauty. When, owing to the illness of her mother, she assumed the duties of mistress of the White House, she found the historic mansion in a greatly disordered and neglected condition. She at once proceeded to restore it to a condition suitable to its purpose. She took especial interest in the conservatories and was the first mistress of the White House to open them and the parlors to the public, irrespective of the days. She won for herself the distinction of being the most popular mistress of the presidential mansion.

Marie Corelli occupies the house that was once the home of Shakespeare's favorite daughter, Susannah, at Stratford-on-Avon. Her first visit to Stratford was in company with her half brother, the poet, Eric Mackay. Shortly after his death Miss Corelli decided to make her home on the spot where they had enjoyed so many lovely days together. The house is very old fashioned, with a kitchen garden in the rear. Creeper covers the quaint, low building from foundation to eaves. The broad old halls and oak staircase, the low studded rooms and quantities of old carved furniture, the rare old china and bric-a-brac, make it an ideal home, both quaint and beautiful. The reading public are of the general opinion that Miss Corelli writes under an assumed name. This is not so. She signs all her work with her full legal name.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Feb. 11—Comment by Rev. S. H. Doyle.

Topic—Seek first the kingdom of God.—Math. xiii, 44-46. (Union meeting with the Juniors.)

The topic is illustrated in the lesson by two parables of Christ, the parable of the hidden treasure and that of the pearl of great price. In the first instance a man is working in the field of another and findeth a hidden treasure, it being very common before the days of banks to hide valuables in the ground. He covers it up, goes and sells all that he has and buys the field, that he may have the hidden treasure. In the second parable a dealer in precious stones, when he had found one pearl of great price, sold all that he had and bought it. Thus the command of Christ, "Seek ye first the kingdom of God," is illustrated in parables.

1. Seek the kingdom of God first in the day. No Endeavorer and no Christian should begin a day of labor, of temptation, of trial, without seeking, first in prayer and in reading God's word, help and strength for the day.

2. Seek the kingdom of God first in point of time. "Remember now thy Creator in the days of thy youth." This is the command of God, and God has also promised that those who seek Him early shall find Him. We all know from experience and observation that it is much easier to find God early in life than late in life. In early life everything, every influence about us, draws us naturally toward God. The life is pure and innocent. The heart is tender and easily impressed. Outside influences are all in this direction. But how different it is later in life! The life is tainted with evil. The heart has become hardened, and the environments of life are all against us. He who seeks the Lord early in life rows with the stream. He who postpones this search till later in life rows against the stream. Let us row with the stream. It is easier and surer.

3. Seek the kingdom of God first in point of importance. Make religion the most important duty in life. Give it the first place, not a secondary or unimportant place. Christ teaches us very clearly in the parables before us that we should do this. The men in the parables put the hidden treasure and pearl of great price before everything else. They sacrificed everything else that they might obtain them. Thus we should exalt to the first place the kingdom of God, the salvation of our souls, and if we do we will be sure to be saved. Endeavorers, what occupies the first place in your hearts? Is it God, Christ, your soul, or is it the world, its pleasures, its fame and its wealth? Let us see to it that we seek first the kingdom of God.

THE PRAYER MEETING.

Arrange a special programme. Have the Seniors and Juniors each furnish a special musical selection and read the Scripture lesson alternately. It would be a good time to invite all the children and young people of the church and have the pastor preach a short sermon on the topic.

Bible Readings.—I Sam. xvi, 11-13; Ps. xxxiv, 4-10; cv, 4; cxix, 2-10; Prov. xxii, 6; Eccl. xi, 9; xii, 1; Isa. lv, 1-7; Lam. iii, 27; Amos v, 14; Matt. vi, 33; vii, 7, 8; xxv, 1-13; Mark x, 13-16; Luke xviii, 15-17; II Tim. ii, 22.

Grades of Christian Life.

There are three grades of Christian life. There is, first of all, the dissatisfied life, the life that knows there is something it does not have and that wants it and that is perpetually discontented, and rightly so, with itself. There is, secondly, the life that is half and half, that now and then rises up to the Mount of Transfiguration and then paces for long seasons over weary wastes of whitened ashes. There is a third life of satisfaction and content and peace and power and rest, the life that has made Jesus Christ its one object, the life that every man lives who is able to say in the fine phrase of Ignatius, "O Christ, Thou art my inseparable life!" The soul that has made Jesus Christ its one object has entered into rest and has entered into power. It has entered into a life of activity which no foe can withstand and of contentment which no storm can ruffle, for over all the seas where it voyages speaks that voice which quieted the turbulent waves of Gennesaret, "Peace, be still!" Nothing can overcome or disturb the soul that is hid with Christ in God and has made Christ the one object of his life and found the Father in Him.—Christian Age (British).

Along the Dusty Road.

It is a great deal easier to be up to the occasion in some shining moment of a man's life, when he knows that a supreme hour has come, than it is to keep that high tone when plodding over all the dreary plateaus of uneventful, monotonous travel and dull duties. It is easier to run fast for a minute than to grind along the dusty road for a day.—Alexander Maclaren.

Song In the Soul.

For little acts of kindness done,
For thoughts of beauty born
To blossom all around me in the sun
With each recurring morn,
My heart is singing!

For friendship, with its ties of gold
To bind around the soul
And warm our lonely spirits in the cold
To see love's aureole,
My heart is singing!

For happy children come to me,
Unconscious of my bliss
At finding music in their infancy
And simple song like this,
My heart is singing!

For a thousand, thousand common things—
The fountain in my yard,
The dainty color of canary wings,
Bright echoes of a bard—
My heart is singing!

For One who met me in the night
And wept about my sin,
Then searched me, cleansed me, filled me with His light
And came Himself within,
My heart is singing!

—Philadelphia Ledger.

EPWORTH LEAGUE.

Topic For the Week Beginning Feb. 11, "Seek First the Kingdom of God"—Text, Math. xiii, 44-46.

Hid treasure. The most productive mines of Montana were sold a few years since for $25,000. The quality of the ore was not appreciated and its proper treatment little understood. One man saw his opportunity. He acquired the title, developed their resources and now receives an income of millions of dollars annually from what others regarded as valueless.

The good of godliness is not seen by all eyes. It is peculiar ore and must have proper treatment to yield its highest values. Its worth is in various lines and richer as one goes deeper on the vein of ore.

Sold all he had and bought. Some buy a little stock as the market is rising and when a good advance is reached sell out and pocket the margin. This is speculation. Some know a good thing when they see it and put every dollar into it which they can raise. That is investment. Speculation may enrich for a time, but, like all gambling, is hazardous and most frequently results in loss if not total failure. In religious life speculative trust in God is most unsatisfactory. To start because there is revival interest and the emotions are aroused, friends are joining the church, the minister is urging to decision, and one dislikes to appear stupid and can try it awhile and if all is not satisfactory can drop back into the world, all this is gambling with spiritual impulses and divine opportunities.

For joy thereof. To recognize one's condition as a sinner, to realize the utter desolation and evil of it, to despair of self improvement, to discover the Divine offers of pardon and purity and the joy of heavenly love, all this brings one into a new world. A pearl of priceless worth has been discovered by one who has been a pearl merchant on the quest for gems of price. He knows its worth. He exults at his discovery. He will have it at any cost. One after another possessions are turned into cash. All that he has is sold. It is a great price to pay, but it is worth more even than is asked. Gladly he parts with all else that he may own this. He gets it and is satisfied with his bargain. He is enriched beyond all dreams of avarice. It is the one pearl which has no equal. It is peerless and priceless, and it is his own.

A Modern Church.

Brookline, Mass., is one of the pleasantest suburbs of Boston. Here reside many of the families formerly connected with churches in the city. Ample means have come to many by

ST. MARK'S, BROOKLINE, MASS.

business prosperity, and the desire to have a church home as comfortable in its arrangements as the family home was natural. Ungrudging liberality and wise planning have given them a model church edifice. All conveniences of modern life have been utilized here. The needs of the audience in public worship, Sunday school, Epworth League, Social Circle and every other department of churchly activity are amply provided for. A great debt of gratitude and corresponding obligation to fidelity are laid on those who in coming times shall have the privilege of using these accommodations so generously provided without effort on their part. We are always debtors to those who labored before us and into the result of whose toils we enter. Piety can dwell in a palace as safely as in a hovel and sometimes more securely. Better accommodations should stimulate zeal and increase fervor. It is an omen of good that our people are honoring God with their substance. Golden calves cost more than arks of covenant, and their worship brings shame instead of salvation. Build the tabernacles in beauty, and God will dwell in them in Shecaniah fire.

None Other.

There is no other foundation possible for a godly life and happiness than that which is laid in the life and teachings of Jesus of Nazareth. Whatever its crosses and self denials, whatever the privations and persecutions inseparable from the Christian course, there is no other possible road to excellence of moral and spiritual character. Self sacrifice is ever higher in quality and more powerful in soul dynamics than self seeking.

The lower passions may for a time dominate the world and occupy the places of power in commercial, political and social life, may even invade and usurp authority in the church, but so long as God is God and truth is truth so long will the rule of right be more potent than the rule of might. Whatever temporary successes and honors may be won by fraud and deceit, by lust and avarice, by cruelty and oppression, the day of God marches grandly on, and his children can afford to be patient and wait.

"Lo, I have overcome the world!" cries the Christ, and in His triumph we may share now and here. Not on the surface lies the safe basis of soul building. Dig deeper than customs and conventionalities of the times and build on bedrock for eternity.

SCIENCE AND INVENTION.

EARTH A PYRAMID.

English Scientist Advances a Theory That Is Attracting Considerable Scientific Attention.

Since the earth was first formed many theories have been advanced as to its shape and the process of its formation, but no one until our day ever maintained that its form was that of a huge pyramid. Centuries ago Pythagoras and Aristotle declared that it was spherical, Anaximander that it was shaped like a column, Democritus that it was a concave disk and very much resembled a huge porringer, Empedocles and Anaximenes that it was a plane disk, and Zenofanes that it had roots like a tree, which spread in all directions far into the infinite.

Now comes Mr. J. Greene, an English scientist and a government official in the Sandwich islands, with a bold announcement that all these ancient theories, as well as the modern ones, are utterly baseless, since, according to him, the earth has the form of a triangular pyramid, or, in other words, of a regular tetrahedron, with the apex at the south pole and the base at the north. An extraordinary theory this may seem to all of us who are so familiar with the earth as pictured on paper mache globes, and yet it is attracting the attention of European geologists, and among others of M. De Lapparent, who seems by no means inclined to reject it hastily.

Tergioni Tozzetti, a writer of the last century, said: "If we can suppose all the water of the seas to be annihilated we would find that the solid earth was of a most rugged form."

According to this hypothesis, say geographers of the old school, there ought to be a spacious sea opposite every continent. The new theory, however, as has been said, seemingly eliminates the waters of the earth altogether and cares not a jot as to their location. If we admit that the earth is now completely solidified, even in its central parts, we must, it is asserted, also admit that it was at one time in a state of fusion, and that after a crust was formed the hot substances gradually cooled. In time the earth would present an appearance as harmonious and as free from unsightly protuberances as possible.—N. Y. Herald.

WIRELESS TELEGRAPHY.

To Be Used as a Means of Communication Between Mt. Blanc and Chamonix Valley.

High amid the clouds and snows a little below the summit of Mount Blanc, and visible miles away as a speck on the broad, white flank of the giant Alp, is the Vallot meteorological observatory. On the very summit itself stands the astronomical observatory of M. Janssen. Communication between the meteorological observatory and the valley of Chamonix has been partly maintained by telegraph, but the tremendous snow drifts make havoc with the wires. It is now proposed to try the Marconi system of wireless telegraphy. The signals through the air would be independent of snows and storms, but a practical difficulty may be presented in erecting on the windy peak the apparatus needed for wireless telegraphy.

THE MT. BLANC OBSERVATORY.

Germ-Proof Glass Houses.

Glass houses are considered particularly unsafe places in which to live, but a German scientist has recently constructed a glass house which he recommends as the safest, as far as immunity from bacteria is concerned; or, in other words, he has invented a bacillus-proof house. This house is built entirely of glass, air being forced through a pipe, then filtered through cotton wool, and finally driven against a sheet of plate glass coated with glycerin. The microbes are supposed to have perished by the time they reach the glycerin, but in case a few stragglers should find their way into the house itself, it is claimed that they cannot live under the rays of the sun.

Alcohol and Plant Life.

An ingenious Frenchman, M. Louis Levat, recently administered alcohol, through the soil, to a geranium plant for the purpose of observing the effect. It was sufficiently startling. The leaves of the geranium began to turn yellow, and gave off a peculiar etheric odor, symptoms of poisoning appeared, the rootlets turned black and seemed to have been burnt, the circulation stopped in the branches, the leaves drooped toward the earth, and in four days the alcoholized geranium, which had been a very beautiful plant, was a tottering wreck.

The Most Penetrating Sound.

The roar of the lion can be heard further than the sound of any other living creature.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World

It is gratifying to know that an American play has made a big hit. This is the case with the new melodrama, "A Man of Mystery," which will have its first presentation in this city at Music Hall tonight. It is American in scene, plot and characters, and it has made a tremendous success everywhere. It was written by an American and its managers, Brown & McDowell, are American to the backbone. The characters in the drama are all clear cut, and are different from those seen in the average play. There is a rascally young man who tries to rob his uncle. He transfixes him with a hypnotic stare. He hypnotizes his half-sister and has her thrown from a trap into the river, but is rescued by her lover, a young detective. Eventually the nephew is caught and dies by poison. The plot is rich in dramatic incidents, lightened by a great deal of wholesome comedy.

* * * * *

The usual hero and the usual villian are found in Lincoln J. Carter's new play, "Chattanooga," which comes to Music Hall Wednesday of next week, but the hero and the villian have almost a National importance in this piece, for they assist in carrying out a story incident to the battle of Lookout Mountain, an event which is always full of interest to people of all sections. Mr. Carter has produced in "Chattanooga," a play so full of stirring incidents, so strong in dramatic situations and so lively in delicious comedy, that it has raised most favorable commendation in every city where it has been produced. A special cinematograph is used in the last act, and with this the audience is carried along with a full-sized locomotive speeding at the rate of sixty miles an hour. The company is an excellent one and the leading parts are handled by artists.

* * * * *

With a combination of magicians, such as LeRoy, Fox and Powell, who will be at Music Hall Friday and Saturday of next week, theatre goers look for something out of the ordinary in this line of business and they get it. The three give an entertainment which is second to none in their class, and introduce novelties that have never before been attempted by wondermakers. Their illusions are indeed wonderful, and the suspension of a pretty girl in mid air, is one thing that keeps those witnessing it, with a subject of discussion for months. The clever manner in which their acts are put on, assists greatly in making the turns a success. Interesting in their conversation, the audience is kept in a state of expectancy for the climax, and the more closely they watch it, the less they see. They will appear in conjunction with a company of specialists.

Realty Changes.

The following real estate transfers have been recorded in the Somerset County Clerk's office during the past week from North Plainfield:

Harry B. Gould et ux to F. J. S. Whitly, $2,000; David T. Kenner et ux to Frank H. Coward, $1,500; B. A. Hageman to Harry H. Coward, $1; Harry H. Coward to B. A. Hageman, $1; Alfred I. Smalley to Wm. E. Brock, $105; Chas. P. Rider et ux to Mary B. Hill, $1; Mayor and Council to Addie Dietrich, $66 93; Walter R. Lusher et ux to Mary Ellen Dempser, $1; Chas. W. Hummer to John L. Hummer, $1.

ROD AND GUN.

Scott Terry is making arrangements for a live-bird shoot to be held at his home in the near future.

A Pleasant Surprise Party.

A pleasant surprise party was tendered Miss Sadie V. Clannen, of Mt. Pleasant, Wednesday evening, in honor of the anniversary of her seventeenth birthday. A large number of friends from Mt. Pleasant, New Dover and other nearby places, gathered at the home before Miss Clannen had any idea of the invasion. During the evening there were phonographic selections and Mrs. Williamson, of Newark, on the piano, accompanied by Peter Lott, on the banjo, furnished music for dancing.

Death of Mrs. Trewin

The death of Mrs. Richard H. Trewin, daughter of Mr. and Mrs. George Rockafellow, occurred this morning at the home of the parents, 252 East Front street, after an illness extending over a period of four years. Death was due to consumption. For several days past Mrs. Trewin was in a semi-conscious condition and scarcely recognized anyone. She is survived by a husband, whose whereabouts are not known, and a daughter.

His Hand Crushed.

Robert Goldsack, an employe at the Pond Tool Works, had his hand crushed this morning while at work. Several fingers were lacerated, and Mr. Goldsack was obliged to go to the hospital where he had the hand dressed.

Mrs. William E. Stewart, of Forest Hill, Essex county, is a guest at the home of Dr. and Mrs. E. M. Rodman, of East Seventh street.

—Come in and see for yourselves. I have the finest display of cut flowers, ferns, palms, plants of all kinds. I extend an invitation, come in and look around. Now is the time for leaving your Easter orders. Mrs. Denton's.

PARTICULAR MENTION.

Mrs. Fitch, of Westfield, has been visiting her parents on Prospect avenue.

Mrs. George Egel, of Somerset street, is greatly improved from a severe illness.

Mr. and Mrs. J. B. Martin's young daughter is detained at their home on Manson place with the mumbs.

Substitute Letter-carrier Frank Clarkson is being taught the various routes in the city and borough.

Miss Florence Williams, of West Seventh street, who has been very ill at her home, is somewhat improved.

J. M. Smalley and family have removed from Hand's building, corner Watchung avenue and Second street, to Somerset place, in the borough.

Word has been received from T. B. Green, of East Front street, who went south a short time ago. He and Francis Whiteley, of the borough, are stopping at Augusta, Ga., for the present.

A Special Sale of 1,000 Pairs of Men's Trousers.

We purchased 1,000 pairs of trousers, all there was left over by one of the best pants manufacturers on Broadway, N. Y. Owing to the lateness of the season we purchased them at 40 per cent less than the original wholesale price, that gives a chance to offer you the biggest bargains in trousers we have ever offered. They are all made in up-to-date patterns, cut in shape, the following are the prices we will quote for this Saturday.

150 pairs of trousers, that are strictly all-wool Scotch cheviots and cassimeres, made with two hip pockets, continuous waistbands, good and heavy, regular price $2.50, for this $1.25.

150 pairs of men's trousers, very handsomely made in cassimeres, cheviots, as well as in wool faced worsteds, in stripes, checks and plaids all new patterns, nice clean stock, the actual price of them is from $2.75 to $3.25, to go at $1.65.

100 pairs of young men's trousers consisting of cheviots and cassimeres, checks and stripes in all wool materials, regular price $2.00 your choice $1.15.

100 pairs of the finest Washington Mills worsteds as well as extra fine cassimeres, they are as good values as ever offered, the styles and patterns are the very latest, strictly all wool, worth from $5.00 to $6.00, to go at this sale at $2.30 and $2.75.

Good working pants at 70c.

Nice business trousers at 95c.

These are only a few of our immense stock of trousers that must be sold before our new spring stock arrives.

This chance just came in time for a great many of our customers that need a pair of trousers to wear out with their suits that they have bought earlier in the season.

KEAN AND SEWELL TO BE AT SMOKER.

Distinguished Guests for County Committee's Affair.

G. O. P. LEADERS TO MEET.

WILL BE HELD AT THE CASINO WEDNESDAY EVENING.

Governor Voorhees, Jersey's Two Senators and The Congressmen Are Invited—An Enjoyable Programme Has Been Arranged—Will Be a Big Affair—A Few Speeches by Distinguished Guests.

All the Republicans of importance in Union county will be gathered together in the Casino Wednesday evening for the second smoker of the county executive committee of the G. O. P. Such is the plan of the committee in charge, and it will undoubtedly succeed. Only illness or very important engagements will keep the leaders away.

It is expected that New Jersey's two Senators, Senator Kean and Senator Sewell, will both be present. An invitation has also been sent to Governor Voorhees, and it is hoped that he too will attend. Congressman Fowler is expected, and there may be others present from the Lower House in Washington.

It's too soon as yet to talk much politics, but there may be a few words said at the "smoker" Wednesday evening that will be important regarding the coming campaign. Of course, it is likely that those who talk will have something to say about the recent speech of Col. Bryan in this city.

A few speeches there will surely be, and the distinguished guests of the evening will be called upon. A little informal programme has also been arranged. A team from Elizabeth, who took part in the amateur minstrels there, will assist in the entertainment. A professional trio will give instrumental selections on various instruments while there will be some illustrated songs.

The Republican party of Plainfield will be out in full force. Although the best of harmony does not exist in the local ranks, it is not likely to pop on such an occasion and all factions will unite to have the "smoker" excell in attendance and pleasure the first of the series held in Elizabeth. There will be one more "smoker" given by the county committee, and it will be held at Rahway the last of this month or the first of next.

CLEVER CHARACTER SKETCHES.

Lieut. Charles E. Scott Entertained at Franklin School Last Night.

A good-sized audience assembled at the Franklin School last evening and listened to a programme of recitations by Charles E. Scott, of Indianapolis. He gave character sketches from the writings of Eugene Field, James Whitcomb Reilly, Mark Twain and other popular authors, and he kept his audience interested from start to finish. Among the selections given there was fun and pathos and Lieut. Scott exhibited rare ability in his portrayal of the various characters. He was given a warm reception and all went away well pleased with the evening's entertainment.

Officers Installed.

A meeting of Central Lodge, A. O. U. W., was held Thursday night. Four candidates were initiated. Overseer Thorn sent in his resignation which was accepted and Charles Hepburn was elected to fill the unexpired term. Acting Deputy Grand Master Workman Edward M. Mosher then installed Overseer Hepburn, Financier William Newcorn and Receiver Charles H. Randolph. The two last named officers were absent when the other officers were installed.

A Muddy Crossing.

Although various protests have been made to the Mayor and the street committee, there still remains a very muddy crossing at the corner of Franklin place and Putnam avenue. There is no connection between the sidewalk and crosswalk so that pedestrians are compelled to wade through mud which is sometimes several inches deep.

Opposition Overcome.

It is given out by those interested in the project that all obstacles have finally been removed and that the Plainfield Street Railway will extend its lines from Somerset street up to Watchung. It is possible that the trolley line may also be built as far as Stirling before the end of the summer.

Postponed for a Week

The trial of Henry Staats in the City Court on a serious charge, was laid over this morning for a week at the request of the prisoner's lawyer, William Newcorn.

WORK OF THE Y. M. C. A.

PROMINENT SPEAKERS AT THE STATE CONVENTION.

Up-to-Date Topics are Discussed—250 Delegates in Attendance—Plainfielders are on Some Important Committees.

(Special to The Daily Press.)

Passaic, Feb. 10—Two hundred and fifty delegates are attending the thirty-fifth annual convention of the New Jersey Young Men's Christian Association.

Among the speakers at the session yesterday were Rev. C. I. Scofield, of East Northfield, Mass., who spoke on "The Holy Spirit;" Prof. Geo. Gunton, of New York, who discussed "The Civic Duty of Our Educational Department," and Walter M. Wood, of Chicago, who conducted a discussion on methods of awakening interest in educational departments. Rev. Charles Wood, of Philadelphia, made an address on "The Boy and Man" during the afternoon meeting; H. L. Simmons, of the Brooklyn Young Men's Christian Association, discussed "Successful Summer Work," and Dr. W. H. Kinnicut, of Cleveland, O., spoke on "The Mission of the Physical Department."

Rev. Anthony H. Evans, of New York, made an address in the evening on "The Kind of Christian Needed by the Times."

The following committees were appointed to report at the business session this morning:

Committee on State committee's report—Stephen Cahoone, Plainfield; C. H. Harrington, Camden; W. C. Keir, Paterson.

Committee on resolutions—J. S. Tichener, Montclair; Joseph A. Jones, Princeton; W. H. McBee, Madison.

Business committee—Frank Grubb, Passaic; S. B. Smith, Jersey City; J. L. B. Sunderlin, Hoboken Railway Association.

COLLEGE TO BE OPENED.

Swedish Lutheran Institution Established at New Orange Ready for Use.

Upsala College, which has just been completed at New Orange, Union county, will be opened this afternoon with appropriate exercises. The college is established by the Swedish Synod of the Lutheran church, and was formerly in Brooklyn. The opening devotional exercises will be in charge of Rev. F. C. Krapf, of Holy Trinity Lutheran church, Elizabeth. They will be followed by addresses from Rev. L. P. Ahlquist, of Portland, Conn., president of the New York Conference; Rev. Mawritz Slotpe, of New York, president of the Board of Directors; Rev. Gustav Nelsenius, of Brooklyn, and J. G. Danielson, also directors of the institution. Rev. Dr. G. F. Greene, of Cranford, N. J., and Rev. M. S. Waters, of Newark, will also speak. Music will be rendered by a special orchestra.

When the programme for the afternoon is ended the Upsala Willing Workers will hold a bazaar and also serve a supper in the rooms of the college. In the evening there will be a concert in the college chapel.

Upsala College is a handsome and imposing structure, standing on a high knoll. It is built of brick, and is one of the finest finest educational institution in Union county.

INJUNCTION TO STOP A RIVAL PAPER

Printing Company Tries to Head Off a New Publication at Newark.

The Staples Printing Company, of Elizabeth, got an injunction late yesterday afternoon in the Court of Chancery, at Newark, against William A. Morgan, of Elizabeth, the company's general advertising agent restraining him from publishing today in Newark "The New Jersey Contractor and Gazette," a weekly trade journal, which has a large advertising patronage and a fairly good circulation. The paper was printed in Elizabeth by the Staples company, which also had an office in Newark in charge of Morgan.

He had a quarrel with the firm last week and severed his connection with it. Then he decided to print a rival paper in Newark under the same name, and its first issue was to come out today. The injunction was granted by Chancellor Emery, who set down a hearing of the case for 10 a. m today in the Chancery Chambers, Newark. If the injunction is not sustained by the hearing, then Morgan can get out his paper. The Staples company's members, however, are confident of winning their fight. A copy of the injunction was served last night on Morgan at his home in Elizabeth.

Sailed for Europe.

Emil C. Woltman, of West Seventh street, sailed today on the steamer, Lucania, for a three weeks' pleasure trip abroad. He will visit London and Paris.

WIFE FOLLOWS HUSBAND.

Mrs. Kitchen Survived Her Husband But a Few Days—Sad Train of Deaths.

(Special to The Daily Press.)

New Market, Feb. 10.—Mrs. Phoebe Catherine, widow of the late William D. Kitchen, died at her home in this place yesterday after a long illness. Mr. Kitchen died last Saturday and the death of his wife a week later seems a strange fatality. On the 9th of December Irene, the wife of John H. Kitchen, died at her home in North Plainfield. Mrs. J. H. Kitchen was a daughter-in law of William D. Kitchen. Therefore within a month three members of one family have passed away.

Mrs. Phoebe Kitchen had been ill with the grippe and heart trouble. Upon the death of her husband last week she failed rapidly. She was 71 years of age. The funeral will be held Tuesday morning at 9 o'clock from her late residence. The interment will be beside that of her husband in Mechanicville.

WILL RECOVER THE COAL

RAILROAD COMPANY TO TAKE MATERIAL ALLEGED TO BE STOLEN.

Justice Nash Issed a Search Warrant Which Permits the Proceeding—Purchasers of Stolen Coal May Get in Trouble

Eugene Wheeler, John Ward, John Richards, Clarence Wheeler, John Laird, Patrick Meehan and James Wheeler, the men charged by Central Detective Dougherty with stealing coal from the cars of the Central Railroad and concealing it in their barns and cellars at the "Right Row" houses, were yesterday afternoon released on bail for their appearance before the Grand Jury which convenes at Elizabeth early in May.

Justice Nash granted a search warrant to Detective Dougherty for the purpose of allowing the railroad officials to recover the stolen coal, which will be removed today. The railroad detectives suspect that there are others implicated in the wholesale coal stealing and other arrests may follow. It is also possible that the people who have been buying coal from these men may also be apprehended and charged with being the receiver of goods known to have been stolen.

LATE F. E. MARSH EULOGIZED.

Essex County Bar Association Adopted Resolutions.

The Essex County Bar Association, at a largely attended meeting held in Chancery chambers Thursday afternoon, adopted resolutions of sympathy and regret in relation to the death of Francis Elston Marsh. The memorial drafted characterized Mr. Marsh as a man of sterling integrity, and in conclusion declared: "In his long and varied practice, by reason of his learning in the law, genial disposition, sense of justice, exemplary habits, uniform courtesy, particularly to his juniors, he won the deserved friendship, respect and confidence of the profession generally and of others with whom he came in contact."

Former Mayor Saunders' Lecture.

Next Tuesday evening, at the Casino, Former Mayor W. L. Saunders, of the borough, will give a lecture on compressed and liquid air. There will be stereopticon illustrations on a screen, and liquid air will be produced in New York and brought to this city for experimental purposes. Walter Dickerson and Bert C. Ball, mechanical engineers, will assist Mr. Saunders in these experiments. Mr. Dickerson was for more than three years engaged with Mr. Tripler in his early researches in liquid air and is now associated with Thomas A. Edison, at Orange. Mr. Ball is a prominent member of the American Society of Mechanical Engineers. This lecture will be under the auspices of the Monday Afternoon Club.

A Pleasant Surprise.

A pleasant surprise was tendered last evening to Mr. and Mrs. W. C. Townsend, of East Front street by a few of their friends. Mr. Townsend was just leaving the house to go down town when he met the surprisers in front of his home. He returned with them and a very enjoyable time was had. During the evening there were selections bp W. C. Townsend, mandolin; Harry Stewart, piano; Ernest Wilcox, flute. Before the guests departed they were served with refreshments that added to the pleasure of the occasion.

Charles Dupee Convalescent.

Charles Dupee, of Rockview avenue, who has been very ill at the infirmary at Yale University with typhoid fever, is fast recovering. The physicians believe that he is now past all danger and his recovery is only a matter of weeks. The fever is entirely gone but he is still very weak.

—Use Press want ads.

POLITICS RUINED HIM.

DOWNFALL DATES FROM TIME HE GOT A PUBLIC OFFICE.

Just Released From Somerset County Jail for Being Intoxicated, and Has Separated From His Wife in Somerville.

(Special to The Daily Press.)

Somerville, Feb. 10—Lawyer Henry Hardwicke, ex-Assistant District Attorney of New York, who was locked up in the Somerville jail last week for being intoxicated and raising a disturbance in his family, has been released, having first signed articles of separation from his wife, who had grown tired of his convivial habits. His wife was Miss Anita Cornell, a member of one of the oldest and most aristocratic families in the county. She is Regent of General Frelinghuysen Chapter, Daughtere of the American Revolution, and a social leader. She met Henry Hardwicke in Asheville, N. C., while visiting that place for her health. Hardwicke was practicing law there and was sober, industrious and quite a worker in the church. They were married about seven years ago and Hardwicke immediately gave up his practice at Asheville and came to Somerville to the old Cornell mansion, opening a law office in New York and traveling back and forth daily. During Mayor Strong's administration he was appointed Assistant District Attorney, and from that time may be dated his downfall. He was at one time a candidate for Congress from this district. Hardwicke has disappeared from town and it is supposed that he is in New York.

A NEW GUESSING GAME.

NOVEL ENTERTAINMENT AT TRINITY CHURCH SOCIABLE.

Under the Auspices of Social Committee of the Christian Endeavor Society—Large Crowd—Those in Charge.

Last evening at the Trinity Reformed church, under the auspices of the social committee of the Christian Endeavor Society, there was held one of the best sociables in the history of the society. It was attended by nearly 200 persons.

A programme consisting of music and recitations was given. Elmer D. Cutting, accompanied by Miss Winckler on the piano, rendered several tenor solos, and there were a number of recitations by Miss Lucy Pound and Miss Murphy that were well given and received. A piano duet by Miss Nellie Winckler and Miss Eva Wilkins brought to a close this programme.

The other part of the programme was quite as enjoyable and proved to be very interesting. Three tables were arranged in the centre of the room upon which were placed about thirty representations of various flowers and foliage. Those present were then supposed to interpret them and write the result on a piece of paper. Some of the answers were very amusing and caused no end of fun. The representations were also amusing and kept everyone guessing for a time.

As an example there was a dish of peas covered with sugar representing "sweet peas." Another one was a picture of a foot with a corn on a toe, representing "acorn." "Maiden-hair fern" was represented with a lock of a woman's hair tied with a small ribbon, and "tulips" was represented by a picture of two lips in close proximity. Miss Wyman was the most successful contestant, she guessing thirty out of the thirty-one representations.

After everyone had thoroughly enjoyed this part of the entertainment, refreshments were served by the social committee, assisted by the reception committee, consisting of young men. The social committee to whom the credit for the affair is due is composed of Miss Edith Dubois, chairman; Miss Viola Huff, Miss Nellie Fenner, Mrs. Bertha Richards, Mrs. E. E. Anthony and Miss Bessie Martin. Everyone present agreed that it was one of the best socials held in a long time.

Valuable Dog Poisoned.

A valuable St Bernards dog, the property of B. O. Bowers, of Franklin place, was taken ill suddenly yesterday and died. The dog was a large one and handsomely marked. It is supposed that the dog was poisoned.

Carpenters to Attend Funeral.

The members of Carpenter's Union, No. 155, will attend the funeral of their late brother, Henry Force, tomorrow afternoon. The members will meet in the rooms at 1:30 o'clock and attend the funeral in a body.

Exempt Firemen to Attend.

The members of the Exempt Firemen's Association are requested to meet at their rooms tomorrow afternoon at 2 o'clock for the purpose of attending in a body the funeral of their late brother, Henry W. Force.

QUIET WEDDING.

Miss M. Agnes Blair Married to Dr. A. W. Anderson at Bilde's Home Last Night.

A quiet wedding was performed at the home of Mr. and Mrs. Ramsey Blair, of East Second street, last evening at 6:30 o'clock, when their daughter, Miss M. Agnes Blair was married to Dr. A. W. Anderson, of Watchung avenue. The ceremony was performed by Rev. C. E. Herring, pastor of the First Presbyterian church.

The marriage was very simple, the couple being unattended and only the relatives being present. The bride wore a becoming traveling gown. A wedding supper followed and then the newly wedded couple left on a short trip. On their return, they will take up their residence in New York, where the groom is cashier in the banking house of J. Pierpont Morgan.

DANCED THE COTILLION.

COTILLION CLUB ENTERTAINED BY MRS. J. W. REINHART.

Last Dance of the Club Before Lent—Was Led by Miss Mary Anderson Reinhart and George VanBoskerk

The activity of the Cotillion Club is now over until after Lent. The last cotillion before the Lenton season was danced last evening at the home of Mr. and Mrs. J. W. Reinhart, of Belvidere avenue. As the last of this series of very enjoyable social events, it proved a more elaborate affair than most of the previous ones.

The membership of the Cotillion Club numbers sixty. There were fifty present last evening. The cotillion was led by Miss Mary Anderson Reinhart and George VanBoskerck. The favors were novel and attractive while a number of pretty figures were arranged. The prettiest were the "golf" figure and the "clothesline" figure.

Mrs. J. R. Reinhart was assisted in receiving the guests by her daughter, Mrs. Edward M. VanBuren. The ladies at the favor table were Mrs. William E. Lowe, Mrs. Frederick H. Andrews, Mrs. George Wharton Edwards and Mrs. N. Pendleton Rogers.

The parlors were handsomely decorated for the dance. After the cotillion supper was served and general dancing followed.

DAYTON FARM SOLD.

One of Finest Farms in Piscataway Brought Only $5,000 at a Forced Sale.

As a result of partition proceedings started by the heirs to the estate of the late Louis Dayton, of Piscataway, the Dayton farm, one of the most valuable in Piscataway township, was sold by John H. VanWinkle as special master in chancery last Tuesday. The farm, which is located a mile from New Market, includes 130 acres of excellent farm land and the homestead and farm buildings all in good condition. It was purchased by Henry S. Garretson, of Dunellen, for $5,000. The property is valued at twice that amount.

An attempt was first made to divide the property among the heirs but no satisfactory arrangement could be made and so the Chancellor ordered the property to be sold and the proceeds divided among the heirs.

Brought Back by a Detective.

(Special to The Daily Press.)

Elizabeth, Feb. 10.—Detective McGrail, of this city, brought to the county jail from New York yesterday afternoon Frederick Taylor, of Linden, who is wanted on a charge of grand larceny. Taylor was foreman at the Ingersoll watch factory in Linden, and it is charged, stole several hundred dollars' worth of stock from the factory. He fled to New York and was captured in that city and committed to the Tombs. He was indicted by the last Grand Jury.

Prize Fight in the West End.

It is reported that a few nights ago a prize fight took place in the West End in a barn, and that two policemen, standing not a block away, were wholly unawere of what was going on. It is said that the fight was a draw, and that another bout will come off soon at the same place.

Musical and Tea

The Dorcas Circle of King's Daughters will give a musical and tea Thursday afternoon, February 15, from 3 to 6 o'clock, at the residence of Mrs. B. O. Bowers, of Franklin place. Cake and candy will be for sale. Twenty-five cents will be received at the door.

Lost $10.

Henry Miller, of Putnam and Carlton avenues, was a loser of $10 last Wednesday when Bryan visited the city. Mr. Miller was good natured over his loss, and said that he felt well repaid for the opportunity of hearing and seeing Bryan.

—Call on Van Emburgh & Son this evening—new store full of new goods. 135 East Front street.

MELO-DRAMA WAS SEEN.

GOOD PERFOFMANCES THIS WEEK AT MUSIC HALL.

Two Good Attractions Promised for Next Week—Edward Harrigan Will Probably Appear in "Old Lavender."

Two splendid melo dramatic performances were given at Music Hall the past week—"A Guilty Mother" Tuesday, and "A Man of Mystery" last night. Both plays were New York successes and were presented in a fine manner to well pleased audiences. The attendance was fair, but both deserved better patronage, for better acting, more realistic scenery and effects, has never been witnessed here.

Manager Mazo Edwards announces two good attractions the coming week which will be found worthy of attention and cannot fail to please amusement seekers.

Dramas depicting events of the civil war have been frequent during the past ten years and some have been of greater merits and some of less but none of them have received such universial commendation from the press and the people as has Lincoln J. Carter's recent attempt, "Chattanooga," which will be presented here Wednesday night. Mr. Carter has made a special effort in this play to exceed the efforts of all former playwriters and to do this, it has required many months of careful work not only in preparing the drama but in collecting the material and preparing the scenery and stage effects. Mr. Carter has seen that the heavy work of the drama is enlivened by the most delightful and wholesome comedy such as any person would be delighted to hear and in presenting this piece he is confident that the people of Plainfield will be fully satisfied after they have seen it.

It is over two years or more since we have had a good, or in fact any, performance of necromancy or sleight-of-hand entertainments and the coming of "The Triple Alliance" next Friday and Saturday nights, with a special matinee Saturday afternoon, will undoubtedly be welcome news.

Servais LeRoy, Imro Fox and Fred E. Powell have formed a combine, under the title of the "World's Greatest Magicians," which unites three of the greatest wonder-makers, the world has ever known, drawn from three of the world's greatest nations, Britain, Germany and America.

The popularity and charm which surrounds the mystic adept and illusionist of the modern stage is today as potent with the theatre-goer as it was in mediaeval times, when the necromancer was believed to be in league with the evil one; and the disciple of diablerie sought to enhance his spell of enchantment upon the masses, by claiming affinity with the supernatural. We all know that the modern conjurer is not in league with the evil one, but the mystery and charms of his trick is as potent as ever, and when he bewilders the senses by ingenius application of natural laws, and the skill acquired by inexhaustable practice of his art, we are again ready to explain away his wonders by claiming that he is in league with some supernatural power.

In conjunction with the performance of Messrs. LeRoy, Fox and Powell, will be given a number of high-class specialties. In this portion of the programme will appear Dora Busch, the female baritone; Zegelle and Vernon, the comedy bar performers; the Australian musical trio, Lelliott, Euson an Lelliott, and Chas. Mariner, shadowgraphs.

Washington's birthday, 22d inst, has been selected for the first appearance of the celebrated St. Felex Sisters in conjunction with Calhane, Chace & Weston's minstrels, an organization of merit which has been winning great praise from the Eastern and Canadian press. The three proprietors of the company have long been identified with all the leading minstrel organizations of the country, and the aggregation of talent which they have gathered around them are the equal of any in the profession. We were all delighted with the Vogel-Deming minstrels—Manager Edwards assures us we will be with this company. Edward Harrigan the famous comedian will probably be seen in his great character play, "Old Lavender," during the holiday week, and following this we are to have a week of repertoire by the Macauley-Patton Company, who are said to be something above the ordinary, with new plays and beautiful scenic accessories.

During the months of March, April and May, many of the best things of the season will be given, among which may be mentioned, "The Heart of Maryland," Mme. Modjeska, The Jefferson Comedy Company and "Zaza."

—One lot of women's shoes lace and button, regular $3 and $2.50, cut to $1.50 at VanArsdale's clearance sale. Read his ad.

WEAVER OUTWITTED BY AN INNOCENT KID.

Jumped From a Window in the Toilet Room.

MADE GOOD HIS ESCAPE.

STANLEY B. CHILDS IS A FUGITIVE FROM JUSTICE.

He is an Incorrigible Youth Who Has Been Stealing From His Mother—Justice Moffett Had Held Him for the Grand Jury—His Mother the Woman Whom John Kuckio Tried to Kill Last August.

Peter V. Weaver, the well-known constable, has in possession a commitment paper to take a prisoner to the Elizabeth jail, but he cannot find the prisoner. The prisoner is only a boy, but he has proved too slick for the officer, who is making inquiries about the city for a small-sized boy wearing a cap and having an innocent expression. The boy in question is Stanley B. Childs, the fourteen year-old son of Mrs. Mary E. Childs, of 14 Clinton avenue.

The youth gives every indication of being a modern Jack Shepperd. Though small of his age and possession an air of innocence Stanley is nothing less than a bad boy, so bad in fact that his mother can do nothing with him. For some months the boy has been helping himself to what cash he could find in his mother's pocket book. Stanley's repeated stealings finally led his mother to decide to send him to a reform school.

The incorrigible lad was arrested by Constable Weaver and this morning brought before Justice Moffett, who held him to await the action of the Grand Jury on a charge of petit larceny. His mother was the complainant. While the magistrate was making out the commitment, Stanley made a request to visit the toilet room. Constable Weaver took the boy to the end of the hall where he waited his return.

Now Constable Weaver is a patient man, and did not mind waiting in the hall five minutes, but when ten minutes had passed and the innocent little Stanley failed to return the constable began to investigate.

But his investigations were fruitless, as far as the boy was concerned. The prisoner was not in the closet. The innocent Stanley, in police parlance, had "flew the coop." The toilet room was unoccupied. Instantly all was excitement in the Marsh building, particularly in the justice's court.

Justice Moffett ran one way, Constable Weaver another, and ex-Sheriff Kyte and J. Emmons Henry came in collision in the hallway.

"He's gone, sure enough," exclaimed Peter, retiring from his investigations, which resulted in the discovery that the innocent Stanley had raised a window of the toilet room, and had either leaped or dropped to the alley beneath, a distance of about twenty feet.

Stanley unceremoniously eluded the law's grasp and left behind a pasteboard box containing a book and some nick-nacks that his mother had put up for him. Among the articles in the box were several envelopes, with stamps upon them, that had been directed to his mother, evidently placed in the box by the fond parent so that Stanley, who is her only child, might write to her from the Reform School. The box and contents is still in the possession of Constable Weaver.

To Prove it by the Bible.

Tomorrow evening at the Mt. Olive Baptist church, Rev. E. E Jackson, pastor, will prove by the Bible that no man who is a Christian will remain a non-church member of the Christian church. This service will be held promptly at 7:45 o'clock and those desiring seats should go early.

A Class Jollification.

The members of the class of 1900 of the Plainfield High School will hold a class jollification Monday evening at the home of the president, Miss Marion Woodcock, of West Seventh street. Only the members of the class and the faculty of the High School will be present.

Taken a Position as a Teacher.

Miss Ethel Haven, of Leonardsville, N. Y., formerly critic at the Geneseo Normal School, New York, has taken a position as teacher at the Whittier Public School, filling the place of Miss Lena Tomlinson, of West Fifth street, who is confined at home with illness.

Westfield Juniors Expected.

At the meeting of Franklin Council, No. 41, Jr. O. U. A. M., on the evening of Washington's Birthday, the members will enjoy a visit from the Juniors of Westfield. There will be some special features in the way of entertainment.

CAPITOL ELEVATORS.

Their Introduction Brought About After a Long Struggle.

Fat Men Even Could Not Agree as to Their Value—Ten Years Senate and House Wrangled Over the Matter.

[Special Washington Letter.]

THE pictures of the capitol building which show the east front are published broadcast so that everybody in the land has a good idea of the appearance of the palatial structure. There are three entrances to the capitol, by broad staircases, but they are seldom used.

The senate and house entrances have beautiful white marble steps, but the rotunda entrance is approached by old red sandstone steps. Beneath these stairways are wide driveways, and they are used by senators and representatives because there are basement entrances which lead to elevators. Therefore the beautiful stairways are seldom used. Without them, however, the symmetry of the building would be destroyed.

Strangers in Washington usually mount the stairs from the outside, for they would never think of going through the dark driveways beneath. Readers of this paper, when they come to the national capital, will know that it is better and easier to go in beneath the stairs where they will find broad doors entering wide halls. At each door a capitol policeman will be found, and also authorized guides, who will show the way to the elevators, so that they may go to the main floor without the toil and fatigue of stair climbing; for it is tiresome, particularly to ladies, to go upstairs, even at home. If it had been left to women to invent stairs they would never have been invented.

There are six elevators in the capitol; two in the house wing, one in the rotunda and three in the senate wing. Three of the elevators are set aside for the exclusive use of dignitaries, and three are for all people to use. The two elevators in the house wing are open to all comers. This is because the house is composed of direct representatives of the people, and it would not be wise for them to be exclusive. Some of their people might come on

KLOTZ TALKING ELEVATORS.

here and be annoyed or angry if they should find anything aristocratic at that end of the capitol.

One of the house elevators leads to the house floor entrance by the speaker's room, and the other one goes to the entrance of the press gallery. Both of them go up to the public galleries. The former is used by a majority of the representatives, but nobody is ever excluded who wants to ride in either one of them.

The elevator in the rotunda is reserved for members of the supreme court and for attorneys practicing before that court. It is also used by employes of the court. This elevator was burned out last summer, when a fire broke out in the rotunda basement, but a new one is now in operation, and it is probably the handsomest and the best one in the great building.

Very near the basement entrance of the senate wing is the public elevator. Everybody is entitled to the privilege of riding in this elevator, but the other two in the senate wing are held exclusively from the general public. One of them bears a sign: "Exclusively for congress and supreme court." The supreme court is mentioned on this sign because members of the court often use the senate entrance instead of driving to the central part of the capitol, where their exclusive elevator is running. Senators use this elevator because it is near the senate restaurant, and those dignified statesmen do not want to be crowded and jostled by the plain people.

The other exclusive elevator is on the west side of the senate wing, and is used exclusively by senators and newspaper men. It leads to the senate press gallery, as well as to the main floor of the senate and the senate galleries. Not only is this elevator exclusive, but the corridor approaching it is kept from public use. A watchman is stationed there, and he will not permit anyone to even enter the corridor. Of course, if you are accompanied by a senator the watchman says nothing, because senators can do as they please, and take with them whosoever they desire. But no citizen is allowed to use that corridor or elevator who comes there alone. No exception to this rule is ever made.

Two of these elevators have steam power, and four of them are run by electricity. The two elevators in the house wing are of old style and they move very slowly. The supreme court elevator and the three in the senate wing have electric power, and they move very swiftly. Many people individually use the elevators a number of times each day. Consequently the aggregate number carried amounts to several thousand daily. They are almost always crowded when the senate and house of representatives are in session.

It may seem singular now to state that the congress debated the subject of elevators for ten years before making appropriations for them, although elevators were used in all large buildings in the principal cities. In 1876, when your correspondent first visited this city, there was no elevator in the marble building, but the subject of making appropriations for that purpose was under consideration. Year after year efforts were made to secure appropriations for this purpose, but they were thwarted by the alleged "economists," the principal objector being William S. Holman, of Indiana, who was called "the watchdog of the treasury." At that time Mr. Holman

SENATOR SAWYER TAKING EXERCISE.

was chairman of the house committee on appropriations, and he possessed power sufficient to block all appropriations which did not meet with his approval. He declared that "representatives who were too lazy to walk upstairs ought not to be in congress," and he would "not consent to have the people's money wasted in that manner."

However, just about 20 years ago, when another man had the chairmanship of the committee on appropriations, an agreement was reached whereby appropriations were made for two elevators; one for the senate and one for the house of representatives. That was the beginning. Four others have since been added, and it is expected that two more will be added during the present year, one for the senate and one for the house of representatives. Nobody now objects, because everybody concedes that elevators are a public necessity, and that two more will be required for the accommodation of the general public.

In the Forty-sixth congress when the first appropriations were made, and in several preceding congresses, there were two fat men in congress who took *opposite sides of the question of appropriations for elevators.* Gustave Schleicher, of Texas, was a tall man and very large. He advocated elevators because it was so hard for him to climb the long stairways. Philetus Sawyer was a senator from Wisconsin. He was not very tall, but he was so fat that he fairly waddled when he walked. He said that he would rather climb the stairs for exercise than to vote an appropriation for his own convenience. Both of these gentlemen were very popular, and both of them had adherents, *and the debate about elevators went on* as though the fate of the nation depended upon the settlement of the question. After elevators were placed in the capitol, however, Senator Sawyer admitted that they were fine modern conveniences, and he gave up the exercise of *climbing the stairs.*

Gustave Schleicher, of Texas, was born in Germany and spoke with a pronounced foreign accent. One of his strongest supporters was Robert Klotz, a Pennsylvania Dutchman, who spoke excellent English. Schleicher did most of his work by moving about among the members talking privately to them in favor of elevators, but Klotz made a number of telling speeches in favor of the project.

Speaking of elevators in the capitol for the comfort and convenience of statesmen and of visitors, it is appropriate to say in this connection that, although the stairs on the east front of the capitol are long and cause weariness to those who use them, the stairs on the west front are much longer and harder to climb. The greater part of Washington is built west of the capitol, and all of the best hotels are west of the building. Therefore visitors usually approach the capitol from that side. Thousands annually get off of the street cars at the foot of Capitol hill and climb those stairs. They should not do so. They should remain in the cars, for they go around the capitol grounds and up the hill. Therefore, when you come to Washington, by remaining in the cars you can be carried up the hill, and alight on the level plaza of the east front. Then, by walking to the senate or house wing, entering the driveways beneath the marble staircases, you can easily find one of the elevators already described and reach your destination, the main floor of the building, without exertion or loss of breath.

It is important to particularly remember that when you enter the house wing of the capitol you are at liberty to take either one of the elevators there. But when you enter the senate wing you should ask the policeman or guide to direct you to the public elevator, and thus avoid the embarrassment of going to one of the exclusive elevators and being told that you cannot use it. Some American citizens don't like that sort of thing; but the writer merely sets forth the existing facts, without comment.

MRS. LOWE HONORED.

Georgia Lady Appointed to Represent the Club Women of America at the Paris Exposition.

Mrs. William Bell Lowe, of Atlanta, Ga., president of the General Federation of Women's Clubs, has received notice of her appointment as honorary president for America of the woman's board of the Paris exposition, and has notified Mme. Poquard, leader of the woman's department of the exposition, of her acceptance.

Mrs. Lowe is one of the few southern women who have become conspicuous during the past few years in the women's club movement, and she is now the official leader of that movement in America. Although it is only a short time since she became identified with

MRS. WILLIAM BELL LOWE.
(President for America of the Woman's Board of the Paris Exposition.)

the General Federation of Women's Clubs, of which she is the president, Mrs. Lowe has been long known in the south as a wealthy and philanthropic woman. She has a handsome home in the aristocratic quarter of Atlanta, and there dispenses notable hospitality amid the most luxuriant surroundings.

First attracted to club life during the Cotton States and International exposition, she became imbued with the idea at once, and it was at her home that the Woman's club of Atlanta was born. From this beginning the Georgia Federation grew, and Mrs. Lowe was unanimously elected its president. In 1898 she was elected presiding officer of the general federation at the Denver convention. The work of spreading the club idea among the women of the south fell to her lot, and few have any complaint to make of the success she has made in this somewhat stubborn field.

Mrs. Lowe has crossed the meridian of life, but she is still youthful in appearance, and though not a large woman has an imposing appearance and is an excellent and impressive speaker. She is of rather slight stature, her eyes are blue, and her brown hair is tinged with gray. She wears eyeglasses, dresses with elegance and taste and has the charming, easy manners that pertain to the ladies of the south. How she is held in estimation of the members of the general federation may be gathered from the fact that she—a southerner—could find friends enough to elect her the executive head of this tremendously large body of American women, the vast majority of whom live in the north.

Before her marriage Mrs. Lowe was one of the most beautiful and popular belles in the south. She has a son and a married daughter.

FOR THE BRIDE-ELECT.

Linen, Book and Rose Showers Are Becoming Popular All Over the Country.

The bride of to-day is being made the recipient of many social honors. All her girl friends pay her tribute by these pretty entertainments, and the popular maid must be ready for her wedding several weeks before the event transpires, for at each of the functions she is supposed to wear one of her trousseau gowns. Most of these affairs are luncheons or breakfasts, each with a special feature. A "linen shower," for instance, consists of each guest bringing a piece of linen, a doiley, centerpiece or bureau scarf, whatever one chooses, and as the party leaves the table the pieces are thrown at the bride-to-be.

For a "book shower" each guest brings a book appropriately inscribed to her friend, with a sentiment which the giver fancies. Of course, each hostess can use her own ideas in planning her entertainment, and in her invitations puts in one corner what each guest is to bring for the honored one. "Teaspoons," "cups and saucers," "plates" and "sofa pillows" are all acceptable. These contributions go toward furnishing the bride's new home with memories of her girlhood days and friends. The "rose shower" should be left for the last affair before the wedding, and as the bride departs an immense bag filled with rose petals is burst over her head, and each maid throws a handful of the fragrant blossoms, signifying the hope that her future may be rose-strewn. The bag is made of tissue paper, and the girls will all have been saving their rose petals for weeks for this occasion.—Chicago Times-Herald.

Gold and Silver Purses.

Of sterling gold are the links of the wee purse. The gold mount is particularly handsome. These little purses are also seen in sterling silver and in steel. The steel are handsomer than the silver, but, of course, the golden purse is far and away the most gorgeous of them all.

The Craze for Crystal.

The sparkle of crystal for the moment rivals the shimmer of silver on my lady's toilet table. In trays, boxes, bottles, everything to which it can be adopted, appears the cut and engraved crystal, with, of course, more or less silver ornamentation.

OLD SHIPMATES MEET.

Captain Morrison Entertaining Capt. Dabell at His Home.

Captain Dabell, whose native home is in Alameda county, California, has been the guest of his old friend, Captain George D. Morrison, of Plainfield avenue. About eighteen years ago, which was the last time the two captains met, Capt. Dabell was third mate under Capt. Morrison, and the two were always fast friends. The former happened to be in New York, and was only too glad to visit his friend in this city. Capt. Dabell will sail in about a week on the "Lalulani," meaning "High Heaven," for San Francisco. This ship was built at Bath, Me., by the Sewalls. She is loaded with general cargo. Capt. Dabell has an interest in the ship, which is a new one, and this will be her first trip on such a long voyage.

—Press want ads bring results.

A Lively Runaway.

A horse driven by Richard Higgins and attached to one of Drake & Mundy's delivery wagons, became frightened on West Front street, near Madison avenue, this morning and collided with a farmer's wagon. The shafts were broken and the horse ran up the street, where he was captured near Plainfield avenue. The animal took fright at some workmen about a man-hole opposite Madison avenue. The farmer's wagon was not injured.

Society Magician to Appear.

Lincoln's Birthday will be observed Monday evening at the Plainfield Catholic Club house with an entertainment by Prof. J. H. Stevenson, the "Society Magician." Prof. Stevenson gives a very clever entertainment and does some wonderful tricks. A large attendance is expected.

Letter-carrier Demarest doesn't like boy babies (?) and a sweet little girl now graces his home on Stone street.

A COMPLETE SURPRISE.

Charles Dunlap Received an Unexpected Visit From His Friends

Charles Dunlap, of East Fifth street, was given a complete surprise Thursday evening, which was arranged in honor of his birthday, by his Sunday school teacher, Miss Helen Bogart, of East Sixth street. She was assisted by Miss May VanFleet, at whose home the party met prior to the surprise. About 9 o'clock the happy assemblage entered the home of the celebrant and joined in playing games for a time, after which dancing was the feature. The music was furnished by Mrs Buckley. About midnight a bountiful collation was served. Among those present were the Misses Helen and Lizzie Bogart, Saxton, Bessie Martin, Lyons, May VanFleet, Young, Wikoff, Holmes, Grace Bowland, Thorn, Emmons, and Messrs. Horace Martin, William Swaim, Edward Smalley, William and Robert Jeffrey, E. O. Clark, W. F. Starks, Clarence Brouard, Fred Slater, Chas. Woolston, John Hall, Ray Pool, Will Henry, Geo. Creveling, Chas. Jennings, Herbert Martin and Mr. Dixon.

Masquerade at Fanwood Clubhouse.

One of the most pleasant events of the season was held Thursday evening at the Fanwood Clubhouse, the occasion being the annual invitation masquerade dance given by the ladies of the Social Sewing Circle, of Netherwood. The evening was past in a very pleasant and social manner.

Miss Lizzie Smalley, bookkeeper for Smalley Bros., has been compelled to take a respite from her work on account of straining the muscles of her fingers and hand by too close application to business. Her nephew, Harry Smalley, is temporarily assisting her.

—Make friends and retain them; keep prices down and quality up; so says Fred Endress, the popular butcher.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders

—A number of the local business men will close their places of business next Monday, Lincoln's Birthday.

—Several carloads of excellent quality granite, suitable for cemetery work, just received by J. E. Townsend.

—Whoever found a plump turkey on the streets today, will learn that it belongs to Smalley Bros., and that it was lost from one of their delivery this morning.

—Lincoln's birthday, February 12th, being a legal holiday, the circulating department of the Public Library will be closed. The reading room will be open from 2 until 6 p. m. and the art gallery from 2 until 4 p. m.

—The funeral of the late Mrs. Trewin will be held from her father's home 251 East Front street, next Monday afternoon at 2:30 o'clock. Those who wish to view the remains may do so *tomorrow afternoon* between the hours of 2 and 5 o'clock.

—VanArsdale's clearance sale is attracting many buyers. He has picked out many things for the bargain tables and marked them at quick step prices and while he does not claim every size and width in everything, still there are lots of first-class bargains in good shoes. Earlier buyers get better selection of sizes.

Money Saving Sale.

Next Monday will appear the announcement in the Press of Doane & Edsall's great money saving sale of the remaining stock of winter boots and shoes for men, women and children. They say they have an unusual large stock of fine up-to-date goods, brought before the advance in prices, and as they will make a big reduction in the price now to close them out quick, it will certainly be money saving to a great many people who avail themselves of this great offer.

Father Smyth's Euchre Party.

The Rev. Father Smyth gave a euchre party to the choir of St. Mary's church last evening at the Catholic Club rooms on Liberty street, that proved a pleasant affair.

THE PULPIT SUBJECTS.

Y. M. C. A.—9:30, Bible classes for men and boys; 4:15 men's rally, Rev. Thomas Houston, the blind evangelist, will speak and sing, and Mrs. George W. Gardner will sing.

Organs.

Organs have been in use since the year 755; this, of course, refers to church organs. Organs of sight have been in use since the time of Adam, but how long they will continue to be useful to you will depend upon the care you take of them. If you wish to preserve them to a good old age, a free examination at Collier's will tell you just how to do it.

SPORTING.

STRIKES AND SPARES.

The Daily Press Bowling League.

	Games Won.	Games Lost.	High Score.
Roselle Casino.....	7	2	911
Westfield Club.....	8	4	868
Park Club.....	5	7	864
Cranford Casino....	4	11	863

F. O. Ball, captain of the Park Club bowling team, announced that the match which was to be rolled last evening on the Park Club alleys with the Roselle Casino five, had been postponed. No date has yet been set for the match. This is the second of the matches in the Daily Press Bowling League to be postponed. They will be rolled off after the completion of the regular schedule. Two of these postponed series are games in which the Parks take part. Only one more series remains on the schedule, Cranford against Roselle on the latter's alleys. Unless Cranford does wake up on that occasion and roll as against the Parks last time, there is little prospect of a lively fight when the games are rolled next Thursday.

Revival Meetings Successful.

The revival meetings at the Fillmore Baptist church this week have been very successful and well attended. Two persons accepted Christ and two members were reclaimed. The meetings will continue next week.

—The second rank was worked on one candidate at the meeting of Perseverance Lodge, Knights of Pythias, last evening.

10c "Rebecca at Well" tea pots, all sizes, worth 15-19-25-30c.

AT LAWTON'S BURIAL

Remains of Nation's Hero Rest In Arlington.

PRESIDENT AND CABINET ATTEND

Every Department of the Government Represented at the Last Sad Rites—Eloquent Eulogy by Dr. Stryker—Ceremonies at Grave.

WASHINGTON, Feb. 10.—Major General Henry W. Lawton was buried yesterday in the National cemetery at Arlington. It was a nation's tribute to a national hero, and the sorrow of a whole people was expressed when America added the chaplet of cypress to the brow that so long had worn the laurel. The burial service beneath the leafless trees at Arlington was preceded by services in the Church of the Covenant, on Connecticut avenue, at which every department of the government was represented, including the president, congress, the supreme court, all the ranking officers of the army and navy within reach of Washington.

It was the homecoming of a hero. For seven weeks, ever since the fatal news from San Mateo had been flashed around the width of the world, the country had waited to pay its best tribute to the dead.

Lawton to the great bulk of Americans had been the incarnation of the American soldier. He had made his mark in the civil war from the Mississippi to the sea, and in the interval of potential peace it was he who had beaten at his own game Geronimo, the greatest master of desert craft and mountain fighting that the west had ever known, and who in the new problems of a tropic war had proved the most daring and resourceful of all the generals in the field. It was in tribute to these qualities that the Lawton fund had in a few weeks been swelled past all the expectations of its originators, for America knew that Lawton, being a soldier first and only, had left to those who loved him no heritage save his sword and a spotless name.

For a day and a night the body of the soldier lay in state in the Church of the Covenant. So it lay yesterday morning when the doors were opened, troopers from his old command with sabers drawn keeping vigil at the head and feet. Beneath the soft lights of the altar rose a tropic jungle of palms, and higher than the flag draped coffin rose banks of flowers, tributes from every quarter of the land. At his head hung in dim folds the dingy battle flag from San Mateo, still on its bamboo staff and supported by one of the men who was near him when he fell.

Close to the coffin sat President McKinley and on his right the secretary of state. With him were the secretary of war, the attorney general, the secretary of the navy, the postmaster general, the secretary of the treasury, the secretary of the interior and the secretary of agriculture. Close by where Mrs. Lawton, little Manley and the other members of the family sat were General Miles, General Merritt, General Brooke, General Shafter and their staff officers, all in uniform, and all Lawton's comrades who at one time or another had camped and fought with him.

In the body of the church was a scarcely less notable gathering—assistant secretaries and heads of bureaus, the military committees of the house and senate, diplomats (the orientals in their flowing robes of somber color and the Europeans resplendent in decorations, prominent among them the Spanish minister), and delegations from the Loyal Legion, the Grand Army and other patriotic societies. Chaplain Pierce of Lawton's old command read the Presbyterian burial service, that epistle to the Corinthians whose words of comfort seem freshly pruned for each occasion of bereavement.

Then President Stryker of Hamilton college, New York, clad in his divinity robes, rose to deliver the oration. He had been selected personally by the secretary of war, who knew his fitness for the task. The choice was amply justified. Seldom has any ceremony called forth a tribute more scholarly and eloquent, more simple and direct and more appropriate and fitting to the occasion. He said in part:

"Over the width of the earth a soldier's household has brought its warrior home. The dust that the nation gathers to its guarding is that of no common man. We are met to celebrate and to mourn him. But while we recall the record so compact with manliness and which the white blossom of modesty crowns withal, while we recite the story of one who personified the best American traditions, first this day do we regard her sorrow who treads that 'solemn aisle of pain' the sanctity of whose shadows are accessible only to her God.

"Hither we have come, the people's chosen head and all authorities else from their high several sessions, to pay our poor but tender alms of love to an unblemished memory, to thank him who is our dwelling place in all generations, that the stout tree of liberty still yields such manner of fruitage and to pledge ourselves, consider the issue of the lives of our renowned dead, to imitate their unblenching and unblighted faith."

Dr. Stryker eulogized General Lawton's military career and went on to say:

"This better Plantagenet, this latest Bayard, 'without fear and without reproach;' this modern Philip Sidney, whost life also was 'poetry put into action,' has shown once more of what a stuff is incorrigible manhood, in what substance root the memories that last.

"For a true poet—and so proved—is one who has written at least some things of which no poet that ever lived could have been ashamed, would gladly have owned, and a true man is admitted to the fellowship of heroes by the equality and peerage of his supreme deeds. He was one whom Raleigh, Gustavus Adolphus, William of Orange, Winkelried, Cambronne, Garibaldi, would know at sight; he was of that time enduring breed which has made Agincourt and Naseby and Quebec and Lucknow of immortal story; he was comrade to the Marylanders who guarded the retreat at Long Island, to the men who passed the Delaware, who served the guns of Pleasonton, who soaked the sod of the Peach Orchard, who ran singing through the tide at Manila, who held Guantanamo.

"When in the name of mankind and that peace might be real we undertook in 1898 to cleanse the seas, we affirmed a principle and made a precedent that I, for one, hold to have written the most honorable leaf in all our history. But all that has been since was corollary to that. No special pleading of professional malcontents with whom wisdom will not die, no a priori abstraction, can unsay what this dead soldier's seal said for America. Rather does such a death enjoin upon our purpose and performance such ends as shall vindicate us from cowardly indifferentism and evasion in the face of whatever duty and—however unexpected or complex—enjoin us to regard and to teach liberty's authority.

"In some good day—not far away, please God—when those islands, foundlings no longer, shall have been rendered as a majestic deodand to civilization, to regulated freedom, and to the God of these, there in fair Luzon, right where he fell, front to his duty, let the valiant frame of this true liberator rise in immutable bronze, while, understanding us at last, our brown brothers, gazing upon that statue, stature, statute, all in one shall say: 'He was America's, but he is ours, too—Lawton. He was slain by us ignorantly in unbelief, but he has forgiven.'"

A dozen troopers as the doctor closed lifted the flower laden coffin and bore it to the door, where 3,000 soldiers and citizens in great numbers waited to honor the soldier in his last march to his final resting place on the Virginia hillside beyond the Potomac.

EDUCATION AND SUFFRAGE.

Marvelous Growth of Cuban Schools. Plans For an Election.

HAVANA, Feb. 10.—Mr. Alexis Frye, superintendent of Cuban schools, in his report to the governor general upon the development of the school system since the work of reorganization began, six weeks ago, says that the whole country seems on fire with enthusiasm for education. The popular feeling exceeds all he had ventured to hope for. Six weeks ago there existed in the island less than 200 schools, all based on the old Spanish foundations, with the exception of a few that had been established more than a year before in Santiago by General Wood. There are now 2,058 schools in the island, of which 201 are in Havana city, 152 in Matanzas city and 170 in Puerto Principe city.

Thus far reports have been received from 97 municipalities, and there are 34 others to be heard from, which will probably increase the number of schools by 400. The schools that have already reported show an aggregate attendance of more than 100,000 pupils, and Mr. Frye believes this attendance will have increased to 150,000 before June 1.

General Wood will appoint a mixed commission of Autonomists, Revolutionists and Americans to arrange the details of an election to be held on May 1. This commission will decide as to the method of taking the ballot and as to all other matters pertaining to the first election.

The municipality of Sagua la Grande has agreed to protest against partial suffrage.

General Roloff wishes to put upon the rolls of the Cuban army, as bearing upon the election, the names of all who assisted in any way in the revolution, whether they fought or not.

The ultra revolutionary element is strongly against giving the suffrage to those Cubans who have become naturalized American citizens, declaring that men who voluntarily gave up their country to save either their property or their skins are not the sort of citizens needed by new Cuba. On the other hand, those who favor giving the suffrage to that class contend that it includes some of the best of the Cuban race, men who are well educated, who have capital and who wield their influence for good.

Attempted Pension Fraud.

HARTFORD, Feb. 10.—David W. Owen and George Stark of Tolland, Mass., were brought here by Deputy United States Marshal Wood of this city, and the former was given a hearing before United States Commissioner Marvin. He is charged with fraud in making an application for pension. It is claimed that he is a deserter from Company K of the First Massachusetts cavalry volunteers in the war of the rebellion and that he obtained the certificate of honorable discharge of a man named See, who served in Company A of the regiment, erased See's name and inserted his own. He then made application for pension, and the fraud was discovered.

Roosevelt Will Not Run.

ALBANY, Feb. 10.—Governor Roosevelt is in New York for the purpose of having a conference with Senator Thomas C. Platt. The object of the chief executive is to inform Mr. Platt as leader of the Republican organization in this state that under no circumstances will he accept the nomination for the vice presidency, which some persons believe Mr. Platt wishes to force upon him. The governor will also tell Senator Platt that he wants a stop put to all further talk about the possibility that he will be named for the second place on the national ticket and that he will refuse the nomination.

Frick-Carnegie Suits.

PITTSBURG, Feb. 10.—Following the announcement that H. C. Frick will enter suit against Andrew Carnegie for $21,000,000 to recover the value of his shares of stock in the Carnegie Steel company, it was learned last night that Mr. Frick will enter suit against Mr. Carnegie for forcing the H. C. Frick Coke company into a contract to supply the Carnegie Steel company with coke for five years at $1.45 per ton, whereas the market price is about $3 per ton and has been over $1.50 since early last year.

New Mortgage Tax Bill.

ALBANY, Feb. 10.—Mr. Fordyce of Cayuga has introduced a bill intended to compel the holder of farm mortgages to pay the tax upon them and upon the land upon which the mortgage is held. In other words, the mortgage holder, while he may escape personal taxation, will have to pay the real estate tax either to the county and state assessors or reimburse the property owner for the tax he has paid on that proportion of his total valuation.

Kidnaper Barrows Insane.

SING SING, N. Y., Feb. 10.—George W. Barrows, who was sentenced to Sing Sing prison last June for 14 years for the part he played in the kidnaping of Marion Clark, the 20-month-old daughter of Arthur Clark of 159 East Sixty-fifth street, in Central park on May 26, has been adjudged insane by a commission of three doctors appointed by County Judge Lent of Westchester county upon application of Warden Johnson.

Negro Murderer Hanged.

BIRMINGHAM, Ala., Feb. 10.—Will Colson, colored, was hanged in the jail yard at noon yesterday for the murder of Chief Deputy Sheriff Robert Warneck on Nov. 28, 1898. Colson met death fearlessly.

BEST FOR THE BOWELS

If you haven't a regular, healthy movement of the bowels every day, you're sick, or will be. Keep your bowels open, and be well. Force, in the shape of violent physic or pill poison, is dangerous. The smoothest, easiest, most perfect way of keeping the bowels clear and clean is to take

OH, MAMMA DEAR!

did you hear that Woolston & Buckle has the finest wall paper in town. With Kaleidoscopic change on lovely backgrounds?
Daisies blossom on paper of azure blue,
Roses bud and bloom on an ashen hue,
Lillies of the valley are scattered on green
And flowers of all tints are everywhere seen
On colors exquisitely blended with care
To reproduce fruits, and flowers as fair
As if aid on by Nature's own hand,
Unique designs both opaque and round,
And Japanese figures on gilded ground
And fantastic Beardsley lines are found
In a bewildering array.
Transform your bare and hideous walls
Into dreams of beauty as profuse
As covered Granada's famous halls,
From any design your fancy may choose,
The walls of the cottage are covered with ease,
It's not our custom, but the wealthy to please.
We have beautiful papers at a low price. Although not so gorgeous, are artistic and nice.

TEETH.

If you have any to be extracted remember you will not be hurt in the slightest. My local anesthetic is the best that can be obtained and is not known to the other dentists in this city. Gas strictly fresh administered by an expert if you want that. If you need artificial teeth you may rest assured that the greatest care will be exercised in selecting shape and color to harmonize with the face, also to restore the features to their natural expression and fullness. This is most important.

DEMOCRAT IN DERBY.

American Horse May Win the Great English Race.

Horsemen and Lovers of Sport in This Country Hope That the Yankee Gelding May Be Allowed to Run.

Democrat, the horse who by long odds is the American favorite for the coming English Derby, is certainly one of the most promising youngsters that have yet been entered for the classic turf event. Not only has he already had a sensational career, having been generally recognized as the best two-year-old of last year, but to-day there are many good English sporting men who believe that he stands as good a chance as Forfarshire, the other favorite, to carry off the honors in the blue ribbon events of the English racing world.

An examination of the record of Democrat's performances last year, says the Chicago Democrat, will prove beyond dispute that he was clearly entitled to the credit of being regarded as one of the best, if not the very best, two-year-olds of 1899. Those who have followed his work know that he was not himself in the early part of the season. As the result, he made but an ordinary appearance at his first three starts; whereas, later in the season he easily defeated such horses as Emerson and O'Donovan Rossa, all of whom had bested him at the earlier events.

In fact, it was actually not until the Ascot meeting that Democrat began to be himself, but at the Coventry stakes he commenced that series of victories that was broken only once before the close of the season, this occasion being his defeat by Forfarshire. Among his great victories were the Hurst Park Foal plates at six furlongs, the National Breeders' stakes at five furlongs the Champagne stakes at five furlongs and 152 yards, the Rous memorial at five furlongs, the Middle Park plate at

DEMOCRAT, AMERICAN GELDING. (The Yankee Favorite for the Coming English Derby.)

six furlongs and the Dewhurst plate at seven furlongs. In these events the least weight carried by him was 12 pounds, while the highest was 13 pounds.

As has already been stated, Forfarshire beat Democrat in the Imperia stakes at six furlongs, winning closely by less than a head. On this occasion Forfarshire had the advantage in weight and Democrat was otherwise handicapped by being ridden by Sloan just after he had had a bad fall. As the result, he was unable to do his mount justice, and the American gelding was defeated. At the National Breeders' Produce stakes, however, Democrat defeated Forfarshire easily, although the latter was given an advantage of nine pounds in the weight.

Naturally, under such circumstances, the friends of the American claimant have full confidence in his ability to win against Forfarshire, and it is quite generally believed that he will win the Derby until he is debarred from the event on the ground that he is a gelding.

It is believed, however, that the English Jockey club will not take this means to prevent him from running, as they have already permitted him to appear in the Champagne stakes, an event that is run under exactly similar conditions.

It is held that if the club desires to prevent the Derby being won by a gelding, a rule should first be passed prohibiting the entering or running of a gelding for the Derby or any other classic event, but that, until such a regulation is adopted, the entrance of Democrat or of any other gelding ought to be regarded as valid.

At no time have the American racing men taken as much interest in the Derby as they have shown this year, for to them Democrat is an American horse, and a victory on his part will be a victory for the American breeder. As to the breeding of this little horse, from an American point of view none could be better, although some English critics insist on the opinion that the sons of Sensation have more speed than stamina. To horsemen on this side of the water such an opinion seems very strange and there is no doubt that the history of the modern turf offers many arguments against such a belief.

Both Acrobat and Hunter's Lexington, full brothers to Sensation's dam, were stayers of the best type. Moreover, Democrat, as a son of Sensation, traces back to the Pantaloon and Whalebone families as well as the Glencoe, Sir Archy and Diomed. Through Equality, by Rayon d'Or, Democrat carries the richest and most fashionable blood in the English stud book, having a double cross of Glencoe, a triple cross of Diomed and a double cross of Touchstone fortified by the blood of Whalebone.

In Curious New Zealand.

The crow in New Zealand strikes as sweet a note as any heard in the woodland. The robin has no song and no red breast: the native hen is the greatest of rat-killers; there is a caterpillar which turns into a plant.

THE BOERS WIN AGAIN

Buller Forced to Retreat Across the Tugela.

ATTEMPT TO RELIEVE WHITE FAILS

A Ray of Hope Appears In the Fact That Lord Roberts Is About to Begin His Campaign—Methuen's First Move.

LONDON, Feb. 10.—London accepts as true the Boer statements that General Buller has failed again. These statements were passed by the British censor at Aden and are read in the light of Mr. Balfour's announcement in the commons that General Buller is not pressing his advance.

Mr. Winston Churchill wires that Vaal Krantz was impracticable for the guns which were needed to support a further advance. His cablegram leaves General Buller on Tuesday night sending a fresh brigade to relieve the tired holders of Vaal Krantz.

The descriptive writers with General Buller were allowed a rather free hand again in explaining the ugly position which the British held and the natural obstacles which had to be overcome. So it is easy to infer that with Boer riflemen and artillery defending them these hills, ravines and jungles have not been overcome, and thus the public is prepared in advance for bad news.

A dispatch from Boer head laager, Ladysmith, dated Feb. 8, says:

"The British who were in possession of the kopje at Molens drift abandoned it after a bombardment by Boer cannon this morning and retired across the Tugela river to their former position. A desultory cannonade is proceeding at the Tugela this morning, but otherwise everything is quiet."

A dispatch from the same place, dated Feb. 7, says:

"An armored train yesterday made a sortie from Chieveley toward Colenso and landed 2,000 British troops on the right of the Boer position. The Boers immediately crossed the river and made an attack with rifles and artillery, forcing the withdrawal of both the train and the troops to Chieveley.

"The fighting on the upper Tugela river lasted until 8:30 yesterday evening. Particulars are lacking.

"Firing at both Colenso and along the upper Tugela has been proceeding since 5 o'clock this morning."

A dispatch dated Frere camp, Feb. 8, says:

"The forces of the enemy are on both our flanks and continue to render our position extremely difficult to maintain."

A dispatch to The Morning Post from Modder River, dated Thursday, says that General Macdonald's and General Babbington's forces will return shortly and adds that the initiative to the reconnoissance emanated from headquarters.

A dispatch to The Times from Koodoosberg, dated Thursday, Feb. 8, says:

"It is reported that Boer re-enforcements are arriving from Magersfontein. Our position is easily tenable, but the entire force has been ordered to return to Modder River tomorrow."

The Times has the following from Kimberley, dated Feb. 8:

"The Boer big guns shelled us all day yesterday, but nobody was killed."

A dispatch to The Daily Mail from Pietermaritzburg says that Lady Randolph Churchill has visited Chieveley camp.

The Daily Telegraph announces that General Sir Francis Clery is on the way to England invalided.

In The Morning Post today Mr. Spenser Wilkinson, reviewing the military situation, says:

"Lord Roberts is evidently about to begin his campaign, and there are signs that General Methuen's force will make the first important move. It is probable that the Seventh division will soon be heard of as co-operating with Methuen.

"The latest news regarding General Buller's operations is puzzling. It looks now as if he never seriously contemplated an attempt to relieve Ladysmith, but only a demonstration to prevent the Boers from diverting re-enforcements to Magersfontein.

"Looking to the distance from Ladysmith to Kimberley, a journey in which the Boers would get little railway help for the transport of their forces, Lord Roberts has a clear week for the first blow, which will put a new face upon the situation."

Mr. Balfour, the government leader, replying to a question in the house of commons last evening as to whether any information had been received from the seat of war, said: "Our information points to the fact that General Buller is not pressing an advance from the position he has occupied. We do not consider it right to press him for details of the operations which are in progress nor, if he gives such information, do we deem it proper to make this public until such operations are completed. The government has no information as to whether General Macdonald has retired."

The first lord of the admiralty, Mr. George J. Goshen, is preparing estimates for a large increase in the navy. It is thought not improbable that parliament will be asked for £20,000,000 for new ships.

The war office has reduced the minimum standard of height again, this time to 5 feet 3 inches for infantry and 5 feet 2 inches for artillery.

Dr. Leyds has issued in Brussels a statement for publication in England denying purported interviews in which he is represented as predicting the intervention of the powers in the event that the British invade the Free State. He says he is convinced that the war will continue as long as the two republics have arms and ammunition. If the Mauser cartridges give out, the Boers, he asserts, will fall back upon Martini-Henry rifles, for which they have a supply of ammunition that is practically inexhaustible.

New York Fire Insurance.

ALBANY, Feb. 10.—The report of State Superintendent of Insurance Louis F. Payn on fire and marine companies submitted to the legislature shows that during the past year the fire premiums received were $19,463,725.79; fire losses paid, $17,626,005.64; fire losses incurred, $18,045,938.84. The estimated amount of expense for the transaction of this business is $6,487,908.60, which, if added to the incurred losses, makes a total of $24,533,847.44, showing, as compared with the premium receipts, an apparent net excess of fire losses incurred and estimated expenses over fire premiums received of $5,070,121.65.

Weather Probabilities.

Fair; colder; fresh northerly winds.

SAMOAN NEWS.

Agreement Between the Three Powers Has Caused Little Trouble.

SAN FRANCISCO, Feb. 10.—Samoan advices received by the steamer Alameda are to the effect that the agreement between the three powers as to the division of the Samoan group has caused but little real trouble, though the Malietoa and Mataafa factions were somewhat discontented, the Mataafans blaming the Malietoans for causing the trouble which brought about this result, and vice versa. Reports were received in Apia that at Aana and Savaii the followers of Mataafa, chagrined at the news of the division of the islands, resolved that the Malietoan adherents who had returned to their homes must be driven out of those districts. A large force of Mataafa men attacked the homes of the Malietoans, routed the residents out, set fire to the buildings and later drove the inhabitants to Saliemoa.

The hospital ship Missouri was lying in the harbor at Honolulu when the steamer Alameda left that port. The Missouri reported an exceedingly rough passage after leaving Nagasaki, and during that trip 16 of her passengers died, most of them from wounds received in the war and from dysentery. The Missouri had 272 sick and wounded soldiers on board when she started from Manila.

Three deaths from the plague occurred since the last advices from Honolulu, a Chinese dying on Jan. 26, a native woman dying on the 27th and a Japanese on the 28th. The wife of the Japanese also shows symptoms of the disease. There were few suspects and no positive cases up to the time of the sailing of the Alameda. The health officials on Feb. 2 stated that all the detention camps were free from sickness of any kind, and the doctors were under the impression that the plague had about run its course.

TAYLOR SIGNS NOT.

Says He Has No Intention of Doing So at Present.

FRANKFORT, Ky., Feb. 10.—Governor Taylor did not sign the Louisville peace agreement yesterday. He announced, moreover, that he had no intention of doing so for some time and did not know whether he would sign it at all. On the other hand, the Democrats were confident that he would affix his signature to the document.

Yesterday was a day of conferences in Frankfort. They were in full swing from 10:30 in the morning until 5:30 at night, and outwardly nothing tangible resulted from them. The situation is to all appearances exactly where it was when the peace agreement was first submitted to Governor Taylor.

Two Democratic members of the legislature put in an appearance in the afternoon, the first that have been seen in Frankfort since the word was given nearly a week ago for all of them to keep where they could not be readily reached in case it was determined by the Republicans to arrest them and take them to London.

Notice of the injunction to be argued before Judge Taft in Cincinnati Monday was served on Democratic Treasurer Hager and Superintendent of Public Instruction McChesney. They are the only Democratic state officials now in Frankfort.

Democrats Meet In Louisville.

LOUISVILLE, Feb. 10.—The Democratic legislature met here yesterday, having present in each house a quorum of the total membership. Governor Beckham made the announcement yesterday afternoon that he was prepared to protect the legislators from arrest. These developments mark the first steps toward carrying out the plans announced Sunday last by the Democrats to set up a state government here that have been taken since those plans were interrupted by the peace negotiations.

CONDENSED DISPATCHES.

Debate on the German navy bill was resumed in the reichstag.

Coal for the railways will be admitted to Russia free of duty until Sept. 1.

The British steamer Honiton was reported ashore on the North Carolina coast.

The Russian steam dredger Devolant has been given up as lost. She had 19 persons on board.

Nine persons were killed in a wreck on the Chicago and Northwestern railroad near Escanaba, Mich.

A mob of miners in Martinique has been preventing the harvesting of sugar cane. Troops fired on the rioters, killing nine.

Andrew Reasoner, former superintendent of the Delaware, Lackawanna and Western railroad, died in East Orange.

The Nicaraguan judiciary has decided to return the funds extorted from American merchants at Bluefields last summer.

Injunction Continued.

NEW YORK, Feb. 10.—The appellate division of the supreme court has handed down a decision reversing an order of the lower court and continuing an injunction forbidding the sale of the property of the United Verde Copper company. Proceedings had been taken to dissolve the company, which is a New York corporation, and George A. Treadwell and other stockholders appealed to the court to prevent it. They alleged that the real object was to reorganize under West Virginia laws and that small stockholders would suffer. It is said the company owns one of the most valuable copper mines in the world in Arizona and that its assets amount to $90,000,000. Senator William A. Clark of Montana owns 244,026 out of the 300,000 shares, which have a par value of $10 and an actual value of $300 a share.

A Burglar Shot.

CHILLICOTHE, O., Feb. 10.—A burglar giving his name as John Schumacher and his home as Lima, O., was fatally shot at Higby's Station while he and three others were attempting to rob the safe at the store of Higby & Son. The burglars were surprised by Charles Higby, merchant, and Charles McCoppin, a telegraph operator. They fired on the robbers, wounding one. The other three escaped. It was later ascertained that the wounded man's name is John Johnson, who was released from the Ohio penitentiary Jan. 20.

Collieries Closed.

SHAMOKIN, Pa., Feb. 10.—Four thousand men and boys were thrown idle by the collieries of the Mineral and United Coal companies being closed down owing to scarcity of cars. It is expected work will be resumed some time next week. The collieries have been operated steadily since last summer. During the suspension extensive repairs will be made at several of the collieries.

TRADE CONDITIONS.

Weekly Report of R. G. Dun & Co. Makes Favorable Showing.

NEW YORK, Feb. 10.—R. G. Dun & Co.'s weekly review of trade says:

The industries are still surpassing in actual output the work of any previous year. Their new business is not correspondingly large, nor could such orders be accepted by most industries if offered, but enough are coming to prevent stoppage of works or much decline in prices. In woolen goods new business of remarkable volume sustains a marked advance in prices, and in other lines of importance, as in machinery, orders indicate a surprising foreign demand.

Cotton followed its rise from 8 to 8¼ cents last week by a further rise to 8⅝ cents, with growing belief that the crop will prove short enough and the consumption large enough to give holders quite their own way. The decrease of receipts in January was 253,000 bales, or 20 per cent, but in December the decrease was more than 30 per cent. No change of consequence yet appears in prices of wool, though the demand from spinners is limited, and it is perceived that they had previously supplied themselves quite fully for the heavy weight season, for which they have taken very large orders.

The weekly output of pig iron Feb. 1 was 298,014 tons, but stocks unsold rose 20,390 tons in January, indicating a consumption slightly smaller than the output when the month began. As the consuming works were naturally stopped about the holidays more than the furnaces the figures prove little, but bessemer and gray forge at Pittsburg have not changed in price during the past week and slightly lower offers of pig by southern and other new furnaces at Chicago and eastern markets have had little effect.

Speculation in wheat has raised the price scarcely a cent, although western receipts for the first week of February were only 2,500,173 bushels, against 3,636,406 last year. The Atlantic exports have fallen off still more, for the week being only 2,115,875 bushels, flour included, against 3,926,692 last year, and Pacific exports were 788,510 bushels, against 447,129 in 1899.

Unclaimed Bank Deposits.

ALBANY, Feb. 10.—A bill relative to unclaimed deposits in savings banks has been introduced in the assembly by Mr. Maher. It provides that when any account has been held by any savings bank for a period of 11 years without any deposit or withdrawal or the presentation of the pass book for entry of interest the account, with accrued interest, shall be paid to the state treasurer, to be paid by him to the rightful owners on presentation to him of satisfactory evidence of the right thereto. It further provides that savings banks shall report annually to the state superintendent of banks concerning accounts that have lain dormant for ten years instead of for 22 years as provided in the present law.

The Queer Arrest of Miller.

MONTREAL, Feb. 10.—Chief Kellert of the metropolitan detective bureau in an interview said very emphatically that he did not believe the story that Captain Reynolds of Brooklyn arrested Syndicate Miller in or near Montreal. From what he can judge Miller was arrested in some small city in New York state, through a special arrangement between his friends and the district attorney's office, and when all arrangements were made Captain Reynolds was told where to go and get him.

English Masons Honor McKinley.

WASHINGTON, Feb. 10.—President McKinley has been notified of his election as an honorary member of Columbia lodge of master Masons of London. The notification was given by Colonel B. H. Taylor, the master of Columbia lodge. He was accompanied to the White House by Grand Master Henderson and Past Grand Masters Henry Small, Jr., and M. M. Parker of the District. The certificate of election is on its way to this country, having been handsomely engrossed.

Jury Has Molineux Case.

NEW YORK, Feb. 10.—Assistant District Attorney Osborne last night completed his argument in the trial of Roland B. Molineux for the murder of Mrs. Katharine J. Adams. Recorder Goff charged the jury this morning, and the 12 men are expected to take up at once the question of the guilt or the innocence of the prisoner. Whether a verdict will be reached today will of course depend upon the ability of the jurymen to agree.

Killed In a Quarry.

ALLENTOWN, Pa., Feb. 10.—Charles Lehman, aged 19 years, was instantly killed yesterday afternoon in the Eureka slate quarry, near Slatington, where he was employed. A sagging hoisting rope caught the frame shanty in which Lehman worked as bell boy, drawing the lad and the building over the quarry's edge into a pit 150 feet deep.

Increased Salary For Griffiths.

ALBANY, Feb. 10.—Governor Roosevelt has signed the bill of Assemblyman Allds increasing the salary of William M. Griffiths of Utica, secretary to the New York state commission to the Paris exposition, from $2,500 to $5,000.

New York Markets.

NEW YORK, Feb. 9.—FLOUR—State and western reflected the depression in wheat and was very quiet all the morning; Minnesota patents, $3.85a4.15; winter straights, $3.45a3.50; winter extras, $2.60a2.90; winter patents, $3.60a3.85.

WHEAT—Opened rather firm on cold weather in the southwest, but eased off under disappointing cables and liberal Argentine shipments; May, 74 13-16a75 3-16c.; July, 74⅝a74⅞c.; September, 75¼a75½c.

RYE—Firm; state, 60c., c. i. f., New York, car lots; No. 2 western, 64¾c., f. o. b., afloat.

CORN—Opened steady, but also turned slightly easier through better weather news and the Liverpool decline; May, 39½a39¾c.

OATS—Dull and easy; track, white, state, 31a35c.; track, white, western, 31a35c.

PORK—Firm; mess, $10.75a11.50; family, $13a13.50.

BUTTER—Steady; state dairy, 18a24½c.; state creamery, 21a26c.

TALLOW—Firm; city, 5¼a5⅜c.; country, 5¼a5½c.

HAY—Quiet; shipping, 65a70c.; good to choice, 80a85c.

WILD NIGHT SESSION

Congressman Talbert Ignored by Chairman Hepburn.

PRIVATE PENSION BILLS PASSED.

A Large Attendance Results From the Protest Made at Last Night Sitting, and the Protestant Is Overwhelmed.

WASHINGTON, Feb. 10.—There was a scene at last night's session of the house which momentarily recalled the stirring and exciting days of the Fifty-first congress. An irate member rushed down the main aisle brandishing his arms and shouting for recognition, while half the Democratic members were on their feet execrating the occupant of the chair for what they termed his arbitrary course, and from several places in the hall came loud hisses.

Last Friday night Mr. Talbert (Dem., S. C.) blocked private pension legislation because there was no quorum present and threatened to continue to do so at every subsequent Friday night session unless a quorum were present. His warning had its effect. There was an unusually large attendance when the house was called to order at 8 o'clock last night. Speaker Henderson himself was in the chair, and the galleries, usually empty at night sessions, were crowded in anticipation of a lively time. Mr. Talbert made good his threat as soon as the motion was made to go into committee of the whole, but the roll call showed the presence of a score or more of members in excess of a quorum. The friends of private pension bills were jubilant. Mr. Hepburn (Rep., Ia.) was called to preside over the committee of the whole, and the clerk read the first bill. Mr. Talbert arose leisurely while the bill was being put through the legislative stages, the adoption of committee amendments, engrossment, third reading and final passage, and addressed the chair. He was completely ignored.

Another bill was read, engrossed, read a third time and passed all in the space of a minute, with Mr. Talbert still clamoring for recognition. A third bill was passed in the same way. By this time the whole Democratic side was aroused. A dozen members were on their feet. Mr. Talbert, thoroughly angered, started down the main aisle shouting, "Mr. Chairman, Mr. Chairman!" as he approached. He reached the area in front of the speaker's rostrum, all the while roaring out his denunciation of the chairman's arbitrary course before the chairman condescended to recognize him. Democrats all about were also shouting their disapproval. The Republicans seemed to be enjoying the storm which the chairman's course had raised. Mr. Talbert rapidly cooled down after he had been recognized and explained in a brief speech that the presence of a quorum had completely vindicated his position. He had no feeling against the men who served on the federal side in the civil war, but he was opposed to loose, reckless, unconstitutional methods. He suggested that the house set aside a day each month for pension legislation and discontinue the night sessions.

Mr. Sims (Dem.) of Tennessee, who is interested in southern war claims, made some caustic remarks in criticism of the Republican leaders for side tracking those "just obligations" of the government in favor of pension bills.

"Does the gentleman contend that the government owes old soldiers nothing?" interrupted some one on the Republican side.

"Oh, oh!" jeered the Democrats.

The committee then proceeded with the consideration of pension bills, and 35 were favorably acted upon. At 10:30 the house adjourned.

Peaceable Occupation of Tutuila.

SAN FRANCISCO, Feb. 10.—On Dec. 6 Captain Filley of the United States navy notified High Chief Faivac of the island of Tutuila that under the terms of the agreement between the United States Great Britain and Germany the Samoan group would be divided between the United States and Germany and that the islands of Tutuila, Manula and the other islands east of Upola would come under the protection of the United States. Captain Tilley assured the chiefs through Faivac that the United States would protect the natives and give them a good government and that it would hold the chiefs responsible for any trouble that might occur. Captain Tilley's proclamation was received with quiet and order and no apprehension is felt that trouble will follow the inauguration of the new regime.

Many Clockmakers Out.

WATERBURY, Conn., Feb. 10.—As a result of the prolongation of the strike in the adjusting department of the Waterbury Clock company here about 450 hands are now out of employment. Those directly concerned in the strike number about 100, but the disarrangement of the work at the factory resulting from the suspension in the adjusting department made it necessary for about 350 to quit work yesterday. The situation is unchanged as regards a possible settlement.

Bodies of Miners Recovered.

HAZLETON, Pa., Feb. 10.—The bodies of John Doris and Carmel Paper, the miners who were killed last Monday by a cave in in the Oakdale colliery, near here, have been found by a party of rescuers which had been constantly at work since the accident occurred. Both bodies were under a great mass of rocks and mud, and were considerably mutilated. The ground is gradually sinking in the mine, and the officials are making great efforts to check it.

Coal Famine In Germany.

BERLIN, Feb. 10.—The Saxon factory district has been forced to suspend work partially because of the coal famine. The Saxon government is securing the remainder of the coal supply for operating the state railroads. The annual report of the Hamburg-American Steamship company shows 18,000,000 marks net earnings. The company will hereafter maintain a regular service to Para, Manaos and Goara in Brazil.

Wood Specimens Found.

ALBANY, Feb. 10.—The specimens of natural woods of the forests of New York state which were exhibited at the World's fair were sent from Clayton one month ago for shipment to Paris on the United States transport Prairie. They were lost in transit and have been found at the New York freight station of the Central railroad. They will be sent to Paris on a French liner.

COMING EVENTS.

February 10—Social for members of Physical Department, Y. M. C. A.

February 11—Rev. Thomas Houston, the blind evangelist, will speak and sing. Mrs. George W. Gardner will also sing.

February 12—Union Bible class of Rev. D. M. Stearns, in Y. M. C. A. Hall.

February 17—Social for members of Junior Department of the Y. M. C. A.

The Co-Insurance Clause.

Senator Reed's bill before the Senate which aims to invalidate the insertion of a co-insurance clause in fire insurance policies, or to compel a reduction in the rate of insurance when such a clause is retained, is probably little understood by the general public, but when there is a proper appreciation of what it proposes to accomplish the Newark News declares that it is "a bill that will be looked upon with more favor by property owners than by insurance companies." If the measure becomes a law it will be a serious blow to the advantages which the fire insurance companies now hold, but a profit to the latter which ought to be aborogated in the spirit of equity and fair dealing. The co-insurance clause is a comparatively new thing, and but few who are subject to its conditions really understand what they involve when applied by the companies. The co insurance clause is based upon the theory that a man who does not insure his property up to eighty per cent of its real value thereby shows his intention of taking a portion of the risk himself, and consequently becomes a co-insurer with the company or companies that have issued policies on his property. Being a co-insurer, in case of loss by fire, he is held to be under obligation to bear his proportionate share.

The News contends that "from the policy-holder's standpoint there is an absolute lack of fairness and honesty in this co-insurance provision. He holds that when the company insures his property for a certain sum and accepts the premium, it should in case of a total loss pay the full amount of the policy, no matter what relation its amount may bear to the total value of the property insured. He cannot understand why in case of a total loss he should be compelled to bear two-thirds of it when he has been paying an insurance company to assume half the risk. There is no doubt that most policy holders who understand what the co-insurance clause means regard it as oppressive, and it is equally certain that many are enlightened as to its real purport until they attempt to collect their insurance."

It would seem as though Senator Reed's bill demanded to be passed on its merits. It is a fair and honest business proposition that a person should pay premiums only on the amount which he will receive in case his property is destroyed by fire, and not on a sum that is stipulated in the policy, but which, when a settlement is made, is scaled down one-half by the construction that is placed upon the co-insurance clause of his policy. The News makes the forceful point that if the face-value of the policy is not to be regarded as the measure of the company's responsibility, neither should it form the basis of the rate to be paid by the policy-holder.

While the Common Council is engaged in considering many momentous problems concerning municipal welfare, we desire to call their attention to an improvement that may be of minor importance, but one which would be a great convenience to the general public if carried out. That is the matter of street signs. There is scarcely a street in the city that is designated by proper signs, and however much we may pride ourselves on the up to-dateness of Plainfield in other respects, it is a regretable fact that we are behind the times in such an essential. Time and time again the attention of various Common Councils have been called to the need of proper street signs, but "the long felt want" has never been filled. Let the present Councilmanic body take up the improvement and give us properly designated streets.

The local Democracy having had their big demonstration in the visit of Bryan, the Republicans are now in line for a notable political occasion in the forthcoming "smoker" at the Casino. As noted in the news columns of The Daily Press today, Senators Sewell and Kean, and probably Governor Voorhees, are expected to be on hand, which will make a trio of shining lights of political ability and influence that cannot be beaten in New Jersey at the present time.

If the rich would marry the poor and the poor the rich it would even up things financial somewhat.—Trenton Times.

That's the rule European nobility are applying to America—though the former throw in an empty title for good measure.

The Daily Press will be issued as usual on Monday—Lincoln's birthday.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World

"Chattanooga," the war play which will have its first presentation in this city at Music Hall next Wednesday, promises to be one of the events of the season. In the first place, Lincoln J. Carter, its author and producer, is departing from a field in which he has acquired his fortune, and Chattanooga is in a high sphere. With this end in view, Mr. Carter has secured a splendid company for this season. Realism in stage craft has been fairly exceeded in this new play. Flying battalions of cavalry, full sized locomotive racing at the rate of 60 miles an hour and other novelties are among the things which are promised; besides these a drama of national importance, of unusual interest, presented by a strong cast, makes the play one of extraordinary merit.

* * * * * *

Following the recently formed combinations of operatic and legitimate stars, comes a combination of magicians, Servais LeRoy, Imro Fox, and F. E. Powell, who are known under the title of the World's Greatest Magicians, and who are this year touring the country. They appear side by side on the stage presenting marvelous tricks of legerdemain and magic, and subsequently appear individually and together, producing illusions of the most mystifying and most puzzling character. Mr. LeRoy has been for years a famous magician in Europe, where he has given exhibitions of his art before all the European courts. Mr. Fox is well known as the most comic conjurer in the world and Mr. Powell is the only magician who has had the honor of a six months' consecutive run in New York city. Supplementary to the performance of these three stars, an excellent company of vaudeville entertainers will appear, including Zazelle and Vernon, the comic bar performers; Lelliott, Busch and Lelliott, the great musical trio; Dora Busch, the female baritone, and Chas. Mariner, shadowgraphs.

* * * * * *

Lincoln's birthday will be celebrated at Proctor's two theatres in New York city, with an early opening at both houses. The doors will open at 10 a. m., and the show will run till 11 p. m. At Proctor's Twenty-third Street Theatre, week of Feb. 12th, the headliners are: Milton and Dollie Nobles in their latest comedietta, "A Blue Grass Widow;" Walter LeRoy and Florence Clayton in Geo. M. Cohan's farce, "Hogan of the Hansom;" the Silvers, song illustrators; Gallando, clay modeler; Bonner, trained equine; Marsh and Sattella, singing sketch; kalatechnoscope, showing views of the Transvaal. At Proctor's Palace, week of Feb. 12th, the stars are; Lillian Burkhart & Co. in her new comedy "A Deal on 'Change;" Camilla Urso, the gifted violiniste; Maxwell and Simpson, best of all song illustrators; Hawaiian Queens, in the operetta, "King Moo's Wedding Day;" kalatechnoscope, with the best of moving pictures, and some dozen more entertaining specialties.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Miss Giddis, of the borough, has been visiting relatives at Mt. Horeb.

WHAT DO THE CHILDREN DRINK?

Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. The more Grain-O you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee but costs about ¼ as much. All grocers sell it. 15c. and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,

122 East Front Street.

FURNITURE FACTS.

OUR BASEMENT is largely stocked with New Furniture fresh from the factories. New goods, many of which were purchased before the rise in prices, are arriving daily and a fine display they make. The removal of our Carpet Department has given us a large increase of floor space and enables us to make a much larger showing of Furniture than heretofore. Unusual facilities for handling large quantities of goods, enables us to buy direct from Manufacturers and enables us to sell goods on small margins. We cordially invite all who are interested in Furniture to visit our Basement and look over our lines.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Miss Radin, of North avenue, is visiting relatives in New York for a time.

Miss Darby, of Alton, who has been visiting in Plainfield, has returned home.

Henry P. Seader and family, have removed from 61 Watchung avenue to 18 Lincoln place.

Freeholder Andrew Lutkins, of the borough, has recovered from a severe attack of the grip.

Mrs. Daniel Stewart, of the West End, is confined to the house with an attack of pneumonia.

Augustus Faber, of Rockview avenue, is home from Princeton University for a few days vacation.

The Misses DeMott, of Somerset street, have been entertaining company from Bound Brook.

Mrs. Waldo Davis, of Providence, R. I., is the guest of Mrs. Frank H. Smith, of Madison avenue.

Helen Woolley, of West Front street, has recovered from a severe attack of the whooping cough.

Mrs John Rowland, of East Second street, has returned from a visit with Hunterdon county relatives.

Miss Nellie Wells, of Little Genesee, N. Y., is the guest of Miss Luella Clauson, of West Sixth street.

Willard Martin, of Jackson avenue, who has been detained at home by illness, is very much improved.

Mrs. F. O. Herring, of Park avenue, will give a progressive euchre party at her home Wednesday evening.

Miss Emily C. Marsh will lead the meeting at the East Third Street Mission tomorrow evening at 8 o'clock.

Mrs. Lemuel Cole, of West Front street, has been spending a few days with L. E A. VanSyckle, of Whitehouse.

Horace J. Martin, Jr., of Philadelphia, is spending a few days at the home of his parents on Jackson avenue.

Mrs. Gjettlesen, of East Front street, who has been seriously ill, is greatly improved and hopes to be able to go out soon.

Miss Clara Williams, of Madison avenue, left today to spend a few days with Mrs Morris McGrath, of New Brunswick.

Mrs. Chas. Conover, of Elmwood place, has returned from visiting her sister in law, Mrs. George VanNest, of Dunellen.

Charles H. Herring, of New York, has returned home after a visit with his son, Rev. C. E. Herring, of Watchung avenue.

Mrs. Waldo E. Davis, of Providence, R. I, is a guest of President of the Council Frank H. Smith and wife, of Madison avenue.

Miss Randolph, of Park avenue, near Randolph road, has been engaged to assist Mrs. L. J. Denton, the West Front streeet florist.

F. H. Martin, of West Front street, is one of the Plainfielders in attendance at the Y. M. C. A. State convention being held at Passaic.

Mrs. Florence Howe Hall, of Madison avenue, is attending the National convention of Women Suffragists that is being held in Washington.

Mrs. Brady, of the borough, who a few weeks ago fell and fractured her hip and arm, is doing very well under the treatment of Dr. Jenkins.

Mr. and Mrs. Will F. Williams, of Central avenue, will entertain the euchre club of which they are members, Thursday evening, March 8th.

Mrs. William Gildersleeve, of Brooklyn, was called to Plainfield yesterday on account of the death of her father, Henry W. Force, of New street.

Druggist Edward Randolph, of West Fourth street, has been detained at home for a few days by illness, and his store has been in charge of Charles Lowerie, of Somerville.

At the regular meeting of the Rainy Day Club, of New York, held Wednesday last, Mrs. Ernestina K. Krom, of this city, who is a member, presided over the meeting in the absence of the president, who is in Europe.

Chronic Nasal Catarrh poisons every breath that is drawn into the lungs. There is procurable from any druggist the remedy for the cure of this trouble. A small quantity of Ely's Cream Balm placed into the nostrils spreads over an inflamed and angry surface, relieving immediately the painful inflammation, cleanses, heals and cures. A cold in the head vanishes immediately. Sold by druggists or will be mailed for 50 cents by Ely Brothers, 56 Warren Street, New York.

A Paradox.

"Papa, what is a paradox?"
Thus to the father spake the youth.
"A paradox," the sire replied,
"Is truth in guise that seems untruth;
For instance—this to illustrate
A form which logic nicely evens—
Our house is warm because it's cooled—
We get the best from Geo. O. stevens."

EARLY INTELLIGENCE.

—A meeting of the Carpenter's Union, No. 155, will be held this evening at which a full attendance is requested.

—A meeting will be held next week to complete the organization of the new athletic association of the Plainfield High School.

—Anchor Lodge, No. 149, F. and A. M., will hold a regular communication next week Tuesday evening, when important business will be considered.

—A week from next Monday evening a temperance meeting will be held under the auspices of the Christian Endeavor Society of Trinity Reformed church. Rev. Dr A. H. Lewis has been secured to give a talk.

—The death of Mrs. Richard H. Trewin, which occurred yesterday, was due to Bright's Disease and brain trouble, and not consumption, as stated. She was a sufferer from those diseases for years, and the best of medical treatment was of no avail

Y. M. C. A. NOTES.

A class in penmanship will be formed at the Y. M. C A. Monday evening, with Clifford Braider as instructor.

Monday evening the New Brunswick basket ball team will meet the local Y. M. C. A. team at the association "gym."

J. H. Manning, general secretary, and Physical Director C. E. A. Heywood, of the local Y. M. C. A., are attending the State Y. M. C. A. convention at Passaic.

The Life of Late Dwight L. Moody.

The only authorized life and work of Dwight L. Moody, by his son, is now in the agents hands. The royalty from this popular book is to establish a perpetual fund for the work of the Northfield schools. What more fitting memorial could a grateful Nation raise to the memory of this great Soldier of the Cross. Mrs John Ulrich, of College place, Plainfield, is acting as our agent, and we cordially recommend her to the public A line to her address will meet with a ready respone. The Methodist Book Concern.

Corporation Notice.

ASSESSMENTS FOR MACADAMIZING.

The subscribers, the Commissioners appointed by the Court of Common Pleas of the County of Union, by order of said Court entered on the 24th day of January last, to estimate and assess benefits conferred by the permanent street improvements in the City of Plainfield in said County under the ordinances of said City, respectively entitled:

"An Ordinance for macadamizing East Sixth Street between Watchung Avenue and Richmond Street, excepting where already macadamized," approved Oct. 27th, 1898.

"An Ordinance for macadamizing Franklin Place between LaGrande Avenue and East Fifth Street," approved October 27th, 1898.

"An Ordinance for macadamizing East Ninth Street between Park Avenue and Watchung Avenue," approved October 27th, 1894.

"An Ordinance for macadamizing West Fourth Street between New Street and Monroe Avenue," approved Feb. 6, 1899.

"An Ordinance for macadamizing West Third Street between Madison Avenue and Monroe Avenue, excepting where already macadamized," approved Feb. 9th, 1899.

under and by virtue of the provisions of the act of the Legislature, entitled "An Act to authorize the improvements of Streets and Highways in cities of this State, and to provide for the payment of the expense of the same," approved June 13, 1898, and the amendments and supplements thereto, and for the purpose of performing the duties and executing the powers conferred by said Acts of the Legislature, having duly qualified as required by law, do hereby, pursuant to the order of said Court, give notice that on Monday, the twenty-sixth day of February, A. D. 1900, at half-past seven o'clock, p. m., at the Council Chamber, 109 Park Avenue, in the said City of Plainfield, said Commissioners will proceed with the discharge of their said duties and hear any persons in interest who may present themselves to be heard, and at such time and place and at such other times and places to which they may adjourn for that purpose, the said Commissioners will attend and give a public hearing to those persons who may desire to be heard.

Dated, Plainfield, N. J., Feb. 10, 1900.

A Special Sale of 1,000 Pairs of Men's Trousers.

We purchased 1,000 pairs of trousers, all there was left over by one of the best pants manufacturers on Broadway, N. Y. Owing to the lateness of the season we purchased them at 40 per cent less than the original wholesale price, that gives a chance to offer you the biggest bargains in trousers we have ever offered. They are all made in up-to-date patterns, cut in shape, the following are the prices we will quote for this Saturday.

150 pairs of trousers, that are strictly all-wool Scotch cheviots and cassimeres, made with two hip pockets, continuous waistbands, good and heavy, regular price $2.50, for this $1.25.

150 pairs of men's trousers, very handsomely made in cassimeres, cheviots, as well as in wool faced worsteds, in stripes, checks and plaids all new patterns, nice clean stock, the actual price of them is from $2.75 to $3.25, to go at $1.65.

100 pairs of young men's trousers consisting of cheviots and cassimeres, checks and stripes in all wool materials, regular price $2.00 your choice $1.15.

100 pairs of the finest Washington Mills worsteds as well as extra fine cassimeres, they are as good values as ever offered, the styles and patterns are the very latest, strictly all wool, worth from $5.00 to $6.00, to go at this sale at $2.30 and $2.75.

Good working pants at 70c.

Nice business trousers at 95c.

These are only a few of our immense stock of trousers that must be sold before our new spring stock arrives.

This chance just came in time for a great many of our customers that need a pair of trousers to wear out with their suits that they have bought earlier in the season.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence to The Press.)

Dunellen, Feb. 10.—Some miscreant stole the penny-in-the-slot machine from in front of Dr. Brakeley's drug store Thursday evening. The machine contained a few pieces of gum, some candy and a few pennies.

The Council at its last meeting decided to file in the collector's office the names and amounts of those who have failed to lay their sidewalks in accordance with the ordinance, and to assess the property for the payment of the same.

The funeral of Rev. Mahlan H. Sisty, whose death occurred suddenly at his home Wednesday afternoon, will be held Monday morning from the house at 7:30 o'clock and at the Methodist church at Langhorne, Pa., at 11 o'clock.

Court Dunellen, Independent Order of Foresters, are to have an enjoyable sociable and entertainment for the members and their families at the Lincoln school building next Wednesday evening.

The topic for Sunday morning at the Methodist church will be "Shelter From the Winter of God." In the evening Dr. Jamison will preach on the "Secret of Good Luck."

There will be baptism at the Presbyterian church Sunday morning. The Lord's Supper will also be administered.

This afternoon at 2:30 o'clock a covenant meeting will be held at the Presbyterian church.

Mrs. O. A. Douglass has been entertaining her nephew, W. Park Smith, of New York.

Mrs. P. C. Staats has been entertaining her neice, Mrs. John W. Young, of Weston.

The condition of Mrs. Joseph Maier, who has been quite ill, is somewhat improved.

Rev. Martin Sindall's sermon this morning was on "Abraham Lincoln."

Mrs. Nancy Thomas has returned from a visit with friends in New York

Miss Mabel Jamison has been visiting friends in Singac for a few days.

PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, February 10.—Horace Hand, of Plainfield, was the guest of friends in town last evening.

Rev. G. M. Shott will take for his subject for Sunday morning's sermon, "The Same Image," and in the evening, "The Two Detectives."

Miss Mamie Skelly, of Raritan, who has been visiting at the home of Mr, and Mrs. Wm. Lee, has returned home.

Twilight Council, Jr. O. U. A. M., held a large and interesting meeting in their rooms Friday evening.

The public school will celebrate Lincoln's Birthday Monday. No session will be held.

Rev. Mr. Woodruff will lead the payer meeting in the Methodist church this evening.

Miss Sadie Reger is spending a few days with relatives and friends in Westfield.

Township Committee met and transacted routine business last evening.

Miss Ella Squiers is visiting at the home of her mother in Rahway.

SOUTH PLAINFIELD.

(Special Correspondence to The Press.)

South Plainfield, Feb. 10.—Ben Randolph is at his post again driving the Lehigh Valley stage.

One of the bridges on the new road has a very bad hole in it, which is liable to cause some trouble unless repaired soon.

The school organ has arrived and was used yesterday for the first time. The scholars are happy.

Washington Camp, No. 41, will give a ball in their hall Monday evening, Feb. 19th.

Mr. VanNest is getting quite a milk route in town.

SPRING.

(Special Correspondence to The Press.)

Westfield, Feb. 10 — The annual school meeting, when three trustees will be elected to succeed Harry E. Knight, John J. Coger and John B. Green, will be held at Westfield Club Hall, Tuesday evening, March 20th. Appropriations for carrying on the school work during the coming year, will also be named at this meeting.

The members of the Westfield Club are being coached by Elmer Affleck, the well-known minstrel, for a show to be given at the clubhouse next month.

EARLY INTELLIGENCE.

—Mrs L. J. Denton, the West Front street florist, can supply fresh-cut violets on three hours notice.

—Dr. M. B. Long, of Park avenue, has just purchased a handsome carriage to be used in his profession.

—John D. Runyon and Isaac C. Manning have sold a valuable lot on LaGrande avenue to Mr. Dupuy, of this city,

—The members of the Gesang and Turn Verein are arranging for their annual festival to be held in their hall in the near future.

—The Taylor Iron and Steel Company, of High Bridge, has secured the contract for wheels to be used in the Sandwich Islands.

—Next week Friday evening there will be an adjourned meeting of the Borough Council, when some important business will be considered.

—The employes of the Plainfield Electric Light Company are preparing to remove their overhead wires and poles in the business part of the city.

—The Primary Teachers' Union will hold a meeting of special interest next Monday afternoon, to which they invite all the members and those interested.

—The Plainfield Sunday-school Union hope to have in the near future John Wanamaker, of Philadelphia, who will come to this city and make an address on Sunday-school work.

—The Christian Endeavor Society of the Seventh-day Baptist church will hold a St. Valentine's Day social Wednesday evening at the home of Dr. F. T. Clawson, of West Seventh street.

—Several candidates were adopted at the meeting of Miantonomo Tribe of Red Men last evening. The meeting was followed by a "smoker" arranged by the entertainment committee.

—The choir of the German Lutheran church met last night to rehearse music in English to be rendered Sunday evening next at the church. The pastor, Rev. Mr. Shaeffer, will preach in English.

Messrs. Perrin, two young men, sons of Mr. Perrin, of the well known firm, Perins, Freres & Company, of New York, have just arrived in this country from France, and they expect to take up their residence in this city soon.

—Mrs. Beale, a lecturer in the train work, will be at the Park Avenue Hotel after Monday next and while here will give a series of health talks, the dates to be announced later on. These lectures are of especial interest to women.

Lokal-Nachrichten aus der alten Heimath.

Preußen.

Provinz Brandenburg.

Berlin. In der ersten Hälfte des Januars sind hier 117 Personen an der Grippe gestorben.—Die Gesellschaft für Verbreitung von Volksbildung hat im Jahre 1899 im ganzen Reiche 352 Bibliotheken mit 16,627 Bänden begründet und unterstützt.—Die letzte Schneeperiode vom 11. Dezember v. J. bis zum 6. Januar hat der Stadt 392,157 Mark gekostet. Bei dieser Gelegenheit sei erwähnt, daß seit dem Winter 1884—85 die höchsten Anforderungen an den städtischen Säckel die Schneeperiode des Jahres 1894—95 stellte, da in diesem Winter die Ausgaben für die Schneereinigung 1,009,901 Mark betrugen. Der billigste Winter war der vorjährige; mit 23,591 Mark fand die städtische Straßenreinigung während der Schneeperiode ihr Auskommen.—Der verdiente Direktor der königlichen geologischen Landesanstalt und Bergakademie Geheimer Oberbergrath Wilhelm Hauchecorne, ist plötzlich an Herzlähmung verstorben. —Eine große Feuersbrunst zerstörte Abends das Waarenhaus Aron im Vororte Rixdorf. Das Feuer entstand durch die Explosion eines Gasmotors der elektrischen Beleuchtung und verbreitete sich so schnell, daß im Augenblick das ganze fünfstöckige Haus brannte. Die Käufer und Angestellten konnten sich noch retten. Ein Ehepaar nebst Tochter mußten aus dem obersten Stockwerk herabspringen.

Rathenow. Der Magistrat beabsichtigt die Errichtung eines Elektrizitätswerkes. Es soll von der elektrischen Kraftstation Elektrizität zu Kraft- und Beleuchtungszwecken abgegeben werden, wovon man sich namentlich für die Kleinindustrie Vortheile verspricht.

Wilmersdorf. Auch unsere Gemeinde soll jetzt ein Reformgymnasium erhalten. Die Anstalt soll als Realschule eröffnet und später, falls die ministerielle Genehmigung hierzu ertheilt wird, zum Reformgymnasium ausgebaut werden. Die neue Schule soll bereits zu Ostern d. J. in's Leben treten.

Woltersdorf. In der Nähe der hiesigen Station sprang dieser Tage aus einem Eisenbahnzuge plötzlich ein Mann, den die übrigen Fahrgäste nach seinem Dialekte als Oesterreicher bezeichneten. Er hatte ein Billet Wien-Hamburg-Berlin. Man vermuthet in dem spurlos Verschwundenen einen Defraudanten.

Provinz Hannover.

Hannover. Von dem Bezirkseisenbahnrath, der kürzlich hier in Sitzung war, wurde ein Gesuch um Ermäßigung der Frachtsätze für rohe Baumwolle von Hamburg, Bremen, Bremerhaven-Geestemünde nach Hannover-Linden einstimmig befürwortet und angenommen. Die Hannover'sche Baumwollspinnerei wird hierdurch eine Frachtersparniß von 6000 Mark pro Jahr erzielen.

Osnabrück. Die Stadt beschloß die Errichtung eines Elektrizitätswerks und einer Straßenbahn. Beides soll ausgeschrieben werden.

Provinz Hessen-Nassau.

Frankfurt. Die Stadtverordneten genehmigten mit 38 gegen 14 Stimmen die Eingemeindung von Oberrad, Niederrad und Seckbach.—Der Deputy-Generalkonsul der Ver. Staaten in Frankfurt am Main, Vaughan, hat seitens der deutschen Regierung das Exequatur erhalten.

Hanau. Der Kreistag zu Gelnhausen genehmigte einstimmig das Kleinbahnprojekt Wächtersbach-Orb.

Homburg v. d. H. Das hiesige Progymnasium ist laut Erlaß des Kultusministeriums als Vollgymnasium anerkannt worden.

Wiesbaden. Der Pächter des hiesigen Taunusbahnrestaurants und Eigenthümer des Eisenbahnhotels, P. Block, ist an einem Schlaganfall gestorben.

Hohenzollern.

Hechingen. Wegen Mißhandlung ihres 13jährigen Töchterchens wurde die Museumswirthin Weber zu sechs Monaten Gefängniß verurtheilt. Die Verhandlung bot ein außergewöhnliches Bild der Rohheit und Herzlosigkeit einer Mutter.

Provinz Pommern.

Stettin. Die Herstellung des großen Schiffahrtskanals zwischen Berlin und hier soll 42,000,000 Mark Kosten erfordern.—Der in Berlin in Haft befindliche frühere Direktor Thym der hiesigen Nationalhypotheken-Kreditgesellschaft ist schwer erkrankt. Er mußte aus dem Untersuchungsgefängniß in das Krankenhaus gebracht werden. Es ist deshalb leicht möglich, daß der hier zur Verhandlung kommende Prozeß vertagt werden muß.

Köslin. Mit der Jahrhundertwende hat unsere Stadt die Einwohnerzahl von 20,000 überschritten. Am Ende des Jahres 1898 betrug die Einwohnerzahl 19,758 Personen.

Neustettin. Zum Rabbiner der Synagogengemeinde ist einstimmig Dr. M. Worms gewählt worden. Dr. Worms ist seit einer Reihe von Jahren Lehrer an der zweiten Religionsschule sowie an den hohen Festtagen Hilfsprediger bei der jüdischen Gemeinde gewesen.

DOCTOR. The reason why Ripans Tabules cure so many apparently widely different diseases is found in the fact that nearly every illness from which men, women and children suffer is a direct outcome of a disordered stomach. Old Dr John Abernethy, the father of modern medicine, used to say to his patients that he regarded the stomach as the kitchen of the body, that when that was out of order the whole house would very soon be disturbed in proportion to its disarrangement. So firmly did this idea fasten upon him, that he was wont to attribute most of the ills that flesh is heir to, to abuse of the digestive organs, and, when the good old man came to die, full of years and honors, he insisted that his disease was all in the stomach, saying, "We all treat our stomachs ill when we are young, and when we are old they fail us." The well-known efficiency of Ripans Tabules as a medium for the rehabilitation of a stomach that has been worn out or abused, has established in the minds of people generally the three well-known catch phrases: they banish pain, they prolong life, one gives relief.

WANTED—A case of bad health that RIPANS will not benefit. They banish pain and prolong life. One gives relief. Note the word RIPANS on the package and accept no substitute. RIPANS, 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

VANARSDALE. 127 East Front Street.

WORLDLY WISDOM.

A Budget of Wise Sayings Culled From the Earl of Chesterfield's Letters to His Son.

Next to doing the things that deserve to be written, there is nothing that gets a man more credit, and gives him more pleasure, than to write the things that deserve to be read.

Great talents are above the generality of the world, who neither possess them themselves nor judge of them rightly in others; but all people are judges of the lesser talents, such as civility, affability and an agreeable address and manner.

The desire of pleasing is at least half the art of doing it.

When you have found out the prevailing passion of any man, remember not to trust him where that passion is concerned.

A man is fit for neither business nor pleasure who either cannot or does not command and direct his attention to the present object, and banish for that time all other objects from his thought.

I really know nothing more criminal, more mean, more ridiculous than lying. It is the production of either malice, cowardice or vanity.

What I mean by low company, which should by all means be avoided, is the company of those who, absolutely insignificant in themselves, think they are honored by being in your company, who flatter every vice and every folly you have in order to engage you to converse with them.

If a man has a mind to be thought wiser and a woman handsomer than they really are, their error is a comfortable one to themselves, and an innocent one with regard to other people; and I would rather make them my friends by indulging them in it, than my enemies by endeavoring (and that to no purpose) to undeceive them.

I believe there is more judgment required for proper conduct of our virtues than for avoiding their opposite vices.

A common topic of false wit and cold raillery is matrimony. I presume that men and wives neither love nor hate each other more, upon account of the form of matrimony that has been said over them.

The characteristic of a well-bred man is to converse with his inferiors without insolence, and with his superiors with respect and ease.

Wrongs are often forgiven, but contempt never is; our pride remembers it forever; it implies a discovery of weakness which we are more careful to conceal than crimes.

A spruceness of dress is very becoming at your age; as the negligence of it implies an indifferency about pleasing, which does not become a young fellow.

Give me but virtuous actions, and I will not quibble and chicane about the motives.

Whoever is in a hurry shows that the thing he is about to do is too big for him. Haste and hurry are very different things.

Style is the dress of thoughts . . . it is not very understanding that can judge of matter, but every ear can and does judge more or less of style.

I have known many a man undone by acquiring a ridiculous nickname.

If you will please people, you must please them in their own way; and, as you cannot make them what they should be, you must take them as they are.

Modesty is the only sure bait when you angle for praise.

Use palliatives when you contradict.

I always treat fools and coxcombs with great ceremony; true good breeding not being a sufficient barrier against them.

A wise man will live at least as much within his wit as his income.—Worldly Wisdom.

Retiring From Business.

The Upturned Mustache.

The statement that the kaiser's mustache has been trimmed after the fashion of the mustache of Charles I., as depicted in his portraits, has been indignantly traversed by a German monthly. The "upturned mustache" was really invented, according to this authority, at the court of Philip IV. of Spain. Charles I. set the fashion in London, and it spread thence to Belgium, Germany, Sweden and France. Louis XII. was the last monarch who wore this type of mustache till its revival by William II.

German Solidified Alcohol.

The solidified alcohol which a Berlin firm has been sending out in a tin vessel intended to serve as a pocket lamp and stove, is reported to consist essentially of 62 per cent. of alcohol, 20 of soap and 18 of water. A similar product is readily made by dissolving scraped tallow soap in warm alcohol.

GOLDEN CAPE NOME.

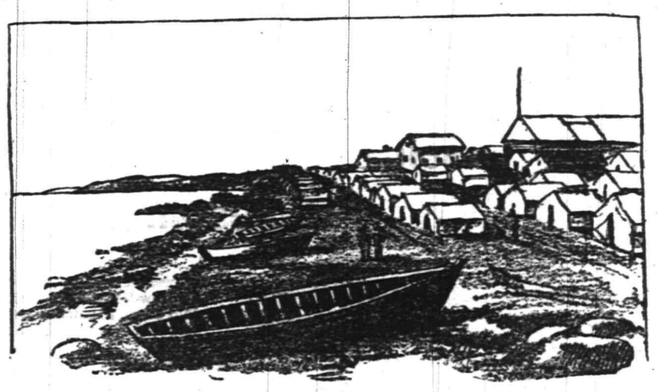
Richest Mining District Ever Found on American Soil.

Its Discovery, Although Made But Two Years Ago, Shrouded in Romance—Lights and Shadows of Life in Arctic Lands.

[Special Chicago Letter.]

CAPE NOME! Few know where it is, yet thousands are already making preparations to reach its golden coast as early as possible. Stories of vast fortunes to be picked up have reached the Yukon and Klondike mining districts, and are now being repeated in the United States, in Canada and all over Europe. Although the first discovery of the yellow metal in the Nome district was not made until September, 1898, yet at the close of 1899 the mining town of Nome had a population of 5,000; and a wide-awake city had been firmly established on a barren and desolate beach. By next July the town will no doubt have 25,000 inhabitants, to say nothing of scores of populous suburbs, which will attract another 20,000. Neither the inclemency of the climate nor the high cost of living will deter men from wooing fortune where, according to common report, gold nuggets are within the reach of all who are willing to take the trouble of appropriating them.

"The story of the discovery of gold in the Nome district," said Mr. Olaf Olson, who has recently returned from the district, to the writer, "sounds somewhat romantic. In fact, it sounds queer; yet it has obtained currency and credence among the miners; and is, I believe, destined to become history. It is to the effect that two Swedish missionaries, sent out from the United States, had been exceedingly kind to the natives, who were well acquainted with the mineral wealth of the Nome district. In token of their gratitude the natives imparted to the preachers the secret which



ON THE BEACH AT THE CITY OF NOME.

they had scrupulously guarded for years; and the two missionaries, Rev. N. O. Hultberg, of Chicago, and a Rev. Mr. Anderson, left their mission stations at once to convince themselves of the truth of the startling information they had just received.

"They arrived at Nome in September, 1898, just before the freeze, and although they had but a few days to pursue their investigations took out from $1,500 to $1,800. Under the direction of Mr. Hultberg the missionary society with which he is connected took up a mine which, during the season of 1899, yielded a profit of $75,000. He also took up a claim on his own account—as did Mr. Anderson—and both have made lots of money.

"Another story of the discovery of the Cape Nome gold fields is that it was

MINER AT WORK ON THE BEACH.

made by three Swedish prospectors named Brintesen, Lindblom and Linderberg. Some say that these three adventurers were merely the agents of Hultberg and working under his direction. I arrived at Nome last June with a party of miners and capitalists and when our vessel landed we found 120 men who had spent the winter there and a few others who had come across from St. Michael on the ice to share in the first season's spoils.

"After June miners began to arrive in regiments. Town lots and claims jumped in value from tens to thousands. Lumber—and poor lumber at that—was sold at $200 per 1,000, and skilled mechanics in the building line were paid $15 for eight hours' work. Nome is not a pretty town. It runs along the beach for a distance of two miles, facing the water. The tents and wooden buildings have absolutely no protection from the cold winds of Behring sea, and the man who braves nine months of winter in that dreary country deserves to accumulate a fortune.

"I was one of the pioneers at Dawson, and the first winter I passed there seemed horrible; yet the country around Dawson is paradise when compared with Nome. In the Klondike country the miners could always obtain plenty of fuel, but in this new Eldorado trees are unknown. Firewood, as well as all sorts of lumber, has to be brought in by boat, and that is why everybody who can afford it leaves the town in winter. In summer, which lasts about three months, the climate is not so bad, the only distressing feature being damp, cold fogs which sometimes envelop the shore in darkness for days at a time. The working season cannot be prolonged beyond four months. In the gulches along the mountains the diggings are coarse gold, but along the beach the gold, owing to the action of the waves, has been reduced to the size of bird shot.

"The Nome gold belt is divided into a number of districts, known as the Nome, Bonanza, Eldorado, Discovery, Blake, Big Four, Sinook, Cripple Granite, Fairview, Cape York and Norton Bay districts. The entire country covered by these fields is rich in gold, but the prospectors who go up there this spring will find that all of the good claims have already been taken up. Cape Nome, moreover, is no place for a poor man. Everything is expensive and competition is fierce. No one should attempt to go there unless he has enough money to pay his passage back to the United States, because nineteen out of every twenty new arrivals will make a failure. Anybody that starts with less than a complete outfit and at least $500 in cash is taking chances which no wise man should take.

"I have some good claims which I shall work this year; but nothing as good as Brintesen, Lindblom or Linderberg, each of whom is worth half a million dollars; nor quite as good as the fellows who are running the saloons of the town, who are getting rich at the expense of fellows that haven't sense or resolution enough to hold on to what they work for. Whisky kills more men in cold countries than exposure or disease, and not until its sale is prohibited will our mining camps prove really prosperous."

It is Mr. Olson's opinion that last year's gold yield at Nome amounted to about $3,000,000, which is $2,000,000 less than the commonly accepted estimates. This year, he thinks, all the claims opened up in 1899 will be worked thoroughly, assuring an output of about $15,000,000.

The exact location of the Cape Nome district has puzzled many otherwise well-informed citizens. According to Mr. C. F. Schrader, of the United States geological survey, it is situated on the northwest coast of Alaska, on the northeast arm of Behring sea, at the entrance of Norton sound. It is the southern promontory of a large peninsula, extending westward toward Siberia between Kotzebue and Norton sounds, and largely separates Behring sea from the Arctic ocean. Westward this peninsula terminates in Cape Prince of Wales, the most westward extension of the American continent, which is here separated from Asia by Behring strait, not more than 60 miles in width.

The Cape Nome gold fields lie about 100 miles northwest of St. Michael, and just outside of the Fort St. Michael military reservation. By steamer route Nome is nearly 2,700 miles northwest of Seattle, Wash., and about 750 miles from Dutch Harbor, Unalaska. The Cape Nome region extends from the cape, the apex of the promontory, 30 miles or more northwestward along the coast and about 20 miles inland to the north. In the middle of this shore line, at the mouth of Snake river, the city of Nome is located.

The mining in this district is all placer mining. Gold is found in small quantities, scattered throughout the beds of streams, in the earth adjoining, and in the sands of the sea. The pay streak lies near the surface, and the actual labor of securing a fair yield is less than in the Klondike. Moreover, under Canadian mining laws the frontage of a claim is limited to 200 feet, while under American laws a prospector can have 1,320 feet. This is probably one of the principal causes why so many miners have forsaken the Klondike, which is under Canadian administration, for the Alaskan fields.

Geologists are of the opinion that the entire northwest peninsula of Alaska is gold-bearing, and in support of their statements point out that since last August several new discoveries of rich gold fields have been reported—one at Cape York, 128 miles northwest of Nome, and another at Morton bay, 80 or 90 miles southwest. The entire region is a continuation of the great Yukon gold belt which, according to scientists, crosses Behring strait and extends for hundreds of miles into Siberia. Surely all of William H. Seward's dreams, who, in 1867, concluded with the Russian government the treaty by which the United States acquired Alaska, have been more than realized, for unless all signs fail, our arctic territory will supply the money markets of the world with yellow metal for many years to come. G. W. WEIPPIERT.

ESTABLISHED MAY 10, 1887. PLAINFIELD, N. J., MONDAY, FEBRUARY 12, 1900. TWO CENTS A COPY—$5 A YEAR.

CLOSE OF Y. M. C. A. STATE CONVENTION.

F. H. Andrews Heads the State Executive Committee.

COMIC PAPERS TABOOED.

OBJECTIONABLE JOKES AND ILLUSTRATIONS APPEAR IN THEM.

Decided to Hold Bi-ennial Sessions Hereafter—The Next One to be Held in Camden—An Offer to Erect a $45,000 Memorial Association Building, Provided $25,000 More is Raised.

(Special to The Daily Press.)

Passaic, Feb. 12.—The thirty-first annual State convention of the Young Men's Christian Association came to a close last night at 9 o'clock when State Secretary Donald MacColl led the farewell service at the First Baptist church. The church was crowded.

The convention decided in favor of biennial sessions, and the next one will be held in Camden in 1902.

The State committee reported that the membership increased 1,042 during the year, making a total of 8,932. The boys' department increased 262 members during the year. The State committee also reported having discussed the advisability of taking in the reformatories of the State and organizing associations. There are thirteen college associations in the State and three railroad branches.

The State committee was re-elected, as follows: F. H. Andrews, Plainfield; C. T. Kilborne, Orange; Dewitt C. Cowdry, Passaic; F. E. Kilpatrick, New Brunswick; L. Dennis, Plainfield; E. W. Durham, Trenton, and T. S. Golding, Montclair.

It was decided at the conference of boys' work that two comic papers were not fit to have in Young Men's Christian Association rooms. One speaker said that only two of the standard classes of jokes were specially objectionable to him. They were the missionary and hades jokes. President Kilborne said many of the cartoons were irreverent and some decidedly blasphemous.

A letter was read from some one who wished his name kept from the public. The writer said that he and his wife would erect a $45,000 Young Men's Christian Association building as a memorial to their son, provided a town, the name of which was not divulged, would raise a maintenance fund of $25,000. The delegates and others pledged $1,079.97 Saturday for the support of the year's work.

MUST PAY TAXES FIRST.

New Rules For Borough Employes Which Prevents Them From Shirking Municipal Obligations.

According to a rule established in the borough no person in the employ of that municipality shall receive his salary until he has first paid his taxes and is clear on the books. Not long ago a certain employe of the borough called at the office of Collector Brown for his customary check, due at that time. He was informed by the collector that he owed the borough some back tax and that according to instructions he could not pay him his salary until he paid up. Then followed considerable argument, but the official finally decided to pay up, and he allowed the collector to deduct from the check the amount he owed for tax, but he still reserves the right to think as he pleases about such a rule being enforced by the administration.

GAP IN THE SIDEWALK.

A Piece of Flagging is Missing and This Causes the Trouble.

Street Commissioner Gavett wishes us to state that the trouble at Putnam avenue and Franklin place is not with the crosswalk, but that a piece of flagging is missing from the sidewalk.

Promises, verbal and in writing, have been made by a member of the family owning the property that the gap will be filled, and it is hoped that this will be done without much further delay.

Middlesex Has a Crazy Prisoner.

The Middlesex county jail authorities at New Brunswick have a demented prisoner, Charles Mackel, committed ten days ago from Madison township as an insane person. Mackel is about forty. He has twice torn off his clothing, and now his covering is a blanket. Dr. Carroll, the County Physician, says the man is temporarily demented by illness, and should not be sent to the asylum. Sheriff Barclay does not see a way to dispose of his noisy prisoner.

—The members of the Gesang and Turn Verein are arranging for their annual festival to be held in their hall in the near future.

TRINITY TO FOSTER IT.

MARCONNIER CHAPEL WILL BE ADOPTED BY BIG CHURCH.

The Chapel Made the Request and Trinity's Officers Have Decided to Lend a Helping Hand to the Country Society.

Marconnier chapel, near Oak Tree station on the Lehigh Valley Railroad, for many years in charge of Mrs. Swenck, an earnest Christian woman, will probably soon become a branch of Trinity Reformed church, of Plainfield. On account of the failing health of Mrs. Swenck, a request recently came from the chapel to Trinity asking for the adoption of the chapel and the supplying of teachers for the Sunday-school and leaders for the evening service.

A committee from the Consistory of the church has paid two visits to the church and were so well pleased with what they saw and heard that the chapel will probably soon become a branch of the church and receive the helping-hand it so much deserves. At present there are 95 scholars and teachers on the roll of the Sunday-school. A. E. Metler, of Plainfield, is acting superintendent of the school and assisting Mrs. Swenck and a corps of faithful teachers in keeping the school open twice each Sunday, in the afternoon for the Sunday-school and in the evening for a Christian Endeavor meeting, which is always well attended.

The chapel is self-sustaining and very little in debt, the collections gathered at the meetings, together with small amounts realized from little entertainments, etc, being sufficient to pay the interest on a small mortgage as well as reducing the amount of the mortgage each ear.

UNION MEN AT FUNERAL.

Carpenters Attended the Obsequies of the Late Henry W. Force Yesterday Afternoon in a Body.

The funeral services of the late Henry W. Force were held yesterday afternoon at 2:30 o'clock from the residence on New street. The members of the Exempt Firemen's Association and the Carpenters' Union, of which the deceased was a member, turned out in a body in large numbers, and each society presented beautiful floral tributes in honor of the memory of their late brother.

The services were in charge of Rev. Charles L. Goodrich, of the Congregational church, and Rev. Dr. D. J. Yerkes, of the First Baptist church. The former read appropriate Scripture selections and offered prayer, while Dr. Yerkes spoke a few words of comfort and consolation to the bereaved ones.

After the remarks by Dr. Yerkes an opportunity was given all to take a last look at the form of the deceased. Interment took place in Evergreen Cemetery. Those who served as pallbearers were from the Exempt Firemen's Association and the Carpenters' Union, and societies accompanied the remains to its last resting place.

OBSERVING A HOLIDAY.

Most of the Commuters Remained at Home—Many Business Houses Closed Up.

Lincoln's Birthday is being generally observed in Plainfield today. Business is practically at a standstill and those stores that did remain open have been deserted. The vast majority the great army of commuters that leaves Plainfield every morning stayed at home today. The 8:30 express and several of the other trains largely patronized by the commuters were not run at all while none of the club cars made their usual trips to Jersey City.

The threatening weather kept many at home during the morning and there were comparatively few people to be seen on the streets. Some of the stores were closed all day and others closed at noon.

PREPARED FOR THEIR FRIENDS.

Surprise of Mr. and Mrs. Stanbery Was Anticipated by the Couple.

Saturday Mr. and Mrs. William Stanbery, of Fanwood, celebrated the ninth anniversary of their wedding, and an effort was made Friday evening to give them a surprise. The celebrants were prepared, however, and they received a few of their friends in royal fashion. After an evening of music and sociability an elaborate dinner was served and it was rather late when the happy evening came to an end. As Saturday was was the day for the celebration Mr. and Mrs. Stanbery remembered it and they entertained some of the older people, friends of Mr. Stanbery's father. There were several guests and all thoroughly enjoyed the hospitality of the host and hostess.

ABRAHAM LINCOLN.
Born February 12, 1809; died April 15, 1865.

LIBERTY ON PROMISES.

Diner, of Metuchen, Pledged Himself Not to Drink, Steal or Beat Wife.

George Dines, a Metuchen peddler, recently sentenced to four months in the Middlesex county jail for stealing brass journals from cars in the yards of the Lehigh Valley Railroad at Perth Junction, Metuchen, has been released by Judge Strong under novel conditions.

Dines' case was brought to the attention of the court by a petition signed by a number of the leading people of Metuchen. Rev. Dr. J. G. Mason, pastor of the Metuchen Presbyterian church, was the prime mover in securing signers for the petition. He declared that Dines was ill and that his family were suffering through being deprived of his support.

Judge Strong stated that it had come to his attention that Dines was addicted to drink and treated his wife cruelly. These things, the Judge said, had contributed to his decision to give him a severe sentence, but he declared that if Dines would come into court and solemnly promise that he would never do so again he would discharge him.

Dines was brought into court and solemnly promised that in future he wouldn't drink, he wouldn't steal, and he would not beat his wife. Judge Strong thereupon remitted the remainder of his sentence, and he was discharged.

READY TO BUILD A CRUISER.

Primary Work Begun in Lewis Nixon's Crescent Shipyard.

(Special to The Daily Press).

Elizabeth, Feb. 12.—Preparations are being made in the Crescent Shipyard to construct the new $1,500,000 cruiser, for which Lewis Nixon recently obtained a contract from the United States Government. The cruiser is to be built in Fulton street, on property recently purchased by Mr. Nixson from the Farmer estate. The bow of the vessel will point directly up the street, and a part will extend out over Front street, during the process of construction.

The New Jersey Dock and Bridge Building Company of this city has begun the work of setting piles in the sound at Fulton street. These piles will be used as a foundation for the vessel. The company will drive 500 spiles in all, or 250 on each side.

Scarlet Fever in Short Hills.

(Special to The Daily Press.)

Short Hills, N. J., Feb. 12.—Scarlet fever is prevalent here. Within the last fortnight there have been sixteen cases reported to the health authorities, and one death. With the exception of one patient all those stricken are children, mostly in prominent families.

An Early Fruit Crop Report.

The prospects for a large fruit crop in Hunterdon county next year are most encouraging. The peach-growers and truckmen report the buds in a healthy condition. Although the winter has not been severe, the growth of the buds has been retarted, so that but little uneasiness is felt for their safety.

SOCIAL LIFE OF THE DAY.

REV. MR. SHOTT ON THE EVILS OF THE DANCE AND DRAMA.

A Woman Loses Her Modesty After Attending Her First Dance—He Advocates a Higher Moral Standard.

(Special to The Daily Press.)

Scotch Plains, February 12.—Rev. Gideon M. Shott, pastor of the Baptist church, at this place, last night resumed his sermons along the lines for a higher moral standard in this village in particular and the world in general. He took for his subject "The Two Deetives—The Sin That Goes Ahead and the Sin That Follows On." This discourse was a scathing arrangement of the social life of the day—the dance, the social drunkard and the drama. He said in part that the social evil soon stamps its effect upon man in the way of pain or illness, which is a warning from God and warns us when we begin to abuse the body. If you do not accept the warning the result is that He places His sign upon us.

"Take for instance some of the girls I could mention who have strayed from the narrow path and the influence of the church. They lose first their modesty and when that's gone they are lost," said Rev. Mr. Shott.

In speaking of the dance Mr. Shott said that a woman loses her modesty after attending her first public dance and after attending a number of these dances she becomes common. He spoke of the time when a young girl leaves home to go out into the world to earn her own living and finally drifts into the Midway Plaisance. The man, he said, who would ruin a virtuous woman, should be made to marry his victim or else meet with summary punishment—not wait for God's vengeance. He favored the whipping post as a means of punishment for those who wreck homes. In reference to the evils of intemperance, Mr. Shott said that there are men in this town who are spreading poison to others. He expressed the opinion that the day was near when these old wrecks might be brought into the church that the people might see the wreck made by the sins that go ahead of them and the sins of them that follow on.

Singer Works Rushed With Orders

(Special to The Daily Press.)

Elizabeth, Feb. 12.—The Singer Sewing Machine Works here were never busier than at the present time, and nearly every department in the immense plant is being run until 7 o'clock at night. Last week 11,400 machines were manufactered. There are now over 5,000 persons employed in the works, and there will be an increase of about 1,200 when the new addition now being made to the big plant is completed.

Newspaper for the Borough.

Printing presses, type and fixtures have been moved into one of the vacant stores of A. B. Thorn on Somerset street. The plant is said to have removed from Bangor, Me., by W. W. Webb, who it is understood will establish a weekly newspaper in North Plainfield on or about March 1st.

BRIDGE MAY COLLAPSE.

Stone Structure Over the Raritan River at New Brunswick in a Dangerous Condition.

An investigation at New Brunswick, by the Middlesex County Board of Freeholders, shows that the arched bridge over the Raritan river at that place is in danger of collapse. Three stone piers are gradually falling away, and as the Board of Freeholder has already expended the money appropriated for bridges there is no way of securing money enough to save the structure unless the Freeholders raise money under a law which provides for cases of emergency.

County Surveyor Dougherty last week notified the Freeholders that the west pier was washing away, and that unless prompt action was taken the road would cave in. This makes the condition of things serious, as the bridge is used constantly by trolley cars and other vehicles.

The Freeholders decided to do nothing until next Wednesday, when they intend to go down to the bridge and make a personal examination.

Changed His Position.

L. C. Prevost, of West Sixth street, formerly of Mauch Chunk, where he was chief clerk of the coal supply department of the Jersey Central Railroad Company, has resigned his position and accepted one as manager of a general store for a Mauch Chunk firm that has brought a large tract of valuable property in West Virginia near Oakland, which they will develop. He will leave Plainfield today for the south.

Another City Hall Site.

Another piece of property has been put in the market for a city hall site. It is on West Fourth street between Arlington and Madison avenue and is owned by Mr. Fisher and Thomas Lynch jointly. These men are willing to sell this property at a reasonable figure, and it has many advantages not to be found in some of the other properties.

A Westfield Wedding.

(Special to The Daily Press.)

Westfield, Feb. 12.—A fashionable wedding will occur at this place Thursday evening, February 22, at 8 o'clock, when Miss May Ella Moffett, daughter of Mr. and Mrs. James Moffett, will become the bride of Leigh Morgan Peersall, also of Westfield. The wedding will take place at 45 Carleton place. Invitations were sent out Wednesday.

New Telephone Line From Basking Ridge.

(Special to The Daily Press.)

Basking Ridge, Feb. 12—A representative of the New York and New Jersey Telephone Company is securing the right of way from Basking Ridge to Millington. If he is successful a line will be put up in a few weeks connecting Millington with all the adjacent villages.

Veteran Railroad Engineer Dead.

Lewis R. Everitt, one of the oldest engineers in the employ of the Central Railroad of New Jersey, died Friday at his home in Roselle. He was fifty-six years old, and for thirty years had been an engineer on the road. He leaves a family.

PLAINFIELDER DONE UP.

THOMAS BRENNAN INJURED BY BRUNSWICK SALOON KEEPER.

Three Plainfielders Were Waiting for a Train and Decided to Get a Drink—Dispute Started, Then Serious Trouble.

According to the New Brunswick Fredonian three Plainfielders came to grief Friday night at William Hall's saloon in Somerset street in that city. As a result it required two policemen, a physician and considerable time before the affair quieted down. Hall is out on bail and one man has gone back to Plainfield in a pretty bad condition.

The men from Plainfield were Thomas Brennan, John Sheehan and Thos. Sheridan. They were at the depot waiting for a train about 2 o'clock Saturday morning and went over to Hall's saloon to see what was going on there.

The saloonkeeper was behind the bar and according to his story the trio tried to do him up. The Plainfielders' story is that they got into a dispute and before they could prevent it Hall leaned across the bar and struck Brennan across the head.

Accounts differ as to whether it was a fist or a bottle used, but Brennan was taken to police headquarters bleeding profusely.

Officers Campbell and VanDuersen promptly arrested Hall and he was held under arrest, while Dr. Dudley cared for Brennan.

Then Hall was released on bail. He declared it was done in self-defense and Recorder Kuhn let him go to await the action of the Grand Jury.

The three men missed their car and had to wait around until daylight and go home in a trolley car.

DEATH ENDS SUFFERING.

Mrs. Thomas W. Morrison Passes Away at the Home of Her Daughter in Philadelphia.

After a long and tedious illness from a complication of diseases which was borne with unusual fortitude and patience, Mrs. Mary J. Morrison, wife of Former Editor Thomas W. Morrison, of 11 Mountain avenue, passed away Saturday evening at the home of her daughter, Mrs. Charles Dilienbeck, East Gravers Lane, Chestnut Hill, Philadelphia. Only a short time ago Mrs. Morrison returned from abroad, where she had been spending some time with her son, Harry Morrison. It was while there that the dread diseases developed in a more serious and aggravated form, and quickly led her to decide upon returning to her native country with all possible haste so that she might reach here and see her husband and daughter before the fatal end.

When she arrived in this country she was taken to her daughter's home in Philadelphia, where she spent her remaining days in all the comfort and convenience possible. In her death the bereaved husband and children have the sympathy of a host of friends.

Mrs. Morrison was 51 years of age She was a Miss Dixon, daughter of the celebrated maker of cream and ices of New York. She resided in Plainfield between twelve and fourteen years, and was greatly admired and loved by many who knew her. She possessed many fine qualities and was an exemplary Christian woman. She is survived by a husband, a daughter, Mrs. Dilienbeck, and two sons, George and Harry Morrison. The funeral services will be held tomorrow afternoon at 2 o'clock from the home of her daughter in Philadelphia. Interment will be in Ivy Hill Cemetery, in that city.

FOUND YOUNG FUGITIVE.

Constable Weaver Took Stanley Into Custody Today—Gave Officer the Slip on Saturday.

Stanley B. Childs, the 14-year-old boy, who cleverly escaped from Constable Weaver on Saturday morning by leaping from a second story window into the alley back of the Marsh building, has been recaptured. The constable found the young fugitive at his home on Clinton avenue early this morning. Stanley told the officer that after he made his escape he ran up Second street and made his way to South Plainfield where he concealed himself until night. He finally became hungry and decided to go home which he did to the surprise of his mother. Stanley was landed in jail at Elizabeth early this morning.

Quietly Married.

Miss Mary Elizabeth Gunn, of North Plainfield, and Charles L. Hewitt, an employe in the press room of The Daily Press, were quietly married last evening at 8:30 o'clock at the home of Rev. George Hauser, of Duer street. They will take up their home at 53 North Watchung avenue.

Miss Badia, of North avenue, is visiting relatives in New York for a time.

MANY NEW HOUSES STARTED LAST MONTH.

Building Boom Still Continues Despite Cold Weather.

FOURTEEN PERMITS IN JAN.

SEVERAL NEW RESIDENCES FOR THE WEST END.

New Dwellings are Springing Up All Over the City Despite the Fact That the Price of Lumber is Very High — Big $10,000 Warehouse for the Ballentine — Eight New Residences.

Despite the fact that building never flourishes in winter, the month of January showed a number of new houses springing up all over the city. There were fourteen permits issued by Building Inspector Doane during the month, and eleven were for new structures, while the remainder were for alterations and additions. Of that eleven, two are for barns, one for a warehouse and the others for residences ranging in cost from $6,000 to $1,400. And all this building is going forward despite the fact that the price of lumber is higher than it has been since the close of the Civil War.

The most elaborate of the residences started during the month is one of colonial design on West Seventh street, near Grant avenue. The owner of which is Mrs. Annie W. Abernethy, of Jersey City. E. V. French was the architect, while Seaman Williams and H. E. Gaylor hold the contracts for the mason and carpenter work respectively. This dwelling will cost about $6,000.

In that neighborhood several other smaller dwelling are in progress of erection. William H. Abbott has contracted for a neat little cottage on West Fifth street, near Grant avenue, designed by W. H. Clum. Walter Wyckoff is the mason and Titus & Pope the contractors. It will cost $1,400.

Mrs. Sarah J. Mundy is building two double frame cottages on West Fourth street, near Prescott place, that will cost $2,000 each. P. W. Mundy drew the plans and Mundy Brothers will build them. Patrick Connolly is building a $1,400 cottage at 666 West Fourth street after plans prepared by C. Smith. W. Thompson is mason and B. Young, carpenter.

Work has been started on a pretty little residence on Union street, near Arlington avenue, for Joseph Fuller. It will cost $2,600. Charles L. Force was the architect. The mason work has been awarded to John Hubbard and the carpenter work to D. N. Force.

In the First ward, E. W. Sherwin is building a $2,200 residence on Washington street, near East Second street. W. H. Clum was the architect, William Tallamy the mason and Titus & Pope the carpenters.

J. F. Pound is erecting a $500 barn on West Front street near Grant avenue and J. Sacher is having one put up in the rear of the house, 210 East Fourth street.

The principal event of the month was the issuing of the permit for the big bottling and ware house corner of Central avenue and West Second street for P. Ballantine & Sons. It will be a brick structure and will cost $10,000. Charles H. Smith drew the plans which are now being carried to a reality by Titus & Laury as masons and Henry E. Gayle as carpenter.

WHAT THEY DID TO DOOLEY.

Raised a Row in Butcher Shop—Punished in City Court.

Edward Dooley went into Jed. D. Smalley's butcher shop on Watchung avenue Saturday evening. It is said that he was drunk. Trouble followed and it was found necessary to put Dooley out of the shop. He was arrested by Patrolman Vanderweg on complaint of Mr. Smalley. and was arraigned this morning before City Judge Runyon. The Judge gave him his choice between a fine of $5 or thirty days in jail.

City Hotel to Continue Under Beerbower.

The final negotiations between Mr. Maltby, the owner of the City Hotel, and the Anheuser-Busch Brewing Company, for the rental of the City Hotel, which were to have been completed Saturday night, fell through owing to a disagreement over terms. It is now understood that John Beerbower, the present lessee, will apply to the Council tomorrow evening for a license and will continue in charge of the hotel.

Lantern Exploded in Delivery Wagon.

A lantern exploded Saturday evening in the delivery wagon of W. W. Wilson, of South Second street, driven by John Coffey. The lamp exploded and fell into a box of groceries causing damage to the amount of $1.

WHY BULLER FAILED

War Office Gives Out No Explanation.

KIMBERLEY ON SHORT RATIONS.

At Rensburg the Boers Were Beaten Back In an Attempted Flank Movement—A Strong Position Seized South of the Tugela.

LONDON, Feb. 12.—The latest dispatches from the front, showing the real reasons for General Buller's retirement and his intention to try again, quite destroy the comforting and ingenious theory that the movement was an elaborate feint to facilitate the main advance of Lord Roberts, a theory which obtained acceptance largely because of Mr. Balfour's misleading statement to parliament.

These seemingly useless reticences and prevarications on the part of the government and the war office are beginning to be criticised severely.

No word has yet issued from the war office regarding General Buller's latest attempt, although the correspondents are allowed to telegraph with a fair amount of freedom, and thus far only a partial list of casualties has been published. The dating of messages from Frere camp may indicate that General Buller has withdrawn all his forces there.

Startling intelligence comes from Kimberley in the Cape newspapers just received by mail in London. It appears that since Jan. 8 the rations at Kimberley have been for the most part horseflesh, so repugnant to women and children that many refuse to eat. It also appears that the death rate has been heavy and that the privations of the garrison have been increasing steadily.

The Pietermaritzburg correspondent of The Daily Mail, telegraphing yesterday, says:

"The Boers have occupied Bloy's farm, south of the Tugela, which is under an hour's ride from Chieveley, and have turned the homestead into a hospital.

"On the farm are hills commanding both bridges over the Tugela as well as Forts Wylie and Molyneux and from which a view of Bulwana and Ladysmith is obtainable.

"There is much apprehension here regarding the Boer movements, and the authorities are on the alert."

Mr. Winston Churchill sends from Frere camp to The Morning Post a long review of the situation. He says:

"General Buller always thought it impossible to hold the triangle of Natal north of the Tugela, but the initial mistake was made owing to the miscalculation of the Boer strength, and the fact that millions' worth of stores had been collected at Ladysmith. From the first he regarded the relief of Ladysmith as a forlorn hope. He did not feel justified in ordering a subordinate to perform such a doubtful task.

"The absence of good maps has cost much blood. An attempt to thrust the enemy back from Brakfontein or Doorn Kloof would have cost 3,000 men, and, since at least two brigades must keep the door open behind us, too few would have remained to force the way to Ladysmith. Moreover, General Buller remembers that his army is the only army for the defense of the rest of Natal. Therefore he decided to withdraw and to try elsewhere.

"Another fierce attempt will be made to force the Tugela. Great Britain must realize the ugly fact that the relief of Ladysmith would strain an army of 50,000 and that 100,000 men would not be too many. The country therefore must be prepared for a heavy loss and perhaps for disappointment.

"Remembering that considerations of honor more than policy demand ceaseless efforts to relieve Ladysmith, the whole army, despite disappointments and retreat, regards General Buller with sympathy and trust such as are seldom seen even in fortunate circumstances.

"The security of southern Natal is our important consideration. The necessity of obtaining control of Delagoa Bay is very apparent. The ingress of foreigners and war material is ceaseless. Surely a settlement with Portugal would be only a question of money."

The Daily Mail publishes the following dispatch from Sydney:

"The news of General Buller's reverses has caused a great sensation here. Cardinal Moran in a remarkable speech has advocated conscription in Australia in view of possible complications. He thinks it may soon become necessary to defend Australia and therefore regrets the departure of the local troops."

The war office has just issued the following dispatch, dated Feb. 11, from the general commanding at Cape Town:

"Clements reports from Rensburg that on Friday, Feb. 9, the Boers tried to turn his right flank, but were beaten off. Position maintained. Casualties small.

"Kimberley reports that the Boer fighting force was apparently increased on Wednesday, Feb. 7. Next day the Boers commenced the construction of trenches to the east nearly parallel to the glacis and 4,000 yards from the Premier mine. A native reported that he accompanied some Boers who left Mafeking for Kimberley, carrying with them a 6 inch gun and a quick firing field gun. The former opened fire on Kimberley. Otherwise the situation is unchanged."

A BRUSH AT RENSBURG.

Boers Outflank British, but With Slight Gain.

RENSBURG, Feb. 12.—The Boers outflanked the British here Friday. A considerable force of the enemy was threatening the British communications between Rensburg and Sligersfontein, 12 miles away, and during a reconnoissance by some Enniskillens and 20 Australians from Slingersfontein the Boers were discovered attempting to get a gun in position to shell the British camp.

The Australians, having come into very close contact with the enemy, took cover under a hill about 9,000 yards from the camp. Thereupon the Boers took up a position with a view of preventing their retirement. Some burghers got within 200 yards of the Australians and called upon them to surrender. They replied by fixing bayonets and shouting defiance.

Sergeant Edwards and two men made a dash and, galloping under a hot fire, passed a number of hills held by the Boers, took word that the Australians were safe and confident of holding the enemy at bay and of getting out after dark, which eventually they did.

The Enniskillens prevented the enemy getting their guns in position. The Australians lost one man killed and three wounded.

The convoys have been successfully got o Slingersfontein, the British escorts having had several brushes with parties of from 20 to 30 Boers infesting the region. Lieutenant Colonel Page, with a section of artillery and 140 horse, got one large convoy through by shelling the enemy out of the road.

The Boers also outflanked us on the west and placed a gun in position at Basard's nek and fired on one of our outposts, driving off 1,000 sheep.

Saturday the Boers shelled the British camp, but with little effect.

A picket of five Victorian rifles, after holding a post for some hours Saturday, was forced to retire, the Boers getting on a hill and firing down upon them. Three were slightly wounded, one is missing, and one escaped unhurt.

Out of a patrol from Tjusfontein under Captain Hamilton composed of eight Tasmanians and eight of General French's scouts only two Tasmanians and three scouts returned. The others were captured by the Boers.

In Wednesday's brush two correspondents, Mr. Hales of the London Daily News and Mr. Lambie of the Melbourne Age, fell behind. Mr. Hales, who was slightly wounded, was captured by the Boers, and Mr. Lambie was killed. The British took two prisoners.

ROBERTS AT THE FRONT.

Received With Enthusiasm by the Troops at Modder River.

MODDER RIVER, Feb. 12.—Lord Roberts is here. Upon appearing before the troops on Friday he was enthusiastically cheered. He visited the camp of the highland brigade and complimented General Macdonald and his men on their steady conduct at Koodoosberg drift.

The highlanders returned Friday night. Before retiring they found the bodies of 12 Boers. They believe the losses of the enemy were heavier than those of the British, because it is known that in addition to the dead Boers found several had been buried.

Apparently the Boers have brought all their big guns from Mafeking to shell Kimberley.

Our naval guns shelled Magersfontein Saturday, but the Boer guns were silent. It is supposed that the enemy have withdrawn their artillery. They are blowing up the permanent way beyond Morton Siding.

The Boers still man their trenches, but their numbers are apparently reduced. The bulk of their force has gone to Kimberley or toward our flank.

Joubert After Buller.

DURBAN, Feb. 12.—It is rumored here that General Joubert is marching with a column of 6,000 men to outflank General Buller.

Quiet In Frere Camp.

FRERE CAMP, Feb. 12.—All is quiet here. The British troops are resting, and the Boers are inactive.

MOLINEUX CONVICTED.

Jury After Long Consideration Declares Him Guilty.

NEW YORK, Feb. 12.—After deliberating 7½ hours the jury returned a verdict of guilty of murder in the first degree against Roland B. Molineux for the murder of Mrs. Katharine J. Adams by poison on Dec. 28, 1898. Bartow S. Weeks, counsel for the defense, made the usual motions, and Recorder Goff adjourned court until Feb. 16, when he said he would hear the motions and sentence the defendant.

Between the time of his arrest and the end of his trial nearly a year has elapsed, during which time the defendant has been in the Tombs, while the district attorney's office and the police have scoured the country for evidence and for experts. The trial has cost about $200,000.

Havana Strikers Lose Heavily.

HAVANA, Feb. 12.—The strike of cigar makers is settled. The men asked on what conditions they could return to work, and the masters replied that they could return on the conditions existing before the strike. This reply they accepted, and tomorrow they will return. The cost of the strike to the manufacturers has been practically nothing. The strikers themselves have lost $100,000. The Heraldo tells Mr. Samuel Gompers to return to the United States, declaring that he came here with the intention of creating disturbances.

Accidental Shooting.

BALTIMORE, Feb. 12.—Frederick Clute, 17 years old, shot and instantly killed his cousin, Arthur Peppler, at the home of the latter's father on the Falls road, near this city. Young Clute had just finished cleaning and loading a revolver. The weapon dropped from his hands to a table that was between the boys and exploded. The bullet passed through the lungs of Peppler. The coroner exonerated Clute.

Gifts to Fourteen Colleges.

CHICAGO, Feb. 12.—A half million dollars, in addition to large sums he already has given to the cause of education, will be distributed by Dr. D. K. Pearsons of Chicago, beginning on March 1, among 14 colleges and educational institutions throughout the United States. The gifts will average generally $50,000 to each college.

Father Senes Dead.

JERSEY CITY, Feb. 12.—Rev. Louis D. Senez, rector of St. Mary's Roman Catholic church, in this city, is dead. He had been pastor of St. Mary's for the last 40 years, having organized the parish. He was born in Paris in 1813 and was ordained to the priesthood in 1840 by the archbishop of Paris.

A Texas Lynching.

KANSAS CITY, Feb. 12.—A Times special from Port Arthur, Tex., says: "James Sweeney (white) was lynched at 1 o'clock this morning. Sweeney was a cotton screw foreman and had killed Charles Crumbach, a fellow laborer, by jamming a bayonet through his neck."

Fire Destroys Car Sheds.

MILLTOWN, N. J., Feb. 12.—Fire supposed to have resulted from crossed wires and defective insulation destroyed the car sheds of the Brunswick Traction company here yesterday. The loss is about $40,000.

Wife Shooter Found Guilty.

BALTIMORE, Feb. 12.—The jury in the case of Harry W. Harris, on trial for wife murder, brought in a verdict of murder in the second degree. The penalty is from five to 18 years' imprisonment.

Pawnee Chief Dead.

PERRY, O. T., Feb. 12.—Bear Chief, the oldest chief of Pe-ta-how-eh-rat band of Pawnee Indians, is dead. He was one of the most intellectual men of his tribe.

Notice of Order to Limit Creditors.

SOMERSET COUNTY SURROGATE'S OFFICE.

Estate of Mary A. Cooper, deceased. Notice is hereby given, that on the eighth day of December, A. D., 1899, on the application of the undersigned, as Administrators of Mary Ann Cooper, deceased; an order was made by E. N. Spencer, Surrogate, requiring the creditors of Mary Ann Cooper, deceased, to bring in their debts, demands and claims against the said decedent, under oath or affirmation, and present the same to the subscriber within nine months from the date of said order; and in default thereof any such creditor should be forever barred of his or her action thereof against the subscribers

THOMAS NEWMAN,
EDWARD A. COOPER,
ANNIE PRATT.

12 11 9 oaw Administrators.

NOTICE OF ASSIGNMENT.

Notice is hereby given that Julius J. Stahl, of the borough of North Plainfield, State of New Jersey, hath this day made an assignment to the subscriber of his estate, for the equal benefit of his creditors, and that the said creditors must exhibit their respective claims, under oath or affirmation, to the subscriber, at his office No. 111 Somerset street, North Plainfield, N. J., within three months from the date of the assignment, or be forever barred from coming in for a dividend of the estate; and said creditors are further notified that a list of the claims against the said Julius J. Stahl, will be filed with the clerks of the court of common pleas of the County of Somerset at the expiration of said three months, when exceptions thereto may be filed by any person interested.

Dated January 20, 1900. W. G. DEBELE,

Demulcent Cream

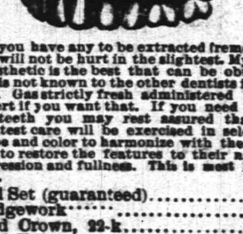
Will soften the skin.
Will prevent roughness.
Will please everyone.
"Is a Delightful Cream to use."

Leggett's Pharmacy,
Y. M. C. A. Building.

OH, MAMMA DEAR!

did you hear that Woolston & Buckle has the finest wall paper in town. With Kaleidoscopic change on lovely backgrounds?
Daisies blossom on paper of azure blue,
Roses bud and bloom on an ashen hue,
Lillies of the valley are scattered on green
And flowers of all tints are everywhere seen
On colors exquisitely blended with care
To reproduce fruits, and flowers as fair
As if aid on by Nature's own hand,
Unique designs both opaque and round,
And Japanese figures on gilded ground
And fantistic Beardsley lines are found
In a bewildering array.
Transform your bare and hideous walls
Into dreams of beauty as profuse
As covered Granada's famous halls,
From any design your fancy may choose.
The walls of the cottage are covered with ease,
It's not our custom, but the wealthy to please.
We have beautiful papers at a low price.
Although not so gorgeous, are artistic and nice.

TEETH.



If you have any to be extracted remember you will not be hurt in the slightest. My local anaesthetic is the best that can be obtained and is not known to the other dentists in this city. Gas strictly fresh administered by an expert if you want that. If you need artificial teeth you may rest assured that the greatest care will be exercised in selecting shape and color to harmonize with the face, also to restore the features to their natural expression and fullness. This is most important.

THE EARL OF DERBY.

Recently Appointed Government Censor of British News from the South African Campaign.

Lord Stanley, of Preston, the earl of Derby, the newly appointed censor of British news of the Transvaal war, is the sixteenth of his family to bear the title. The family is descended from the Stanley who figures rather prominently in "Richard III.," and whose defection from the crookback practically decided the battle of Bosworth in favor of Henry of Richmond. The present earl was born on January 15, 1841, in London, was educated at Eton college, and at the age

THE EARL OF DERBY.
(Government Censor of British News from South Africa.)

of 17 entered the Grenadier guards. He represented Lancashire constituencies continuously from July, 1865, to his elevation to the peerage in 1886. Under various titles he was lord of the admiralty, financial secretary of war and financial secretary of the treasury. In 1880 he went out of office with his party. In 1886 he was raised to the peerage under the title of Lord Stanley, and in 1888 was appointed governor general of Canada. He was succeeded in 1893 by Lord Elgin. On the death of his brother in 1893 he succeeded to the title and to estates amounting to 69,000 acres, principally in Lancashire. When the Paris embassy fell vacant in 1896 it was offered to Lord Derby, but he declined it. The countess, his wife, is the oldest daughter of the fourth earl of Clarendon. The Stanleys were important officeholders during the reigns of the Plantagenets. The present earl has been made a knight of the garter. His father was thrice prime minister of England. On account of the peculiarly telling nature of his oratory he was styled the Rupert of Debate.

TWO BICYCLE MARVELS.

One Weighs 541 Pounds, the Other Is a Lad of Seven, and Both Have Good Records.

Joe Grimes, 541 pounds, and Walter McGrath, 41 pounds, have been caught together by the photographer of Leslie's Weekly, who gained a unique and interesting snap-shot. Both Grimes and McGrath are well known to fame. The former, although so heavy, is a traveling salesman. He was once a circus freak, and while with Barnum was called upon to run the engine of one of the special trains. His business is that of an engineer. In his present business capacity he travels the world over, and in a few short years has been around

TWO BICYCLE OPPOSITES.
(Joe Grimes, 541 Pounds, and Master McGrath, Child Expert.)

the world twice. His experiences would fill a book, for he does not find traveling comfortable work. Grimes is an active wheelman and says he likes the sport, as it aids him to put on flesh. He is anxious to reach the 600-pound mark, and has been very close to that figure on several occasions. He will add ten pounds' weight in a day, and has been known to lose 20 in the same time. Little Walter McGrath is a son of Capt. McGrath, of the Century Wheelmen of Philadelphia. He is a lad of seven, with the strength of a man, for he has ridden no less than 25 centuries in the company of his father; and two years ago, when but five years of age, he rode from Philadelphia to Indianapolis on his wheel. The same summer he toured New York, rode a century on Sunday and rode back the next day. Last summer he rode to New York, then to Poughkeepsie, and thence across New England to Boston, returning after the national meet awheel. He has been frequently examined by physicians, who pronounce him a marvel of strength, and not at all injured by his hard work.

A Bad Year for Horses.

Horses are suffering everywhere this year. Pink eye is prevalent in Ireland, horse-sickness in South Africa and in America. Some disease is killing off horses in the northwest at an alarming rate. A veterinary surgeon says the disease is rare, and is caused by eating oats which have have been damaged by rust.

Varying Effects of Frost.

Frost has a variety of effects upon different products. Under the same influence eggs will burst, apples contract and potatoes turn black.

GUERRILLA TACTICS.

Filipinos Continually Harass the American Garrisons.

HEMP INDUSTRY HAMPERED THEREBY

Attempt to Ambush General Schwan, Colonel Beacom Has a Fight With Pilar's Command—Plague and Smallpox Prevail.

MANILA, Feb. 12.—Of late the insurgents in Albay province, Luzon, have adopted harassing tactics against the towns which the Americans have garrisoned. They camp in the hills and maintain a constant fire upon the American outposts. When the troops sally against them they scatter, returning when the Americans retire.

They shoot burning arrows and have burned a large part of the town of Albay. Indeed, most of the larger towns in that province are practically deserted except by the garrisons. Scarcely any of the inhabitants return to their homes. They are camping in the interior, and it is supposed armed insurgents prevent them going back. It is reported that there is much suffering among them owing to lack of food. As a result of these conditions the hemp business in that section is seriously hindered, and ships going for cargoes are compelled to take gangs of coolies to do their loading. Hemp held in the interior is quite inaccessible.

Colonel Bell will take two regiments and a battery through the provinces of North Camarines and South Camarines, going there on transports. Many insurgents retreated to that part of the island from Cavite and Batangas provinces.

Another expedition will soon start to garrison towns along the north coast of the island of Mindanao.

Guerrilla warfare continues south of Manila. Two attempts have been made to ambush the Americans. General Schwan while returning to Manila with his staff and an escort of 100 cavalry from Batangas was attacked by the insurgents. The latter were dispersed, but the Americans had five men wounded.

Lieutenant Colonel Beacom with six companies of the Forty-second infantry had a two hours' fight with General Pio del Pilar's command, which attempted to ambush the Americans along the trail through Morong province, near the lake. Here also the insurgents were dispersed, but the Americans had several wounded, among them a captain.

The plague continues. Eight cases were reported last week among the natives and Chinese. There is no excitement, however, and business and social life are undisturbed.

Smallpox is prevalent among the natives along the railroad and in the towns on the northern coast. Two American officers have died of the disease, and several soldiers have been stricken.

Another expedition is proceeding northward from Subig.

It is reported that the insurgent general Alejandro has recovered from his wound and has assembled a large force in that district.

Bloodhound Traces Safe Cracker.

CHATTANOOGA, Feb. 12.—Two detectives and the most notable bloodhound in Tennessee were called to Dayton, Tenn., 32 miles north of Chattanooga, to trace a safe cracker and postoffice robber. On Thursday night the postoffice at Dayton was burglarized and all the stamps and government articles of negotiable value stolen. The Chattanooga dog was placed on the trail and went without hesitation from the postoffice to the residence of Charles Johnson, a fireman at a flour mill. Johnson protested his innocence, but a search of his house uncovered a complete outfit of explosives and all the paraphernalia used by expert cracksmen. Johnson was lodged in the Dayton jail and will be brought to Chattanooga on Monday for examination before United States Commissioner Williams.

Sudan Uprising Not Serious.

CAIRO, Feb. 12.—Official investigation shows that only a few Egyptian officers, all of them young men, were involved in the trouble with the two Sudanese battalions whom they had advised not to obey the order to give up cartridges. It seems that the implicated officers had become excited over the Anglophobe article published by the Liwa which praised the Transvaal and advised the Egyptians to take advantage of British distractions in South Africa. None of the senior officers is in any way implicated. A court of inquiry will sit immediately to investigate the affair.

Train Robbers Foiled.

PERRY, O. T., Feb. 12.—An attempt was made to hold up a south bound passenger train on the Atchison, Topeka and Santa Fe railway a mile north of Perry. The bellcord was pulled and the train was slowing down when the engineer noticed several masked men standing near the track. He opened the throttle and the train dashed by the would be robbers, who made a futile attempt to board it. Officers are in pursuit of the men.

A Shipyard to Start Up.

BUCKSPORT, Me., Feb. 12.—Negotiations have been closed here by the ship firm of McKay & Dix of New York for the lease of the Beasley shipyard for a term of years. The firm will at once begin the building of three large vessels, one a heavy three master for the Greenland trade and two four masters. No vessels have been built here since 1891.

Serious Fire In San Salvador.

SAN FRANCISCO, Feb. 12.—Leo Levin of this city is in receipt of a cablegram from the city of San Salvador, Central America, stating that that city has been visited by a serious fire. The total loss is estimated at $1,000,000. The fire broke out in the block facing the cathedral on the Plaza de Armas and close to the government building.

Prisoner Escapes.

SING SING, Feb. 12.—James Finn, serving a five year sentence for robbery, successfully eluded his keepers in Sing Sing prison, and when the keepers unlocked his cell door they found a dummy made from straw occupying Finn's cot. They had mistaken the dummy for the prisoner all night.

A Family Asphyxiated.

CHICAGO, Feb. 12.—Martin Jordan, an engineer; his wife, Mary, and their 5-month-old boy were asphyxiated by gas in their home, at Forty-third street and Stewart avenue. The bodies of the three were found today. A leak in a gas pipe in the basement deluged the house with gas.

PLANS FOR HAWAII.

Territorial Form of Government to Be Provided.

BUSINESS AFFAIRS NOW UNSETTLED.

The Island Will Be Governed in the Same Manner as Other Territories. United States Revenue and Tariff Laws Will Prevail.

WASHINGTON, Feb. 12.—Representative W. S. Knox of Massachusetts, chairman of the house committee on territories, has completed his report upon the bill for the creation of the territorial form of government in Hawaii. The report is a very voluminous document of 108 pages, going exhaustively into all the questions involved and thoroughly covering every phase of the bill which the committee has agreed upon after many hearings and much investigation. Chairman Knox says there is imperative need of early enactment of an organic act for Hawaii, as it has become apparent that there is much doubt of the extent of the power granted to the local government of Hawaii by the provisions of the joint resolution of annexation and in many important respects there is something like an interregnum in Hawaii.

There is also grave doubt concerning the power of the Hawaiian government to grant franchises for industrial and commercial enterprises or for railways which have been projected. In many respects the business affairs of the territory are brought to a standstill.

Many Americans have bought government lands since annexation, on which they have built residences and planted crops, but their land titles are now in dispute and cannot be settled until the passage of this bill.

Meanwhile no Americans can settle in Hawaii on homesteads or land to be bought from the government, and a very desirable class of citizens is thereby shut out of the new territory. The local government is unable even to make public roads over any part of the public domain of Hawaii or carry out plans based on legislation prior to annexation for widening and straightening the streets of Honolulu.

The form of government proposed by the bill for the Hawaiian Islands is territorial in form, similar to that of a territory of the United States—a governor, a secretary (both appointed by the president), a treasurer, attorney general, commissioner of public lands, commissioner of agriculture and forestry, superintendent of public works, superintendent of public instruction, auditor and deputy auditor, surveyor and high sheriff, appointed by the governor.

The legislature provided, consisting of a senate and house of representatives, is elected by the people. The territory is to be represented by a delegate in congress. The territory is made a judicial district of the United States, with a district court, while judicial power of the territory is vested in a supreme court and in superior courts to be established by the legislature.

The American idea of universal suffrage presupposes that the body of citizens who are to exercise it in a free and independent manner have by inheritance or education such knowledge and appreciation of the responsibilities of free suffrage and of a full participation in the sovereignty of the country as to be able to maintain a republican government.

Judged by this test, he says, the Hawaiian people meet the requirements for the government proposed.

The report discusses the population of the islands with a view to establishing this proposition. Of the 109,092 inhabitants in 1896 31,019 were Hawaiians, 8,485 part Hawaiians, 3,086 Americans, 2,250 British, 1,432 Germans, 101 French, 378 Norwegians, 15,191 Portuguese, 24,407 Japanese, 21,616 Chinese and 1,055 of other nationalities.

The report says there has doubtless been some increase in the population since 1896, so that the population of the Hawaiian Islands at present may be placed at more than 130,000.

Provision is made for the administration of the revenue and tariff laws of the United States, which are the laws governing Hawaii, when the present bill shall become a law.

The annexation of the Hawaiian Islands in the future will be of great advantage to the United States commercially, as it already has been.

The exports of the United States to the Hawaiian Islands for 11 months ending with November were $4,845,920; in 1898, $5,891,755; in 1899, $10,206,157. The imports for the same periods from the Hawaiian Islands into the United States were: In 1897, $15,104,242; in 1898, $16,455,171; in 1899, $21,672,062. The report says that whether it be true as a general proposition that trade follows the flag, certainly in relation to Hawaii it may be truthfully said that trade has followed the flag.

General Bravo Fighting Indians.

AUSTIN, Feb. 12.—A dispatch from Oajaca, Mexico, says that General Bravo is making good progress in his campaign against the Maya Indians in Yucatan. Several engagements between the government troops and the Indians have taken place during the last two weeks, and the Maya losses are reported to have been heavy. The mosquito fleet of gunboats which was sent up the Belize and Hondo rivers has been of little use on account of the fact that the Indians have kept some distance from shore.

Editor Frozen to Death.

FOND DU LAC, Wis., Feb. 12.—The body of Elijah Cone, aged 72 years, one of the oldest newspaper men in the state, was found frozen in the river here yesterday. Mr. Cone had been missing for 48 hours. He was editor of the Fond du Lac Daily News and a graduate of Yale college.

Killed by Trolley Car.

BUFFALO, Feb. 12.—Preston Hurlburt, 79 years old, known as one of the largest livestock dealers in the country, was struck by a trolley car and died from injuries sustained a few moments later.

CONDENSED DISPATCHES.

Emperor William of Germany shot 269 pheasants in Wild park Saturday.

President William H. Green of Princeton Theological seminary is dead, aged 80 years.

In New York city the faster Rathbun now has 20 days' abstinence to his credit. He is still happy.

Heavy snowfalls throughout Germany have greatly interfered with railway and telegraph communication.

THROUGH A GLASS.
IVORY SOAP is a skin soap. On one square inch of your hand there are 2,800 pores. On the whole body you have 2,381,284 of these little cavities to look after. Every one of these openings must be kept clear, or the impurities of the body can not pass out. Now, to cleanse the pores, you need a fine, pure soap. Scientists who speak not from opinion, but from scientific analyses, urge the use of Ivory Soap. 99 44/100 per cent. pure.

WORK BEFORE CONGRESS.

Porto Rico Tariff Bill In the House. Currency Bill In the Senate.

WASHINGTON, Feb. 12.—The time of the house will be completely occupied this week. Today, under the rules, was devoted to District of Columbia business. Tomorrow the legislative, executive and judicial appropriation bill, which was reported to the house today, will be taken up. It is expected to consume Tuesday and Wednesday, and on Thursday the house will enter upon a week's discussion of the Porto Rican tariff bill. This measure as the entering wedge in the matter of legislation for our insular possessions naturally attracts much attention, and there has already developed great pressure for time, especially upon the Democratic side, so that it is probable that night sessions will be held toward the close of the debate next week.

The first four days of the week will be given up to the currency bill, which goes to a vote on Thursday, in the senate, and after that measure is disposed of there will be a contest for precedence in the interest of several measures. These include the bills for providing forms of government for Hawaii and Porto Rico, the Nicaragua canal bill and the resolution for the seating of Senator Quay upon the appointment of the governor of Pennsylvania. Which of these will take precedence remains to be determined. Just now there is some sharp sparring for first place.

THE RED FLAG WAVED.

A Socialist Funeral Causes a Noisy Demonstration in Paris.

PARIS, Feb. 12.—The funeral of the Russian nihilist Peter Lavrosi yesterday was the occasion of a big socialist demonstration. Delegates representing revolutionary associations in all parts of Europe attended and marched in long, tumultuous procession from his late residence on the Rue St. Jacques to the cemetery of Mont Parnasse.

The advance of the demonstration was marked by unceasing and increasing shouts of "Vive la commune!" and "Vive l'anarchie!" and the singing of "La Carmagnole" and other revolutionary songs.

The procession was headed by M. Rene Viviani, Radical Socialist, one of the deputies for the department of the Seine, and half a dozen other Socialist members of the chamber.

When the cemetery was reached, a number of red flags were produced and waved. The police tried to seize those, and several free fights ensued. The uproar increased until M. Viviani induced the police to return the flags on condition that they should not be again unfurled.

Then followed a score of addresses at the graveside by French deputies, Russian professors and others, several students being among the speakers. Ultimately the assembly dispersed without disorder.

Grew Rich, but Died.

PATERSON, N. J., Feb. 12.—George Beesley, who boasted that he had worked half a century in Paterson and was the richest workingman in that city, is dead at the age of 84. Thirty years ago he was a blacksmith in the old Grant Locomotive works and there laid the foundation of his $200,000 fortune by lending money to his comrades. He was eccentric. He wore poor clothing, lived modestly and in spare moments whittled out pieces of wood to be used in place of matches. His maxim in life was "Save half you make."

Antitrusters Meet.

CHICAGO, Feb. 12.—A number of notable delegates have arrived to participate in the three days' conference under the auspices of the National Antitrust league, which began at 10 a. m. today in Central Music hall. Among the delegates were George Fred Williams of Massachusetts, Congressman William Sulzer of New York, Judge John Clegg of Louisiana, Andrew E. Lee of South Dakota, John S. Crosby of New York, Congressman Lentz of Ohio and Congressman Shafroth of Colorado.

Nathaniel A. Boynton Dead.

NEW YORK, Feb. 12.—Nathaniel A. Boynton, president of the Boynton Furnace company, is dead, aged 77 years. His death was due to a complication of diseases. Mr. Boynton was born in Mason, N. H., in 1823. He went to Clinton, Mass., and from there to Boston, engaging in the invention and sale of apparatus for heating. In the forties he came to New York. Fifteen or 16 years ago the Boynton Furnace company was organized, with him as president, an office which he held until his death.

TOO MUCH WHISKY.

Returned Chaplain Says Soldiers In the Philippines Are Soaks.

WASHINGTON, Feb. 12.—Captain Frank M. Wells, chaplain of the First regiment of volunteers, who has just returned from the Philippine Islands, spoke in Garfield Memorial church yesterday under the auspices of the W. C. T. U. on the liquor question in the Philippine Islands. He declared that since the Americans took Manila 400 places where liquor is sold had sprung up in Manila, while before the Americans came to the islands Manila had only three saloons.

The Filipinos, he asserted, spoke well of the American soldiers save that they said the Americans were "bad people" when they had drunk too much liquor. Whisky, he said, was sold in the barracks at Iloilo not over 15 feet from his headquarters until he put an end to it by complaining to the colonel and provost marshal.

The transport Indiana, on which he had returned to the United States, he characterized as a "whisky transport," and he said that he had unsuccessfully attempted to have the sale of liquors on transports stopped while in the Philippines.

Governor Tanner Wins.

SPRINGFIELD, Ills., Feb. 12.—After one of the hardest fought battles at the primaries that have ever taken place in Sangamon county Governor Tanner scored a victory over Senator Cullom in the latter's own home. It was 1 o'clock Sunday morning before the count was completed in this city, the bitter fight between the two factions having brought out the full party vote of the Republicans. The result is that of the convention which meets next Monday and which has 183 delegates Governor Tanner has 92, or a bare majority.

To Plan the Campaign.

WASHINGTON, Feb. 12.—The Democratic congressional campaign committee held a brief meeting, at which the chairman of the meeting, former Representative Osborne of Wyoming, was empowered to appoint a committee of seven to perfect a plan of reorganization and to report at a meeting to be held two weeks hence. Former Representative Kerr of Pennsylvania acted as secretary of the meeting. Mr. Osborne will announce the members of the committee Monday.

Floods In Georgia.

COLUMBUS, Ga., Feb. 12.—The Chattahoochee river is higher than it has been before in 25 years. The river showed a rise of 26 feet at 9 o'clock last night, and the gauge showed it was still rising at the rate of 18 inches per hour. The two wagon bridges in this city are considered in danger. It is raining hard here, and advices from up the river show that it has rained all day as far up as Atlanta and even beyond. Fears are also entertained for the safety of the steamers down the river.

Fire at the Navy Yard.

NEW YORK, Feb. 12.—Building No. 7 in the Brooklyn navy yard, occupied by the electrical equipment department, was destroyed by fire yesterday. The loss is $100,000, equally divided between the building and machinery. A large quantity of valuable records was saved, which Admiral Philip said would have involved a task of about ten years to replace. The fire is believed to have been caused by a defective electric light wire and started about 2 a. m.

United States Must Control.

NEW YORK, Feb. 12.—Governor Roosevelt has issued this statement: "I most earnestly hope that the pending treaty concerning the isthmian canal will not be ratified unless amended so as to provide that the canal when built shall be wholly under the control of the United States alike in peace and war. This seems to me vital no less from the standpoint of our sea power than from the standpoint of the Monroe doctrine."

Biscuit Plant Burned.

WORCESTER, Mass., Feb. 12.—A fire in the Gilman block, on Main street, which is occupied exclusively by the National Biscuit company, a branch of the biscuit trust, completely gutted the building. The damage is estimated at $60,000. The stock of the biscuit company, the value of which is estimated at $50,000 by Charles Hubbell, the local manager, is completely ruined.

Weather Probabilities.

Fresh easterly winds; rain or snow.

Publishing Tax Ratables.

The Trenton correspondent of the New York Herald says that there is considerable difference of opinion developing among Republican Senators in regard to Senator Reed's bill providing for the publication in the newspapers of all realty tax assessments. Senator Reed believes that such a law would result in a very large increase of the assessments, and, consequently, of taxes for county purposes and for the public schools. It would also, he thinks, equalize assessments, bringing some that are unduly low up to a fair mark, and reducing those which are found to be above the fair average. It is pointed out that similar laws in several New England States resulted in some cases in doubling the taxes from realty.

It is objected, on the other hand, by Senator Stokes and some others that the proposed publication of assessments would be inquisitorial and offensive, and would be very unpopular with a large majority of the owners of real estate. These assessments are already matters of public record, they say, and are open to the inspection of all who want to see them. It is further pointed out that a certain privacy ought to receive proper consideration.

The objections recounted above would seem hardly strong enough to demerit Senator Reed's bill. The proposed law strikes the tax dodger pretty hard, but that is just what it is designed for. The law would only be inquisitorial and offensive to the class that are shirking their just share of public taxes, and the feelings of this class of citizens should be considered but very little in aiming to provide a statute that will make taxation more honest and equitable.

It is within the political possibilities that Plainfield will have entertained not only the man who is reasonably sure of being the Democratic candidate in 1900, but as well his running mate in the approaching campaign. Congressman Sulzer, who was here with Mr. Bryan last Wednesday, is being prominently mentioned in connection with the second place on the Democratic ticket, and it would not be a great surprise if he should be nominated as Vice-President. The fact that Congressman Sulzer was born in the city of Elizabeth and lived till he was well along in his teens on a farm between Roselle and Cranford, makes this political prospect one of considerable interest to Union county.

It was just a year ago today that Plainfield was temporarily snow bound. The storm began the night before and the snow fell rapidly only to be heaped into great drifts by the high winds. Railroads and trolleys were blocked and the dawning of February 12th, Lincoln's Birthday, found Plainfield and the surrounding country taking an enforced vacation. There had been some talk as to whether the day would be generally observed as a holiday or not but the elements took a hand and effectually settled the question.

"Freeholder," of the New York Press, advances the opinion that "biennial sessions of the Legislature would save $100,000 every other year in actual State expenses, and double that amount in election costs, besides assuring a better quality of laws when there really is some need of them."

One of the most pernicious measures with which the New York State Legislature has to deal with this session is the bill proposing to tax the deposits in saving banks. It deserves and probably will be defeated.

Whether or not winter will linger in the lap of spring, it is an assured fact the latter is doing its very best to take charge of the weather conditions a long time in advance of the calendar date.

Buller seems to be leading a forlorn hope.

—Use Press want ads.

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

There is a matter that should engage the immediate attention of the borough Council, and that is the present grade of the sidewalks along Somerset street. In some places the walks are so far below the street grade that every time it rains they are flooded and walking is not only difficult, but extremely inconvenient. The street has from time to time been repaired and macadamized, and as a result the road is considerably higher than the walk. Between Jackson and Fairview avenues the walks are probably the worst, and the Council should take steps to remedy this difficulty as soon as possible.

* * * * * *

Among the newspaper correspondents who accompanied Mr. Bryan on his visit to this city Wednesday afternoon was William Hunt, of the Philadelphia North American. Mr. Hunt was the representative of the Associated Press who accompanied Mr. Bryan on his tour through the country during the campaign of 1896. Naturally he learned to know the great Democrat very well and saw him under many different circumstances. He says that Mr. Bryan was always very courteous to all the newspaper men and treated them well. On long journeys, he would often sit with them, joking and relating stories. He always aided them all he could and became very popular with the little coterie of correspondents who followed his fortunes during that Presidental campaign.

* * * * * *

The visit of Col. William J. Bryan to this city was a great event for the small boys of the city. The firing of the Democratic Association cannon, the martial music and the great crowd were all delightful features to the youthful generation. A great concourse of the small boys accompanied Col. Bryan on his triumphal march from the North Avenue station to Mr. Martine's home, "Cedar Brook." Having seen the hero of the day safe in the house, the small boys immediately became wild with curiousity to see what was happening within. Roundsman Flynn and Patrolman Mattox were on guard and kept the younsters away from the front and side windows. A party of them, more enterprising than the rest, made a detour through the fields and reached the rear of the old mansion. There they had a full view of the "Boy Orator of the Platte," partaking of the lunch in company with the other guests. They crept close to the window until one, bolder than the rest, ventured to tap on the window pane. Col. Bryan looked out and smiled upon the youthful adventures.

"Three cheers for Bryan" shouted one small boy and the cheers were given with a will while Mr. Bryan smiled his thanks for the compliment. Then a policeman appeared and away scampered the young folk.

"Handsomest Train in the World."

The Pullman Palace Car Company is now building for the Lehigh Valley Railroad, six new passenger coaches which in interior and exterior finish and arrangement, will eclipse anything heretofore built in this, or any other country, in the way of passenger cars used on regular trains for the accommodation of the public. These new cars will be run in the Black Diamond Express trains between New York and Buffalo, and will replace the coaches now used in these trains, themselves, models of comfort and luxury, but considered by the company to be not good enough for the Black Diamond Express, and which it has been considered necessary to replace, with the end in view of keeping ahead of all competitors in affording the public accommodations which cannot fail to be appreciated to an extent that will occasion increased patronage, and consequent increased revenue.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

—An important meeting of Queen City Lodge, No. 226, I. O. O. F., will be held this evening.

GRAIN-O! GRAIN-O!

Remember that name when you want a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it. Grain-O is made of pure grain, it aids digestion and strengthens the nerves. It is not a stimulant but a health builder and the children as well as the adults can drink it with great benefit. Costs about ¼ as much as coffee. 15c. and 25c. per package. Ask your grocer for Grain-O.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,
122 East Front Street.

FURNITURE FACTS.

OUR BASEMENT is largely stocked with New Furniture fresh from the factories. New goods, many of which were purchased before the rise in prices, are arriving daily and a fine display they make. The removal of our Carpet Department has given us a large increase of floor space and enables us to make a much larger showing of Furniture than heretofore. Unusual facilities for handling large quantities of goods, enables us to buy direct from Manufacturers and enables us to sell goods on small margins. We cordially invite all who are interested in Furniture to visit our Basement and look over our lines.

NEWS OF THE SUBURBS.

WHAT IS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Some of the Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence to The Press.)

Dunellen, Feb. 12—County Superintendent of Schools Willis has written a letter to President Hamilton, of the School Board, complimenting the principal of the schools for the excellent condition in which he found the schools on his recent visit. He also made some suggestions which the Board decided to act upon.

The scholars have petitioned the Board of Education to purchase books with the money on hand for that purpose. The superintendent and teachers are to make a selection of the proper books and the Board will then buy them.

The examinations recently held at the public schools show that the standing of some of the pupils is not up to the required standard. An additional examination will be made the latter part of the month.

Four men got into a row at the Park Hotel Saturday about noon and smashed one of the windows in the barroom. When threatened with arrest they escaped to Plainfield.

The condition of William Kuhns, who has been at a Philadelphia hospital for treatment, is considered quite serious. His family expects to bring him home in a few days.

Deputy Tax Collector Pierce, of New Market, has collected back taxes for the years, 1895, 1896, 1897 and 1898 to the amount of $854.48.

Mrs. T. J. Ronayne had as her guests last week Mrs. A. Minzer and Miss Nellie Murphy, of Rahway.

Mrs. Silas Neilor has been laid up for a few days by injuries sustained by falling on the ice last week.

The funeral of Rev. M. H. Sisty took place this morning from the Methodist church at Langhorne, Pa.

William Brokaw, who has been working in Philadelphia for several months, has returned home.

Mrs. P. C. Staats has been entertaining her daughter, Mrs. Thomas G Robinson, of New York.

The postoffice was closed today between the hours of 10 and 4 o'clock, it being a legal holiday.

Miss Edith Wilson has returned from a visit with friends in New York and Trenton.

The Choral Union will meet this evening at the Lincoln School house.

There are now 225 scholars enrolled at the Dunellen public schools.

Mrs. C. C. VanDyke, of Lincoln, is ill with the grip.

'PLAINS AND FANWOOD.

(Special Correspondence to The Press.)

Scotch Plains, Feb. 12.—Wm. Corey was called to Schadack Landing, N. Y., this morning by a sad message announcing the serious illness of his daughter, Mrs. Edward Requa. Mrs. Requa has been a sufferer from consumption for a long while and as the end was drawing near she expressed a desire to see her father once more. Mr. Corey started at 3:45 this morning and hopes to be able to reach the bedside of his loved one before the dread disease completes its work.

It is reported that a cocking main was held Saturday evening near Graceland, between local and Madison birds. The affair was kept secret and witnessed by only a faithful few, it is said.

Lincoln's Birthday has been observed very quietly in town. The school enjoyed a holiday, but the stores were open and the majority of citizens worked.

The sacrament of the Lord's Supper was observed at the close of the morning service in the Baptist church yesterday.

The pleasant weather of yesterday had the effect of bringing a large number of trolleyites to town during the day.

Mrs. Frederick Hoppell led the Young People's meeting in the Baptist church last evening.

Miss Bertha Crooker, of Plainfield, has been visiting relatives in town.

SOUTH PLAINFIELD.

(Special Correspondence to The Press.)

South Plainfield, Feb. 12.—Work at the coal storage is slacking up since the thaw as the coal is not so hard to dump now.

Quite a number enjoyed skating Saturday, although the ice was not the best.

McDonough Bros., have commenced taking ice out of houses, as the ice on the pond is not fit for use.

—Mrs. L. J. Denton, the West Front street florist, can supply fresh-cut violets on three hours notice.

—The Young Ladies' Missionary Society of the First Baptist church will hold a regular meeting next Friday afternoon in the church at 3 o'clock.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders

—Queen City Lodge, I. O. O. F., will hold its regular meeting this evening.

—This open weather will be what we want for shad. We will have the finest this week. Rogers.

—The Ladies' Auxiliary of the Plainfield Catholic Club will hold a dance in the clubhouse in the near future.

—The meeting of the University Centre will be held at the Plainfield High School building tomorrow evening.

—John Powers, the Somerset street druggist, is always up-to date. He has just placed an electric cigar lighter in his store.

—Next Friday evening the Mayor and Borough Council will hold its annual meeting when reports will be presented.

—The State convention of letter-carriers is being held at Morristown today. Plainfield is represented by a delegation.

—Fred H. Martin, of West Front street, led the W. C. T. U. meeting yesterday and gave a highly interesting talk.

—Wednesday evening the officers of Crescent Division, No. 13, U. R. K. of P., will be installed by F. B. Arndt, of Phillipsburg.

—Next Tuesday evening the Common Council will hold its regular February meeting, when business of importance will be considered.

—The Ladies' Aid Society of Hope chapel have arranged for a Martha Washington supper, to be held in the chapel Friday evening, Feb. 23d.

—The Gesang and Turn Verein are perfecting arrangements for their annual masquerade ball, which will take place the last of this month.

—W. R. Brokaw, the music dealer, opened his new store on Park avenue last Saturday and he has been highly complimented for his attractive display.

—"Scenes from Uncle Tom's Cabin" will be presented at Bethel chapel next Thursday evening. The entertainment will be for the benefit of the chapel.

—The I. D. K. Social Club, of Rahway, will give its midwinter sociable tonight at Turn Hall. Guests from Newark, Plainfield and Elizabeth are expected.

—The frame of the new postoffice building for Rahway was raised Saturday, and in another week it is expected to have the building inclosed if the weather remains favorable.

—The Plainfield Street Railway Company has had some crushed stone spread along their tracks on West Front street in places where it is very muddy and the street is depressed.

—The entertainment and sale held at the German Reformed church last week Wednesday and Thursday was very successful and a nice sum was realized for the benefit of the church.

—The Woman's Foreign Missionary Society of the Crescent Avenue church will meet tomorrow afternoon in the chapel and listen to an address by Miss Morse, a returned missionary from India.

—The Plainfield Street Railway Company has had an automatic signal erected at the corner of East Front street and Watchung avenue so that there will be no mix up in the running of cars.

—Seven hens and a rooster are now missing from the chicken yard of Jacob Tingley, of West Fourth street. Some unbidden guests visited the establishment last Thursday night and lost no time in appropriating a portion of the feathered inhabitants. There is no clue to the thief.

—Superintendent Carl Berringer, of the New Jersey Dye and Chemica Works in Rahway, sailed Saturday for Germany on business. Mr. Berringer has been offered the management of a big plant in that country, and he goes to look over the field before he decides what action he will take in the matter.

Nome City, Alaska,

Is twenty-four hundred and fifteen miles from Seattle, via ocean, thirty-three hundred and eighteen miles overland. Is said to be the richest gold field discovered up to this time. A Special Sale of 1,000 Pairs of Men's Trousers.

We purchased 1,000 pairs of trousers, all there was left over by one of the best pants manufacturers on Broadway, N. Y. Owing to the lateness of the season we purchased them at 40 per cent less than the original wholesale price, that gives a chance to offer you the biggest bargains in trousers we have ever offered. They are all made in up-to-date patterns, cut in shape, the following are the prices we will quote for this Saturday.

150 pairs of trousers, that are strictly all-wool Scotch cheviots and cassimeres, made with two hip pockets, continuous waistbands, good and heavy, regular price $2.50, for this $1.25.

150 pairs of men's trousers, very handsomely made in cassimeres, cheviots, as well as in wool faced worsteds, in stripes, checks and plaids all new patterns, nice clean stock, the actual price of them is from $2.75 to $3.25, to go at $1.65.

100 pairs of young men's trousers consisting of cheviots and cassimeres, checks and stripes in all wool materials, regular price $2.00 your choice $1.15.

100 pairs of the finest Washington Mills worsteds as well as extra fine cassimeres, they are as good values as ever offered, the styles and patterns are the very latest, strictly all wool, worth from $5.00 to $6.00, to go at this sale at $2.30 and $2.75.

Good working pants at 70c.

Nice business trousers at 95c.

These are only a few of our immense stock of trousers that must be sold before our new spring stock arrives.

This chance just came in time for a great many of our customers that need a pair of trousers to wear out with their suits that they have bought earlier in the season.

TROOPS DISPERSING.

Governor Taylor Will Not Sign the Agreement—Courts Will Decide.

FRANKFORT, Ky., Feb. 12.—All day Sunday the troops poured out of Frankfort on special trains, and only the soldiers from Covington, Newport, Lexington and Morgantown are camped in the capitol square. The leaving of the troops was the only feature in the political situation in Frankfort yesterday.

Governor Taylor remained quietly in the executive mansion and did not visit his office, giving himself a day of rest, of which he stood greatly in need. Adjutant General Collier said that only a few companies of infantry would be kept on duty here for a short time, to do police work around the capitol square and guard the public buildings. They would, he said, interfere in no way with the actions of the members of the legislature. Access to the legislative halls would be as free and unrestrained as it was before. Governor Taylor issued the proclamation declaring Frankfort in a state of insurrection.

The members of the Republican legislature arrived from London at 10 o'clock this morning.

No intimation has been received here as to whether or not the Democratic members of the legislature would adjourn their session at Louisville and come to Frankfort to take part in the general session. It is believed here, however, that they will do so, probably by the latter part of the week.

Taylor said: "After mature deliberation and conference with my friends from every section of the state, I have concluded to allow this controversy to take its due course, vigorously contesting every inch of ground and upholding the rights of the people to the uttermost. If those rights be destroyed, the responsibility for that destruction rests with those who sit in judgment.

"It is due to say that the eminent gentlemen, my friends who secured the propositions resulting in the Louisville conference, acted in perfect good faith, from the highest motives of patriotism and did the very best they could."

The decision not to sign the Louisville agreement was reached by Governor Taylor after a conference with fully 150 prominent Republicans from all parts of the state. The meeting was secret in the extreme, all those who came from the hall before Governor Taylor himself refusing to say anything concerning the progress of the deliberations.

Saturday the following proclamation was issued, reconvening the legislature at Frankfort, Ky.:

"The excitement recently prevailing in this city having to some extent subsided and there appearing now to be no necessity for the general assembly to remain in session in London, I do hereby, by this proclamation, reconvene same in Frankfort, Ky., Feb. 12, 1900, at 12 o'clock noon."

Fire In Steel Works.

HARRISON, N. J., Feb. 12.—Fire that started in the hammer forging department of the Atha Illingworth Steel works, situated on the Passaic river at this place, did damage to the extent of about $40,000. One of the buildings and considerable valuable machinery were destroyed.

German Multimillionaire In Jail.

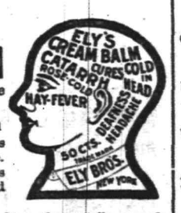
BERLIN, Feb. 12.—The courts decided to refuse Herr Sternberg's offer of bail to the amount of 1,000,000 marks, and the eighteenfold millionaire, now charged with financial irregularities, went to jail.

—Press want ads bring results.

—Plainfield Council, No. 711, Royal Arcanum, will hold its regular meeting this evening and a full attendance of the members is desired.

—The members of the Marconnier Union chapel will hold an oyster supper at the residence of Manley Giles, Tuesday evening, February 27th. If stormy the affair will be held on the following fair evening.

Nasal CATARRH



In all its stages there should be cleanliness.

Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents by mail.

Prompt attention given to all orders left at Blair's Hat Store, 128 Park avenue.

Lokal-Nachrichten aus der alten Heimath.

Provinz Posen.

Posen. Gutem Vernehmen nach wird hier mit Hilfe der Centralstelle zur Förderung industrieller Unternehmungen in den Ostprovinzen eine große Maschinen- oder Lokomotivfabrik errichtet.

Lissa. Hier ist der Propst Dulinski aus Rawitsch wegen Beleidigung des Kommandeurs des 1. Niederschlesischen Infanterie-Regiments Nr. 50 zu 200 Mark Geldstrafe verurtheilt worden.

Ostrowo. Der Erste Staatsanwalt Buchholz ist an Blutvergiftung gestorben.

Provinz Ostpreußen.

Insterburg. Hier hat das verarmte Kaufmann Eckart'sche Ehepaar Selbstmord begangen.

Kranz. Neun von hier ausgefahrene Lachsboote, mit 45 Mann Besatzung wurden von Treibeis eingeschlossen. Vier Boote konnten sich nach Neukuhren retten. Die anderen mit 25 Insassen blieben in einer Entfernung von einer bis zwei Meilen vom Strande im Eise stecken. Der von dem Regierungspräsidenten aus Pillau entsandte Lootsendampfer „Pilot" erreichte dieselben am nächsten Tage und brachte sie glücklich hierher zurück.

Provinz Westpreußen.

Neuteich. Hier wurden die Frau eines Postboten und ihre zwei Kinder im Alter von zwei und vier Jahren in ihrer Wohnung todt aufgefunden. Es liegt Vergiftung durch Kohlendunst in Folge von Fahrlässigkeit vor.

Thorn. Der neue Erste Bürgermeister Dr. Kersten wurde dieser Tage in sein Amt eingeführt.

Rheinprovinz.

Köln. Das Portal des Tunnels zwischen Ehrang und Cordel auf der Strecke Trier-Köln ist eingestürzt. Der Tunnel ist theilweise zerstört.

Barmen. Der Pferdemetzger August Peitschmann machte auf seine Stieftochter einen Mordanfall und verwundete sie durch einen Schuß in den Rücken schwer. Der Grund ist darin zu suchen, daß das Mädchen einen Gesellen Peitschmanns heirathen und damit ein Geschäft gründen wollte. Peitschmann befürchtete, dadurch Kunden zu verlieren.

Elberfeld. Eine willkommene Spende ist dem städtischen Orchester zu Theil geworden. Nach Fertigstellung der Stadthalle werden an dieses Orchester erhöhte Anforderungen gestellt werden. Damit hierzu die erforderlichen Noten beschafft werden können, hat ein ungenannter Kunstfreund dem Orchester einen Geldbetrag von 1200 Mark überwiesen.

Langenberg. Nach 36jähriger Amtsthätigkeit trat Bürgermeister Frowein in den Ruhestand.

Ruhrort. In Folge hohen Wasserstandes ist ein Theil der am Kaiserhafen entlang führenden Eisenbahn, beziehungsweise die Böschung des Bahndammes unterwaschen worden und in den Kaiserhafen abgerutscht.

Trier. Eine unter dem Vorsitz des Oberpräsidenten Nasse tagende Versammlung beschloß die Errichtung einer Lungenheilstätte für die neun nördlichen Kreise im Regierungsbezirk Trier im Grünewald bei Wittlich.

Provinz Sachsen.

Magdeburg. Die Stadtverordneten beschlossen, das Theaterorchester mit 20,000 bis 30,000 Mark Zuschuß auf die städtische Verwaltung zu übernehmen.

Halle. Das hiesige Schwurgericht verurtheilte den Nachtwächter Weiske aus Brinnis wegen Körperverletzung mit tödtlichem Erfolge zu vier Jahren Zuchthaus und Ehrverlust auf die gleiche Dauer.

Provinz Schlesien.

Breslau. Kommerzienrath Adolf Werther, Inhaber der hiesigen Firma Moritz Werther u. Sohn, ein hervorragender Förderer der schlesischen Oelindustrie, ist gestorben.

Mittelsteine. Auf dem hiesigen Bahnhof wurde der Stationsvorsteher Bartsch von einem Zuge überfahren und getödtet.

Rybnik. Dem hiesigen israelitischen Waisenhause hat Kommerzienrath Eduard Arnhold zu Berlin 5000 Mark zugewendet.

Provinz Schleswig-Holstein.

Kiel. Die neuen geschützten Kreuzer „Freya" und „Viktoria Luise" verbleiben in den heimischen Gewässern. Die Kreuzer übernehmen in diesem Jahre zum ersten Male den Aufklärungsdienst bei dem Flottenmanöver.— Bei der Kollision eines Rollwagens mit einem Motorwagen der elektrischen Straßenbahn wurden einige Passagiere verletzt. Die Bauarbeiter Schelter und Schmittler erhielten schwere Verletzungen, mehrere andere Fahrgäste wurden leicht verletzt.

Flensburg. Unter dem Verdachte, Unterschlagungen begangen zu haben, deren Höhe auf 15,000 Mark geschätzt wird, ist der Kassirer des Flensburger Gaswerkes Frederiksen verhaftet worden. Das Gaswerk ist Eigenthum der dänischen Gaskompagnie.

THE PACE THAT KILLS.

Severe Duties Which Tax the Strength of Society Women.

The average woman of society is not credited with any great amount of exhaustive labor. But the fact remains nevertheless that between exacting social duties and slavery to social etiquette the society day is a day of tiresome routine more laborious than that of the housework maid whose numerous duties are the ever welcome subject for the labor reform agitator.

Society life in New York is about as severe as that of any large city, and its effects upon the habits and constitution of one of its devotees is very much the same the world over.

Of the many victims who succumb to the exacting demands of a social career not the one-half is known by those outside the charmed circle of the demands made upon her inherent frailty.

It is generally supposed that the life of the average society woman consists in an enviable existence of ease and

BACK FROM HER DRIVE.

luxury,—eating, sleeping, driving, shopping and posing as a beautiful queen before whose shrine the clubman is prostrated with homage. No more mistaken notion could be so universally accepted.

The winter town season begins with the new year and ends with Ash Wednesday. Night after night fashion leaders go out to dinner, never dining at home excepting when it is their turn to entertain. The dinners are always elaborate, with many courses and much wine, of which the ladies partake, though some confine themselves to the "waters" as the only means of retarding the day of overtaxed, nervously exhausted systems. Exhaustive as a series of dinners is in itself, there are other arduous duties which occupy every minute of the day and which the social toiler must rigorously fulfill to enable her to hold her place in the line that leads to social eminence.

They make a business of social life and are as punctilious in following the numberless demands upon their time as a business man is in conforming to the exactions of his work. A day taken from the life of a leader in New York society will serve as a good illustration of the daily fatiguing rounds of the "hardest working woman" in the world.

Madam rises at 9 o'clock. To oversleep would upset the whole programme of the day. After a warm bath she passes 10 or 15 minutes in physical culture exercise and massage. While the maid brushes her hair she glances over the morning paper, certain paragraphs being marked that would in likelihood interest her. During these few minutes she stores her mind with the material for her repartee.

At 10 o'clock she has her breakfast in her apartments. Then she sees her housekeeper and, if it is her night to entertain, the caterer and decorator. She attends to every detail of her household management.

At 11 o'clock she receives her mail. The letters have already been assorted. All personal correspondence of a social nature she answers. The others she reads and then dictates her replies. The rest is attended to by her secretary.

At 1 o'clock she dresses for her drive or walk if the day is suitable and time permits. Dressmakers, shopping, charity calls, 4 o'clock teas and perhaps a spin through the park occupy the next four hours, for at 5 o'clock madam is once more in her room and indulging in a much needed short nap. On the stroke of 6 her maid awakens her, and then begins the real work of the day. Dressing for dinner is a task that requires a great deal of attention. The weather, the hostess and the entertainment after dinner, all must be duly considered. Thought and care must be exercised in the weight and color of the gown, which of course necessitates many attendant details.

At 7:15 the society woman drives to the home of her hostess. Dinner lasts until 9:30; then to their boxes at the opera or theater, as the case may be, or, as it rarely happens, the early evening is passed with home entertainments. At 12 o'clock the cotillon, which lasts into the wee hours of the morn; then home to repair the ravages of 18 hours' exertion by a few hours of rest.

Such is the inexorable taskmaster "society." Tired bodies and weary brains often lag, but the task must be accomplished regardless of fleeing beauty and departing health.

ETHEL DE VERE.

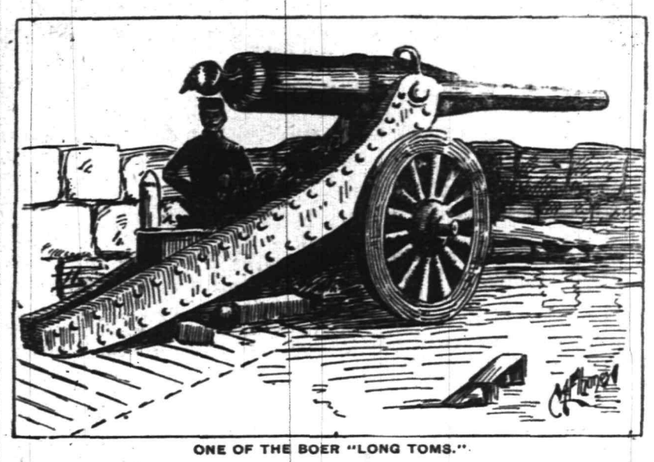
NOVELTIES IN WARFARE

SOME OF THE RECENT INTENTIONS WHICH BRITONS AND BOERS ARE USING IN SOUTH AFRICA.

Briton and Boer, in their struggle for supremacy in South Africa, are bringing into use many of the untried military inventions of the last quarter of a century.

While the war between Japan and China, and later that between this country and Spain, gave an opportunity for testing naval inventions, yet the conflicts in both cases were such that but little opportunity was given for a fair test of the recent inventions for use in warfare on land.

In the war between Japan and China the former was but evolving from a nation of hermits, steeped in the legends of the past and to whom modern methods were an untried experiment, while China was even much further behind than was her antagonist.



ONE OF THE BOER "LONG TOMS."

The United States has never been recognized as among the most progressive nations in our preparations for war, and of the few modern inventions that we had experimented with on land but two were given any test at all. One was the dynamite gun which did effective work against the Spanish army during the siege of Santiago, the other was the ill-fated war balloon. Spain's armament, both military and naval, was defective in many ways and could not offer a fair test of the modern inventions.

Many novelties, untried in actual warfare, are proving valuable to both armies in South Africa to-day. These include both guns and other contrivances intended to aid in the reduction of opposing forces.

In the matter of both field and siege artillery, England, with her boasted armament, is finding herself but a poor match against the European-made armament of the Boers. The Boer "Long Toms," from which Ladysmith has suffered so heavily, have proven superior to anything which England could bring against them, with the possible exception of the naval guns with which Gen. White was reenforced before he was entirely shut in. These guns fire a 35.27 pound shell, with a muzzle velocity of 1,886 foot seconds, and are capable of carrying over 11,000 yards. These guns weigh 1,156 pounds, and the carriages on which they are mounted weigh 1,417 pounds, making a total of more than two and one-half tons which the Boers must transport over the hills and questionable roads of South Africa to bring them into position. Just how they have accomplished this is as yet one of the mysteries known only to the Boers themselves.

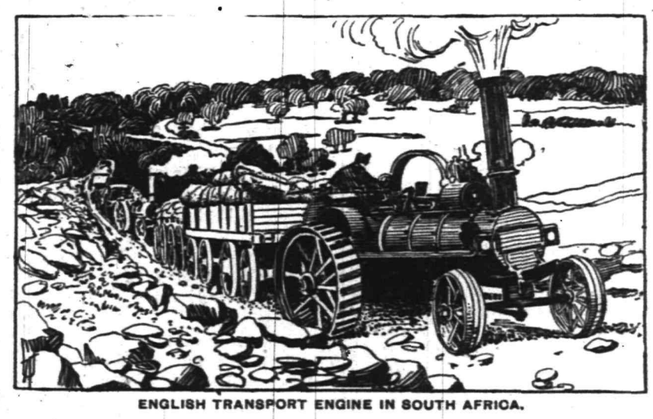
The British naval guns which Gen. White has used against these Boer "Long Toms" are of a trifle smaller caliber, being but 4.7, but they impart a muzzle velocity to a projectile of 2,600 feet per second, and carry a projectile weighing 45 pounds. Without these guns the Boer artillery would have easily dominated all the British guns in Ladysmith.

The most remarkable piece of ordnance in use in South Africa to-day is, however, the Creusot gun in use by the Boers. This gun takes its name from the town in France in which it is manufactured, and is the invention of the French ordnance engineer, M. Canet. The Boers have been making extensive purchases of these guns for the past four years, and it is impossible to even estimate with any degree of accuracy the number they have.

The gun is a marvel in its simplicity of construction, its rapidity of fire, and its range. The principal feature of its construction is the method adopted for checking the recoil, which consists of two simple spiral springs located in the gun carriage, which not only check the recoil, but return the piece to its position after firing. In caliber it is a 2.95 piece, with a muzzle velocity of 1,968 feet per second. In practice the gun has been fired as rapidly as 20 times per minute, but this rate must be reduced at least one-half to secure effectiveness in actual battle. In weight it is one of the lightest guns of its size and force manufactured anywhere in the world, and in this particular is far superior to any of the English ordnance of the same class. Its weight accounts for the ease and rapidity with which the Boers have transported their artillery from one position to another. The extreme range of these Boer guns is 7,400 yards, while that of the best English guns of similar class in use in South Africa is but little over 4,500 yards, and in artillery battles range counts for much.

Among the novelties which England has introduced into the conflict in South Africa is the traction engine, for use in transporting baggage, ordnance stores, camp equipage and provisions. They are similar in construction to the engines in use in this country for running and moving farm machinery. They have been found invaluable by English commanders in South Africa for this purpose, and are much superior to mules or other methods of transportation for wagon trains. Up to the present time but few of them have been introduced, but more of them are being constructed and purchased, and in time they will prove a serious competitor for the American mule.

Among the photographic appliances which have been introduced into this



ENGLISH TRANSPORT ENGINE IN SOUTH AFRICA.

conflict none are more notable than the telephotographic camera. England has not yet officially adopted this instrument, but a number of officers who have gone to South Africa are supplied with them, and they have been used several times in making pictures from the war balloons, which are a notable feature of the English equipment. This little instruemnt is simply a remarkable lens, much on the order of a telescopic lens, which may be applied to any first-class camera, and with which it is possible to make accurate photographs at considerable distances. By their use English commanders have been able to determine the location and strength of Boer positions and the nature of Boer fortifications from a height of 1,000 feet or more. It seems only a question of a short time before England adopts this instrument, but whether she does or not, it has already proven its utility as a war instrument. It is now a part of the war equipment of Italy, Spain, Russia and Germany, and the military officers of these nations have been watching its use in South Africa with considerable interest.

Among other inventions that are proving their utility as a feature of military equipment are the war balloons, the armored trains and barb wire as an obstruction for advancing troops.

With two of these the American army in Cuba had some experience. Our experience with balloons cannot be said to have been a success, and the Spanish army found their barb wire of but little use against American ingenuity, but both have proved of value in South Africa.

DANIEL CLEVERTON.

Result of Money Division.

If all the money in the world were divided equally among the people each person would get about $30.

EXERCISE FOR WOMEN.

It Imparts to the Outline of the Figure Graceful Contours and Beauty to the Face.

In Sandow's book on physical culture he devotes a chapter to women. He says: "I am quite aware that there is a very widespread notion that exercise tends to coarsen and render a woman unbeautiful, but that is absolutely false. Were there any truth in it I should indeed despair of converting my fair readers to my way of thinking, for truly it is a woman's mission to look beautiful. But the idea is absurd; nature, which intended woman to look lovely, also intended her to be healthy; indeed, the two are practically synonymous.

"Of course, improper, violent and one-sided exercise will naturally result in making a woman clumsy, heavy and ungraceful, but proper exercise, having for its object symmetrical and perfect development, will have an exactly contrary effect. Curiously enough, the visible effect of proper exercise upon a woman's muscles is not precisely the same as upon those of a man. Regular and gradually progressive exercise will not make a woman's muscles prominent, but will cause them to grow firm and round, and impart to the outline of the figure those graceful contours which are so universally admired.

"Without well-conditioned muscle the most beautifully proportioned woman in the world will look comparatively shapeless and flabby; her muscles are not required to show up as in the case of a man's, but they must be there all the same, as a solid foundation for the overlying flesh. Take a woman's arm, for instance. If it has been duly exercised and developed, it is easy enough to see that its shapeliness and good modeling are due to the muscles; white and soft though the skin may be, you can tell at a glance that it is firm and elastic to the touch. On the other hand, the arm of the woman who has never exercised the muscles betrays the fact unmistakably; it may be plump and round, but its lines are lacking in beauty, its movements in grace, and so with the figure generally."

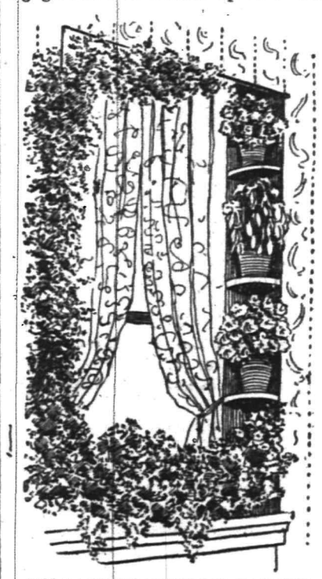
WINDOW GARDENING.

A Charming Home Occupation and Recreation for Lovers of Plant Life and Beauty.

Winter flowering plants may be grown better in boxes than in small pots. Window boxes used outside in summer may be brought in the house in winter if the precaution is taken to make them water tight with zinc or galvanized iron. Leave a hole in the bottom of the lining to draw off the surplus water. The boxes may be placed on brackets or hung with wires screwed into the window frame, or placed on the sill.

Any of the plants commonly grown in the house can be planted in the box. Geraniums of any sort, heliotrope, fuchsias and begonias make a good variety, while a fern or two gives a dainty, tasty effect different from other plants. Or the box may be filled with annuals grown from seed. Petunias, phlox, sweet alyssum, nasturtiums and a sprig of mignonette will give a variety of bloom all winter.

At the ends may be planted morning glories and trained up each side



ATTRACTIVE WINDOW GARDEN.

of the window. English ivy is also a good vine to use, but it is without flowers. In a cool room carnations, violets and pansies may be grown, while roses could be handled successfully in a kitchen where there were heat and moisture. Tradescantia or Wandering Jew can be planted along the edge to hang over the sides, or the box may be covered with pretty colored paper or drapery.

Shelves fill up a window so much that the men do not like plants in the house. In brick or stone houses, with the deep window casings, an arrangement as shown in the illustration may be adopted. If there is not room in the casing, a series of brackets might be fastened along the side, and the plants receive nearly the full benefit of sun without obstructing the light.—Farm and Home.

Hygienic Value of Bathing.

An authority on hygiene says that systematic use of salt baths will prevent one from taking cold, and avert chapping and roughness of the skin. A handful of common salt dissolved in a basinful of water as cold as one's vitality permits is sufficient for a sponge bath over the entire body. No soap should be used in this bath. It is better to use cold water for the face and neck, adding a little hot for the remainder of the sponging, if desired.

Spring Walking Costumes

How and of What They Will Be Made—In Point of Beauty They Will Surpass Those of Previous Seasons.

CORRECT materials for spring walking costumes will be of the medium weight goods, and there is a vast assortment of designs and colors, and a great variety of figured designs, also many handsome smooth and lustrous fabrics in the broad and satin faced cloths. The Venetian cloth, with its lustrous beauty, and the graceful air it has, will be a favorite material. The pastel shades will be worn more than ever, and the shades of gray which have been so popular will give way to a reign of tans in all the different tones from the rich ones of castor to the delicate ones of biscuit. In spite of this new fancy for tans the grays will not be missed entirely as the beauty of the color is soft, prettily draped and always tasteful.

Among other fashionable tints are pastel blue and green and opalescent pink.

Other materials to be used will be the Venetian cloths, homespun, with zebeline, or velvet, and embellished with lace applique, or braided and pipings of satin.

The bolero, or Eton, jackets will easily hold their own with the newer

OF OPALESCENT PINK VENETIAN CLOTH.

basque effect jacket. These newer jackets which promise to dispute popularity with the Etons are tailor made, either single or double breasted and extend to just below the waist line, being finished in deep scallops or vandykes, and have much of the appearance of the once called basque.

One that I saw was a stunning affair of Venetian cloth in a rich castor shade. The skirt is made with a tunic in very deep points, each point being edged with a band of satin. This satin is in a much deeper tone and is stitched with white silk. The underpetticoat has two straight bands of the satin around. The skirt fits snugly with a triple box plait in the back. A tight fitting bolero just to the waist line, with large pointed revers and a high pointed collar covered with lovely guipure lace. A stitching of white silk around the bolero and down each seam. The sleeves are plain and tight fitting with a deep V over the hand.

Another is of gray and black homespun. Of this the skirt is made with a rounded front tunic, being much longer in the back, with a double box plaited back. The skirt and tunic have five rows of white silk stitching around. The jacket is a nobby plain black tailor made, with a fancy gray mohair braid on each seam and around the scallops that finish the bottom. A turn-over black velvet collar and perfectly plain tight fitting sleeves.

TWO SPRING WALKING COSTUMES.

A third is of opalescent pink Venetian cloth. Of this the skirt is made perfectly plain with a pointed tunic both front and back. This tunic is trimmed with a band of black velvet and a very elaborate Grecian design of the black velvet on the deep point in front and back. A double breasted bolero jacket that has short, rounded tab ends in the front. This front is trimmed with black velvet in a Grecian design, and also the top and lower part of the sleeves. A high rolling collar with a narrow border of chinchilla.

A costume of mauve cloth that is attractive was made with a vest formed of flowers and leaves cut out of the cloth. They are embroidered around the edges and mounted on a white silk net. The high collar and pointed revers are of the same net, and are very thickly run through with narrow ribbon of mauve velvet. The lower part of the skirt is of mauve velvet, and the tunic is of the cloth. This is straight at the bottom and opens at the left side and is strapped across with loops of velvet ribbon caught down by little silver buttons.

A costume of light gray Venetian cloth has a skirt made with a box plait all the way around, being caught down to within a foot of the bottom of the skirt. This hangs in graceful folds and is handsomely braided with a black silk braid in a large scroll design. A tight fitting jacket that has the basque effect and is in deep vandykes just below the waist line. This is handsomely braided with a black silk braid around the vandykes, and in a deep point at the back, having one turn back rever covered with the braid, and a high rolling collar trimmed in the same manner.

The velvets that have been so popular throughout the winter will give place to silks with the coming of spring. In fact silks will be the popular fabric for the spring season. Economy as well as fashion will favor the silks for spring wear for the reason that the sheer dress goods now favored by fashion require a silk lining, and the foulard silks that were worn last season will be in great demand this year as they are a more economical purchase than the sheer woolen goods on account of their not needing the extra silk lining. But this is not saying that the silks will decrease the popularity of the woolen goods as they have a separate place in the season's fashions.

The silks are softer except the taffetas of soft finish in fancy corded and lace effects. But the leading silk is the foulard, and the lovely designs offered are innumerable. They are subdued and brilliant, and many figures are shown on plain grounds, but the new Parisian and Arabian designs are preferred. The trimmings for the silk gowns are lace, appliques in imitation bolero effects, straps of lace on the sleeves and revers, with tucked chiffon, or mousseline de soie, vests.

SARAH DAVIDSON.

FORTUNE IN COFFI...

Little Woman Snowed Up in the Klondike Displays Rare Ability and Enterprise.

"There have many stories come out of the Klondike country of the people who have made fortunes there. Some have been of moving, some of packing, some of gambling, some of salooning, some of feeding the hungry and so on, but none of undertaking, so far as I have heard, and I know of a man and his wife who have got rich by burying people." Thus spoke a Seattle man who had been at Dawson since the beginning. "It was really the wife who did it," he continued, "and her story is interesting. Her husband, whom she greatly admires and affectionately calls 'Jim,' was a worker in an undertaking establishment, and when the rush began toward the gold diggings she hustled him out and came along to take care of him. At Skaguay some friend gave her a lean and lank little Eskimo dog, broken to harness, and apparently broken in health. At least he could scarcely drag himself around, but his new owner cuddled him up carefully, and by the time she was ready to go on the road the dog was able to pull a fair sled load.

"So she and her husband and the dog, which she had named 'Jim' as a compliment to her liege lord, started on their long, hard journey. They got along quite well or better than many others on the trail, and when the first tollgate was reached the woman's wit manifested itself still more. She was in advance with the dog and the sled, her husband watching the remainder of their goods some distance back. The tollgate keeper looked her over a minute, took a squint at her measly little dog and frankly told her that he would be darned if a lone woman like that would

WITH A SMILE SHE PASSED ON.

have to pay to go through his gate, and he sent her along free of cost. Smiling and thankful she passed on and unloaded a mile or so further on and came back to her husband after another load. Telling him to stay right there till she had brought everything through free she finished the job and Jim came sauntering through the gate unscathed of toll.

"Arrived at the spot, they did not know just what to do at first, never thinking of the undertaking business, which they had run away from. But one day a man died on the creek where they were, and there wasn't anybody in particular to bury him. This was the little woman's chance, and she hustled Jim out after the job. He got it, of course, and in a short time he had his carpenter's tools out and was at work building a coffin. He turned out a very good one, got everything ready in true professional style, and the funeral was a great success. Jim got $250 for his efforts, and Jim's wife knew what their mission was in the Klondike.

"Other funerals followed, and Jim got them and took in $200 or $300 for each one. Now and then a man would die who wished his body sent outside, and for this kind Jim got $800. In the winter it was impossible to take bodies out, and Mrs. Jim arranged a cold corner of their cabin, where she had the waiting boxes piled up, with a portiere drawn over them to make them more ornamental, and there they remained until spring.

"Grave digging was hard work in the winter, and it required two or three days of thawing and digging to get a grave sufficiently deep for its purpose. A little incident will show what kind of a business woman Mrs. Jim was when it was necessary. One winter night word came to Jim's cabin to come six or seven miles over the mountains to look after a man who had died. Jim was not at home, but Mrs. Jim was, and without a word she hitched her little dog to his sled, took her lantern and started over the snow and the mountain, entirely alone in the darkness of an arctic winter. She arrived at the place without mishap and the live man waiting with the dead one for Jim thought it was a ghost when he saw Jim's wife at his cabin door. He offered to do anything he could for her, but she said there was nothing he could do except to help her put the load on her sled, and back she came to her home, leading the way with her lantern for the dog and the dead man to follow.

"When the springtime came again Mrs. Jim went down to Seattle, where she laid in a full supply of funeral fixings, except coffins, which are all home-made, and she and Jim have a first-class place and have made a comfortable fortune, besides owning several claims on which they have not yet realized."

Little Rhyme for Brides.

Married in white, you have chosen all right,
Married in gray, you will go far away;
Married in black, you will wish yourself back;
Married in red, you will wish yourself dead;
Married in green, ashamed to be seen;
Married in blue, he will always be true;
Married in pearl, you will live in a whirl;
Married in yellow, ashamed of your fellow;
Married in brown, you will live out of town;
Married in pink, your spirit will sink.

ABOUT THE CLUBS AND CLUB-LIFE IN CHICAGO

More than $2,000 a front foot is the price the Union League club, of Chicago, will pay for a piece of property, 50 by 100 feet square, adjoining their clubhouse on Custom House place.

Lined With Handsome Office Buildings.

To walk down the narrow, dark street, scarcely more than an alley, on one side of which rises a mammoth 16-story building a block in length extending through to Dearborn street for its entire length, and on the other side grimy old buildings, in which may be found vice in its most revolting forms or given over to missions and small manufacturing concerns, one wonders at the price paid. And, yet, $106,000 for a 50-foot lot on this street is to-day a bargain in Chicago real estate, and should the club permit the option which they hold, and which is of long standing, to expire without purchasing the present owner of the land could sell easily for 25 per cent. more than he will receive for his property from the club.

A little more than a dozen years ago what is now costing thousands could have been purchased for hundreds. The advance is due to the growth of Chicago's business district and the gradual crowding out of the criminal classes. A dozen years ago there were but few really presentable business buildings south of Jackson street on Dearborn; to-day, Dearborn from Jackson south to Polk street is lined with some of the handsomest office buildings in the city, and the building of these have forced the criminal classes that once infested this section of the city to vacate and move further south, and the improvements of Dearborn street have had a tendency towards the betterment of the narrow streets on either side of it until they, too, are becoming a part of the real business center of Chicago, along which property is bringing exceptionally high prices.

Expectations Realized.

In years gone by strangers visiting in the city to whom the clubhouse of the Union League has been pointed out have often remarked at the incongruity of its surroundings, while the people of Chicago have wondered at the selection of such a location for so handsome a structure.

The Union League Club House.

When the clubhouse was erected it was on the very edge of what was considered the real business district, but directly opposite the federal building. Members of the club argued that they were not building for a year, but for many years; they had faith in the growth of the city, and realized that before a great while their clubhouse would be situated not on the edge, but in the center, of the business district, and their faith has certainly been fully rewarded so far.

The portion of the city in which the clubhouse of the Union League is situated have the club to thank for many of the improvements made in that portion of the city. When the clubhouse was built Jackson street was paved with cobble stones, over which rattled the heavy truck wagons to and from the freight houses. To-day Jackson street is a boulevard connecting the great park systems of the South and West sides, over which travel the finest turnouts of the city, and much of the influence that was exerted to make it such came from inside the walls of the Union League clubhouse. Directly opposite the clubhouse there is being erected to-day one of the finest federal buildings in the entire country, and the members of this club are entitled to the thanks for much of the influence that secured the necessary action by congress making its construction possible. In these, and many other ways, have the members of the city in which they chose to erect their clubhouse.

A Demand for Club Rooms.

Chicago has never been a club city in the same sense that New York, London, Paris, etc., are club cities. The Chicago man has appreciated his club as a place where he could meet his business acquaintances or secure a good noonday luncheon. He has also appreciated his club because of the concerted influence which it has brought to bear tending to the betterment of his city, but to him it has never been a home.

The Demand Has Outgrown Accomodations.

In former years the demand for permanent rooms by the members of Chicago clubs has been small. In each of the prominent clubs there have been a small minority of the members who have made their clubs their homes, and have been accommodated with apartments in the club houses. That this demand is increasing, and that Chicago is becoming more of a club city in the eastern meaning of the term is evidenced by the Union League's contemplated addition to its clubhouse, which when completed will be devoted largely to accommodations for this class of its members.

But the growth of this demand for permanent quarters on the part of club members at their clubs has not been so marked in the Union League as in some of the other clubs of the city, notably the Athletic and the Chicago. The membership of the Union League club is confined more to the prosperous business men of the city, men of advanced years, than to the younger element of the city's population, and they are too much enamored of their homes to care for sleeping quarters elsewhere.

The Athletic club is finding a steady demand for the sleeping accommodations in the Michigan avenue clubhouse at the present time, and what but a year or two ago promised to be something of a white elephant on the hands of the club is proving of the greatest value at the present time.

The Maximum Membership.

For the first time in its history the Union League club reached the total membership allowed by its by-laws. It to-day has 1,200 resident members and in addition a long waiting list. Of nonresident members it has a total of 228, of army and navy members a total of 31, and of honorary members 13. Making a total membership of 1,472.

The Membership List Is Full.

To give an idea of the receipts and expenditures of the big clubs of a city figures from the treasurer's report of the Union League will serve as well as any. As the membership of the club is larger than that of any other club in Chicago the totals are proportionately larger, but the average receipts and expenditures per member will be very nearly the average of any of the prominent clubs of Chicago.

This report shows that the club took in during the year 1899 the sum of $180,201.55, and that the expenses of the club for the year, including an estimated depreciation of house furnishings, was $144,045.09, leaving a net profit of $36,156.46.

By far the heaviest item among the receipts was that of dues, it being $102,223.36, while initiations, which are $200 for resident members and $100 for non-resident, amounted to $30,100. The receipts of the club restaurant for the year amounted to $25,348.97; from the sale of wine, $5,013.01; from the sale of cigars, $5,294.36; from the billiard room, $1,741.65, and from room rentals, $9,776.80.

For salaries the club paid out, $59,208.90; in taxes it paid $6,884.13; for art there was apropriated $2,044.47; for political action there was appropriated $3,066.70; to the fall festival there was given $3,628.29, and to the profit and loss account there is charged only $152.20, which is the form of uncollectable office tickets given by members of the club.

Wife and Servant.

In a great city one can find all manner of queer things, but about the queerest it has ever been my lot to run across is that found some days ago in one of the southern suburbs of Chicago.

Once Reigned Over the Parlor.

In 1890 a gentleman whose name need not be mentioned married very much as other men do. His bride was one of two girl chums who had been friends from childhood, and were almost inseparable companions. Both, as the neighbors say, had been somewhat smitten by the same young man, but the one who was left to bewail her fate cherished no ill will against her more fortunate rival, and their friendship continued much as it had before the pealing of the marriage bells.

By the end of three years of married life the young couple discovered that the domestic machine could not be run with that degree of smoothness necessary to domestic happiness. At a family council a separation and divorce were decided upon, and the latter was granted by the courts by mutual request and on grounds of incompatibility of temper.

Eighteen months later the man had taken to himself another wife, this time the second of the girl chums who had not been frightened at his first venture. A year later the father of the first wife died leaving her without a home and without resources, and she attempted to earn a living as a domestic. Then it was that the second wife proposed that she accept the position of a servant in the home of which she had at one time been mistress, and the proposition was accepted. The old friendship still exists; both servant and wife are happy and contented, and the man in the case finds nothing disagreeable in the situation.

WRIGHT A. PATTERSON.

REMOVED!!

We beg to inform our customers in the vicinity of Plainfield that we have removed our Plainfield branch from 133 East Front St. to

Madison Ave., Cor. Central R. R.

We will be pleased to see them and their friends at the new address, and as we have much better facilities than heretofore, we hope to be able to serve them to even better advantage.

WHIST

The State whist trophy still remains in Orange. Another match was played last Tuesday evening, when the Orange Whist Club, holders of the trophy, defeated the Essex Whist Club, of Newark, challengers, by a score of 19 to 5. The Forest Hill Club plays next week and then will come the turn of the Park Club, of this city.

BASKET BALL.

No further arrangements have yet been made for a deciding game between the Plainfield and Summit Y. M. C. A.'s. Both associations have scored a single victory, and a third game would be watched with much interest. There is little prospect of another game between the two this winter, however.

The basket ball team of the New Brunswick Y. M. C. A. will play a return game in the gymnasium of the Plainfield Y. M. C. A. this evening. Plainfield will be represented by a team chosen from among the regular attendants at the evening class. The usual arrangements will be made to accommodate the crowd of basket ball enthusiasts who take advantage of every opportunity to see a game.

Miss Sadie Dean, of Newark, is being entertained for a week by her cousin, Miss Jennie Lunger, at 85 Fairview avenue.

SUPPOSE!

SUPPOSE! your house is on fire, what is the easiest way to summon the Fire Department?

SUPPOSE! a member of your household is suddenly and dangerously ill, immediate attendance of a physician means LIFE or DEATH, how most quickly obtain that attendance?

SUPPOSE! any one of the many emergencies when Police aid is desirable or vitally necessary, how may these guardians of life and property be instantly notified?

SUPPOSE! unexpected guests arrive, the larder is low and the dinner hour near, how connect with the butcher, the baker and the confectioner and hurriedly gather the supplies that shall make the dinner a credit to the housekeeper?

SUPPOSE! you wish to gather a group of guests for an evening to do honor to an occasion or a friend—how most conveniently communicate with their acceptance or regrets?

SUPPOSE! you are interested in the Stock Market, or commercial matters of any sort, but desire to stop at your country house for a few days—how keep in constant touch with Wall Street and the market centres?

SUPPOSE! you want seats for the Play, a box for the Opera, a carriage for a drive, to engage places at a restaurant—how in incredibly short time arrange it all?

SUPPOSE! you are obliged to travel, leaving a member of your family ill at home—how can you receive news at any station from Boston to Omaha—from Montreal to Key West?

SUPPOSE! you are worried and flurried and bored by the petty details of living—the marketing, the shopping and the annoyance of the hustling streets—how sit in your office or library and press a button which shall do it all for you?

SUPPOSE! you would have the answer to these questions—Here it is—The greatest Luxury, Convenience and Necessity of the century:—

TELEPHONE SERVICE.

THE NEW YORK AND NEW JERSEY TELEPHONE COMPANY,

Park Avenue, Plainfield, N. J.

2 12 3m

INVITED THE PRESIDENT.

Local G. O. P. Leaders Have High Aspirations for Their "Smoker" Wednesday Evening.

The committee in charge of the smoker of the Republican county executive committee, to be held in the Casino Wednesday evening, are aspiring rather high. An invitation to be present has been sent to President McKinley, both the Jersey Senators and all the Congressmen from this State, and it is now the intention of the committee to invite the members of both houses of the New Jersey Legislature to be there as well. Even if a comparatively small number of these notables attend, it will make the smoker the most important political gathering of Republicans in Union county this year.

The prospect of so many of the leaders being on hand will encourage a large attendance on the part of the rank and file of the Republican workers. Tickets are fifty cents each and are now obtainable from members of the county committee.

Charged With Assault.

William A. McCann, a coachman, employed by Pierre Mali, of East Front street, was arrested this morning by Constable Mattox on a warrant issued by Justice Nash, charging him with an attempt to assault Mrs. Lizzie Nighchuch, a Hungarian.

High Water Mark.

Yesterday afternoon there were 371 scholars and teachers in attendance at the Sunday-school of Trinity Reformed church, the largest in the history of the school, and the room was taxed to nearly its full capacity.

Mr. and Mrs. William Gaston, of Somerville, were guests yesterday at the home of Mr. Gaston's sister, Mrs. O. W. Dunham, 325 East Fifth street.

DEATH OF JOHN O. CAMPBELL.

Ill for Sometime With Bright's Disease — Born in Trenton.

John O. Campbell, who conducted a confectionery store at West Front street, died about 4 o'clock this morning at his apartments in the Babcock building, aged about 64 years. Mr. Campbell has been ill for sometime with Bright's disease, but in was not until a few days ago that his condition alarmed his family. The deceased was born near Trenton in 1836. He moved to Plainfield several years ago and for a time was engaged in the manufacture of boots and shoes. About five years ago Mr. Campbell established the confectionery business at his present location. He is survived by a wife, two sons, Oscar and Ralph, and Miss Flora Campbell. No arrangements have been made for the funeral.

WIDOW IS IN ITALY.

John Miceo Died in Muhelnberg Hospital Far From His Family.

John Miceo, aged thirty years, an Italian, who has been living in Netherwood, died yesterday morning at Muhlenberg Hospital, where he was taken for the treatment of pneumonia. He was only ill three days with the disease. He was formerly employed by Patsy Christmas in his contract work. He leaves a wife and four children who are living in Italy. Word will be sent to them at once about the death. The remains were removed to Cole's undertaking establishment, and the funeral services will be held this afternoon at 4:30 o'clock from St. Mary's church, and interment will be in St. Mary's cemetery.

William L. Saunders' Lecture

More than ordinary interest attaches to the forthcoming lecture on Tuesday evening of this week to be given at the Casino by our talented townsman, Former Mayor Wm. L. Saunders.

The subject of the lecture, "Compressed and Liquid Air," is as new as it is interesting, and will be illustrated by experiments and stereopticon views. Mr. Saunders' assistants in these experiments, Messrs. Walter Dickerson and B. C. Ball are well-known mechanical engineers.

Good Shoes Cheap.

Doane & Edsall's begin today the most important clearance sale of winter boots and shoes for years. Important because the stock is unusually large, and comprises the best makes of shoes in the market. This season's up-to-date goods, all offered at a big reduction from the regular retail price.

To Confer Initiatory Degree.

The degree team of Iona Council, Degree of Pocohontas, will go to Newark this evening, where they will take part in a big meeting of the order and confer the initiatory degree on several candidates in the Newark Council.

Marriage Just Announced.

Announcement is made of the marriage of Miss Sadie Johnson and Howard E. Bennett, of West Fourth street. The event took place January 22d and Rev. G. Kennedy Newell, pastor of Hope Memorial chapel, officiated.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World

The name of Lincoln J. Carter in the theatrical world has become synonymous with a class of plays in which the realistic predominates and which appeal directly to the feelings. He has written and produced a number of very strong attractions, some taken from scenes of every day life in the great cities and many of them exploiting pertinent events in the history of the country. His latest effort "Chattanooga" is a war play to be presented at Music Hall Wednesday, in which there is a fair division of heroism among the Northern and Southern soldiers and throughout it is sweetened and strengthened by a beautiful love story which never fails to please and touch the delicate chords of human feeling. "Chattanooga" has been produced with great success in both sections of the country and Mr. Carter has been in receipt of hundreds of letters from old veterans, thanking him for his efforts in producing a play which has tended to drive out the feeling of sectionalism and beget in American hearts a love of country.

* * * * *

The Great Triple Alliance, composed of Servais LeRoy, Imro Fox and Frederick Powell, will open a two night's engagement with Saturday matinee at Music Hall, Friday and Saturday of this week. These are well-known artists and stand near the top of their separate lines. LeRoy and Powell will appear in necromancing feats, and Imro Fox promises some novelties in the way of mirth and laughter provoking sallies. Accompanying the trio are a number of well-known, high-class entertainers among whom are Dora Busch, the female baritone; Zazelle and Vernon, comedy triple bar performers; the Australian musical trio, Lelliott, Bursh and Lelliott, and Chas. Mariner—Shadowgraphs.

GUERILLA WARFARE.

To Be Carried On Under Command of Gen. Carrington.

British Officer Hired by Cecil Rhodes to Conduct an Irregular Campaign Along the Borders of Bechuanaland.

Sir Frederick Carrington, major general of the English army, has been released from his Belfast command and is going to South Africa. More or less reliable information states that he will there command a company of "irregulars" to be placed in the field by Cecil Rhodes and the British Chartered South African company. An "irregular" was known during the American civil war as a guerilla, carrying the black flag and showing no mercy. In South Africa he may be a Kaffir, an outlander, a disaffected Boer or any other human material that is willing to fight for pay—a nineteenth century Hessian. If the imperial government has consented to the organization of such a command the kind of warfare that South Africa is to witness in the future may appall the civilized world for its savagery. Carrington is familiar with South African conditions, and ruthless as a soldier.

What the strength of the force of the Chartered company will be no one knows. Cecil Rhodes is bottled up in Kimberley, and what his intentions are is not easy to learn, but he has the wealth with which to pay for the organization of a band of mercenaries, and the English war office has loaned Gen. Carrington to the millionaire to command the force. There are few military men better known from the Cape to the Matabele border than Gen. Carrington, the organizer of "Carrington's horse" and of the now disbanded Bechuanaland border police. His burly form has been seen at the

SIR FREDERICK CARRINGTON.
(British General Who Is to Command a Band of Irregulars.)

head of his mounted infantry in nearly every town and settlement in the Transkei territories, the Transvaal, Basutoland and Bechuanaland. In appearance he is a splendid figure of a man—built on a large scale, with strong, bold and well-chiseled features, and a mustache whose fullness and length give him an easily recognizable distinction among a group of officers. He is not supposed to be vain, but he is proud of his mustache It is unique. There is not another like it in the English army, or, indeed, out of Italy. It is the fruit of years of unscissored growth and affectionate care, and it has caused as much envy among English cavalrymen as terror to the hairless Kaffir.

He is the son of a country gentleman in Gloucestershire, who sent him to Cheltenham college, which he passed through creditably. His first service in the army was as an ensign of the Twenty-fourth foot, now the South Wales borderers. For several years he was instructor of musketry to his regiment, and probably little would have been heard of him but for the rise and fall of the diamond fields in South Africa. This was in 1875. His regiment was then in South Africa and was called out to suppress the rising of the natives at Kimberley. The Twenty-fourth marched from Cape Town to the diamond fields, fighting most of the way, and not having an easy time of it. While the infantry had this work it was apparent that cavalry would be more serviceable, and young Carrington was chosen to organize an "irregular" mounted force. He chose his raw material in Kimberley, and when it was ready to act made sharp and bloody end of the rebellious blacks. Cape Colony authorities liked his ways and marked him for greater work in suppressing the native uprising then at hand. Kaffraria was uneasy and the Zulus on the warpath. The Galekas and Fingoes were fighting, and the Gaikas eager for a fray. Upon this black mass Carrington, now risen in rank, was hurled, and by 1877 he not only had whipped it into subjection, but entered the Transvaal and assisted the Boers in preserving the integrity of their republic against the natives. Now that he is to go into the field again, it is thought Gen. Carrington will select Buluwayo as his base and move in, either by the line of the Orange river or by that of the Zambesi.

Temperance Work in Vienna.

The Society of Total Abstinence, just formed in Vienna, is the first ever established in Austria. Everybody drinks in Austria. An Austrian baby begins to sip beer at the age of three months, and, as it grows up, learns to consume the liquor in ever-increasing quantities, until, when a full-grown man, he can drink it by the gallon.

The Very Best Fumigant.

Dried orange peel allowed to smolder on a piece of red-hot iron or on an old shovel will kill any bad odor in existence and leave a fragrant one behind.

JOTTINGS OF THE DAY

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Newsy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—The Senior and Junior Endeavor Societies of Trinity Reformed church will meet tonight in a union service. Mrs. C. Schenck will lead the meeting. Everybody welcome.

—"The Sin of Liquor Selling. How to End It," will be the topic of Dr A. H. Lewis' address before the Endeavor Society of Trinity Reformed church next Monday evening, February 19th.

PARTICULAR MENTION.

Archie Hummell, of High Bridge, passed Saturday and Sunday with Walter Reinhart, of West Fourth street.

George Creveling and William Swalm attended the Twenty third Regiment Review at Brooklyn Saturday evening.

G. Q. Dolliver has rented his house where he now resides, on Fairview avenue, to Charles E. Ball, the recently appointed superintendent of the Plainfield branch of the Prudential Insurance Company.

The First Telescopic Comet.

On the evening of October 1, 1847, the Mitchells were entertaining a party of invited guests. But Maria Mitchell was not to be deterred by "company" from following her custom of sweeping the heavens with the telescope every clear night. She slipped away and ran up to the observatory. Soon afterward she returned and told her father that she thought she had seen a comet. He hurried up to the observatory to look himself, and declared that it was indeed a comet. This discovery entitled Miss Mitchell to the gold medal that had been offered some years before by the king of Denmark to the first discoverer of a telescopic comet, and it was struck off and forwarded to her.—Amelia H. Botsford.

The Old Hickory Gad.

Mrs. Spratt—Why, John, you are actually caressing that hickory stick.

Spratt—Yes; it's one my father had when I was a little boy.

Mrs. Spratt—Well, I suppose it is hard to break old associations.

Spratt—Yes, indeed; father never could bring himself to do it. It was mainly through his efforts that we became so attached to each other.—Cleveland Leader.

ESTABLISHED MAY 10, 1887. PLAINFIELD, N. J., TUESDAY, FEBRUARY 13 1900. TWO CENTS A COPY—$5 A YEAR.

BIG BUSINESS BLOCK TO BE CONSTRUCTED.

Smalley Brothers Buy Bank Property on North Avenue.

$10,000 PAID FOR THE LOT.

NEW BUILDING WILL BE STARTED IN THE NEAR FUTURE.

Exact Design and Size of the Building Has Not Yet Been Decided Upon, But Two Stores Will Probably Be Made—Lot Has a Frontage of 50 Feet and is 112 Feet Deep.

The ruins of the old Bard Company fire on North avenue that have confronted the crowd of Plainfielders returning from New York every evening for over a year, are to be succeeded by a block of new stores. Saturday afternoon the final negotiations were completed and the property was sold by the First National Bank to Smalley Brothers. The purchase price was $10,000, which is considered considerably below the real worth of the place.

At the time when the Bard Company's store and Corle's livery stable in the rear were destroyed by fire a year ago last October, the property belonged to A. D. Thompson. It afterwards passed into the hands of the First National Bank of this city. There was considerable talk about the erection of a new building there but nothing came out of it. For some time, the Bank has been considering various offers for the property and Saturday it was finally decided to take the one made by Smalley Brothers who conduct a meat market on North avenue nearly opposite. The Smalley Brothers are David C. Smalley, A. I. Smalley and N. B. Smalley.

Although the new owners have not yet decided exactly what sort of a building is to be put up, that will be settled shortly. They intend to build there without delay. If the project for opening a new street through to Front street becomes a reality, the property will be on the corner. The new building will probably include two stores, one of which will be occupied by the owners for their meat market. How many stories there will be to the new building is not yet decided.

The property has a frontage on North avenue of 50 feet and is 112 feet deep. Its proximity to the station makes it a valuable site for a store. With the new street cut through, it would become still more valuable.

THEIR VALENTINE.

Former Cashier of Middlesex Bank to Be Rearraigned.

(Special to The Daily Press.)

New Brunswick, Feb. 13—George M. Valentine, the former cashier of the Middlesex Bank at Perth Amboy, will be brought from State Prison in a few days by Prosecutor John S. Voorhees, to answer to six additional indictments recently found against him by the Grand Jury at New Brunswick.

Henry Savage and J. Kearny Rice, attorneys for Valentine, are opposing the efforts of Prosecutor Voorhees, and contend that the extra indictments are illegal. If Valentine were convicted and sentenced on each of these new counts he would be in State Prison nearly half a century.

BREAK IN DAM.

Five Feet of Structure That Holds Water in Hyde's Pond Gives Way.

A few days ago about five feet of the dam at Hyde's pond gave way and allowed the water contained therein to run out faster than the owner desired. There was no danger from the accident, but as Mr. Hyde wanted to repair the break he secured permission from Daniel Snyder at the City Mills to open the gates near the mill so that the surplus water would not overflow the banks along the stream. This was done Sunday. The water is now out of the pond and the break in the dam will be repaired at once.

The Memory of Mr. Marsh.

Lawyer William H. Francis, of Newark, chairman of the committee that drew up the resolutions of condolence on the death of Lawyer Francis Elston Marsh at the meeting of the Essex County Bar held in the Chancery chambers last Thursday, moved before Judge Depue in the Supreme Court circuit Saturday that the resolutions be spread upon the minutes. Judge Depue readily made the order, and added a few graceful remarks, saying that Mr. Marsh "deserved the trust and confidence that the public and court held him in."

To Have an Automobile.

Randolph M. Stelle, of Stelle avenue, is among the latest to join the army of those who are using automobiles. He has ordered one and expects to receive it in the spring.

RAHWAY'S PEANUT CLUB

AN UNIQUE ORGANIZATION WHOSE MEMBERS ARE DEMOCRATS.

Peanuts the Chief Topic of Discussion at the Annual Banquets When Oracle Cook Delivers an Essay of Wit and Wisdom.

Col. William J. Bryan, on the occasion of his visit to this city as a guest of James E Martine, was tendered an invition to attend a banquet of the Peanut Club, of Rahway, to be given in the near future. The Peanut Club is an organization of some local reputation and its membership is made up of prominent Democrats and representative citizens living in Rahway and vicinity. Among those prominent in the affairs of the club are Hon. Moses H. Acken, Commodore Silas Leonard, ex-Freeholder Samuel Halliday and ex-Clerk of Freeholders Alford D. Cook. The meetings of the club are held weekly, though during exciting political campaigns the members gather nightly to discuss the affairs of the party. Peanuts are the emblem of the organization.

Everything about the club rooms has the flavor of the indigestible "guber." Even the gavel used by the chairman when presiding over the deliberations of this august body has its handle covered with peanut shells.

At the banquet of this well-known club, held annually, but to which few outsiders are invited, a large dish of peanuts always graces the table. At this banquet the statatistician of the club, A. D. Cook, is always charged with the duty of delivering an essay on the value of the peanut as a food-product, the enormous output in the United States and the part it plays as an export commodity. Mr. Cook, being considered the oracle of the club, is called upon to answer various questions that are propounded by the members of the club with relation to the peanut. J. E. Martine, of this city, is an honorary member of the club, and will be its guest on the occasion of its next annual banquet in Rahway.

CITY HALL SITE.

Expected That the Committee Will Make a Report to Common Council Tonight.

It is expected that at the meeting of the Common Council this evening there will be received a report from the committee on the City Hall site, and it is possible that it may be accompanied by recommendations. It is not likely that the Council will take any definite action tonight in the matter. In addition to the above a number of other important matters will be considered.

SMOKE WORSE THAN FOG.

Bayonne, Staten Island and Pilots Fight Constable Hook Nuisance.

Mayor Egbert Seymour, of Bayonne, and the Common Council and Board of Health have fallen in line with the residents of Staten Island in support of Congressman Muller's bill which has for its object the abolition of the smoke nuisance at Constable Hook, which renders a good part of the Staten Island shore almost uninhabitable. Bayonne is almost as much concerned, for when the wind is from the south or east the smoke blows into Bayonne.

It is expected that the foreign steamship lines will aid in urging the passage of the bill. The Sandy Hook pilots, including the New York and New Jersey men, will work to the same end. The Staten Island ferryboat captains and pilots and captains of Newark and Elizabeth boats also favor it.

PROTEST AGAINST LICENSES.

Loyal Temperance Legion Fear for the Rising Generation.

The members of the Loyal Temperance Legion have drafted a petition, which they will present to the Common Council, in which they ask that no liquor licenses shall be granted this year. They base their plea on the fact that children are the direct recipients of the drink curse, and on that basis ask that applications for licenses be refused. The petition is signed by the president, Irving VanWinkle, and Leo J. Moore, secretary.

Money for Aid of Cosgrove.

The women who have in charge the raising of fund with which to send William Cosgrove from the hospital to his home in California, are meeting with good success. Almost every day an amount of money or a check for a small or large figure is received. The women feel very much encouraged and have reasonable assurances that the project will be successful.

Held for the Grand Jury.

William A. McCann, the coachman charged with assaulting Mrs. Lizzie Nighchurch, waived examination before Justice Nash yesterday afternoon, and was held to bail to await the action of the Grand Jury.

WANT $25,000 DAMAGES

CENTRAL RAILROAD SUED BY ALBERT E. PARK.

His Son Harry Struck by Fast Freight January 29th and Frightfully Injured—Company is Blamed for Accident.

Albert E. Park, of West Sixth street, is about to bring an action against the Central Railroad of New Jersey to recover damages for injuries sustained by his son Harry Park on January 29th, by being struck by a fast train near the Grant Avenue station. Reed & Coddington have been retained by Mr. Park to bring the action. The damages are placed at $25,000. The young man who was injured being but 20 years of age is therefore a minor under the law and the suit will be brought by his father, who is his natural guardian. It will be remembered that Harry Park was struck by a fast east bound train after alighting from a passenger train on the third track at the time a coal train had been cut loose on the first track. He was frightfully injured and may be a cripple for life. The bones of one of his legs was broken in fifteen places between the knee and ankle and besides being otherwise bruised his shoulder was dislocated. It is possible that the young man may be laid up for many months, even though he may ultimately recover the use of his leg.

A PROFITABLE INVESTMENT

Net Profit for Members Union Building and Loan Association is Reported to be 13 per cent.

The annual meeting of the Union Building and Loan Association of Plainfield was held last evening in the office of the secretary, Robert A. Meeker, on Park avenue. Four directors, Dr. O. L. Jenkins, Calvin H. Rugg, Curtis M. Thorpe, Charles H. Dunham, were elected to fill the places of members whose terms expired. The election of officers resulted as follows: President, Dr. M. B. Long; vice-president, Eugene M. Laing; secretary, Robert A. Meeker; treasurer, R. J. Shaw; counsel, Nelson Runyon.

The report of the secretary showed an unusual healthy condition of affairs in the association. It showed loans on first mortgages during the past eleven months, or from February 13, 1899, to January 8, 1900, amounting to $20,400.00. The net profits to each shareholder is over 13 per cent., which is considered gilt-edged. There are 889 shares now in force, 80 individual shareholders. Since the close of the fiscal year there have been received a number of new members and the business is even greater than shown by the figures given. This is one of the best associations of the kind in the State, and is one of the strongest in all points as shown by the actual figures.

CALDWELL POSTMASTER.

Fowler Recommended Mead, and Some People Want Condit.

Representative C. N. Fowler has recommended the appointment of A. C. Mead as postmaster at the city of Caldwell, but for some reason this does not seem satisfactory to the people of that place, and the request has been made that J. C. Condit should be named for the place. To settle the matter amicably Mr. Fowler has requested the citizens to hold a meeting and to recommend a new name.

Prizes Finally Accepted.

The long-standing dispute over the bicycles offered for prizes in the bicycle race at Westfield last Fourth of July has at last been settled by Chas. Embleton, who won the race, accepting the wheels offered. Ever since they were delivered they have been at Robinson's bicycle store, but Embleton would not accept them. Friday, however, he decided to take them away.

Third Trip to a Funeral.

William J. Kitchen, formerly of the borough, but now of Taunton, Mass., who returned a few days ago, has again been called to Plainfield on account of the death of his grandmother. He arrived in town last night. This is the third time within two months that he has been called home on account of death.

University Centre Tonight.

The regular meeting of the Plainfield University Centre will be held at the High School building this evening. The committee appointed at the last meeting to look after those who are to prepare the weekly digests of the study will have its first report ready.

Benefit Was a Success.

A few weeks ago a benefit dance was arranged and given for Mrs. David Morning and her children, for the purpose of raising funds to send them to their former home at Lowell, Mass. A sufficient amount was secured and they left for that place yesterday.

IDEA OF NEW STREET IS TO BE PUSHED.

Board of Trade Will Take Up the Matter.

TO HOLD A PUBLIC MEETING.

A CONFERENCE WITH RAILROAD OFFICIALS THURSDAY.

The Project is to Have the Railroad Build a Tunnel Big Enough for Street Traffic and Then Purchase Taylor Property and Open New Thoroughfare—Prominent Citizens are Interested.

With the movement to advocate a park and a new station on the south side of the tracks of the Jersey Central Railroad, the project to open up a new thoroughfare from North avenue to Front street, between Park and Watchung avenues, has been linked, and the Board of Trade, Advancement Association and citizens' joint committee will push forward both plans. A conference will be held with the railroad officials Thursday afternoon. Monday night the public will be invited to express the advisability of the new thoroughfare.

The proposed new station on the south side of the track, with passenger tunnels to connect the two stations, and fences between the tracks as a measure of safety, has long been discussed. Last fall both the Board of Trade and the Plainfield Advancement Association took up the agitation and started to make a united effort to secure the long promised improvements. The two committees met and selected a number of prominent citizens to act with them. L. B. Woolston, president of the Board of Trade, was chosen chairman of the committee.

When this scheme of opening up a new thoroughfare to the station from the north was first openly advocated a few weeks ago, it was brought to the attention of the joint-committee and found much favor. It was proposed tha the railroad company, instead of putting one tunnel for foot passengers at either end of the station, should make a large thirty foot tunnel opposite the end of the projected thoroughfare. This tunnel would accommodate light passenger vehicles and foot passengers as well, and connect the new street with Fourth and Sycamore streets. The change in the plans of the railroad would make but very little extra cost for the improvement.

The joint-committee held an informal meeting yesterday afternoon, but all the members were not able to be present. The joint-committee is made up of Former Councilman L. B. Woolston, Charles W. Runyon and School Trustee F. C Lounsbury, from the Board of Trade, Mayor N. B. Smalley, Former Mayor B. A. Hegeman, Jr., and Assessor Elston M. French, from the Advancement Association, and Mayor George W. Rockfellow as representative of the city's interests, and a citizens' committee, composed of Former Mayor Charles J. Fisk, Henry G. Runkle, Former Councilman S. A. Ginna, J. Wesley Johnson, president of the First National Bank, Charles H. Hand and others.

A map is now being prepared for the committee by R. A. Meeker, showing the proposed route of the new street. It is intended to have it enter North avenue right opposite the little park just west of the station. It would be bounded on the west by the old First National Bank property, purchased Saturday by Smalley Brothers, and on the east by the Mulford building. The strip thus included is fifty-seven feet wide and is now owned from North avenue to Second street by Rev. J. P. Taylor.

There are no large buildings on the property, only one-story little frame stores and offices. Rev. Mr. Taylor places a value of $75,000 on the property, but some of the members of the committee believe that if condemnation proceedings were started by the city and a commission appointed, a lower valuation would be fixed.

The new street would pass just west of the city property on Second street, making the fire department headquarters on the corner. A narrow strip of the Mrs. Thomas MacDonald property would have to be acquired but the house would not be affected. The Gardner property, one of the proposed sites for the City Hall, would then be at the very head of this new thoroughfare and would be visible from the station.

The cost of this projected improvement would, it is estimated, be about $40,000. $15,000 at least, it is believed, could be raised by assessment and subscription so that the cost to the

[CONTINUED ON PAGE 8.]

G. O. P. BIG GUNS COMING

PROMINENT PARTY LEADERS WILL ATTEND THE "SMOKER."

Congressman Fowler the Only One Who Has Had to Decline—He is Scheduled to Speak at Western Meeting.

Enough of the prominent Republicans of this part of Jersey have promised to attend the smoker of the Republican county executive committee tomorrow evening to make it a decided success as far as attendance is concerned. The smoker is to be held in the Casino and will begin at 8 o'clock. It is expected that the crowd will be large enough to fill the hall.

Of the dignitaries of Union county, Congressman Fowler is the only one who has sent word that he will be unable to be present. He is to speak at a meeting in the west and unfortunately cannot be in two places at the same time. Senator Kean will undoubtedly be here and probably the Governor and Senator Sewell.

Assemblyman Ellis R. Meeker, of Elizabeth, who is one of the committee in charge of the smoker, extended the invitation to be present at the gather to all the members of both upper and lower houses of the State Legislature this morning. There will be quite a little group of these State legislators who will accept the invitation and be present.

Of the Plainfield Republicans, none will be absent unless illness prevents. Elizabeth and the towns along the Jersey Central railroad will also send good delegations.

KICKED BY HORSE.

Case Was Appealed by Defendant and Has Now Been Settled Out of Court.

The case of Charles and Louisa Cramer against Samuel Venezia, which was to come up in the County Court at Elizabeth tomorrow, has been settled out of court. The case was originally tried before Justice Clark in Scotch Plains, and a verdict was given to the plaintiff for $200. The suit was for damages inflicted by Venezia's horse which kicked Mrs. Cramer and badly injured her. Murphy & Blatz were attorneys for the plaintiff. The case was appealed to the higher court, and has now been settled satisfactorily to both sides.

State Convention of Letter-Carriers.

The State convention of the National Association of Letter-Carriers was held at Moorestown yesterday. Letter-Carriers Reville, Burns, Tingley, Glaentzer and Hines were present from Plainfield. They took part in the parade and attended the banquet that followed. The Plainfield branch is not a member of the State Association, so they were not represented at the annual meeting of that organization.

Did Good Work.

The degree team and a delegation of members from Iona Council, Degree of Pocohonas, went to Newark last evening to attend the session of the council of that city. It was a large gathering of the order, members being present from all over this part of New Jersey. The team from Iona worked the initiatory degree on several candidates. Their work was highly commended.

Vitagraph Company Incorporated.

The American Vitagraph Company, with principal offices at Cranford, filed articles of incorporation in the County Clerk's office Saturday. The company will have a capital stock of $6,000, divided into 240 shares of the value of $25 each, 50 of which are subscribed by the following incorporators: Howard Cox, Herman Meyer and Stephen J. Cox, all of Cranford.

Willing Property Owners.

A few more of the property-owners on Somerset street have signed their names to the map and petition asking for the widening of the street. It is yet possible that all of the owners may dedicate the necessary amount of feet and thus the commissioners may not have their work to do as prescribed by law in such cases.

Primary S. S. Teachers' Union.

At the meeting of the Plainfield Primary Teachers' Union, held yesterday afternoon in the Y. M. C. A. building, the devotional exercises were conducted by Mrs. VanName and the lesson was taught in an interesting way by Miss Blanche Fellows.

Different From Usual Sociables.

An evening of pleasure after lines differing from the usual will be given in the parlors of the Congregational church Friday evening under the auspices of the Women's Association of the church. A pleasant time is promised for all who attend.

Foundation Completed.

The workmen employed on the new building for Ballentine & Company on West Second street have completed the foundation, and the building is progressing rapidly.

NEWARK DRAW BRIDGE.

FREQUENT CLOSING OF IT DETRIMENTAL TO PASSENGER TRAFFIC.

Many Commuters to Co-operate With Central and Pennsylvania Railroads to Induce United Signal Corps to Give Relief.

President Woolston, of the Plainfield Board of Trade, received a communication from J. H. Olhausen, general superintendent of the Central Railroad of New Jersey, requesting him to appoint a committee from the Board to meet with other representative citizens who are to appear before the United States Signal Corps at Newark Monday to ask that the draw bridge across Newark bay be kept closed two hours in the morning and two hours in the late hours of the afternoon for the purpose of facilitating the running of trains across the bay.

The request will come from patrons of both the Central and Pennsylvania Railroad Companies. At present all vessels have the right-of-way and the draw must be closed on signal whenever a sloop, barge or water craft of any description wishes to pass through. One of the provisions agreed upon when the railroad companies were granted a franchise to build the long tressel across Newark bay was that a draw should be constructed and opened at all times when vessels desired to pass through.

Since the railroad business has grown to such vast proportions and the train service of both the Central and Pennsylvania Railroads has increased from a dozen trains a day each way to New York and points in New Jersey, the frequent closing of the draw bridge has become detrimental to the interests of the many commuters who patronize these railroads. In many instances trains are often held for fifteen or twenty minutes, much to the inconvenience of hundreds of people who have business in Jersey City and New York.

It is understood that the Signal Corps Board has the power to give the much desired relief in the premises.

FUNERAL OF MRS. TREWIN.

Rev. Cornelius Schenck Referred Tenderly to the Little One Left Motherless.

The funeral services of the late Mrs. Minnie Trewin were held yesterday afternoon at 2:30 o'clock from the residence of her parents, Mr. and Mrs. George Rockafellow, 152 East Front street. The services were in charge of Rev. Cornelius Schenck, pastor of Trinity Reformed church, assisted by Dr. Yerkes, of the First Baptist church. The latter read the Scripture selection and offered prayer, after which remarks were made by Dr. Schenck. He referred tenderly to the little one who is left motherless.

During the service two beautiful selections were sung by Mrs. Manley. After those present had viewed the remains interment took place in Evergreen Cemetery. Those who served as pall-bears were Frank Hand, Bert Naylor, Samuel Terry, Jr. and Theodore Kurzhals, Jr.

A Showy Advertising Sign.

Charles Hand has leased the top of the Crescent Rink building to Bamberger, the Newark dry goods dealer, and two immense iron sign boards, each nine feet high and sixty-three feet long are being erected by workmen, which when painted will be the highest and most showy signs in Plainfield. The work of painting the sign will be done by the Plainfield Billposting Company.

"Smokestack Jack" in Trouble.

Edward Hoover, better known as "Smokestack Jack," was arrested by Patrolman Vanderweg last evening for being drunk. He was arraigned before the City Judge this morning. He explained that his drunkenness had been the result of an attempt to drown sorrow on hearing of the death of his sister. Sentence was suspended so that he might attend the funeral in Newark today.

Class of Jollification.

The members of the class of 1900 of the Plainfield High School held a jollification last night at the home of Miss Woodcock, of West Seventh street, president of the class. Only the members of the class and the faculty were present. A very enjoyable evening was spent.

Plainfield Cow in Bermuda.

Charles Debele, the milkman, who sold a valuable cow sometime ago to a resident of Bermuda, has just received word from the owner who says that the cow is doing better than promised. She gives twenty-five quarts of milk a day.

A Martha Washington Supper.

Quite elaborate preparations are being made by the members of the Ladies' Aid Society of Hope chapel for the Martha Washington supper which will be held at the chapel on the evening of Friday, February 23d.

NEW BRUNSWICK TEAM LOST AT BASKET BALL

Plainfielders Won by a Score of 30 to 12.

GOOD TEAM WORK WAS SEEN

VISITORS PLAYED A PLUCKY GAME, BUT WERE OUTCLASSED.

Local Association Represented by a Team Chosen From the Regular Attendants at the Evening Gymnastic Class—The Most of the Play Was Open—The First Half Decided the Game.

The best exhibition of basket ball seen in Plainfield this season was the game last evening between the team from the evening class of the Plainfield Y. M. C. A. and a team from the New Brunswick Y. M. C. A. There was more real team work displayed in the first half than has been witnessed this winter, while the game was entirely free from the rough and unpleasant features that were so noticeable in the Plainfield-Summit game. The result of the match was an easy victory for Plainfield, 30 to 12.

The New Brunswick boys played a return game in the gymnasium of the local association. The local association was represented by a team chosen from the regular attendants at the evening gymnastic class. The five that lined up in the first half for Plainfield played hard and fast basket ball. There was good team work. Marcley, Moraller and Perrin played the zigzag game in fine form. Marcley was, in particular, deserving of commendation for the strong game he played. Cranston developed into an excellent guard and he and Perrin hardly gave the visitors a chance to try for goal in that half. Most of the play was open and consequently pleasing to the audience that braved the storm to see the game.

The visitors played a plucky game but their opponents of the first half clearly outclassed them and their game was entirely on the defensive.

In the second half three changes were made on the Plainfield team to give the substitutes a chance. The new men failed to hold the pace set in the first half and the team play was not so apparent. The Brunswickites took new heart and put up a game fight to recover their lost honors. Moraller and Marcley played the best for Plainfield, the former showing marked improvement in his goal throwing. The visitors were in hard luck and deserved a higher score. Time after time the ball rolled around the edge of the goal only to drop off instead of into the goal.

The teams lined up as follows:

PLAINFIELD.		NEW BRUNSWICK.
Whitall-Brokaw	right forward	Kuhn
E. Moraller-Derby	left forward	Deinger
Marcley	centre	Ownes
Perrin-E. Moraller	right guard	Burton
Cranston-Zimmer	left guard	Manley

Score—Plainfield, 30; New Brunswick, 12. Goals from the field—Whitall (1), Moraller (7), Marcley (5), Perrin (1), Cranston (1), Kuhn (3), Deinger (2). Goals on fouls—Kuhn (2). Fouls—Plainfield, 2; New Brunswick, 1. Referee—C. E. A. Herwood. Umpire—L. I. VanAlstyne. Timekeeper—M. W. Shetter. Scorer—M. W. Shetter.

NEARLY 100 YEARS OLD.

Miss Pettit Has Recovered Her Hearing and Eyesight.

Miss Sarah Pettit, of Flemington, will celebrate her 100th birthday March 5th. Her parents were Jesse and Annie Pettit, both of whom nearly reached the three-score and ten mark. She was born about two miles west of Flemington, and has spent the greater portion of her life in this vicinity. Years ago Miss Pettit's hearing failed her and her eyesight also became impaired. A few years ago she recovered her hearing. Her eyesight also came back to her. Both finally left her to a great extent again, but have returned at intervals ever since. During the past week she recovered her hearing, so that she can now hear the slightest noises. Her eyesight has also improved wonderfully.

Sociable Postponed.

Owing to the illness of a number of the members, the social of the Christain Endeavor Society of the Seventh-Day Baptist church, which was to be held at the home of Dr. F. T. Clawson of West Seventh street, tomorrow evening, has been indefinitely postponed. A novel kind of entertainment appropriate to St. Valentine's Day had been arranged but it will be given at a later date.

Large Attendance at Holiday Matinees.

There were many Plainfielders who observed Lincoln's Birthday yesterday by attending a holiday matinee at one of the New York theatres. Most of the theatres gave special matinees in honor of the day and Plainfield was represented at almost all of them. There were several theatre parties who went in to New York for the evening performances.

CONGRESS AT WORK.

Senate Begins Last Week of Financial Discussion.

IMPORTANT SHIPPING BILL PASSED.

House Favors the Measure to Give United States Transportation Companies a Share In Transcontinental Trade In the Orient.

WASHINGTON, Feb. 13.—The final week's discussion of the pending financial bill was begun in the senate yesterday. The speakers were two Republicans, Mr. Elkins of West Virginia and Mr. Wolcott of Colorado, and one Populist, Mr. Butler of North Carolina.

Mr. Elkins advocated the passage of the pending senate measure in a brief but forceful argument. Mr. Wolcott, chairman of the international bimetallic committee of 1897, spoke for many Republicans who adhere to bimetallism, and his speech, earnest and eloquent, was accorded unusual attention. Mr. Butler closed the debate for the day, advocating the adoption of his amendment providing for an issue of paper currency by the government.

The senate confirmed the nomination of Mrs. Bertha Honore Palmer of Illinois to be a commissioner to the Paris exposition.

A bill was introduced by Senator Foster of Washington providing for the construction of a government cable line from the United States to the Philippines. The distinguishing feature of the bill is that it requires that the cable shall be laid from some point on the coast of the state of Washington and that it shall run via Alaska and north of the Aleutian islands to the island of Attu and thence to the boundary between Russia and Japan and thence, with several stops, to the Philippines. An independent cable from San Francisco to Hawaii is provided for.

An important bill was passed by the house which makes universally applicable the law that now permits the transit of goods in bond through certain parts of the United States. Under it goods in bond can be shipped through any port of the territory of the United States to foreign ports. It is principally designed to give the transportation companies of the United States a share of the transcontinental trade to the orient. The bill also repeals the law of March 1, 1895, prohibiting the shipment of goods in bond to the Mexican free zone. The latter provision was fought by Mr. Stephens of Texas. The remainder of the day was occupied in passing the private pension bills favorably acted upon at last Friday night's session and in District of Columbia legislation.

An Appeal For Molineux.

NEW YORK, Feb. 13.—The Tribune prints the following: "Bartow S. Weeks, attorney for Roland B. Molineux during the recent trial for the murder of Mrs. Katharine J. Adams, yesterday made a lengthy statement to a Tribune reporter. He said, among other things: 'I shall move on Friday before Recorder Goff for a new trial of my client before sentence is pronounced. From a denial of that motion I shall appeal on the following grounds, among others: First, that the verdict of guilty was not justified by the evidence; second, that the testimony with reference to the death of Barnet was improperly admitted; third, that the testimony of certain experts upon which the conviction apparently rests was not sufficiently corroborated. I cannot at this time outline all the features of the arguments pertinent to this case. But Roland Burnham Molineux will finally be acquitted. The finding of the jury on Saturday night will not stand. The court of appeals will, I am sure, grant a new trial, and my client's acquittal will follow.'"

To Doctor New York's Charter.

ALBANY, Feb. 13.—Governor Roosevelt has stated that he hoped that the Fallows bill, providing for a commission of 15 to revise the New York city charter, would be passed by the legislature. He said that it was an important bill and that it was important that it should pass quickly. The governor desires to have ample time in which to select men who will be representative, who will be specially qualified for the work that will be intrusted to them and who will be willing to give to their work their undivided attention. It is also the desire of the governor that the commission should begin its labors at once so that its report will be completed, if possible, by Dec. 1, 1900.

Count Leontieff's Denial.

PARIS, Feb. 13.—Count Leontieff, governor of the equatorial provinces of Abyssinia, protests in a communication to the press from Marseilles against the Cairo dispatch which made him prejudge the intentions of Emperor Menelik relative to Great Britain. He says that as an officer in the army of the negus any speculation of this nature would be forbidden him and that the words attributed to him were even contrary to his own opinion, because he has long been personally convinced that the negus has the greatest desire to preserve the best relations with all of the neighboring powers.

Date of Wainwright's Change.

WASHINGTON, Feb. 13.—According to an order issued by the navy department, Commander Richard Wainwright will be detached from duty in charge of ships at the Naval academy March 14 and assume the duties of superintendent of the Naval academy March 15. It is expected that the officers now on duty at the academy senior in rank to Commander Wainwright will be relieved and succeeded by others of rank junior to the new superintendent before the date set for the latter to take charge of the academy.

To Free Mrs. Maybrick.

NORFOLK, Feb. 13.—Efforts are again making here to secure freedom for Mrs. Florence Maybrick, now serving a life sentence in England for the murder of her husband, James Maybrick. The Maybricks lived here at one time. It is purposed to have people from New York, Washington and Norfolk make an appeal to President McKinley to intercede in Mrs. Maybrick's behalf with the British authorities.

Navy Department Will Control.

WASHINGTON, Feb. 13.—The president has issued an executive order placing the island of Tutuila under the control of the navy department. Assistant Secretary Allen is charged with the administration of this and other islands under the jurisdiction of the navy department.

SAW GOEBEL SHOT.

"Bullet Not Fired From Executive Building," Says Mrs. Saffel.

LEXINGTON, Ky., Feb. 13.—Mrs Amelia Browder Saffel, widow of Will S. Saffel, Jr., who keeps a boarding house in Frankfort on Broadway near the Capitol square, said last night that she witnessed the shooting of Senator William Goebel in the statehouse yard on the morning of Jan. 30. She had been asked by Colonel Roger D. Williams of the Second regiment, Kentucky state guard, to furnish board for several officers of his regiment who were coming to Frankfort. She had started to go to his office to tell him what she would do in the matter.

Immediately after entering the inclosure she was passed by Senator Goebel, who tipped his hat to her. He turned to the right of the fountain, while she turned toward the left. Just as Mr. Goebel was about opposite the fountain she says she saw a man who was walking a short distance behind him pull a pistol and shoot him in the left side. He handled the revolver with his left hand, and the report was followed by a small amount of thin, white smoke. She saw the man run to the statehouse, enter the building and then come out and go to the wounded man. She says Eph Lillard, whom she knows, entered the statehouse a few moments before the man who did the shooting reached the steps. She did not know the man who fired the shot, but has given a good description of him to Governor Taylor, who has also a full written statement from her, as well as one from a commercial traveler and another woman who saw the occurrence.

The commercial traveler does not live in Frankfort, but goes there once a week, while the other woman is a resident of the capital. In commenting on the shooting Mrs. Saffel said:

"I know the shot which followed William Goebel was not fired from the executive building. It was fired by a man who stood on his left side. I have steadily refused to tell this to any newspaper man, as Governor Taylor and other lawyers say I ought not to tell it at this time.

"My statement is fully corroborated by the two other witnesses, and as Governor Taylor has all three of them in his possession he knows just what we know. He says he will use these statements at the proper time. I am afraid my telling what I know about the shooting of Mr Goebel will get me into all kinds of trouble. At the time Governor Taylor thinks proper I shall tell all about the killing of Goebel. In the meantime you can say that the shot which killed him was not fired from the executive building."

CONDENSED DISPATCHES.

The survey of a route for a Pacific cable has been finished by the steamer Nero.

The fifteenth annual state convention of the Ohio League of Republican Clubs opened at Cincinnati.

The baseball magnates at Chicago decided to start the American association season whether with six or eight clubs.

In New York city William Steinitz, the chess champion for 30 years, was removed to the Manhattan State Hospital For the Insane.

Imports into Porto Rico from the date of American occupation to Dec. 31, 1899, were $12,191,829 and exports in the same time $11,696,807.

Archbishop Patrick A. Feehan of the Roman Catholic archdiocese of Chicago was taken ill with pneumonia at his residence in that city.

No Trial For McGiffert.

NEW YORK, Feb. 13.—The New York presbytery has dropped the charges of heresy which had been preferred by the Rev. Dr. G. W. F. Birch against the Rev. Dr. Charles C. McGiffert and has been made the basis of a judicial inquiry beginning with the last meeting of the presbytery. The charges were dropped on the motion of the Rev. Howard Agnew Johnston, who had striven earnestly to that end ever since it became apparent that an effort to try Dr. McGiffert was to be made. It is probable that the action of the presbytery in dropping the charges will cause Dr. Birch to appeal to the next general assembly to force the presbytery to have a heresy trial of McGiffert.

Bold Bank Robbery.

EL PASO, Tex., Feb. 13.—B. C. Bowman, a banker at Las Cruces, N. M., telephoned to this city yesterday that his bank was held up by two men at 2 o'clock and robbed of $3,000. The robbers rode into town and hitched their horses at the Rio Grande hotel, on the opposite side of the street from the bank. Then they crossed over and entered the bank, covering Cashier Freeman and the woman bookkeeper with six shooters. The cashier was forced to open the safe, and the men took all available cash. They then quietly left the building with a warning to those within to keep quiet. Mounting their horses, they rode toward the Organ mountains, 15 miles away.

Seven Burned to Death.

PETERSBURG, Va., Feb. 13.—The house of Martha Smith, in Sussex county, near Stony Creek, was destroyed by fire on Saturday night, and she and six of her children were burned to death. Only one member of the family, a boy, escaped, and he did so by jumping from a two story window. How the fire originated is not known, but it is supposed to have been the work of an incendiary. The seven bodies were found Sunday morning in the ruins of the house.

For Exposition Commissioner.

WASHINGTON, Feb. 13.—Representative Livingston of Georgia, after seeing the president in behalf of the appointment of Charles A. Collier as a commissioner to the Paris exposition, on leaving the White House stated that the appointment would be made. Mr. Collier was president of the Atlanta exposition held a few years ago.

German Naval Bill May Fail.

BERLIN, Feb. 13.—During the last few days the chances of the naval bill have perceptibly diminished. The semi-official Berliner Post reckons with the possibility of a rejection after the Easter holidays and adds that in case the reichstag is dissolved new elections will be ordered.

Coal Miners' Conference.

PITTSBURG, Feb. 13.—The annual conference of the coal miners of the Pittsburg district began today. The convention will be one of the most important held by the miners of this district in years, and it is probable that the gathering will continue during all of the week.

OH, MAMMA DEAR!

did you hear that Woolston & Buckle has the finest wall paper in town. With Kaleidoscopic change on lovely backgrounds?
Daisies blossom on paper of azure blue,
Roses bud and bloom on an ashen hue,
Lillies of the valley are scattered on green
And flowers of all tints are everywhere seen
On colors exquisitely blended with care
To reproduce fruits, and flowers as fair
As if aid on by Nature s own hand,
Unique designs both opaque and round,
And Japanese figures on gilded ground
And fantistic Beardsley lines are found
In a bewildering array.
Transform your bare and hideous walls
Into dreams of beauty as profuse
As covered Granada's famous halls,
From any design your fancy may choose,
The walls of the cottage are covered with ease,
It's not our custom, but the wealthy to please.
We have beautiful papers at a low price. Although not so gorgeous, are artistic and nice.

TEETH.

If you have any to be extracted remember you will not be hurt in the slightest. My local anesthetic is the best that can be obtained and is not known to the other dentists in this city. Gas strictly fresh administered by an expert if you want that. If you need artificial teeth you may rest assured that the greatest care will be exercised in selecting shape and color to harmonize with the face, also to restore the features to their natural expression and fullness. This is most important.

Plainfield citizens praise Doan's Kidney Pills

Kidney sufferers appreciate this.
They find relief for every kidney ill
Read what this citizen says;

Mrs. M. A. Hall of 219 Prescott place says; "For several years I had a dull aching pain across my back at times extending to my hips. I was compelled to lie in just one position all night and stooping, lifting or bending forward aggravated the pains. A kidney weakness which was very distressing and inconvenient also existed and though I used different remedies that were recommended to me I obtained little if any relief. I saw Doan's Kidney Pills highly endorsed in our daily papers and procured a box at L. W. Randolph's drug store. It was not long before I felt great relief and I was suprised how quickly the pain in my back disappeared."

For sale by all dealers. Price 50 cent a box. Foster-Milburn Co. Buffalo, N. Y. sole agents for the U. S. Remember the name Doan's, and take no other.

BAD BREATH

"I have been using CASCARETS and as a mild and effective laxative they are simply wonderful. My daughter and I were bothered with sick stomach and our breath was very bad. After taking a few doses of Cascarets we have improved wonderfully. They are a great help in the family."
WILHELMINA NAGEL,
1137 Rittenhouse St., Cincinnati, Ohio.

DOGS AS POLICEMEN.

French Officer Has Just Organized an Auxiliary Force Which Is Doing Good Service.

Elsewhere than in Chicago it appears that the need is felt of more police officers to properly patrol the territory which they are obliged to cover. M. Vanwesmael, the chief of police at Gand, France, has solved the problem successfully without being obliged to increase the number of men. He has

FOUR-FOOTED POLICEMEN.
(Trained to Assist Officers in the Pursuit of Criminals.)

organized and has had in use for a number of months a corps of dog police. Formerly it was necessary in some quarters of Gand to let the police travel in couples, as a single man was likely to be attacked and perhaps dangerously beaten. Now the night patrolmen on these dangerous beats are accompanied by a couple of well-trained and formidable dogs, which serve as a sufficient protection to the policeman and at the same time greatly assist in the capture of fleeing criminals. On the other beats the dog is trained to make the circuit of the alleys, while his human companion travels on the street in front. The dogs are trained not to attack unless ordered to do so. There is now talk of adopting the dog police in Paris.

FRANKFORT IS QUIET

Republican Members of Legislature Meet and Adjourn.

DEMOCRATS ARE NOT IN EVIDENCE

Urged by His Friends, Governor Taylor Decides to Retain a Few Troops to Insure Safety—Judge Taft Hears Injunction Case.

FRANKFORT, Ky., Feb. 13.—Yesterday was another day of unbroken calm in Frankfort. The Republican members of the legislature met at noon and appointed committees to inform Governor Taylor that, pursuant to the terms of his proclamation adjourning the legislature at London and calling it to Frankfort, they had come to this city and were prepared to transact such business as might come before them. The governor acknowledged the messages, and both houses adjourned until today. There were nine members in the senate and 23 in the house.

The committee which was expected to come from the Democratic members at Louisville to report whether it is safe for them to come to Frankfort did not put in an appearance during the day. The Republican leaders say that they expect nothing now to transpire until after Judge Taft in Cincinnati has rendered his decision on Wednesday.

At one time Governor Taylor decided to order away all of the soldiers now here with the exception of a few for a personal bodyguard. He sent for Colonel Williams and actually gave the orders for the moving of the troops, but several of his friends urged so strongly that the soldiers be permitted to remain that Governor Taylor changed his intention and said that, for the present at least, he would not have any more of them returned to their homes.

KENTUCKY INJUNCTION CASE.

Argued Before Judge Taft, Who Reserves His Decision.

CINCINNATI, Feb. 13.—In the United States circuit court of appeals Judge W. H. Taft heard arguments yesterday afternoon for over three hours on the applications for injunctions against the Kentucky state board of election commissioners and the contestants for the state offices other than governor and lieutenant governor.

The large courtroom was unable to hold all who came to the federal building for admission. Very many of the visitors were from the Kentucky side, notably the plaintiffs against the state board, who are citizens of Covington. The Republican state officers were also present, but the only one of the defendants in attendance was Judge Ponts of the state board. There were quite a number present from Frankfort and Louisville.

The plaintiffs were represented by Bradley, Willson, Sweeney and Yost, all of Kentucky. The defendants were represented by Scott, Hendrick, Hager and Maxwell, the latter being a member of the bar of Cincinnati and the others of Kentucky.

After hearing arguments Judge Taft reserved decision until Wednesday afternoon.

Large Reward For Goebel's Slayer.

LOUISVILLE, Feb. 13.—There is much talk among Democratic legislators about passing a bill offering $100,000 reward for the detection of the assassin of Governor Goebel. Such a bill has been prepared and it is believed will pass.

Baltimore Celebrates.

BALTIMORE, Feb. 13.—Lincoln's birthday was celebrated here by an elaborate banquet under the auspices of the Union League club, the leading Republican organization of the south, in its handsome clubhouse. More than 300 guests sat down at the banqueting tables, among the most distinguished of whom were Louis E. McComas, United States senator from Maryland; Joseph R. Hawley, United States senator from Connecticut; Clarence D. Clark, United States senator from Wyoming, and Congressman Albert J. Hopkins, from Illinois.

Large Postal Receipts.

WASHINGTON, Feb. 13.—A statement prepared at the postoffice department of the gross postal receipts for January, 1900, as compared with the receipts for the same month of the preceding year shows an unusually large percentage of increase. The total receipts were $4,037,919, an increase of $389,653, or 10.6 per cent. The offices at which the largest increases are shown are Lowell, Mass., 43 per cent; Syracuse, 40 per cent; Jersey City, 27 per cent, and Nashville, 27 per cent.

A New Cabinet Officer.

WASHINGTON, Feb. 13.—A new cabinet officer to be known as the secretary of mines and mining is provided in the bill favorably acted on by the house committee on mines and mining. The bill creates an executive department which shall have entire charge of affairs relating to mines, including the geological survey. The proposed secretary of mines is to have the same rank and salary of other cabinet officers, and an assistant secretary is given the same standing as the first assistant secretary of the interior.

Death In a Landslide.

CHARLOTTE, N. C., Feb. 13.—At 2:30 yesterday morning a west bound through freight on the Western North Carolina road ran into a heavy landslide near Black mountain. The engine was overturned. Adam Jeffries, fireman, and Port Nichols, brakeman, were caught under it and crushed to death.

Big Offer For Transvaal Service.

HALIFAX, Feb. 13.—Immigrants arriving here, mostly Russian Jews, have informed the immigration commissioners that some of their number bound to the United States were offered 200 rubles at Amsterdam to join the Transvaal forces. The offer was made to those who had military training.

Statue to General Spinner.

WASHINGTON, Feb. 13.—The senate has passed a bill granting permission for the erection of a bronze statue in Washington in honor of General Francis E. Spinner, late treasurer of the United States, and appropriating $2,500 for a pedestal.

India's Famine Increases.

LONDON, Feb. 13.—The India office has received a dispatch from Lord Curzon the Indian viceroy, in which he says that the distress arising from the famine is steadily increasing and that those now in receipt of relief number 3,784,000.

DARK FOR DAWSON.

Rush For Cape Nome May Ruin the Klondike Metropolis.

TACOMA, Feb. 13.—Dawson advices say little will be left of the Klondike metropolis after the home rush in May and June. Merchants are closing out their places of business, and instead of every building being crowded "to let" signs are frequently seen. Business is dying, and most of these dealers are going to Nome. Men are working on creeks for $5 per day rather than take higher wages payable after the clean up on the bedrock, because they want their money in hand when the ice goes out. Many of these will go down the Yukon in canoes.

One of the greatest enterprises connected with the immigration is the movement of the Palace Grand theater, Dawson's largest dance hall and playhouse. Charles Meadows, the proprietor, has let the contract for moving the building 2,000 miles to Nome, the contractor putting up heavy bonds guaranteeing its safe delivery. The building will be floated down the Yukon on four barges and thence towed to Nome. Other buildings will follow.

Many workmen are leaving Dawson because of the new law preventing the relocating of claims and providing that lapsed claims revert to the crown. Another regulation provides that representation work may be avoided by paying $200 yearly in lieu of three months' work. The latter provision gave employment to a great number of men who are now thrown out.

Even Canadians are cursing the laws governing Yukon territory and preparing to go to Nome. The American consul is being besieged by Canadians who believe he can grant naturalization papers.

PAYN STEPS OUT.

Mr. Hendricks Assumes the Office of Insurance Superintendent.

ALBANY, Feb. 13.—State Superintendent of Insurance Francis Hendricks yesterday assumed charge of the state insurance department, relieving the retiring superintendent, Louis F. Payn. Superintendent Hendricks arrived at the department at 10:30 a. m. and was received by Superintendent Payn and Deputy Superintendent Robert H. Hunter, Harry Appleton and William H. Buckley.

Superintendent Payn at once proceeded to turn over to Superintendent Hendricks the properties of the department, the securities deposited by insurance companies with the department for the protection of policy holders in this state. The securities are in registered bonds and amount to $20,214,000.

Superintendent Hendricks stated that he had no announcements to make. Superintendent Payn was presented by the clerks of the department with a beautiful loving cup suitably engraved. In return to the clerks for their token of esteem Superintendent Payn addressed to them a letter in which he thanked them and said that he was gratified to lay down his work to a man.
